AN English officer, in a letter to one of the English papers, bitterly assails the system of confidential reports. "General ROWLANDS," he says, "has recently lectured the men of some British regiments on the unmanly and un-English practice of writing anonymous letters. What influence can he expect his protest to have when he himself is the representative of a system of stabbing in the dark equally offensive and much more serious in its effects? I refer to pernicious confidential reports which honeycomb the whole of military society, and do more than anything to disturb the harmony and good feeling which should exist among officers. I have to write confidential reports, but I tell those concerned what I have written about them; I would not write anything I would not tell them. As long as officers write confidential reports they can hardly upbraid the common soldier—you see he is not an educated man—who writes anonymous letters."

ACCORDING to some of the daily papers quite an excitement has been caused in naval circles over the reported discovery of extensive evasions of the revenue by officers of the recently returned training ships *Saratoga* and *Portsmouth*, which have lately arrived at Newport from the summer training cruise in Europe. The stories of thousand of dollars of foreign goods being found concealed in the baggage of naval officers may please the imagination of the public, but it will only provoke a smile from those who are at all familiar with the actual condition of naval bank accounts and naval pocket books, which usually bear a striking resemblance to the one on which the elephant had stepped. The reports from Newport, as well as those from San Francisco, which we recently published, no doubt originated in the attempt of some one to "serve out" some particular individual on board a naval vessel by reciting to the credulous customs officers the well worn tale of smuggling, evading the laws, etc., which is so frequently told on the arrival of men of war from "Far Cathay" or other foreign ports.

CAPTAIN R. W. MEADE, U. S. Navy, President of the Board appointed to make an inventory of stores and supplies at the several navy-yards, returns to Washington from the Boston yard on Saturday, October 23. All the yards have now been visited and a complete list of articles belonging to the Navy prepared. The future work of the Board will be in the direction of framing a scheme to consolidate the supply branches as indicated by the Secretary of the Navy. The chief object seems to be to form one supply division for all the bureaus of each navy-yard. At present each bureau has its store house and its own officials and clerks to distribute supplies. 160 persons are paid to carry on the work of distribution under the present system. Under the proposed new arrangement, it is believed that five men at each navy-yard—40 in all—can perform the same work that is now being done by 160. The Board will meet at the Navy Department hereafter, the old Advisory Board room having been fitted up for their use.

WE publish elsewhere the order addressed by General MILES to his troops congratulating them upon the successful result of the campaign against GERONIMO. It will be observed that he says distinctly in this order that the hostiles surrendered as prisoners of war, trusting entirely to the honor of brave officers and soldiers who had pursued and fought them incessantly for four weary months, and placed them at the mercy of the Government. Too much cannot be said in praise of the energy and devotion of our troops, officers and men, as displayed in this campaign. We have already had occasion to express our own approval of it, and we take a sincere pleasure in placing upon the record this admirable order issued by General MILES, as well as the report of the capture of MANGUS, which further emphasizes the success of General MILES.

THE plans and specifications for the completion of the Monitors, as provided for at the last Congress, are being rapidly pushed toward completion by the board of which Naval Constructor POOK is president. The work is being done at the New York Navy-yard. An additional number of draftsmen from the Construction Bureau at the Navy Department were sent there this week to assist on the work. The Secretary is anxious to have the work finished as soon as possible, in order to get the adtisements out inviting bids for their completion. One of them, probably the *Miantonomoh*, will be finished by the Government at the New York Navy-yard.

THE English Government seem to be having a great deal of trouble with the machinery of their more recently constructed ships, if the reports we read concerning their speed trials, be true. It is only after repeated attempts, says a prominent English publication, that ships can be made to drag through full speed trials. We would recommend the abolishment of the Lords High Commissioner of the Admiralty, who have no knowledge of hulls, machinery or ordnance, leaving the entire matter to the care of the Naval Constructor, the Engineer-in-Chief, and Chief of Ordnance, and then no one can shirk responsibility.

THE death of one of our ordnance officers at Sandy Hook, would seem to be the direct result of Congressional neglect in the matter of appropriations for necessary work. Experiments at Sandy Hook were put an end to for a while, by the failure of Congress to furnish any money for them. It was found necessary to discharge the trained force on duty there, and in their stead a detachment of less experienced men were brought from another post to handle the guns and projectiles. From the nature of the melancholy accident to Captain MEDCALFE aud his assistant, which we report this week, it would appear that the natural result has followed in the death of two men, one of them a valuable young officer.

SEVEN non-commissioned officers were promoted 2d lieutenants and assigned Oct. 22 as follows: George E. French to 4th Infantry, Frank Owens to 8th Infantry, Harry Fletcher to 10th Infantry, Odon Guronitiz to 11th Infantry, Carl Koops to 13th Infantry, Stephen M. Hackney to 16th Infantry, and George W. Martin to 18th Infantry. It has also been decided to appoint Sergeant Brainard a 2d lieutenant of the 2d Cavalry. The vacancies now existing are as follows: 4th, and 5th Cavalries, one each; 19th, 20th, and 21st Infantries, one each; 11th, one, and 25th, two—making 8 in all.

A FEW weeks ago we suggested Fort Pickens, near Pensacola, as a suitable place in many respects for the confinement of GERONIMO and his associate bucks, fifteen in all. Pickens it is and the Indians will winter there and be in charge of the commanding officer at Fort Barrancas. The other Indians at San Antonio, mostly women and children, join their friends at Fort Marion.

NO ESTIMATES for additional vessels of war will be submitted to Congress by the Secretary of the Navy this year. He considers that the Department will have as much as it can do in getting those built already authorized.

IT is understood that Captain WILLIAM S. JOHNSON, U. S. A., retired, who was recently tried at Washington Barracks on charges of duplicating his pay account, has been acquitted.

WE are in receipt of complaints from persons largely interested in domestic steel production, because of the alleged default of the Ordnance officials of the Navy Department in answering applications "for information concerning shapes and weights of armor plates," etc. The advertisement addressed by the Secretary of the Navy to the steel manufacturers of the United States was dated August 21, and given to the press September 15, some three weeks thereafter. It was supposed that this delay of publication was due to the incomplete condition of plans and drawings, the fact of the Secretary's urgent desire for progress being well known to everybody. The advertisement instructs competitors as follows:

> For information concerning shapes and weights of the gun forgings and armor-plates, what parts must be manufactured in sets, time of delivery of each set, the chemical, physical and ballistic tests which the metal must sustain in each case, and for all other particulars, apply to the Chief of Bureau of Ordnance, Navy Department, Washington, D. C.

Within a few hours after the appearance of the advertisement one of the most important steel industries in the United States wrote to Washington asking information requisite in formulating esti mates for armor plates and has thus far received no answer to its request. The conditions of the advertisement are that bids must be received at the Navy Department by noon, December 10, so that less than six weeks are left for the completion of estimates—little enough time for careful consideration of a type of work essentially new to our manufacturers of steel and iron plate. We state these facts for the information of our Ordnance officers who will, no doubt, see that the delay is accounted for.

LIEUTENANT W. R. HAMILTON, 5th U. S. Artillery, in the "Current" for October 16, concludes his series of articles on "The Army and the People." He advocates strongly a popular system of military education, so that for the Regular Army there could always be the choice of the best material in the country. "Aside," says Lieut. Hamilton, "from the value to the Government, of military teaching to all male students, the drill, the habits of discipline, of obedience to orders, of proper self-respect, of increased manliness, would in itself repay the nation many times over, for the experimnnt of trying this system, and it would be an opening for the Army that would bring it nearer the people, for, whether the cadet ever reached the Army or not, he would ever have a knowledge and esteem for if, that would cause him always to lean towards its advancement, and listen with respect to its teachings. It would not be many years before such a system would create a military body of young men of the best material, who, in case of war, would volunteer at once, and we cannot overestimate what the value of such an Army would be. Regiments could be kept full of men trained to some degree of proficiency in the Art of War, with such almost veterans, even raw recruits could be soon drilled and disciplined. Merit would be the standard for which all would strive, and it would excite that proper emulation in our soldiers, as would make the Army, reinforced by the nation, strong for all times and all events."

THE immediate result of the parsimony of Congress is shown in the temporary stoppage of the South Boston Iron Works, to which the Government is largely indebted for work ordered. It is humiliating that with our enormous increase and a surplus in the Treasury, that we do not well know what to do with, we cannot pay our honest debts or carry on with system and forethought works of the greatest importance to our national integrity. A despatch from Boston says: "250 of the most expert iron workers in the country are thrown out of employment; all of them expert iron workers, and some of them the best and most reliable gun constructors in the country." There are fifty thousand dollars due the South Boston Works as unpaid balances on the six 6-inch and two 8-in. guns, which have been completed by the firm, with the exception of certain arrangements of the sights. The delay of the ordnance officers in deciding upon these sights has prevented the delivery of the guns and the payment of the money. Our officers, we regret to say, too often show a lack of practical sympathy with the manufacturer, and too often take their own time in set-

tling matters which involve the prosperity or the ruin of commercial houses. There is no good reason why the Government should compel a manufacturer to draw too heavily upon his capital for carrying on Government work. It is the duty of our officers to assist in every way they can in developing and sustaining the industries on which we must depend in a measure for war material. The misfortunes of the South Boston Company are, we understand, further due to the failure of Congress to reappropriate money covered into the Treasury at the end of the fiscal year and which was designed to meet the payments on a contract which had been extended beyond the time originally fixed for its completion; also to the delay in testing projectiles at Sandy Hook, partly due to the breaking up of the working force there by the failure of Congress to appropriate for it.

The London press is agitating the question as to whether that part of the English military system which is numerically the strongest, the volunteers, cannot be turned to fuller account—that is to say, adapted to render better and more comprehensive service than present conditions allow. Money, of course, is necessary, and the point, says the *Daily Telegraph*, is to ascertain the lowest amount consistent with efficiency. But, while the money question seems to be ripe for settlement, we are still looking for signs that the military authorities are prepared to deal with the volunteers in an appreciative and comprehensive spirit. They have never shown a disposition to do this, save at the magnanimous moment when they gave the auxiliaries a place in that wonderful scheme of affiliation and distribution which, for some time, made the Army List an amusing volume. Their whole policy towards the volunteers has been a thing of shreds and patches—a series of hand-to-mouth measures mostly devised to meet the demand of the moment, and having no sympathetic design. The time for a change has come. The state of Europe is threatening, and Englishmen are anxiously taking stock of their resources. With the best spirit in the world, the volunteers are, at present, next to useless. They have no organization outside the battalion; and no equipment fitting them to take the field. They are a mass of infantry, with few cavalry and no guns. "If no more, why so much?"

The London *Army and Navy Gazette* says: "The German officers who paid an impromptu visit to Aldershot were lucky in their choice of a day. They were mightily pleased with all they saw, and stated that it was only a nation with the highest conception of military matters that could have brought a camp like Aldershot to its present pitch of perfection. It is fortunate for German military opinion that none of the officers who were so lavish of their praise were present at the camp on Wednesday night, when a riot broke out which was only suppressed at the expense of some broken heads and by the arrest of some forty and odd men." A further shock to English military sensibilities is contained in the circular issued to the officers of the British Army by General Lord Wolseley, Adjutant General. He intimates that the Duke of Cambridge, Commander-in-Chief, is dissatisfied over the small progress made in their military training. During the recent inspections, the circular states, the Duke observed that many officers of all ranks evinced much want of knowledge of the duties vitally important to military efficiency, and he strongly insists that the officers shall devote more time and attention to the instruction of their troops. The *St. James' Gazette* says that the Duke of Cambridge, in the freedom of private conversation, expresses the opinion that many of the officers in the British Army are "not worth their salt," and he finds that he has been obliged to address them in a circular which would scandalize the whole army and alarm the country.

A duel took place recently, according to the *Progrès Militaire* (Paris), at Montpellier, between M de Valicourt, captain in the 9th Chasseurs, and M. Gariel, editor of the *Petit Méridional*. An article published by the latter was the immediate cause of the quarrel. M. de Valicourt was hit four times, receiving three wounds, of which the last, a thrust in the right hand, terminated the combat. The opponents thereupon shook hands. We would respectfully call the attention of belligerent members of our own Services to the fact that in similar encounters which we have seen reported, the editor has invariably had the best of it, as in this case.

Lieutenant Commander W. W. Mead, P. A. Surgeon H. P. Harvey, Asst. Engr. J. R. Wilmer, Lieut. H. F. Reich, Lieut. C. O. Allibone, Commander Nicoll Ludlow, Chaplain Geo. W. Dorrance, Asst. Engr. F. C. Bieg, Lieut. John H. C. Coffin, Ensign Franklin Swift, Commander Yates Stirling, Lieut. R. H. McLean and P. A. Engr. Chas. P. Howell registered at the Navy Department during the week.

Mr. Worth Osgood, attorney and counsellor at law, and solicitor of patents, 43 Astor House, New York, furnishes us with the following statement of the number of U. S. patents granted to persons in the Army and Navy during ten years last past: 1876—Army 5, Navy 1, total 6; 1877—Army 14, Navy 2, total 16; 1878—Army 4, Navy 1, total 5; 1879—Army 6, Navy 5, total 11; 1880—Army 6, Navy 3, total 9; 1881—Army 6, Navy 2, total 8; 1882—Army 7, Navy 0, total 7; 1883—Army 6, Navy 3, total 9; 1884—Army 5, Navy 4, total 9; 1885—Army 2, Navy 3, total 5; total for ten years—Army 61, Navy 24—85. During the current year there have been granted to persons in the Army three patents, and to persons in the Navy three, as follows: Francis E. Elliott, Army, car-step, March 16; Edward L. Zalinski, Army, electric shell fuse, May 11; same, firing torpedoes by electricity, May 11; Emmanuel Amodeo-Salvator, Navy, cartridge, Oct. 5; same, cartridge-box, Oct. 5; same, magazine-gun, Oct. 5.

Army ordnance officials resent the statement which comes from Annapolis, to the effect that the published reports regarding the bursting of the Navy 8-inch steel gun originated in a failure of the Army 8-inch gun, which is now being rehooped. They deny that there has been a fracture of the gun, or that there is the slightest reason for dissatisfaction with its performance thus far. The question of extending the hooping to the end of the muzzle, Gen. Benét says, was discussed before the gun was fired at all, and it was there practically determined upon, but as the tube was regarded as a remarkably fine one, the Department concluded to fire it a few rounds to demonstrate whether it could stand the strain in its original form. Careful observation at the last round showed that there was a slight expansion near the muzzle, about the six-thousandth part of an inch. This was sufficient, however, to demonstrate clearly the necessity of running the hoop up to the chase, and it was accordingly determined to make the change.

The New York *Times* says: "General Boulanger, who seems to have a mania for changes in French Army administration, must be credited with one sensible decree just reported by cable, that of making Sunday as far as possible, in time of peace, a day of freedom from military duties. Even on the single ground of expediency, which is probably the one upon which the War Minister rests it, the change is desirable. In our Army there is also a feeling among some officers that the amount of Sunday work is rather overdone, especially where, as at some posts, the day has to carry additional burdens of garrison courts and meetings of minor boards."

The *Admiralty Gazette* complains that England has not a single breech loading gun afloat above 6 inches diameter of bore that she dare fire with impunity, and even her 6-inch guns are to have their chases strengthened, while France, on the other hand, has afloat one hundred breech loading guns of from 10.63 to 16.53 inches diameter of bore, and nearly 200 breech loading guns of from 5.5 to 10.63 inches diameter of bore. France has her 18-knot and 16-knot cruisers, her armored and unarmored gunboats carrying 10.6 and 9.4 inch B.L. guns, while British men-of-war of the same class carry old and obsolete muzzle-loading 64-pdrs. that the Admiralty have been obliged to condemn, issuing orders that they are not again to be fired.

The resignation of 1st Lieutenant Guy E. Huse, 4th Cavalry, has been accepted by the President, to take effect Sept. 1 last. This resignation is to escape being dishonorably discharged or dropped from the Army as a deserter. On the 28th of August last a Court-martial was ordered to convene at Fort Huachuca, Arizona, for Lieutenant Huse's trial on charges of indebtedness, and on the same day he left his station without permission, keeping his whereabouts a secret until a few days since, when his resignation was forwarded from the interior of New Mexico. His resignation promotes W. M. Dickinson of the same regiment.

The death this week of Prof. John Forsyth, formerly professor and chaplain of the U. S. Military Academy, creates a vacancy on the disability retired list. It is probable that 1st Lieut. R. H. Fletcher, 21st Infantry, will be selected to fill this vacancy. He is the senior 1st lieutenant of his regiment, and the policy now is to retire those who block the way for promotion by reason of incapacity. Lieut. Fletcher was found disabled by a retiring board about two years ago.

It is proposed to bring rifle practice within reach of the London volunteers by building covered or underground ranges, either under the public parks, barrack yards, or other convenient localities, lighting them by electricity; the firing point to remain stationary, the targets being advanced or retired.

English public sentiment has been so much disturbed by the blessing of regimental colors by a priest, to which we have already alluded, that the Secretary of State for War has found it necessary to explain "that the part taken by a Roman Catholic priest arose from a misconception of orders" and that "the expression of Mr. Smith's disapprobation with the ceremony, as it actually took place, has been conveyed to all concerned."

Nothing new has transpired this week in connection with the Surgeon Generalship. Daily inquiry of the Secretary of War and other officials of the War Department result in the usual reply, "the President has not reached a decision yet."

THE BARTHOLDI CELEBRATION.

The Naval parade will be one of the features of the inauguration of the Bartholdi statue. The programme is being arranged by Comdr. C. M. Chester, of the *Galena*, Chief of Staff of Admiral Luce. He has an office in room 13 of the Washington Building at No. 1 Broadway, where he will receive applications for positions in the water parade. After the civic and military parade through the city the Naval forces will form opposite 45th street, on North River. The transports, lighthouse steamers, Custom-house steamers, War Department vessels and the launches and boats from the men-of-war anchored in the harbor will head the line, with the *Despatch*, having President Cleveland and Admiral Luce on board, acting as a flagship. After the Naval forces will come a line of steam yachts in double column. These will be followed by excursion steamers, barges, transports, tugs and other craft also in double column. The line, led by the *Despatch*, will steam slowly out of the North River and down the harbor past Liberty Island and by the French and American fleets, turning at the last war vessel near Staten Island and proceeding back to positions near the statue. Comdr. Chester is anxious to have as early as possible a full list of all yachts and excursion steamers that will take part. The war vessels that have been ordered to take part on Bartholdi Day are the flagship *Tennessee*, *Minnesota*, *Alliance*, *Yantic*, *Dolphin*, *Portsmouth*, *Saratoga* and *Jamestown*. Besides these it is expected that a few more now cruising will report to the Navy Department in time to receive orders to proceed to New York. The French frigate *Minerva* left Boston, Oct. 19, to be present at the ceremonies.

A grand display of fireworks will be the feature of the evening celebration. It will be given simultaneously on Liberty and Governor's Islands and the fireworks will be set off in answer to signals from the statue, which will be illuminated by brilliant magnesium lights burned on the balcony at the top of the pedstal. Colored lights will be burned on all sides of the fortifications, lighting up the pedestal and the commanding statue. The entire fleet of French and American war-vessels will be illuminated. The yards and rigging, manned by sailors, and the marines drawn up on the decks along the bulwarks. Brilliant calcium lights will be burned from the extremities of the yards and fore and aft on deck, while the men stationed in the rigging and along the decks will be supplied with colored fire. A file of 100 soldiers, drawn up at intervals of a few yards along the water front facing the Battery on Governor's Island, will be supplied with torches filled with colored lights to be lighted at a signal from the statue on Liberty Island. The French colors will be given first, followed by the red, white and blue of the American ensign. This change of national colors will be repeated several times and end with a variegated display of colored fires.

NEW PUBLICATIONS.

We have already called attention to the excellent Meisterschaft text books which offer a practical system of learning foreign languages with the least possible expenditure of time, effort and money. They are published by the Meisterschaft Publishing Co., 299 Washington st., Boston, Mass., which has organized a system of instruction through the mail, by correcting without charge the exercises of those buying their books, and explaining any difficulties that may arise in the path of the student. They have a series of text books in Spanish, French, German, and Italian.

The edition of the November *Century*, containing the first chapters of the authorized Life of Lincoln and the opening of Frank R. Stockton's new novel, "The Hundredth Man," will be a quarter of a million copies. Mr. Stockton's latest complete story, "The Casting Away of Mrs Lecks and Mrs. Aleshine," will be issued in paper covers and in cloth binding, on Oct. 20, by The Century Co.

"Harper's Magazine" for November has an article on our Revenue Marine, by Lieut. Worth G. Ross, entitled "Our Coast Guard." It has illustrations showing the revenue ensign and pendant, a revenue cadet, signal letters, a map of U. S. coast line, cruising grounds of revenue cutters, and pictures of the revenue cutters *Gallatin*, *Corwin*, *Woodbury*, *Bibb*, *Dobbin*, and *Chase*.

Mr. S. Baring Gould's latest work "Little Tu'penny," is a very readable novel. The heroine is Triptolema Yellowleaf Redfern, who comes to grief through her vanity and coquetries (most of which are due to her bad training by her mother) and finds her way to peace at last only through great tribulation. The publishers are D. Appleton and Co.

We are in receipt of a copy of the "Analytical Catalogue of the Professional Library of the U. S. Artillery School at Fort Monroe." The work, which is an exceedingly valuable and useful one of 341 pages, was compiled by Capt. James Chester, 3d, and 1st Lieut. Albert Todd, 1st Artillery. A brief history of the Artillery School Library is also given.

"Zitka, or the Trials of Raissa," by Henri Greville, recently issued by T. B. Peterson and Bros., of Philadelphia, is a Russian love story, replete with incidents, and with many charming features. Raissa, who, after many trials, wins her just reward, is a heroine of no ordinary mould. The novel is constructed from the play of "Zitka."

The Artillery School press has recently issued a "Description and Service of Machine Guns," by Capt. J. H. Calef, 2d U. S. Artillery.

REVENUE MARINE.

The officers of the *McLane* are transferred to the *Crawford* for duty at Key West. The *Crawford* sailed for Key West Oct. 16.

3d Lieut. James H. Brown has been assigned to the *Grant* at New York, and 3d Lieut. Wm. W. Culver to the *Hamilton* at Philadelphia, Pa.

WARFARE OF THE FUTURE.

To the Editor of the Army and Navy Journal:

BEFORE presenting prizes to competitors for the Army medals at Fort Leavenworth on Oct. 1, Gen. Sheridan said a few words complimentary to the skill shown in target firing and then gave his opinion as to results to be anticipated from increasing accuracy and power of death dealing weapons. The statement was somewhat startling and to this effect:

None of the existing generations of men may live to see it, but the ratio of increase in destructiveness and ingenuity of modern appliances must soon bring a time when no army can stand before another of equal numbers. War, as we have understood it, must then become impossible, and, paradoxical as it may seem, the very perfection of war apparatus must tend to neutralize its effects. The capacity to deal death wholesale must remain latent for lack of a subject voluntarily presenting itself as its aim. Nations will quarrel nevertheless, and armies must exist, but these will become agents for vast destruction of property, seeking thus to cripple the enemy's staying power. As cruisers have sought an enemy's property on the high seas, so the armies of the near future will have an enemy's property as its objective.

The thought instantly arises that this is an unwarranted opinion, bold, but ill considered; that if one army be seeking where to inflict most damage upon property, the defender's army will naturally seek to bar the way and war machinery must then and there find its aim and full scope.

Sheridan, however, is not a talker, and he is still less addicted to writing. It is characteristic then for him to make the broad assertion and leave us the task of finding what thought lay back of it unexpressed.

Every day we hear of new explosives, with increasing power; of new appliances for their use, of ingenious methods for taking advantage of the laws of nature, until men now hesitate to pronounce definitely upon the practicability or impracticability of any proposed departure from precedent. No one will assert that we have reached the limit of invention and it is certain that if the rate of increase be maintained in perfecting engines of destruction, the time must come when life can find no protection in the face of their active aggression. Certainly, then, war, as we understand it, must become impossible. Interests will clash, however; wrong and insult will ever provoke revenge, and war must follow; war, with its immutable principles, hidden under kaleidoscopic changes in practice.

Salient among these will be the anomalous sight of an army apparently attaining its purpose of bringing its enemy to bay and then declining the contest it seemed to be seeking. This seems to be Sheridan's meaning, not that "Othello's occupation's gone:"

Strategic manœuvre must become more and more of a deep study, tactical manœuvre more exacting and imperious in its calls upon physical strength.

The generals' skill and the soldiers' endurance will be greater factors in the product. Every lesson in the art of war to-day must be applied then with added intricacy. Means of information, divination of the opposers' purpose, occultation of design, all must tax the resources of a general to increased degree. Transportation and subsistence must become problems of deeper calculation, for while destruction of property be the objective, its preservation for use is to be sought within certain limits by an enemy, and its destruction as certainly attempted by the owner when defence is impossible.

Woe, greater than ever, to him who shall have placed his Army where he wished, only to find himself confronted by an enemy equal in numbers eager for the fray, and hence cognizant of circumstances making him locally the superior. It would have been all right had skill placed the aggressor master of the situation, compelling his enemy to decline battle; in other words, to seek concentration of force elsewhere. But now the difficulty is to get away without fight, seeing resources behind him destroyed, those in front unattainable, dissolution of his Army staring him in the face, and his own country about to be placed at the mercy of his adversary.

To keep his Army together, to avoid what his enemy wishes to make him accept, namely, a pitched battle with certain defeat, to hide his design and to attain by further manœuvring a concentration that shall place him once more in the ascendant, these must become greater necessities to a general than ever before in war. A battle would be ruin.

Skill and thorough knowledge of his profession will, as of old, put one commander in position to offer battle which must as surely be declined by him who is not, and from the nature of the coming practice cannot be prepared at the same moment to accept the issue.

The very necessity of boldness and celerity in seeking information, in providing for safety of the masses, in all minor operations of war, must call for increase of endurance to meet increase of exertion, increase of skill to meet increase of difficulty.

The officer and soldier of that time will have all hard work, life will not be worth a minute's purchase and it may be said without opprobrium, that

> He who fights and runs away,
> Shall live to fight another day.

The trouble will be to get away, and the credit in having gotten what one wanted before starting.

Pitched battles, then, are to become obsolete and hence the slaughter of men is to diminish in proportion as the means of slaughter are perfected. In other words, "the very perfection of war apparatus must tend to neutralize its effects."

An aggressive army will seek to destroy property as the surest means to bring its enemy to terms, and will offer battle, provided it have the necessary superiority, on the spot. Otherwise it will seek advantage elsewhere *if it can.*

The defensive army will seek to be superior at the decisive point, or decline battle.

As principles, these are not new, but in practical application one commander may certainly find himself checkmated by processes which are clear enough in sad retrospection. He cannot fight because the slaughter of his men will subserve no end, he cannot escape because the first move begins such endless slaughter.

There can be no Thermopylæ, no heroic sacrifice with any hope of attaining adequate purpose, no dramatic nonsense like Balaklava. *Il y aura la guerre; mais il n'y aura rien de beau.*

If Gen. Sheridan's idea be correct it foretells an era which can have no long existence compared to society's previous throes of evolution, and its advent is all the more to be wished as hastening the time when nations may find other means than war for adjusting differences. KENELM.

FOREIGN OPINIONS OF OUR NAVY.

THE New York *Herald* has been inquiring as to the opinion of foreign naval officers concerning our new cruisers. Admiral Aube, the French Minister of Marine, praised the ingenious contrivances for fighting, the pilot house, the central superstructure of the battery, etc., of the *Boston*, and inquired her speed. On being told that it was 13½ knots he shook his head and said emphatically: "Then as a war vessel she is useless. Cruisers of less speed than nineteen knots are a weakness, not a strength to a navy, for they will only be captured or sunk by the enemy. The new cruisers to be built for the French Navy are to have a minimum speed of nineteen knots, capable of being increased to twenty knots during five hours at a stretch by the application of an apparatus of *tirage* force. If they don't attain this speed the government will refuse them."

The Admiral congratulated us upon our freedom from the incubus of the unwieldy ironclads upon which foreign Governments have wasted so much money and expressed the opinion of them to which the ARMY AND NAVY JOURNAL has adhered from the beginning. Cruisers having a speed of nineteen knots would in a fight, he contended, have the advantage of a huge ironclad in which the attempt has been made to unite the ram, heavy guns, armor plating and torpedoes. A cruiser, being small and moving about with rapidity, is almost impossible to be hit, while the huge ironclad is a splendid target, and the huge steel plates are now perfectly vulnerable to projectiles charged with fulmi cotton or with meniline. He said: "The proposed cruisers are merely the application of lessons taught by your great Civil War. They are merely *Alabamas* adapted to the latest advance of science. The motto of your naval reform should be '*Les Alabamas, encore les Alabamas, et toujours les Alabamas.*'"

The Admiral expresses the highest appreciation of the American naval officers, their pluck, their scientific attainments and their splendid seamanlike qualities. The Admiral summed up the whole secret of building naval vessels when he said with reference to new French *cruisers* he was about to ask for:

I shall not have these cruisers built in the Government dockyards, but in the great commercial dockyards of France. I shall say to the mercantile constructors: "Build me a cruiser with a minimum speed of nineteen knots, capable of being increased to nearly twenty knots for a period of five hours"—the critical period of a chase. By the application of the *tirage* force instrument, lately invented, skilful engineers a sure me that this speed is perfectly attainable. I also say to the constructors: "If the cruiser on her trial does not attain this speed then the Government will refuse her, and she can be utilized for the merchant marine." The constructors will agree to these terms, for there is always a demand in commerce for vessels of this type, and thus there is no risk of the Government having on its hands a quantity of failures, as might be the case if the cruisers were to be constructed in the Government dockyards.

The English Admiral, Sir Spencer Robinson, a former Lord of the Admiralty, said:

Your 4,000-ton cruiser seems to me to combine most of the good qualities a cruiser should possess, always, of course, provided she attains an estimated average speed of eighteen knots an hour. This speed is about as high as is necessary, as cruisers must be built to combine many opposing qualities, none of which can safely be subordinated to speed.

The *Italia* he thought an admirable boat for the defence of the Mediterranean, which she makes practically an Italian sea. Outside she would roll herself to bits. She might carry coal enough to cross the Atlantic, but when across she would have no coal to return with, or for bombardments or cruiser chasing. The Admiral said:

Torpedoes, storms and coal supply will, however, effectually limit the action of the heavier armor-clads against the American coast defenders, who now have so much advantage that, even with our West India coaling stations, the British armor-clads can hardly endanger New York. I would like to criticise one point in your cruisers—namely, the rigging, in action. This is certain to be shot away, and probably in falling would foul the screws and wreck the vessel. Moreover, there is nothing to be gained by running such a risk, since if these plans are drawn to scale, your cruiser, nine days out of ten, could not make two knots an hour under sail, hardly steerage way.

George Mackrow, the naval architect said: "If the American cruisers reach eighteen knots that will be, I think, as fast as is needed; nevertheless, I expect within a year or two to see ocean cruisers of twenty knots speed."

William John, manager and naval architect of the Barrow Shipbuilding Company, thought we should have fewer guns and more speed. He said further:

Ironclads are of course absolutely worthless for protecting commerce or destroying cruisers. Cruisers of nineteen knots speed are absolutely safe so far as ironclads are concerned. I do not think such American ports as New York are in the slightest danger from any class of ironclads afloat. Torpedoes, torpedo boats and submarine torpedo boats add, you know, so vastly to the natural difficulties, foreign ironclads would have to contend against outside these ports. I would not dream of using ironclads to protect New York against ironclads.

The *Herald* also interviewed upon this subject Commodore Gherardi, commandant of the Brooklyn yard, and other officers of the Navy, Chief Engineer Albert J. Kenyon, Dr. H. Aulick, and Lieut. Wm. P. Day, and the *Atlanta's* "officer of the deck, a gentleman whose modesty caused him to request that his name should be withheld from publication." The general opinion of the Service upon the new cruisers is so well known that it is not necessary to quote what they said here. Commodore Gherardi is described as "a handsome, dignified officer of the old school. Evidently a seaman to the backbone, and a man who, after many years of active service in all parts of the world, was as keenly alive to the needs and interests of the service as the most enthusiastic young 'midshipmite' or the best posted 'sea lawyer.'"

THE first Roman laws upon the observance of Sunday were especially in the interest of the working classes, and clearly manifest the influence of the new ideas in the Roman world. Thus one in 321 A. D. forbade other labors than those of the field on Sunday, and all civil public acts except emancipation.

(From the New York Tribune.)

BITS OF NAVAL EXPERIENCE AND REMINISCENCE.

THE gentlemen of the ward room on the old receiving ship had finished their dinner, and as the aroma of coffee mingled with the smoke of cigars and cigarettes, they became retrospective, and after the manner of all true sailors began to spin yarns. Somehow the subject of the Sandwich Islands was introduced, whereat the executive officer, who sat in state at the head of the long table, spoke as follows:

My father was one of the officers with old Admiral Kearney when he took his flagship to Honolulu in 1843. The Islanders were about to hoist a national flag and annul the provisional cession of the Islands to England. Admiral George Paulet was there with a British fleet and was very wroth. He sent word to the Hawaiians that if they hoisted that flag he would fire on it. Kearney heard of it. He was a gruff old fellow, an uncle of the immortal Phil Kearney, who fell at Chantilly, and he spoke with a strong Yankee twang. When he heard that Lord George had threatened to fire on the Hawaiian flag if it was hoisted, the old man put on his war-paint and went in solemn state to the great flagship of Admiral Lord George. He was ushered into Lord George's cabin. Taking a seat and placing a hand on each knee he looked his lordship full in the eye and said in a drawl, "I understand—that you said—if them Islanders hoisted that flag—you'd fire on it."

The magnificent Lord George drew himself up, adjusted his eye-glass and replied with great pomposity, "Yes, sir, I did."

"Waal," said old Kearney, shaking his head, "I jist come aboard to tell *you* that if you fire on that flag I'll fire on *you*."

Lord George was so astonished that he nearly had a fit of apoplexy. "Sir," said he when he recovered his breath, "do you know to whom you are speaking? I am Admiral Lord George Paulet."

"And I," replied the old man, rising to his feet, "am Admiral Lawrence Kearney, and if you fire on that flag I'll blow you outer water."

Then he returned aboard his ship and had her prepared for action. That night Lord George got under way and went out of the harbor of Honolulu, and when the Hawaiian flag was hoisted next day Admiral Kearney gave a national salute.

SUNDAY IN THE ARMY.

To the Editor of the Army and Navy Journal:

TACITUS tells us that in the times of which he wrote it was thought by several celebrated officers, that to find out the true sentiments of an army, rank and file, it became necessary to live in it—be amongst them and in such places where the soldier at times gave utterance, in his own often ungrammatical, coarse and disgusting way, to his most secret wishes. This state of things have not, I believe, changed up to the present day, and it shall be the burden of my epistle. For my own part I have heard but few men seriously object to "Sunday work" since I joined the Army, A. D. 1870, and those I did hear object to it did it not through the best of motives; but far from the one, which a good and Christian soldier should have, that of its being the Lord's day. But Lord, oh Lord, how we have howled day out and day in over our other grievances in comparison to which that of "Sunday in the Army" cuts but a sorry figure. Taking a broad and liberal view of things in general under our exalted form of Government the American Army to-day is certainly the best and most perfect Army in the world. Still if we want to hunt up trifles and find matter for improvement we shall never get through with it, because no government, no army, no individual, nothing of any kind—"in its highest glory"—is perfect. If those excellent people who take the "Sunday in the Army" so much at heart would leave this little dwarf alone and not waste such eloquence and such talents upon a wee little bit of a thing like that, but turn their good steel (pens) towards our giant grievances—monsters who for decades have weakened the backbone of the Army—such as the system of punishment by high "blinds," as the phrase goes, the system of company funds, etc., etc., objects which, I think more worthy of their genius, then they would certainly gain more friends amongst the enlisted men than they could do otherwise. G.

THE BUFFINGTON SIGHTS.

To the Editor of the Army and Navy Journal:

NEW rifles, with the improved (?) Buffington sights, have now been issued to the infantry corps, and the old ones, with which some of us have achieved the distinctive f. m. of 200, have been boxed up and "turned in" for further modification. "More's the pity;" we all want them back, but the wheels of progress (?) have overridden all our protests.

The marksmen of '79 and '80, fellow pilgrims of the Army, are growing older year by year, and are passing away; of the good shots some have been discharged, some have gone over the "range," and others, who yet remain, *sur les drapeaux*, are compelled by advancing age to use the eye glass for ordinary print and figures. But the Ordnance Department has taken no note of natural causes and effects in forcing upon the line the acceptance of a new system of sighting without a previous trial. The old sights were good enough and could withstand the wear and tear of full service in which the new are lamentably defective, notably in the skirmish line where the range must be determined in six seconds, after the command "Skirmishers, halt," is given. That automatic arrangement for drift is a failure; the screw which elevates and lowers the slide does not respond to theoretical conclusions, as the slide changes its position in many pieces at every discharge. (A new order has been issued, with a view to correct the defect, which some of us do not understand.) The upturned slide throws the gradations into shadow, and thus renders them illegible, unless it is pushed forward; there the slide stays sometimes until the inexperienced soldier is warned to bring it back by a watchful file closer. Wind-gauge must be taken and allowed, with the new sight as with the old up to 500 yards.

The front sight is too high and too sharp; it is far inferior to the barley-corn sight which we used up to '84. It tears the blouses of the men all to pieces when coming to an "order," and draws the aim of the recruit down to the bayonet stud and then throws the bullet upward and over against the butt.

I hope to see the day when the old sights are restored both to the rifles and the carbine; these could be acquired without adventitious aid. The writer is a disciple of Laidley, from whom he learned the little and all he knows of target practice.

CARTOUCHE.

THE STATE TROOPS.

SHALL THERE BE DISCIPLINE?

Our report of the inspection of the 13th shows a bad state of affairs there, and the "Mother of Regiments" still furnishes an example to the rest of the guard as pernicious as ever. The interest of the service and military decency generally urgently call for immediate remedy. If, therefore, there is to be a court of inquiry let it be ordered and begin its work at once. The proceedings will be tedious enough. The court-martial appointed for the trial of Lieut. Smith, which will probably also try Lieut. Benedict, is a competent one, and if it does its duty neither of the two accused can escape dismissal. To bring every man guilty of insubordination to trial on separate charges in each case, would consume an amount of time and cause trouble almost incalculable, and it would therefore be better to select the ring leaders and those who committed the most aggravated offences, and summarily discharge them dishonorably. This would be getting rid of the bad elements at once without waste of time and trouble, prevent their ever disgracing the service again, and set a wholesome example to those who have been drawn into the mutiny against their better judgment, many of whom now regret their connection with the matter. For the authorities to remain inactive any longer is almost criminal neglect. To keep in service an organization like Co. H is disgracing the N. G., S. N. Y., before the whole world, and the company should be disbanded at once. There is a report that the Inspector General has recommended that course. If not, the authorities should act on their own judgment. This thing has been permitted to go too far already, and there is no remedy short of very radical action. The authorities cannot be ignorant of what is flagrant before the whole world, and they should therefore strike a decisive blow at once. The mother of regiments may have been a thing of beauty, but her joy is now gone forever. She should not be allowed to produce any more children in her present condition.

THE BARTHOLDI PARADE.

The disinclination on the part of the troops to turn out on the occasion of the Statue of Liberty celebration is but natural when the amount of work they have recently been called upon to perform is considered. We have had Governor's Day, Creedmoor, inspections and the preparatory work connected therewith all in one month, and the loss of time, expense to the various organizations, collectively or individually, is quite considerable. No wonder that employers object to their young men joining the State troops. The New York and Brooklyn troops lost an entire day each when they turned out before the Governor, and the expense for music, etc., on that occasion was quite an item. In fact, as it was well known that the National Guard would be expected to turn out October 28, the Governor could have reviewed them on that occasion and made one job of it. Taking into further consideration that neither the General Government at the Grant funeral nor the State at the previous celebration in connection with the Statue of Liberty, reimbursed the regiments for band expenses, their disinclination to turn out again on an occasion for which the General Government should have provided a liberal appropriation is well founded, and not at all due to lack of patriotism. The brigade commander appreciated the situation and has left the matter of turning out to the option of the troops, and so far only the 7th Regiment and the two batteries have signified their intention of parading, and there is no prospect of any of the others falling into line. While the absence of the National Guard will detract much from the appearance of the parade, which should be as imposing as possible, the unpopularity of a turnout among the troops is not unreasonable. First to make a man pay out of his own pocket for being a soldier, and then to require him to lose time and pay expenses which should be defrayed by the Government is putting it on too heavily.

INSPECTION OF THE 14TH NEW YORK.

The 14th was inspected in its armory on Monday evening, Oct. 18, with the following strength:

	Present. Offi-cers.	En'l men.	Tot.	Absent. Offi-cers.	En'l men.	Tot.	Agg.
F. and S	8	—	8	2	—	2	10
N. C. S	—	10	10	—	1	1	11
A	3	39	42	—	9	9	51
B	2	40	42	—	14	14	56
C	2	34	36	—	14	14	50
D	3	47	50	—	6	6	56
E	3	61	64	—	6	6	70
F	3	55	58	—	2	2	60
G	2	39	41	—	10	10	51
H	3	38	41	—	18	18	59
I	3	43	46	—	1	1	47
K	1	48	49	—	4	4	53
	33	454	487	2	85	87	574

This shows a loss of 33 since last year. Inspector-General Schaefer was present in uniform, assisted by Colonels McGrath and McLewee, in making the inspection. The command was formed about 30 minutes behind time by the new adjutant, A. B. Campbell, in fair shape, and then a standing review was tendered Gen. Schaefer, after which the command at once formed column of companies for inspection, and the two assistants began the work and finished it in rapid manner. The men stood fairly steady, but in many cases their dress was carelessly arranged, the accoutrements put on slovenly; there was lack of uniformity in arranging spare articles of uniform, such as caps, etc.; in many instances gloves were lacking. All this should have been corrected in the company rooms before marching the men out, and if the captains and 1st sergeants of the companies where these defects occurred had had an eye to business the inspectors would have had no occasion for any criticism on such points. It is their duty as much to make the men appear neatly as it is to teach them their drill. In the latter respect there was a good deal of awkwardness in the execution of the inspection of arms, and receiving back the pieces, opening the boxes, etc. Overcoats were not compactly rolled nor strapped on the knapsacks with any attempt at neatness. Subject to those remarks the regiment looked well, and the loss of 33 as stated above is made up for in the quality of those who have joined during the same period.

The officers entertained the inspecting party in a handsome manner after the conclusion of the affair.

INSPECTION OF THE ELEVENTH N. Y.

The 11th was inspected at the armory of the 69th on Friday evening, Oct. 15, in State Service uniform. They arrived punctually on time, which is certainly a sign in favor of the regiment as compared with the practice in vogue in former years. Its general appearance indicated that gradually a different, more intelligent and generally better element is taking the place of the old stock, which was neither amenable to instruction nor discipline. Still there are, particularly among the officers, some who are rather drawbacks than supports to the organization, but the new regime has decided their fate that they "must go," and, therefore, it may be expected that the regiment will be rid of them at an early date. While the instruction and set-up does not yet by any means approach that of our 1st class organizations, there was a remarkable improvement in steadiness, and that peculiar disposition of the men of the regiment to leave the ranks had apparently disappeared. Considering the opportunity they have enjoyed for instruction, their appearance and performance were very creditable. Of the latter there was simply a march into the armory, a wheel into line, and formation of column of companies for inspection, which, as usual this season, was held by Colonel T. H. McGrath, accompanied by Colonel McLewee, of the State Inspector-General's Department, and Major Montant, inspector on the staff of Brigadier-General Fitzgerald. The latter is improving very fast and apparently promises to become familiar with all the details of his new office; at least his actions on this occasion indicate that fact. As to the regiment, there was a time when it could easily muster more than double the force present on this occasion, but then there was not a vestige of discipline. In comparison, the command at present is small, but what there is of it is more serviceable, and if Colonel Stewart succeeds as well for the next year as he has since assuming command, the command will show to better advantage next year. The inspecting party were apparently much gratified with what they saw. The presence of a large number of officers from other regiments, among them Lieut.-Col. Sam Welch, of the 65th, who will, no doubt, become the successor to Colonel Waud, who has resigned, shows that the Guard at large takes increased interest in the fortunes of the 11th.

The Board of Officers entertained a number of the officers at the establishment of Commissary Wolf, of the 11th, in a handsome manner.

The following statement shows a rather large percentage of absentees:

	Present. Offi-cers.	En'l Men.	Tot.	Absent. Offi-cers.	En'l Men.	Tot.	Agg.
F. and S	9	—	9	—	—	—	9
N. C. S	—	10	10	—	1	1	11

INSPECTION OF THE THIRTEENTH, N. Y.

On account of the troubles in the 13th, the inspection which took place on Tuesday evening, Oct. 19, proved a matter of more than usual interest. It had been reported that acts of insubordination would be committed and this brought out a large crowd of spectators, more than is generally the case. There was also a number of prominent officers of the General Staff, and of New York and Brooklyn regiments, who are seldom seen on occasions of this kind. Among these we noticed particularly Brig.-Gen. J. M. Varian, Chief of Ordnance; Brig.-Gen. W. H. Brownell, Col. E. F. Gaylor, of the 47th, several officers of the 12th New York, and a host of others, whose names lack of space forbids us to mention. These all clustered around Colonel Fackner, and all their actions demonstrated their approval of the course taken by that officer and their support. Inspector-General Schaefer was present in uniform.

The regiment turned out in fair force, and when the call for the formation of line sounded everybody watched with intense interest the action of the men. Nothing unusual, however, occurred; on the contrary, the command formed well and stood steady and the inspecting party could hardly find anything to criticize while walking along the line. There was no passage in review. When the Inspector-General and his assistants, who, on this occasion consisted of Colonels T. H. McGrath, W. J. Denslow, and F. C. McLewee, had regained their posts, the Colonel broke the command into column of fours and started the march, and when he had reached the proper point gave the command right wing column left march. The order was not obeyed, the column marched on, and the result was that it had to be countermarched to bring it back to the point where the change of direction was intended in the first place. There being not sufficient room to form the regiment in one consecutive column of companies, it was the intention to place the wings in two lines and then wheel them into column of companies for inspection separately. This has been done in the 13th on numerous previous occasions, and there could hardly be an officer or a man who did not understand the movement. The Colonel's command was strong enough to be heard by every outsider. The head of the column may not have heard it, but the general opinion was that the failure to obey it was not due to a *bona fide* mistake, but rather an attempt to prove that "the Colonel's voice is weak," to put into execution one of those small threats of which so many are floating around in the daily press to oppose him, and make it difficult for him in every way. We hope that the general opinion formed on the occasion is a mistake, but it didn't appear so. The wings were then successively wheeled into column of companies, the first by the Colonel, the second by the Major. Even here there seemed to be diversity of opinion, for one officer ordered his right guides and the other his left guides to cover, but this matter does not amount to much. The inspection went on well until Co. H was reached, Col. McGrath inspected the front and Col. Denslow the rear rank. Both officers are thorough soldiers, and call the 13th their "Alma Mater," and therefore can hardly be supposed to be disposed otherwise than favorably to the regiment. Co. H is the concern which lately distinguished itself by a series of performances which would have disgraced the inmates of Bloomingdale Asylum. The action of the company was not an open outbreak, but the bearing of the men was defiant, every action bearing the stamp of insubordination. Both inspectors noticed this. Col. McGrath, who never loses his temper, got angry. His eyes flashed fire. He directed the company to be marched to the rear and ordered his assistant, Col. McLewee, to inspect them over again, and to keep it up until the thing was done properly. McLewee was not afraid and went at them in good style. They did, however, hardly appreciate the situation, and while abstaining from open acts, kept up a negative state of insubordination. In facing about after stacking arms two men managed to place their feet so as to knock over two stacks of arms. This was doubtless intentional, for the regiment is too well drilled to exhibit awkwardness of this kind. Col. McLewee was evidently disgusted, and he told the company his opinion in plain words. How often he went through the performance of inspecting the knapsacks we cannot tell, because we were engaged elsewhere, but we noticed at least three times, and are informed by reliable authority that he did not cease until the performance was executed in proper shape. Exhibitions of this sort ought, however, not to be allowed, and it seems to be time for the State authorities to intervene. Companies like H of the 13th should not be permitted to exist, and we heartily second the opinion of Col. McLewee that the company is nothing but an armed mob, and ought to be "clubbed with night clubs." Otherwise the affair passed off peaceably and properly.

INSPECTION OF THE SEVENTH NEW YORK.

A total force present of 966 out of an aggregate of 1031, enabled the 7th to make an imposing appearance at the inspection which took place at the armory on Thursday evening, Oct. 14. There is nothing surprising in this large turnout, but in view of the generally attenuated ranks of the majority of other organizations which we have been compelled to report, it is gratifying, as well as important, to point out an instance where enthusiasm and esprit is maintained at the standard it should be. This was the only occasion where the inspection was preceded by a review and where Inspector General Schaefer was present in uniform and performed the functions of his office, which has so far been noticed this season. The review was executed with ten commands of 32 files and was of the usual kind witnessed in this armory, viz.: with even swinging step, steady alignments, and fine distances—just as should be the case on such occasions. A course of instruction in saluting would, however, not be out of place in the cases of many officers. Immediately after inspection column of companies was formed and the remainder of the ceremony was completed in remarkably short time, because everything was in full readiness, everybody in his proper place, and accoutrements and arms in fine condition. The whole passed off like clockwork. The brevity of the ceremony, the absence of all incident, naturally compels us to make our report brief. The regiment showed off to decided advantage.

Lieutenant Tackaberry, of Co. H, lost his first inspection in 23 years.

RIFLE PRACTICE IN THE GUARD.

To the Editor of the Army and Navy Journal:

The criticism contained in your paper of Oct. 9, in reference to the manner in which rifle practice is taught the militia, is a shot in the right direction. This farce of grinding out marksmen to fill the columns of a report has been before the public too long and it is about time some reform in this important matter was inaugurated. The present system of rifle practice is condemned by nearly all the rank and file, who are familiar with it, and even the recruits are disgusted and lose interest. Referring to your next issue (Oct. 16) I see that your article is there endorsed in the main by Gen. Wingate, whose wide experience in rifle practice cannot be questioned. Some of his remarks, or suggestions rather, are excellent; but when he infers that the present lack of ammunition and limited time prevent the men from individually

being allowed sighting shots, I think he is wrong. If the present allowance of ammunition were issued *properly*, sighting shots could be allowed each man—and without increasing the present allowance. It is clearly apparent to all who have underwent instruction in marksmanship at Creedmoor, that of ammunition there was plenty and is dealt out liberally—and in *some cases too much so*. Here's the rub. Some companies use twice as much ammunition as others—the number of men being equal. Then again some men during the season—in their endeavors to qualify—expend 80 rounds and over, while others get through with 20 rounds. A detachment, say of 14 men, frequently expend double the amount of ammunition of that used by a detachment of 28 or 30 men. While some of the staff officers and others peg away as much as they please, some of the more unfortunate have to qualify with the usual allowance. Of course ammunition dealt out in this indiscriminate and sometimes partial manner, will not "go round" to all, as it would otherwise. The State issues so many thousand rounds per year; let this be divided pro rata to each regiment accordng to the number of men on their roll, and there would be more than enough ammunition to give each man at least three sighting shots at each range besides his qualifying score. Then by adopting a time limit as suggested, in which each man should shoot his score, the men would be enabled to learn properly to use their own rifles and in reasonable time.

There would undoubtedly be some very slow shots who might be unable to qualify in the time limit; these could be divided in a separate class till they improved sufficiently. There will be no difficulty in arranging these little details if the proper authorities are alive to reform. Gallery practice is excellent, so far as it goes, but it will not make an open air marksman. There are numbers of gentlemen who can make full scores regularly in a rifle gallery, who, when they go to Creedmoor, cannot make 25 per cent., the conditions vary so much; still gallery practice is an aid to the soldier in overcoming timidity in firing and "flinching," and every regiment should be provided with a suitable range. Volley firing and skirmishing should receive more attention than they do. It is perfectly true that there is great timidity evinced in the men when firing in a mass. This could be obviated to a large extent by company commanders who should put *all the reliable shots* in the *rear rank*. This would allay the trepidation of the nervous man considerably; the writer, himself, just missed having his head blown off once by a careless and nervous rear rank man in volley firing, who discharged his piece accidentally, and can therefore understand a man being a little nervous—unless he knows who is behind him. The reliable shots should invariably be placed in the rear rank when firing in volley. If skirmishing was practiced more it would enable men to get some idea of judging distance. But when the range is removed to a place that can be reached in a reasonable time without delay, more time will be available for improvement. However, pending this necessary removal of the range to a place within easy reach, the matter of dealing out ammunition with some degree of system that will admit of sighting shots to all, the improvement in sights, and the other reforms suggested in the JOURNAL should receive prompt attention and should not be overlooked.

OBSERVER.

NATIONAL GUARD ITEMS.

The eleventh of the series of qualification and champion marksman's class matches was shot at Creedmoor on Saturday, Oct. 16. The attendance, considering the weather, was very fair; the day was cold, and a wind, blowing almost a gale from 9 o'clock, made it very troublesome for those who had come to make a qualifying score. This match was the first match where a score of less than 40 points came in in the list of winners. Lieut. E. F. Young, Co. C, 7th Regt., was again the winner of the gold medal for the third time. The following were the best scores, the winners being marked *:

	200 yds.	500 yds.	Tl.
Lieut. E. F. Young,* Co. C, 7th Regt.....	20	23	43
Sergt. E. Lockley, Co. E, 12th Regt.....	19	23	42
Sergt. S. W. Merritt, Co. B, 7th Regt.....	20	22	42
Pvt. O. E. Dudley, Co. F, 7th Regt.....	21	21	42
Lieut. McC. Butt,* Co. D, 12th Regt.....	20	21	41
Sergt. C. E. Bryant,* N. C. S., 23d Regt....	20	21	41
Pvt. H. McA. Tolar,* Co. A, 23d Regt.....	18	21	39
Lieut. N. B. Thurston, Co. E, 22d Regt.....	18	21	39
Sergt. T. Mahoney, Co. E, 12th Regt.....	20	19	39
Pvt. I. B. Conover,* Co. B, 22d Regt.....	15	20	35
Pvt. J. D. Foot,* Co. F, 7th Regt.....	16	19	35
Pvt. G. L. Hoffman, Co. H, 7th Regt.....	19	15	34
Capt. W. H. Greenland, Staff, 23d Regt...	19	15	34
Pvt. B. W. Anderson,* Co. B, 7th Regt.....	19	14	33
Pvt. J. W. Cochran,* Co. B, 7th Regt.....	17	15	42

Saturday, Oct. 23, and Tuesday, Nov. 2 (Election Day), will be the last two days to make qualifying scores this season for members of the National Guard, S. N. Y.

The 23d at Creedmoor Monday, Oct. 18, qualified 30 marksmen. The 17th Separate Company the same day qualified 13.

The Board of Examination, 1st Brigade, meets on Wednesday, Oct. 27, for the examination of Wallace A. Downe and W. B. Smith, recently appointed adjutants of the 71st and 22d Regiments, respectively.

An election for captain of Co. H, 8th Regiment, has been ordered for Oct. 25. Maunsell Van Rensselaer, Jr., will be the choice.

Chaplain E. A. Reed, 9th Regiment, and 2d Lieut. Hagan, 71st Regiment, have resigned.

On Friday evening, Oct. 23, Co. H of the 7th unveiled the memorial tablet commemorative of the distinguished services of the late Henry Colton Shumway and George W. Smith, ex-captains, to the 8th company. The ceremony took place in the Veteran Room in the Armory, and was witnessed by an immense number of spectators, active and veterans.

Colonel W. J. Denslow, the Adjutant-General of the late 2d Division, has been restored from the supernumerary list to active duty as Inspector on the staff of General James McLeer, commanding 2d Brigade. A more competent soldier than Colonel Denslow is not to be found in the National Guard, and we congratulate General McLeer on this acquisition to his staff.

Lieut. Henry J. Charlton, of Co. B, 22d Regiment has resigned on account of excessive pressure of business. This is a great loss to the company of which Lieut. Charlton has been a member for over a dozen years. He always took a very active interest in the improvement of his command and its present high state of efficiency is due to a great extent to Lieut. Charlton's efforts. The company evince much regret at parting with him. He has presented the company with a handsome silver pitcher and will give his former comrades a rousing farewell dinner at an early date.

A general court to consist of Colonel Harry W. Michell, 14th Regiment; Lieut.-Col. F. S. Benson, 47th; Lieut.-Col. A. S. Bacon, 33d; Capt. H. S. Rasquin, 3d Battery, and 1st Lieut. A. A. Thompson, 23d Regiment, has been appointed for the trial of Lieut. Smith and others of the 13th Regt. Colonel W. W. Goodrich is Judge-Advocate of the court. The court will meet Nov. 5 next.

General C. P. Stone has accepted the tender of the services of the Signal Corps of the late 2d Division, which will be retained with the 2d Brigade, on the occasion of the inauguration of the Bartholdi Statue.

The inspection of the 12th Regiment will take place in the new armory on October 26 next. The armory not being completed and not yet turned over to the regiment, no spectators will be allowed. Colonel Jones has returned and is in command of the regiment.

Adjutant-General Samuel R. Dalton has issued orders to the members of the Massachusetts team to assemble in full uniform at the Revere House, Boston, October 26, to receive trophies recently won by them at Creedmoor, which will be taken to Boston by Lieut. E. L. Zalinski, 5th U. S. Artillery, the Executive Officer at the tall meeting.

Major J. Fred Ackerman, of the 13th, October 19, came out with a card in which he states his intention not to resign.

The tenth series of games, handicap, of the 7th Regiment Athletic Association, will be held at the armory on Saturday evening, December 4, 1886, at 8 P. M. Entries close Nov. 23. The following events will be contested: 90 yards run, ½-mile roller skate, ½-mile walk (for those who have never competed in any walking race), sack race (50 yards). 220 yards run, potato race, wheelbarrow race (2 laps), 1-mile run, 120 yards hurdle, 1 mile walk, inter-collegiate tug-or-war, teams of four men (650 lbs. limit), 440 yards run, 1 mile bicycle, 75 yards (championship), 1,000 yards run, 3 mile bicycle, putting 16-lb. shot, 3-legged race (1 lap), ½-mile run (for those who have never competed in any running race), obstacle race (2 laps).

(Correspondence of the Army and Navy Journal.)

OHIO NATIONAL GUARD.

COLONEL FLICK, of the 5th, Cleveland, has placed his resignation in the hands of the Adjutant-General. He assigns as a reason for his action the unsatisfactory condition of the city companies of his regiment. The country companies are in a fine condition, and of them no complaint is made, but much bad timber has crept into the city companies and produced a very unmilitary result. Colonel Flick has been a hardworking and excellent officer, and efforts are being made by the Adjutant General's office and the company officers to induce Col. Flick to withdraw his resignation, and it is understood he is willing to do so on condition that certain companies are put in proper condition. It is hoped for the good of the service that the efforts in this direction will prove successful.

Capt. Jas. A. Ogden, of Co. D, 8th Regt., Wooster City Guard, has resigned. As a company commander he had no superior in the State, and his large circle of military friends will learn with regret that he has decided to leave the service. Business misfortunes were his only reasons for this action. He has served the State well for six years, and leaves his company in splendid condition. 1st Lieut. Cameron will most certainly succeed to the command of the company. He is a brave and able officer. Co. B, 8th Regt., of Akron, is now in better shape than it has been for two years. The company has arranged to give a course of lectures this winter and has engaged first class talent.

F. G. S.

CALIFORNIA.

THE San Francisco *Report*, somewhat of a severe military critic, says: "The California militia have no skirmish drill at all, though it is the most important instruction they could have. Our militia regiments can be nothing but uniformed parade or social clubs till they do their drilling in the streets or out in the sandhills; and every time the regiments appear in camp or anywhere else they give the strongest kind of testimony to the correctness of our opinion."

ANSWERS TO CORRESPONDENTS.

C. G.—The college detail you inquire about expires Oct. 1, 1888.

Adams.—On Oct. 20 there were 14 vacancies in the grade of 2d lieutenants, U. S. Army.

E. F.—As to extra-duty pay for hospital cooks see G. O. 70, A. G. O., October 5, 1886, published in JOURNAL of October 9, p. 209.

J. W. P.—Non-commissioned officers and other file closers execute the support in marching or for guard mounting, and do not come to a carry at the command support.

Veteran asks: Has the Retiring Bill of the enlisted men of the Army been brought before the Court of Claims? ANS.—Yes, for particulars see paragraph elsewhere in this issue.

G. H. D.—Apply to the Commissioners of the Soldiers' Home, Washington, D. C. We infer from your statement of service, however, that you are not entitled to the benefits of the Home.

P.—Par. 170, Army Regulations, specifically directs that "*Every* non-commissioned officer shall be furnished with a certificate or warrant of his rank signed by the colonel and countersigned by the adjutant."

B.—The name is "Bedlow's Island." It received its name originally from its owner, Isaac Bedlow, a native of New Amsterdam, one of the substantial Dutch residents of New York, at the time of the English conquest in 1664.

Electric.—The act of March 3, 1877, directs the President to cause suitable regulations to be made for the maintenance of the statue on Bedloe's Island "as a beacon," as well as for its care and preservation as a monument of art.

Lex.—No. Par. 46, Army Regulations, says: "In the absence of the A. A. G. his duties will be temporarily performed by an aide-de-camp, whose signature to official papers as aide-de-camp is sufficient without the added title of A. A. A. G."

Navy.—No person can enlist as landsman over the age of 25 unless he possesses some mechanical trade, nor after 34, even though possessing a trade, without special authority from the Department. Minors are not enlisted except as apprentices, and then between the ages of 14 and 18, without special authority from the Department. For recruits for the infantry and artillery the required weight is not less than 120 lbs. and not more than 190 lbs.; for cavalry, not to exceed 165 lbs.

A. E.—1. The act approved March 3, 1885 (see G. O. 31, A. G. O., March 19, 1885), gives full information as to provision for settlement of the claims of officers and enlisted men for loss of private property destroyed in the Military Service of the U. S.

2. The payment of premiums for accepted recruits was stopped by circular from A. G. O. of Feb. 11, 1868. There being no appropriation for the purpose, Sec. 1120 is inoperative.

A correspondent says that he claims that it is wrong to appoint a private general guide, as it rightly belongs to a sergeant, and that nobody but a sergeant is entitled to the position. ANS.—According to Tactics the position of general guide is no permanent appointment, and it is not so regarded in the Army. In the National Guard, however, general guides belong permanently to the non-commissioned staff, and the Colonel can appoint whom he pleases. If there are competent sergeants, however, military custom seems to require that they should be selected from their number.

(Strasburg Letter to Paris Register.)

DOGS IN MILITARY SERVICE.

DURING the recent German manœuvres the novel experiment of employing trained dogs in the transmission of messages on the line of outposts was tried with success. The animals—resembling the well-known species of shepherd dogs—when not in active field service did duty will the field watch and the sentinels, and proved to be of such efficiency in giving the alarm that their use is henceforth to be extended.

THE MESS.

A young recruit recently enlisted at Camp Hancock, near Atlanta, while the country was threatening war with Mexico, and he intended to make a good soldier. One day he was on guard duty and was slowly stepping along when an officer approached. After the usual salute the officer said:

"Let me see your gun."

The raw recruit handed over his Springfield rifle and a pleased expression stole over his face.

As the officer received the gun he said in a tone of deepest disgust:

"You're a fine soldier. You've given up your gun, and now what are you going to do?"

The young Atlantian turned pale, and, reaching for his hip pocket, drew a big six shooter, and, preparing for business, said in a voice that could not be misunderstood:

"Gimmie that gun or I'll blow a hole through you in a pair 'r minutes!"

The officer instantly decided not to monkey any further with the raw recruit, and the gun was promptly surrendered.—*Atlanta Constitution.*

[This does very well for a story, and our readers can judge as well as we as to the probability of its being true.—ED. JOURNAL.]

A correspondent says: "In your issue of October 9, replying to the query of 'R.' concerning palindromes, you award the palm for that sort of thing to the Lowell *Courier*. I object. When the Corsican Napoleon was asked whether, under certain conditions, he could have made a success of things, he unconsciously uttered a palindrome which completely knocks out that of the gentleman from Lowell. Napoleon said: 'Able was I ere I saw Elba.' Continuing my research, and, like the humorist of our day, going back to the B. C. period I find that even our great parental ancestor was *some* on palindromes, as, when first encountered by Eve, in reply to her look of interrogation, he is reported to have said: 'Madam I'm Adam.' Californians who live near the Oregon boundary have a good one in the sign ornamenting the cake shop of their principal village. It reads: 'Yreka Bakery.' Next!"

URSO MAJOR.

TO MISS DAISY I . . . N.

An intercepted letter from her best cadet:

Oh Daisy dear, be aisy dear,
And veil your laughing eyes;
My heart it will go crazy, dear,
And burst itself with sighs.
For O I am, as you can see,
A very bashful man.
And never, never dare to be,
As killing as I can.

Yet Daisy dear, to plaze ye dear,
I'll give the world, you know,
In love I am not lazy dear,
I'm anything but slow.
And if you will but smile on me,
I'll be as good a fellow
As ever swore, (and broke the oath)
In red, or white, or yellow. —C. F. C.

CRANSTON'S, WEST POINT, October 9.

FIRING AT ARMOR PLATES.

SOME interesting experiments are now being carried out at Shoeburyness, with the firing of different classes of projectiles at compound armor plates. We shall shortly have a good deal to say about these trials and the lessons they teach. Meanwhile we may notice the extremely successful result obtained with a projectile furnished by Messrs. Holtzer and Co., of Unieux. The target fired at was made by Sir John Brown and Co., an Ellis compound plate 16 in. thick, made up of 6 in. of steel and 10 in. of iron, with a 10 ft. backing of oak. The projectile was a chrome steel shell weighing 714 lb. loaded, and was fired from a 12 in. trunnionless breech-loading gun with a charge of 200 lb. of prismatic powder. The initial velocity obtained was 1,910 ft., and the projectile struck the plate fair in the centre, piercing it and the oak backing but being brought up by a wrought iron plate at the back of the latter. The compound plate was seriously cracked, and was in fact practically destroyed.—*Engineering.*

A NEW TORPEDO.

THE London *Daily Telegraph* says: In the recent experiments at Portsmouth the Whitehead torpedo, which was launched at short range, struck the wire netting hung out to protect the ironclad *Resistance*, add, exploding, carried a portion of it away. Although the net was but 30 ft. from the ship's side, the hull received no damage, and so further experiments are to be carried out to ascertain how near the hull the net may be carried with safety to the ship. There is, however, another of these engines of war which is being secretly experimented with, for which it is claimed that netting would interpose no serious obstacle to its effecting the destruction of any ironclad. The submarine contrivance referred to is the invention of a young Australian civil engineer, named Louis Brennan. Trials were offered, and these have been privately conducted for some months by the naval officers belonging to the torpedo department. It is stated that the reports show the results to have been most satisfactory. The Brennan, so far as can be learned from those who have seen the trials, will prove a most efficient guardian for ports and harbors. It can also be employed for offensive operations against an enemy's fleet. The present form of this addition to our armament is designed to be sent out from a fort or other harbor work to sink an enemy's vessel. There is, however, another type intended to be directed from shipboard against an antagonist's craft. A number of advantages are claimed for it over those known as the fish, Lay, and Whitehead torpedoes. It is entirely a mechanical contrivance, not dependant in any way on chemicals or gases for propulsion or

electricity for steering. Next, it is said to run further at a greater speed than any existing machine of the kind, and finally, such is its weight and power, it will pierce any netting and get at the vessel's hull. It is between 20 or 30 feet long, and its weight about one ton. Its form, except that it is cylindrical is proportioned much the same as a fish—blunt head, bulging back and then fining away to the tail. The Brennan torpedo is started rapidly down an inclined plane. A stationary engine, with the requisite gearing, rapidly unwinds from within the missile two 18 gauge steel wires which drive the screw shafts. Into the sea and onward goes the terrible weapon, its two screws whirling with power and speed only limited by the strength of the stationary engine ashore. At a speed of 26 knots an hour, which can be raised to 30, swiftly as a locomotive the moving mine bores through the water. The steersman ashore can turn it to left or right, or at the close of its course of 1,500 or 2,000 yards, direct it home again. Its effective range is from two to three times farther than the Whitehead.

EMPEROR WILLIAM'S HEALTH.

(London Letter to the Liverpool Post.)

There is a good deal of anxiety with regard to the immediate future in Germany. The death of the Emperor may occur at any time, for he is in a much more feeble condition than any accounts in the papers would lead you to suppose. He is watched with extraordinary care. He falls asleep incessantly, and whenever he seems to slumber profoundly there is universal terror lest he should go off into the sleep that hath no ending. He is frequently roused up lest he should thus slip away from life. He also causes a great amount of alarm by his habit of falling unexpectedly, when his limbs give way without any previous warning. As to his appearances on horseback, these, as you will observe, are becoming rarer and rarer, and when he does mount a horse the animal has previously been thoroughly tired by a servant, so that he cannot cause his rider any trouble by restiveness.

(Paris Letter to London Truth.)

COLD COFFEE FOR MARCHING SOLDIERS.

A good mark for Gen. Boulanger! In the instructions sent to the officers commanding the Regular Army and the militia reserves engaged in the autumn manœuvres, they were told to prevent, as much as possible, soldiers drinking at the first well they meet, and if the weather was hot, to make each man take with him before setting out on a long march a provision of filtered water. If he had said, 'a provision of cold coffee," it would have been better. There is no such safe and sustaining drink as coffee for the marching soldier, tourist or sportsman. It prevents, in places where food is scarce and bad, typhus fever, by counteracting rapid waste of the tissues. The internal waste caused by fatigue is the most dangerous of any, inasmuch as the vitality is too low to throw it off, and so all the dead stuff in the body poisons what is living. I have seen persons, after walks greater than their strength could bear, suffer as if from violent poison. In point of fact, they were poisoned, but merely through inability to get rid of the detritus of wasted tissue in themselves. Tourists should, no more than Gen. Boulanger's soldiers, when out on holiday excursions, drink water out of the first well they meet, and to prevent the rapid using up of their own bodies they ought to fill up their flasks, before starting on long walks, with coffee, which is, perhaps, nicer to drink cold than hot.

(From Engineering, September 24.)

GUNS AND ARMOR.

Without reference to the vicious influences that have been so prominent in the conduct of some of our departments, the recent debate in the House of Commons in Committee of Supply disclosed facts that show, as Sir W. Barttelot expressed it, that "it is a matter of the gravest importance, not only to the Army, but to the country. The country has demanded that there should be a thorough investigation of the whole subject."

It would seem that we may look with reasonable confidence to a thorough and exhaustive examination by the Royal Commission. We hope this investigation will not be restricted to a voluminous evidence and non-committal report destitute of useful conclusions and direct placing of responsibility, but will include recommendations for a series of public experiments with warlike stores that will be so exhaustive and comparative as to leave no doubt as to which is the best sword, bayonet, torpedo, gun, or armor plate; and in which responsible inventors will have the same opportunity to test their weapons as the members of that conservative "ring," who for so long a time have alone enjoyed these benefits. There are members of the House who will no doubt object to an increase of the votes for this purpose, on the theory that the departments already have sufficient information on these points to direct intelligent action. These experiments, however, can be made most satisfactorily and economically carried out, if rigid regulations be laid down requiring suitable guarantees from the competitors. We already possess well-equipped proving grounds where large sums of money are being spent in experiments upon the development of war material. To these grounds should be sent guns, torpedoes, and armor plates, not only of our own production, but of that of any country whose inventors and manufacturers have produced arms of acknowledged superiority.

Let it not be a trial of ideas, conceptions, or inventors' theories, but of proved productions, and let the trials be conducted as Lieut. Jacques, of the United States Navy, has expressed it in a recent report on "Modern Armor," "with the strictest equality of conditions." He well says, "the scientific exactness with which the Italian experiments have been made entitle the results obtained at Spezia to be accepted as of the highest technical value."

France has rewarded our manufacturers by giving them large contracts for proved material; Germany is buying tools of us; Italy purchases our guns; Japan, our ships. Why should not we, if the result of such competitive trials proved other material to be better than our own, be willing to give suitable reward to the successful manufacturer for the valuable information and material they will supply? If their guns are better, give a contract for a reasonable number; if their armor is more efficient, buy it.

Such action on the part of our government would effectually bring about the dissolution of a "ring," and without doubt spur on our own makers to do their utmost, as did a similar act, some time ago, on the part of the French Government, when a contract for a large supply of steel was given to England.

In relation to guns, no further argument is needed to tell us that some better method than the one now in use must be found for the supply of the army and navy. The American Gun Commission presented very able reasons for, and was unanimous in recommending, separate establishments for the army and navy.

If the contracts be honestly awarded, the competition of our steel manufacturers will insure the best material; while the rivalry between the two branches of the military service would secure to the country the best obtainable results.

The Admiralty would do well to weigh carefully this little report of Lieut. Jacques, of which Captain Orde Browne, in our contemporary, the *Engineer*, has said, "The question mainly discussed in this little pamphlet is whether iron or steel will be employed generally in the future. The writer has visited Europe repeatedly, being well-known as the author of the work embodying the results of the labors of the Gun Foundry Board. He has collected valuable information which we have not met with elsewhere, and his opinions are such as must win consideration and respect, and are ably and clearly expressed."

As far as relates to our own manufacturers, his conclusions may reasonably be accepted as unbiassed; while as secretary to the Gun Foundry Board, whose recommendations were based upon the results of the widest research, secretary to the Ordnance Committee of the Upper House of the United States Congress, and the author of several reports to that Congress and the Navy Department, his opinion carries weight.

THE NEW COMPOUND WOODITE.

An interesting experiment, marvellous in its results, was made by permission of Mr. Thorsten Nordenfeldt at his Dartford range on Thursday with a recently patented compound called "woodite," of an elastic and resilient nature. A target was built up of 36 8-in. cubes of this substance, vulcanized on to a ⅜-in. iron plate, this being again fastened by screws and nuts to another ⅜-in. plate supported in a light iron frame. To test the efficacy of the material as a leak-stopper, this target was fired at from a distance of about 50 yards by 3-pounder and 6-pounder quick-firing guns. When it is remembered that the diameter of the 6-pounder projectile is 2¼ in., the results must be considered as most astonishing; for after five shots had been put into the target, three point-blank and two at an angle of 45 deg., it was found most difficult to distinguish the points of entry. None were bigger than a pencil-point, nor were there any signs at the back of the substance of splitting or rending, although the holes in the iron plates were not less than 3¼ in. in diameter, and rather larger in the case of the oblique shots. With the smaller gun the effect was as trifling, and nothing could more fully have demonstrated the value of the material, which is, we understand, impervious to salt water, unaffected by changes of temperature, and cheaply and expeditiously manufactured. If its inventors only manage to devise some simple method of attachment, the problem of preventing the loss of a torpedo-boat, or preserving the stability of larger vessels

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* Royal Baking Powder Co., 106 Wall st., New York.

A SAFE INVESTMENT

For both large and small sums of money is offered in the DEBENTURE BONDS of the NEBRASKA LOAN AND TRUST CO. and the CENTRAL LOAN AND LAND CO. These bonds are secured by mortgages on productive real estate after the manner of securing National Bank notes, bear 6 per cent. interest and run 10 years. Experience proves that they are one of the safest investments ever devised, and they are commended to the attention of officers of the Army and Navy.

An Important Volume on the Battle of Gettysburg.
THE BATTLE OF
GETTYSBURG:
From the HISTORY OF THE CIVIL WAR IN AMERICA, by the COMTE DE PARIS.
Published by Special Arrangement with the Author.
The Battle of Gettysburg fills three chapters in the third volume of the Comte de Paris' "History of the Civil War in America," and is acknowledged to be the fairest and most graphic account of the battle ever written; and in response to numerous demands it is now published separately.
With an appendix containing an itinerary of the Army of the Potomac and co-operating forces in the Gettysburg campaign, which has been carefully revised and enlarged from documents in the possession of the War Department, giving the most complete organization of the Army of the Potomac, and detailing the name of every general and subordinate commander on the field, with a return showing the casualties by regiment and battery in the Union and Confederate armies, July 1-3, 1863, gives to this book an official character possessed by none other relating to the battle.
Octavo cloth extra, containing several maps. $1.50.
For sale by all booksellers, and sent by mail, post paid, on receipt of the price, by
PORTER & COATES, Publishers,

with unprotected ends when riddled by shot or shell, seems to be practically solved.—*London Army and Navy Gazette.*

PRINCE ALEXANDER OF BULGARIA.

THE London *Army and Navy Gazette* says: When Prince Alexander arrived at Philippopolis last September, 1885, expecting to have the Turks marching in on him every day, he was very much disappointed to find that the Eastern Roumelian Army consisted of twelve weak and totally unsoldierlike *components*! Luckily, there was a sufficient supply of arms in store; so at once he called out every male inhabitant between the ages of 18 and 40, and soon had a mob of 35,000 men at his disposal. These he divided into "lots" of 1,000 each, which were numbered throughout, giving him 35 battalions. Then he took the few officers (captains at the highest) that he found at his hand, and gave them regiments and brigades! He next promoted all the non-commissioned officers to be officers, giving them command of battalions and companies in due order, and finally he promoted the whole of the privates of said 12 companies to be non-commissioned officers, distributing them amongst the entire force! Perhaps the most original thing he did, however, was the way he clothed this army. He first requisitioned by telegram throughout the country all the cloth he could lay his hands on, both in shops and private houses, and had it all stored at Philippopolis, giving "bons" for the number of yards taken from each individual. Then he ordered every tailor in the length and breadth of Roumelia to be arrested and brought to Philippopolis! There he had meanwhile prepared the House of Parliament for their reception, and when they arrived they were locked up in it together with all the cloth, were given patterns of great-coats and set to work to make them. At first they were sulky, and most of them being foreigners—Greeks and such-like—they appealed to their respective consuls, who remonstrated with the Prince. He sent the consuls politely to the right-about, saying he would inquire into the matter when times were more propitious. Meanwhile, the refractory Knights of the Needle made a pretence at work, but turned out such very bad garments that they were told their food would be stopped unless they improved. (The house was guarded and the kitchens established inside.) For two days they starved! Then they gave in and set to work properly. On complaining of want of air and exercise, they were taken for a walk through the town under strong escort. Again the consuls remonstrated against this treatment of their compatriot tailors, and again they received the same answer as before. At the end of a few weeks 35,000 men had all good, warm great-coats, a sheepskin cap, and a pair of "opauks" (kind of sandals.) Round their legs they wore bandages, and under their coats they were allowed to wear what they pleased, according to the thermometer. Then he set them to drill night and day, and when the Servians declared war he brigaded these battalions with his own regulars of the Bulgarian Army in the proportion of one battalion of the former to two of the latter, and found that they fought pretty well. We believe this is the first record of any army being "manufactured" to order.

FOREIGN ITEMS.

THE Russian Government are reported to have established a torpedo school at Vladivostock.

A SPECIES of paralytic disease has broken out among the English cavalry horses in Burmah, carrying off so large a number that the Madras Lancers have to be remounted.

THE torpedo-boat despatched ten weeks ago from Elbing to China has arrived at Foochow safe and in good condition. Its seaworthiness, which had been called in question, has thus been amply proved. The crew was German. The cost of taking the vessel to China, including coal, wages, and return of crew, was 45,000 marks.

CHINA intends, it is understood, to issue a loan of $50,000,000 for railway and other expenditure.

A DESPATCH from Rome says: Eleven Italian regiments have been armed with repeating rifles. The work of altering the present rifles into repeaters is proceeding night and day.

THE German Government has forwarded the official report of its two representatives at the Delhi manœuvres to the Government of India through the British Ambassador at Berlin, the Foreign Office, and Secretary of State. The report is, taken as a whole, friendly, not to say flattering.

AN engineer corps, called the Volunteer Submarine Miners, has recently been formed by the English War Department for the defence of commercial harbors. They will co-operate with the Royal Engineers in the work of coast defence, and on each river there will be a torpedo station, and steam launches and other boats and appliances will be placed at the disposal of the Engineer Force.

THE bill introduced by M. Aube, Minister of Marine, for the "completion of the French Navy" proposes an outlay of $28,000,000 for the construction of new war ships and $12,000,000 for the construction of ports of refuge. It also proposes such a concentration of the work under the contracts that it shall be completed in four years instead of nine, which is the nominal time named for the whole outlay.

THE new English 13.5-in. 68-ton naval gun has been fired with 580-lb. of black powder, with the service weight of shot. An examination of the crusher gauge showed that the gun had passed proof within the terms of the specification. It was ordered to be removed to Shoeburyness to ascertain its range. In future all large ordnance will have their "liners" expanded before the completion of the rifling, so as to neutralize twisting.

IT is 98 years ago this month since a British warship, the *Lutine*, foundered off the coast of Holland. She was conveying specie for the use of the troops abroad, and the whole of it was lost with the vessel. After a lapse of 68 years, a portion of this money was recovered, and it seems that now there is a probability of recovering a still further portion of the lost treasure, and preliminary investigations have been made with a view to sending down divers.

ARMSTRONG, Krupp, and other gunmakers will do well to note the appearance of a rival in the field. At Osaka Arsenal, the Japanese have manufactured for their neighbors a specimen field piece and projectile, which are to be sent to China for trial this month. The Japanese are go-ahead people, indeed, possessing, as they do, both coal and iron in abundance, it would not be so surprising if, in the course of time, they became the shipbuilders and the gun makers to the nations of the Far East.—*Army and Navy Gazette.*

THE power exerted by an explosion on surrounding objects is in the inverse ratio of the cube of the distance from the point of explosion. Thus, at 100 feet from the exact point of an explosion, the power is only the cube of 1-100 or 1-1,000,000 part of what it is at a distance of only 1 foot from that point, or, in other words, if the power at 1 foot from the spot be represented by 1,000,000, at the distance of 100 feet it will be but 1. It is thus seen that the effects are intensely local, and but comparatively trifling at even short distance.

Le Nouveau Monde, of Paris, of Oct. 9, 1886, contained some fragments of General Diaz's letter accusing Bazaine of being a traitor to Maximilian. The following is an English translation of the letter referred to: "Marshal Bazaine offered, through a third person, to deliver to me the towns occupied by the French, as also Maximilian, Marquez, and Miramon, if I accepted a proposition he made. I refused his offer as dishonorable. Another proposal which sprang from the above offer of Marshal Bazaine was in reference to the acquisition of 6,000 guns and 4,000,000 caps. If I had desired it he would have also sold me powder and cannons, but I refused such proposals.—PORFIRIO DIAZ."

IT is estimated that of the 9,000 square miles of territory which were in dispute between Russia and Afghanistan when the Boundary Commission commenced operations, 7,000 have now been conceded to Russia.

THE English Ordnance Department has at last decided to adopt steel armor-piercing projectiles, and has ordered the manufacture of chilled cast-iron projectiles on the Palliser principle to be discontinued.

ITALY, says the *Avenir Militaire* (Paris), can mobilize nineteen classes or contingents of 185,000 men each, giving, after making the usual deductions, 2,862,000 men, of whom slightly more than half have received military training.

THE reports received of the manœuvres of the 15th Army Corps of the German Army all agree as to the efficient state of the cavalry. Their tactics are characterized by great dash and enterprise, and the intelligence of the individual soldiers in transmitting orders and performing orderly work is spoken of in terms of the highest praise.

"THREE or four years ago," says an English writer, "I accidentally learned while at some French manœuvres that the cavalry trumpet sound called 'boots and saddles' had not, as was supposed, any connection whatever with boots. The true origin of the sentence is the old Norman expression, 'Boutes la selle' (i. e., 'put on the saddle'), from 'Bouter'—to put on, affix."

THE "information" that the Mannlicher repetition rifle is to be adopted by the Austro-Hungarian Army was a mere Bourse lie, spread abroad to create a rush for the shares in the arms company which has bought the rifle, and to enable holders to get rid of their stock at a profit. The newspaper that published the report has been confiscated. All that the Austrian Government have done in the direction of magazine rifles is to decide that the Landwehr are to be armed with them.

A MAP in one of the courts of the West Indian section of the Colonial and Indian Exhibition, the work of Don Diego Ribero, of Seville, who was geographer to Charles V. of Spain, is reputed to be the earliest of the world in existence. Jerusalem is about 1,500 miles from its right place, but the configuration of the eastern coast of America is by no means badly defined. The interior of Africa, with the sources of the Nile, and the positions of three Nyanza lakes, supposed to be only recently discovered, are all laid down, and many islands of the Eastern seas.

M. WEYL'S letters to the *Temps* on the summer evolutions of the French fleet at Toulon and Ajaccio show that obsolete ironclads have still a field of distinct utility open to them. A conclusion arrived at after the manœuvres was, "that an ironclad squadron would never attempt to blockade a seaport at the risk of finding itself harassed day and night by torpedo boats supported by an armored guardship." Great speed is not a requisite; only just enough to move about handily, so as to form a *point d'appui* for and cover the movements of the torpedo boats which would form the real coast defence.

THE *Hoche*, just launched at Lorient with much pomp and circumstance, is 328 ft. in length, beam, 64 ft. 5 in.; displacement, 9,865 tons. She and her sister ships *Magenta*, *Marceau* and *Neptune*, have two turrets, protected by 15¾ in. plates, and armed with 13¼ in. guns. The plating at the water-line is 17¾ in. midships, 15⅝ in. forward, and 13¾ in. abaft. The *Hoche* and sisters are to carry also two 10½ in. guns in barbette turrets, 18 5½ in. broadside guns, with machine-guns and six tubes for firing torpedoes. The deck is protected with armor about 3½ in. thick. The French papers set down the speed of the *Hoche* some at 16½ and others as high as 18 knots, and the cost at between $1,500,000 and $1,800,000, armed and ready for sea. The *Hoche* has merely signal masts, and will, therefore, carry no sails. She will not be ready to make her trial trips before 1889. The *Hoche* and her three sister-ships are the only large armorclads on the slips in French dockyards.

Pickering.—At Salem, Mass., Miss Mary Orne Pickering, daughter of the Hon. John Pickering, LL.D., and granddaughter of Colonel Timothy Pickering, of the Revolutionary Army and a former Secretary of War.

Rogers.—On Sunday, Oct. 17, at Bart, Pa., Mary C., the wife of P. A. Surgeon B. F. Rogers, U. S. Navy.

Taylor.—Suddenly, from hemorrhage of the stomach, at Fort Sill, Ind. Ter., October 9, Mrs. Louise C. Taylor, wife of Dr. Fred. M. Taylor, and daughter in law of Surgeon M. K. Taylor, U. S. A.

Whittlesey.—At Cleveland, O., October 18, Charles Whittlesey, formerly Lieutenant 5th U. S. Infantry, and Colonel 20th Ohio Volunteers.

O'Brien.—At a meeting held by the members of Troop F, 2d Cavalry, at Fort Walla Walla, W. T., October 10, 1886, the following preamble and resolutions were adopted:

Whereas, It has pleased Almighty God in His providence and mercy to remove from our midst our beloved comrade and fellow soldier, Joseph O'Brien, Troop F, 2d Cavalry, and

Whereas, His sudden and untimely death deprives us of a true comrade and the Troop of a good and faithful soldier,

Resolved, That we, the members of his late Troop, will ever cherish his memory as one who, by his kind, cheerful, and honorable character had endeared himself to us, and

Resolved, That while we deplore his death, we sincerely sympathize with his relatives and friends, and assure them of our affectionate remembrance of him. Be it further

Resolved, That a copy of these resolutions be sent to his relatives and to the Army and Navy Journal.

The funeral took place Oct. 10, with full military honors, the funeral services being rendered according to the rites of the Catholic Church, of which deceased was a member.

Walsh—Fitzpatrick.—At a meeting held by the members of Troop F, 2d Cavalry, at Fort Walla Walla, W. T., Oct. 3, 1886, the following preamble and resolutions were adopted:

1. Whereas, It has pleased Almighty God, in His divine providence, to remove from our midst our beloved comrade, James Walsh, September 6, 1886, and

Whereas, His sudden and untimely death deprives us of a true comrade and excellent soldier,

Resolved, That we, the members of his late Troop, of which he had but lately become a member, will cherish his memory and honorable character, and

Resolved, That while we deplore his death, we sincerely sympathize with his relatives and friends in their bereavement.

2. Whereas, it has pleased Almighty God in His divine providence and mercy to remove from our midst our beloved comrade and friend, John Fitzpatrick, October 2, 1886, and

Whereas, His sudden and untimely death deprives us of a true comrade and an always cheerful companion, and the Troop of a faithful and excellent soldier,

Resolved, That we the members of his late Troop will ever remember him as one who by his many acts of kindness and friendly, sympathizing and honorable character, had endeared himself to us, and

Resolved, That while we deplore his death, we sincerely and truly sympathize with his parents and friends, and assure them of our affectionate remembrance of him; also

Resolved, That we tender our sincere thanks to the Ladies of the garrison for their generous contribution of flowers and floral designs; to the Commanding Officer and officers of the garrison for their kind attendance at the funeral services, and to Master Robt. McGregor for his valuable assistance at the funeral of our late comrade, John Fitzpatrick, Sunday, Oct. 3. Be it further

Resolved, That a copy of these resolutions be sent to the parents and relatives of the deceased and to the Army and Navy Journal.

The funerals took place, with full military honor, Sept. 7, and Oct. 3, 1886, respectively, the funeral services being held according to the rites of the Catholic Church, of which both were members.

NEW ENGLAND MUTUAL Life Insurance Company, OF BOSTON, Mass.

Assets, - - - - - - $17,846,546.65
Liabilities, - - - 15,238,761.16
Total Surplus, - $2,607,785.49

This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.

Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.

Pamphlets explanatory of the New Feature may be had on application at Compy's Office,

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 14.
WHOLE NUMBER 1210.

NEW YORK, SATURDAY, OCTOBER 30, 1886.

SIX DOLLARS PER YEAR.
SINGLE COPIES, FIFTEEN CENTS

Publication Office, 240 Broadway, N. Y.

THE German War Office has decided that all sub-officers must learn telegraphy. This is by no means a bad idea and one worthy of imitation. Stenography might be added.

THE annual report of the Chief of Ordnance will be submitted to the Secretary of War Oct. 30. Most of the other bureau reports have been in for some time, and the Secretary began some days to outline his report.

THE great occasion of the week was the inauguration at Bedlow's Island, on Thursday, October 28, of the colossal statue of "Liberty Enlightening the World." We give an account of the proceedings elsewhere. Major General SCHOFIELD and his assistants are to be congratulated on the successful execution of the arduous and complex duties devolved upon them in connection with the ceremonies of the day. There was not a hitch throughout.

AFTER Geronimo's surrender General Miles detailed Captains H. W. Lawton and J. H. Dorst, 4th Cavalry, for staff duty at Headquarters Department of Arizona, but it is observed from recent orders that the Lieutenant General thinks it best for the Service that they should be with their respective troops, and accordingly General Miles has so ordered. This seems to be in accordance with the general policy of General Sheridan that captains whenever practicable shall be on duty with their companies.

THIS week has seen quite a scattering of the captive Indians from Arizona. GERONIMO and fourteen bucks are in close confinement at Fort Pickens; MANGUS and two other bucks are to follow; the balance at San Antonio have been transferred to Fort Marion, and twenty-two Indian youths, between the ages of twelve and twenty-two, have been sent from Marion to the Industrial School at Carlisle, Pa. There, under the able supervision of Captain R. H. PRATT, U. S. A., they will receive the benefits of a practical education, and, let us hope, progress to an useful future.

WE congratulate the 8th U. S. Infantry on its approaching change of base from Arizona to the Department of the Platte, for the regiment has served for many years on the Pacific slope, and has had its full share of service in the field. When the regiment was transferred from San Francisco to Arizona a few months ago, it was thought to be somewhat hard upon it, as it only had moved a few years before from Arizona to California, but General SHERIDAN evidently had it in mind that as soon as the Apache troubles were happily over he would give the regiment a more pleasant location.

THE practice of our men of war has always been considered exceptionally good, as compared with that of other navies, and that our Yankee gunners have not lost their cunning is shown by the report a correspondent sends us of great gun practice on board the *Brooklyn*, in September, in the Mediterranean, near Port Said. The first shot, from an 8 in. rifle cut the bull's eye clean away; the second from a 9-in. gun carried off the mast of the target. The flat frame of the dismantled target was all that was left, and around them the remaining shots were planted so closely together that five in six of them would hit a vessel of the size of our *Yantic*. We present this record to the vessels of our own and other navies with the compliments of the *Brooklyn*, and invite them to make a better showing if they can.

CIVILIAN applications for commissions in the Army have been very frequent of late, and they appear to have arisen from a most remarkable lack of faith in the reality of President CLEVELAND'S professions of fair treatment. The plan was to put a large number of civilians in commission, leaving the graduates of the Military Academy to take their chances under the law providing for surplus graduates. Probably, the projectors of this precious scheme thought the President would yield to the pleasure of providing so easily for his friends, but they were mistaken. When his attention was called to the plan he flatly refused and intimated that it was not his intention to make any appointments before next June. At first he was disinclined to commission even the non-commissioned officers, and only yielded this point when he learned that there was a fair chance of a sufficient number of vacancies occurring during the remainder of the fiscal year to accommodate all of that class. The Army is indebted to President CLEVELAND in many ways for his firmness in resisting pressure, and he has inspired in them the greatest confidence in his impartiality, good sense, and fairness of judgment.

THE new knapsack devised for the German infantry has not yet been officially approved for general adoption. As already stated here, the appendage was intended to economize the weight borne by the soldier in action, by its division into two horizontal compartments, one of which might be left with the regimental stores upon occasion, and the other, containing the most needful articles in the kit, remaining in possession of the bearer. A school battalion, so termed, of men told off for making fresh military experiments, have been ordered on a month's tour in the Hartz mountains and district, during November, to further test the knapsack, which was altogether condemned when used by the troops during the Chemnitz manœuvres. We advise the German military authorities before they decide upon a knapsack to examine the military equipment devised by Colonel HENRY C. MERRIAM, commanding the 7th U. S. Infantry. By a very simple but effective system of adjusting his weight Colonel MERRIAM throws it wholly off the shoulders and brings it to bear upon the hips, in a nearly perpendicular line from above, where it can be carried without fatigue or strain for a long time, as any one can readily see.

A WRITER in an English monthly says: "If we compare the derangements of the machinery of the vessels of our navy with those of large mercantile shipping companies, the frequency of breakdowns in the service will become all the more apparent by comparison with immunity from such disasters enjoyed by the mercantile community." This is very pretty reading, the *Army and Navy Gazette* says in reply, "but, unfortunately, in less than a week we hear of the *Anchoria* breaking her screw-shaft, drifting helplessly about for more than a fortnight, and having to place her passengers on short allowance; and the *Quebec*, Dominion Line, making signals to Lundy Island, 'Have broken shaft. Proceeding with one engine. Want two powerful tugs.' The fact is, her Majesty's ships take a great deal of starting. It is difficult to get them out of the hands of the contractors and dockyards; but once fairly away and in the hands of their own officers, we very seldom hear of any serious mishap, though the conditions under which they have to work are vastly more trying than those attending a mail steamer. All the same, the Indian troopships, which have been running now for nearly 20 years, for regularity in passages and freedom from accidents compare favorably with any mercantile passenger line."

MANY of the bureau officers of the Navy Department are busily engaged in putting the finishing touches to their annual reports. That of the Surgeon General will, as usual, present the sanitary condition of the Navy as embodied in the reports from ships in commission in various parts of the world. These reports from medical officers afloat containing, as they do, detailed accounts of the health of their ship's companions, form, to the medical observer and student, an epitome of the sanitary condition of a large portion of the world; so much at least as is embraced in the limits of the stations to which attached. Not the least interesting of the reports will be those of the ordnance and construction bureaus. The former will show very substantial progress in gun construction during the past year, and should be a very "newsy" document since very little has been published regarding the operations of the bureaus during the past year. The reports of the Engineer-in Chief and of the Construction Bureau—we cannot say chief of bureau, that office is still vacant—will show that there has been considerable hard work performed in the way of preparation of plans for new vessels during the past summer. The absence of recommendations fo new ships will be a pleasant relief from the deplora ble condition of things heretofore pictured in these reports for the eye of Congress.

THE non-commissioned officers whose appointments to 2d lieutenancies we announced last week are regarded by Army officers acquainted with them and their records as an exceptionally bright lot of young gentlemen. Their examination papers are not open to the public, but those who know say that neither the public nor the men concerned have any reason to be ashamed of the examination passed by each and all of them. Sergeant D. L. BRAINARD, of Arctic fame, was justly entitled to a commission in the Army, and now that he has obtained it we extend to him our hearty congratulations. The appointment was very properly made "as a recognition of the gallant and meritorious services rendered by you in the Arctic expedition of 1881-1884." Although Lieutenant BRAINARD did not undergo an examination for the office given him, officers of the Army regarded him as thoroughly well equipped for all the duties required of him, and he would no doubt have passed a very creditable examination if given an opportunity to do so. Lieutenant BRAINARD has been assigned to the regiment in which he spent all of his non-commissioned service, but goes to a different c mpany from that to which he formerly belonged. He has been assigned to Company E, now stationed at Fort Walla Walla. His promotion, he says, will not stand in the way of his proposed Arctic expedition a few years hence, but, on the contrary, will be an advantage, since it will give him a better standing as commander of the expedition if he can obtain the proper authorization. We advise him to continue on duty with his company and not seek to disturb the sacred solitude o the Pole. Lieutenant BRAINARD is now at Free town, New York. He is 30 years of age.

PERSONAL ITEMS.

MAJOR GENERAL F. T. A. LAW, British Army, retired, has been visiting in San Francisco.

CAPTAIN W. H. MERRELL, U. S. Army, retired, is located at 49 East 21st Street, New York City.

GENERAL ANSON G. McCOOK and Mrs. McCook arrived in New York from England on Sunday last.

LIEUTENANT J. A. COLE, 6th Cavalry, on leave, will remain a few days longer at Portage, Wisconsin.

MAJOR MERRITT H. BARBER, U. S. A., has returned to Whipple Barracks, Ariz., from an official trip to San Francisco.

LIEUTENANT E. C. CARTER, Assistant Surgeon, will shortly leave Columbus Barracks, O., and go abroad for the winter.

CAPTAIN JAMES HALLORAN, 12th U. S. Infantry, left Sackett's Harbor, N. Y., on Tuesday, to be absent for a week.

CAPTAIN MICHAEL CONLINE, 9th U. S. Cavalry, has closed the recruiting rendezvous at Nashville, Tenn., and gone on leave.

LIEUTENANT B. C. MORSE, 23d Infantry, returned to Fort Mackinac, Mich., this week from a short visit to Fort Brady.

CAPTAIN C. N. GRAY, 25th U. S. Infantry, at present East on leave will rejoin at Fort Meade, D. T., early in November.

LIEUTENANT O. M. SMITH, 22d Infantry, A. D. C. to Gen. Stanley, registered at the Grand Hotel, New York, early in the week.

CAPTAIN BLAIR D. TAYLOR, Assistant Surgeon, U. S. A., leaves New Orleans, La., this week for duty at Columbus Barracks, O.

LIEUTENANT JOHN R. WILLIAMS, 3d U. S. Artillery, and bride, sailed for England last Saturday, on the Cunard steamer *Umbria*.

COLONEL EUGENE CARR, 6th Cav., has joined at Fort Bayard, N. M., from leave, and taken command of that post and of his regiment.

LIEUTENANT JOHN BIGELOW, JR., 10th U. S. Cavalry, has arrived in Baltimore, Md., and is stopping with his father-in-law, Judge H. Clay Dallam.

CAPTAIN J. A. FESSENDEN, 5th U. S. Artillery, under recent orders, will take his battery next week from Fort Columbus to Fort Hamilton, N. Y. H.

COLONEL R. E. A. CROFTON, 15th U. S. Infantry, was expected at Fort Buford, D. T., this week, to take command of that post and of his new regiment.

SURGEON WARREN WEBSTER, U. S. A., has had his sick leave extended one year, and it is doubtful if he will ever ever again be able to resume active duty.

LIEUTENANT DAVID L. BRAINARD, 2d U. S. Cavalry, late of the Signal Corps, has been the recipient of many congratulations on his well-merited promotion.

THE next retirements for age in order are those of Colonel G. L. Febiger, Assistant Paymaster General, U. S. A., and Col. L. P. Bradley, 13th Infantry, Dec. 8, next.

CAPTAIN GEORGE MITCHELL, 2d U. S. Artillery, who has been North on leave for some months past, rejoined this week at St. Francis Barracks, St. Augustine, Fla.

COLONEL W. H. D. COCHRANE, who served with distinction during the War, the latter part in the Quartermaster's Department, has been appointed Pension Agent at Concord, N. H.

LIEUTENANT I. N. LEWIS, 2d U. S. Artillery, and bride, married last week in New York City, and now North on their wedding tour will join at Fort Barrancas, Fla., towards the end of November.

CAPTAIN G. F. BARSTOW, 3d Artillery, who has been for three months past at Washington Barracks with his battery engaged in target practice, will return to Fort McHenry, Md., next week.

CAPTAIN F. K. UPHAM, 1st U. S. Cavalry, of Fort Custer, is to write a history of the California Volunteers, and is collecting data to assist him record the services rendered by them during the late war.

COLONEL A. V. KAUTZ, U. S. A., has been presiding over a General Court at Fort Lowell for the trial of Lieut. D. N. McDonald, 4th Cavalry. The Court expected to finish its proceedings this week

MAJOR J. J. UPHAM, 5th U. S. Cavalry, and Lieut. S. A. Staunton, U. S. N., and Mrs. Staunton, were in Paris, France, early in the week, the former at the Hotel Binda and the latter at the Hotel de l'Empire.

MR. MELVILLE PHILIPS, the author, was married, Oct. 12, at Waynesboro, Pa., to Miss Gertrude Flunk, daughter of the late Brevet Lieutenant-Colonel Augustus Flunk, U. S. A., who resigned in 1868 and since died.

CAPTAIN J. E. WILSON, 2d U. S. Artillery, in command of the troops lately at Atlanta, arrived at Fort Barrancas on Monday and has had a busy time of it since making arrangements for the safekeeping of Geronimo and his bucks at Fort Pickens.

GENERAL R. H. JACKSON, U. S. A., who spent a portion of the summer in the New York State Camp at Peekskill, made a detailed report which has just been made public. The General is a thorough soldier himself and knows good soldiering when he sees it.

LIEUTENANTS O. GUROVITS, C. Koops, F. Owen, G. E. French, H. Fletcher, S. M. Hackney, and G. M. Martin, U. S. A., all commissioned last week and assigned to regiments, left Fort Monroe, Va., on Sunday last on leave, preparatory to starting for their commands.

MAJOR-GENERAL J. M. SCHOFIELD, U. S. A., returned to Governor's Island on Sunday from a hasty trip to Washington where he called at the White House to make arrangements for the participation of the President and his Cabinet in the ceremonies attending the unveiling of the Statue of Liberty at Bedlow's Island.

LIEUTENANT M. F. STEELE, 8th U. S. Cavalry, is visiting his parents in Birmingham, Ala.

CAPTAIN J. B. GIRARD, Assistant Surgeon, U. S. A., returned to New York this week from leave.

ASST. SURGEON CHARLES C. BURROWS has been admitted to membership in the Army Mutual Aid Association.

LIEUTENANT GENERAL T. H. PAKENHAM, British Army, retired, sailed from New York for England on Saturday last.

CAPTAIN A. E. PIORKOWSKI, of the German Army, registered at the Union Square Hotel, New York, early in the week.

GENERAL GOURKO, a distinguished Russian soldier is to replace General Kaulbars as Russian Military Agent in Bulgaria.

CAPTAIN J. M. BELL, 7th Cavalry, lately on duty as Indian Agent at Pine Ridge Agency has rejoined at Fort Buford, D. T.

CAPTAIN S. A. DAY, 5th U. S. Artillery, left Fort Hamilton, N. Y. H., this week, to be absent a good portion of the winter.

SURGEON W. D. WOLVERTON, U. S. A., returned to Washington Barracks, D. C., early in the week from a short hunting expedition.

LIEUTENANT W. R. HAMILTON, 5th U. S. Artillery, leaves Governor's Island early next week for the West to be absent for a month.

LIEUTENANT B. F. HANDFORTH, 11th U. S. Infantry, on sick leave, was in Hoboken, N. J., this week located at 354 Bloomfield street.

CAPTAIN J. G. RAMSAY, 2d U. S. Artillery, returned to New Orleans this week from leave and resumed command of his battery at Jackson Barracks.

CAPTAIN H. C. EGBERT, 12th U. S. Infantry, is in command at Madison Barracks, N. Y., until the arrival of Colonel E. F. Townsend, who is expected in a few days.

CAPTAIN TULLY MCCREA, 1st U. S. Artillery, arrived at Vancouver Barracks this week and will take over the command of Light Battery E of his regiment on Monday next.

COLONEL C. A. WOODRUFF, U. S. A., and Mrs. Woodruff, who have been taking a short vacation from Fort Leavenworth, were the guests a few days ago of Mrs. Hawkins, of Newport, Ky.

ASSISTANT SURGEON F. V. WALKER, U. S. A., who since his appointment has been on temporary duty at Fort Adams, R. I., left there this week for San Antonio for assignment to a post in Texas.

LIEUTENANT R. H. FLETCHER, 21st U. S. Infantry, placed on the retired list last week, has been sick for a long time past. His retirement promotes 2d Lieutenant John S. Parke, Jr., to a 1st lieutenancy.

CAPTAIN FRANK D. GARRETTY, U. S. A., on recruiting service, at Chicago, Ill., is located at the Revere House, in that city. His wife and daughter, Miss Kitty, are visiting his married daughter, Mrs. G. M. Fisher, in St. Paul, Minn., and will join the Captain in the spring.

THE engagement is announced of Lieut. P. A. Bettens, U. S. Army, to Miss Louise Dewees, of Hagerstown, Md. Miss Dewees is the daughter of the late Major Thos. B. Dewees, 9th U. S. Cav. Lieut. Bettens is a graduate of the class of '85 and is now stationed with his regiment at Fort Robinson, Neb.

THE Omaha *Republican* says: "It was thought a short time ago that Col. G. V. Henry, U. S. Inspector of Rifle Practice, would be removed. Col. Henry's many friends will be gratified to learn, however, that information has been received from Washington to the effect that the office of Inspector of Rifle Practice will not be abolished."

COLONEL S. C. KELLOGG, A. D. C., received early in the week from Major J. J. Upham, 5th Cavalry, a sample of the new campaign coat just adopted by the French Army. The sample is for civilian use and is a waterproofed diagonal cassimere, which has been tested for an exposure of 24 hours of heavy rain. It is very light, and handsome in its general appearance.

THE applicableness to cases of promotions in the Army of the saying that the first shall be last and the last first, is strikingly illustrated in the case of 2d Lieut. L. P. Davison, 11th Inf. This officer was the last of the graduates of 1885 to receive a commission, having been detained at the Academy over a month longer than the others, and when he did receive it he went in at the foot of the list of 2d lieutenants of the 7th Cavalry and with chances of advancement very slim indeed. The wheel of fortune, however, turned in his favor when he succeeded, a few months later, in being transferred to the 11th Inf. Since his transfer six casualties have occurred in this regiment, placing him number four on the list of 2d lieutenants. Thus he outranks today, by several numbers, all other members of his class.

A PRESS despatch of October 27, from Louisville, Ky., says: "Lieut. John Sehon, 4th U. S. Infantry, arrived in the city to-day from Dakota, the occasion of his coming being his approaching marriage with Miss Marie Allen, of Dickson Springs, Tenn. Miss Allen spends a great part of her time in Louisville with an aunt, Mrs. H. T. Field, and it was understood that the wedding would occur there some time next month, though the date had not been announced. At 6.30 o'clock this evening Miss Allen, attended by a party of friends, repaired to the Central Presbyterian Church and was quietly married to Mr. Bush, Bishop Penick performing the ceremony. The affair has, of course, created a sensation in social circles, all the young people being widely known members of the upper circle. Lieut. Schon is naturally much broken up over the matter. Miss Allen claims that she notified him by telegraph at his station in Dakota some days ago that she would marry Bush, but he says no such notification reached him. His friends are indignant, and there is much feeling over the affair. Mr. Bush is chief clerk in the Air Line office in this city. Both men are handsome and popular, and the lady is quite a beauty."

COLONEL J. K. MIZNER, U. S. A., registered at the Grand Hotel, New York City.

GENERAL J. P. HAWKINS, U. S. A., returned to Omaha this week from a short leave.

CAPTAIN C. A. H. MCAULEY, U. S. A., of Omaha, paid a brief visit to friends in Chicago this week.

ASSISTANT SURGEON A. R. CHAPIN, U. S. A., under recent orders, goes to Fort Washakie, Wyo., for duty.

CAPTAIN F. W. THIBAUT, 6th U. S. Infantry, has left Fort Douglas, Utah, for the East on a month's leave.

GENERAL SAMUEL BRECK, U. S. A., after a pleasant visit to friends in the East, has returned to Omaha and resumed duty.

GENERAL T. A. POTTER, U. S. Army, retired, has taken rooms at the Windsor Hotel, Montreal, Canada, for the winter.

COLONEL H. CLAY WOOD, U. S. A., arrived in Washington this week and will enter upon his duties at the A. G. O. on Monday.

COLONEL ELWELL S. OTIS, 20th U. S. Infantry, was expected to leave Fort Assiniboine, Montana, this week on a month's visit East.

GENERAL BADEAU, in his latest article on General Grant, shows how vigorously the General opposed Maximilian's Empire in Mexico.

COLONEL H. G. LITCHFIELD, U. S. A., at present visiting in New York, will not return to St. Augustine until early in January next.

FREDERICK SCHWATKA, late of the Army, returned to New York early in the week from Alaska, and took temporary quarters at the Astor House.

CAPTAIN R. A. EDWARDS, recently nominated at Cheyenne for County Surveyor, was formerly an officer of the 5th U. S. Cavalry and resigned in 1870.

COLONEL JOHN M. WILSON, U. S. Army, visited Newburgh, N. Y., this week, on business connected with the erection of a monument to mark the site of Washington's Headquarters.

AT a meeting of the Geographical Society of the Pacific, held at San Francisco, Oct. 19, an interesting paper by Lieut. J. C. Cantwell, U. S. R. M., on "Explorations on the Koo-wah in Alaska," was read.

LIEUTENANT C. G. WOODWARD, 3d U. S. Artillery, rejoined this week at Fort McHenry, Md., from temporary duty at Washington Bks., and took charge of quartermaster and subsistence matters in succession to Lieut. R. D. Potts, 3d Artillery, who goes to Washington Barracks for duty.

THE New York *Sun* says President Cleveland has been trying the massage treatment for obesity, and adds: "Gen. Phil Sheridan has also been treated. The General was troubled about the size of his collar. He has had to wear a larger size each year for several years. He expects to reduce his weight without changing his diet."

THE report, says the Kansas City *Times*, that Gen. A. McD. McCook, U. S. A., may be called to the superintendency of the Military Academy is without foundation. It is doubtful if General McCook would care to leave even if detailed. The school at Fort Leavenworth is almost of as much importance as the Point, and he is quite anxious to make this the model school of the country.

GENERAL ABNER DOUBLEDAY, U. S. A., says a Washington special, has been conducting quite a correspondence with the Civil Service Commission growing out of the removal of an inspector in the Chicago Custom House, who was, with the General, one of the defenders of Fort Sumter. Gen. Doubleday takes up the cudgel in behalf of the old soldier and upbraids the Commission for allowing the removal of a man who had served his country so well.

THE San Francisco *News-Letter* says: "The Presidio is filling up with fresh reinforcements, and the hope is indulged that the new officers may prove as good dancers and as acceptable society beaux as those who were stationed there four or five years ago. A good many growls are heard from those ordered to move into town from their pleasant quarters at that post, but I remember the time when as many were in order against Gen. McDowell, when he removed the Headquarters *from* town and placed them at the Presidio, where they have since remained till now."

MISS ANNA BLANCHARD BANCROFT, daughter of Capt. E. A. Bancroft, 4th U. S. Art., of Fort Trumbull, was married at St. James's Episcopal Church, New London, Oct. 21, to Mr. William Brainard Coit, son of the Hon. Robert Coit. There was a large and fashionable attendance at the Church, and after the ceremony there was a wedding breakfast at the residence of the bride's parents at the Fort. The wedding gifts, which were numerous and costly, included a valuable piece of land which had belonged to the bride's great-great-great-grandfather, James Kearney, a retired British Army officer.

THE San Antonio express says: "The visit to Fort McIntosh of Capt. Ballance, Judge-Advocate, has resulted in a complete adjustment of the unpleasant difficulties between two officers of the 16th Infantry, Capt. Henry C. Ward and Lieut. Samuel R. Whitall. The latter made ample apologies to Capt. Ward who commands the same company in which he is the 1st lieutenant, and by the way, the first for promotion in his regiment for captaincy. This mutual understanding is the more gratifying, as both these officers have heretofore stood so well in the Army, both of them having fine records and long service."

THE New York *Times* says: "Two of the strollers on Broadway Oct. 23, enjoyed the fine weather and criticized everything they saw. They were Prince Louis Napoleon and the Chevalier Michels, his travelling companion. The Prince is travelling in strict incognito as Count Louis de Moncalière, refusing to see every one except those whom he has formerly known in Paris. The name of Moncalière is that of a small city in Piedmont, where the Prince's mother lived with her family. The Prince's father is the gentleman whom the Parisian newspapers love to call 'Plon-Plon'; his mother is the Princesse Clothilde, sister of the King of Italy. He is the grandnephew of Napoleon Bonaparte."

DR. M. C. WYETH, U. S. A., left Fort Wayne, Mich., early in the week on a short leave.

COLONEL G. M. BRAYTON, U. S. A., and Mrs. Brayton visited friends in Washington this week.

LIEUTENANT J. B. ALESHIRE, 1st U. S. Cavalry, was a recent guest at the Merchants' Hotel, St. Paul.

LIEUTENANT C. H. BARTH, 12th U. S. Infantry, of Fort Niagara, N. Y., spent a few days in New York this week.

MRS. HOWELL, wife of Lieut. Howell, 7th Infantry, has left Fort Laramie for a visit to friends at St. Joseph, Mo.

LIEUTENANT R. G. CARTER, U. S. A., has removed from N. Amherst, Mass., and is now residing at Mt. Pleasant, D. C.

MRS. ARCHIBALD FORBES, née Meigs, has been doing her best to get accustomed to the Scotch bagpipes in Banffsherrie.

GENERAL W. T. SHERMAN, U. S. A., was in St Louis this week and attended a meeting of the Loyal Legion on Monday evening.

COLONEL DE LANCEY FLOYD-JONES, U. S. A., and Mrs. Jones attended the funeral of the late Mrs. A. T. Stewart in New York on Thursday.

GENERAL J. C. DUANE, U. S. A., came to New York this week to arrange for the permanent transfer of his "lares and penates" to Washington.

COLONEL G. L. GILLESPIE, U. S. Engineers, was in Chicago last Saturday, returning from special duty in the Northwest to his station at Boston.

GENERAL C. C. AUGUR, U. S. A., registered at the Grand Hotel, New York, on Thursday, and Rear Admiral W. R. Taylor, U. S. N., at the Windsor.

CAPTAIN G. S. CARPENTER, 14th U. S. Inf., under recent orders, takes command of Fort Klamath, Ore., his company having been transferred there.

MAJOR CHARLES W. RAYMOND, Corps of Engineers, has been selected to relieve Col. John M. Wilson, in charge of the 1st and 2d divisions of the Chief of Engineer's office.

LIEUTENANTS ELIAS CHANDLER and J. P. Anderson, 16th Infantry, arrived at St. Augustine Oct. 25, with the Indian women and children and two scouts from San Antonio.

CAPTAINS D. J. CRAIGIE and James Halloran, 12th U. S. Infantry, arrived in New York on Thursday from Sackett's Harbor and took temporary quarters at the Grand Hotel.

COLONEL AND MRS. DODGE, U. S. A., have been visiting, in Chicago, their son, "Frederick Paulding," having played a very successful engagement there with Miss Margaret Mather.

LIEUTENANT J. W. BENÉT, 5th U. S. Artillery, son of Gen. S. V. Benét, having been transferred to the Ordnance Department, 2d Lieut. Samuel E. Allen, of the 5th, becomes 1st lieutenant.

CAPTAIN J. B. BURBANK, 3d U. S. Artillery, was expected in New York on Thursday on a short visit from Washington Barracks. He will leave for San Antonio about the middle of November.

LIEUTENANT COLONEL O. C. BOSBYSHELL will, at the request of the Board of Managers, relate at the United Service Club, Philadelphia, on Wednesday, Nov. 3, 1886, at 8 P. M., "Hatteras; Winter of 1861-1862."

GENERAL H. G. GIBSON, commanding at Washington Barracks, has in addition assumed temporary command of Fort Myer, Va., in succession to Major Biddle, and has sent a detachment of artillery there as guard.

CAPTAIN G. B. RODNEY, 4th U. S. Art., leaves Fort Adams to take command of Light Battery F, of his regiment at Fort Snelling, relieving Capt. F. G. Smith, who goes to Fort Adams. Capt. Rodney succeeds to a thoroughly equipped and well drilled battery, for during the past few years we have found repeated occasions to praise Light Battery F, 4th Art., commanded by Capt. Smith.

THE following Army officers registered at the War Department this week: Maj. E. H. Brooke, retired; Capt. W. A. Elderkin, Subs. Dept.; Lt.-Col. G. M. Brayton, 9th Inf.; 1st Lieut. John Bigelow, Jr., 10th Cav.; Col. Theo. Yates, retired; Maj. Chas. W. Raymond, Engrs.; 2d Lieuts. Geo. E. French, 4th Inf.; Harry Fletcher, 10th Inf.; Carl Koops, 13th Inf.; Stephen M. Hackney, 16th Inf.; Frank Owen, 8th Inf.; Odon Gurovits, 11th Inf., and G. O. Martin, 18th Inf.; 1st Lieut. J. H. Philbrick, 11th Inf.; Capt. Edward Hunter, 1st Cav.

THE Vancouver *Independent* of Oct. 21 says:

Lieut. C. B. Schofield, adjutant 2d Cavalry, was in Portland last week enjoying a short respite from duty.... Lieut. F. W. Sibley, 2d Cavalry, will rejoin at Fort Walla Walla the first week in November.... The annual inspection of lighthouses in the Columbia and Puget Sound districts is now being made by Capt. H. F. Pickering, Secretary, and Capt. Uriel Sebree of the Lighthouse Board..... Gen. E. S. Bragg, member of Congress, Mrs. Bragg and daughter, Miss Bertha, are this week the guests of Gen. John Gibbon.... Fort Klamath, Oregon, will not be abandoned. Co. K, 14th Infantry, is under orders to proceed to take station there. This will remove to the wilderness Capt. G. S. Carpenter, Lieuts. R. A. Lovell and J. H. Gustin.

THE Omaha *Excelsior* of Oct. 23 says:

Col. Henry is to remain, the office of inspector of rifle practice not being abolished.... Gen. Crook is hunting in the Wind River country, near Fort Washakie. He is accompanied by Major Stanton, Paymaster at Salt Lake. Gen. Crook will return about the 1st of November.... Misses McClintock and Walsh were guests of Mrs. Major Brown on Monday and Tuesday.... Lieut. Virgil J. Brumback, 2d Inf., has tendered his resignation, to take effect March 1, 1887, and has applied for leave until then. He intends studying law with his father, who has an extensive practice in Boise City, Idaho.... Last Saturday the quarters of Gen. Wheaton were the scene of juvenile joy and festivity, the occasion being the birthday of Miss O. M. Wheaton, youngest daughter. Gen. Wheaton, whose affable manners and versatile talents make him equally at home whether in the drawing room or on the field of battle, was everywhere present amusing the children and enlivening their pastimes, while Mrs. Wheaton, who is noted for bringing to a successful issue whatever she undertakes, had forgotten nothing that might add to the happiness of the children or the welfare of the parents, many of whom were present..., Ensign Buchanan, U. S. N., is in Omaha, visiting his sister, Miss Mary I. Buchanan.

FIRST LIEUTENANT C. H. GRIERSON, 10th Cavalry, will open a recruiting rendezvous in Lexington, Ky., early in November.

CAPTAINS MAHAN, MAGUIRE and ADAMS, of the Engineer Corps, U. S. A., met at Erie, Pa., on Thursday, to survey the peninsula off that city.

LIEUTENANT JOHN H. PHILBRICK, 11th Inf., arrived in Washington this week on leave, and is the guest of Major Theodore Schwan, A. A. G.

THE wedding of Miss Belle Vedder, the daughter of Col. Nicholas Vedder, U. S. Army, retired, to Col. Robert I. Fleming, took place Wednesday evening at the residence of the bride's parents, Massachusetts Avenue, Washington.

LIEUTENANT M. L. WOOD, U. S. N., registered at the Southern Hotel, St. Louis, this week.

THE marriage of Lieut. Reamey, U. S. N., to Miss Brewster, is announced to take place in New York November 10.

MR. GEORGE BROWN, JR., son of Captain Brown, U. S. N., is lying dangerously ill at the Norfolk Navy-yard with typhoid fever.

REAR ADMIRAL A. LUDLOW CASE, U. S. N., and family, lately returned from Europe, have gone to New Bedford, Mass., to spend the winter.

MAJOR-GENERAL O. O. Howard made a pleasant visit to Mare Island a few days ago and was received by Commodore Belknap with due honors and hospitality.

MISS HATTIE M. BENNETT, eldest daughter of Boatswain Thomas Bennett, U. S. N., was married, Oct. 19, at Worcester, Mass., to Mr. H. L. Adams, of Wilmington, Vt.

ONE of the Newport marriages of the season was that of Lieut. M. F. Wright, U. S. Navy, to Miss Gertrude Elbertina Boker, granddaughter of Mr. Elbert J. Anderson, of New York City. Only the family and a few intimate friends were present.

REAR-ADMIRAL A. L. CASE, U. S. N., for some time past on leave in Europe, has returned to the United States, and at last accounts was registered in New York. The Admiral has a large circle of friends who will welcome him home with pleasure. He was retired in 1875.

ASSISTANT SURGEON WM. MARTIN, U. S. N., is now putting in a three years' cruise in Alaska on the *Pinta*. Dr. Martin will be remembered as the physician who so pluckily fought the yellow fever at Key West during several epidemic outbreaks of that dreaded disease.

LIEUTENANT TEN EYCK DE WITT VEEDER, U. S. N., is on special duty connected with the Bureau of Navigation at Newport, R. I. Lieut. Veeder was appointed from New York in September, 1868. His last cruise was on the China station, on the flag ship *Richmond*, and expired in August, 1884.

PAYMASTER C. D. MANSFIELD, U. S. N., has been attached to the Fish Commission steamer *Albatross* since November, 1883, and it is quite probable that he will be detached before the vessel sails for the Pacific coast. The paymaster is well known in Washington, and his return will be a welcome one.

CAPTAIN WM. P. MCCANN, U. S. N., President of the Naval Advisory Board, is now, through the recent promotion of Capt. Weaver, the senior captain on the active list. Barring accidents, then, Capt. McCann will be promoted to Commodore on the retirement of Rear-Admiral S. R. Franklin, U. S. N., Aug. 24, 1887.

CAPTAIN ROBT. L. PHYTHIAN, U. S. N., recently detached from the flag ship *Trenton*, accompanied by Mrs. Phythian, were the guests of General and Mrs. Col. J. C. Tidball, U. S. A., during an enjoyable visit to Yorktown, Va. Quite a party of ladies and gentlemen, invited guests, formed the excursion, which was made on the steamer *General Wool*.

LIEUTENANT C. G. CALKINS, U. S. N., recently returned from a three years' cruise on the Asiatic station, and has now joined his family in Washington. He has taken a house in one of the rapidly growing suburbs of the capital, and his friends hope his duty ashore may enable him to occupy it in peace and quietness for the usual term of shore duty.

P. A. ENGINEER CHAS. P. HOWELL, U. S. N., recently detached from the *Alert* at San Francisco, was at the Navy Department last week, looking none the worse for a three years' cruise in China. Mr. Howell will probably enjoy a period of waiting orders, as is usual after a cruise. He is well known in Washington, where at one time he was stationed.

IT is pleasant to note that Capt. C. F. Williams, U. S. M. C., has lost none of the geniality for which he was so well known in Washington by transplantation to the Pacific slope. His efforts to please appear to be as successful there as here, if we may judge by the accounts of his acting the part of Hezekiah Tarbox in "A Change of Base" recently presented by an amateur company at Mare Island Navy-yard.

LIEUTENANT E. H. TAUNT, U. S. N., has presented to the National Museum an interesting collection of African curiosities which he collected while engaged in his expedition of observation up the Congo. Should the Government ever undertake the publication of a catalogue of the collection gathered under the roof of the museum building, it will probably develop the most interesting and valuable aggregation in the world.

THE marriage of Ensign Edward Everett Capehart to Miss Sadie P. Wadley, of Portsmouth, N. H., was solemnized in St. John's old historic church in that city last Wednesday evening by the Rev. Henry E. Hovey. The groom was attended by Ensign Franklin Swift, the ushers being Lieut. C. C. Rodgers, Lieut. T. D. Griffin, Ensign D. C. Dent, and Asst. Engr. T. F. Carter. The ceremony was followed by a brilliant reception at the residence of the bride, Mr. and Mrs. Dole Wadley, No. 11 Islington street, after which the bride and groom left for Annapolis, Md., where Ensign Capehart is now on duty at the U. S. Naval Academy. The bride was the recipient of many beautiful and appropriate presents.

LIEUTENANT J. D. J. KELLEY, U. S. N., arrived in New York from Europe early this week.

CAPTAIN R. W. MEADE, U. S. N., was a recent guest at the New York Hotel, New York City.

AN article by Hobart Pasha on "Recent Naval Progress," appears in the *Forum* for November.

CIVIL ENGINEER A. G. MENOCAL, U. S. N., registered at the New York Hotel, New York, early in the week.

MEDICAL DIRECTOR A. L. GIHON, Mrs. Gihon and two sons have arrived at Mare Island, Cal., and the doctor has taken charge of the Naval Hospital.

IT is understood that the Naval Examining Board will report in favor of the promotion of Lieut. Frederick H. Tyler (junior grade), in whose case a question of moral fitness was involved.

LIEUTENANT A. C. DILLINGHAM, U. S. N., and Mrs. Dillingham, visited friends in Portsmouth, Va., this week on their return from Richmond, Va., where they were the guests of Gov. Lee.

REAR ADMIRAL RALPH CHANDLER, U. S. N., accompanied by his secretary, Lieut. C. H. West, was to sail from San Francisco on Saturday of this week, for Yokohoma, to take command of the Asiatic Squadron.

SURGEON THEODON WOOLVERTON, U. S. N., has recently arrived in the U. S. from a South Pacific cruise on the *Shenandoah*. The Doctor has been in indifferent health for some time, and a return to the civilization of the Great Republic, it is hoped, will prove beneficial to him.

MR. JOSEPH WARREN KEIFER, of Nebraska, and Miss Julia Lowry, were married at the home of the bride's mother, at Ripley, O., Oct. 20. Mr. Keifer is a son of the Hon. J. Warren Keifer. Miss Lowry is a daughter of Mrs. W. R. Lowry, and a sister of Lieut. Owen W. Lowry, U. S. N.

PROF. HENRY H. LOCKWOOD, U. S. N. (formerly U. S. A.), has presented to Lieut. D. L. Brainard, recently appointed to the 2d Cavalry, the handsome pearl-handled navy revolver carried by his late son, Lieut. James B. Lockwood, during the trip of exploration the latter made when he and Brainard reached the most northerly point yet attained by man.

LIEUT. COMDR. Isaac Hazlett, Comdr. H. B. Seely, Lieut. Comdr. E. B. Thomas, Comdr. Wm. S. Dana, Lieut. Comdr. H. W. Lyon, Lieut. Geo. W. Tyler, Lieut. Wm. P. Elliott, Med. Director Delavan Bloodgood, Asst. Paymr. S. L. Heap, Capt. N. H. Farquhar, Gunner C. Dugan, Pay Director Edward May, Assistant Engineer T. W. Kinkaid, registered at the Navy Department during the week.

AS SHOWING the mutations of duty to which naval officers are subject, it is interesting to note that Chief Engineer George W. Melville, the hero of the unfortunate *Jeannette*, is now "Inspector of coal" at New York. Rather a contrast to the service so thoroughly performed in searching for and finding, through blinding snow and gale, the dead bodies of the brave DeLong and companions.

LIEUTENANT J. C. GILLMORE, U. S. N., is still on duty in the library of the Navy Department, where he is busily engaged in cataloguing the various scientific publications appertaining to the Navy. Lieut. Gillmore is the fortunate owner of two houses on 20th st., in one of which he is living at the corner of Sunderland Place. His last cruise was on the U. S. S. *Iroquois* in the South Pacific.

IT is not generally known that Lieutenant Henn, in whose yacht, *Galatea*, so much interest has been centred by English yachtsmen, is himself an Irishman. His father still presides in the Quarter Sessions Court in Galway, the most courteous, if not the most competent, County Court judge in Ireland. His residence is known by the picturesque title of "Paradise," and he tells a story himself how a letter forwarded from Dublin, without name or address, reached him in due course. The superscription "The Bird of Paradise" was sufficient for the astute Post Office officials. The nautical lieutenant has for a good while been known in the district by the soubriquet of "The Water Henn."—*Broad Arrow*.

RECENT DEATHS.

THE funeral services of the late Lieut. William M. Medcalfe, Ordnance Department, U. S. A., who was killed at Sandy Hook last week, were held on Saturday last, October 23, at the residence of R. L. Lee Lisser, 166 Dean St., Brooklyn, and were largely attended by friends of the family, officers of the Army, etc. The Rev. E. H. C. Goodwin, Chaplain at Governor's Island, officiated, and the pallbearers were Captains Whipple and Field and Lieutenants Borup, Bruff, Crozier and Brown. The remains were taken to Greenwood Cemetery for interment. Much sympathy is felt for the bereaved mother, who has, during her married life, had much domestic affliction. Services over the body of Private Joseph King, killed by the same explosion were held at Sandy Hook, after which it was taken to the Cypress Hills National Cemetery for interment.

MEDICAL DIRECTOR GEORGE MAULSBY, U. S. N., retired, died on Wednesday evening, Oct. 27, at his residence in Washington, opposite Farragut Square. His death was the result of a severe cold, followed by a brief illness. Dr. Maulsby was a native of Pennsylvania, and entered the Service in 1838 and received his promotion as Medical Director March 3, 1871.

OF Captain W. E. Greenwell, formerly of the U. S. Coast Survey, who died at Santa Barbara, Aug. 27, 1886, a correspondent writes: "Captain Greenwell was well known for forty years to the public service, but whose death, owing to his having resigned

some years ago, has not attracted the attention of many friends in the Army and Navy to whom his loss will be a lasting grief. He entered the Coast Survey in 1846. Serving first in the party of Assistant Gerdes in Mobile Bay, he continued to work chiefly on the Southern Coast until 1854, in which year he was transferred to the Pacific coast. On this coast he gave nearly thirty years of his life to the faithful service of his country in his profession as surveyor and civil engineer, while he made for himself and his lovely family a home famed for its kindly hospitality throughout that beautiful region of Southern California. Here as the country settled rapidly he was sought for far and wide to give advice to those seeking homes, to render help to the unfortunate, and to place at the disposal of individuals or young settlements his valuable practical experience as pioneer in those regions. To Army and Navy officers working in his vicinity, the assistance rendered by Capt. Greenwell's thorough knowledge of the country, and his clear practical intelligence, was invaluable, and their debt of gratitude was made the greater by the warm and kindly hospitality of his lovely family. To have enjoyed the genial company, the faithful friendship, of this simple and noble character is a privilege and a memory invaluable to those fortunate enough to have classed themselves as his friends. In that once happy home, near the Santa Barbara shore, a devoted wife now mourns his death, supported in her bereavement by two sons worthy of their father's name. T."

THE friends of Lieut. J. N. Hemphill, U. S. N., will read with much sorrow of the death of Mrs. Hemphill, on the morning of Oct. 25, after an illness of less than a week. Lieut. Hemphill has been on ordnance duty for a little over two years at the Washington Yard. They were living at the Portland at the time of the sad occurrence. The funeral took place on Oct. 27 at the Church of the Epiphany, and was largely attended by naval people and civilians.

THE death is announced of Baron Frederick Ferdinand Von Beust, the distinguished Austrian statesman, in his 78th year.

JOHN HAM, a veteran of the War of 1812, died at Barrington, N. H., Oct. 23, aged 92.

WHAT THE NAVY NEEDS.

(From an Interview with Rear Admiral Luce in the N. Y. Herald of Oct. 24.)

I BELIEVE that the weakness, the inefficiency, the demoralization of the American Navy to-day is due to the bad system which has prevailed during the past 20 years at the Navy Department. When I say demoralization I do not refer to the personnel of the Navy. Thank God, I can honestly say that the word applies to the ships and guns, not to the officers. When we built the four new cruisers, the *Atlanta*, *Dolphin*, *Boston* and *Chicago*, we had to create a board to assist the Secretary of the Navy. Two of the members were chosen from outside the Navy. If the *Chicago's* engines prove a failure it will be due to one of the civilian members, who insisted on the type of engine Admiral Porter condemned so severely in his interview.

Now, as to the remedy for the chaotic condition of affairs. We should have an Assistant Secretary of the Navy, either a single one or the office in commission of three or more officers, who should be of the naval service and selected solely because of his or their qualifications for the place. The assistant or assistants should in all things be subordinate to the Secretary of the Navy—emphasize this point—but they should have the final say in all matters pertaining to the Navy. In other words, they or he should be supreme, subject to the civilian head of the Navy Department. When such action becomes established we will be in a condition to talk of new ships and a new Navy. Until then the Service is exposed to the vicissitudes of the past renewed in the future.

I do not think you will find a stronger advocate of the proposed system than the present Secretary of the Navy. Mr Whitney is an enlightened man, and he endeavored to the best of his ability to carry a bill through Congress last winter. It failed, and of the reasons why it failed the less said the better.

There is another drawback to which the Navy is exposed that is sapping its life blood. I refer to the contention and jealousy of the staff and the line officers. It is high time that this unseemly contest should end. It has gone into politics, and between the two the Navy has been made a football. As the matter stands to-day the line goes before Congress and blocks the movements of the staff; the latter, on the other hand, blocks the plans of the line. All of this should end at once. As to the causes which gave rise to the contention, I do not hesitate to say that both sides have substantial grievances. Perhaps the line was the aggressor. Some of our old quarter-deck martinets of the sailing ship epoch could not understand or sympathize with the presence of engineers. They were tyrannical and insolent, and the engineers resented it. Being better versed than the old sea dogs in the ways of the land, they, coming directly from the people, got satisfaction as best they might through political influence. I am opposed to all of it. I believe in going half way to compromise and and adjust the difficulty. Every branch of the Service has a legitimate and recognized place. An engineer ought to be supreme in his department, a paymaster in his, the surgeon in his own sphere. The watch officer has his place, the 1st lieutenant has his position.

There must be a supreme authority on board a ship, just as in a cotton mill. In the former case it is the captain; in the latter the treasurer generally is given the position. If an officer does not do his duty the captain must make him; if the mill employee is defiant the treasurer will discharge him. In each and every bill that is proposed to increase the efficiency of the Navy it should be clearly shown by the representatives of the line and staff that there is no attempt, apparent or concealed, to injure the status of each other. I, speaking as a line officer, say that no bill should be proposed that is not clearly free from antagonism to the interests of the staff. No reasonable staff officer wishes to assume any of the duties or functions of the fighting branch of the Service. Tyrannical or unnecessarily arbitrary line officers who "go" for the staff on principle should be repressed by the sentiment of the Service, and if necessary by the Secretary of the Navy. On the other hand, staff officers should keep within the limits of their duties in official matters. I am entirely in earnest in this matter. I wish to look upon the question as a patriotic officer who holds the Service and its welfare above all. There should be a general spirit of concession on all sides.

I can see no reason why there should not be a better state of feeling. Perhaps the Engineer Department has been the head of the staff opposition, and it is quite likely that the engineers had a substantial cause for feeling that they had been harshly used. The staff officers are generally accomplished men, well versed in the branches they administer. The difficulty is almost entirely an official one. I am aware that personal enmities exist, but they are rather the exception than the rule. Talk with the officers of the Navy and you will find that the spirit of conciliation and mutual restraint is abroad in the Service. Certainly there is no one more ready to bring it about than myself. I again repeat that all bills for the better government and improvement of the Navy should be divested of features that will injure the co-ordinate branches of the Service.

It is idle to talk of ships or guns or men until we can have system at the Navy Department and until we restore mutual confidence among the officers. I regard these points as the cardinal ones for a start.

THE CASE OF CAPTAIN JOHNSON.

HEADQUARTERS OF THE ARMY,
ADJUTANT-GENERAL'S OFFICE,
WASHINGTON, October 22, 1886.

G. C.-M. O. No. 88.

I. Before a General Court-martial which convened at Washington Barracks, District of Columbia, pursuant to Special Orders, No. 223, Sept. 24, 1886, Hdqrs. of the Army, Adjt.-General's Office, and of which Col. Horatio G. Gibson, 3d Art., is president, was arraigned and tried—Capt. William S. Johnson, U. S. Army, retired,

Charge I.—"Violation of the 60th Article of War,"

Specification—"In that Capt. William S. Johnson, retired, U. S. A., having, at Washington, D. C., on or about July 31, 1886, caused to be presented by his assignee, R. A. Phillips, to Maj. I. O. Dew[e]y, Paymr., U. S. A., his official pay account for the month of July, 1886, amounting to $175, and having been duly paid the same, did, furthermore, at New York, New York, on or about Aug. 3, 1886 cause to be presented by his assignees, T. H. Norton and Co., through their agent, the Exchange Bank of Wheeling, W. Va., to Major C. C. Sniffi[e]n, Paymr., U. S. A., a further official pay account and claim against the United States of the same amount and for the same month, the said Johnson well knowing that the said pay account and claim was false and fraudulent."

Charge II.—"Conduct unbecoming an officer and a gentleman."

Specification—"In that Capt. William S. Johnson, retired, U. S. A., having, at Washington, D. C., on or about July 31, 1886, caused to be presented by his assignee, R. A. Phillips, to Maj. I. O. Dew[e]y, Paymr., U. S. A., his official pay account for the month of July, 1886, amounting to $175, and having been duly paid the same, did, furthermore, at New York, New York, on or about August 3, 1886, caused to be presented by his assignees, T. H. Norton and Co., through their agent, the Exchange Bank of Wheeling, W. Va., to Maj. C. C. Sniffi[e]n, Paymr., U. S. A., a further official pay account and claim against the United States of the same amount and for the same month, the said Johnson thereby causing to be presented for payment a false, fraudulent and double claim for pay against the United States for said month of July, 1886." To which charges and specifications the accused, Capt. William S. Johnson, U. S. A., retired, pleaded as follows:

Charge I.—To the Specification, "Not guilty;" to the Charge, "Not guilty." Charge II.—To the Specification, "Not guilty;" to the Charge, "Not guilty."

Finding.—The Court, having maturely considered the evidence adduced, finds the accused, Capt. William S. Johnson, U. S. A., retired, as follows:

Charge I.—Of the Specification, "Not guilty;" of the Charge, "Not guilty.—Charge II.—Of the Specification, "Not guilty;" of the Charge, "Not guilty." And the Court does therefore "*acquit*" him, Capt. William S. Johnson, U. S. A., retired.

II. The proceedings, finding, and sentence of the General Court-martial in the foregoing case of Captain William S. Johnson, U. S. A., retired, having been submitted to the Lieutenant-General Commanding the Army, the following are his orders endorsed thereon:

"HEADQUARTERS OF THE ARMY,
WASHINGTON, D. C., October 22, 1886.

"In the foregoing case of Captain William S. Johnson, U. S. A., retired, the court erred in declining to admit in evidence a document purporting to contain the full record of the accused as prepared by the War Department, and which the Judge Advocate sought to introduce after the defence had presented the military history of the accused as appearing in the Army Register. The accused having put his character in issue, it was eminently proper for the prosecution to introduce evidence impeaching the same.

"That the accused admitted the execution of two sets of vouchers for his pay for the same month, is shown by the record; and the evidence also shows that he allowed these vouchers to pass beyond his control, so that both were presented and paid. While it appears that the accused made certain private arrangements with the persons holding his vouchers, yet the United States was no party thereto and was in no manner bound by them; and although there may have been extenuating circumstances and the overdrawn pay was refunded, it nevertheless remains that the Government was exposed to a fraud for which Captain Johnson cannot be held excusable.

"The proceedings, finding, and acquittal in the case of Capt. William S. Johnson, U. S. A., retired, are disapproved.

"P. H. SHERIDAN,
"Lieutenant-General Commanding the Army."

III. Captain W. S. Johnson, U. S. A., retired, is released from arrest. IV. The General Court-martial, of which Col. Horatio G. Gibson, 3d Artillery, is President, is hereby dissolved.

By command of Lieutenant-General Sheridan:
R. C. DRUM, Adjutant-General.

In the case of a soldier recently tried at Fort Keogh, the reviewing authority, Gen. T. H. Ruger, says: "It appears from the record that the judge advocate, after the finding of guilty had been arrived at and before the sentence had been considered by the court, offered evidence of former convictions of the prisoner, and that the court refused to receive such evidence, presumably upon one or both of the objections made by members that it "was intended to prejudice the members of the court against the prisoner," and that it "tended to cause a violation of the oath of secrecy binding on the members of the court and the judge advocate."

The court erred in refusing to receive this evidence, presented in proper form, of former convictions referred to it by the authority convening the court. The questions of legality and of policy relative to the introduction of evidence of former convictions were decided in general by the Secretary of War in issuing General Orders No. 41, Hdqrs. of the Army, Adjt.-General's Office, June 26, 1886, and it is not within the province of a Court-martial to decide either of such questions adversely in a particular case. The court appears to have construed General Orders No. 41 as giving all discretion relative to the reception of such evidence to the court. It is considered that the intent of the order is to authorize the authority convening the court to refer in a case thought fit such evidence for consideration with reference to the sentence, but not for decision whether it shall be received when presented in proper form. The weight, if any, to be given such evidence in fixing the sentence must, necessarily, be determined by the court, and herein is reserved to the court effective decision upon the whole matter. Subject to these remarks, the proceedings, findings and sentence are approved, and the sentence will be duly executed. (G. C. M. O. 87, D. Dak., Oct. 15.)

OUR NEW OFFICERS.

WE give here the record of the non commissioned officers who have just received commissions:

BRAINARD, D. L.—Appointed 2d Lieut., 2d Cav. Born in Norway, N. Y., in 1856; enlisted, Sept. 18, 1876; assigned to Troop L, 2d Cav., and promoted Corporal, Oct. 22, '77; promoted Sergeant, July 21, '79; discharged and re-enlisted Sept. 18, '81, and held that rank until his transfer to the Signal Corps, which took effect Aug. 1, '84, from which latter date he held the rank of Sergeant in said Corps to include Aug. 31, '86.

FLETCHER, HARRY, 2d Lieut., 10 Inf., was born at Bellefontaine, Logan Co., Ohio; appointed from Indianapolis, Ind.; 27 years of age; served 4 years and 8 months; Sergeant-Major 8th Cav., when appointed; stood No. 5 at final examination.

FRENCH, GEORGE E., 2d Lieut 4th Inf., was born in Boston Mass., and gives that place as his residence at date of appointment; is 28 years old; served 2 years and 6 months as private and non-commissioned officer; was Sergeant of Co. A, 1st Inf., at time of appointment; stood No. 3 in class of 9 at the final examination.

GUROVITZ, ODON, 2d Lieut., 11th Inf., was born at Buda-Pest, Hungary; residence when appointed, not given; 29 years of age; served 6 years and 7 months; Sergeant-Major 6th Inf., when appointed; stood No. 1 at final examination.

HACKNEY, STEPHEN M., 2d Lieut., 16th Inf., was born at Auburn, Ala.; 26 years of age; appointed from Tyler, Texas; served 3 years and 6 months; Corporal Co. G, 16th Inf., when appointed; stood No. 2 at final examination.

KOOPS, CARL, 2d Lieut, 13th Inf., was born in Rotzelburg, Germany; residence when appointed, not given; 28 years of age; served 4 years and 11 months; Sergeant Troop C, 2d Cav., when appointed; stood No. 5 at final examination.

MARTIN, GEORGE M., 2d Lieut., 18th Inf., was born in Grenada, Miss., and appointed from Los Angeles, Cal.; 26 years of age; served 6 years and 4 months; Corporal Co. H, 1st Inf., when appointed; stood No. 7 at final examination.

OWEN, FRANK, 2d Lieut., 8th Inf., was born at Yarn Hill, Oregon; residence at time of appointment, Washington, D. C.; age, 25 years; served 4 years and 3 months, and at the time of appointment was Sergeant of Co. C, 9th Inf.; stood No. 4 at final examination.

LATE ARMY ORDERS.

1st Lieut. Wm. O. Owen, Jr., Asst. Surgeon, is relieved from duty at Ft. Schuyler, N. Y. H., and will proceed to duty at Plattsburg Barracks, N. Y., and report for duty as post surgeon. (S. O. 170, Div. A., Oct. 27.)

1st Lieut. Sidney Taylor, 4th Art., and the detachment of that regiment now at Bedlow's Island, N. Y. H., will return to Fort Adams, R. I. (S. O. 170, Div. A., Oct. 29.)

One foot battery from Fort Schuyler is detailed for guard duty at Bedlow's Island until Dec. 1 next. (S. O. 170, Div. A., Oct. 29.)

The resignation of 2d Lieut. V. J. Brumback, 2d Inf., is accepted, to take effect March 30, 1887, and he is granted leave until then. (S. O., H. Q. A., Oct. 29.)

Lieut.-Col. A. R. Buffington, Ord. Dept., will proceed to Sandy Hook on public business connected with trials of a new carriage for field guns. (S. O., H. Q. A., Oct. 29.)

2d Lieut. Fredk. R. Day, Sig. Corps, will proceed to Portsmouth, Fort Macon, Cape Lookout, New River, Wilmington, and Smithville, N. C., under special instructions from Chief Signal Officer. (S. O., H. Q. A., Oct. 29.)

The leave of Post Chaplain J. A. M. La Tourrette is extended five months, for disabiliy, with permission to go abroad. (S. O., H. Q. A., Oct. 29.)

Capt. Chas. A. Wikoff, 11th Inf., is granted leave for two months, with permission to apply for two months' exteusion. (S. O., H. Q. A., Oct. 29.)

2d Lieut. S. L. Brainard, 2d Cav., will report to the Chief Signal Officer for temporary duty. (S. O., H. Q. A., Oct. 29.)

Surg. J. V. D. Middletown is relieved from duty in the Dept. of Missouri and will report at David's Island, N. Y. H., to relieve Surg. Woodhull, who will report for duty in the Dept. of Missouri. (S. O., H. Q. A., Oct. 29.)

Surg. Jno. W. Williams, from Dept. of Columbia to Dept. East. (S. O., H. Q. A., Oct 29.)

Asst. Surg. J. K. Corson from Jefferson Bks., to Dept. of Columbia. (S. O., H. Q. A., Oct. 29.)

Asst. Surg. H. S. Sherrill from Dept. of Platte to Dept. of Columbia. (S. O., H. Q. A., Oct. 29.)

Asst Sur. Benj. Munday from Dept. of Columbia to Jefferson Bks. (S. O., H. Q. A., Oct. 29.)

1st Lieut. W. C. Langfitt, C. E., is granted one month's leave, and the orders of Oct. 19 relating to him suspended until expiration of leave. (S. O., H. Q. A., Oct. 29.)

A G. C.-M. will meet at Washington Bks., D. C., on Nov. 1. Detail: Major E. C. Bainbridge, Capts. F. W. Hess and J. F. Mount; 1st Lieuts. Chas. Humphreys, J. B. Eaton, E. Davis, and W. E. Birkhimer; 2d Lieuts. W. Loveridge and J. D. Barrette, 3d Art.; and 1st Lieut. Jno. D. C. Hoskins, Adjt., 3d Art., J. A. (S. O. 170, Div. A., Oct. 29.)

The following officers having completed the duties devolved upon them, in connection with the inauguration of the statue of "Liberty Enlightening the World," will return to their stations: Maj. Marcus P. Miller, Captains Joseph T. Haskell, Valery Havard, David J. Craigie, James Halloran, 1st Lieutenants Edmund L. Zalinski Constantine Chase, Thomas R. Adams, Robert H. Patterson, Augustus G. Tassin, Benjamin H. Randolph, Charles B. Satterlee and William W. Galbraith. (S. O. 170, Div. A., Oct. 29.)

THE ARMY.

G. O. 78, H. Q. A., Oct. 20, 1886.

I. The scores in the accompanying table (I.) made by members of the Army rifle team of 1886, at the competition held at Fort Leavenworth, Kansas, in September and October, 1886, are published for the information of the Army.

II. The following members of the Army team are announced as the winners of the prizes prescribed in Par. 603, Blunt's "Rifle and Carbine Firing:"

First prize, Corporal C. Michel, Troop L, 4th Cavalry.
Second prize, Sergeant W. D. Huddleson, Battery K, 4th Artillery.
Third prize, 1st Lieutenant Z. W. Torrey, 6th Infantry.
Fourth prize, Sergeant J. F. Crawford, Company A, 19th Infantry.
Fifth prize, 2d Lieutenant C. E. Gillette, Corps of Engineers.
Sixth prize, 1st Sergeant L. Roper, Co. F, 4th Infantry.
Skirmish prize, Corporal C. Michel, Troop L, 4th Cavalry.

III. The marksmen named in the accompanying table (II.) having either won places upon three department rifle teams or three of the prizes awarded at department, division, and Army rifle competitions, are hereby transferred to the class of "distinguished marksmen."

By command of Lieut. Gen. Sheridan:
R. C. DRUM, Adjt.-Gen.

This order publishes two tables, the first giving the names, scores, etc., of the Army Rifle Team, which we have already published, and the second the names, etc., of marksmen transferred to the distinguished class for the year 1886, as follows:

1st Lieutenant Z. W. Torrey, 6th Infantry.
2d Lieut. C. Gillette, Corps of Engineers.
1st Sergeant Wm. Land, E, 2d Cavalry.
1st Sergt. John Ryan, K, 12th Infantry.
Sergeant Charles Barrett, B, Eng. Bat.
Corpl. J. F. Crawford, A, 19th Infantry.
Sergt. S. M. Green, I, 8th Cavalry.
Sergt. W. D. Huddleson, K, 4th Artillery.
Sergt. E. A. Hudson, H, 14th Infantry.
1st Sergt. Noah Ray, I, 22d Infantry.
Sergeant E. H. Stevens, G, 7th Infantry.
Sergeant J. C. Pendergrass, A, 10th Cavalry.
Sergeant G. Zobel, G, 3d Infantry.
Corporal Christian Michel, L, 4th Cavalry.
Artificer Fred. Schmitt, E, 19th Infantry.
Private G. C. Taliaferro, C, 3d Cavalry.

G. O. 79, H. Q. A., Oct. 25, 1886.

I. The Secretary of War having approved the transfer, the 8th Infantry will be relieved from duty in the Department of Arizona and transferred to the Department of the Platte. The movement will commence as soon as practicable, and will be made via the Southern Pacific Railroad to Deming, New Mexico; thence via the Atchison, Topeka and Santa Fe Railroad to Denver, Colorado; and from there via the Union Pacific Railroad, as far as practicable, to the stations of the troops in the Department of the Platte.

II. The commanding general Division of the Pacific will give the necessary orders for the execution of this movement, and arrange all further details with a due regard to economy and the comfort of the officers and men.

III. The commanding general Division of the Missouri will assign the detachments of the regiment to their new stations as soon as practicable after the receipt of this order.

IV. As far as practicable, all regimental, company, and the authorized allowance of officers' baggage will be shipped by rail from initial points to the new stations of the different detachments of the regiment.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 33, DEPT. OF ARIZONA, Oct. 21, 1886.

I. The temporary Headquarters at Willcox, A. T., established May 1, 1886, are discontinued.

II. Capt. Wm. A. Thompson, 4th Cavalry, is hereby relieved from duty as A. A. A. G. (in the field), and will report to the C. O., Fort Bowie, A. T., for duty.

In relieving Capt. Thompson from the position which he has filled with so much zeal and ability, the Department Commander desires to attest his fullest appreciation of the important services rendered.

Having been stationed in the south western country for an unusually long term of years, Captain Thompson had acquired a full and valuable knowledge of its topography and various tribes of Indians, and as A. A. A. G. in the field he rendered faithful and efficient service throughout the campaign.

By command of Brig. Gen. Miles:
J. A. DAPRAY, 2d Lieut. 23d Inf., A. D. C.

CIR. 10, DEPT. OF DAKOTA, Oct. 10, 1886.

Publishes record of Scores made in the competitions held at Fort Snelling, in August, for places on the Rifle Team of the Department of Dakota.
(Heretofore given in part in the JOURNAL.)

CIR. 11, DEPT. OF DAKOTA, Oct. 21, 1886.

The Headquarters of the Dept. of the Dakota will be established at St. Paul, Minn., on Nov. 1, 1886. Official communications will be addressed accordingly.

G. O. 17, DEPT. OF THE MISSOURI, Oct. 18, 1886.

In accordance with the orders of the President, the undersigned assumes command of the Dept. of the Missouri.
O. B. WILLCOX, Brig. Gen.

STAFF CORPS AND DEPARTMENTS.

General Officers.

Major General Schofield and Lieut. John Pitcher, A. D. C., will proceed to Washington, D. C., and return to New York, on official business (S. O. 165, Oct. 22, DIV. Atlantic).

Adjutant and Inspector Generals.

Major H. Clay Wood, Asst. Adjt. Gen., is relieved from duty in the Dept. of Columbia (G. O. 26, Oct. 18, D. Columbia).

Quartermasters and Subsistence Departments.

Par. 7, S. O. 136, June 14, H. Q. A., relating to P. Q. M. Sergt. John T. McDermott, now on temporary duty at Fort Hancock, Texas, is amended so as to assign him to permanent duty at that post (S. O., Oct. 27, H. Q. A.)

P. Q. M. Sergt. Rowland Osborn, now on furlough, is relieved from assignment to duty at Fort Hancock, Texas, and will report to Fort Barrancas, Fla., to relieve P. Q. M. Sergt. George A. Schillo, who upon being relieved will proceed to Fort Leavenworth, Kas., for assignment to duty at that post (S. O., Oct. 27, H. Q. A.)

Post Q. M. Sergt. Herman Gentzen will proceed to Fort Ringgold, to relieve P. Q. M. Sergt. Samuel R. Myer, who will proceed to Fort Lyon, Colo., for duty (S. O., Oct. 22, H. Q. A.)

Lieut. Col. Marshall I. Ludington, D. Q. M. G., will inspect Q. M. stores at Philadelphia, for which Capt. John V. Furey, A. Q. A., is responsible (S. O., Oct. 25, H. Q. A.)

Leave for six days is granted Capt. Charles A. H. McCauley, A. Q. M., Omaha, Neb. (S. O. 139, Oct. 21, D. Platte.)

P. Q. M. Sergt. George Adams is relieved from duty at Fort Bliss, and will proceed to Fort Union, and report for duty (S. O. 73, Oct. 15, Dist. N. M.)

Capt. E. B. Atwood, A. Q. M., will report to the C. O., Fort Marcy, N. M., for G. C. M. duty (S. O. 73, Oct. 15, Dist. N. M.)

Leave for seven days is granted Major John P. Hawkins, Chief C. S. (S. O. 136, Oct. 16, D. Platte.)

Commissary Sergeant W. T. Sheehan, U. S. A., was recently tried at West Point for misappropriation of subsistence stores, etc., and sentenced "to be dishonorably discharged." Lieutenant General Sheridan approves the sentence, and directs its execution (G. C. M. O. 83, Oct. 16, H. Q. A.)

The leave for seven days granted Major John P. Hawkins, Chief C. of S., is extended three days (S. O. 139, Oct. 21, D. Platte).

Commissary Sergt. Jonathan R. Southwick will, as soon as his services can be spared, be relieved from duty at Fort Fred Steele, Wyo. Ty., and will proceed to Fort Hamilton, N. Y., reporting upon his arrival to the C. O., to relieve Commissary Sergt. John P. Jones, who will proceed to Fort Trumbull, Conn., for duty (S. O., Oct. 27, H. Q. A.)

Pay Department.

The troops will be paid to include Oct. 31: Fort Clark, Camp Del Rio, Camp Pena Colorado, Fort Davis, Fort Hancock, and Camps at Eagle Pass and Langtry, by Major Wm. Arthur, P. D. San Antonio and Fort Concho, by Major D. N. Bash, P. D. Forts McIntosh, Ringgold and Brown, by Major J. C. Muhlenberg, P. D. (S. O. 147, Oct. 19, D. Texas.)

The journey made, Sept. 18, by Major Daniel R. Larned, Paymr., from Cedarville to Alturas, Cal., is approved (S. O. 98, Oct. 13, D. Cal.)

The following payments of troops are ordered: Colonel Daniel McClure, A. P. M. G., Fort Columbus, Frankford Arsenal, and Forts McHenry and Monroe. Major Joseph W. Wham, Paymr., Willet's Point, West Point, Watervliet Arsenal and Plattsburgh Barracks. Major George W. Baird, Paymr., National Armory, Watertown Arsenal, Forts Warren and Preble and Kennebec Arsenal. Major Albert S. Towar, Paymr., Forts Wayne, Brady and Mackinac. Major Francis S. Dodge, Paymr., David's Island, Forts Trumbull and Adams. Major Culver C. Sniffen, Paymr., Forts Hamilton, Wadsworth and Schuyler. Major Charles McClure, Paymaster, Newport Barracks, Columbus Barracks, Allegheny Arsenal and Indianapolis Arsenal. Major Wm. H. Comegys, Paymr., Little Rock Barracks, Jackson Barracks, Mount Vernon Barracks, St. Francis Barracks, Augusta Arsenal and Fort Barrancas. Major Henry Clayton, Paymr., Forts Porter, Niagara, Ontario and Madison Barracks (S. O 167, Oct. 25, Div. Atlantic).

Medical Department.

The leave granted Captain John V. Lauderdale, Asst. Surg., is extended one month (S. O., Oct. 26, H. Q. A.)

Leave for eight days is granted Major John S. Billings, Surg. (S. O., Oct. 22, H. Q. A.)

Leave for one month, to take effect when his services can be spared, is granted Capt. Joseph K. Corson, Asst. Surg. (S. O., Oct. 22, H. Q. A.)

The leave granted A. A. Surg. H. S. Haskin is extended one month (S. O., Oct. 25, H. Q. A.)

Asst. Surg. Alonzo R. Chapin will take station at Fort Washakie, Wyo. (S. O. 137, Oct. 19, D. Platte.

Upon the arrival of Asst. Surg. Chapin at Fort Washakie, Asst. Surg. Wm. J. Wakeman is authorized to avail himself of the leave granted him (S. O. 137, Oct. 19, D. Platte).

Capt. Valery Havard, Asst. Surg., will report to Major General Schofield for duty in New York City, in connection with the inauguration of the Statue of "Liberty Enlightening the World" (S. O. 166, Oct. 23, Div. Atlantic).

1st Lieut. Wm. O. Owen, Jr., Asst. Surg., will accompany the battery detailed for duty at Bedlow's Island, N. Y. H., on the 28th inst. (S. O. 166, Oct. 23, Div. Mo.)

A. A. Surg. A. C. Van Duyn will proceed to Fort Riley, and report for temporary duty (S. O. 119, Oct. 20, Dept. Mo.)

A. A. Surg. John H. Lott will proceed to Fort Laramie, Wyo., and report for duty (S. O. 139, Oct. 21, D. Platte).

Engineers and Ordnance Departments.

Capt. Wm. T. Rossell, C. E., will proceed to Wilson's Point, La., and Vicksburg, Miss., on duty connected with works under his charge (S. O. 158, Oct. 25, C. E.)

Lieut. Col. Wm. P. Craighill, C. E., will proceed to Charleston, W. Va., on duty connected with works under his charge (S. O. 159, Oct. 26, C. E.)

Major Charles J. Allen, C. E., will proceed to Grand Forks, Dak., on duty connected with works under his charge (S. O. 159, Oct. 26, C. E.)

Major James C. Post, C. E., will proceed to site of Lock No. 5, Little Kanawha River, W. Va., on duty connected with works under his charge (S. O. 156, Oct. 22, C. E.)

Capt. James B. Quinn, C. E., will proceed to works of improvement at Agate Bay and Grand Marais, Minn. (S. O. 156, Oct. 22, C. E.)

Major L. Cooper Overman, C. E., will proceed to Vermillion Harbor, Ohio, and Monroe Harbor, Mich., on duty connected with works under his charge (S. O. 160, Oct 27, C. E.)

The leave granted Major Wm. R. King, C. E., is extended one month (S. O., Oct. 25, H. Q. A.)

Major Wm. R. Livermore, C. E., is relieved from his present duties under the Missouri River Commission, and will report by letter to the Chief of Engineers (S. O., Oct. 25, H. Q. A.)

Ordnance Sergt. Leodegar Schnyder, U. S. Army, lately of Fort Laramie, and who has recently taken charge of the Fort at Clark's Point, New Bedford, Mass., was appointed Ord. Sergt. Dec. 1, 1852.

Capt. Joseph C. Clifford, Ord. Dept., will inspect subsistence stores at Frankford Arsenal for which Capt. Frank Baker, Ord. Dept., is responsible (S. O., Oct. 21, H. Q. A.)

Lieut. Col. Daniel W. Flagler, Ord. Dept., will proceed to Rock Island, Illinois, on public business (S. O., Oct. 23, H. Q. A.)

Capt. Joseph C. Clifford, Ord. Dept., will proceed to West Point on public business (S. O., Oct. 23, H. Q. A.)

Par. 5, S. O. 236, Oct. 11, H. Q. A., relating to Ord. Sergt. William Hoffman, is revoked (S. O., Oct 27, H. Q. A.)

Ord. Sergt. Michael McCabe (recently appointed from 1st Sergt., Co. F, 21st. Inf., now at Fort Duchesne, Utah Territory, will proceed to Fort Stevens, Ore., reporting upon his arrival, by letter, to the Comdg. Gen., Dep. of the Columbia, for assignment to duty at that post (S. O., Oct. 27, H. Q. A.)

THE LINE.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Presidio of San Francisco, Cal.; C, Ft. Bidwell, Cal.; D, Boise Barracks, Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Cœur d'Alene, Idaho; M, Ft. Klamath, Ore.

2d Lieut. A. M. Fuller will proceed to Fort Huachuca, thence to Fort Bowie, and thence to Fort Huachuca, for the purpose of transferring public property, and then proceed to San Diego Barracks, Cal. (F. O. 99, Oct. 2, D. Ariz.)

Troops A and K are relieved from duty in the Dept. of Arizona, and will proceed to the Presidio of San Francisco, Cal., and take station (S. O. 85, Oct. 7, Div. P.)

S. O. 90, directing 2d Lieut. Alvarado M. Fuller to relieve Capt. Matthew Markland, 1st Inf., as recruiting officer at San Diego Barracks, Cal., is revoked (S. O. 95, Oct. 7, D. Cal.)

Major Frank T. Bennett will proceed to the Presidio of San Francisco, Cal., and report for duty (S. O. 86, Oct. 9, Div. P.)

4th Cavalry, Colonel William B. Royall.

Hdqrs., B, D, E, F, H, and K, Ft. Huachuca, Ariz.; A and M, Ft. Lowell, Ariz.; C, G, and I, Ft. Bowie, Ariz.; L, Ft. Union, N. M.

Leave for one month is granted 2d Lieut. Harry C. Benson, with permission to apply for an extension of one month (F. O. 98, Sept. 30, D. Ariz.)

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, E, F, H, and K, Ft. Clark, Tex.; D and I, Ft. Ringgold, Tex.; G, Ft. Brown, Tex.

CO. H, 19TH INF., FORT CLARK, TEX., Oct. 13, 1886.

Company Orders No. 1.

The warrant as ordnance sergeant for 1st Sergt. Richard Bonner, of Co. H, 19th Inf., having been received this day, he is duly dropped from the company, under A. R. 261.

This promotion, while depriving the company of a non-commissioned officer whose place can be scarcely filled in point of zeal and ability, is one, however, that the company commander can truthfully say is a judicious selection and to the interest of the Service.

Sergt. Bonner has served some nineteen years as a sergeant in the 10th and 19th Regiments of Infantry, and of this period about fifteen years as 1st sergeant—the larger portion of that time in Co. H, 19th Inf.

The substantial promotion now conferred upon him by the War Department is a just reward for years of faithful service, in which he has proven his worth as a soldier and integrity as a man—establishing for himself a character deserving of, as it has received, meritorious recognition.

A. H. M. TAYLOR, 1st Lieut. 19th Infantry,
Comdg. Co. H, 19th Infantry.

ENDORSEMENT.

HEADQUARTERS 19TH INFANTRY,
FORT CLARK, TEX., Oct. 14, 1886.

The Colonel of the regiment happily concurs with congratulations and best wishes for Sergt. Bonner.

C. H. SMITH, Col. 19th Inf., Bvt. Major-General.

George M. Williamson, 1st Class. Charge I.—"Violation of paragraph 109, Regulations U. S. Mil. Academy." Specification—"In that he did, in violation of Orders 90, Hdqrs. U. S. Corps of Cadets, West Point, Aug. 27, 1886, greet the furlough class outside the line of sentinels with loud cheering and other noisy demonstrations." Charge II.—"Conduct prejudicial," etc. Specification—"In that he, being one of a party of thirty or more cadets that had been formed in ranks and marched into camp, immediately after they had met the furlough class, did fail to exercise his authority as cadet lieutenant in the Battalion of U. S. Cadets to repress but did join in and by his presence and example encourage the cheering and other noisy demonstrations made in palpable approval of said disobedience of orders by said party of cadets. This at Camp W. S. Hancock, West Point, N. Y., about 12 M., Aug. 28, 1886." Plea—"Not guilty." Finding—Of the specification, Charge I., "Guilty, except the words 'with loud cheering and other noisy demonstrations,' and of the excepted words not guilty;" of the 1st Charge, "Guilty;" of the 2d Charge and its specification, "Guilty." Sentence—"To be suspended, without pay, until July 1, 1887, and then to join the 1st Class." The proceedings, finding, and sentence having been submitted to the President, the following are his orders:

"EXECUTIVE MANSION, WASHINGTON, Oct. 16, 1886.

"The proceedings and findings are hereby approved; but in view of the excellent standing and good conduct of the accused prior to the commission of the offences of which he has been convicted, and the absence of wilful and deliberate design in the commission thereof, the sentence of the said Court-martial that he be suspended, without pay, until July 1, 1887, and then join the 1st Class, is mitigated to 'reduction from the grade of cadet officer to that of cadet.'

"GROVER CLEVELAND."

By command of Lieutenant-General Sheridan:

R. C. DRUM, Adjutant-General.

(G. C.-M. O. 87, Oct. 21, H. Q. A.)

———o———

Courts-martial.

The following courts have been ordered:

At Fort Marcy, N. M., Oct. 20. Detail: Capt. C. J. Dickey, 22d Inf.; Capt. E. B. Atwood, A. Q. M.; Capt. J. J. Clague, C. S.; Capt. Norton Strong, Asst. Surg.; 1st Lieut. J. J. Crittenden and 2d Lieut. G. H. Patten, 22d Inf., and 1st Lieut. James Fornance, Adjt. 13th Inf., J.-A. (S. O. 101, Oct. 16, D. Ariz.)

At Fort Meade, D. T., Oct. 25. Detail: Capt. John W. French, 25th Inf.; Capts. Henry Jackson, Edward G. Mathey, and Frank M. Gibson, 7th Cav.; Capt. George McCreery, Med. Dept.; 1st Lieuts. James C. Ord and R. H. R. Loughborough, 25th Inf.; 1st Lieut. Edwin P. Brewer and 2d Lieut. Baldwin D. Spilman, 7th Cav.; 2d Lieut. George W. Webb, 25th Inf.; 2d Lieut. George H. Cameron, 7th Cav., and 1st Lieut. Walter S. Scott, 25th Inf., J.-A. (S. O. 109, Oct. 16, D. Dak.)

At Fort Leavenworth, Kas., Oct. 21. Detail: Capt. J. P. Schindel, 6th Inf.; Capt. C. C. C. Carr, 1st Cav.; Capt. C. A. Woodruff, 2d Art.; Capt. Francis Moore, 9th Cav.; Capt. J. B. Babcock, 5th Cav.; 1st Lieut. A. M. Wetherill, 6th Inf.; 1st Lieut. F. H. Barnhart, 18th Inf.; 1st Lieut. C. H. Watts, 5th Cav.; 2d Lieut. G. F. Barney, 2d Art.; 2d Lieut. C. L. Beckurts, 6th Inf.; 2d Lieut. C. L. Potter, 5th Cav., and 2d Lieut. A. B. Jackson, 9th Cav., J.-A. (S. O. 118, Oct. 18, Dept. M.)

At Willet's Point, N. Y. H., Oct. 25. Detail: Capt. John G. D. Knight, 2d Lieuts. Cassius E. Gillette, Harry Taylor, Joseph E. Kuhn, William E. Craighill, Henry C. Newcomer, and Mason M. Patrick, Addl. 2d Lieuts. Charles S. Richié and Thomas H. Rees, C. E., and 1st Lieut. Irving Hale, C. E., J.-A. (S. O., Oct. 21, H. Q. A.)

At Fort McKinney, Wyo., Oct. 25. Detail: Capt. Daniel W. Benham, 7th Inf.; Asst. Surg. Daniel Weisel; Capt. James M. J. Sanno, 7th Inf.; Capt. Eugene D. Dimmick, 1st Lieut. Joseph Garrard, and 2d Lieut. James W. Benton, 9th Cav.; 2d Lieut. Chauncey B. Baker, 7th Inf., and 1st Lieut. James B. Jackson, 7th Inf., J.-A. (S. O. 137, Oct. 19, D. Platte.)

At Fort Riley, Kas., Oct. 25. Detail: Capts. W. H. McLaughlin and C. R. Paul, 18th Inf.; Capt. W. C. Forbush, 5th Cav.; Capt. W. A. Miller, 18th Inf.; Capt. E. D. Thomas, 1st Lieuts. W. P. Hall, R. Q. M., and Robert London, 5th Cav.; 1st Lieut. O. B. Warwick and 2d Lieut. T. W. Griffith, 18th Inf., and 2d Lieut. Charles McClure, 18th Inf., J.-A. (S. O. 119, Oct. 20, Dept. M.)

———o———

Army Boards.

A Board of Officers of the Corps of Engineers, to consist of Capts. Henry M. Adams, Edward Maguire, and Frederick A. Mahan, will assemble at Erie, Pa., Oct. 27, to confer with the authorities of the Marine Hospital, and to consider various questions in connection with the title to the peninsula of Presque Isle (S. O. 157, Oct. 23, C. E.)

———o———

The New Second Lieutenants.—The following 2d lieutenants (promoted from non-commissioned officers) will proceed from Fort Monroe to join the companies to which they have been assigned: 2d Lieut. Odon Gurovits, 11th Inf. (D, Fort Sully, D. T.); 2d Lieut. Stephen M. Hackney, 16th Inf. (I, Fort Davis, Tex.); 2d Lieut. George E. French, 4th Inf. (B, Fort Spokane, Wash. T.); 2d Lieut. Frank Owen, 8th Inf. (K, Fort Huachuca, Ariz.); 2d Lieut. Harry Fletcher, 10th Inf. (K, Cantonment on Uncompahgre, Colo.); 2d Lieut. Carl Koops, 13th Inf. (E, Fort Stanton, N. M.); 2d Lieut. George W. Martin, 18th Inf. (F, Fort Leavenworth, Kas.) (S. O., Oct. 23, H. Q. A.)

———o———

Ordnance Notes.—Ordnance Stores which are strong and serviceable will not be condemned or replaced merely because they are unsightly or do not conform to the most recent requirements. (Letter A. G. O., Oct. 19.)

———o———

Recruiting Service.—The Depot Band at David's Island, is detailed for service in New York Oct 28, and will report to the Grand Marshal for a place in line. (S. O. 168, Div. A., Oct. 26.)

———o———

DEPARTMENT NEWS.

Division of the Atlantic.—Maj.-Gen. Schofield.

A Boston despatch of Oct. 22 says: "Two river thieves last night invaded Forts Independence and Winthrop. They got ashore at Independence, entered by an open casemate, and stole several articles. The garrison, which consists of a single soldier, was asleep at the time. The thieves then rowed to Fort Winthrop, which is defended by a solitary watchman. He succeeded in capturing both men."

Slight earthquake shocks were felt at Fort Morgan, Ala., Oct. 23, but no damage was done.

The C. O. Fort Hamilton, N. Y. H., has been directed to transfer a metallic carriage and limber for 3".2 B. L. Gun, to the Watervliet Arsenal, in order that some improvements may be attached to them for trial and report.

Dept. of Dakota.—Brig. Gen. T. H. Ruger,

A despatch from Fort Custer says that on Oct. 22 a party of Crow Indians rode into the post and reported they had been attacked by a war party of Sioux about three miles up Little Horn River, and that two of their number had been killed. Col. Dudley, post commandant, immediately ordered the garrison out, and in a short time they were at the scene of action with five troops of the 1st Cavalry. They found two Crow Indians dead and thirteen wounded, while the Sioux had left some of their warriors dead, having been compelled to abandon them, owing to the rapid advance of the Cavalry. The Sioux are said to be greatly excited over the raid upon their herds and the murder of the Assiniboine squaw by the Crows near Poplar River, and are evidently bent on revenge. Five Crow Indians who were captured by Major Carroll's command near the Yellowstone River a week ago, and are believed to have been engaged in this affair, are now in the guard-house at Fort Custer, but it is doubtful if anything of a criminal nature can be found against them.

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

The report of Gov. Zulick of Arizona shows that the beneficial effect of Geronimo's capture are already apparent, and that with a prospect of assured peace there is a certainty of renewed prosperity. The Governor favors the distribution of lands in severalty to the resident Indians and an abandonment of the reservation system. The silver and copper industries have declined from last year owing to low prices, but gratifying gold discoveries have been made. Artesian wells are recommended for furnishing a proper water supply.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., Oct. 27, 1886.

THE drill season of 1886 will close at the end of this week. From the 1st to the 26th not a single drill was lost on account of rain. Yesterday afternoon the long drouth was ended and we had a copious rain, which was very timely, for the water supply of the post was running low, and with two or three exceptions all of the springs in the vicinity were dried up.

"The Eclectic Physiology," by Dr. Eli F. Brown, has been adopted as a text book in the Department of Chemistry, Mineralogy and Geology, and "Reed's Topographical Drawing and Sketching" is to be used as a book of reference for cadets in the course of instruction in drawing. The latter book is by Lieut. H. A. Reed, 2d Artillery, Assistant Professor of Drawing.

An architect from the city was here last Saturday and examined the foundation of the Academic Building to see if another story could be added. The present building is too small; it was built when the corps of cadets numbered over 100 less than now. The section rooms of the second class in Philosophy are in the west half of the Library Building, but the Academic Building is overcrowded.

Gen. Edmund B. Alexander is visiting his daughter, Mrs. Prof. Larned.

Gen. Hodges, of the Q. M. Department, spent last Saturday here.

Lieut. George S. Young, 7th Infantry, and bride were here for several days last week.

Mr. and Mrs. Biddle, two Misses Biddle and Miss Stokes, all of Detroit, have been at the West Point Hotel since Oct. 5. Mr. Biddle is an uncle of Lieut. Biddle, of the Engineer Corps.

Mr. Craney left on Monday for Kansas, where he will spend six or eight weeks with his sons John and Albert who are located on a sheep ranche.

The cadets are being well entertained on Saturday evenings. Last week there were four, and this week there will be four or five Saturday evening teas or parties. Last year a party of about 15 fourth classmen or plebes were entertained the last Saturday in October at a Hallow Eve party by one of the post ladies. As the ladies present had never met any of the plebes, each of the latter was furnished with a label on which was printed his name, and it was tied to two buttons of his coat.

The officers' hop, which was to have taken place last Friday, was postponed on account of the sad fate of Lieut. Medcalfe at Sandy Hook the day before, and will be next Friday evening.

Mrs. Stephen R. Roe has closed her summer residence below Highland Falls and gone to the city for the winter.

Henry H. Palmer, of Ogdensburg, New York, was the only candidate designated this week for examination for admission to the West Point Military Academy.

(Correspondence of the Army and Navy Journal.)

UNITED STATES ARTILLERY SCHOOL.

FORT MONROE, VA., Oct. 26, 1886.

THE happenings at this post, where military matters move on so methodically, have not been, for some time back, of a varied nature or interesting enough to occupy space in the JOURNAL. The historical surroundings of this extensive fort—such as our unrivalled bay, the roadway and refuge for the big English steamer, as well as for the smallest American craft, Soldiers' Home, Normal School, cemeteries, and the scene of the *Monitor* and *Merrimac*, which has marked a new era in naval warfare, offer tempting themes for the reporter's pen, but are not in keeping with the news of modern military journalism.

The new class of officers are now settled down for the next two years in their new homes and to their new work. They are busy at engineering, surveying, artillery drill (at the big guns), and signalling; yet many of them, and their ladies, too, manage to find time to enjoy themselves at the attractive game of lawn tennis, at which they occupy places between the professional and amateur. Some half dozen courts are sometimes in full swing, shouts of hilarity and victory frequently enlivening the scene, the loud and mirthful voice of Lieut. Bailey ringing loftily above the rest. Of the old hands we have still some remarkably good and steady players; amongst them may be reckoned Maj. Calef, Lieut. Osgood, and the Adjutant, Lieut. Miller. Occasionally the ladies (wives of officers and their friends), gain decisive victories over good players.

Though the weather is delightful, calm and sunny, indications are not wanting of our departing summer; the bathing season is over, and the flowers, which still bloom luxuriantly in the open air, are being removed to hothouses by Mrs. Tidball, the Misses Pennington, and by Lieut. Osgood, to meet the hundred and one demands made on him for some by and by.

We have had no rain in this section of Virginia for better than two months.

The non-coms. who have been in here for the last two months, and whose promotions were recently announced in the JOURNAL, left for Washington last Sunday evening. It is but simple justice to say that these young men by their unaffected ways and habits, by their gentlemanly conduct, sharing in the manly sports of the garrison, won golden opinions and made themselves popular with all. It was therefore no wonder that numbers crowded at the wharf to see them off and wish them every success in their new profession.

The fewness of our men in hospital or guard house is the best proof of their health and conduct. B. B.

(Correspondence of the Army and Navy Journal.)

MADISON BARRACKS, N. Y.

THE departure of Gen. O. B. Willcox has left a blank here not easily filled, for he was in word and in deed a father to the 12th foot. Elon Willcox, 6th Cav., has reported as one of his father's aides, and will be married next month to Miss Etta Johnston, daughter of our old friend, the Paymaster, who was on Gen. W.'s staff in Arizona as Chief Paymr.

Col. La Motte will remain at Plattsburg, but is in command of the regiment until Col. Townsend reports for duty, and we have not yet heard from the latter who is at Fort A. Lincoln. I have not yet had the pleasure of meeting Col. Townsend, but if he has aspirations in the future he comes to a lucky regiment as it is becoming a tradition with us now that all our colonels become generals. Two out of three is a good proportion, and, no doubt, the third—Franklin—would be a Major-General now had he not left us for Colt's benefit (and his own.) Yes, we were very sorry to part with the General who had been with us for 17 years, but he deserved his promotion and we are very glad he received it.

News we are short of here. Capt. Norvell went to Michigan on a month's leave. Capt. Wilson and Lieut. Evans go to Washington later for two months. Lieut. Tassin is in New York as assistant to Gen. Schofield in elevating the statue, and Capts. Craigie and Halloran are going down to see that you get her up properly. We are now devoting ourselves to the battalion skirmish, and in this connection I may say the inefficiency of the present bugle calls becomes more evident with every drill. PUCK.

FORT LARAMIE, WYO.

A CORRESPONDENT of the Cheyenne *Leader* writes: "On Oct. 13 the oldest inhabitant of Wyoming Territory takes his departure for New Bedford, Mass.—Ord. Sergt. Schnyder, who has served under the Stars and Stripes at this post for upwards of 30 years. Sergt. Schnyder arrived at Fort Laramie in 1855. The 7th Infantry band will serenade him on his departure; the whole garrison will turn out and wish him and family God speed, good luck and a pleasant journey. May he be as happy at his new post of duty as he has been here.

"Quite a closely contested game of ball varied the usual monotony on Monday. The Upper Nine played the Lower Nine for $100. The Uppers won. Capt. Duffy managed the Upper Nine in a professional manner, while Capt. Gilmore took the Lower Nine through with great credit to himself. The pitching of both parties was first class. The game was umpired by Lieut. Baker, a recent importation from West Point, who managed to get in the way of the ball on all possible and impossible occasions. The catching of Mr. Fredericks on left field was simply immense, and the single-handed catching of Capt. Duffy as short-stop was perfect."

(Correspondence of the Army and Navy Journal.)

SAN ANTONIO, TEXAS.

OCTOBER 22, 1886.

WE are preparing for winter, such as it is here. Mr. Otto Becker, clerk to Paymr. Arthur has arrived and gone on duty. Geronimo and his noble bucks have gone to Pickens and the women and children to Fort Marion. Their loss is deeply felt (by some). Lieut. Woodbury, 16th Inf., went with them in command of the guard. Col. Heyl and bride are expected daily. Last night we had a theatrical performance, which gave general satisfaction. The troupe is named "The Thespians of the Post of San Antonio." The 8th Cavalry string band furnished excellent music. The first piece was, "Ici on Parle Francaise." Cast: Major Regulus Rattan, Louis Bash; Victor Dubois, David Stanley: Mr. Spriggins, Frank Otis; Mrs. Spriggins, Blanche Stanley; Angelina, Gertrude Clarke; Mrs. Major Regulus Rattan, Alma Ruggles; Anna Maria, Mattie Otis. Part II.—Then came a recitation by Mattie Otis. The performance concluded with "Taken from the French." Cast: Col. Cosey, Lieut. D. J. Rumbough; Sir Felix Fritterly, Dr. H. S. T. Harris; Arthur Vallance, Elmer S. A. Otis; Lady Fritterly, Mrs. H. J. Delamere; Myrtle Vane, Miss Clara Howard..

Gen. J. H. Potter, who was given a grand reception when he arrived, is looking for a desirable residence, as he intends to spend the remainder of his days here. He looks hale and hearty. LADDIE HUCK.

(Correspondence of the Army and Navy Journal.)

FORT LOWELL, ARIZ.

OCTOBER 17, 1886.

FORT LOWELL is one of the best posts in this Territory, and the climate is the best in the world. Some call it hot here, but if one has the fever himself he does not feel the heat of the atmosphere; and that is just what we have all got at Lowell. The ball fever, I mean. We may get better when the weather gets cooler, but I doubt it, for it is like the small pox when it strikes an Indian camp, it is hard to get rid of. Drill, fatigue, and target practice, all fail to take effect, and nothing short of an earthquake or a tidal wave could stop the ball from rolling. Some people say that these soldiers are lazy; would a lazy man drill, attend target practice, do fatigue, take care of his horse every day in the week, and then play a game of ball in the afternoon, go to church on Sunday and play another game of ball in the afternoon?

We had a fine game of ball here yesterday between a nine of the 4th Cav., and nine of the 8th Infantry, which was a splendid game, well played, and won by a tremendous three bag hit, leaving the score at 27 to 5 in favor of the Cavalry. They naturally feel proud of the enviable position that they hold. As they have never been defeated since they organized over a year ago, I look for them to challenge the Chicagos pretty soon, and if they do the "City of the Lakes" will be out of luck. MANGUS.

COURT-MARTIAL CASES.

Before a G. C.-M. at the Presidio of San Francisco was tried Private Henry Brickwedel, Co. K, 1st Inf. Charge—Conduct to the prejudice, etc. Specification.—In that he did appear at a monthly meeting of Co. C, 2d Art., National Guard, California, on the evening of Sept. 6, 1886, dressed in the uniform of a commissioned officer (2d lieut. of cavalry), falsely representing himself to be a commissioned officer of the U. S. Army, and allowing himself to be entertained as such. Plead, guilty. Finding, guilty. Sentence—To be dishonorably discharged, forfeiting all pay and allowances due or to become due, and to be confined at hard labor for three months. Major-Gen. Howard, in consideration of the youth of the prisoner, and his previous good conduct, remitted the dishonorable discharge and the forfeiture of pay to $10 per month for three months.

THE COMPANY FUND.

The acting Judge Advocate General of the Army has decided that "a company fund cannot be recognized as public money, and the pay of a soldier can not be stopped to reimburse the same for losses." With due respect to the learned Judge Advocate General there is nothing new in that decision. Every enlisted man in the Army knows that the post and company fund is made from the savings of rations without authority of law, and is nothing more than downright robbery, authorized by the War Department and winked at by Congress. While from the company fund the soldier receives his benefit, he receives nothing from the post fund. A portion of the flour ration is deducted before issued, and the money deducted from these savings goes not only to pay the expense of a post bakery, which Uncle Sam is too poor to maintain, but assists in the maintenance of a regimental band, which furnishes music free to officers' hops and balls, but requires payment, cash in advance, whenever the enlisted men are anxious to have a little blowing done for them. It's a wonder that the fertile brain of some War Department officers hasn't gotten up a scheme ere this for the creation of a fund taken from the soldier's pay before it is given him. It would be equally as lawful. Senator Plumb's resolution introduced during the last session of Congress on the post fund question will perhaps finish this roundabout way of getting money for a fund of this kind before another year is passed. Let the Government pay for the baking of bread for troops while in garrison and maintain regimental bands without stealing the soldiers' flour to do it with.—*Kansas City Times.*

THE SANDY HOOK EXPLOSION.

The remains of Lieut. Medcalfe and Private King, killed by the explosion at Sandy Hook, Oct. 21, have been interred with due honors. There will not likely be any military court of inquiry or other board to investigate the circumstances, as the Coroner of Long Branch who was called in declared himself perfectly satisfied the deaths were caused by the accidental explosion of a shell. One of the members of the Ordnance Board says: "The Government Ordnance Board has been subjecting a 12-inch mortar to a number of tests. No accident ever occurred before that of Thursday. The shells were hitherto loaded with sand and fired with 35 pounds of powder. Lieut. Medcalfe and Superintendent Sinclair were directing the work of loading the shells, which yesterday were filled with powder from two barrels placed at a short distance from the men. One shell had been satisfactorily filled and put to one side and the men had commenced work on the second. They found that the cap would not fit and that it was quite impossible to screw it down. Private King tried to accomplish this by knocking on it with a hammer. The result was an explosion."

LIST OF OFFICERS ON GENERAL RECRUITING SERVICE.

HEADQUARTERS:

Army Building, Houston Street, Corner of Greene, New York City.
Lieut.-Colonel A. L. Hough, 16th Infantry, Superintendent.
1st Lieut. R. H. Patterson, 1st Art., A. A. A. General.

DEPOTS.

David's Island, N. Y. H.

Lieut.-Col. Richard F. O'Beirne, 15th Infantry, commanding.
Major A. A. Woodhull, Surgeon U. S. A., Depot Surgeon.
Capt. Frederick E. Trotter, 14th Inf.
Capt. William R. Hall, Asst. Surg. U. S. A.
Capt. Geo. H. Cook, A. Q. M. Depot Q. M., A. C. O. and A. C. S.
Capt. Geo. G. Lott, 11th Inf.
1st Lieut. James Regan, 9th Inf.
1st Lieut. Harry L. Haskell, 12th Inf.
1st Lieut. Calvin D. Cowles, 23d Inf., Depot Adjt. and R. O.
1st Lieut. William L. Pitcher, 8th Inf.
1st Lieut. John K. Waring, 2d Inf., on temporary duty.

Jefferson Barracks, Mo.

Maj. Samuel S. Sumner, 8th Cav., commanding.
Major Ely McClellan, Surgeon, U. S. Army. Depot Surg.
Capt. Lewis C. Forsyth, Asst. Quartermaster, etc.
Capt. J. K. Corson, Asst. Surgeon, U. S. Army.
*Capt. Henry W. Wessells, Jr., 3d Cav.
*Capt. Jas. M. Kelley, 10th Cav.
*Capt. John Q. Adams, 1st Cav.
1st Lieut. Samuel W. Fountain, 8th Cav.
*1st Lieut. Geo. F. Chase, 3d Cav.
*1st Lieut. Louis A. Craig, 6th Cav., Depot Adjutant.
*1st Lieut. Philip P. Powell, 9th Cav.
2d Lieut. Francis D. Rucker, 2d Cav.
* Special detail.

Columbus Barracks, Ohio.

Maj. William L. Kellogg, 19th Inf., commanding.
Maj. Charles R. Greenleaf, Surgeon, U. S. Army, Depot Surg.
Capt. Charles Hobart, 3d Inf.

St. Louis, Mo., 821 Pine St. (Cav.)—1st Lieut. W. E. Wilder, 4th Cav.
St. Louis, Mo., 112 North 9th St.—1st Lieut. T. S. Munford, 13thInf.
Washington, D. C., 924 Pa. ave—Capt. Douglas M. Scott, 1st Inf.

The Second Comptroller has allowed Mexican War claims as follows: Jas. M. Scott, private, Co. E, 3d Ky. Vols., $21; Max Baerecke, private, 15h U. S. Inf., $21; Widow of E. S. Sibley, captain and A. Q. M., $150; Geo. W. Palmer, 2d lieutenant, Ills, Mounted Vols., $100.

Hospital Steward John H. Grant was discharged at Headquarters Department of the Platte, October 21, and enlisted as General Service clerk.

"Twice, at least, I saved the capital, once created, and once reorganized a great army."—*George B. McClellan.*

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

Galena, 3d rate, 8 guns, Comdr. Colby M. Chester. At Portsmouth, N. H., undergoing repairs.

Tennessee, 1st rate, 22 guns (f. s. n. a. s), Capt. Robert Boyd. Arrived at New York Oct. 22. To participate in the ceremonies attending the unveiling of the Bartholdi Statue.

Yantic, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at New York, Oct. 26, from Portsmouth, N. H., to take part in the ceremonies attending the unveiling of the Bartholdi Statue, Oct. 28.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

Alliance, 3d rate, 6 guns, Comdr. Charles McGregor. At the New York Navy-yard. Ordered to join the South Atlantic Station. Expected to sail daily. Took part in the ceremonies attending the unveiling of the Bartholdi Statue, Oct. 28.

Lancaster, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. At Rio de Janeiro Oct. 6, 1886.

Tallapoosa, 4th rate, 13 guns, Comdr. William Whitehead. At Rio de Janeiro Aug. 13.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

Pensacola, 2d rate, 16 guns(f. s. e. s.), Captain George Dewey. At Genoa, Italy.

Kearsarge, 3d rate, 7 guns, Comdr. Charles D. Sigsbee. At Gibraltar Oct. 5, 1886, per cable despatch. Has been ordered to return to the U. S., and is expected to arrive the latter part of October.

Quinnebaug, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Sailed from Leghorn for Genoa, Italy, Sept. 26, to undergo repairs, on completion of which she will proceed East for the winter.

Pacific Station—Rear-Adm. E. Y. McCauley.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

Adams, 3d rate, 6 guns, Comdr. Louis Kempff. Was at Callao, Peru, Oct. 1, 1886.

Hartford, 2d rate, 16 guns (f. s. p. s.), Capt. J. H. Gillis. Was at Callao Sept. 30. Will shortly be ordered to San Francisco, Cal. She will go out of commission and undergo repairs, at the Mare Island Navy-yard. Address mail to care of Navy Pay Office, San Francisco, Cal.

Juniata, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Rio Oct. 24.

A press despatch received at New York, Oct. 23, states that the *Juniata* which sailed from New York Aug. 16 to join the South Atlantic squadron, has encountered very heavy weather. She arrived at Porto Grande, Cape Verd Islands, on September 22, in a very bad condition. While in the Gulf Stream she was caught in a cyclone, and for five days she was kept before the wind. Several heavy seas rolled over the poop deck on board ship, filling the cabin, wardroom and steerage. One sea entered the paymaster's storerooms and damaged a great part of the clothing and provisions. Before the storm was escaped the ship was in a leaking condition. Everything exposed to wind and weather was torn to pieces. Captain Davis did not wait for the mail at Cape Verd Islands, but started on his way to Rio Janeiro to put his vessel in the dry dock and have extensive repairs made. The *Juniata* was originally bound for Montevideo. The *Juniata* took deep sea soundings in the Gulf Stream and found an extreme depth of 4,000 fathoms.

Iroquois, 3d rate, 7 guns, Comdr. J. Crittenden Watson. Was at Callao, Peru, Sept. 30.

Monongahela, 2d rate, 9 guns, Lieut. Comdr George B. Livingston in command. Used as a storeship at Coquimbo, Chili. Comdr. S. H. Baker was ordered to command, per steamer Sept. 11 from New York.

Mohican, 3d rate, 8 guns, Commander Benjamin F. Day. At Apia July 19.

Pinta, 4th rate, screw, 2 guns, Lieut. Comdr. Henry E. Nichols. At Sitka, Alaska. Address care of Navy Pay Agent, San Francisco, Cal. Lieut. Comdr. J. S. Newell has been ordered to command.

Vandalia, 2d rate, 8 guns, Captain Henry L. Howison. Sailed from New York, Aug. 14, for the Pacific Station. Arrived at Montevideo Oct. 19.

Asiatic Station—Rear-Admiral J. L. Davis.

Rear Admiral Ralph Chandler has been ordered to command this station, and will leave San Francisco per steamer of Oct. 30.

Vessel with (†), address, Mail. General Post Office, Yokohama, Japan.

Brooklyn, † 2d rate, 14 guns, Capt. E. O. Matthews. At Port Said, Oct. 2, 1886. To remain till Oct. 4, and then proceed to Suez and Aden.

A report to the Navy Department, from Captain E. O. Matthews, dated Port Said, Egypt, Oct. 2, states that the *Brooklyn* left Gibraltar, Sept. 15, touched at Malta on the 21st, took in coal and oil, and left on the 22d. Arrived at Port Said Sept. 28, and intended remaining until the 4th in order to give an opportunity for scaling boilers and taking in coal. She would then go through the canal to Suez and thence to Aden. The ship's tonnage per coal measurement is 1330 68-100 tons. No sickness of any kind on board.

Essex, † 3d rate, 6 guns, Comdr. T. F. Jewell. Reported by cable to have arrived at Port Said, Egypt, Oct. 27, on her way to the Asiatic Station.

Marion,† 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Chefoo Sept. 7.

Monocacy,† 3d rate, 6 guns, Comdr. Henry Glass. At Hong Kong, China, Sept. 16.

Omaha,† 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. Was at Hakodadi, Japan, Sept. 11, 1886. To sail for Chemulpo, Corea, in a few days.

Ossipee, 3d rate, 8 guns, Comdr. John F. McGlensey. En route to Yokohama, Japan, Sept. 10. Has been ordered to return to New York by the middle of February, 1887.

Palos,† 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. At Canton, China, Sept. 10.

Apprentice Training Squadron.

Address of *Portsmouth* and *Saratoga*, Newport, R. I.

Minnesota, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York. Took part in the Bartholdi Statue celebration, Oct. 28.

New Hampshire, 1st rate, 16 guns, sails, flagship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor. Newport, R. I.

Portsmouth, 3d rate, sails, 12 guns, Comdr. Chas. V. Gridley. Arrived at New York, Oct. 25, from Newport, R. I., to participate in the Bartholdi Statue celebration.

Saratoga, 3d rate, 12 guns, Comdr. C. H. Davis. Arrived at New York, Oct. 25, from Newport, R. I., to participate in the Bartholdi Statue celebration, Oct. 28.

On Special Service.

Despatch, 4th rate, Lieut. Wm. H. Emory, Jr At New York.

Dolphin, despatch boat. Lieut. Chas. O. Allibone in command. At Norfolk, Va.

Jamestown, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. At New York. Took part in the Bartholdi celebration, Oct. 28.

Michigan, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

Ranger, 3d rate, 4 guns, Comdr. F. A. Cook. At San Francisco. Left the Mare Island Navy-yard this week for San Francisco, to remain until Nov. 2, before sailing for the Central American coast to resume her survey work.

St. Mary's, sails, 8 guns, Comdr. Edwin M. Shepard. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

Atlanta, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

Receiving Ships, Iron-Clads, Etc.

Franklin, 1st rate, 20 guns, Capt. Henry Wilson. Receiving ship. At Norfolk, Va.

Independence, 3d rate, sails. 6 guns. Commander Frederick Rodgers. Receiving ship. At Mare Island, Cal.

Rescue, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

Fortune, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

St. Louis, 3d rate, sails. Commander H. B. Seely. Receiving ship. League Island, Pa.

Wabash, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

Vermont, 2d rate, 7 guns. Captain Augustus P. Cooke. Receiving ship. At New York.

Dale, 8 guns. Commander Silas Casey. Receiving Ship. At Washington, D. C.

Philox, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

Mayflower. Mate Kuhl, commanding. At Norfolk.

The iron-clads *Ajax. Catskill. Lehigh, Mahopac, Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

VARIOUS NAVAL ITEMS.

The U. S. Coast Survey steamer *Blake* sailed from Hyannis, Mass., Oct. 25, for Chatham.

A copy of the Shipwrights' Draught of the British frigate *Endymion*, 40, A. D. 1812, has lately been sent to the Naval Lyceum, New York,

The Arctic exploring expedition under command of Lieut. G. M. Stoney, U. S. N., arrived at San Francisco, Oct. 22, from Oonalaska on the U. S. Revenue steamer *Bear*.

The Japanese naval mission, says the *Avenir Militaire* (Paris), has arrived in France. It is composed of five naval officers and one engineer, who intend to visit the principal ports and arsenals of the Republic. Gen. Saigo, formerly Japanese Minister of Agriculture, and now Minister of Marine, is in command.

The list has closed at St. Petersburg of competitors for the prizes offered by the Russian Admiralty for the best essay on the most suitable method of defending men-of-war against torpedo cutters and Whitehead torpedoes. The prizes are three in number, valued respectively at $1,000, $500 and $150. Several hundred officers are said to have competed.

The 219 boys of the *New Hampshire* last week sat down to the farewell dinner given by Paymaster Simpson and had a grand time. Before going, Capt. Yates made a very nice speech to the 150 boys transferred to the *Tennessee*, saying he had excellent reports from the last draft of boys and hoped to hear as good from them. The boys then cheered nearly every officer on the ship.

A new gun-boat, the *Maya-kan*, was launched from the Imperial Yard, Onohama, Japan, on Aug. 18. Her length is 154 ft. 3 in.; beam, 26 ft. 11 in.; and mean draught, when fully equipped, 9 ft. 8 in.; tonnage displacement, 614.32; armament, one 24 centimetre breech-loader forward, one 15 centimetre breech-loader aft, and two Nordenfeldt machine-guns amidships. She is twin-screw, armed with a spur for ramming, and is expected to steam 13 knots.

All the apprentices in the steam engineering department of the Washington Navy-yard, which has been abolished and its effects turned over to the Bureau of Ordnance, will be transferred to other Navy-yards, as the terms of their apprenticeship provide that they shall serve their full time under the Government before they can be discharged. There are about one dozen boys of the steam engineering department, most of whom will go to the Brooklyn yard, and the remainder to the Norfolk yard.

THE Coast Survey steamer *Arago* left Northport, Long Island, Oct. 25, for Stony Brook, Long Island, where she was lying Oct. 27.

ORDERS were issued this week for the extinguishment of the electric light in the tower at Hell Gate, New York Harbor, from and after Dec. 1. This action was based on the recommendation of the Lighthouse Board, and because of the constant complaints from mariners that the dazzling character of the light made it a detriment instead of an aid to navigation.

THE new boilers for the *Swatara* were shipped from the Washington Navy-yard to Portsmouth this week. These boilers were made at the Washington Navy-yard and are regarded by Engineer Officers as superior in quality and construction to any previously made by the Government. All the work in the way of putting in boilers and otherwise fitting out the vessel for sea will be done at the Portsmouth Navy-yard. Orders have been given by the Secretary to finish work upon her as rapidly as possible.

IT is announced that Russia has decided on constructing six more swift cruisers of the *Vitis* and *Rynda* type, as these two ships are considered to be eminently successful. The new ones are to be rather larger, being 265 ft. long and 45 ft. beam. They are to be fully rigged, and have a speed of 16½ knots under steam. They carry enough coal to take them 5 000 miles at 13 knots, or 10,000 miles at 8 knots. Their armament is to consist of 10 6-in. steel guns, 8 Hotchkiss, and 4 4-pounders. They are fitted for Whiteheads, carry two 32 ft. torpedo cutters, and have the electric light throughout.

THE plans for such remodelling as the abandoned buildings at the Washington Navy-yard will need for the new work of the Naval Arsenal are being rapidly prepared and a large force will be put to work there very soon to carry out the work. The men recently discharged by the abandonment as a Navy-yard will be given the first chance for this work as far as they are desirous and capable. One of the alterations decided upon is to extend the old chain and anchor shops northward over the whole ground formerly occupied by the Engineers' coal pile, and thence west to the old Engineers' foundry.

THE *Admiralty Gazette* says: "An American Service paper states that Mr. W. H. White, the head of the British Naval Constructive Corps, is going to leave the service of the Crown and return to Mr. Armstrong's employ. We have been making inquiries of our shipbuilding friends, and we learn that there is a very great doubt about this. Before Mr. White left Elswick, it appears he designed a vessel that was to be of great speed and a great success. It was built, as one of Dickens's characters says, 'on spec,' and a very bad spec it turned out, for the English Government have never purchased it, nor is any foreign nation as yet, so far as we can learn, anxious to buy. We very much doubt Mr. W. H. White going back to the employ of Messrs. Armstrong's firm."

IT is stated at St. Petersburg to be the intention of the Russian Minister of Marine, Admiral Shestakoff, to spend a week or ten days in England on his way home from Vladivostock to Russia, via the United States and London. The Minister is very anxious to pay a visit to several of the dockyards, and it is said that he will conclude a contract for two cruisers with one of the northern shipbuilding firms during his stay in England. Before leaving Vladivostock, the Minister made a speech, in which he declared the rumors to be false that Russia intended seizing Port Lazareff and shifting the Pacific naval station thither. Admiral Shestakoff, according to the *Vladivostock*, energetically repudiated any such designs on the part of the Russian Government. Russia was quite satisfied with Vladivostock; she had reached a natural frontier, and meant to move no further south.

THE *St. James's Gazette* says: "That an inquiry might be made into the quality of the ships composing our foreign squadrons, many of these being armed with guns of obsolete patterns, defective in boiler-power and in speed. Incapable of overtaking merchant steamers of ordinary steam capacity, they are at the mercy of an enemy's swifter and heavier armed cruisers, and so, for purposes of protection to our trading ships, are to all intents and purposes useless. The names, as well as the conditions of these ships, are well-known at the Admiralty; but the public is permitted to know nothing about it. To the officers of foreign squadrons ours are a laughing stock. On more than one station there are ships the highest rate of speed of which is not six knots per hour, while their whole equipment is a disgrace to the flag they fly."

NAVY GAZETTE.

Ordered.

OCT. 19.—Lieutenant H. W. Schaefer, to the Naval Observatory.

OCT. 23.—Captain Joseph S. Skerrett, appointed Governor of the Naval Asylum at Philadelphia.

OCT. 25.—Lieutenant Robert H. McLean, to duty in Bureau of Ordnance, Navy Department, November 1.

Gunner Thomas R. Wilson, to the receiving-ship Wabash.

OCT. 26.—Lieutenant Frank E. Sawyer, to the Hydrographic Office.

P. A. Surgeon Oliver Diehl has reported his return from the European Station, having been detached September 22, and has been placed on waiting orders.

OCT. 27.—Assistant Paymaster Thomas J. Cowie, to the training-ship Saratoga, November 1.

OCT. 29.—Assistant Engineer Thomas W. Kinkaid, to New Hampshire College of Agricultural and Mechanical Arts at Hanover, N. H.

Detached.

OCS. 19.—Chief Engineer George R. Johnson, has reported his return home, having been detached from the Lancaster September 15, and placed on waiting orders.

Ensign H. McL. P. Huse, from the Naval Ordnance Proving Ground and ordered to duty at the Naval Academy.

OCT. 20.—Ensign Clarence S. Williams, from the Coast Survey and placed on sick leave.

OCT. 21.—Ensign Theodore G. Dewey, from the Coast Survey and placed on waiting orders.

OCT. 22.—Lieutenant Andrew Dunlap, Jr., has reported his return home, having been detached from the Lancaster September 22, and placed on waiting orders.

OCT. 25.—Assistant Engineer F. C. Bieg has reported his return home having been detached from the Lancaster September 15, and has been placed on waiting orders.

OCT. 27.—Lieutenant-Commander E. W. Watson, from the Norfolk Navy-yard and ordered to Ordnance instruction at the Washington Navy-yard.

Passed Assistant Paymaster Chas. W. Littlefield, from the Saratoga November 1, and ordered to settle accounts and wait orders.

OCT. 29.—Captain E. C. Potter has reported his return home, having been detached from command of the Lancaster September 15, and placed on waiting orders.

Sailmaker George C. Boerum, from the Wabash and placed on sick leave.

MARINE CORPS.

OCT. 22.—Captain H. A. Bartlett present leave of absence extended 40 days from November 20, with permission to leave the United States.

OCT. 23.—Lieutenant-Colonel J. L. Broome, present leave of absence extended seven days from October 27.

OCT. 27.—Captain J. M. T. Young, granted leave of absence for 15 days from November 2.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending October 28, 1886:

George Williams, beneficiary, died October 24, at Naval Hospital, Philadelphia.

FROM THE PACIFIC STATION.

THE following report has been received from Rear-Admi. McCauley, commanding the Pacific Station, from Callao, September 30:

The flagship *Hartford* and the *Adams* will be at Callao during September, the *Hartford* going across the bay to San Lorenzo for small arm target practice on Sept. 19, returning to the anchorage on the 23d. The *Shenandoah*, which left Callao Aug. 14, was at sea Aug. 14 to 27; Corinto Aug. 27 to 30; at sea Aug. 30 to 31, stopping at La Libertad on Aug. 31, and thence on Sept. 1 to San Jose de Guatemala. At San Jose Sept. 1 to 5; at sea Sept. 5 to 9, and on that date at last report at Acapulco, Mex. The *Iroquois* left Callao Sept. 1; at sea Sept. 1 to 6; Payta Sept. 6; at sea Sept. 6 and 7; Guayaquil, Ecuador, Sept. 7—10; at sea Sept. 10—11; Tumbez, Peru, Sept. 11; at sea Sept. 11 and 12; Payta Sept. 12—17; at sea Sept. 17 and 18; Eten, Peru, Sept. 18—20; thence on Sept. 20 to Pacasmayo, and at sea Sept. 20—21; Salavery Sept. 21; at sea Sept. 21 and 22; Chimbote Sept. 22; at sea Sept. 22 and 23; Supe Sept. 23; at sea Sept. 24; Huacho Sept. 24 and 25, and thence to Callao Sept. 25—30. The *Mohican* last reported up to June 19, was at Apia June 19—23; at sea June 23—26; Nei Afoo, Tonga Islands, June 26—July 1; at sea July 1 3; Auka Iopa, Tongatabu, July 3—10; at sea July 10—14; Pango Pango July 14 and thence to Apia again on July 19, the date of last advices. The *Monongahela* was at Coquimbo during the month.

FROM THE ASIATIC STATION.

THE Navy Department has received a report from the commander of the Asiatic Squadron, dated Cheefoo, China, Sept. 10, in which he states that the flagship *Marion* left Chemulpo, Korea, Sept. 6, and arrived at Cheefoo, Sept. 7. The *Omaha* at Hakodati, Japan, had been ordered to Chemulpo. The *Ossipee* was en route to Yokohoma. The *Monocacy* was at Hong Kong and the *Palos* at Canton. Everything was quiet on the station and the health of the officers and men was excellent.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., Oct. 26, 1886.

ENSIGN CHARLES N. ATWATER reported for duty at the Naval Academy on Thursday last.

Naval Cadet A. S. Thompson, of Wisconsin, was granted leave of absence on the 24th inst., to attend the funeral of his brother and cousin, both of whom were drowned in a boating accident at Beloit, on the 22d inst.

Ensign H. McL. P. Huse was detached from the proving grounds and ordered to the Naval Academy, 24th inst.

The work of painting the lower buildings has been carried forward with great rapidity during the past week. Under the able supervision of Lieut. Belknap, many of the old landmarks, together with the entire Academy grounds, have been given a very neat appearance.

The resignations of Cadets C. S. Hill, of Illinois; C. C. Craig, of Illinois, and J. M. Bower, of Arizona—all of whom were members of the First Class—were accepted by Secretary Whitney on Monday last.

Stag hops are held in the gymnasium on Saturday nights, and are attended by large numbers of the cadets.

A football match will be played on Thanksgiving Day between the cadets and John Hopkins' University team, and on the following Saturday with the Princeton College second team. The Academy team will consist of Cadets Stone, Bryan, Snow, Hudson, Cloke, Churchill, '87: Rowan, Hayward, Anderson, '88; Patton and Fermier, '89.

TORPEDO BOATS FOR THE LAKES.

THE following is a copy of a letter which is being sent out by the Bureau of Navigation of the Navy Department to the various railroad companies:

NAVY DEPARTMENT, BUREAU OF NAVIGATION,
OFFICE OF MARINE INTELLIGENCE,
WASHINGTON, D. C.

[Private.]

DEAR SIR: In considering the defence of our great lake ports the question of transportation of torpedo boats by rail is of great importance. On account of the rapidity of such transportation in case of a sudden emergency, it is preferable to sending boats by water. The Pennsylvania Railroad has kindly given us much valuable information on this subject, and can transport the boats from several Atlantic ports to Erie, Penn. I write to ask your kind interest in the matter, as to the possibility of taking them from Erie to Chicago. I take the liberty of enclosing a list of questions, trusting you may give some of your valuable time to answering them for us. I also enclose two blue prints, A and B—the first showing the fair sizes of boats it is proposed to transport; the second showing the clearances of the Pennsylvania Railroad. This latter is to give you an idea of what we would like of your road. These are the few points in considering the transportation of these boats to which I desire to call your attention: First, there are objections to turning the boats upside down, or even much on the side; being built to rest on the keel, it is feared the longitudinal strength would be defective if turned on the side or keel up; and the boilers and engines being braced and supported for the upright position, would require removal or rebracing, either of which would cause loss of time. Second, in regard to the support of the boat en route, two cradles for each boat, each cradle pivoted on its car, and so placed and fitted to take the largest boat at a point of 33 feet forward and 33 feet behind the centre, and in case of the other three at a point 16½ feet forward and 16½ feet behind, the cradles would, it is thought, allow the sharpest curves to be rounded with safety. Third, the vibration due to motion would be considerable, and it is thought these cradles should be connected by a rigid web, upon which the keel of the boat would rest, thus preventing much rocking to the structure. The shorter boats, weighing less than 35 tons each, could probably be transported in cradles in two ordinary first cars. The larger ones being 112 and 98 feet long and weighing 65 and 55 tons respectively, would require gun trucks or special cars, whose tops above rail would permit their passage through your tunnels and would be strong enough to stand the increased weight of the large boats. The smokestacks and propeller can be unshipped. If the large boats cannot be taken over your road on account of their dimensions, it would be of value in designing torpedo boats to have your opinion as to the outside proportions, length, breadth and height of a boat which would be transported over your permanent way. First, with boat upright on its keel; second, in any convenient position. Thanking you in advance for any interest you may take in the matter, I am, very respectfully,

W. H. BEEHLER, Lieut., U. S. N., in charge.

The following memorandum of questions also goes in with the letter:

1. Has your road the facilities for transporting a steel boat of dimensions given from Erie to Chicago?
2. If yes, what would be the time required for such transportation?
3. In what time could ten boats be transported?
4. What would be the approximated cost?
5. Could boats be carried on the company's trucks without injurious strain (No. 1, 65 tons; No. 2, 55 tons; No. 3, 35 tons; No. 4, 20 tons)?
6. If special trucks should be required, what suggestions as to design?
7. Could you send us blue print showing clearances on your road between Erie and Chicago?
8. Also, blue prints showing greatest length of boat that could be transported over your permanent way in safety?

REVENUE MARINE SERVICE.

Names and Stations of Revenue Cutters.

Alert, 2d Lieut. E. C. Chaytor, Elizabeth City, N. C.
Bear, Capt. M. A. Healy, on cruise to Arctic.

WAR PROSPECTS IN EUROPE.

THE news from Europe is not only alarming, but in some respects it is the most extraordinary jumble of autocratic insolence, of crazy assumptions, and of reckless ambition ever exhibited in modern diplomacy. It was to be expected that Russia would declare that the enormous sacrifices she has made to open a pathway to Constantinople would not be abandoned because a petty Prince, and what she regarded as his presumptuous people, stood in the way. Her purposes have been openly declared for years and there has not been a sign that they have been altered or lessened in the smallest degree.

It is not the determination of the Czar, but his way of making it known that is extraordinary. The oppression of Poland by his ancestors was done in the family and its brutal tyranny covered by the veil of strictest secrecy. In Bulgaria he does not attempt concealment. His arrogant and undiplomatic communications to the Bulgarians have not been matched by any other performance in modern history, except his kidnapping of the Bulgarian Prince. The Prussian conquest of Holstein was the act of a gentleman robber in comparison to the garrotting of Bulgaria.

At the western border of the Continent the military preparations of France are attracting the attention of the world. Their outcome is not so certain as that of the turbulent arrogance of the Czar, and the tremendous character of the conflict they portend, will act as a check upon the men who hold the fortunes of great Empires in their grasp.

Nevertheless, it would not be safe to prophesy a European war in the spring, for the tremendous strain which the relations of the leading Powers have sustained without rupture is evidence of an indisposition to fight, which must have behind it motives and interests almost as powerful as those that urge to war.

Of the late wars in Europe two are examples of what extreme craft and the highest degree of preparation can accomplish, and though these conditions exist now they are not now confronted by weakness and infatuation. Now every preparation on one side is matched by its equal on the other. Any coming struggle is more likely to resemble the changing fortunes of Russia's last war with Turkey, when the giant blows that were inflicted and borne in alternation excited the admiration of all nations. Probably it is the sense of this practical equality in strength and readiness that is the real deterring cause that holds back some of the Powers. The struggle would revert back to the old conditions of single combat, when personal character and individual skill decided all that luck did not determine.

The character of any future war in Europe will be influenced largely by the introduction of repeating rifles and by the excellent service of the Uhlans in the war of 1870. Quick fire, both of infantry and artillery, will be pushed to its highest development, and cannot fail to affect in an important manner both the transportation of the army and the carrying capacity of the soldier. Fights which have depended on having the most guns may now be decided by having the most cartridges. On the other hand cavalry and scouting service must be efficient in any army which is opposed to the legions VON MOLTKE trained.

These changes are so radical that it is impossible to estimate their consequences, and the doubt that exists is intensified by the fact that the *morale* which the aspiration for freedom gives has been transferred from the Germans to the French. Laying aside all questions of revenge, there is no doubt that the results of the last war will be a keener spur to the French than to the Germans, but on the other hand one of those results was a numerical preponderance in favor of the Germans. And so through the whole story, fear and fury, passion and doubt, strength and weakness keep step so closely that no one dares to move. Something will resolve the doubt some day and precipitate a war, but at present we appear to be enjoying that peculiar millennium which has been declared so often to the inevitable result of perfecting war methods, a state of armed neutrality which no one dares break.

THE ENGLISH AND RUSSIAN ARMIES.

THE *Admiralty and Horse Guards Gazette* seems to be the Cassandra among English Service papers. It is full of gloomy forebodings, and it seems destined to share the fate of Cassandra, whose prophecies were never to be believed. The *Gazette* is especially disturbed by the results of the English short service system—as indeed, for that matter, are most of its service contemporaries in England. Complaints and regrets from commanding officers concerning the paucity of old soldiers are gradually assuming a serious aspect. The disappearance of this central figure from the ranks of the British Army has been so gradual, and the vacancy created by his loss has revealed itself so leisurely, that it is only now, when he has almost entirely disappeared, that they are beginning to realize the mischief his absence has occasioned, are brought to feel a sense of loss, and are able to form an estimate of the value of the unostentatious services the vanished veteran rendered. Several regiments have the greatest difficulty in furnishing their depots with the few old soldiers that are considered indispensable to the success of these training schools, and throughout the army, the rank and file betray, particularly in their domestic relations, lamentable indications of the absence of the autocratic but sagacious barrack room schoolmaster. The introduction of the short service system sounded the death knell of the old soldier, and inaugurated that onslaught on *esprit de corps* which reached its consummation when the old numbers were swept away in 1881.

Perhaps the *Gazette* may find some consolation in the facts to which its neighbor, *Broad Arrow*, calls attention, saying: "Not all the sweeping changes which have been made in the British Army during the last ten or fifteen years can equal the inconoclastic measures of this modern would-be Carnot. SOUVOIS is credited with the creation of the first French standing army. BOULANGER will go down to posterity as its destroyer. He exiled the Orleans Princes and deprived them of their commissions, as brave officers, won on the field. He has practically confined all French officers to barracks as no one man can be out later than 1 A. M."

The Moscow *Gazette*, on the contrary, has a most enthusiastic report upon the condition of the Army of England's antagonist, Russia. During the last six years, it tells us: "Reforms have been made with vigor to a definite end in all branches of the military system. Armament, equipment, commissariat, tactics, all have been revised and improved, and we may well say that our (the Russian) army is about to become a model for all others. But a short time ago the grand manœuvres of the German Army were regarded by us with the greatest astonishment; they are now eclipsed not only by immense assemblages like that of Brest-Listovsk, but by the ordinary periodical manœuvres of our military districts. In Germany but one or two corps d'armée are called out for a few days' exercise; with us several corps manœuvre annually for entire months."

FROM reports received at the War Department it appears that all appointments and assignments throughout the various Departments and Divisions have now been completed under General Order No. 65, War Department, assigning officers of the Quartermaster's Department to the duty of auditing and paying telegraph accounts. The following is the list of officers and their stations:

Division of the Atlantic—Capt. Lord, Governor's Island.
" Missouri—Hdqrs. only, Maj. Lee, Chicago.
Department of Dakota—Major Rockwell, St. Paul.
" Platte—Capt. McCauley, Omaha.
" Missouri—Capt. Campbell, Fort Leavenworth.
" Texas—Capt. Simpson, San Antonio.
" Arizona—Capt. Pullman, Prescott.
" California—Capt. Wheeler, Presidio, San Francisco.
" Columbia—Capt. Patten, Vancouver Bks.

The officers of the Quartermaster's Department are much disturbed at finding themselves compelled to perform, in addition to their regular work, this duty, which has been for so long a time a function of the Pay Corps of the Army. They state that they now have to receive, care for, and ship funds of the Pay Department to the frontier stations of the Army, and that they urge that if they are to be required to do this work they might as well add to it the work of paying the funds by checks, as large railroads now do, and thus relieve their brother officers of the staff of all their present duties.

CAPTAIN R. H. PRATT, U. S. A., in his seventh annual report of the Carlisle Indian Industrial School gives an interesting account of the good progress made in all departments. He says, however: "I have little hope of much success in elevating the Indians, until the Indian is made an individual and worked upon as such, with a view of incorporating him on our side. Nothing is more important in the work, just now, than a general system which shall bring into school, for education in English and civilized industries, every young Indian. But the school system will not be a success in Americanizing the young Indian except it quickly brings the Indian youth out into the school systems of the country; and even this last, if accomplished fully, would fail if the Indian is not made a citizen and encouraged to be an independent individual man among us." Few, we imagine, will deny this statement.

A REPORTER who tried to interview GERONIMO in the depot at New Orleans was defeated by the chief's suspicion of his motives. The newspaper discussions on the propriety of serving the Indians as they have served so many whites seem to have reached the red men, and GERONIMO fears that there is some scheme on foot to take his life. The reporter was not pleased with the appearance of the gentleman whose society has been sought so eagerly by Generals CROOK and MILES, U. S. A. He says: "His broad, dishonest face indicates his character—that of a fiendish murderer. His piercing black eye is that of a cunning deceiver; his broad mouth that frequently grins when he speaks reminds one of a bloodhound; his big head sits leaning forward on a short, thick neck, while his broad, closely-knit body rests on a pair of stout sinewy legs."

THE circular embodying information for those who intend to bid upon gun-steel and armor for the Navy, in pursuance with the recent advertisement, has finally been prepared by the Ordnance Bureau and is now in the hands of the printer. Ordnance officers deny that there has been any unnecessary delay in its compilation. The Chief of Ordnance has given his personal attention to the matter, spending several hours a day in conjunction with other officers of the Bureau in making out the intricate and technical calculations. We are informed that the delay was unavoidable, and it is to be regretted now that a longer time was not given to bidders for putting in their bids. It is possible that the time may yet be extended.

WE have received a copy of the Regulations Governing the Uniform of Commissioned Officers, Warrant Officers and Enlisted Men of the Navy of the United States, with Plates. It is issued from the Government Printing Office. The letter press is well enough, as it is merely a reprint of the General and Special Regulations on the subject. When we turn to the plates, giving pictures of several officers, showing off the new uniform for different ranks, it makes us tremble to think that the honor of our great country is dependent upon such peculiar specimens of humanity as are presented in some of them, particularly that of the gentleman who grins upon us so affably from plate II., and who is evidently only waiting for his first battle to run away. As we know that the officers of our Navy are as gallant and handsome a body of sailors as there is in the world, we can only conclude that the artist is at fault. The Navy can only console themselves by the reflection that the cuts in this volume are not so bad as those which appear in the corresponding volume for the Army. Some of them, indeed, especially those of the enlisted men, are quite good. We can see no good reason why such a volume as this, issued by the Government, should not be made creditable in every respect, including artistic presentation.

OFFICERS of the Line and Staff of the Navy are particularly requested to read Rear Admiral S. B. LUCE's interview by the New York *Herald's* correspondent, published on October 24. It is, without doubt, the fairest minded article as to the true solution of the needs of the Navy that has ever been published by any Naval officer. We admire Admiral LUCE, who stands at the head of the enlightened and accomplished officers of the Navy, for his honesty and courage in suggesting to the Line and Staff, who are given to interfering with each other's duty, the importance of minding their own business. Secretary WHITNEY will do well to give attention to this suggestive contribution from an officer of so much experience and intelligence.

JUDGE-ADVOCATE GENERAL SWAIM, U. S. A., has filed a petition with the President requesting a review of his Court-martial case in the hope that it will be found so irregular that his sentence will be set aside and he will be restored to duty.

"A PRIVATE of twenty-eight years of service" gives the New York *Herald* his opinion on the subject of cooking in the Army, in a letter, in which he says:

The Government's allowance per soldier for ten days is, viz.: Coffee (ground), 1 lb.; sugar, 1½ lbs.; mess pork, 2¼ lbs.; beef (bone included), 8¾ lbs.; beans, ¾ lb.; rice, ¾ lb.; bread, 11¼ lbs.; pepper, 2-5 oz.; salt, 6 ozs., and vinegar 3 1-5 gills. I invite the *Herald's* readers to feast their eyes on this bounteous allowance of this bill of fare. The epicure will not find either delicacies or dainties to make his eyes water or to entice him into the Army. No soldier will ever be troubled with the gout, even though the Army cooks were the best in the world. The statement that seven-eighths of the enlisted men are better fed in the Army than they ever were outside is erroneous, and not at all flattering so the intelligence of the rank and file of the Army, nor to the old heroes of many a well fought battle.

I will here give what I believe to be correct figures as to the quantity of vegetables a company at a post consumes annually, which may be taken as a basis for all companies in the Army (ways and means permitting). Potatoes, 25 bushels; onions, 25 bushels; tomatoes, 30 bushels; turnips, 30 bushels; cabbage, 1,000 heads; beets, etc. This may not tally with some of our commissary officers; nevertheless facts are facts.

The idea that every soldier should learn and take his turn at cooking would prove about as satisfactory as compelling every soldier to take his turn at Army tailoring. This would seem as feasible as cooking to some officers, inasmuch as most men who enter the Army know as much about the one as they do about the other.

In conclusion he asks: "Why or how is it that marines and sailors are allowed butter, cheese, and pickles? Why is it that the money value of their rations is more than half as much again as a soldier's? Why is it that a ship's cook is rated a first-class petty officer and receives $31 per month? Why is it that a "berth deck cook" (one man out of every sixteen of a ship's company) is allowed to draw $9 from the purser in lieu of his rations? Why cannot a similar system be adopted in the Army, and thus remove forever one of the greatest causes of complaints and desertions."

THE vignette of Gen. Hancock, on the new two-dollar silver certificates, is said to be the best likeness of the great general ever engraved. The adoption of the vignette of Martha Washington for the one-dollar silver certificate was an innovation, only the likenesses of men having been used on Government currency heretofore. In the two-dollar certificate another innovation is made by putting the 2d and 3d Army Corps badges, which formed Gen. Hancock's command, beside the vignette of the General. The 2d Corps badge was a clover leaf and the 3d Corps a diamond. The engraver has very cleverly put the former within the lines of the latter, making it a historical tribute to the unity of the two corps under Gen. Hancock.

THE National Museum wisely avails itself of the exceptional advantages offered to officers of the Navy in the acquisition of valuable and interesting information and data connected with the various parts of the world to which they wander while on duty and under orders. For several years past Alaska has been the especial part of the outside world to which the National scientists have turned the most anxious eyes, and as the various officers who have been serving on that far away cruising ground have returned to civilization their observations, discoveries, and acquisitions of typical curiosities have been made to add to the store of human knowledge already on file within the walls of the well-known edifice visible through the trees to the eastward of the Smithsonian Institution. The last officer detailed on scientific duty at the Museum is Assistant Paymaster Edwin B. Webster, U. S. N., who during a recent cruise of the *Pinta* in Alaskan waters became interested in the natural history and historic remains of that part of our great republic, and since his return, having finished his cruise, he has been on duty at the headquarters of applied science.

IN the matter of the claims of the State of Vermont, the Third Auditor of the Treasury reports: It appears that for want of a proper system of keeping the accounts, $225,254 have been at various times since the close of the War of the Rebellion, paid to the State, which, instead, should have been applied to the indebtedness, amounting to $543,780, charged against the State on the books of the Ordnance office of the War Department, being the money value of the arms and equipments furnished by the United States in the years 1863-4, which have never been returned or accounted for. The Auditor states that he is informed that the State of Vermont sold the greater portion of these arms to a foreign country—Turkey, and deposited the proceeds—amounting to $170,000—in her treasury.

THE *Guardian*, an organ devoted to the interest of insurance, in a review of the report of the special committee of the Army Mutual Aid Association on the revision of the constitution and by-laws, says: "The work seems to have been done in an exceedingly thorough and workmanlike manner, and the suggestions made are likely to result in benefit to this sterling institution, which has shown in this, as well as in all other instances, its purpose to carry forward its business in an honest and earnest way and with regard to the best that it can secure in the way of counsel and advice."

THE French Army, like Mère Michel and the New York *Sun*, has its cat, or rather its several cats. Each cat has been accustomed to receive eight centimes per day for rations. This so discouraged the business of rat-catching, for which the cats were engaged, that it has been found necessary to reduce their per diem allowance 25 per cent. Whether the result will lead to a more complete destruction of the rats or a mutiny among the cats, remains to be seen.

THE New York *World* in an article on "A Soldier's Daily Life at Fort Columbus" quotes a member of the garrison as saying: "Looking at the life of a soldier in all its aspects and comparing it with that of the mechanic, considering the amount of spare time a soldier has, his comforts, the care that is taken of him, the prospect for promotion, the United States need never be in want of honest and courageous men to fill the ranks of its army."

THE Kansas City *Times* says: "A new rifle carbine, made at the suggestion of Col. Guy Henry, has been furnished to two companies of cavalry in the Department of the Platte for trial. It is said to be a happy mean between the old carbine, which was too short for accurate firing, and the cavalry rifle, which was too long and cumbersome for use in the saddle."

THE annual dinner of the survivors of the 1st Regiment of New York Volunteers took place on Monday evening at Martinelli's. It was the 38th anniversary of the discharge of the regiment from the service in California. Only ten survivors answered to the roll call.

WE have a Benét now at each end of the Army Ordnance Corps, 1st Lieut. J. Walker Benét, of the 5th Infantry, the son of Gen. Benét, having been transferred to that corps vice Medcalfe, deceased.

AT a meeting of the National Drill Committee at Washington this week the following standing committees were appointed: Executive, the Hon. S E. Wheatley; Finance, etc., Thomas E. Waggaman; Transportation, etc., George Pearson; Advertising and Printing, the Hon. E. W. Fox; Rules, Judges, etc., Gen. A. Ordway; Grounds, etc., the Hon. A. A. Wilson. Other committees will be announced later.

ON October 12 *Revanche*, the most anti-German of the Paris papers, announced its publication by the means of human sandwiches, bearing along the streets the picture of a French soldier transfixing with his bayonet a huge serpent wearing the Prus

sian helmet, a Russian ally being likewise represented in the act of cutting off the monster's tail. A great crowd, much excited, followed the sandwich men, who, after being permitted to walk long enough to arouse the Gallic spirit, were taken away by the police.

STRAY notes from time to time have been published about the National drill, to be held at Washing, commencing on May 23 next, and continuing eight days, closing with a general parade of National Guardsmen, and special features on Decoration Day. The success of the grand military fete is now said to be assured. Nothing remains to be done by the promoters and organizers of the drill but to arrange the details and prepare for a monster gathering of militiamen.

The great attraction of noble soldiers at Washington and the enthusiasm already evinced by militiamen everywhere justify the expectation of a grand carnival, and a gathering of civilians as well as military visitors. There is unanimous support of the drill there by both press and public, and Washington has not been so eager about anything since the inauguration of President Cleveland.

THOUGH the French lay press has widely proclaimed the trials of the new explosive compound at Malmaison, the secret of the composition of Melonite is not yet revealed, or, at least, the papers are said by *L'Avenir Militaire* to be greatly wide of the mark in their analyses.

HABERTHUR, a Swiss, is reported as the most recent European inventor of a repeating rifle. It is said to be of easy manual and capable of thirty shots a minute.

THE BARTHOLDI PARADE.

THE rain on Thursday morning let up just long enough to allow the troops to form on 5th Avenue in fair shape. The streets were, however, in bad condition, and the marching under the circumstances was phenomenally good all through the column. Just about the time for starting a fine drizzle began to descend and this continued through the entire day. The Regulars prudently wore their overcoats and the red lining of the thrown back capes added much to their appearance, which was fine in every instance. The Old Guard escorted the President to the stand at Madison Square, and when his arrival had been signalled up 5th Avenue by the flagman on the stand the column started, headed by Grand Marshal Gen. C. P. Stone, who was followed by Col. John Hamilton, 5th U. S. Artillery, the Marshal of the 1st Division, consisting of the U. S. troops and sailors. A Battalion of Marines, consisting of four companies, headed the column. They marched well, but their appearance was not as striking as that of the Engineers, because they wore the capes of their overcoats down. The column of bluejackets, which followed, was almost endless, and they were much admired on account of their fine appearance. The Battalion of Engineers from Willet's Point, 8 companies, with trowel bayonets fixed, marched well and received a thundering round of applause. Light Battery F, 5th U. S. Artillery, formed the rear of the Regular brigade and the 2d New Jersey regiment dressed in the U. S. uniform, with a company of Massachusetts troops, constituted the last organizations of the 1st Division. The Jersey troops in their overcoats with red capes could hardly be distinguished from the U. S. troops. The Massachusetts company had no overcoats but marched well and formed a pleasant feature of the parade.

Brig.-Gen. Louis Fitzgerald then appeared at the head of the 1st Brigade, followed by a well-mounted staff, who rode and saluted well. The sounds of the "Marseillaise" then announced the approach of the 7th, with fronts of 16 files and 20 companies. They were dressed in blue overcoats and their solid ranks, fine marching and immense numerical strength, received conspicuous recognition from both stands. The old 69th looked solid with 12 commands of 20 files and the marching was first-class. Neither the 8th nor 9th wore overcoats; the former had 6 companies and the latter 10, both with 12 files front. They went past in very creditable shape. The 12th, with 10 companies of 16 files, deserves more than a passing notice, for its fine appearance and marching. The 71st was conspicuous by its gray overcoats and white crossbelts. It had 10 companies of 12 files. The 11th had 6 companies of 12 files. The 22d, in blue overcoats, had 11 companies of 16 files, and its marching was very fine. The regiment divided the honors of the parade with the 7th. The 11th Separate Company formed the rear of the military portion of the parade and the little command did honor to its fine reputation. The 1st Brigade, with the exception of the 7th, 22d, 12th and 69th Regiments, seems to be dwindling down numerically. What there was of it, however, made a creditable appearance, especially when the slippery condition of the pavement and the gloomy atmosphere are taken into consideration.

The following assignments of staff officers to special duties in connection with the inauguration of the Statue of Liberty were announced in S. O. No. 169, Div. Atl.:

Brevet Major Joseph P. Sanger, 1st Lieutenant John Pitcher, and 1st Lieut. J. Estcourt Sawyer, will be in attendance upon the Major-General commanding.

Mr. David H. King, Jr., will be in charge of the preparations on Bedlow's Island, and unveiling the statue.

Colonel Roger Jones, Inspector-General, will meet the guests invited to rendezvous at the Union Club, and other places in the city, place them in carriages, and see that they are conducted to their respective destinations. He will be assisted by Capt. Joseph T. Haskell, 23d Inf.; Capt. Valery Havard, Assistant Surgeon, 1st Lieut. Constantine Chase, 3d Art.; 1st Lieut. Robert H. Patterson, 1st Art.; 1st Lieutenant Augustus G. Tassin, 12th Inf.; 1st Lieut. Benjamin H. Randolph, 3d Art., and 2d Lieut. Warren P. Newcomb, 5th Art.

Lieut.-Col. Henry C. Hodges, Deputy Q. M. Gen., will be in charge of land and water transportation, including admission of persons holding tickets to the four steamers (*Thomas P. Way* and *Magenta*—Barge Office—and *Sylvan Stream* and *Atlanta*—Pier No. 1, N. R.,) assisted by Capts. David J. Craigie and James Halloran, 12th Inf., and 1st Lieuts. Edmund L. Zalinski and Benjamin K. Roberts, 5th Art., and a sufficient number of clerks to inspect tickets.

Brevet Brig.-Gen. Richard H. Jackson, commanding Fort Columbus, N. Y. H., will superintend the firing of the salvo and salutes from Governor's Island, and the hospitalities and good order of the Island, assisted by Capt. Morris, Capt. Fessenden, Lieut. Vogdes, Major Lord and the officers of the garrison.

1st Lieut. John Millis, Corps of Engrs., will have charge of the electric lighting of the statue.

2d Lieut. Harvey C. Carbaugh, 5th Art., is assigned as Chief Signal Officer.

Bvt. Lieut. Col. Marcus P. Miller, 5th Artillery, will have charge of seating the guests, and is assigned to the command of all troops on Bedlow's Island, assisted by 1st Lieuts. Thomas R. Adams, 5th Artillery, Charles B. Satterlee, 3d Artillery, William W. Galbrath, 5th Artillery, 2d Lieuts. Samuel E. Allen and Avery D. Andrews, 5th Artillery.

Major John H. Janeway, Surg., will be on duty at Governor's Island.

The following naval vessels participated in the ceremonies on Oct. 28, viz.: Alliance, Despatch, Jamestown, Minnesota, Portsmouth, Saratoga, Tennessee, and Yantic. The squadron was under command of Rear Admiral S. B. Luce. At sunrise on Oct. 28, the men-of-war, at a signal from the flagship, dressed ship with flags and bunting, in rainbow fashion.

At seven o'clok A. M. the officers and men who took part in the procession left their respective ships in transports, which conveyed them to the foot of West Fifty-fifth street, where the brigade was formed, and then joined the procession at the appointed time, under the command of Captain R. Boyd.

At Waverly Place the Naval Brigade were detached from the parade and proceeded to their respective vessels to take part in the marine pageant, which was directed to form in double column off 45th street, North River. At the given signal the vessels headed down the river. In order to avoid confusion and possible collision, the vessels anchoring above 45th street were directed to anchor in alternate bow and quarter line close order. The steamers leaving the wharves fell into line in the order indicated. The route was down the river on the eastern side of the channel, around the line of men-of-war, and up on the western side of the channel, between the men-of-war and Bedlow's and Ellis Islands.

As soon as President Cleveland arrived at Bedlow's Island a five second salute of 21 guns was fired from all vessels in the line.

At the moment of unveiling the statue all the men of war fired a whole broadside together.

When the ceremonies were concluded a second national salute of twenty-one guns was fired. A warning gun was fired one minute before on Bedlow's Island. As soon as the President embarked on board the Despatch all the sailors on the men of war manned the yards. As the Despatch steamed ahead a national salute was fired from all the ships.

At sunset the ships were undressed.

In the land parade the uniform for field and staff officers was dress, without leggings. The uniform for other officers, except cadets, was undress, with caps, leggings (new pattern), white gloves and side arms; for cadets' dress, white gloves, leggings and side arms.

The uniform for the sailors was blue mustering clothes, knife lanyards and leggings (new pattern).

The uniform for the marines was full dress.

The uniform for the marine music was full dress.

Artillerymen were armed with cutlasses only.

Previous to the parade a detachment of sailors from the man of war Tennessee decorated the Post-office building, under the supervision of Lieut. W. S. Cowles.

A SHOT GUN AND RIFLE COMBINED.

WE learn from *Land and Woter* that a public trial has just been held in London, of a new sporting firearm—the invention of Col. Fosbery, V. C. This gun is described as resembling an ordinary double-barrelled gun, weighing only 7lbs. 2oz., and leaf-sighted up to 300 yards. As it throws both ball and shot with equal accuracy, it has been named by the manufacturers, Messrs. Holland, the "Paradox Gun," such a combination of qualities having hitherto been deemed impracticable. The British military authorities were represented at the trial, as it is believed that such weapons will possibly come into use as riot guns, or for other similar purposes.

There was a smart wind blowing, and the atmospheric conditions generally were unfavorable. The results, of which we append a short summary, are sufficient to show the capabilities of the arm. At 50-yards range, the right and left barrels being used alternately, 10 consecutive shots were put into a bull's-eye 3½ inches in diameter, six of the hits cutting into one another. At 100 yards, with a 4-in. bull, seven bull's-eyes were made, all the shots being in a space 5⅝x3 3-5 inches, the wind blowing across the range. A second trial at the same distance placed all 10 shots in 3½x4 3-16. The gun was now tried with small shot, the charges used being 3 drs. black powder and 1⅛ ozs. No. 6 shot.

Six rounds gave the following results: R, 206; L, 194; R, 179; L, 209; R, 220; L, 170. These being the number of hits in a 30 inch circle at 40 yards, 50 pellets of A. A. A. shot and 3 drs. of powder at the same distance, L target gave R 39 and L 36. An ordinary cylinder bored gun tried for comparison giving only R 27 and L 15. "Land and Water" observes that "for a double gun to make such excellent shooting, throwing bullets with as much accuracy as an Express Rifle, and making as good a pattern (with shot) as a good modified choke bore was a circumstance which naturally made a most favorable impression on those present."

Spherical bullets were subsequently shot out of an ordinary smooth bore gun for comparison, but neither at 50 nor 100 yards could they be placed with precision. Their course was, as it invariably is, erratic, and instead of their being placed in an area of 4 inches, as was done with the "Paradox," they required a two and a half foot area to embrace them. It goes on to say that the utility of such an arm as the "Paradox," in countries where the game is varied and where anything from a snipe to a bear may appear on the scene, is incalculable for its accuracy and reliability, judging from these trials are unquestionable.

The invention by means of which these results have been obtained is a very simple one—the short cylinder and cone at the muzzle of a choke bored gun have cut in them six or seven shallow grooves of a less depth than the difference of radius between the barrel proper and the choked portion of the muzzle; these grooves have a total length of less than 1½ inches and a twist proportioned to the calibre and length of the ball.

The ball is forced to enter these grooves and receives its spin. The shot are deflected by the cone before reaching them and are influenced by the choke alone.

CADETS' WAISTS.

"YOU ought to make a study of the cadets' waists if you ever come up here," writes "Maud," a newspaper correspondent, from West Point. One strapping fellow, nearly six feet high, and broad in proportion, boasted to me that he was only 24 inches in the waist, and hoped to be only 23 by the time he was graduated. It seems to be this way: For the four years they are here, while their incessant drilling, riding, fencing and dancing develop and strengthen the figure amazingly, they pinch their waists in so that when they are graduated they could almost wear Titania's belt. I don't know whether it is healthful or not—although they are the finest physical specimens I ever saw in my life—but it certainly improves the figure and gives young officers that peculiar grace and elegance which, we must acknowledge, distinguish them.

ANSWERS TO CORRESPONDENTS.

J. K.—You stand No. 2 on Hospital Steward list.

O. W.—You stand No. 4 on Commissary Sergeant list.

P. H. J.—The address is No. 42 East 21st street, New York City.

F. L. de S.—Your application for transfer had not been received at A. G. O. up to Oct. 20, 1886.

J. N.—Your being on recruiting service will prove no obstacle to your appointment as ordnance sergeant if you are otherwise eligible.

O. K. Lander.—Arthur W. Du Bray was never an officer of the Army. He was a few years ago chief clerk at the Headquarters, Department of the South, and is now at Fort Walla Walla, clerk to Major J. B. Keefer, Pay Department, U. S. Army.

Fort Douglas.—Endeavor to acquire a substantial English education with a fair knowledge of military subjects, strive for promotion to non-commissioned officer, then seek to be examined for a commission in the manner prescribed in the regulations.

A Subscriber.—The chaplains of the Navy, as well as of the Army, were included in the estimate of numbers which appeared in the JOURNAL of October 16. They were separated in the list giving the names of chaplains, with their denominations, which appeared a week later.

M. P.—You can re-enlist in another company under your right name and draw re-enlistment pay, provided you take all proper precautions before re-enlisting to prove your military record. Your company commander will then take the necessary steps to have your service recorded at A. G. O. as continuous, although under different names.

B. O.—Appointments of Ordnance Sergeants are made strictly according to length of non-commissioned service, no consideration being given to date of filing application. It is possible, therefore, that applications from others, showing longer service, may have been received since you filed yours and you have thus lost a number or two. About 25 Ord. Sergeants have been appointed since July, 1884.

J. D. T. asks: I am a member of the National Guard, and am also an inspector of election. Tuesday, Oct. 5, was the first registry day (from 8 A. M. to 9 P. M.), and my weekly company drill occurred that evening. Can I under the section claim exemption from the fine for non-attendance at my company drill? ANS.—Yes. The performance of a public duty of this character is made by law a sufficient excuse for absence.

Soldier asks: 1. In the election of a field officer in a regiment, could an absent officer "vote by telegraph?" ANS.—No.

2. Is an officer, desirous of perfecting his pistol practice, required to furnish the weapon, or will the State provide one? ANS.—The State furnishes no pistol for this purpose, and he must therefore provide it himself.

3. Should cartridge-box be worn to front or rear, with and without knapsack? ANS.—When knapsack is worn, in front—without knapsack, in rear.

4. Could a lieutenant under arrest parade with his company, if he wore no side-arms and exercised no authority? ANS.—An officer under arrest wears no arms and performs no military function. On the march he is in rear of company. He could only parade if ordered by his commander.

5. Should an officer or enlisted man under arrest salute his superior officer? ANS.—A prisoner under guard does not salute. An officer under arrest has no right to neglect to pay proper respect to his commander.

THERE have recently been received at the National Museum about a dozen articles of pottery and tapestry presented by the French Government, the total value of which is more than $3,000. The most costly of each are a Sevres vase valued at the place of manufacture at $500, and a Gobelin rug valued at $1,500.

PRESERVATION OF TIMBER.

TEST OF THE AMERICAN WOOD PRESERVING CO'S PROCESS.

ON Feb. 8, 1877, the Navy Department made a contract with the American Wood Preserving Company for the purpose of testing their patented process for the preservation of timber. The experimental test was placed more than ten years since in the U. S. S. *Trenton*, then building at the Brooklyn Navy-yard, with the result as shown by the following correspondence:

James W. Young, President and Treasurer. Frank L. Washburn, Secretary.

OFFICE OF THE AMERICAN WOOD PRESERVING CO., PROCESS, COPPER AND BARIUM, No. 6 ASHBURTON PL., ROOM 1.
BOSTON, September 6, 1886.

Hon. Wm. C. Whitney, Secretary of the Navy, Washington. D. C.:

SIR: The ship of war *Trenton*, I learn, has arrived at Norfolk. She has been absent some four years on a cruise. Some ten years ago when she was built there were put into her four pieces of timber which had been impregnated by the Thilmany process for preservation against rot and decay. This was done experimentally by the Department with the view of testing the process.

I beg leave to call your attention to this subject and ask permission to go on board of her and have some borings made of those pieces of timber to see what is their condition at the end of ten years; or, in other words, to learn for myself the result of the experiment made by the Wood Preserving Company to test the utility of the process. The great desirability of finding a process which will be effective in this regard I need not call to your attention. I trust the propriety of the request will also meet your good judgment.

Awaiting your answer, I am, yours truly,
JAMES H. YOUNG.

NAVY DEPARTMENT,
BUREAU CONSTRUCTION AND REPAIR,
WASHINGTON, D. C., September 14, 1886.

No. 132.

Captain George Brown, U. S. N., Commandant Navy-Yard, Norfolk:

SIR: Mr. James H. Young, of Boston, the bearer of this letter, has applied to the Department for permission to go on board the *Trenton* and have some borings made of pieces of impregnated timber which were placed in the vessel when she was built.

You are hereby authorized to afford Mr. Young such facilities as will enable him to ascertain the condition of the timber referred to.

Very respectfully,
D. B. HARMONY, Actg. Secretary of the Navy for Bureau Construction and Repair.

OFFICE OF THE AMERICAN WOOD PRESERVING CO., PROCESS, COPPER AND BARIUM, No. 6 ASHBURTON PL., ROOM 1.
BOSTON, September 18, 1886.

Commodore D. B. Harmony, Actg. Secretary of the Navy, Washington, D. C.:

SIR: I take leave with great pleasure to thank you most gratefully for your kind note of introduction to the Commandant of the Norfolk Navy-yard, authorizing him to grant me permission to have borings made of certain oak timbers preserved from rot and decay by the Thilmany process placed in the U. S. S. *Trenton* when she was built some ten years ago.

On presentation of your note, the Commandant, Captain George Brown, referred me to Naval Constructor in charge, Mr. Boush, and kindly suggested to me that as Naval Constructor Much was temporarily on duty at the yard on a Board of Survey, the boring of the timbers might be done in the presence of these two Naval Constructors that they might see what was the result of the preservation. The four pieces of treated timber which were in the port battery aft of the quarter-gallery port, were accordingly bored in the presence of Naval Constructors Boush and Much and I brought away with me the borings of the timbers.

Will you add to your kindness the further favor to direct the Commandant at the Norfolk Navy-yard to have a report made to the Department by the Naval Constructors present of what was done, and the condition in which the timbers were found as evidenced by the boring?

I have the honor to be very respectfully, your obedient servant, (Signed) JAMES H. YOUNG.

NAVY DEPARTMENT,
BUREAU OF CONSTRUCTION AND REPAIR,
WASHINGTON, D. C., Sept. 24, 1886.

Mr. Jas. H. Young, President American Wood Preserving Company, 6 Ashburton Place, Boston, Mass.:

SIR: Your letter of the 18th inst. to the Department, was referred to the Commandant of the Norfolk Navy-yard, and herewith you will receive a copy of the report sent in reply thereto.

Very respectfully, D. B. HARMONY,
Actg. Secretary of the Navy for the Bureau of Construction and Repair.

NAVAL CONSTRUCTOR'S OFFICE,
NAVY-YARD, NORFOLK, VA., Sept. 22. 1886.

To the Chief of the Bureau of Construction and Repair, Washington, D. C.:

SIR: Referring to the letter of Mr. Jas. H. Young, (President and Treasurer of the American Wood Preserving Company,) addressed to the Acting Secretary of the Navy under date of the 18th inst., we have respectfully to state, that being present at the time of the examination of the material referred to, and said to have been treated by the "American Wood Preserving Company" ten years since, we observed that the four planks bored in our presence were perfectly sound.

Mr. Young's letter is herewith returned.

Very respectfully, etc.,
GEO. W. MUCH, Naval Constructor, U. S. N.
G. R. BOUSH, Naval Constructor, U. S. N.

U. S. Navy-yard, Norfolk, Commandant's Office, Sept. 22, 1886. Forwarded, Geo. Brown, Captain, Commandant.

The identity of the four strakes is proven and the circumstances under which they were placed in the *Trenton* as a test of the process, and the time which has elapsed since the timbers were put in the ship is shown by the following report of Naval Constructor Mintonye, U. S. N.:

UNITED STATES NAVY-YARD, BOSTON,
NAVAL CONSTRUCTOR'S OFFICE, March 6, 1882.

Hon. Wm. H. Hunt, Secretary of the Navy:

SIR: In reply to your letter of the 1st instant, I have the honor to state that on September 30, 1875. I was ordered by the Chief of the Bureau of Construction and Repairs to proceed to Cleveland, Ohio, and carefully examine into the process of preserving timber by the American Wood Preserving Company.

After looking at some railroad ties that were said to have been in use eight years—and certainly they looked as if they had—and were sound, and some street pavements that had been down four years, I came to the conclusion that it was worth while to make some practical experiments with this process of preserving timber.

Several small trees were cut down and impregnated green. A piece of seasoned, impregnated timber was found to be rotten after I left, and condemned.

I reported that, from what I had seen, timber lasted longer that had been treated than timber not treated, under the same conditions; and, as the company was willing to send samples to be tried, I recommended that a practical test be given them by putting some pieces in the *Trenton*, then building at the Brooklyn Navy-yard.

The company sent the timber, but I did not hear from my report, and, thinking that the authority would be given, I had a piece of each of those trees put in the port battery aft of the quarter-gallery port; and for my own information, and in justice to the company, I procured the borings referred to.

As I did not feel justified in making any tests in the immediate vicinity of this material, I cannot say how it compares with that, but all that had been cut out was rotten, while those four strakes bored sound.

I would suggest that one of the four strakes impregnated be cut, and compared with the material in the immediate vicinity.

Very respectfully, your obedient servant,
W. L. MINTONYE, Naval Constructor, U. S. N.

THE BROOKLYN AT HER OLD TRICKS.

WHAT YANKEE GUNNERS CAN DO WHEN THEY TRY.

U. S. S. BROOKLYN, (2D RATE.)
AT SEA, MAKING PASSAGE TO PORT SAID.
September 24, 1886.

To the Editor of the Army and Navy Journal:

THE veteran war-ship *Brooklyn* in great gun target practice to-day again covered herself with glory. Her gunnery performance during the great Naval drill at Pensacola last spring, although considered very remarkable at that time, is no more to be compared to the phenomenal shooting made to-day, than a dark inky night is to a bright sunny day. Officers on board, who have grown old in the Service, do not hesitate to say that they never saw such marvellous marksmanship in all their experiences.

A spirit of pride in, and love for the grand old ship seem to prevade everyone on board, and the crew at this writing is gathered in little groups forward, discussing with animated and smiling faces the great feats of the forenoon, over which they all feel proud, and deservedly so.

With the target at a distance of about 1,200 yards, the great gun practice was commenced by the 8-in. rifle under the command of Lieut. W. H. H. Southerland. There was a moderate sea running and a considerable swell when the boom of the great gun opened the mimic action. Every eye was strained and neck craned out of the ports to witness the effect of "Old Reliable's" initial shot, and when the smoke cleared away a rumbling sound of smothered applause came rolling along the deck, for the shell from the 8-in.-rifle had cut the bull's-eye out of the target as nicely as if a pair of scissors had been used in the operation.

Nine inch No. 3, under command of Lieut. C. J. Badger, was the next gun to send its messenger of death in the direction of the floating representative of an enemy, and although there was no bull's-eye to aim at, the mast of the target offered too conspicuous a mark to the demon gunner who directed this gun's missile of destruction, for almost simultaneously with the explosion of the shell came the announcement from the "distance taker," in the mizzen top, that the mast of the target had been carried away. Nothing was now left as a mark at which to continue the practice but the flat frame of the dismantled target as it rose and fell on the heaving bosom of the blue Mediterranean. Nevertheless the practice was continued until the regulation quantity of ammunition had been expended, and so closely were the shots planted on and around this surface sight that, five out of every six shots fired would have hit a vessel of the *Yantic's* size and sent her to the bottom in short order.

The great proficiency in gunnery attained by the crew of the *Brooklyn* may be wholly attributed to the method of instruction adopted by the officers, and the painstaking manner in which it is imparted. With modern ships and modern guns the blue-jackets of the Republic would become invincible. As we steamed past the coast of Tripoli, made famous in naval annals by the brilliant victories of Commodores Preble and Barrow over the proud infidel, we felt that if furnished with modern vessels, we could fulfill our long standing promise to "lick creation," as the *Admiralty Gazette* has it. E. C. C.

AN ENGLISH COMMENT.

LONDON, Oct. 29.

THE *Daily News*, commenting on the dedication of Bartholdi's Statue of Liberty says: "It is a great mistake to think the statue will increase the friendship between the two countries. America did not want the statue. She took it because it was offered to her. When the last cannon boomed New York was richer by a remarkable statue, and that is about all."

MRS. E. R. PLATT, U. S. A., is visiting her cousin. Mr. Rumsey, at 3424 Rhodes avenue, Chicago.

THE STATE TROOPS.

INSPECTION OF THE THIRTY-SECOND, N. Y.

THE 32d was inspected at the armory on Wednesday, Oct. 20:

This shows little change with regard to numbers in comparison with last year and the appearance of the regiment is about the same as usual. Of all the small armories this regiment has the smallest, and on this account the adjutant and the whole regiment deserve credit for the rapid and comparatively precise manner in which the regiment was formed. Gen. Schaefer has evidently changed his policy of continued absence, for he was present on this occasion. Col. Finkelmeier improved the opportunity and performed a marching review. While this was not a military spectacle of imposing character the manner which the regiment was manœuvred in that small space, the fair passage of the companies and the accuracy with which they reformed in line deserve commendable mention. Salutes during this performance would stand immense improvement. After line was re-established the inspection began and was concluded rapidly. Nothing requiring special mention occurred. The regiment has about held its own in every respect during the year.

INSPECTION OF THE TWELFTH NEW YORK.

THE 12th Regiment on Tuesday evening, Oct. 26, brought the inspection season of the National Guard to a close in a worthy manner. This regiment has been particularly unfortunate of late with its inspections. Two years ago, when it was intended to have the inspection at the Polo grounds, heavy rain confined it to the armory; last year the weather was so hot and the place of inspection, 34th street, so unsuitable, that the affair was no better than no inspection at all, and on the present occasion the severe storm again prevented the command from proceeding to the new armory, where the spacious drill hall would have admitted it to show off to full advantage. There was, however, no help for it and the inspection had to be held in the old armory, at Broadway and 45th street.

The organization has grown to such an extent that a double line of companies, almost covering the four sides of the building had to be formed, and the drum corps had to be stowed away in some out of the way corner. The ceremony, consequently, was the most informal of all the informal inspections which have taken place this season, and yet the way in which the thing was managed was the best one under the circumstances and the waiving of ceremonies which could not have been satisfactorily executed had they been undertaken reflects credit upon Col. Jones and the Inspector-General alike. There was no formal formation, no review, no presentation of the battalion to the inspector. The Colonel simply got company after company in the most suitable manner into a place where the ranks could be opened and the inspectors began their work. The regiment has grown in an astonishing manner during the year, and the sight of an organization, the vitality of which is beyond question, was a refreshing one after all the dry rot we have been compelled to view this season. With so much new material, however, and at the beginning of the drill term, it could hardly be expected that all the men would be up to the highest standard of soldiership, and to this fact some of the shortcomings may be attributed. The regiment, however, could have been better sized generally, the 1st Sergeants should have seen before the men were marched out that they were all provided with gloves, and the opening of the boxes should have been uniform in all of the companies, nor is there anything in tactics requiring the front rank after stacking arms at the command Rear open order to step back one pace, as was done in several cases. Stacking and inspection of arms should have been practiced. To all this we refer in a general manner, and only desire to say if these points, small as they are, had been attended to beforehand, all unfavorable comment would have been avoided. One lieutenant neglected to face to the rear during inspection of his company and remained at attention the whole time.

As to the inspection in detail, Co. B, which has the right of the line, showed a large gain in numbers, but the men, many of whom were apparently green, did not preserve the necessary steadiness, and lifted their hands and turned their heads while the inspector was passing. The captain did not take the tactical position in giving his commands, saluted the inspector, and ordered open boxes with sword half sheathed. The evident building up of his company numerically, however, atones in a measure for these shortcomings. Co. E made a good inspection, and the forms were correctly observed. Co. H was conspicuous by its large size, snappy manual and superior drill, but somewhat marred the good effect by awkwardness in stacking arms, and the absence of gloves in at least four cases. It made otherwise a fine inspection, and ranks among the best companies of the evening. The trouble about the stacking opened the eyes of a number of captains waiting their turns, and they improved the occasion by putting their men through the stacking arms several times. By slight exertion they avoided the rock on which the captain of Co. H got hurt. Co. K, Capt. John F. Boylan, although the smallest concern in the regiment, made the best exhibition of all, on account of the superior set up, drill and steadiness of the men, the faultless adjustment of accoutrements and the smallest percentage of absentees. Capt. Boylan took command of this company about 10 months ago when it numbered 15 men, and these had to be nearly all weeded out. The manner in which he has brought up his command to its present

condition entitles him to no end of credit as an energetic officer. Cos. A, C, D and G all made creditable inspections. The men were well drilled, and the officers snappy and evidently thoroughly posted. Co. I looked very fine, and its commander, Capt. Harry Aspinwall, attracted attention by his prompt and rapid actions and the expert manner in which he handled his sword. Co. F, Capt. W. H. Murphy, is the largest company in the regiment, and the small number of absentees shows that its members are active and much interested. Somewhat over two years ago Capt. Murphy took this organization, which was then only a company in name, the roll having dwindled down to a baker's dozen. Capt. Murphy's pride in pointing to it now as "Big Six," and a well-drilled organization in the bargain, is therefore excusable. The amount of work performed by himself, 1st Lieut. John McCauley and 1st Sergt. Gaillard to bring the company to this standard is simply astonishing. The regiment is growing rapidly, and once in its new quarters the membership will no doubt soon be increased to the maximum. With an especially competent field, a superior corps of officers, socially and intellectually and well-filled ranks, the regiment is now on the road to prosperity. The question of size is disposed of, and what now is wanted is thorough instruction. There is nothing in the way of the officers now turning their attention in this direction, and when they once get in their new quarters it is to be hoped that a broader scale of drill, something beyond mere marching exercises, will be adopted. For the next turnout we should recommend more attention to the proper and uniform adjustment of haversacks, canteens, etc. Figures developed by the inspection:

INSPECTION OF THE TWENTY-THIRD N. Y.

WITH a percentage present of 97.12 the 23d at its inspection on Monday evening, Oct. 25, surpassed every regiment of the National Guard during this or any previous year. Considering, in connection with this phenomenal turnout, the general excellence of the regiment on all other points as developed by the inspection, it is justly entitled to the credit of having made the best inspection of the season. The regiment turned out in State Service uniform, and formed for review, equalized as 10 commands of 16 files, the men thrown out joining their companies when formed for inspection. To the steadiness and precision during the review, which was received by Insp. Gen. Schaefer, we can only refer in terms of the highest commendation, and the only matter of regret in this connection was that the swordsmanship displayed by several officers in rendering their salutes were not up to the soldiership of the men. The inspection was rapid and without interruption or flaw from beginning to end. The clothes fitted well, the accoutrements were properly worn, there was none of the conspicuous negligence with regard to dress so frequently noticed. Brasses were clean and muskets in good condition. All this viewed in connection with the superior set up of the men and their steady bearing gave the command an extremely military appearance. The inspectors found absolutely no fault, if a few missing canteen corks are not considered, and in view of the generally fine appearance and apparently superior discipline of the command such small things may well be overlooked. The 23d have adopted a gray full dress, but it is difficult to imagine how they could improve upon their appearance on this occasion. The regiment has not only given an excellent exhibition of itself but it has also demonstrated that it requires only a well set-up soldier who knows how to dress himself and wear his accoutrements, and a well-fitting suit to prove that the State uniform is a soldierly dress. The 23d is to be congratulated upon its superior performance in every respect.

The following figures furnish their own comment:

INSPECTION OF THE FORTY-SEVENTH N. Y.

BECAUSE the 47th is one of the growing regiments in the State, its inspection draws more than usual outside interest, and it was witnessed by an unusually large audience, composed of the best elements of Williamsburgh, as well as by a numerous crowd of military officers of superior rank, of the General Staff, as well as of the 1st and 2d Brigades. The new armory, which was thrown open a few weeks ago, is now thoroughly completed, and the regiment has every reason to be proud of its quarters, which for comfort, elegance, and space for drill purposes are only surpassed by the armory of the 7th. Since 1885 the regiment shows a gain of only nine, and this is by many, who do not understand the case, looked at as a lack of vitality, because it has been generally assumed that since the building of the new armory the regiment ought to have swelled to double its size. It should, however, be understood that the large actual gain of the regiment is offset by a corresponding actual loss of undesirable elements, which had to leave the organization "for the good of the regiment." Thus the fact is that there is a "gain in quality" and apparent "loss in quantity." The regiment is the gainer at all events.

The formation was punctual at 8 P. M., and the line was promptly formed by Adjutant Hubbell. The men stood firm and the ranks were opened in good shape. There being plenty of room, Col. Gaylor passed the regiment in review before Gen. Schaefer, the march past being accomplished with steady step and alignment, but rather poor distances, for which defect the company officers, guides and file closers were responsible. In a roomy hall like that of the 47th, there is little excuse for such shortcomings. The fact that distances were sufficiently recovered to form a fair line forms no excuse. In the passage the command should have shown its proficiency. When the command had formed column for inspection the work progressed rapidly, but there were some late arrivals in one of the companies. Another defect was that in two companies the papers had been incorrectly and incompletely prepared and the rectification of this defect caused another delay. We do not desire to mention any names, but the officers in whose companies the trouble occurred had been there long enough and should have known better. The whole thing was due to downright ignorance, otherwise there was nothing to find fault with and on general principles the 47th made one of the most creditable inspections of the season. The whole affair was of such a nature as to give the impression of a live, active, progressive organization. The inspection took place Thursday, Oct. 21, and the following figures show the numerical result:

	Present. Offi-cers.	En'l men.	Tot.	Absent. Offi-cers.	En'l men.	Tot.	Agg.
F. and S.	9	—	9	1	—	1	10
N. C. S.	—	10	10	—	—	—	10
A	3	49	52	—	2	2	54

EXISTING METHOD OF RIFLE INSTRUCTION.

To the Editor of the Army and Navy Journal:

IT is earnestly hoped by the friends of the National Guard that the JOURNAL will continue its efforts to reform the existing method of instruction in shooting—if the system now prevailing may be called "instruction."

It is owing largely to the exertions of the JOURNAL that any instruction of this character was ever begun, and the debt which the public owes to it for its success will be increased if it can produce a revival of interest in the subject, which will lead to an improvement.

The article contained on the first page of your last issue is one that should be taken to heart by every officer of the National Guard and of the Army. The statement "that a regiment of natives which was for many years the worst shooting regiment in India was taken in hand by an officer who corrected the sighting of every rifle himself, and originated a system by which every duty was made second to musketry. All things turned upon it; good shots received indulgence, and private practice was encouraged, and in one year the regiment rose to be the best shooting regiment in the native army with 85 per cent. marksmen," is one that shows distinctly that if any organization cannot shoot it is the fault of the officers, and of them only. The suggestion of your correspondent, "Observer," that ammunition might be distributed more freely at Creedmoor and thus allow sighting shots seems to have merit. His is, however, a matter of detail as to the practice upon the range. But the root of the difficulty is as suggested in General Wingate's letter that men are brought upon the ground without any previous instruction, and that the rifles they use are improperly sighted. "Observer" suggests that the volleying and skirmishing should receive more attention than they do. This is undoubtedly correct if read with the qualification that the troops must be first instructed to hit what they aim at. That the men should be trained to fire an effective volley, and to be such good judges of distances as to be effective skirmishers, goes without saying. But will anyone explain what is the use of taking a man who comes upon the range without any preliminary instruction, and is unable to hit a target six feet by four at 200 yards (with his sights carefully adjusted for him, and plenty of time allowed him), to be practiced in skirmishing, in which he is not only required to fire accurately, but to make an allowance for distance upon his sights, a matter in regard to which he is utterly ignorant. Is it not something like teaching a child to skate before he has learned to walk. The practical result is seen in the complaints made by the owners of the farms adjoining Creedmoor that they cannot safely use them when the troops are practicing, which means that they miss a bank *thirty feet high.* The volley firing is perhaps not quite so objectionable, as even if the firing is wild it accustoms men to firing in a mass. But even the apprehension which is displayed by men under these circumstances is accurately stated by the "Observer" as arising from the feeling of each man that his comrades know so little about the use of their guns that he is in danger. He proposes to obviate this by putting the best shots in the rear ranks. Would it not be simpler to train all the men to shoot?

If Creedmoor was removed to Staten Island, or some more convenient location than it now occupies, so that members of the National Guard could run down for private practice more frequently than they are now able to do, undoubtedly emulation would lead a large number to practice on their own account, and thus improve their general standing in shooting. It is, therefore, earnestly hoped that the efforts which are being made in this respect will be successful. But it must not be forgotten that the number of those who will do this will always be limited. Taking the members of the National Guard as a whole they will not and cannot be expected to shoot with any accuracy unless their officers see that they are instructed in aiming and position drill during the drill season. Will this be done? Heretofore the responsibility for failing to do this has been divided up between the different divisions, brigades and regiments so that it was difficult to put the blame where it belongs. Now, however, there is but a single brigade in New York and another in Brooklyn. Commanding officers, therefore, have no one but themselves to blame if they allow the present system to continue. What a spectacle does a company officer present who spends hours drilling his men to perform the manual with great precision, and yet grudges a few moments to instruct them in the only purpose for which the arms they carry were made. This would be absurd if done by the Chinese. It is only not thought here to be absurd because it is so universal. Whether it can be made less so, is the question which is to be hoped the JOURNAL will be able to bring to a satisfactory conclusion.

RIFLEMAN.

NATIONAL GUARD ITEMS.

There was an inspection of uniforms and accoutrements of the 1st Infantry, I. N. G., last week. Seventy new uniforms were distributed by the quartermaster. The officers of the Illinois State troops have been requested to attend the next regular annual meeting of the National Guard Association, which will be held at Battery D, Chicago, on Nov. 18 and 19 next. Several important papers will be read, and everything of interest to the Guard discussed. We are informed that the resignation of Capt. Arthur H. Scharff, 1st Infantry, has been accepted. He was the late commander of Co. B.

The inquiry into the financial affairs of the 1st Illinois Cavalry is still unfinished. Col. Sexton, who presides, looks forward to hearing the balance of the testimony this week.

Athletic games will be held at the 8th Regiment Armory, cor. 27th street and 9th avenue, New York, on Friday evening, Nov. 19, for the all-round championship of the Regiment. The events are 40 yds. run, running high jump, 220 yds. run, standing broad jump, 440 yds. run, running broad jump, 220 yds. hurdle race, one mile run. The competitions begin at 7.45 P. M., sharp, and are open only to members of the regiment that enlisted on or before May 1, 1886, in good standing. The entrance fee is 50 cents and close Nov. 13, with Corpl. O. J. Mendal, Co. H, at the Armory. Handsome prizes will be presented to the first, second and third, to count as follows: five points to first, three to second, one to third in each event. The admission is 25 cents.

The twelfth qualification and champion marksman's class match was shot at Creedmoor on Saturday, Oct. 23. The attendance was the largest this season. The weather was pleasant, but the wind was very tricky. Lieut. G. F. Hamlin, Co. I, 23d Regt., was the winner of the gold medal in this match. He is the tenth man to have won it this season. Lieut. E. F. Young, Co. C, 7th Regt., is virtually the winner of the medal this season, he having won it three times. The match on Election Day will be open at 8 o'clock A. M. Entries for this day can now be made at the office of the National Rifle Association, Room 55, Temple Court, N. Y. Private parties are notified that the Association will make use of all the targets on this day, and none will be hired. The winning scores on Saturday were:

Lieut. G. F. Hamlin, Co. I, 23d Regt.	20	25	45
Corpl. W. J. Underwood, Co. H, 7th Regt.	20	25	45
Sergt. F. Van Lennef, Co. K, 7th Regt.	21	20	41
Corpl. W. C. Holmes, Co. B, 23d Regt.	21	19	40
Pvt. J. N. Wheeler, Co. I, 23d Regt.	17	22	39
Sergt. J. McNevin, N. C. S., 13th Regt.	20	19	39
Lieut. A. F. Schermerhorn, Staff, 12th Regt.	21	18	39
Pvt. G. L. Stebbins, Co. K, 7th Regt.	17	21	38

VERMONT.

ADJUTANT-GENERAL T. S. PECK in his annual report recommends the increase of the National Guard to 16 companies of 51 men each as a minimum, to be divided into two regiments of 8 companies, with a view of raising them in time of need to two 3-battalion regiments. This would give a large number of drilled and experienced field and staff officers for active service if needed. He also recommends the arming of the Guard with calibre 45 muskets and the addition of 2 Gatling guns, and the acquirement of a permanent camp ground—all sensible recommendations and worthy of serious consideration. At present the Vermont National Guard consists of 10 companies and one light battery of artillery, to be uniformed, according to the Regulations, like the Regular Army.

Lieut. C. P. Miller, of the 4th U. S. Artillery, who inspected the camp on behalf of the Government, states, however, that nine companies were dressed in gray and one company and the light battery in blue. He says further:

The gray uniforms fitted the men nicely and were kept very clean through the encampment, but for active service less gold lace would be an advantage. The arms were of the old 50 calibre pattern, some of the first that were altered from the muzzle to the breechloader; the cartridge boxes and belts were also of a very old pattern, and scarcely any of the companies were provided with knapsacks. Although the overcoats are of the pattern prescribed in the Army Regulations, they are poor in quality in addition to being worn and faded. The companies have provided themselves with lockers and boxes for camp use, and do not miss their knapsacks at the encampment, but for possible field service they should all be provided with them. Target practice appears to be almost entirely neglected in this State, and a large majority of its National Guard know little or nothing about the actual use of the guns with which they are armed.

He, however, reports a laudable spirit of emulation, and under its influence the troops improved rapidly. Under Col. Greenleaf the encampment was perfectly quiet and orderly, everything running smoothly. The men were kept busy during the day, but when off duty they were allowed all the liberty possible. This the men appreciated, and were careful not to take advantage of it. He speaks well of the light battery, and its commander, Capt. Fuller comments favorably on the rapidity with which the command can be prepared for active service, as was shown on the occasion of leaving for camp. In conclusion he says:

In my judgment the usefulness of the Guard would be promoted if they were armed with the present service rifle, calibre 45, the woven loop belt for field service, the McKeever cartridge box for drills and muster, blanket bags, haversacks and canteens of the latest pattern. Men to be efficient should be instructed in the use of the arms and equipments they would use if called into the service of the United States. The National Guard of Vermont, in recognition of their zeal and efficiency, should be furnished with guns and equipments that they could feel would be of some use to them in service, and they should be taught to use them effectively. The encampment should be for eight days instead of five, giving them five days for the camp work. One day should be devoted to target practice, and to excite an interest and spirit of emulation among the companies prizes should be offered for teams of ten from each company, also for individual matches. A permanent camp ground should be purchased by the State for the muster, and rifle ranges built. Ammunition should be provided and each man of the National Guard required to fire a certain number of rounds per year. With this encouragement the companies would soon provide themselves with ranges and target practice, and matches would be a useful feature of the muster.

NEW PUBLICATIONS.

The November "Magazine of American History" has a frontispiece of Governor Thomas Pownall, from the celebrated Lord Oxford painting, in England. There is a succession of excellent articles, among them "Braddock's Defeat," by T. J. Chapman, A. M.; "Virginia's Conquest of the Northwestern Territory," by J. C. Wells; "The Split at Charleston in 1860," by A. W. Clason; "From Cedar Mountain to Chantilly," the third paper in the Civil War studies of Gen. Lee; and "General Pope Again," a sharp criticism on Pope's article in the "Century," by Col. Allan, Stonewall Jackson's chief of ordnance in the campaign under review.

One of the most recent compositions in music is a march now being rendered by the Marine Band, the work of John Philip Sousa, and entitled "The Rifles." This march was written by Mr. Sousa expressly for, and dedicated to, the Third U. S. Infantry. We are informed that it is the intention of Colonel Brooke to adopt it for the "March Past" or "Review Quickstep" of his regiment.

"TAPS."

The night has fallen,
Day is done.
Hours ago, the red, gold sun
Dropped down into the West.

The pale, clear moon
Across the tide
Flings bars of light in ripples wide,
A pathway to her feet.

The barracks low,
Against the sky,
In outline black, all silent lie,
For hark!—the bugle clear!

Rising and falling
On the air:
Telling us day, with toil and care,
Like the light, doth fade away.

"Lights out," 'tis calling,
"Rest to all."
While soft as silver moonbeams fall
Falls sleep on weary eyes.

Mournful, yet sweet,
Soft and low,
The sad notes fade and I must go.
Good night, dear love, good night.

FORT SCHUYLER, October 23.

THE MESS.

Piton, late a private in the Marines, who has returned from Tonquin with a wooden leg, called the other day on his friend Guibollard, who exclaimed with his wonted fervor: "Brave warrior, thanks to you, France has now one foot in the remote East." "Right you are," replied Piton, "'twas I who left it there!"

—

Ben. C. Truman, in the New York *Times*, says: I shall never forget the first time that Johnson drew his pay as Brigadier-General and the time he had of it. When the Paymaster entered the office I said to myself, "I have seen that face before," and all of a sudden it flashed upon me that I had heard the voice and seen the man before me now clad in Federal uniform play "Nick of the Woods" and the "Idiot Witness," and other real old blood-and-thunder, stem-winding curdlers during that time in my life when I preferred "Jack Sheppard" to the "Hunchback." And I was not mistaken, for the Paymaster was none other than Mr. William M. Fleming, the Jibbenainosay of the old National Theatre, of Boston, in 1854. Neither the Governor, Browning, nor myself had ever seen a pay account before, and so Maj. Fleming explained to Johnson all about his pay proper, commutation for fuel, quarters, allowance for three horses, etc. The dialogue between the Paymaster and Johnson lasted nearly an hour, and concluded about as follows: "But, Major, I have'nt purchased any coal; there's at least a hundred tons right under where you are standing, and it is all mine, or as much of it as I want to use. I have the best of quarters across the way that I have confiscated, so to speak, and my only expense is for gas. There are seven or eight horses in the stable that have been captured that I have never seen and that are claimed by my young men here—alluding to William A. Browning and myself—and which costs us nothing to keep—" "Yes, but you don't seem to understand, Governor, that you are allowed a certain amount of money in your pay accounts for all these things; that is, you are allowed a certain amount of money for quarters, fuel, feed for horses, etc.; but if you get any of these things or all of them for nothing, so much the better for you. You are just so much in—don't you see? You are not only entitled to it, but you must receive it and sign for it." "Well, Major, you are very courteous and very plausible in your explanations; but all hell can't convince me that I should sign for and accept money for fuel and house rent and horse feed that I haven't spent money for, and which I get for nothing; and I'm just simply damned if I'll do it." And he never did, and Fleming counted out his Brigadier's pay to him minus commutation allowances, and retired from his presence a highly disgusted and badly demoralized ex-tragedian with the words confounded fool on his murmuring lips. Some time afterward I met Major Fleming, and he said: "Well, they may say what they please about old Andy, but there is one thing certain, he's dead on the square."

—

GEORGE IV. was wont in post-prandial confidences to declare that he commanded the Guards at Waterloo. The story goes that upon one occasion, when an amiable gentleman, Mr. John Wilson Croker, seemed to doubt the Royal word, the King turned to the Duke and asked: "Was I not present at Waterloo in command of the Guards, Arthur, ?" the hero of that battle bowed and replied, "I have frequently heard your Majesty assert so."

NEY WORK HARBOR IMPROVEMENTS.

LIEUT. COL. MCFARLAND, Engineer Corps, U. S. Army, in charge of the river and harbor improvements in the vicinity of New York, has made a report of the operations on those works during the past fiscal year. He says that 18,288.6.8 pounds of dynamite were used in removing obstructions at Hell Gate and in the East River, and 28,622,313 tons of broken rocks were raised. The expenditures during the fiscal year amounted to $227,330, and at the close there was a balance of $40,648 available. It is estimated that it will require $1,488,840 to complete the improvements in progress, of which amount Col. McFarland says $500,000 could be profitably expended during the fiscal year ending June 30, 1888.

H. M. S. BENBOW.

THE new armor-clad barbette ship *Benbow*, built by the Thames Ironworks and Shipbuilding Company, was delivered on Aug. 26 into the charge of Capt. Buller, at the entrance of the Royal Albert Docks, and proceeded in charge of that officer to Chatham Dockyard, where she will receive her armament, preparatory to being put in commission. The Thames Company, which is contractor to the Government for the supply of both ship and engines, has been working early and late to complete its contract within the specified time, and Messrs. Maudslay, to whom the contract for engines has been sublet by the Thames Company, being also under contract to complete by date, in order that the vessel might steam from the works down the river.

The *Benbow* is one of the six vessels of the Admiral class, so called from bearing the names of six of our famous admirals—Anson, Collingwood, Camperdown, Howe, Rodney and Benbow. They are all barbette ships, the guns being mounted inside a fixed circular breastwork of thick armor plating, wherein the gun revolves on a turntable, and fires over the breastwork. The barbettes are placed one at each end of the superstructure, or midship battery, and the guns have each a clear range of 230 deg., viz., from 25 deg. abaft the beam to all round the bow or stern to 25 deg. on the opposite side, and converging upon an object on the broadside at about 50 yards.

The *Benbow* has been chosen as one of the six vessels of this class to mount two guns of 110 tons each one being mounted in each barbette; whereas, in the other five vessels, two guns are carried in each barbette, but of 63 tons only instead of 110 tons. These terrible engines of warfare would be most destructive in action, and are, in fact, formidable weapons, but in some quarters such enormously large guns are not viewed with much favor. England, in the matter of adoption of such heavy guns, has been following in the wake of Italy.

In addition to the two 110 ton guns, the *Benbow* carries a battery of ten 6 in. guns, twelve rapid-firing guns, and fourteen machine guns, these latter very conveniently arranged for use against torpedo boats. She is also fitted with four torpedo ports on the broadside and one through the upper part of the stern, all above water. The *Benbow* was launched on June 15, 1885, and has since that date been lying near the works for the purpose of receiving her machinery and boilers, and for the completion of the multitudinous fittings of a modern ship of war. It would be impossible to describe on paper the character of such fittings, including the pumping, draining, and ventilating, some 180 separate compartments, each compartment being fitted with an automatic valve, where the ventilating pipe or trunk passes through, so that in the event of the water entering any one compartment, and rising to the height of the trunk—the trunk being assumed to be possibly damaged—the water would close the valve, and so be confined to the damaged compartment.

Some idea of the complication of the gearing in a modern war vessel as fitted in England may be obtained when we state that no less than 83 water-tight doors and armor deck shutters are fitted in this vessel, in addition to 85 water-tight doors that open and close by hand without gear. The deck plates, to which indicators are fitted, showing when each door or valve is open or closed, amount to no less than 250, in addition to the two automatic valves above named. Then, including the main engines, fan engines, pumping engines, electric light engines, steam steering and capstan engines, there are no less than 40 separate sets, all to be kept in proper going order, requiring all the care Mr. White, the chief engineer, and his able staff are able be bestow upon them. Mr. Yates, of the Royal Naval Corps of Constructors, has had the inspection of the *Benbow*, aided by a staff of assistants, to see that the company fulfils its contract; and any one comparing the *Benbow* with any of the sister ships will see that the full "pound of flesh" has been demanded and readily given, the Thames Company, ever since it built the *Warrior* in 1861, having maintained its reputation as builders of first-class naval constructions, and to this day retains its oldest connections in almost every nation.

The dimensions of the *Benbow* are as follows: Length, 330 ft.; breadth, 68½ ft.; and depth, 37 ft. The engines, supplied by the well-known firm, Messrs. Maudslay, Son and Field, are of the three-cylinder compound type, of 7,500 indicated horse power, and reaching 9,000 with forced draught, giving an estimated speed of 16 knots. The *Benbow*, like other ships of this class, is of the citadel type; this means that the vital portion of the vessel for about half of her length is protected by being included in an iron box armored with 18-in. plates on the side, the top of which at full draught is 2½ ft. above and 5 ft. below water, giving a total depth of 7½ ft. The athwartship bulkheads forming the two ends of the citadel are 16 in. thick; before and abaft these there is an armor deck of 3 in. steel plating. Except for this steel deck, which is calculated to shield all below it from the fire of very heavy guns, the ends of the vessel are unprotected, and in a heavy engagement the superstructure would suffer severely. In the case of other types of war vessels, protection is afforded by a belt of armor plating all fore and aft, being thickest amidships and tapering towards the ends. But it is evident that all that could be done on the dimensions and displacement of the *Benbow* has been done; for in order to provide for the armor deck and additional freeboard of the *Nile* and *Trafalgar*, the displacement tonnage has had to be increased by 2,000 tons, making them 12,000 tons displacement instead of 10,000, as in the *Benbow*.

Recently, in the presence of Mr. Joshua Field and Mr. Hayward, the manager of the Thames Iron Works, the steam was for the first time admitted into the huge cylinders, when immediately the engines in both engine rooms started almost simultaneously, and continued steaming for three hours, thus showing that all was in perfect order and the vessel capable of making her short cruise to Chatham.

THE ARAB AS A HORSEMAN.

THE Arab looks very well on horseback. His saddle is generally red, peaked before and behind, and placed upon several colored felt saddle cloths; the stirrup broadens out so as to give a wide space for the foot to rest on; it is pointed at the corners, thereby enabling the rider to tear the horse's ribs even without the aid of a pointed stick or a steel spear-like spur which he often pushes in between his slipper and the stirrup side. The Arab soldier with his white burnous fluttering behind him, his high red saddle and saddle cloths, his knees high and body bent forward, with his long silver mounted gun flourishing in the air, looks, as he gallops forward in a cloud of dust, the very embodiment of the picturesque, exultant war spirit of past ages, not sobered down by scientific formulas for murder, but free to carry out his own bloodthirsty purposes with as much swagger and ostentation as possible. As a horseman, I believe the Arab to have an excellent seat but an execrable hand; he loves to keep his beast's head high in the air, and so he ceaselessly joggles at the bit, upon which he always rides, until one wonders how the wretched brute can put his feet safely down; yet he does somehow. No one rides camels in this country, but the Sultan is said to have some very fleet dromedaries capable of doing marvellous journeys, and, of course, in these parts of Morocco which merge into Sahara, the camel is indispensable. The Barbary donkey is a short-legged, long-suffering, indispensable beast. It is easy to comprehend the ass existing without Tangier, but it is impossible to conceive Tangier existing without the ass; his patient little body bears every possible burden, from the foreign Minister's wife for example, who sits upon the pack with great dignity, and, preceded by her Moorish soldier, pays calls upon other Ministers's wives, to the latest thing in iron bedsteads to be sold in the public market.—*The Cornhill Magazine.*

ARMOR-PIERCING PROJECTILES.

THE Italian Government is continuing at Spezia the series of experiments on armor-piercing projectiles and armor which were begun last year. Quite lately they have been firing at one of the Creusôt steel plates, and the results obtained with projectiles only 15 cm. (5.90 in.) in diameter are most interesting, more especially as in this case, the French firm of steelmakers, Messrs. J. Holtzer and Co., of Unieux, were in direct competition with Krupp. The result of three shots of each manufacture were as follows:

Gun, 15 cm. (5.90 in.), Armstrong.
Target, steel plate, 48 cm. (18.90 in.) thick, by Schneider (Creusot.)
Projectile, 36 kilos. (79 lb.) to 37 kilos. (81 lb.), empty.
Charge, 18 kilos. (39.6 lb.)
Range, 100 metres (328 ft.)
Muzzle velocity, 570 metres (1,869 ft.)

Holtzer's Chrome Steel.

No. 1 shot penetrated	240 mm. (9.45 in.)	Shots rebounded entire in each case without any appreciable distortion.
No. 2 " "	228 mm. (9.37 in.)	
No. 3 " "	248 mm. (9.76 in.)	

Krupp's Steel.

No. 1 shot penetrated	220 mm. (8.66 in.)	Shots rebounded entire; slight setting up of body but more marked than in Holtzer's.
No. 2 " "	223 mm. (8.78 in.)	
No. 3 " "	226 mm. (8.89 in.)	

SUICIDE IN THE FRENCH ARMY.

THE *Républicain du Lot* states that in consequence of two suicides that have lately taken place in the 7th Regiment of the Line, Col. Combarieu has issued the following regimental order to his corps: "The suicide of Corporal Cazes is the second in one month. In communicating these acts of moral weakness to the regiment in the orders of the day, the Colonel points out that the soldier of every rank belongs to his country, and that yielding to private griefs and putting an end to his existence is an act of cowardice unworthy of the soldier. Regimental discipline is firm and parental. He who has need of encouragement will always find his superior officers ready and willing to advise him. There should be no weakness in the battle and the trials of life. Let us keep our blood to be shed for great causes and for the accomplishment of supreme duties. The Colonel decrees that the late Corporal Cazes shall not be buried with the usual military honors." Col. Combarieu, like the late Sir Peter Laurie, is evidently determined to "put down suicide."

FRENCH PROSPECTS IN TONQUIN.

THE conflict between the civil and the military power in Tonquin begins to be rather warm, and there is no end to the annoyances inflicted by the residents and M. P. Bert's servants on the district military commandants. Things have reached such a length that these opponents no longer greet each other in the street. Many, moreover, have had enough of Tonquin. Despite the peace, fires and fusillades continue in all the provinces, and it is now found that the Annamites, very ready to lay hands on the piastres which emerged from French pockets, are quite refractory in reproducing them. In other words, the taxes yield only ridiculous sums. A letter from Canton represents French prospects in an equally gloomy light, saying: "The work of delimitation advances slowly, and is at any moment likely to be broken up on account of the divergences between the French and Chinese commissions, particularly about North Tonquin. If all go on smoothly to the end, the French, as the Black Flags will certainly not remain quiet, must construct at least thirty forts and a number of stockades. The line of these defences is on ground which is for five months out of the twelve a hotbed of fever and dysentery, and although the garrisons may be comprised of natives, they, too, suffer almost as much as the French troops; besides which, the French officers must be numerous. The visions of frontier trade will prove illusory. The trade of Yunnan is a purely Chinese trade, and, opium excepted, there is not much to buy from or sell to Yunnan. Whether Tonquin will be a secure or precarious possession depends on China, whose feelings towards France are now the reverse of amiable. The yearly cost to France of these conquests will increase the strain on the finances, and as China will certainly not help to keep order on the frontiers the worry and danger will be incessant."

ORDNANCE NOTES.

The English Admiralty have agreed to try Lieut. Col. Hope's 2.5-inch gun, made of special steel. This gun is 10 5 feet long, and fires a 12-pounder projectile with a charge of 19 lbs. of R. L. G.2 powder. Col. Hope calculates the velocity at 4,800 feet and the total energy at 1,695 foot tons, or per inch of circumference of projectile 215.8 foot tons, or per square inch of transverse section of area 346 foot tons. It is worthy of remark that the energy per square inch of transverse section of area of the projectile to be fired from the 110-ton Armstrong gun of 16.25 calibre and 43.6 feet long is 100 tons less than that of this 2.5 inch pop gun. The power of penetration through standard wrought iron armor plate Col. Hope estimates at a little over one foot.

The *Avenir Militaire* (Paris) gives the following account of the Coudray torpedo shell. About four years ago the Minister of Marine authorized Capt. Coudray to carry out a number of experiments on the range at Gaves, near Lorient; and since then the talented inventor has worked unremittingly on the practical application of his ideas. His shells, varying from 27 millimetres to 65 millimetres in calibre, were fired during some trials a few months ago, at a velocity of 150 metres per second. The rebound of the shell from the face of the target was found to be from 20 to 50 centimetres. Since then Capt. Coudray has been able to overcome the rebound by causing the projectile to slide along the sides of the ship without breaking contact. The velocity attained by the shell is now 300 metres per second, and as the last projectiles constructed contained a charge of 18 kilogrammes of guncotton, the effect of the explosion can well be imagined. The torpedo shell is confidently expected by the inventor to supersede the torpedo boat, or at least to make its role an entirely secondary one.

The *Neue Militarische Blatter* (Berlin) contain a long and detailed reply to a French objection against their report of the recent Bucharest trials.

What must be considered the heaviest gun at present in existence has been just shipped at Antwerp for Italy. It was manufactured by Krupp, is 46 feet long, weighs nearly 116 tons without the breech piece, and 118 tons 3¼ cwt. with the breech. It arrived at Antwerp on a specially-constructed carriage, 105 feet long, and running on 32 wheels. It was at first intended to send the gun overland, but the St. Gothard Railway and other Swiss railways objecting on account of its great weight, and fearing for their bridges, the weapon had to be taken to Antwerp, and thence forwarded to Italy by sea. Its ultimate destination is said to be Spezia, where it is to be mounted in one of the ironclad ports guarding that harbor.

So, after many years of good service, Palliser chilled shot is doomed at last. When it began to break up on impingement against steel plates, it was seen that its end was nigh. As diamonds can be cut only with diamond dust, so steel projectiles can alone be relied upon to pierce steel armor plates.

The manufacture of the new Enfield-Martini rifle has been stopped, and we hope that the order to this effect is only preliminary to the introduction of a much more effective weapon. Meanwhile, Maj. Gen. P. Smith, C. B., Col. H. T. Arbuthnot, Col. Hunter, Col. C. G. Slade, Rifle Brigade; Col. J. M. Tongue, Commandant of the School of Musketry, and Lieut. Col. Sir Henry Halford, C. B., forming the Special Commission on Small Arms, are investigating questions connected with the weapon, and directing their attention specially to the breech action favored by Col. Arbuthnot, with the view of superseding the falling block with a bolt action. It would be still better if they extended their inquiries to the progress made by other countries in infantry weapons. Then there might be some chance of seeing our soldiers armed with a trustworthy magazine rifle.—*Admiralty and Horse Guards Gazette.*

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* Royal Baking Powder Co., 106 Wall st., New York.

A SAFE INVESTMENT

For both large and small sums of money is offered in the DEBENTURE BONDS of the NEBRASKA LOAN AND TRUST CO. and the CENTRAL LOAN AND LAND CO. These bonds are secured by mortgages on productive real estate after the manner of securing National Bank notes, bear 6 per cent. interest and run 10 years. Experience proves that they are one of the safest investments ever devised, and they are commended to the attention of officers of the Army and Navy.
For sale by JOHN ROCKWELL,
20 Nassau St., New York.

AN EXTRAORDINARY RAZOR

Has been invented by the Queen's own company of England. The edge and body is so THIN and FLEXIBLE AS NEVER TO REQUIRE GRINDING and hardly ever setting. It glides over the face like velvet, making shaving a luxury. It is CREATING A GREAT EXCITEMENT in EUROPE among experts, who pronounce it PERFECTION. $2 in buffalo handle; $3 in ivory. Every razor, to be genuine must bear on the reverse side the name of NATHAN JOSEPH 641 Clay Street, San Francisco, the only place in the United States where they are obtained. Trade supplied; sent by mail 10c. extra or C. O. D.

NEW ENGLAND MUTUAL
Life Insurance Company,
OF BOSTON, Mass.
Assets, ... $17,846,546.65
Liabilities, ... 15,238,761.16
Total Surplus, . $2,607,785.49
This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.
Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.
Pamphlets explanatory of the New Feature may be had on application at Compy's Office,

FOREIGN ITEMS.

ADVICES from Puerto Cortes, Honduras, state that on Oct. 10, Gen. E. Delgado, Lieut. Col. Juda, Comdr. Miguel Cortez and Lieut. Gabriel Loyoro were taken from the prison at Comayagua and shot, in accordance with sentence pronounced by court-martial. Gen. Delgado and his comrades were leaders in the recent filibustering expedition that descended upon the coasts of Honduras, in the interest of ex-President Soto.

THERE were employed in the pacification of Burmah up to July 12, including the three native regiments then being sent, 17,022 troops in Upper and 7,162 troops in Lower Burmah. The list of casualties during the campaign up to the middle of July among British troops was—Killed in action, 16; died of wounds, 14; died of disease, 136; wounded, 87; invalided, 549. Native troops—Killed in action, 26; died of wounds, 16; died of disease, 134; wounded, 119; invalided, 920—the grand total being thus 1,507.

THE Chinese Government has recently engaged the services of several additional English officers for the Imperial Navy.

THE spy mania continues in France. A man, alleged to be a German officer, has been arrested at Brest. He was found in possession of a compass, maps, and topographical plans. The supposed spy, awaiting a regular inquiry into his case, has been lodged in jail by the Public Prosecutor.

A LARGE number of officers and men belonging to the Russian torpedo service have been sent from Cronstadt and St. Petersburg to the Black Sea, and orders have been given to place the torpedo armaments there on a formidable footing. In excess of the torpedo-boats specially built for the Black Sea, the Russian Government despatched thither by railway last autumn 50, constructed after the last Turkish war, which have been lying idle at Sebastopol and Nicolaeff. They are to be organized into flotillas, and kept ready for service during the winter, one flotilla being stationed at Batoum.

GENERAL BOULANGER has called upon the Treasury for the sum of $140,000 for the purpose of having painted a series of battle pictures, wherein the past glories of 240 regiments are to be limned to order. Each corps is to have its principal battle scene framed and hang up in the mess room or its equivalent.

THE Russians seem to be pushing their railroad enterprises in far off Turkestan with something akin to American energy. Within a month they have crossed the Murghab River at Merv, very near the Afghanistan border, and but 500 miles of road must yet be located to connect the Caspian Sea with the Indian Ocean. The construction of this missing link of railway will be difficult and very expensive work: for the line will have to cross the mountainous watershed dividing the rivers of the Indian Ocean from those flowing into the Caspian and northward; and these mountains are high and abrupt and the various ranges cover a wide extent of country.

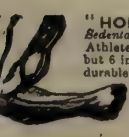
Proposals for Mineral Oil.

JEFFERSONVILLE DEPOT, Q. M. DEPT., JEFFERSONVILLE, IND., October 11, 1886.

SEALED PROPOSALS in triplicate, subject to the usual conditions, will be received at this office until 11 o'clock A. M., (Central Standard time.) on Thursday, the 11th day of November, 1886, at which time and place they will be opened in the presence of attending bidders, for furnishing and delivering 100,000 gallons Mineral Oil, at the Jeffersonville Depot, Indiana, in cases of two five-gallon cans each.



Deliveries to commence by December 1, 1886, and be completed by January 15, 1887, in such quantities, and at such times, between those dates, as may be agreed upon.

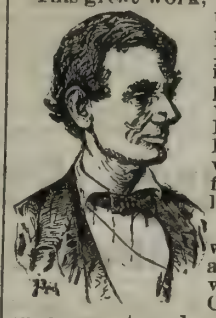
The Government reserves the right to reject any or all proposals.

Preference given to articles of domestic production and manufacture, conditions of price and quality being equal, and such preference given to articles of American production and manufacture produced on the Pacific coast to the extent of the consumption required by the public service there.

Blanks and full information as to bidding, etc., will be furnished by this office on application.

RUFUS SAXTON,
Assistant Quartermaster General, U. S. Army

"HOME EXERCISER" *for Brain-Workers and Sedentary People.* Gentlemen, Ladies, and Youths; the Athlete or Invalid. A complete gymnasium. Takes up but 6 inches square floor-room; something new, scientific, durable, comprehensive, cheap. Send for circular. "HOME SCHOOLS FOR PHYSICAL CULTURE," 16 East 14th St. and 713 5th Ave., N. Y. City. Prof. D. L. Down. Wm. Blaikie, author of "How to Get Strong," says of it: "I never saw any other I liked half so well."



A GREAT ENTERPRISE.

THE CENTURY MAGAZINE, with its enormous circulation (edition of November number is a quarter of a million) and great resources, has never undertaken a more important work than the one which will be its leading feature during the coming year. This is a history of our own country in its most critical time, as set forth in

THE LIFE OF LINCOLN,

BY HIS CONFIDENTIAL SECRETARIES,
JOHN G. NICOLAY and COL. JOHN HAY.

This great work, begun with the sanction of President Lincoln, and continued under the authority of his son, the Hon. Robt. T. Lincoln, is the only full and authoritative record of the life of Abraham Lincoln. Its authors were friends of Lincoln before his presidency; they were most intimately associated with him as private secretaries throughout his term of office, and to them were transferred upon Lincoln's death all his private papers. Here will be told the inside history of the civil war and of President Lincoln's administration,—important details of which have hitherto remained unrevealed, that they might first appear in this authentic history. By reason of the publication of this work,

THE WAR SERIES,

which has been followed with unflagging interest by a great audience, will occupy less space during the coming year, but will by no means be entirely omitted. Articles on Gettysburg, Chickamauga, Sherman's March, etc., with stories of naval engagements and prison life, will appear.

NOVELS AND STORIES

include a novel by Frank R. Stockton, two novelettes by George W. Cable, stories by Mary Hallock Foote, "Uncle Remus," Edward Eggleston, and other American authors.

SPECIAL FEATURES

(with illustrations) include a series of articles on affairs in Russia and Siberia, by George Kennan, author of "Tent Life in Siberia," who has just returned from a most eventful visit to Siberian prisons; papers on the Labor Problem; English Cathedrals, by Mrs. Van Rensselaer; Dr. Eggleston's Religious Life in the American Colonies; Men and Women of Queen Anne's Reign, by Mrs. Oliphant; Clairvoyance, Spiritualism, Astrology, etc., by Rev. J. M. Buckley, D.D., Astronomical papers; Articles on Bible History, etc.

THE NOVEMBER CENTURY.

READY NOV. 1st. EDITION, 250,000 COPIES.

CONTAINS:

First Chapters of The Life of Lincoln,

Described above, including the editorial presentment and author's preface; with a new frontispiece portrait of Lincoln, and nineteen illustrations. This instalment, entitled "Lincoln as Pioneer," gives the ancestry of the President, and the relation between the Lincoln family and Daniel Boone; also Lincoln's boyhood and early manhood, and a graphic account of the frontier States in the earliest days.

Old Chelsea.

By Dr. B. E. Martin. Describing a picturesque suburb of London, once the home of Queen Elizabeth, Nell Gwynn, George Eliot, Carlyle, and other famous characters; illustrated by Seymour Haden and Joseph Pennell.

Machine Politics In New York.

BY THEODORE ROOSEVELT.

Including chapters on "Heelers," "The Social Side," "The Liquor-Seller in Politics," "Boss Methods," etc. etc.

The Fate of a Voice;

A STORY BY MARY HALLOCK FOOTE,

Author of "The Led-Horse Claim," "John Bodewin's Testimony," etc., with one full-page illustration by the author.

Gen. Hooker's Appointment and Removal.

An anonymous article by a gentleman who was at army headquarters in Washington at the time of the events described.

First Chapters of Stockton's New Novel.

This love-story of real life, "The Hundredth Man," is different from anything the author has yet undertaken. It will run through twelve numbers of THE CENTURY.

The Need of Trade Schools.

By Richard Auchmuty, founder of the New York Trade Schools, with illustrations.

Gettysburg.
The First Day's Battle.

By Gen. Henry J. Hunt, Chief of Union Artillery, with Maps of the Gettysburg Campaign, by Gen. Doubleday, and numerous illustrations.

An Art Paper.

BY CHARLES WALDSTEIN,

On the Temple of Diana of the Ephesians, and other recent discoveries; in which the author identifies an ancient silver plate lately found in France as the work of the silversmiths of Ephesus, whose industry is described in the New Testament. Illustrated.

The Departments

include editorials on "The American Militia," "The Congressional Balance-sheet," etc.; there are open letters on "A Siberian Tragedy," by George Kennan, "Time-Reckoning for the Twentieth Century," by Principal Grant, of Kingston, "Genius and Matrimony," "The Architectural League of New York," with short verse, a satire by Bill Nye, etc., in "Bric-a-Brac."

Subscription price, $4.00 a year, 35 cents a number. Dealers, postmasters, and the publishers take subscriptions. Send for our beautifully illustrated 24-page catalogue (free), containing full prospectus, etc.

THE CENTURY CO., NEW YORK.

The Crown Prince will open the new harbor at Wilhelmshaven, Germany's naval port on the North Sea, on Nov. 10.

The average height and chest measurement of the English rank and file have steadily decreased during the past ten years. Thirty years ago it was no unusual thing for a crack corps to have an average of five feet eight and a half inches.

Contrary to the expectations of most people, H. M. S. *Impericuse* has turned out an unusually steady ship at sea. She is said to have only rolled two degrees in the bay, when her frisky consort, the *Colossus*, was doing 30. She steers, too, remarkably well.

"Figure targets," it is stated, are to be introduced in the English Volunteer musketry course, and in future all Volunteers will be required to fire their classes at targets on which figures are painted to represent one or more men.

Messrs. Bullinant's newly invented torpedo net spars are being tested on board the *Dido* previous to being supplied to the *Mercury*. Being made of steel, it is claimed for these spars that they are lighter, less cumbersome, and not so liable to be splintered as wooden ones.

The unauthorized publication of Lord Charles Beresford's memorandum to the Admiralty, showing the weakness of the British Navy, has caused a searching inquiry to be made by the Admiralty Office with a view to finding out how the matter came to be made so public. Thirty proofs of the document were privately printed for official use and twenty-nine of them have been satisfactorily traced. It is probable that the delinquent will be discovered.

The Chilian Government has ordered another formidable man-of-war according to designs of Sir E. J. Reed. It is to be a "protected cruiser" of 4,500 tons, with a speed of nineteen miles. The armament will consist of two 25-ton 10-inch guns, one 14-ton 8-inch, two 6-inch, four 6-pounders, eight mitrailleuses, and eight tubes for firing Whitehead torpedoes. The cost of the vessel, according to designs which were approved by the late Admiral Lynch and Capt. J. J. Latorre, is from $1,200,000 to $1,500,000.

General Sir Frederick S. Roberts, Commander-in-Chief of the British forces in India, has succeeded the late General Sir H. T. Macpherson as commander of the army of occupation in Burmah.

The *Temps* (French) says: "Lord Randolph Churchill in his Dartford speech announced England's abandonment of her active influence in European politics, owing to the disproportion between her army and those of other European nations. We regret this in the cause of liberty and because it renders France more isolated."

A despatch from Paris states that two Germans recently arrested at Fère-Champenoise have admitted that they were engaged in taking plans of forts and the various routes in France for the German Government, and that for each letter containing information regarding forts and boats sent to Germany they received a sovereign.

On Saturday last, says the *Italia Militaire* (Rome), a magnificent spectacle might have been witnessed from the heights of Genoa. A sham attack was made on forts S. Martino, S. Tecla, and Richelieu, the guns of which replied with great vigor. During the manœuvres, which lasted until 8 o'clock in the evening, the electric light was extensively used.

Upon requisition any Commissary in the U. S. will furnish you with Vallette and Mitchell's
"Echo,"
"A five cent cigar fit for a gentleman to smoke."

R. W. Tansill & Co., Chicago, are now making especially for the Officers of the Army and Navy a new and very fine Havana hand-made cigar, known as "Tansill's Reina." They are put up in beautiful packages of 25 cigars, each cigar banded. They come in three sizes, 4¼, 4⅛, and 4¾ inches, while their moderate cost, viz. $65, $70, and $75 per thousand brings them within the reach of the entire Service.

BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

MARRIED.

Adams—Bennett.—At Worcester, Mass., October 19, Mr. Harry L. Adams, to Hattie M., daughter of Boatswain Thomas Bennett, U. S. Navy.

Send postal card for illustrated descriptive pamphlet, showing size of grains of Powder Mailed FREE.

Detachable Magazine, charged.

Remington-Lee Musket with Magazine attached.

The Remington-Lee Detachable Magazine Rifle.

Recommended by the U. S. Magazine Arms Board,

First in Order of Merit for Trial in the Field,

AS A SERVICE ARM FOR THE U. S. ARMY.

A single Breech Loader, that can be instantaneously changed into a perfectly safe Magazine Arm, giving an unequalled rapidity of fire.

Smaller number of component parts than any other Arm ever made. Every part simple and strong.

Magazine may be attached or detached in one second, and the Breech System dismounted or assembled in ten seconds.

The Rifle weighs 8¼ lbs. without bayonet, and can be used as a Sporting Arm.

The possibility of a premature discharge through the bullet of one cartridge coming in contact with the primer of another, from the shock of continuous firing, the simple performance of ordering arms, or the effects of a long march—incidents of danger inseparable from Repeating Arms that carry their cartridges in Tubular Magazines under the barrel or in the butt-stock—is absolutely prevented; the position of the cartridges in the Lee detachable magazine not only assuring safety against explosion by impingement but against the deformation of the projectile by "upsetting."

RELATIVE RECORDS of the three arms recommended in order of merit by the late U. S. Magazine Arms Board:

	Remington-Lee Magazine Rifle.	*Chaffee-Reece.*	*Hotchkiss.*
Two minutes' firing as repeater with accuracy	68 shots, 41 hits.	38 shots, 25 hits.	31 shots, 14 hits.
Two minutes' firing as single loader	46 shots, 31 hits.	41 shots, 15 hits.	45 shots, 21 hits.

THE LEE MAGAZINE RIFLE is the only Military Repeating Arm, which has demonstrated its superiority in RAPIDITY with ACCURACY as a REPEATER over its execution as a SINGLE LOADER.

Descriptive pamphlets in English, Spanish, and French sent on application.

Present capacity of production 400 stand per day.

E. REMINGTON & SONS, Ilion, New York, U. S. A.

ARMY AND NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 15. WHOLE NUMBER 1211. | NEW YORK, SATURDAY, NOVEMBER 6, 1886. | SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

PRESIDENT CLEVELAND has, in accordance with the usual custom, designated Thursday, November 25, 1886, as the day of National Thanksgiving and prayer.

"MARK TWAIN" will read, November 11, before the Military Service Institution of the U. S. at Governor's Island, a paper entitled, "Some War Experiences of a Connecticut Yankee at King Arthur's Court."

THE Chief of the Navy Ordnance Bureau is elaborating for the Navy a scheme for awarding medals and prizes for proficiency in marksmanship at target practice similar to that now in vogue in the U. S. Army and certain foreign services. It is to be hoped that the plan will receive the sanction of the Secretary of the Navy.

MAJOR-GENERAL O. O. HOWARD, under recent instructions from the Lieutenant-General, has revoked his order detailing Captain J. A. DARLING, 1st Artillery, as Inspector of Rifle Practice for the Department of California. This, it is presumed, is in accordance with the rule made at the Headquarters of the Army in 1883 that selections of Inspectors of Rifle Practice will not include the colonel or senior officer commanding a company.

MAJOR-GENERAL SCHOFIELD this week made definite arrangements for the protection of the great Statue of Liberty and the police of Bedlow's Island, which is now one of the most popular resorts in the vicinity of New York. The ceremonies of Thursday, October 28, somewhat marred by the weather, were fitly terminated on Monday evening of this week by the lighting up of the statue and a magnificent display of fireworks, witnessed by thousands.

THE bids for the construction of the five new vessels of war will be opened Nov. 24. The indications are that a good number will be presented, though none have yet been received. The custom of the contractors has been to hand their bids in person a few hours before the time for opening them. The annual estimates of the Navy Bureau of Ordnance will contain an item of $1,500,000 to be expended in the manufacture of guns and other ordnance equipments for the new vessels authorized by law. The Secretary of the Navy has endorsed this recommendation. The estimates of the Secretary of the Navy will be much below those of last year, since no money is asked for new vessels of war.

THE San Francisco *Post* says: "A Court-martial was held at David's Island, N. Y. H., recently, to try a drummer who 'did wilfully beat the bass drum out of time at morning practice.' The hardened criminal was convicted, and sentenced to fifteen days' imprisonment and $10 fine." It seems well to add that the soldier in question was convicted at the same time of abusing and using opprobrious names to a Sergeant, and threatening to take the life of the said Sergeant. The sentence, therefore, which is correctly stated, was a remarkably lenient one. It is a small matter, except in so far that the public, by such partial statements of facts, are given erroneous impressions as to military proceedings and punishments.

THE progress reports from the Sandy Hook proving grounds for the month of October show very satisfactory results with the 12-inch mortar, except as to accuracy, one of the principal objects to be attained. Difficulty was experienced in getting a proper form of sabot. Inaccuracy, however, seems to be inherent to the muzzle loading mortar. For effective work in future the breech-loading mortar will have to be depended upon. The Department has contracted with the Midvale Steel Works for three steel forgings (trunnion rings and trunnion beds) for an 8-inch rifle carriage, and with THOMAS C. ORNDORFF, of Worcester, Mass., for 5,000 cartridge belt plates. Bids have been invited for supplying the Department with 2,000 COLT'S Army revolvers of .45 calibre and with a number of spare parts thereto, and for 300 FOGARTY horse pads.

GENERALS PORTER, LOCKE and DURYEA, of New York, make a strenuous appeal to the G. A. R. and others to assist in placing "some more fitting testimonial of his merit over the grave of Gen. SYKES, than the plain pine board which now records only his name and the date and place of his death." The committee hope all will give as they are able "no matter how small the contribution," and ask that answers enclosing subscriptions, addressed to the Treasurer (General DURYEA, 298 South street, New York City,) or any of the committee, be forwarded as soon as possible, in order that a monument in accord with the amount received may be erected over General SYKES'S grave in the cemetery at West Point, N. Y., as soon as possible after February 8, 1887, the seventh anniversary of the date of his death." The appeal is a worthy one, for who can forget the gallant SYKES, of the Regular Brigade and the 5th Army Corps, and we trust it may be answered promptly and liberally.

UNDER the title "A Revolution in the Art of War: No More Fortresses," the *France Militaire* devotes a long article to the river gunboat *Farcy*. With this boat, it seems, M. EUGENE FARCY, Deputy of the Seine Department, lately undertook a journey in the canals of the Upper Loire, from Paris to Corbeil, Melun, Fontainebleau, and Orleans, in order to prove that small vessels mounting very heavy guns can be made available for the interior defence of the country. Instead of spending millions on extensive fortifications which can only be used on special occasions, it would be much more practical, this paper thinks, to purchase 100 of these boats, at a cost of about two millions of francs, and divide them into small squadrons of five or ten among the principal rivers of France. Had ten such boats been present in Strasburg, and as many in Metz, both towns would still belong to France. Had ten been available for the defence of Orleans, the Prussians could never have made their way into the city.

LIEUTENANT W. R. HAMILTON, 5th U. S. Artillery, continues in the Chicago *Current* of Oct. 30 his excellent series of articles on the Army and the People. He expresses the opinion that a higher class of men is needed than are found in the ranks of the line to-day, and also a more general education for both officers and men. But, he argues, that better class cannot be obtained unless we pay more. Yet the question of expense is the one that the average Congressman does not believe in. It, however, will be accomplished by the aid of the militia, who, while working at the soldier's profession from a spirit of worthy ambition and patriotic motives, at the same time are citizens enough to cast votes, and discuss Congressmen snd politicians at their pleasure. In conclusion Lieutenant HAMILTON remarks that "we need for the private soldier and non-commissioned officer a more permanent position and a higher standing than he now possesses." Few will dispute this, especially in the case of the non-commissioned officer whose standard, it must be admitted, is not as high as it ought to be, although high enough, possibly, in comparison with his privileges and his pay. His claims to a fuller recognition have been presented times without number in these columns, but so far without avail. Persistent hammering sometimes and in some cases accomplishes wonderful results. With the "average Congressman" it is too often a dead failure.

WE have before us a hektograph letter of which the following is a copy:

WASHINGTON, D. C., Oct. 4, 1886.

DEAR SIR: I beg to be allowed to present for your information the enclosed quotations of Messrs. Schneider and Co., of Le Creusot, France, for shafting, which you may find useful in making up your data in bidding for the construction of the new cruisers and gunboats mentioned in the advertisement of the Navy Department, dated Aug. 21, 1886.

Very respectfully,
F. M. BARBER, Agent, 1,101 5th st., N. W.

We have also before us another letter dated, "The Portland, Washington, D. C.," and signed, "F. M. BARBER, agent for CREUSOT." The signature will be recognized as that of an officer of our Navy who was a member of the Advisory Board which determined the character of our new cruisers. Our opinion has been asked as to the propriety of an officer of the Navy acting in the double capacity as an agent of the Government in deciding as to the requirements for our new vessels and also as agent of a foreign firm seeking to furnish material for those vessels We publish these letters and ask the judgment of the Navy as to this. The judgment of Congress will also be asked for, and, if it should chance to be adverse to Lieut. Commander BARBER and other officers who, we have reason to believe, have placed themselves in a similar position, the result will be injurious to the Navy. American manufacturers, and the American representatives of foreign business houses, other than that of CREUSOT, have a right to ask that they be treated with absolute fairness in the matter of bidding against each other for the contract for furnishing the material for our men-of-war. They feel—and in our judgment, with reason—that they are not treated with fairness, when they are brought into competition with a house having the special advantages for obtaining information which follow the employment of a member of the Naval Advisory Board in their service. We published, October 23, the complaint of the manufacturers that they were not able to obtain from the Navy Department the information they required before bidding, as to the shapes and weights of armor plates, etc. They further complain that Messrs. Schneider through their agent at Washington, have been able to obtain the information withheld from them. They have the usual commercial suspicions as to the meaning of this, and it is unfortunate that such suspicions should be directed against naval officers. We do not know that there is any regulation, the letter of which actually forbids an officer from performing the service Lieutenant-Commander BARBER has undertaken. But should not an officer in such a case hold himself like Cæsar's wife, as one against whom suspicion must never be directed by any act of his?

PERSONAL ITEMS.

CHAPLAIN JEREMIAH PORTER, U. S. A., has left Chicago for Beloit, Wisconsin.

PAYMASTER J. W. WHAM, U. S. A., visited West Point this week, and disbursed liberally.

MAJOR JOHN I. RODGERS, 1st U. S. Artillery, has assumed command of Alcatraz Island, Cal.

CAPTAIN ALLEN SMITH, 4th Cavalry, has left Fort Lowell, Arizona, on a two months' visit East.

COLONEL R. E. A. CROFTON, 15th U. S. Infantry, was expected at Fort Buford, Dakota, this week.

COLONEL W. F. DRUM, U. S. A., and Mrs. Drum, have been visiting friends at Columbus Barracks, O.

CAPTAIN A. E. WOODSON, 5th U. S. Cavalry, has left Fort Reno, I. T., on leave, to join in February next.

CAPT. W. W. DAUGHERTY, 22d U. S. Infantry, comes East from Fort Lewis, Col., on a four months' leave.

LIEUTENANT JOHN GUEST, 8th Cavalry, has changed base from Fort Ringgold to Fort Brown, Texas.

CAPTAIN OWEN J. SWEET, 25th U. S. Infantry, is a recent addition to the garrison circle of Fort Meade, Dakota.

LIEUTENANT-COLONEL E. G. BUSH, 11th Infantry, goes to Fort Yates, D. T., to command that post and his regiment.

GENERAL O. B. WILLCOX, U. S. A., has forbidden any hunting on the military reservation of Fort Leavenworth.

LIEUTENANT C. H. BARTH, 12th U. S. Infantry, rejoined at Fort Niagara, N. Y., this week from a visit to New York.

GENERAL T. M. VINCENT, U. S. A., returned to St. Paul this week, and resumed the helm of the A. G. O. Dept. of Dakota.

CAPTAIN J. R. BRINCKLE, 5th U. S. Artillery, took command of Light Battery F, at Fort Hamilton on Monday of this week.

CHAPLAIN J. A. M. LA TOURETTE, U. S. A., on sick leave from Fort Union, N. M., will spend a portion of the winter abroad.

MAJOR C. B. THROCKMORTON, 2d U. S. Artillery, on leave from Jackson Barracks, La., is visiting relatives in Washington.

CAPTAIN GUSTAVUS VALOIS, 9th U. S. Cavalry, lately at Sharon Springs, N. Y., has arrived in Germany on a visit to friends.

GERONIMO and comrade bucks are reported as well satisfied with Fort Pickens, Fla., so far. What they may be hereafter remains to be seen.

CAPTAIN E. A. VAN ANDRUSS, 1s U. S. Artillery, has returned to Alcatraz Island, Cal., from leave, and resumed command of his battery.

LIEUTENANT R. D. POTTS, 3d U. S. Artillery, completed his duties at Fort McHenry, Md., this week and went to Washington Barracks, D. C., for duty.

LIEUTENANT E. S. FARROW, 21st U. S. Inf., who has much improved in health, was expected to arrive at Fort Bridger, Wyo., this week for duty with his company.

CAPTAIN W. F. RANDOLPH, 5th U. S. Artillery, joined at or. Columbus, N. Y. H., with his battery on Wednesday, and as senior officer takes command of that post.

SURGEON W. D. WOLVERTON, U. S. A., returned to Washington Barracks, D. C., early in the week from a short hunting expedition in the neighborhood of Buckland and Auburn, Va.

MAJOR C. H. WHIPPLE, Paymaster, has returned to Fort Keogh from a visit to St. Paul, where he went to meet his father and mother, Bishop and Mrs. Whipple, who were in the recent railway accident but fortunately were uninjured.

MAJOR A. A. WOODHULL, Surgeon, U S. A., after a pleasant tour of duty at David's Island, N. Y. H., goes to Fort Leavenworth to report to Gen. Willcox for assignment to a post in the Missouri. He will be replaced at David's Island by Surgeon J. V. D. Middleton.

THE Secretary of the Interior has received through Mr. Edward F. Leigh, of Baltimore, Md., a large red clay pipe which it is said was used by Black Hawk, a noted chief of the Sac and Fox Indians, during Indian councils. The pipe has been sent to the National Museum.

SEVERAL of the French gentlemen who came over to assist in the inauguration of the Statue of Liberty occupied themselves on Tuesday in visiting the polls in New York City and examining into the machinery of popular election as conducted in this country. Various attempts were made to persuade them to vote the regular ticket, in reply to which they exhausted their English in saying: "I am French."

A WRITER in the New York *Times*, referring to Representative George D. Tillman, of South Carolina, an opponent of President Cleveland, says: "Mr. Tillman is one of the very few private soldiers left out of the Army of the Confederate States. He was an Artilleryman, who served in the ranks from 1862 till the surrender. The only other private of the Confederate Army that I have ever met was Tom Deslecaux, of Raleigh, N. C."

DR. I. W. CHISHOLM, of New Concord, visited the mother of Gen. P. H. Sheridan at Somerset the other day, and the aged lady told the doctor that her illustrious son, the General, was born at Albany, N. Y., March 6, 1831. For some years past there has been a hot discussion as to the birthplace of General Sheridan, and it has been confidently asserted that he first saw the light of day at Somerset, Perry County, Ohio. The mother of the great General has now settled the question, and Major Bickham, of the Dayton *Journal*, was right when he said Gen. Sheridan was not a native of the Buckeye State.—*Zanesville (O.) Courier.*

GENERAL W. S. HARNEY, U. S. A., was a guest this week at the Hotel Rennert, Baltimore.

LIEUTENANT T. C. DAVENPORT, 4th U. S. Artillery, left Fort Monroe on Monday on a short leave.

LIEUTENANT A. G. TASSIN, 12th U. S. Infantry, visited friends in Wilbraham, Mass., this week.

CAPTAIN E. T. COMEGYS, Assistant Surgeon, U. S. A., left Sackett's Harbor on Tuesday on a week's leave.

CAPTAIN C. C. DE RUDIO, 7th U. S. Cavalry, and family, lately in Philadelphia, have joined at Fort Yates, Dakota.

CAPTAIN F. G. SMITH, 4th Art., now at Fort Douglas, Utah, will, it is expected, join at Fort Adams, R. I., next week.

MAJOR DAVID D. VANVALZAH, 20th U. S. Inf., under his recent promotion, takes post at Fort Assiniboine, Montana.

LIEUTENANT H. L. HASKELL, 12th U. S. Infantry, left David's Island on Thursday in charge of a squad of recruits for Fort Monroe.

CAPTAIN J. L. FOWLER'S Troop, M, 2d U. S. Cav., marched out of Fort Klamath, Oct. 21, for Fort Bidwell, Cal., its new station.

COLONEL J. B. PARKE, Major, 16th U. S. Inf., was expected in San Antonio this week to report to Gen. Stanley for assignment to a post.

CAPTAIN H. F. BREWERTON and his battery of the 5th U. S. Art., from Fort Schuyler, were posted at Bedlow's Island this week to guard the statue.

COLONEL O. C. BOSBYSHELL read on Wednesday before the United Service Club of Philadelphia an interesting paper on "Hatteras—Winter of 1861-2."

LIEUTENANT O. M. SMITH, 22d Inf., Aide to Gen. Stanley, lately visiting in New York City, will return to San Antonio towards the end of November

COLONEL W. P. CARLIN, 4th U. S. Infantry, has been presiding over an important General Court-martial, which met at Vancouver Barracks on Wednesday last.

COLONEL A. C. WILDRICK, U. S. A., changed base this week from Fort Schuyler to Fort Hamilton and Gen. R. H. Jackson, U. S. A., from Fort Columbus to Fort Schuyler.

LIEUTENANT J. H. GIFFORD, 2d U. S. Art., and wife, who have been visiting at Fort Monroe, go from there to Indiana and will rejoin at Little Rock Barracks next week.

LIEUTENANT C. B. SATTERLEE, 3d U. S. Art., after a pleasant tour of temporary duty at Fort Schuyler, N. Y. H., rejoined his battery at Washington barracks early in the week.

MISS ELLEN SPRAGUE STAGER, daughter of General Anson Stager, is engaged to Lord James Arthur Wellington Foley Butler, brother and heir presumptive of the Marquis of Ormond.

COLONEL T. A. DODGE, U. S. A., retired, registered at the Hotel Brunswick this week, and has entered a saddle horse at the fourth annual exhibition of the National Horse Show of America at Madison Square Garden.

GENERAL J. H. POTTER, U. S. A., retired, visited old friends at Fort Leavenworth a few days ago and went from there to Columbus, O., where Mrs. Potter is visiting her parents. They will afterwards go to Washington.

LIEUTENANT S. E. ALLEN, 5th U. S. Art., under his recent promotion, remains at Governor's Island, much to the satisfaction of his many friends there. He relinquished staff duty at Major-Gen. Schofield's headquarters on Wednesday.

ALL the officers ordered to New York by General Schofield to assist in the inauguration ceremonies returned to their posts this week, except 1st Lieut. M. F. Walz, 12th U. S. Inf., who remains for a short while with Gen. Stone to close up accounts.

GENERAL HENRY B. CARRINGTON, U. S. A., of Boston, has presented to the library of Yale University the original MS. of an address delivered by the Rev. James Beebe, Yale class of 1745, to the soldiers he led to Canada in the French and Indian War.

CAPTAIN H. C. CUSHING, 4th U. S. Artillery, who came on to Governor's Island last week with his battery to participate in the inauguration of Oct. 28, was prevented by sickness from returning to Fort Trumbull and remained at the Island for treatment.

COLONEL ELISHA I. BAILY, U. S. A., the senior officer of the Medical Department, in point of service, has, says a San Francisco paper, many friends on the Pacific Coast, who would like to see him get the vacant position of Surgeon-General. He will be retired for age, Nov. 14, 1888.

THE *Commercial Gazette*, referring to the recent marriage at Piqua, O., of Lieut. W. L. Simpson, 3d U. S. Cav., to Miss Marion O. Wood, says: "This loses to Piqua one of its most beautiful and accomplished girls. The Lieutenant and his bride go to Chicago, thence to Michigan."

ADOLPH SUTRO, of tunnel fame, has offered to present each of the 40,000 school children of San Francisco with a tree, to be planted on Nov. 27. Major Gen. Howard has agreed to furnish a tract of land in the Presidio Reservation, where they may be on that day and begin the first general tree planting by the public in California.

THE Washington *Critic* says: "It is learned that Daniel Carrigan, late chief clerk of the Surgeon-General's Office, who was convicted of defrauding the Government out of considerable sums by fraudulent vouchers, and who was taken Thursday to the Albany Penitentiary to serve a six years' sentence, was one of the holders of the ticket which drew the capital prize in the Louisiana lottery. It seems that while Carrigan was confined in the District jail he played the religious dodge and attracted the interest of religious people, who vainly endeavored to secure his pardon, and liberally supplied him with money with which to relieve the discomforts of imprisonment. He expended this money in lottery and policy tickets through outside confederates with the result stated."

CAPTAIN W. A. KOBBÉ, 3d U. S. Artillery, left Fort Monroe, Va., on Tuesday, on a short leave.

CAPTAIN H. S. BROWN, 12th U. S. Infantry, lately in New York, is visiting friends at Worcester, Mass.

LIEUTENANT J. J. DOUGHERTY, 11th U. S. Infantry, was a guest at the Planter's Hotel, St. Louis, this week.

MAJOR W. H. GARDNER, Surgeon U. S. A., returned to New York this week and located at the New York Hotel.

MAJOR C. I. WILSON, Paymaster U. S. A., was in New York City this week, quartering at the Grand Hotel.

SECRETARY OF WAR ENDICOTT passed through New York on Tuesday on his way from Boston to Washington.

MISS AMY HEARD, a niece of Gen. B. F. Butler, was married at Washington, Nov. 3, to Mr. Russell Gray, of Boston.

LIEUTENANT A. L. WAGNER, 6th Infantry, now at Fort Douglas, Utah, will shortly join at Fort Leavenworth for duty.

CAPTAIN GAINES LAWSON, 25th U. S. Infantry, will leave Fort Snelling, Minn., in a few days, on a two months leave for the benefit of his health.

LIEUTENANT C. C. HEWITT, 19th U. S. Infantry, returned from abroad on Monday, and is due at Fort Clark, Tex., towards the end of November.

ASSISTANT-SURGEON W. P. KENDALL, U. S. A., on leave from Fort McDermit, Nev., was in New York this week with quarters at the Gilsey House.

MRS. GRANT has returned to her residence, 3 East Sixty-fourth street, New York. With her as usual are Col. and Mrs. Fred Grant and their children.

MAJOR JAMES BIDDLE, 6th Cavalry, who was recently relieved from command of Fort Myer, has moved into Washington, and is located at 2023 I St., N. W.

CAPTAIN J. B. GIRARD, Assistant Surgeon, U. S. A., after a pleasant tour through France and Italy, has resumed charge of medical matters at Fort Schuyler, N. Y. H.

ASSISTANT SURGEON H. S. T. HARRIS, U. S. A., has changed base from San Antonio to Fort Clark, and Assistant-Surgeon G. L. Edie, from Fort McIntosh to San Antonio.

THE engagement is announced of Lieut. P. A. Bettens, Jr., 9th U. S. Cavalry, to Miss Louise Dewees, of Hagerstown, Md., daughter of the late Maj. T. B. DeWees, U. S. A.

BY mutual transfer this week Lieutenant W. P. Newcomb, 5th U. S. Artillery, remains on duty at Fort Columbus, and Lieutenant J. W. Ruckman at Fort Hamilton, N. Y.

THE family of Capt. L. H. Orleman, U. S. A., retired, left Brooklyn last week for their home at Palmer, Fla. Capt. Orleman will remain in New York for a week or two longer.

CAPTAIN S. A. DAY, 5th U. S. Artillery, will leave Fort Hamilton next week on a visit to friends in Virginia. He did not go West as expected, his brother who was recently injured, being much improved.

CAPTAIN SAMUEL M. MILLS, 5th U. S. Artillery, one of the officers whose accounts as disbursing officer of the Signal Corps were disapproved by the Second Comptroller, has been ordered to Washington in that connection.

THE suit against Gen. Adam Badeau in connection with consular fees, is set down on the calendar for trial in the U. S. District Court on Nov. 10. Counsel for Gen. Badeau claim that the question at issue is simply a point of law.

MRS. FRENCH, formerly Miss Marion Ogilvie, the wife of Lieut. W. E. P. French, Fort Shaw, M. T., is the happy mother of a fine son. The baby boy will be named Marion Ogilvie, after his mother, who is a namesake of the great revolutionary general.—*Kansas City Times.*

GENERAL MCCOOK, in relieving Lieut. S. W. Groesbeck, 6th Inf., from duty as regimental adjutant, tenders his thanks and expresses full appreciation for the ability and zeal he has displayed in the performance of the duties assigned him. "Lieut. Groesbeck," says the General, "will carry like ability and zeal to his new field of duty (Judge-Advocate, Dept. of Dakota.) where it is hoped promotion and prosperity awaits him."

THE following Army officers are registered at the War Department this week: Chaplain J. A. M. La Tourrette; Major John B. Parke, 16th Inf.; Colonel J. F. Head, retired; Major C. B. Throckmorton, 2d Art.; 1st Lieut. O. M. Smith, 22d Inf.; 1st Lieut. Thos. M. Woodruff, 5th Inf.; Maj. H. Clay Wood, A. A. G.; 1st Lieut. H. S. Foster, 20th Inf.; 1st Lieutenant T. C. Davenport, 4th Art.; Capt. L. T. Morris, 8th Cav.; 1st Lieut. Frank West, 6th Cav.; 1st Lt. A. C. Ducat, Jr., 3d Cav., and 2d Lieut. Edward B. Ives, 19th Inf.

GEN. WILLIAM S. HARNEY, U. S. A., retired, is visiting friends in Washington. On Thursday he called at the War Department and paid his respects to the Secretary of War, Lieut.-Gen., Adjt.-Gen., and other officers of the War Department, all of whom were surprised and pleased to see the distinguished General looking so hale and hearty. Although Gen. Harney has passed his four score years and five he is as erect in stature and active in step as he was twenty years ago. With the single exception of Gen. Pitcairn Morrison, Gen. Harney is to-day the oldest regular army officer now living.

THE Brackett *News* of October 30, has Fort Clark items as follows:

Chaplain S. M. Merrill and family returned Monday from their visit to Georgia....The youngsters of the post challenged the boys of the town to play a game of base ball next week.....A farewell reception and banquet is to be given to Colonel and Mrs. W. J. Lyster, at the Post Hall on Thursday evening, October 28. Prominent among those taking an active part in planning this event, in honor of this popular officer, are Maj. S. C. Vedder and Capt. Chas. B. Hall, and we know the evening will be a memorable occasion in the history of social life at this, the finest military post in our country.

ASSISTANT SURGEON F. V. WALKER, U. S. A., arrived in San Antonio this week.

CAPTAIN C. S. SMITH, of the Ordnance Corps, U. S. A., visited Sandy Hook this week.

LIEUTENANT FRANK WEST, 6th U. S. Cavalry, and Mrs. West, are visiting in Washington.

LIEUTENANT A. C. DUCAT, 3d Cavalry, was to leave Fort Davis, Tex., this week, on a visit North.

MRS. J. E. KING has returned for the winter to her residence, 220 East 17th street, New York City.

GENERAL T. L. CRITTENDEN, U. S. A., registered at the Park Avenue Hotel, New York, on Wednesday.

ASSISTANT SURGEON W. P. KENDALL, U. S. A., was married Oct. 27, at Chester, to Miss Lizzie T. Packard.

LIEUTENANT W. N. HUGHES, 13th U. S. Infantry, will join his family at Columbia, Tenn., some time this month.

MAJOR EDWARD COLLINS, 1st U. S. Infantry, visiting at Milton, Mass., has received a two months' extension of leave.

"CAPTAIN JOSEPH LAKE, U. S. Army," is reported as one of the judges at a drumming contest held at New Haven, Conn., Nov. 4.

LIEUTENANT S. D. FREEMAN, 10th U. S. Cavalry, lately visiting at 422 Lamale street, Baltimore, will remain East a few weeks longer.

CAPTAIN E. P. EWERS, 5th U. S. Infantry, and Mrs. Ewers, en route from Boston to Fort Keogh, visited friends at Fort Leavenworth this week.

COLONEL C. A. WOODRUFF, U. S. A., and Mrs. Woodruff have returned to Fort Leavenworth from their visit to Raleigh, N. C., and other places.

MRS. E. F. TOWNSEND and the Misses Townsend, wife and daughters of Col. E. F. Townsend, 12th Infantry, are stopping for a few weeks at "Arnold's," No 113 East 14th street.

AS A compliment to Gen. John Newton, U. S. A., it has been recommended that the new Hell Gate channel, between Mill Rock and Flood Rock, be named Newton Channel.

LIEUTENANT W. E. FRENCH, 3d U. S. Infantry, on leave in New York City, is to be married, Nov. 18, to Miss Lydia Cantine, the only daughter of Judge Cantine, of Saugerties, N. Y.

LIEUTENANT D. D. JOHNSON, 5th U. S. Artillery, was married, Oct. 27, at St. Louis, Mo., to Miss Ann Victoria Choteau, daughter of Charles P. Choteau. The married couple arrived in New York this week.

ON Tuesday evening, Nov. 3, the non-commissioned officers, non-commissioned staff and enlisted men stationed at Fort Schuyler, presented Col. A. C. Wildrick with a very handsome field-officer's sword. Ordnance-Sergeant Cusack made the presentation speech, expressing in behalf of himself and comrades all respect and esteem for the Colonel and their regret at losing him as Commanding Officer. The Colonel replied in a heartfelt manner, thanking them for their kind and unsuspected thought of him.

THE President has taken no action as yet upon Gen. Swaim's petition for a reconsideration of the proceedings of the Court-martial in his case. He has not even called for the proceedings in the case. It is thought probable that he will have the Secretary of War prepare a special report covering the legal points involved. General Swaim, and his attorneys, Messrs Shellenberger and Wilson, are said to be sanguine of favorable action. In view of General Swaim's frequent visits to the Adjt.-General it is surmised he is receiving encouragement in that quarter.

THE Omaha *Excelsior*, of Oct 30, says:

Band concerts occur on the afternoons of Monday, Wednesday and Friday.....Mrs. Gen. Wheaton is expecting her mother and sister early in November.....Brayton Sarson, the only child of Lieut. and Mrs. Sarson, celebrated his third birthday on Tuesday with a children's party....."When this cruel court is over" sigh the afflicted members of a general court martial that has been sitting at Fort Omaha since July last.

THE Vancouver *Independent* of Oct. 28 says:

Major A. M. Randol, 1st Art., is in command at Fort Canby .. Capt. James Kennington, 14th Inf., has been dangerously sick during the week, bur is recovering....Asst. Surgeon E. B. Moseley sails on Friday for San Francisco....Gen. E. S. Bragg, wife and daughter, of Wisconsin, have left Vancouver Barracks for home ...Lieut. J. S. Mallory, 2d Inf., will start next week with his wife, to join at Fort Robinson....A note from Theo. J. Eckerson, Major U. S. A. retired, states that his return to Oregon to reside has been delayed by sickness in his family, and will be delayed until next spring.

CHIEF ENGINEER S. D. HIBBERT, U. S. N., rejoined at Norfolk, Va., this week.

COMMODORE L. C. SARTORI, U. S. Navy, registered at the Fifth Avenue Hotel, New York, on Thursday.

ASSISTANT SURGEONS V. C. B. MEANS and B. C. Bryan, U. S. N., were recent visitors to San Francisco.

LIEUTENANT G. BLOCKLINGER, U. S. N., and bride arrived in Washington this week, and will soon leave for Sitka.

PAY INSPECTOR J. H. STEVENSON, U. S. N., and Mrs. Stevenson, were at the Grand Hotel, Paris, France, on Thursday.

COLONEL W. B. REMEY, Judge Advocate General of the Navy, visited his brother Capt. G. C. Remey, U. S. N., this week, at Norfolk, Va.

CAPTAIN M. C. GOODRELL, U. S. M. C., so well known in Washington, through long and arduous duty "at the Gate," is now stationed at Portsmouth, N. H.

MISS ELIZABETH PAUL SHIPPEN, daughter of Medical Director Edward Shippen, U. S. N., was married at Philadelphia, Nov. 4, to Mr. Chas. Wheeler Barnes of New York.

REAR ADMIRAL EARL ENGLISH, U. S. N., has recently bought a handsome brick residence on Iowa Circle, near Twelfth and P streets, Washington, D. C., paying Mr. John F. Waggeman $9,000 for it.

LIEUTENANT R. H. MCLEAN, U. S. N., reported for duty at the Ordnance Bureau, Washington, on Monday.

MEDICAL DIRECTOR SOMERSET ROBINSON, U. S. N., lately from the Pacific Coast, is at Willard's, Washington.

GEO. BROWN, Jr., son of Capt. Brown, U. S. N., of the Norfolk Navy-yard, who was dangerously ill with the typhoid fever, is improving and thought to be safely over the crisis.

LIEUTENANT R. H. MCLEAN, U. S. N., has been ordered to duty in the Bureau of Ordnance, and reported on Monday last. Lieut. McLean's last cruise was on the *Swatara*, and his ability as an officer is highly spoken of.

ENSIGN C. S. WILLIAMS, U. S. N., has been condemned by medical survey and placed on sick leave. He has been on Coast Survey duty for some time. Mr. Williams is an appointee from Ohio, and is a recent graduate, having entered the Academy in September, 1880.

THE inmates of the Naval Asylum are to be congratulated that such an excellent Governor as Commodore Gherardi has been succeeded by one so worthy of like praise. Captain J. S. Skerrett's appointment to that institution is a case in point of the "right man in the right place."

THE latest addition to the already large number of naval property owners in the District of Columbia was made last week by the purchase of Chief Justice Harlan's fine residence by Commodore D. B. Harmony, U. S. N., Chief of Bureau of Yards and Docks. The Commodore will assume possession at once.

LIEUTENANT-COMMANDER E. W. WATSON, U. S. N., since November, 1884, on duty as Navigation Officer at the Norfolk Navy-yard, has recently been ordered to instruction in ordnance at the Washington Ordnance Yard. It is possible that this course of instruction is the preliminary to executive duty afloat.

LIEUTENANT ANDREW DUNLAP, JR., U. S. N., is receiving the congratulations of his hosts of friends on his recent return from a full three years' tour of duty on the Brazil station. The lieutenant's orders to the *Lancaster* bears date of June 30, 1883, so his measure is "heaping-full, pressed down and running over" of sea service.

LIEUTENANT W. F. HALSEY, U. S. N., is on duty at the Branch Hydrographic Office, Beaver Street, New York. His last cruise was on the *Iroquois*, South Pacific Station, and his present duty dates from June 2, 1885. Lieut. Halsey lives in Elizabeth, N. J., and will probably remain on his present duty for some time to come.

CAPT. ALBERT KAUTZ, Medical Inspector Somerset Robinson, Lieutenant Ridgely Hunt, Assistant Paymaster Livingston Hunt, Rear Admiral William Rogers Taylor, Lieutenants W. Swift, A. C. Dillingham and F. H. Tyler, Paymaster George A. Lyon, Assistant Paymaster John A. Mudd, Ensign F. R. Brainard and Lieut. A. Marix registered at the Navy Department during the week.

ENSIGN H. MCL. P. HUSE, U. S. N., who has been detached from duty at the Naval Ordnance Proving Ground, and ordered to the Naval Academy, has developed more than the average ability in connection with guns and gunnery, and, notwithstanding the fact that he is still a young man, his acquirements will render him a value to the Academy not to be measured by birthdays. Not a few of his seniors wish that they were young, too.

IN an interesting article on "The Literary Movement in New York," in *Harper's Magazine* for the present month, written by Geo. P. Lathrop, the late James K. Paulding is spoken of as "Essayist, rhymer, novelist, and Secretary of the Navy." It was he who joined Irving in the composition of "Salmagundi." Mr. Paulding was appointed Secretary of the Navy by Martin Van Buren July 1, 1838, and was succeeded by Hon. Geo. E. Badger.

LIEUT. T. S. PHELPS, U. S. N., is looking forward with much interest to the time when the *Hartford*, to which he is attached, shall go to the Mare Island Navy-yard. Lt. Phelps is well known in and about San Francisco, and his mining and other speculations are still talked of in that section. The father of the lieutenant, Rear Admi. T. S. Phelps, U. S. N., retired, and Mrs. Phelps are still on leave in Europe. The admiral's address is care of B. F. Stevens, 4 Trafalgar Square, London.

LIEUTENANT W. S. HOGG, U. S. N., son of the Chief Clerk, Navy Department, has recently passed a successful examination for promotion to his present rank, and his "Gunboat Commission" has been given him, by virtue of which he can draw the pay of his promoted grade and can afford to wait patiently while the "sure-enough" commission awaits the "advice and consent of the Senate" the coming session. Lieut. Hogg is at present attached to the Fish Commission steamer *Albatross*, recently arrived at Washington.

THE marriage of Lieut. Ridgely Hunt, U. S. Navy, to Miss Virginia D. Kearney, step-daughter of Rear Admiral Upshur, U. S. N., took place at the Church of the Ascension, Washington, D. C., on Wednesday evening, Nov. 3. The Admiral gave away the bride. It was a notable occasion and the Services were largely represented. Mr. Thomas Hunt, a brother of the groom, was best man. The ushers were Messrs. Livingstone Hunt, Guillard Hunt, Lieut. Mudd, Henry Murray, Gherardi Davis and Arthur Goldsborough. The bridesmaids were Miss Hunt, sister of the groom; Miss Rose Gouverneur, who is a great grand daughter of President Monroe; Miss Victoria Emory, Miss Mollie West, Miss Augur, daughter of Gen. Augur, and Miss Porter, daughter of Admiral Porter. The bridesmaids were tastefully dressed in white silk muslin. The bride wore a full court train dress of heavy white satin, and a long tulle veil. Mrs. Upshur, the mother of the bride, wore a silver gray satin. Rev. Dr. Elliott performed the ceremony. A reception at the residence of Admiral Uphur followed the marriage. Only the most intimate friends and relations of the two families were invited to the reception.

COMMANDER C. E. CLARK, U. S. N., lately visiting in Cheyenne, has arrived in the East.

LIEUTENANT ADOLPH MARIX, U. S. N., arrived in New York from England on Monday.

VISCOUNT RANDAL T. M. BERKELEY DURSLEY, a lieutenant in the British Navy, arrived in New York on Monday.

MAJOR A. E. BATES, U. S. A., and Commander H. F. Picking, U. S. N., were recent guests at the West, Minneapolis.

LIEUTENANT CARROLL MERCER, U. S. Marine Corps, was in Washington this week on leave from the Naval Academy.

MEDICAL DIRECTOR DELAVAN BLODGOOD, U. S. N., returned to Norfolk, Va., early in the week from a visit to Washington.

BOATSWAIN W. H. FRARY, U. S. N., is a patient in the Naval Hospital at Norfolk, Va., and is at present quite unfit for duty.

ADMIRAL PORTER, U. S. N., and family registered at the Fifth Avenue Hotel on Tuesday en route from Newport to Washington.

LIEUTENANT W. P. CONWAY, U. S. N., lately at Owensboro', Ky., was in Philadelphia this week with quarters at the Continental Hotel.

LIEUTENANT G. M. STONEY, U. S. N., and his officers were banqueted by the Cosmos Club of San Francisco, on the evening of Oct. 30.

REAR ADMIRAL AND MRS. BALDWIN will spend the winter at 590 Fifth Avenue, New York City, of which residence they have taken a lease for several years.

LIEUTENANT W. G. ROSS, U. S. R. M., contributes to "Harper's Magazine" for November an illustrated article on "Our Coast Guard," (The U. S. Revenue Cutter Service.)

PROFESSOR J. FLEMING WHITE, the expert in the Chemical Department at the Torpedo Station, has accepted the position of chemist at the Buffalo (N. Y.) Chemical Works.

MR. HILGARD, the former Superintendent of the Coast Survey, is much improved in health, though still feeble. He and Mrs. Hilgard have returned to Washington from the sea-coast.

A BRILLIANT society event at Erie, Pa., was the marriage, Oct. 29, at St. Paul's Episcopal Church, of Lieut. Corwin P. Rees, U. S. Navy, to Miss Louise Merrill. There was a large number of friends present, including most of the officers of the *Michigan*, to which Lieut. Rees is attached.

ENSIGN FRANCIS R. WALL, U. S. N., arrived in New Orleans a few days ago and took charge of the branch Hydrographic Office there. Ensign Wall is a native of Louisiana, his home being in Clinton, and has numerous friends and acquaintances in New Orleans, who have given him a hearty welcome.

CHIEF ENGINEER GEO. R. JOHNSON, U. S. N., late Fleet Engineer of the South Atlantic Station, has reported his return home, having been detached from the flag ship *Lancaster* on Sept. 15. Mr. Johnson was ordered to the *Lancaster* in September, 1884. He is the father of Mrs. W. B. Boggs, whose husband, Asst. Engr. Boggs, died at Guayaquil last summer while en route to join the *Adams*.

THE marriage of Lieut. L. L. Reamey, U. S. Navy, to Miss Brewster, to take place in New York on Wednesday next, Nov. 10, is expected to be a brilliant affair. There will be six bridesmaids and six groomsmen—Naval officers. A reception to intimate friends will be held at the house of the bride's parents, 24th East Sixty-fourth street. After an extended wedding tour Lt. and Mrs. Reamey will reside in Washington.

As showing the remarkable additions to the ranks of the Benedicts in the Navy this fall, a recent paragraph states that at a boarding house in Annapolis, Md., no less than five brides have been registered since the opening of the Naval Academy on Oct. 1, all of whose husbands put "U. S. N." after their names. Verily, even these piping times of peace are not without their engagements and their unconditional surrenders.

LIEUTENANT H. W. SCHAEFER, U. S. N., who has been ordered to duty at the Naval Observatory, made a full cruise on the Asiatic Station, and returned on the *Trenton*. He is located with Mrs. Schaefer, formerly Miss Lily Davis, of Georgetown, at 3,303 O street, West Washington, D. C. Mrs. Schaefer is a relative of the well-known Pickrell family of Georgetown, her cousin being Asst. Engr. James M. Pickrell, U. S. N., now putting in a three years' cruise on the *Vandalia*.

A CORRESPONDENT of the Norfolk *Landmark* recalls the days of the Portsmouth Military Academy, forty years ago, and some of the cadets as follows: "Alexander Cassell is a sailmaker on the retired list of the U. S. N.; James C. Council is a resident of Virginia; Stephen D. Hibbert is a Chief Engineer, U. S. N., and at present in charge of the Steam Engineering Department of the Gosport Navy-yard; Samuel B. McKenney is a son of Chaplain McKenney, of the Navy. He resided in Princess Anne County, we believe, and is a minister of the Gospel."

RECENT DEATHS.

BREVET LIEUT.-COLONEL BENNETT A. CLEMENTS, major and surgeon, U. S. A., died Nov. 1, at his post of duty, the Military Prison at Fort Leavenworth, Kas. He was born in the District of Columbia in 1831, and was appointed an assistant surgeon, U. S. Army, Nov. 4, 1856. On Feb. 27, 1863, he was promoted surgeon with the rank of major. During the war Dr. Clements rendered efficient and meritorious services in various responsible positions, for which he received the brevet of lieutenant colonel March 13, 1865. He was an estimable officer, and his death will cause sincere sorrow to a large circle of friends. The Kansas City *Times* referring to the

event says; "His death was entirely unexpected, and what makes it more sad is the absence of Mrs. Clements in New York, where she has been visiting her daughter Mrs. Lawrence. No arrangements for the disposition of the remains have yet been made, but it is probable that they will be laid to rest at the National Cemetery near here.

—

THE Loyal Legion of California, referring to the late Major Richard Henry Pond, formerly Captain 12th U. S. Infantry, says: "Gifted with an excellent memory, and being a great reader, he was more than ordinarily brilliant in conversation; full of anecdote, and always cheerful, he was a most welcome guest, and a companion always sought for; never depressed by business troubles, he invariably looked at the brightest side of everything, and when his own affairs looked darkest, he always had a cheering word for a friend. He was the true gentlemen and soldier; a devoted husband and father; a sincere and lasting friend."

—

THE New York Commandery, Loyal Legion, in an obituary notice of the late P. A. Paymaster Gilbert A. Robertson, U. S. Navy, say: "Mr. Robertson was a man of high culture, of refined tastes, and of many accomplishments. He was a good man, a reliable friend, and admirable in all the family relations. His kind heart, his generous disposition, his benevolent soul, and his possession of every quality that naturally endears one man to his fellows, made him a host of friends in every direction, very many of whom will long and deeply grieve his loss."

—

CIVIL ENGINEER B. F. CHANDLER, U. S. N., retired, died at Onset, Mass., Oct. 31, 1886, of apoplexy. He was seventy years old, and leaves a widow and two sons. Mr. Chandler entered the Navy July 7, 1852, and served with great efficiency at some of the principal Navy-yards. He was placed on the retired list Oct. 15, 1881.

—

THE funeral of the late Medical Director George Maulsby, U. S. Navy, took place at Washington on Monday, and was largely attended by old friends and comrades. The remains were interred in the Rock Creek Cemetery.

—

MRS. ANNE LEMOND CRAWFORD, widow of Robert Crawford, one of Cincinnati's most successful pioneer business men, died October 30, in the ninetieth year of her age. Mrs. Crawford was the daughter of Col. William Lemond, a noted soldier of the Revolution.

DR. EDWARD T. WHITTINGHAM, a son of the late Bishop Whittingham, of Baltimore, died at his home in Milburn, N. J., Oct. 26. He was appointed an assistant surgeon, U. S. Army, April 16, 1862, and resigned Nov. 12, 1863.

MR. JAMES MARTIN, formerly mate, U. S. N., died in Brooklyn, Nov. 1. He was appointed mate July 5, 1863, and resigned in September, 1864.

LIEUT. GENERAL VON WICHMAUR, commander of the 6th Corps, German Army, died at Breslau last week.

(Correspondence of the Army and Navy Journal.)

CAPTURE OF MANGUS AND HIS PARTY.

ON Oct. 20 Capt. C. L. Cooper, Troop H, 10th Cav., came into Fort Apache with Mangus and his band, having captured them about 3 o'clock the day before in the White Mountains, after a chase of 15 miles. They had with them 30 mules and a number of ponies. The mules were stolen from Britton Davis's ranche at Corralitas, Mexico, and will no doubt be returned to their owner.

Capt. C. L. Cooper, with 20 men of his Troop, H; Capt. P. L. Lee, with his Troop, G; Lieut. C. G. Ayres, in command of Troop M; Lieut. Leighton Finley, with 20 men of Troop C, all of 10th Cav., and Lieut. W. H. Smith, with Indian scouts, were ordered out in different directions to capture or kill these renegade Indians. We are all delighted with his capture, as Mangus has been a thorn in the side of the authorities, being a dangerous foe; one to be greatly dreaded by the lonely traveller or ranchmen.

This capture leaves but the small party that escaped from Geronimo's band when they were captured by Lieut. Gatewood, and to all intents and purposes ends the hostilities of the Apache Indians, known as the Chiricahuas. Gen. Miles has been notified that these Indians were proceeding north towards the Black Range, and with his knowledge of their habit of movement had foreseen that they would come near to Apache, they not knowing that the other Chiricahuas had been sent to Florida, and gave orders to his troops with the above mentioned result. The rogue, Mangus, says that he did not know that the stolen mules belonged to Lieutenant Davis, who, prior to his resignation, was a good friend to these Indians; he also says that he was ignorant of the removal of the Chiricahuas from the Apache reservation. Beyond a doubt it is to the latter fact that we owe the capture of these Indians, as the presumption is that he came this way to communicate with other members of his tribe whom he expected to meet here. It is a well known fact that as long as the Indians now in Florida remained here, they aided the renegades whenever the latter visited the vicinity of Fort Apache. This, of course, enabled the marauders to keep up their incessant raiding, as they knew the location of the troops, etc.

Gen. Miles has been a benefactor to Arizona and New Mexico, and it is a marvellous thing that in the United States there should be any one to censure in any way one who has certainly accomplished, (finished) that which he was set to do. "Truth is mighty and will prevail," and in the time to come Gen. Miles will be known as the man who swept from two Territories a murderous, thieving gang—in a soldierly way.

R. T. B.

(From the Reading, Pa., Times.)

CASTING A GREAT GUN.

A PRINCIPAL part of the heavy rifle cannon now being constructed by the Scott Foundry of the Reading Iron Works for the American Standard Ordnance Company of New York, was successfully cast, for which 40,000 pounds of iron was required.

This is the first occasion, it is believed, where private enterprise has undertaken to manufacture expensive ordnance for the Government and test it entirely at private cost, relying confidently upon the success of the trial gun, which it is expected will prove capable of delivering 18,000 pounds of projectiles and consuming 9,000 pounds of gunpowder in one hour's practice of consecutive firing. During the past few years it has been demonstrated that guns made of the strongest material are not the least liable to burst, and that it is not the pressure of the powder alone that has to be provided for, but another almost irresistible force, namely, that resulting from unequal heating of the gun or heating in one part in advance of another and colder part is the cause of the mischief.

In the construction of this gun provision is made to permit the unequal expansion which cannot be restrained to allow it to have its way without derangement of other parts of the gun, and practical experiments have shown that by the reduction of the frictional resistance to the projectile passing out of the gun a large percentage of projectile force remains stored up in the shot, which diminishes the rate of strain, with a tendency to burst the gun, which has heretofore not passed out of the gun with the projectile. This percentage is found to be so large that it is known that one of the guns made upon this new plan can be fired from five to ten times, while a run rifled and shotted in the ordinary manner could only be fired once with safety.

The excellent facilities of the Scott Foundry make it practical and probable that the demand for rifle cannon of large calibre for the National defence may be supplied with great rapidity, and all their anticipations being realized, the people of Reading may congratulate themselves upon the inauguration of so important an enterprise in our city. Further consideration of this subject will appear in our columns.

PRESENTING THE FARRAGUT MEDAL.

THE presentation of the Farragut medal to the naval apprentice most distinguished for skill in duties of a man-of-wars-man was made by Commander Schley, Chief of the Bureau of Equipment and Recruiting, on board the *Portsmouth* in New York harbor, Nov. 2, in the presence of all the officers and boys from the *Jamestown* and *Saratoga*, which ships were lying near by. This medal is awarded under conditions similar to those pertaining to the Bailey medal. Medals are not intended as an incentive to good conduct and faithful service. Each apprentice is a competitor, as the Commanding Officer of each training ship is authorized to select from his crew the boy, who, at the end of a cruise, has most distinguished himself, to undergo a final examination before a board of officers in competition for the prize. The Bailey medal is presented in the spring, after the return of the winter cruise to the West Indies, and the Farragut medal, at the end of the summer cruise across the Atlantic.

This year's Farragut Medal, which is provided by act of Congress, goes to Naval Apprentice Andrew J. Stines, a bright and handsome boy from the *Portsmouth*. He had as his competitor in the final examination Henry A. Eilers, first class apprentice. The former was credited with total marks of 398 out of 550, and the latter 385.

Comdr. Schley after describing the purpose of the presentation said: "The presentation of this medal does not merely mean that Naval Apprentice Stines has won the honor of its possession, but it means that there has been general advance all along the lines. To all who have competed for this medal, knowledge has been spread and experience has been gained. This means good to the Navy and to the country it serves. In behalf of the Secretary of the Navy I have to congratulate Naval Apprentices Stines and Eilers, and are pleased to assure them that the Department will permit them to select any ship of the general service in which they may prefer to serve. It only remains for me to attach the medal to the breast of him who has so honorably won it, and to express the confidence that he will as gracefully wear it."

SUGAR IN CEMENT.

THE letter respecting the use of sugar in cement and mortar, which appeared in the London *Times*, and which was noticed by us, has given rise to some further correspondence. Surgeon-General W. Robert Cornish has written to say that the Indian practice of mixing "jaggery," or unrefined sugar, with mortar in certain proportions, is very ancient. In the latter part of the last century a wall was erected as a fortification to the settlement of Madras, and remained until it was ordered to be removed in 1859. The task proved exceedingly difficult, and the separation of the bricks from the mortar was impracticable. Afterwards the original specification for the wall came to light, and it was found that it required that the mortar should include a certain proportion of "jaggery" mixed with shell, lime and river sand. A copy of the document was published in the Madras *Mail* in 1873. The same writer states that the polished chunam walls, for which Madras is famous, are prepared with cement made with unrefined sugar. Another correspondent, Mr. Nathaniel Steven son, testifies to the beneficial effect of adding an ounce of sugar to each half-pint of water in mixing plaster-of-paris for models. A third writer mentions the use of "goor," a coarse sugar, as an ingredient of mortar in India. Masonry cemented with this material requires to be blasted before it can be destroyed.

Of this the *Engineering News* says: "We have heard of a certain kind of 'Sugar' being used to bind corrupt officials to an unlawful bargain in connection with some of our great engineering works; but this latest application of the saccharine product is new to us and we give it for what it is worth."

SECRETARY WHITNEY AND REPORTERS.

SECRETARY WHITNEY has a knack for getting along well with the newspaper people. In Washington he is a favorite with the correspondents because he always has something for them, whether it is the information they are seeking or not. In a recent chat he told how he got his first cue as to the best manner of treating newspaper men. Said he: "When I went into the Corporation Counsel's office, I was quite green as to the methods of reporters. They all came in to see me, of course, on the day I was installed in office. I talked with them and did my best to give them such information as they wanted. That afternoon one of them came back to see me and I shall never forget the service he rendered me in the talk I had with him. He was an old and experienced reporter and he said to me: 'Mr. Whitney, I have conceived a liking for you from the manner in which you received us this morning. As an old reporter I have come back to tell you that you can always get along with us by treating us like human beings. We are mostly poor men who are reporters, and are space men. If we get an item we get paid for it. If we get no items, we get no pay. We live on items. It is possible for a man in your position always to have something for the press, and although we may come to you for one thing which you may not be willing to give us, yet if you give us something else that will make space, it will be just as well and you will find that every man of us will treat you right.' I told him that I was much obliged for his counsel, for it appeared to me philosophical and correct. By following his advice I have always got along well with the newspaper men."—*N. Y. Tribune.*

THE COAST SURVEY.

THE *News Letter* of Port Jefferson, L. I., N. Y., of Oct. 30, says:

The U. S. S. *Arago* is in our harbor. W. J. Sears, U. S. N., is in command, Ensign Roger Wells, U. S. N., Ensign A. R. Hasson, U. S. N., and 16 men. They are engaged in the survey of the coast of L. I. The intention is to publish a new chart soon. This chart will be calculated to be absolutely correct geographically and mathematically speaking. The *Arago* is engaged in surveying that part of the coast lying between Oak Neck Point and the bluff opposite Stony Brook; said bluff is in the town of Smithtown. Soundings are taken in a steam launch, from given points from one mile to one and a half miles from the shore toward the middle of the Sound. Soundings are taken about 250 metres apart, making the forthcoming chart of great practical value to coasters coming in or going out of the different harbors. Three ships are employed in this great survey in its different departments. The *Arago* has been lying at Northport, for the foregoing month or six weeks and from thence came to this place. This vessel was originally built for the late Horace Greeley, which is a fact of some interest in regard to her. The officers in charge are regular commissioned officers of the U. S. Navy detailed for this work. Mr. Sears says the coast lines have changed materially since the old survey of 1830 and 1850, and showed the necessity of a new survey for the safety of vessels doing business on this coast. He is a gentleman of the true type, and received your correspondent and such others as called upon him in a hospitable manner, and showed the different calculations and observations that go to make up and complete the work in hand.

The *News Letter* also says the Sunday School Association, which was held in the M. E. Church, on Tuesday and Wednesday, was a success in spite of bad weather. On Tuesday evening the meeting was addressed by Rev. Cleveland, of Northport, and Rev. Lowry, of Port Jefferson. The order of the evening was enlivened by song, by four colored gentlemen of the U. S. S. *Arago*, who by the courtesy of the gentleman in charge, Mr. W. J. Sears, were allowed to entertain the audience with some old time negro camp meeting songs which were appreciated.

NEW PUBLICATIONS.

The Virginia Campaign of Gen. Pope in 1862 is Volume II. of the papers read before the Military Historical Society of Massachusetts in 1876, 1877 and 1880, printed by the Society and published by Ticknor and Co., Boston. Four years intervene between its appearance and that of the previous volume published in 1881. Most of the papers were written before the case of Gen. Porter was reconsidered by a Board of Officers, but we have one most interesting paper in which Mr. Jno. C. Ropes reviews the proceedings before that court and most sharply criticizes Mr. Choate for his conduct of the case on Gen. Porter's behalf though he entirely concurs in the vindication of the character of Gen. Porter by the Board. Of the "gallant and able defence" of Major Gardiner and Gen. Schofield's report, Mr. Ropes says: "With an unpopular cause to maintain, with three experienced and able practising lawyers, all exercising their combined wit upon his positions and arguments, he held his own, like a good soldier, and like a good lawyer. And a pretty strong case he made of it too. Whenever the other side overshot the mark they had to pay for it. Whenever the facts seemed to bear out the Government theory they were ably marshalled for that end. The report is characteristic of Gen. Schofield, who undoubtedly drew it up. It is very clear and strong in what is called 'power of statement.' In general it is, to my mind, convincing, so far certainly as its conclusions are concerned; but there are several passages in it where the views of the petitioner are, perhaps, adopted rather too fully." There are two other papers in the volume by Mr. Ropes, two by Gen. Stephen M. Weld; some from each of the following gentlemen: Gen. Samuel M. Quincy, Col. Chas. P. Horton, Gen. Chas. F. Walcott, Col. Wm. Allan, Col. Franklin Haven, Jr., Col. Theo. Lyman, Col. Thos. L. Livermore. A general map, a map of Central Virginia, five maps of the battles of Second Bull Run, and two of Chantilly, accompany the volume.

The biography of Lincoln by Colonel Hay and Mr. Nicolay, to which we have before alluded, takes its place as the leading articles in the current number of the *Century*, this first installment treating of "Lincoln as Pioneer." The illustrations are numerous, and the subjects of absorbing interest, not only to those contemporary with the events described but to the generation which has grown up since Lincoln died. With the Gettysburg papers is printed an anonymous narrative of Hooker's appointment and removal, which has considerable interest as a study of human nature in Lincoln's Cabinet.

LATE ARMY ORDERS.

Major Thos. H. Handbury, C. E., ordered in addition to his present duties to relieve Maj. Wm. H. H. Benyaurd at Chicago, who is ordered to San Francisco, relieving Col. Geo. H. Mendell.

THE ARMY

WAR DEPARTMENT, A. G. O., Oct. 28, 1886.

Publishes a proclamation of the President of the U. S., dated Oct. 11, directing that the military reservation of Fort Halleck, Nevada, be placed under the control of the Secretary of the Interior for disposition, it having become useless for military purposes.

G. O. 15, DIV. OF THE PACIFIC, Oct. 16, 1886.

In accordance with instructions from the Lieut. General Commanding the Army, Par. 2, G. O. 14, c. s., is revoked. (G. O. 14 detailed Capt. Darling, 1st Artillery, Inspector of Rifle Practice.)

STAFF CORPS AND DEPARTMENTS.

Adjutant and Inspector Generals.

The Inspr. Gen., Dept. Dakota, will proceed, on inspection service, to Forts Sully, Bennett, Randall, and Meade, D. T.; and Sioux City, Iowa (S. O. 111, Oct. 21, D. Dakota).

Quartermasters and Subsistence Departments.

Col. Rufus Saxton, A. Q. M. G., will inspect C., C. and G. Equip., and Q. M. stores at Jeffersonville, for which Capt. Addison Barrett, M. S. K., is responsible (S. O., Nov. 1, H. Q. A.)

Post Q. M. Sergt. George Adams will proceed to Fort Union, N. M., for duty (S. O., Oct. 29, H. Q. A.

The journey from Tucson to Fort Bowie, A. T., performed by Capt. A. E. Miltimore, A. Q. M., is approved (S. O. 105, Oct. 22, D. Ariz.)

Pay Department.

The troops will be paid, to include muster of Oct. 31, as follows: At Fort Leavenworth, by Lieut. Col. W. A. Rucker, D. P. M. G. At the Cav. Recruiting Depot and Ord. Powder Depot at Jefferson Barracks, Forts Gibson, Sill and Reno, and Camp on Chilocco Creek, I. T., by Major G. W. Candee, Paymr. At Forts Leavenworth, Riley and Hays, by Major Alexander Sharp, Paymr. At Forts Supply, I. T., and Elliot, Texas; Fort Lyon, Cantonment on the Uncompahgre and Fort Lewis, Colo., by Major J. P. Baker, Paymr. (S. O. 121, Oct. 26, Dept. Mo.)

Leave for seven days is granted Major Charles H. Whipple, Paymr., Fort Keogh (S. O. 111, Oct. 21 D. Dakota).

The journey from Whipple Barracks, A. T., to Forts Wingate and Union, N. M., performed by Major G. E. Glenn, Paymr., is approved (S. O. 105, Oct. 22, D. Ariz.)

Major Joseph W. Wham, Paymr., will proceed to West Point, N. Y., not later than Nov. 2, on public business (S. O. 171, Oct. 30, Div. Atlantic).

The leave for seven days granted to Major Charles H. Whipple, Paymr., is extended two days (S. O. 114, Oct. 28, D. Dak.)

The troops in the Dept. of Arizona will be paid to include the muster of Oct. 31, as follows: By Major G. E. Glenn, at Whipple Barracks, Forts Mojave and Verde, A. T., and Fort Wingate, N. M., including general service clerks, messengers and detachments at Dept. H. Q. By Major F. M. Coxe, at Forts Apache, Thomas and Grant, and San Carlos, A. T. By Major W. M. Maynadier, at Forts Marcy, Union and Stanton, N. M. By Major G. F. Robinson, at Fort Bliss, Texas, Forts Bayard and Selden, N. M. By Major G. R. Smith, at Forts Bowie, Huachuca, Lowell and McDowell, A. T. (S. O. 108, Oct. 72, D. Arizona.)

In order to enable Capt. L. S. Tesson, Asst. Surg., to comply with Par. 9, S. O. 224, c. s., H. Q. A., Par. 1, S. O. 107, c. s., D. Ariz., is revoked, and he is relieved from temporary duty in this Dept. (S. O. 109, Oct. 28, D. Ariz.)

1st Lieut. C. C. Barrows, Asst. Surg., is relieved from duty as post surgeon, Whipple Barracks, and will report to the Comdg. Gen., Dept. of the East, for assignment to duty (S. O. 109, Oct. 28, D. Ariz.)

1st Lieut. P. R. Egan, Asst. Surg., is relieved from duty as post surgeon, Fort Bowie, and will report to the Comdg. Gen., Dept. of Texas, for duty (S. O. 109, Oct. 28, D. Ariz.)

Medical Department.

Major Joseph P. Wright, Surg., relieved from duty in Dept. of Texas, and ordered to Dept. of Missouri, as attending surgeon at Fort Leavenworth Military Prison. Major Wm. H. Forwood, surgeon, is relieved from duty as attending surgeon at Headquarters, Division Missouri, and as examiner of recruits at Chicago, Ill., and assigned to duty in Dept. of Dakota. Major Van Buren Hubbard, surgeon, is relieved from duty in the Dept. of Ariz., and assigned to duty at H. Q., Div. of Missouri, as a relief to Major Forgood (S. O., Nov. 4. H. Q. A.)

Sick leave for four months is granted Capt. Harry O. Perley, Asst. Surg. (S. O., Nov. 4, H. Q. A.)

The leave granted to 1st Lieut. C. N. B. Macauley, Asst. Surg., is extended ten days (S. O. 114, Oct. 28, D. Dak.)

Major Richard S. Vickery, Surg., will inspect Q. M. stores at the Army and Navy Gen. Hospital, Hot Springs, for which Capt. Charles H. Ingalls is responsible (S. O., Nov. 2, H. Q. A.)

Asst. Surg. L. S. Tesson will proceed to Fort Davis, and report for further orders (S. O. 107, Oct. 26, D. Ariz.)

A. A. Surg. R. P. Finlay is relieved from duty at Fort Mojave, and will proceed to Fort Bowie, A. T., for duty (S. O. 107, Oct. 26, D. Ariz.)

The C. O., Jackson Barracks, La., is authorized to employ, temporarily, a local physician by the visit (S. O. 171, Oct. 30, Div. Atlantic).

Capt. Henry S. Turrill, Asst. Surg., is transferred from the Dept. of the Platte to the Dept. of the Columbia for duty (S. O., Oct. 29, H. Q. A.)

Asst. Surg. Leonard Wood will proceed to Albuquerque, thence to Fort Bowie, and carry out the verbal instructions of the Dept. Comdr. (S. O. 105, Oct. 22, D. Ariz.)

A. A. Surg. Wallace E. Sabin is relieved from duty at Fort Meade, and will proceed to Fort Pembina, D. T., and report for duty (S. O. 111, Oct. 21, D. Dakota).

Capt. Edward B. Moseley, Asst. Surg., is relieved from duty in the Dept. of the Columbia, and will report in person at Div. H. Q., for assignment to duty (S. O. 87, Oct. 16, Div. Pacific).

1st Lieut. F. J. Ives, Asst. Surg., is assigned to duty as Medical Officer with Co. K, 16th Inf., and the Indian prisoners, under orders for Fort Pickens (S. O. 149, Oct. 22, D. Texas).

Engineers and Ordnance Departments.

Capt. Frederick A. Hinman, C. E., will proceed to Suffolk, Va., and such other points on the Nansemond River, Va., as may be necessary, on duty connected with works under his charge (S. O. 164, Nov. 1, C. E.)

Capt. Carl F. Palfrey, C. E., will proceed to Charlotte, Great Sodus Bay and Little Sodus Bay, N. Y., on duty cooected with works under his charge (S. O. 164, Nov. 1, C. E.)

Lieut. Lansing H. Beach, C. E., will proceed to Evansville, Ind., to Paducah, Maysville, Ky., and to Coolville, O., and such other points on the Big Hockhocking River as may be necessary, on duty connected with works under his charge (S. O. 164, Nov, 1, C. E.)

Lieut. Col. Wm. P. Craighill, C. E., will proceed to Havre de Grace, Md., on duty connected with works under his charge (S. O. 163, Oct. 30, C. E.)

Lieut. Col. John W. Barlow, C. E., will proceed to Bletcher's Shoals and Nelson's Eddy on the Clinch River, and other obstructions in their vicinity, on duty connected with works under his charge (S. O. 163, Oct. 30, C. E.)

Major Jared A. Smith, C. E., will proceed to St. George's River from Warren to Thomaston, Me., on duty connected with works under his charge (S. O. 163, Oct. 30, C. E.)

Major Jared A. Smith, C. E., will proceed to Bar Harbor, Me., on duty connected with works under his charge (S. O. 162, Oct. 29, C. E.)

Major James C. Post, C. E., will proceed to Louisa, Ky., on duty connected with works under his charge (S. O. 162, Oct. 29, C. E.)

Capt. Daniel W. Lockwood, C. E., will proceed to the harbor of Muskegon, Mich., on duty connected with works under his charge (S. O. 162, Oct. 29, C. E.)

Lieut. Colonel George H. Elliot, C. E., will proceed to Watch Hill, New Bedford, Taunton, Vineyard Haven and Wood's Holl (S. O. 166, Nov. 3, C. E.)

Major L. Cooper Overman, C. E., will proceed to Sandusky Harbor and the mouth of the Chagrin River, O., on duty connected with works under his charge (S. O. 165, No. 2, C. E.)

Lieut. Col. Henry M. Robert, C. E., will proceed to Trenton and Sea Isle City, N. J., on duty connected with works under his charge (S. O. 161, Oct. 28, C. E.)

Capt. Clinton B. Sears, C. E., will proceed to Jamestown, Dak., thence down the valley of the James River to its mouth, on duty connected with works under his charge (S. O. 161, Oct. 28, C. E.)

Lieut. Wm. M. Black, C. E., will proceed to Pease River and Calooosahatchie River, Fla., on duty connected with works under his charge (S. O. 161, Oct. 28, C. E.)

Ordnance Sergt. Cornelius Kelley, on duty at Fort Leavenworth for the past eighteen years, has asked to be retired from active service. Sergt. Kelley has plenty of this world's goods and will enjoy the rest of his days in Leavenworth, where he has a comfortable home.—*Kansas City Times.*

Ord. Sergt. Wm. Hoffman, retired, Nov. 1, enlisted in 1854, and was appointed Ord. Sergt. in 1870. He participated with Bat. L, 2d Artillery, in 49 engagements.

1st Lieut. J. Walker Benét, O. D., will report to to the C. O., National Armory, for duty (S. O., Oct. 30, H. Q. A.)

Capt. Almon L. Varney, O. D., will inspect hospital property at Rock Island Arsenal, for which A. A. Surg. W. W. Grant, is responsible (S. O., Oct. 30, H. Q. A.)

Capt. Chas. S. Smith, O. D., will proceed to the U. S. proving ground, Sandy Hook, N. J., on public business (S. O., Nov. 2, H. Q. A.)

Signal Corps.

2d Lieut. Wm. D. Wright, Signal Corps, is assigned to duty in the office of the Chief Signal Officer (S. O., Nov. 2, H. Q. A.)

2d Lieut. Joseph E. Maxfield, Sig. C., is ordered to proceed from Washington to New London, Ct., and thence to Point Judith and Block Island, R. I., under instructions from Chief Signal Officer, and then rejoin station ((S. O., Nov. 4, H. Q. A.)

THE LINE.

Changes of Stations of Troops Ordered.

As reported to the Adjutant-General's Office during the week ending October 30, 1886:

Bat. H, 5th Art., to Fort Hamilton, N. Y.
Bat. L, 5th Art., to Fort Columbus, N. Y.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

1st Cavalry, Colonel N. A. M. Dudley.

Hdqrs., **B, D, E, G,** and **K,** Ft. Custer, Mont.; **A** and **C,** Ft. Maginnis, Mont.; **I,** Ft. Leavenworth, Kas.; **F, H,** and **L,** Ft. Assinniboine, Mont.; **M,** Camp Sheridan, Wyo.

Hdqrs., A, B, and D, Ft. Hays Kas.; E and F, Ft. Leavenworth, Kas.; C and I, Ft. Gibson, I. T.; G, H, and K, Ft. Riley, Ks.

Col. J. E. Yard, in a regimental order of Oct. 25, announces the death, Oct. 15, of Capt. Birney B. Keeler, recounts his distinguished services, and says: "His superior legal attainments soon attracted attention, and on the 44th of September, 1874, he was detailed as Acting Judge-Advocate of the Department of the South, and soon after was appointed Aide-de-Camp on the staff of Major-General McDowell, with whom he was associated until the latter's retirement October 15, 1882. Called to a sphere of duty apart from that of his regiment, his execution of the varied and important administrative trusts imposed upon him, was such as to receive the warm commendations of his superior officers, thus bringing credit to the organization of which he was a member, and in which he never ceased to take a lively interest. He was endowed with a mind well equipped and of more than ordinary resources; fearless individuality was among the lineaments of his character; imbued with a stern sense of duty; useful in his profession; gentlemanly and courteous in his relations with his associates, his death will be mourned with a sorrow befitting the loss which the Army and his regiment have sustained."

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

Boutelle, 1st Cav.; 1st Lieut. Lorenzo W. Cooke, 3d Inf.; 1st Lieut. James E. Pilcher, Med. Dept.; 1st Lieut. Jacob G. Galbraith, 1st Cav.; 2d Lieut. Haydn S. Cole, 3d Inf., and 2d Lieut. George L. Byram, 1st Cav., J.-A. (S. O. 111, Oct. 21, D. Dak.)

At Fort Elliott, Tex., Nov. 3. Detail: Capts. Gerald Russell and G. A. Drew, 3d Cav.; Capt. H. F. Leggett, 24th Inf.; Capt. R. C. Newton, Med. Dept.; 1st Lieut. M. C. Wessells and 2d Lieut. J. E. Brett, 24th Inf.; 2d Lieut. Arthur Thayer, 3d Cav., and 1st Lieut. B. W. Leavell, 24th Inf., J.-A. (S. O. 121, Oct. 26, Dept. M.)

At Fort Supply, I. T., Nov. 1. Detail: Major L. H. Carpenter, 5th Cav.; Capts. J. C. Gilmore and J. M. Thompson, 24th Inf.; 1st Lieuts. H. S. Bishop and E. P. Andrus, 5th Cav.; 1st Lieut. William Black, 24th Inf.; 2d Lieut. L. W. Cornish, 5th Cav.; 2d Lieuts. John Little and D. W. Fulton, 24th Inf., and 2d Lieut. G. W. Read, 5th Cav., J.-A. (S. O. 122, Oct. 27, Dept. M.)

At West Point, N. Y., Nov. 2. Detail: Capt. Henry Metcalfe, Ord. Dept.; 1st Lieut. John P. Wisser, 1st Art.; 1st Lieut. Francis J. A. Darr, 12th Inf.; 1st Lieut. Frank S. Harlow, 1st Art.; 1st Lieut. William P. Evans, 19th Inf.; 2d Lieut. Frederick S. Foltz, 1st Cav.; 2d Lieut. Clarence P. Townsley, 4th Art., and 1st Lieut. Oscar J. Brown, 1st Cav., J.-A. (S. O., Oct. 29, H. Q. A.)

At Fort Warren, Mass., Nov. 2. Detail: Major La Rhett L. Livingston, 4th Art.; Capt. William C. Shannon, Asst. Surg.; Capts. John P. Story and George G. Greenough, 1st Lieuts. William F. Stewart and Albert S. Cummins, 4th Art., and 1st Lieut. John A. Lundeen, 4th Art., J.-A. (S. O. 171, Oct. 30, Div. A.)

At Fort Wayne, Mich., Nov. 4. Detail: Capts. George M. Randall and Joseph T. Haskell, 23d Inf.; Capt. Marlborough C. Wyeth, Asst. Surg.; 1st Lieuts. Frederick L. Dodge, Orlando L. Wieting, and Stephen O'Connor, 2d Lieuts. William H. Allaire, Daniel B. Devore, and George D. De Shon, 23d Inf., and 2d Lieut. E. P. Pendleton, 23d Inf., J.-A. (S. O. 172, Nov. 1, Div. A.)

At Fort Porter, N. Y., Nov. 3. Detail: Major Samuel Ovenshine, Capts. Thomas M. K. Smith and Otis W. Pollock, 23d Inf.; Capt. William B. Davis, Asst. Surg.; Capt. Daniel H. Floyd, A. Q. M.; 1st Lieut. Charles Hay, 23d Inf., and 1st Lieut. S. Allen Dyer, 23d Inf., J.-A. (S. O. 172, Nov. 1, Div. A.)

At Fort Columbus, N. Y. H., Nov. 5. Detail: Capt. Charles Morris, 5th Art.; Capt. Henry P. Birmingham, Asst. Surg.; 1st Lieuts. Benjamin K. Roberts, Anthony W. Vogdes, and Samuel E. Allen, 2d Lieuts. Harvey C. Carbaugh and Avery D. Andrews, 5th Art., and 2d Lieut. W. P. Newcomb, 5th Art., J.-A. (S. O. 174, Nov. 3, Div. A.)

Army Boards.

A Board of Survey, consistng of Capt. James M. Marshall, A. Q. M., will report upon certain discrepancies in packages of property at general depot, Philadelphia, Pa. (S. O., Nov. 4, H. Q. A.)

A Board of Survey, to consist of 1st Lieut. John A. Lundeen, 4th Art., will meet at Fort at Clark's Point, New Bedford, Mass., Nov. 8, to take an inventory of the public property for which the late Ord. Sergt. G. S. P. Bradford was responsible at the date of his death (S. O. 174, Nov. 3, Div. A.)

S. O. 92, convening a Board to inspect and purchase cavalry horses, is modified to grant authority to the Board to visit Phœnix, El Paso, and Albuquerque, N. M. (S. O. 106, Oct. 25, D. Ariz.)

The Board of Officers of the Corps of Engineers will reconvene at New York City, Dec. 1, 1886, to continue the consideration of the questions before it (S. O. 164, Nov. 1, C. E.)

Retirements of Enlisted Men.

Ord. Sergt. William Hoffman, Nov. 1; Chief Trumpeter John Banse, 5th Cav., Nov. 1; Sergt. Peter Giacchetti, Bat. K, 2d Art., Nov. 1; 1st Sergt. Timothy Murray, Co. B, 13th Inf., Nov. 1.

Engineer Battalion.—A Willet's Point correspondent writes: The Brooklyn *Journal*, referring to the procession on Liberty Day, states that the gorgeous drum major of the Regular troops "whirled his staff like a wizard," etc. The drum major of the battalion band will hereafter be known as the "Wizard."

Pistol Practice.—During November pistol practice will be held by the troops of cavalry, as prescribed in Appendix A, Blunt's Rifle and Carbine Firing, three times each week when the weather will permit.

To Pay in Uniform.—Paymasters when making payments on the regular muster rolls will, hereafter, wear the undress uniform of their grade.

DEPARTMENT NEWS.

Dept. of Dakota.—Brig. Gen. T. H. Ruger,

There being trouble among the Cheyenne Indians on the Rosebud, a battalion of the 5th Infantry, commanded by Major Simon Snyder, left Fort Keogh Oct. 30, for the Cheyenne camp. The companies are: D, Lieuts. Tillson and Chatfield; E, Lieut. Miller, and G, Capt. Romeyn and Lieut. De-

frees. The military authorities, however, do not anticipate much trouble.

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

A despatch of Oct. 29 from Nogales says: There is a good deal of talk in Mexican political circles regarding an early revolution in Sonora, Mexico. The Americans in Arizona are looking on with great interest.

Division of the Atlantic.—Maj.-Gen. Schofield.

A Bedlow's Island correspondent sends us his impressions of the magnificent spectacle of Oct. 28 and says: "The detachment of the 5th U. S. Art., stationed here is getting along finely and great credit is due to Lieut. G. W. S. Stevens, of the 5th, for his careful supervision of everything pertaining to his charge, and his kindness and consideration for the soldiers."

Dept. of the Platte—Brig. Gen. George Crook.

The post of Fort Fred Steele, Wyo., has been discontinued and will be abandoned before the end of November. It is now occupied by a detachment of 20 men, under command of 1st Lt. Edgar W. Howe.

Division of the Pacific—Maj.-Gen. O. O. Howard.

A San Francisco paper says: "Suit was begun in the Superior Court, on Monday, by M. G. Vallejo against Gen. O. O. Howard, to recover possession of a tract of land at the Presidio, 1,500 varas square, which plaintiff avers has, since Oct. 6, been illegally held possession of. The land in question is that upon which the Marine Hospital and Mountain Lake is situated. Plaintiff claims the land under a deed from the Mexican Government, dated Oct. 6, 1866."

ARTILLERY SCHOOL.

GENERAL TIDBALL announces the exercises for November as follows:

Artillery—Service of the Sea Coast Guns, Mortars and Machine Guns, and the use of Mechanical Appliances for moving Heavy Artillery.

Infantry—Thursday and Friday to Infantry and Foot Artillery exercises.

Signaling—Officers not on the detail for Artillery drill, will receive instruction in Signaling, during the drill hours.

Fire Drill—Monday of each week one battery will receive instruction in the Manipulation of the Hydrants and coupling of fire hose, etc.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., Nov. 3, 1886.

THE corps of Cadets was reviewed this afternoon by Prince Louis Napoleon, who is travelling under the name of Count de Montcalière. The Prince was accompanied by the Italian Chargé d'Affaires and by Chevalier Michelet, who is the Prince's private secretary. After the review the Cadet Officers were called to the front and presented to the Prince.

The postponed officers' hop was held last Friday evening in Schofield Hall, and proved to be a very enjoyable affair. There were some thirty couples present, including about twelve young ladies, among whom were—Miss Schofield, Miss Stokes, Misses Biddle, Misses Brown, Miss Gordon, Miss Mann, Miss Erwin, Miss Bell. It was nearly two o'clock before the last of the gay party left the hall.

Lieut. Knight, 3d Cavalry, and bride, arrived on Friday and spent several days on the Post as the guests of Gen. and Mrs. Merritt.

Col. Moulton and Mr. Hoyt Sherman were here on Monday visiting Capt. and Mrs. Rockwell.

Lieut. Frank E. Eastman, 14th Inf., made a brief visit to the Post on Wednesday.

Prof. H. D. Todd and daughter visited the Post to-day. They are quartered at the Highland Hotel in Garrison's.

Dress parade now takes place at 4.15, there being no more drills.

A farmer named Odell, who lived in the mountains back of here, was drowned in Round Pond on Monday. He was driving home in an intoxicated condition and probably fell into the pond while too helpless to make an effort to get out.

Cadets Evans E. W. and Bruce have been appointed Lieutenants in the Battalion of Cadets, vice two of the Lieutenants reduced by sentence of court-martial.

Many interesting things are related of the good and charitable acts of the late Professor Forsyth. All whoever called at his house will remember his colored man, Abraham, who was a slave before the war. Abraham was sold when quite young, and for years Prof. Forsyth endeavored to bring together the scattered family, and finally succeeded in finding the mother in Tennessee, but did not live to see the re-union of the happy people.

Robert John Fleming, of Port Huron, Mich., Arthur Swain (alt.), Sand Beach, Mich., Jordan Dorman Ripple, Hoyestown, Penna., and Orlando H. Harriman, of New York City, N. Y., have been designated for examination for admission to the U. S. Military Academy.

(Correspondence of the Army and Navy Journal.)

WASHINGTON BARRACKS, D. C.

NOVEMBER 2, 1886.

BATTERY G, 3d Artillery, under command of Capt. Geo. F. Barstow, left Oct. 29 for Fort McHenry, having completed the tour of target practice at long ranges. The usual bi-monthly muster and inspection took place on Sunday last.

Lieut. John D. Barrette and detachment of 12 men left Oct. 30 to take charge of Fort Myer, Va., which has been recently placed under Gen. Gibson.

An amateur theatrical performance by the enlisted men will be given in a short time.

The Soldiers' Temperance Union held an interesting meeting Oct. 27. The evening programme included a scene from the "Hunchback," by Master Sol Stine and Mrs. Florence Leech; vocal solo, by Miss Goss, and recitations by Mr. Stine and Mrs. Leech.

The Shamrock Social Society held a meeting in the reading room of Battery C for the purpose of electing officers and making due preparations for the celebration of their "Patron Saint" on March 17.

(Correspondence of the Army and Navy Journal.)

FORT RINGGOLD, TEXAS.

OCTOBER 28, 1886.

A FEW months ago we organized a club here known as the Frontier Glee Club. Sergt. Von Holtz was elected president, Pvt. Garner, secretary, and Pvt. Davison, treasurer; and soon the club began to make its existence felt by providing the post with a first-class entertainment in the shape of a variety show. The show proved a complete success in every way, bringing about $60 into the treasury of the club. This money was again expended in costumes and other necessary articles, and the second show given on Oct. 20 was still better. Under the able management of Private Chas. Holle, of Troop I, 8th Cav., a splendid entertainment was given, consisting of minstrels, magic-lantern exhibition, song and dance solos, clog and jig, and farces, in which Privates Davison, Holle, and other members of the club sustained their parts creditably.

(Correspondence of the Army and Navy Journal.)

SAN ANTONIO, TEXAS.

OCTOBER 27, 1886.

THE "silver wedding" of Col. Elmer Otis, 8th U. S. Cav., took place last evening and the many friends of the family flocked to Government Hill to tender their congratulations to the Colonel and his good lady. The reception was held in the post hall, which was tastefully decorated for the occasion. The presents were numerous and costly, and indeed the whole affair was an expressive indication of the esteem felt for Col. and Mrs. Otis. Refreshments and dancing followed, the 8th U. S. Cavalry Band furnishing the music. Before parting there were many hopes that the Colonel and his wife might live to celebrate their "golden wedding," and enjoy all the comforts of life for many years. TOM TIT.

COURT-MARTIAL CASES.

In the case of a soldier recently tried at Fort Brown, Tex., for selling his clothing, the reviewing authority, General Stanley, says: The court originally neglected to follow the form of sentence recommended for a violation of the 17th Article of War, in Circular No. 2, Headquarters of the Army, 1884, and sentenced the prisoner to suffer a loss of only six dollars and three cents ($6 03). The proceedings were returned to the court for revision and it promptly rectified the error. The Seventeenth Article of War, requires that the sentence shall inflict a stoppage of pay to repair the loss or damage, which is separate and distinct from the corporal punishment to be inflicted. The sum total of the stoppage should be as much as the "Court-Martial may deem sufficient for repairing the loss or damage," but not more than one half of each month's pay should be affected. The fact that the Regulations of the Army require that a company commander shall enter the cost price of articles of clothing issued to a soldier, against his money clothing allowance, should not influence the amount of stoppage to be made, nor should it be considered by a court-martial. Even if it were proper to consider the charge against the clothing allowance, in assessing the amount of stoppage, a court-martial could not properly take judicial cognizance of the charge unless the fact that it had been made was shown by evidence. Owing to the difficulty of ascertaining the exact cost of repairing the damage, it has become the custom to govern the amount of stoppage in the sentence by the prices given in the official price list. When that is not possible, as in the case of a damage to a horse, it is the custom to govern it by the best evidence obtainable. It is doubtful if this fully carries out the intent of the article, as the price list is based on first cost only and does not take into consideration the items of transportation, hire of employees, loss, etc. It is not proper to assess as the amount of stoppage, the cost of transportation, nor is it proper to assess a fine as a punishment for a violation of this article. Although the Article of War authorizes corporal punishment other than confinement, the form of sentence recommended in Circular No. 2, Headquarters of the Army, 1884, sanctions only confinement, as a punishment. The form given in that circular states that the stoppage shall amount to "the total value of the ——sold and lost." (G. C. M. O. 65, D. Texas, 1886.)

In a recent case General O. B. Willcox says: There is a decided impropriety in the action of the judge advocate of the court in presenting in closed court, after the findings, an argument against the reception of a citation of previous trials and convictions referred to the court through him by the department commander. The mode of procedure is clearly set forth in the regulation on the subject, and the duty of the judge advocate is plain. However faulty the reasoning, this objection might have come with less impropriety from a member of the court. The court properly received it for consideration in adjudging the sentence, and it would have disobeyed a lawful executive order prescribing a mode of procedure, had it refused.

PROMOTIONS AND APPOINTMENTS.

TREASURY DEPARTMENT, 2D COMTROLLER'S OFFICE,
WASHINGTON, D. C., Oct. 25, 1886.

IN the matter of the application of Capt. Armstrong for a rehearing because of a charge of $121.80 raised against him in Settlement No. 6596, confirmed July 21, 1886.—Memorandum.

On Nov. 7, 1883, during a recess of the Senate, the President promoted R. G. Armstrong, 1st Lieut., 1st Inf., to the grade of Captain to date Sept. 20, 1883, vice Capt. Humbert, deceased, an Army retiring board having previously found Fred. M. Lynde, who was Sen. 1st Lt., 1st Inf., "incapacitated for active service." On Nov. 9, 1883, Capt. Armstrong entered upon the discharge of his duties of Captain, and on Dec 2, his name was sent to the Senate for confirmation, but the military committee considered his promotion instead of Lynde irregular and asked the President to withdraw it. By letter dated Feb. 2, 1884, the President revoked Capt. Armstrong's appointment and Feb. 4 withdrew it from the Senate and nominated him for promotion to Captain to date Dec. 14, 1883, vice Tolman, deceased. He was paid the difference of pay and commutation of quarters of Captain and 1st Lieut. of Inf., from Sept. 20 to Dec. 14, 1883, $121.80, which sum was charged against him in Settlement No. 6596 above referred to, which the officer asks to be reopened.

The power of the President to appoint all officers of the United States, both civil and military, under Section 2 of the Constitution is undisputed, and his right to fill up all vacancies that may happen during a recess of the Senate, by granting commissions which shall expire at the next session, is, also, under same section, clause 3, unquestioned. An appointment made by the President to a vacancy during a recess does not require the consent of any other person or body to make it complete, but the party so appointed is fully invested with all the powers, duties, and responsibilities incident to the office, and is entitled to the emoluments thereof until the end of the next session of the Senate. Such an appointment is not continued by a new appointment by and with the advice and consent of the Senate—the latter is a distinct appointment, and as soon as the second commission is accepted it is a virtual superseding and surrender of the former commission. U. S. v. Kilpatrick, 9 Wheaton, 720. As to the time when a promoted officer of the Army becomes entitled to the pay of the higher grade, we have been unable to find any Congressional enactment on the subject.

The Regulations of the Army contain this provision: "A person appointed to the Army or receiving a new appointment therein is entitled to pay from the date of acceptance only. If the appointment create vacancies to be filled by promotion, the promoted officers are entitled to pay of the new grade from date of acceptance of the appointee. *In all other cases of promotion the officer is entitled to pay from the date of the occurrence of the vacancy.*" A. R., 2392.

Navy officers are by Statute enacted June 22, 1874, allowed pay from the date they take rank when promoted in course to fill vacancies in the next higher grade. It has been an immemorial custom and practice to allow Army officers, when promoted, pay of the higher grade from the date of the vacancy. This Regulation made in 1863 has been recognized and sanctioned by Congress. Nothing else appearing, R. G. Armstrong would seem to be entitled to the pay of captain from Sept. 20 to Dec. 14, 1883, the date of his second commission, but owing to the fact that he overslaughed Lieut. Lynde, it becomes necessary to inquire whether he was legally in his office.

The subject of promotions and appointments is fully discussed in Opinions of Attorney General Williams, Vol. XIV., pp. 164 and 500. He says, that as the Constitution confers on Congress the power to make rules for the government and regulation of the Army, that body may impose such restrictions and limitations upon the appointing power as it deems proper in regard to promotions to any and all vacancies in the Army.

The Regulations contain this provision: "All vacancies in established regiments and corps to the rank of colonel shall be filled by promotion according to seniority, except in case of disability or other incompetency," p. 12, par. 36. Agreeably to the foregoing Regulations and according to the military history of Lieut. Lynde, before us, an Army retiring board found him "incapacitated for active service," and he was therefore ineligible for promotion.

Sec. 1255, Revised Statutes, withdraws retired officers from the line of promotion; Lieut. Armstrong being next in rank was promoted by the President. What the President did after Dec. 14, 1883, as to withdrawing Capt. Armstrong's name from the Senate and revoking his appointment cannot affect his right to the emoluments of the office for the time between Sept. 20 and Dec. 14, 1883. I think he was rightfully entitled to these emoluments during that time, that his official acts were legal and entitled to credit, and withdrawing his name from the Senate could not affect them. When the Senate met and he was nominated for promotion to that body, it was a different appointment, and had his nomination been rejected outright, he still would have been entitled to remain in office till the end of the session.

Accepting a new commission to date Dec. 14, 1883, he was rightfully entitled to the pay of the first appointment to that date, and I am therefore of the opinion that his request for a rehearing should be granted and the settlement reopened.

I. H. MAYNARD, Comptroller.

THE EIGHTH INFANTRY.

THE Arizona *Daily Star* referring to the recent orders sending the 8th U. S. Infantry from Arizona to the Department of the Platte says: "This news has created great excitement, and the feeling generally is one of vexation, for the reason that the regiment has not yet recovered from the move from California to this territory. The injustice to the 8th in sending it to Arizona after all the service it had done in Arizona for nearly 12 years previous, was so apparent in the movement of regiments last summer when it could readily have been sent to some department to take permanent station, when contrasted with the undisturbed status of the 9th and 17th in their respective departments, that those two regiments were moved without any apparent reason except to make amends for an evident oversight. Taking this move into consideration with its action in regard to the Indian campaign, and the manner in which the final result and great success of Gen. Miles is being treated, we are led to the conviction that some one is influencing the War Department, unfortunately to say the least. The 1st Infantry should not have been ordered out of this territory in the midst of an Indian campaign, which looked either like an injustice or a reflection on the regiment."

McLAWS'S DIVISION AT GETTYSBURG.

GENERAL McLAWS, late of the Confederate Service, takes exception, it appears, to the claim that he was driven back at Gettysburg by Gen. Crawford's forces. He writes as follows to the *Weekly Press*:

To the Editor of the Weekly Press:

SIR: Some years "after the war," when I was living in Augusta, Ga., a gentleman called at my office, and, introducing himself as Gen. Crawford, U. S. Army, commenced, after a few preliminary remarks on other and unimportant subjects, to converse about the war. Among other incidents he mentioned that he was the person who had found that copy of Gen. Lee's order which told how scattered were the divisions of his army, and which had been dropped by some one in the camp at Frederick, Md., and that he had handed that order to Gen. McClellan, who thereupon had hastened his march against Gen. Lee. He then spoke of the battle of Gettysburg, and finally remarked "that if I would acknowledge to him in writing my forces had been driven back from their advance on July 2, by the forces under his command, the Pennsylvania Reserves, it would be worth a grade in the Army to him."

I replied in effect that I could not make any such acknowledgment, as it was the first time I had ever heard of it. That all the accounts that had been given to me at the time by brigade commanders, colonels and other officers and privates had made me believe that Gen. Wofford, the only brigade commander who had brought his brigade from the front, had been ordered back by Gen. Longstreet. That Gen. Wofford so stated to me at the time, and it was done in a loud and positive voice and tone, and had afterwards reiterated it, in the presence of Gen. Longstreet, and from my own knowledge of Gen. W. and from the fact that his men came back in line of battle, with the General on horseback in the rear, and that there was no pursuit, not a gun being fired, I had every reason to believe that Gen. Wofford had really been ordered back, and was not followed by any one when he retired. After the gentleman had gone, I began to think that there might be something in Gen. Crawford's claim, that he had grounds of which I was ignorant, on which to base it. And if there was, I would give him the benefit of it; provided the statements of those who were in a position to know would authorize it. I accordingly formulated a series of questions which would cover the claim made by Gen. Crawford, and sent a copy to Gen. Wofford, whose reply was never received; (the General is since dead) to Gen. Humphries, who commanded the 21st Mississippi in Barksdale's brigade, and who succeeded Gen. Barksdale, killed on the 2d; to Gen. Bryan, who commanded a regiment in Gen. Wofford's brigade in the charge of the 2d, and who on the night of that day was placed in command of Semmes' brigade, vice Semmes dangerously wounded; to Col. McGlosking, colonel in Semmes' brigade on July 2, and to others. My inquiries were specially as to the retirement of Wofford's brigade, and, generally, as to whether any other brigade in my command had been driven back. As every one concurred in the statement made by Gen. Wofford to me on the battlefield, and what was told me there by others—being that he was not driven back, but retired solely because he was ordered, I think it best, so that all who read can judge for themselves to give you the statements of the most prominent of those writers who replied to my inquiries.

[Here follow extracts from letters received by Gen. Laws from the gentlemen named.]

From the foregoing statements made by officers of character, ability and experience, whom I know

were cool and collected under all circumstances, you will perceive that it would be impossible for me to say that my command was driven back by the advance of Gen. Crawford's forces along any portion of the line held by me on July 2, nor on the 3d. But on the contrary, whatever retrograde movement was made was done by order of authority superior to those immediately commanding the troops which retired, and the order to retire was given, not because of the threatening attitude towards them of the enemy in their respective immediate fronts, but because the necessity existed of making arrangements for a new condition of affairs affecting the whole Army.

Gen. Longstreet informs me that Gen. Crawford sought an interview with him when he was on a visit to New York, some time after the war, and asked him "what troops of his (Longstreet's) he (Crawford) had driven back at Gettysburg?" and that he (Gen. Longstreet) replied he could not tell him, as he was not aware that anyone had attacked him at Gettysburg. LAFAYETTE MCLAWS.

SAVANNAH, GA., October 7, 1886.

"TARGET PRACTICE FOR RECORD."

THE following colloquy is presumed to have occurred at a remote outpost, where amongst rank and file some enthusiasm has been manifested during the target season, now about to be closed. The captain, always regarded as "the head and front of the offending," asks the 1st sergeant why the company does not turn out at least a half dozen sharpshooters.

1st sergeant replies:

On the plain you see the mirage,
Which it negatives the tirage:
And there be fish-tailed winds as well.
Some says, it is the powder;
For, d'ye hear, it cracks no louder
Than the echo, thrice repested,
Of a lost soul that's been treated
To a brimstone bath well heated,
Whooping in the deeps of h—l.

Others say it is the sights,
Which both for *scheutzenfest* and fights,
Leftenant-Colonel Buffington
Has affixed to our new rifle.
Par parenthese 'tis no trifle,
Thus to modify *de novo*,
The workmanship *ab ovo*,
Wind-gauge, trigger-pull and sighting of a gun

Captain responds:

Well, if the times are out of joint,
And we fail to make the point
For one S. S. to qualify;
What does it signify?
Only this, that there is trouble in the pit.
Non-com.'s sent there are too honest;
Your detailed spy is *non est*:
And, Sergeant! *mea culpa*, let us quit.

CARTOUCHE

PRONE POSITION IN FIRING.

To the Editor of the Army and Navy Journal:

IT is gratifying to find an occasional advocate of the "prone position" in firing at long distances. There are many officers in the Army who think this should be the only position allowed in lying down firing at targets, as it is the natural position that would be assumed in going into action.

In this connection comes the query to Col. Blunt and the "powers that be"—would it not be well to make all practice at known distances preliminary, and base the figure of merit solely on skirmish firing at unknown distances? This system would undoubtedly silence a good deal of the adverse criticism on "machine soldiers," "tube shooting," and galleries hewn out of the forest.

Apropos to skirmish firing, it occurs to quite a number of officers that the *time limit* given this year in company skirmish firing, should be extended, say ten seconds, instead of six, in which to estimate distance, adjust sight and assume position of firing after the command, Halt, is given, and extend the interval of firing to 20 seconds.

It will be interesting to note the result of this year's skirmish firing with the time limit and the defective rear sight. A prediction is ventured that the percentage will be diminished ten per cent. on last year's shooting. Give us back an *open* rear sight that will not jump, for all the year round shooting A. M.

FORT APACHE, ARIZ., Oct. 26, 1886.

(From the Philadelphia Ledger.)

WHY THREE VOLLEYS OVER A GRAVE?

MR. EDITOR: Will you, if possible, inform me as to where the custom of firing three volleys over the grave of a deceased soldier originated, and what its meaning is? This question has just suggested itself after ceremonies incident to Major Ryan's funeral, and would probably interest many of your readers. S. F.

[The origin of the custom above referred to is involved in obscurity. "Notes and Queries," in answer to a similar question, published the following answer to a correspondent:]

"The earliest account of the procession, etc., that I have been able to trace is contained in a folio entitled, 'The Compleat Body of the Art Military,' by Richard Elton, Lieutenant Colonel, published in 1688. In chap. 25, lib. xii, pp. 190-192, A. C. Lomax will find full instructions for 'the ordering of a private company into a funeral service,' and in chap. 26, lib. iii, p. 192, similar instructions, though more brief, for 'the ordering of a regiment to a funeral occasion.' In both cases the systems then followed very much resemble the general ones now the rule of the service. The rear (that is the junior) ranks marched in front with arms reversed, and at the grave fired three volleys. This is sufficient to show that the custom is not a modern institution, but whence its origin is yet to be ascertained.

The writer of the above answer states that he had examined several military works without finding any satisfactory answer. Our own reference books mention the three volleys as a matter of course, but not the origin of the custom. The *Ledger* ventures the suggestion that it may have originally had some relation to the 'earth to earth, ashes to ashes, dust to dust,' of the burial service."

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. At Portsmouth, N. H., undergoing repairs.

TENNESSEE, 1st rate, 22 guns (f. s. n. a. s), Capt. Robert Boyd. At New York Navy-yard.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. At New York, Nov. 4. Has been ordered to Newport, R. I., preparatory to a winter cruise.

S. Atlantic Station—A. R. Admi. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. At the New York Navy-yard. Ordered to join the South Atlantic Station. Expected to sail daily.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. At Rio de Janeiro Oct. 6, 1886.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. At Rio de Janeiro Aug. 13.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns(f. s. e. s.), Captain George Dewey. At Genoa, Italy.

KEARSARGE, 3d rate, 7 guns, Comdr. Charles D. Sigsbee. At Gibraltar Oct. 5, 1886, per cable despatch. Has been ordered to return to the U. S., and is expected to arrive early this month.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Sailed from Legborn for Genoa, Italy, Sept. 26, to undergo repairs, on completion of which she will proceed East for the winter.

Pacific Station—Rear-Adm. E. Y. McCauley.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Was at Callao, Peru, Oct. 1, 1886.

HARTFORD, 2d rate, 16 guns (f. s. p. s.), Capt. J. H. Gillis. Was at Callao Sept. 30. Will shortly be ordered to San Francisco, Cal. She will go out of commission and undergo repairs, at the Mare Island Navy-yard. Address mail to care of Navy Pay Office, San Francisco, Cal.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Rio Oct. 24.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. Was at Callao, Peru, Sept. 30.

MONONGAHELA, 2d rate, 9 guns, Lieut. Comdr George B. Livingston in command. Used as a store ship at Coquimbo, Chili. Comdr. S. H. Baker was ordered to command, per steamer Sept. 11 from New York.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. At Apia July 19.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. Henry E. Nichols. At Sitka, Alaska. Address care of Navy Pay Agent, San Francisco, Cal. Lieut. Comdr. J. S. Newell has been ordered to command.

VANDALIA, 2d rate, 8 guns, Captain Henry L. Howison. Sailed from New York, Aug. 14, for the Pacific Station. Arrived at Montevideo Oct. 19.

Asiatic Station—Rear-Admiral J. L. Davis.

Rear Admiral Ralph Chandler has been ordered to command this station, and was to leave San Francisco per steamer of Oct. 30.

Vessel with (†), address, Mail, General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. At Port Said, Oct. 2, 1886. To remain till Oct. 4, and then proceed to Suez and Aden.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Reported by cable to have arrived at Port Said, Egypt, Oct. 27, on her way to the Asiatic Station.

MARION,† 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Chefoo Sept. 27.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. Was probably at Macao, China, Sept. 27.

OMAHA,† 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. Reported by cable to the JOURNAL to have arrived at Nagasaki, Japan, Nov. 1, 1886.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. Has been ordered to return to New York by the middle of February, 1887. Arrived at Singapore, Oct. 31.

PALOS,† 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. At Canton, China, Sept. 27.

Apprentice Training Squadron.

Address of *Portsmouth* and *Saratoga*, Newport, R. I.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

The second steam launch of the receiving ship *Minnesota*, of the U. S. Training Squadron, met with a catastrophe on Saturday morning, Oct. 31, while proceeding from Pier 27 North River to the ship. She had just emerged from the slip, blowing her whistles as a caution to passing tugs, when, without the slightest warning, she was struck by the Cornell Steamboat Company's tug *Edwin Terry* proceeding up the river close in to the New York shore. The blow crushed in the side of the launch and sunk her in five minutes. There were twelve men on board, consisting of liberty men and the usual crew. All were picked up by the tug, which had promptly stopped and backed, and only the coxswain of the boat got into the water. The launch was taking off marketing for the ship. All of this was, of course, lost, and somebody's breakfast was ruined. The launch lies at the bottom inside of the pier, and will probably be raised.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, flagship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I,

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Chas. V. Gridley. At New York, Nov. 4. Will be ordered to Norfolk, Va.

SARATOGA, 3d rate, 12 guns, Comdr. C. H. Davis. At New York, Nov. 4. Will be ordered to Norfolk, Va.

On Special Service.

DESPATCH, 4th rate, Lieut. Wm. H. Emory, Jr. At New York Navy-yard.

DOLPHIN, despatch boat. Lieut. Chas. O. Allibone in command. At Norfolk, Va.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. At New York, Nov. 4.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. Sailed from San Francisco, Oct. 30, for the Central American coast to resume her survey work.

ST. MARY'S, sails, 8 guns, Comdr. Edwin M. Shepard. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 20 guns, Capt. Henry Wilson. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails. 6 guns. Commander Frederick Rodgers. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

FORTUNE, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

ST. LOUIS, 3d rate, sails. Commander H. B. Seely. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

VERMONT, 2d rate, 7 guns. Captain Augustus P. Cooke. Receiving ship. At New York.

DALE, 8 guns. Commander Silas Casey. Receiving Ship. At Washington, D. C.

PHLOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate Kuhl, commanding. At Norfolk.

The iron-clads *Ajax*, *Catskill*, *Lehigh*, *Mahopac*, *Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

VARIOUS NAVAL ITEMS.

THE commanding officer of the French corvette *Minerve*, which arrived at Norfolk, Va., Oct. 29, visited the yard and paid his respects to Capt. Brown, U. S. N., the commandant. Salutes were exchanged between the *Minerve* and the receiving ship *Franklin*.

LIEUTENANT-COMMANDER TANNER, of the *Albatross*, on a cruise from Wood's Holl to Washington, caught a splendid specimen of the octopus, or squills, about one hundred miles north of Cape Henry. It is a small one, however, measuring only five feet across.

COMMANDER W. SCOTT SCHLEY, Chief of the Bureau of Equipment and Recruiting, arrived in New York on Monday and inspected the Apprentice Training Squadron, to ascertain what remained to be done to the vessels before they sail for the winter cruise to the Windward Islands, which will extend as far as Port au Spain, Trinidad.

El Nacional, of Lima, expresses the opinion that it is time to look upon the Panama Canal as a work that will be accomplished, and to make preparations for the changes it will necessarily bring about in Peru's political and commercial relations with the powerful nations beyond the Atlantic.

AT a meeting of the Naval Institute, held at the Navy Department on Thursday, Nov. 4, a paper was read by Lieut. C. C. Cornwell on "Compass Disturbances on Iron Ships, with reference to the new cruisers." After the lecture the election of officers of the Washington branch for the coming year took place.

CAPT. GEO. C. REMEY, commanding the Norfolk Navy-yard, informed the Navy Department under date of October 30, that the French man-of-war *La Minerve*, commanded by Rear-Admiral Vignes, fifteen guns and 430 men, arrived there that morning from Boston en route for the West Indies, and was then anchored off Fort Norfolk. She intended remaining about ten days. The usual civilities were extended.

THE Fish Commission steamer *Albatross*, Lieutenant-Commander Zera L. Tanner commanding, arrived at the Washington Navy-yard October 29, from her summer cruise, which has been a very extensive one. The headquarters of the vessel for the most of the season were at Wood's Holl, in Vineyard Sound, but she made one cruise to Newfoundland, and two cruises into deep water into and beyond the Gulf Stream off this coast.

PRINCE KOMETSU of Japan, with his suite, arrived in New York this week. In regard to his military mission the Prince is reported as saying that the Commissioner of the Navy was now in Europe looking into the matter of shipbuilding, and with the probable view of purchasing one or two new men-of-war each year from Europe. He said that it was the intention of the Japanese Government to add yearly four or more new vessels, themselves to build the smaller ones, and the larger ironclads to be bought of European governments.

IN reference to the proposed outlay on the French Navy it is stated that the average annual outlay in shipbuilding having for ten years been 30,000,000 fr., half the work being executed by private yards, the Government dockyards would take nine years to expend 140 millions. To avoid this delay arrangements have been made with six great firms to carry out the work in four years, with payment by fifteen annual instalments and 4 per cent. interest. The navy will thus be quickly re-inforced, and the private yards now lacking employment will regain activity,

$279,820 was received by the English Navy for the year ending April 1, 1886, from prize, bounty, salvage and other moneys.

THE boilers of H. M. S. *Racer* are reported to be caked with sediment caused by water taken in in the Mediterranean, near the region of the recent volcanic eruptions.

IN 1878 there were built in the United Kingdom seven steel ships, with an aggregate tonnage of 4,470, and 435 iron ships, of 517,692. For 1885 the figures were 118 steel, of 165,437 tons, and 260 iron, of 290,429 tons.

NAVAL officers who were in Peru during the recent eclipse of the sun, tell us that the natives at and near Callao fully expected that a prodigious earthquake, with earthquake waves, would almost necessarily form a part of the programme. Large numbers took the precaution to clear out and retreat to the hills, in anticipation of the event; and special trains, with numerous carriages attached, were all ready at the two railway stations, in order to give a chance of running away from the dreaded annihilation.

THE work of disassembling the defective six inch steel gun was successfully accomplished at the Washington Navy-yard on Monday. To remove the hoops and jacket from the tube is a delicate piece of work, but it was accomplished in a short time. The gun was placed on end in a mold of Fuller's earth, and liquid iron poured about it to expand the jacket by heat, so that the hoops, etc., could be dropped off. It has frequently been necessary to shift or remove the jacket hoops on guns, but this is the first instance of such extensive "disassembling." The gun was intended for the *Atlanta's* armament; owing to the time required to obtain a new tube it will have to be assigned to the *Chicago*. Aside from the delay the imperfection in this gun is particularly regretted because the rifling was novel and it was intended to test it in this gun to decide as to its adoption for others.

NAVY GAZETTE.

Ordered.

OCT. 30.—Sailmaker Thomas O. Fassett has been ordered to the receiving-ship Independence.

NOV. 2.—Ensign Gilbert Wilkes, to the Hydrographic Office.

Surgeon John L. Neilson, to the receiving-ship New Hampshire.

NOV. 4.—Lieutenant A. Marix, to duty in office of the Judge-Advocate General.

Passed Assistant Engineer Robert Crawford, to duty at the Mare Island Navy-yard.

NOV. 4—Lieutenant (junior grade) Lucien Young and Ensign Richard Henderson have been ordered to examination for promotion.

NOV. 5.—Lieutenant C. C. Todd and Lieutenant (junior grade) Alfred Reynolds, to examination for promotion.

Detached.

NOV. 1.—Ensign John J. Blandin, from the Galena and ordered to duty at the John Hopkins University.

NOV. 2.—Lieutenant James M. Helm, from the Coast Survey and granted one year's leave of absence.

Surgeon M. C. Drennan, from the New Hampshire and granted one year's leave, with permission to leave the United States.

Assistant Engineer Emil Theiss, from the Navy-yard Mare Island, and ordered to the Ranger.

Leave.

NOV. 1.—Ensign B. C. Dent, granted leave for four months.

NOV. 2.—Granted Ensign A. B. Clements and Paymaster Joseph Foster for six months.

Chaplain Wesley O. Holway has been granted leave for six months from November 3.

NOV. 4.—Assistant Paymaster W. B. Wilcox, granted leave for six months.

MARINE CORPS.

OCT. 30.—2d Lieutenant Lincoln Karmany, to proceed, November 18, to Boston, Mass., and report for duty at the Marine Barracks there.

Captain Wm. S. Muse, upon completion of course of instruction detached from the Naval War College, and ordered to report for duty at the Marine Barracks, Norfolk, Va.

1st Lieutenant H. K. Gilman, upon completion of course of instruction detached from the Naval War College, and ordered to report for duty at the Marine Barracks, Navy-yard, Washington, D. C.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending November 4, 1886:

John Little, coal-heaver, October 22, at the Naval Hospital, Chelsea, Mass.

George Maulsby, Medial Director, retired, October 27, at Washington.

FROM THE ASIATIC STATION.

REAR-ADMIRAL JOHN LEE DAVIS, commanding the Asiatic Station, reports to the Navy Department as follows, under date of Chefoo, China, Sept. 27:

The flag ship *Marion* was off Chefoo during the month awaiting the arrival of the *Ossipee*. She would leave shortly for Nagasaki, Japan.

The *Omaha* arrived at Chemulpo, Korea, from Hakodati, Japan, about Sept. 24, and was to remain there for the present.

The *Ossipee* arrived at Yokahoma Sept. 10. She left Yokohama on the 19th and arrived at Chefoo Sept. 27. As soon as coaled she would go to Chemulpo to communicate with the *Omaha* and rejoin the flagship at Nagasaki.

The *Monocacy* was relieved by the *Palos* Sept. 3, reached Hong Kong Sept. 6, where she was docked, her bottom scraped, examined and painted. She was probably then (Sept. 27) at Macoa.

The *Palos* was at Canton.

All was quiet within the limits of the station. The health of the officers and men continued excellent. Cholera had almost entirely disappeared from the ports on the station.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., NOV. 2, 1886.

Ensign and Mrs. E. E. Capehart arrived here last Saturday from Portsmouth, N. H., and have taken up quarters in the city. Although Cupid and his frolicsome tricks have played havoc in the bachelor's quarters, Dame Rumor assures us that a yet greater sweep is in store, and soon the bachelor's quarters will be almost deserted.

A welcome order was published at dinner formation last Monday, to the effect that drills would be suspended on Wednesday afternoons during November. This gives the foot-ball team an admirable chance to prepare themselves for the Thanksgiving Day contest, which they hope to win with flying colors. On the 6th they play the St. John's College team; on the 13th, Johns Hopkins University; Thanksgiving Day, with the same team, and on the 27th, with Princeton College. Superintendent Sampson was elected a member of the Athletic Association at their weekly meeting.

The infantry battalion has been making things hum on the parade grounds during the past week, under the command of Ensign Haeseler. Although the brief out-door drills of the fall do not generally permit the attainment of a very high standard of proficiency in the battalion, yet under Ensign Haeseler's very able management a great improvement over previous years has been noticed.

Cadet A. H. Scales, granted sick leave until Nov. 1, reported his return to the Academy on Monday.

The trial of the new steel guns of six and eight inch calibre for the new cruisers took place at the naval ordnance proving ground. This trial, required by Congress and known as the "statutory test," was made under the supervision of a board of naval officers, consisting of Captain J. A. Howell, President, and Lieuts. J. F. Meigs and A. M. Knight, members. The latter is in charge of the proving ground. Ten rounds were fired from each gun. The charge for the six-inch gun was 50 pounds of Dupont's cocoa powder, with a 100-pound shell, giving a muzzle velocity of 2,000 feet per second, with a pressure of 14.9 tons. The gun was fired as rapidly as possible, the time for the ten rounds being 11m. 45s. The charge for the eight-inch gun was 121 pounds of Westphalian cocoa powder, with a 250-pound shell, giving a muzzle velocity of 1,991 feet per second, with a pressure of 13.9 tons. This gun also was served as rapidly as possible, the ten rounds being fired in 15m. 8s. A large number of civilians and naval officers witnessed the trial, and all seemed much pleased with the results, which were pronounced entirely satisfactory.

BROOKLYN NAVY-YARD.

THE flagship *Tennessee* steamed alongside of the Cob Dock, Nov. 1, and will probably remain at the yard some time. A Board of Survey will be appointed at once to determine whether her condition justifies a moderate expenditure in repairs.

It is thought that either the corvette *Richmond* or the *Trenton* will be fitted out at an early day to relieve the *Tennessee* as flagship of the North Atlantic Station. The other one will go to the Pacific to relieve the flagship *Hartford*.

The *Alliance* is being calked, and will probably sail on a foreign cruise within a week. She is consigned to the South Atlantic Squadron and will proceed via the Mediterranean, Red Sea, Suez Canal, Madagascar, Zanzibar, and the east coast of Africa to her station, Rio Janeiro.

The old Arctic cruiser *Thetis* is being converted into a surveying ship.

It is likely that many of the double turreted monitors will be completed in the yard, which has facilities for this special work. The big ironclads to be taken in hand are the *Amphitrite*, *Miantonomoh*, and *Puritan*. Orders have been received to place the *Miantonomoh* in dock as soon as the *Richmond* is taken out, and the former is likely to occupy the basin, unless some unforeseen exigency arises, for a long time.

A large number of workmen have been ordered upon the steel cruiser *Boston*. She will in time give way to the big frigate *Chicago*, expected at the yard within a few weeks.

The delay in the completion of the steel clads is due largely to the fact that the ordnance is not ready. The new high power guns cannot be turned out in a few months, as in the case of cast iron guns. The steel ingots must first be made and the plant to convert them into guns is yet to be constructed on a large scale.

LEAGUE ISLAND NAVY-YARD.

"SPENCER C. MCCORKLE, a citizen of Philadelphia," writes a letter to the *Public Ledger* of that city in answer to Admiral Simpson's criticisms on the League Island Navy-yard, which appeared in *Harper's Magazine*. Mr. McCorkle says:

"League Island, the writer believes, is the only safe and secure place belonging to the United States where iron and steel ship building and repairing can be done. It has been demonstrated by recent surveys and comparisons that the Delaware is a better river now than it was 40 years ago. It has 22 feet at mean low water over all its bars, and the mean rise and fall of the tide is six feet, enough water to float any vessel belonging to the United States Navy at nearly all times of the tide, the exceptions being extreme low tides, which are neither more frequent nor lasting than at other points. The channel can scarcely be called tortuous, as a glance at the chart will show. Pilots and others accustomed to navigate the river do not find it difficult.

"In the Delaware the ice was very heavy for nearly two months, but there was not a day that a full-powered steamship could not reach League Island from the sea in from seven to nine hours with the ice at its worst, unless prevented by low water, an occurrence that is not confined to the Delaware, and as the water is always smooth over its bars, it has an advantage over other ports.

"There is little or no difficulty in ships lying at the quay wall during the winter season, especially if protected by piers. Many vessels of all classes were at the wharves in the city of Philadelphia and in the Schuylkill River, just above League Island, last winter and without damage. The St. Louis receiving ship has been at League Island several years. The water of the Delaware is nearly always good opposite the Navy-yard and is considered good water to carry to sea. The city of Philadelphia has been engaged in laying a water main of large diameter for the supply of the southern portion of the city, and it will not be difficult in the future to have an ample supply of such water as is given to the citizens of Philadelphia. The width of the channel opposite League Island, between the 13 feet curves, is over 2,200 feet. The distance from League Island to the sea, it is true, is great—about 100 miles; but is it not a matter of importance that at least one naval station should be out of the reach of an enemy's guns?

"It may be granted that at the present time League Island is not a very pleasant place for officers who have little to do, but if the facilities of the yard were increased, and ship building and ship repairing in active operation, there would not be so much fear of malarial influences. And farther, if the material that has been dredged from the Delaware and Schuylkill in the last ten years had been deposited on League Island, it would be a garden spot now. By building a ballast wharf—not a new idea by any means—and by notice given to the masters of vessels entering the harbor in ballast, they would be glad enough to avail themselves of the privilege of a place of deposit at the most eligible locality."

Various public documents are quoted in support of these views.

THE WASHINGTON NAVY-YARD.

NOTHING has been or will be done for some time looking to the proposed change of the Washington Navy-yard into an Ordnance Foundry. Although nearly the whole Yard has been given up to the Ordnance Department no changes of consequence has been made. That Department occupied nearly the entire Yard before the change was made and as there has been, as yet, no increase in the Ordnance work, matters are conducted much as usual.

The work on the guns for the new cruisers is so advanced that there is no need of pushing things while the increased work in the future for the proposed new cruisers will not be commenced for a good while. There is, therefore, an interregnum affording an opportunity for a careful consideration of the question before the Navy-yard is remodelled to meet the requirements of the future. Some of the buildings will be remodelled and new structures will doubtless be erected, but there is no hurry in the matter. The authorities are of the opinion that it will be, perhaps, a year before the Ordnance Foundry is well under way with its increased work. Before there is any increased activity it will be necessary to receive from the contractors the material for pursuing the work, and the contracts are not yet made. The contractors will doubtless be inexperienced and will have some trouble, perhaps, in furnishing satisfactory forgings. Although the Yard has been turned over to the Ordnance Foundry it will, therefore, be a good while before the Ordnance Foundry, as such, is well under way.

REVENUE MARINE.

2d Lieut. T. W. Benham, to the *Rush*.

2d Lieut. F. M. Dunwoody and 1st Asst. Engr. Horace Hassell, placed on waiting orders.

2d Asst. Engr. Paul Barnes, to the *Rush*.

THE FRENCH NAVY.

IT has several times been declared by French papers that Admiral Aube had determined not to go on with the armorclads now on the stocks. This is evidently not the case. According to the report on the Naval Estimates by M. Ménard-Dorian, over half a million sterling is to be spent next year in continuing the six monsters still unfinished. The *Admiral Baudin* is to be terminated next year, and the *Formidable* and the *Marceau* in 1888. The *Hoche*, which was launched the other day at Lorient, the *Neptune* and the *Magenta*, will not be completed until 1889 or 1890. Four armorclad gunboats will also be pushed forward, and the *Cocyte* and the *Grenade* will be finished in the course of 1887. According to the report presented to the French Budget Commission, the value of the French Navy on Jan. 1, 1887, will be $78,400,000. On Jan. 1, 1872, the value of the French Navy, including vessels afloat and building, was $44,704,330, so that there has been an increase during the last 15 years of close upon $33,700,000. During that period nearly $95,000,000 has been spent in the construction of new ships.

THE Second Comptroller allowed the following Mexican War claims during the week: Henry W. Wessells, Captain 2d U. S. Inf., $120; Albert Bowman (widow), Sergeant Co. E, 2d Dragoons, $39; Alex. K. Howard (widow), 1st Lieut. and A. C. S. 1st Mich. Vols., $65; James Sullivan, private Co. D, 1st N. Y. Vols., $21; Chas. C. Churchill, 2d Lieutenant 3d U. S. Art., $75, and John Hamilton, 2d Lieutenant 3d U. S. Art., $75.

Warnock's **Shoulder Straps** THE BEST.

Fine Wines, Havana Cigars, Fancy Groceries.
ACKER, MERRALL & CONDIT.
7TH STREET & 6TH AVE.; BROADWAY & 42D STREET,
130 Chambers St., New York.
☞ Orders by Mail will receive prompt attention.

Established 1811.
CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.
We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, -	$21.00
Old Reserve Whiskey, - - - -	18.00
Unrivalled Upper-Ten Whiskey,	15.00
Brunswick Club Whiskey, - - -	12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.
For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.
These Whiskies are sold under guaranty to give PERFECT SATISFACTION: otherwise to be returned at our expense. Correspondence solicited.

H. & H. W. CATHERWOOD,
114 SOUTH FRONT STREET, PHILADELPHIA.

N. Y. OFFICE—16 SOUTH WILLIAM ST.

CALIFORNIA VINTAGE CO.
21 PARK PLACE, NEW YORK.
LA ROSA ZINFANDEL **CLARET**—per cask $60.00, or bottled, corked only, 25 doz., $76.30. Packing for shipment at cost additional (cheapest manner, $7.50.) Send $4.50 for sample case to try, and you will *never* again pay high prices for inferior French wines. White wines, Ports, Sherries, Brandies, &c., *pure and reliable* at *moderate* prices.

Lundborg's Perfumes.

Lundborg's Perfume, Edenia.
Lundborg's Perfume, Maréchal Niel Rose.
Lundborg's Perfume, Alpine Violet.
Lundborg's Perfume, Lily of the Valley.
Lundborg's Rhenish Cologne.

A box containing Samples of all the above five articles prepaid to your nearest Railroad Express Office (which should be named) for Fifty Cents—Money Order, Stamps or Currency.
Address: YOUNG, LADD & COFFIN, 24 Barclay St., New York.

(EST. 1852.) **F. W. DEVOE & CO.,** 101 FULTON NEW YORK.

U. S. ARMY AND NAVY JOURNAL.
PUBLISHED EVERY SATURDAY.

NEW YORK, SATURDAY, NOVEMBER 6, 1886

Office, No. 240 Broadway New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.
Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.
Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.
Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.
Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.
We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

Cable address: 240 Broadway, New York.
ARMYNAVY.

MAGAZINE GUNS ABROAD.

IT is not yet settled that the Enfield-Martini will be adopted for the English Service and a strong effort is being made to secure a change in the programme. If this is done magazine rifles will probably be adopted and the Spencer-Lee would seem to have the best prospect of selection. The wisdom of our Ordnance authorities has decided against a change, and the Woolwich authorities appear to be equally short-sighted. Of their action, or rather the inaction in which they join hands with our officers, the London *Army and Navy Gazette* says: "While the adoption of a repeater or magazine rifle has been recognized as inevitable by all the great Continental Powers, and by several of the lesser States, our officials regard this great change as subsidiary and comparatively unimportant. The objection so often and so feebly made, that magazine rifles would entail an enormous waste of ammunition, is not worthy of a moment's consideration. Similar futile objections were made to breechloaders, to the general use of rifles, and even to percussion caps. But who now would venture to propose a return to flint and steel, to smoothbores or to muzzle loaders?" As to the waste of ammunition we recall the experience of one regiment during our Civil War, which was armed partly with magazine guns and partly with muzzleloaders. It was found by experience that the men having magazine guns actually wasted less ammunition than those having the slow shooters. Their confidence in their weapon led them to reserve their fire for the critical moment.

The *Gazette* says further: "Woolwich fought hard to retain the Boxer cartridge, and but for certain occurrences in the Soudan would probably have succeeded. That cartridge, with its complicated and flexible wrappings, failed repeatedly at critical moments, and by 'jamming,' both in rifles and machine-guns, caused lamentable and avoidable loss of life. Frequent representations of these unfortunate failures raised such a storm of indignation that the Boxer cartridge was reluctantly withdrawn from use."

The *Gazette* also raises objection to the adoption of a rifle with small calibre, holding that undue prominence is given to the lowness of trajectory and lightness of ammunition. The object is to kill or disable, and there is a point beyond which the size of the bullet can be reduced and that object attained. A small bullet passing through a limb, or even through the body, without breaking a bone or cutting a large vessel, does not generally prevent a resolute man from using his weapon, possibly with deadly effect. The *Gazette* says: "In reading of the settling of 'difficulties' in America, we sometimes find that a man who has been shot through by a small bore rifle or revolver continues to fight and to kill. Horses, perforated by small bullets, may still carry guns out of action, or bear their riders along to sabre broken infantry, or to effect a safe retreat. The importance and the effect of long range rifle fire are enormously exaggerated by some writers. The causes of deviation are many, and their results uncertain. Defects of vision, often unsuspected: sudden changes in the direction and strength of the wind, which baffle the best shots; refraction, which is seldom noticed and never allowed for; variations in light and in the density of the atmosphere; and in action, well, nervous excitement; all combine to render distant firing comparatively innocuous."

While England hesitates and America deliberately discards the magazine gun, the *Tagblatt* (Vienna) announces that a commission of Russian officers has already decided on the advisability of supplying the rifle regiments in the Russian Service with the Vetterli repeating gun, and the Austro-Hungarian Government decides on arming all the Regular Army of the first line and all the Landwehr with the repeating rifle, and placing the immense stores of the Wundt rifle in depots for the use of the Landsturm in case of need.

They have not yet determined on the pattern of the new arm. The Mannlicher magazine only holds five cartridges, the steel case is expensive, and the weapon cannot be used as a rifle *per se*, but must fire the magazine cartridges. The Schulof is its rival. The Austrian Government have such quantities of ammunition in store that they intend to keep to the 11-m.m. calibre, which makes the Schulof 10 lb. weight; but Herr Schulof is making one of 7 lb., which he intends to offer to the British Government. The inventor of the new weapon is Herr Joseph Schulof, of Vienna, who is well known in his own country as one of the best marksmen in pistol practice, besides being a manufacturer of small arms. At the outbreak of the war between China and France, Herr Schulof supplied a large number of rifles to the Chinese, the contract being negotiated by Li Fong Pao, the former Chinese Ambassador at Berlin. The trial of the weapon took place recently at a rifle range in Vienna. The inventor succeeded in firing his rifle, the magazine being closed, 24 times in a minute. Afterwards he changed it into a repeating arm by touching a spring which opens the magazine, when he fired off 52 shots per minute, including loading. The magazine holds ten cartridges, and these were fired in five seconds; while in loading, *i. e.*, filling the magazine, six seconds were consumed. This would make the time for loading and firing 52 shots about 80 seconds. The officers present were unanimous in declaring the new repeater to be the most perfect arm they had yet seen. Its simple construction, easy handling, and reliable action were much commented upon.

PAUL CLENDENNIN, of Oneida, Ill., and Charles L. G. Anderson, of Hagerstown, Md., have been appointed assistant surgeons in the Army, the for-

mer vice Dr. O'Reilly, promoted, and the latter vice Dr. Wales, resigned.

THE SORROWS OF TOMMY ATKINS.

ACCORDING to the London *Daily Telegraph*, the British Army and the British soldier stand much in need of improvement in many respects. The wearisome efforts, says our contemporary, to secure machine-like movements in large as well as small bodies of troops unfits the soldier for exercising his individual intelligence, and precludes him from acquiring, as he would if properly drilled, those experiences in out-door work of how to secure quickly those advantages when in presence of an enemy that always ensure success. The *Telegraph* says "it must be admitted that the British officers and men do not get that training best fitted to make practical soldiers." The ideas and practices of WELLINGTON'S day still prevail. The present march in close order is held up to ridicule. "The men are packed together like spoons in a paper wrapping. The leading soldier is followed, his back pressed against by his succeeding comrade's chest and his heels kicked by the other's toes. If the public wish to see this funny spectacle of ten soldiers walking as if they had only one body and one pair of legs among the lot, they can witness it any day if they will attend when the guard is being changed at the War Office or in Downing street."

The *Telegraph* takes heart of hope, however, in the fact that nowhere can better men be found out of whom to make splendid soldiers than in Great Britain, for the people are fairly educated, intelligent, and fond of open air athletic sports. "A glance at the Germans, with the vast proportion of their officers and men wearing glasses and spectacles, indicates that they can never as a race excel in marksmanship, and, as a fact, their men are poor shots compared even to our poorly trained troops." A fierce attack is then made upon the red uniform of Tommy Atkins. "Experiment has justified the selection as a danger-signal of a large red surface with a white band through it, and this is a very close analogy to the appearance of the British soldier in the dress of to-day. The unwisdom of the present attire is so well known that no officer in command of troops, unless a confirmed adherent of old-fashioned costumes, but has uniformly, when engaging on active service, discarded red clothing for the troops, and got the men dressed in gray or khakee." The *Telegraph* concludes a most pungent article by saying: "The British soldier's garb is cut and fashioned much according to the preconceived notions of the time of FREDERICK the Great, and his training is pretty much on the same old lines. In the days of MARLBOROUGH our troops were better dressed for the work they had to perform than they are in this year of grace; and reflective people regret to see that time and money has been wasted in making something else of our men than practical soldiers, skilled in all the niceties of the use of the rifle and active campaign life." These things being true it is a cause for admiration that the British soldier behaves as well as he does on active service, and by his innate pluck and perseverance, thwarts, as it were, the efforts of the governing authorities to retard his progress and endanger his life by a system of erroneous training.

POST TRADERS.

MAJOR-GENERAL O. O. HOWARD, U. S. A., in his recent annual report, refers to the variety and excellence of the stores kept for sale by the Subsistence Department and says: "If permits to sell these drinks to the men were taken away from these traders they could seldom exist. A soldier given-to-drink can, and does, get just as drunk on wine and beer as on stronger drinks; and it is not exaggeration to say that four fifths of our Court-martial cases, with their attendant expense to the Government, have their origin at the post trader's bar. True, often drunkards are regulated and restrained through reliable post traders, but the mischief lies in encouraging others, especially young recruits, to spend their money for drink. Facts do not support the statement that sobriety is promoted by supplying wine and beer to the enlisted men."

Still, there are many of our experienced line officers who think it better that the men should have full opportunity to buy these drinks; yea, something even stronger, *within* the garrison, than to go outside and buy from the sharks ever lying in wait to sell to the generous soldier those maddening and poisonous compounds which destroy mind as well as body. The soldier likes a good article as well as anybody, and it is reasonable to suppose that if he is given an opportunity to procure it he will by degrees, if not at once, be cured of his propensity to walk into the snares and pitfalls laid for him within a stone's throw of the temporary home provided for him by the Government.

THE receiving ship *Independence* was docked at the new stone dry dock at the Mare Island, (Cal.,) Navy-yard Saturday last, Oct. 30. This ship was the first vessel to be docked in this new structure. The dock is not finished, as the granite facing to the concrete has not been completed, and some grading, etc., is yet to be done, but the dock can be used at any time. The contract for 49,000 cubic feet of granite has been awarded to M. I. HEALY and Co., of San Francisco, at $2.27 a foot for dressed and $1.27 for dimension granite. There were four bidders from the Pacific Coast and three from the Atlantic Coast. This magnificent work will take a vessel 460 feet long, 78 feet beam and 28 feet draught. It was commenced in July, 1872, and hence has been already over fourteen years in building, and the estimated cost is $2,692,877.17, of which $2,501,242.17 has already been expended. The construction was first authorized on June 10, 1872, and in the following August ground was broken and work commenced. The concrete masonry for foundations commenced May 19, 1874, and the first stone was laid Dec. 1, 1874. The coffer dam was removed, the caisson put in place and pumps worked on August 21, 1886. The dock was opened on April 21 last. To show some of the advantages of wooden dry docks it can be mentioned that the St. John's, Newfoundland, dry dock, was built in eighteen months actual time, for $550,000. It is fair to say that the site was good and that there was no duty on the machinery and materials brought in. This dock can take a vessel 553 feet long, 52 feet beam, and 25 feet draught, and is built of wood on the SIMPSON plan. Docks of the same size can be built by contract in any one of our Navy-yards in two years and for less than a million of dollars. As Secretary WHITNEY does not propose asking for new ships, it is hoped that he will urge the construction of new docks.

IT is a noteworthy fact that simultaneously with the discussion here of the subject of Sunday in the Army, General BOULANGER issues the order to which we have already referred, deciding that Sunday in the French Army be devoted to repose in the army, and that all military service that is not absolutely necessary is on that day to be suppressed. Well conducted soldiers are, when not engaged in indispensable Sunday duty, to obtain, if they ask it, permission to spend the seventh day out of the barracks. We have not been accustomed to regard the French as a people devoted to Sabbatarian views, and General BOULANGER'S motive for issuing this order is shown by his declaration that if reviews and other military spectacles on Sunday are an occasion for outdoor recreation for the civilian, they are a cause of worse than useless fatigue to the soldier, who greatly needs to rest one day in the seven. We are glad to have this endorsement of our own views from so distinguished a foreign soldier, and the head of one of the largest military establishments in the world.

THE Lieutenant-General is understood to be in favor of garrisoning Fort Myer with several companies each of cavalry and infantry. Various arguments are presented in favor of this scheme. In the first place it is regarded as only proper that each arm of the Service should be represented at the National Capital, especially on occasions requiring a military escort to the President. Then again it is thought only fair that the cavalry should have a chance to enjoy the delights of an Eastern station occasionally. General SHERIDAN'S idea seems to be to have this post as a sort of station of rest for companies of cavalry and infantry which have earned a change of station through hardships encountered in Indian campaigns, as, for instance, Captain LAWTON'S command. The Secretary of War has not acted upon this recommendation as yet, and pending a decision regarding the garrisoning of the post, 2d Lieutenant JOHN D. BARRETTE, 3d Artillery, with a detachment consisting of 13 Artillery soldiers, is protecting the property there.

THE board recently appointed to examine and report upon the war claims of certain States and Territories, in accordance with a late act of Congress, convened and organized a few days since in the Glover Building on F street, near 14th, Washington, D. C. It will be some days yet, however, before work is in full progress, as it will require some time to get blank forms printed and other necessary preliminaries arranged. It is estimated that two years will be required to complete the work. The board consists of the following members: Major James Biddle, 6th Cav.; Major H. J. Farnsworth, Inspector General; Captain Edward Hunter, 1st Cav., and Lieutenant F. West, 6th Cav., recorder.

THE returns of the elections for the Fiftieth Congress are not yet clear or complete, but so far as received they indicate that the balance of power between Republicans and Democrats in the next House of Representatives may be held by a small number of members affiliated with the Labor party. The Democratic majority in the present House is forty-four. More than a year must pass before the meeting of the new Congress unless something unforeseen shall compel an extra session, but the result of the election will, no doubt, have an important influence upon the action of the present House, which commences its second session next month.

A RIGID inquiry is being instituted at the Admiralty into the disclosure of Lord CHARLES BERESFORD'S naval memorandum in presence of Vice-Admiral Sir ANTHONY H. HOSKINS and Lord CHARLES BERESFORD. Lord BERESFORD is said to be by no means displeased at the premature disclosure, without his concurrence, of this State secret. Its premature publication is ascribed to the system of subjecting government clerks to temptation by paying them starvation wages. The employment of retired officers of the army and navy in the Admiralty and War Office is suggested as a remedy.

IT is a mistake to say that the action of the Lieutenant-General in disapproving the findings of the court acquitting Captain WM. S. JOHNSON, is without precedent. Such cases have occurred with great frequency. We recall two within the past few months. Lieutenants VARNUM and COOK were recently tried and acquitted, the findings in each case being disapproved by General TERRY, the officer ordering the court, on the ground that the courts had erred in judgment. Such action is therefore not uncommon and certainly not illegal.

SPECULATION has ceased as to who will succeed to the Surgeon-Generalship, and those interested would be satisfied now if they could only ascertain the causes of the delay in making the appointment. Inquiry at the White House and of the Secretary of War elicits nothing, except that the matter is still in the hands of the President. Those most annoyed by the delay are Colonel BAXTER'S friends, who grow less hopeful as each day passes. These protracted spells of uncertainty proved fatal to him on two former occasions and they fear a similar result now. Our latest information, however, is that the choice lies between Colonel CHAS. SUTHERLAND and Lieutenant-Colonel JOHN MOORE, with the chances in favor of the latter.

WE publish in full this week the very interesting report of Gen. MILES upon his original campaign, portions of which appear in substance in his congratulatory order which was printed Oct. 23.

MR. LONGRIDGE writes a letter in which he reviews the history of his dealings with the English Ordnance Department, and says: "I have to-day signed an agreement to get a 6-in. gun made at the expense of the Government, but I am to receive no assistance whatever from any Government department. As I said in a recent pamphlet, 'Although this experiment is to be made at the expense of the

Government, and for the information and use of the Government, I am refused all assistance from any of the Government departments and have to evolve a gun, as the German philosopher did a camel, out of my own internal consciousness. This did not look like anxiety to give the system a fair trial under the guidance of the inventor; much rather has it the appearance of an unwilling assent to his undertaking a risk, which may possibly lead to a failure altogether independent of the principles of his system.' I am well aware of the risk I run in the agreement I have made. There are many details of gun construction with which I am only imperfectly acquainted. The gun will have to be made by those who are without experience in such work, and it will be tried and reported on by those who can hardly be considered unprejudiced, but I felt that it was better to run the risk rather than have it said that I dared not submit my views to the test of practical experience."

AN Imperial decree has just been issued for the reorganization of the Russian Artillery. It is estimated that, according to the new system, the mounted artillery will, in the course of next year, comprise 48 brigades, or 288 batteries, of which 192 will be field and 96 fixed batteries. The fortress artillery will consist of 50 battalions, each 457 strong when on a peace footing, with a war effective of 1,321. The two parks of siege artillery are at Dunaburg and Kieff, each park consisting of 280 big guns and 120 mortars, and by January 1 each of these parks of artillery will be raised to the following strength: 12 8-inch guns, 60 heavy 6-inch guns, 144 light 6-inch guns, 116 3-inch guns and 130 mortars. A new section has, since October 1, been formed at the War Office, and this section, which is to have the exclusive management of the artillery, is under the control of the Grand Duke Michael and General Sofiano, and though the artillery committee will often be consulted by the officers of this section, it will not have any controlling power. Each military division will in future have detachments of mounted, horse, and fortress artillery, these detachments being commanded by a field officer.

THE New York *Times* says: "The gentlemen who have assumed to know all about the President's intentions in regard to the appointment of a Surgeon-General, and who have given utterance to several alleged serious reasons for the President's disinclination to name Colonel J. H. Baxter, have probably done the medical purveyor a service instead of inflicting an injury. The assertion that he has ever insisted upon promotion as a political debt owed to him for party services is met by the answer that he has never written a letter expressing that idea, and it is learned that no such letter has been shown to the President. That he is a Republican has been no secret. Neither has it been a secret that his predecessor, General Murray, although appointed by President Arthur, was a Democrat. General Crane, who preceded General Murray, was also a Democrat appointed by a Republican President, and General Barnes, General Woodward, and General Hammond, predecessors in their order of the other Surgeons-General named, were all Democrats."

SAYS the London *Broad Arrow*: "While we are considering how to educate our young officers, the German Naval Squadron, 'consisting of four magnificent ships, with 54 guns and 1,500 men,' are en route to the West Indies and other places, with cadet schoolrooms and other accommodation for their future captains on board. Our cadets are being carefully dry-nursed in Dartmouth harbor in the meantime, and as carefully prevented seeing either the guns and ships they will have to serve in or the manners and customs of our foreign neighbors. When are the Admiralty going to wake up?"

A WASHINGTON despatch, referring to the duty recently devolved upon Inspectors of the Army to inspect colleges where army officers are detailed, says: "It is a well-founded belief that at some institutions there is no military instruction whatever, and the arms are not even unboxed to be cared for properly, while the detailed officer is wholly employed as a professor of mathematics or as instructor in some other study."

MAJOR HENRY CLAY WOOD, Asst. Adjt. Gen., has arrived in Washington and has been assigned to duty, temporarily, with Major Ward in charge of the pension branch. Major Volkmar, who is to succeed Major Wood as Asst. Adjt. Gen. in the Department of Columbia, will not arrive at Vancouver Barracks before the 1st of December. He left Washington this week for a short vacation, but will return there again before reporting for duty at his new station. Major Schwan, the new Adjt. Gen., has assumed full charge of the enlisted branch and has become so familiar with his duties already that he is now regarded as one of the regulars.

THE N. Y. *Times* of November 4, has a statement regarding the building of the dynamite-gun cruiser, authorized by Congress during the concluding days of the summer session, which is, to say the least of it, premature. The dimensions of the boat, etc., and the details of armament are correct, being copied from the bill. The assertion that "the contract for building the vessel has gone begging for six months," is, moreover, essentially inaccurate, it being but a little more than three months that Secretary Whitney has had the authorization of Congress to consider the expediency of this novel addition to the Navy; and, as a matter of fact, two shipbuilding firms would have been glad of a chance to present plans and estimates. The conditions of the contract, we agree with our contemporary, are severe, but the Naval architects of the country are not yet so financially poor that they will be frightened away from the entertainment of a contract by a bond of $350,000 to answer its requirements, or so diffident of their engineering and constructive ability as to admit the impossibility of achieving 20 knots per hour with a boat 230 feet long, 7½ feet draught, 3,200 horse-power and designed distinctively for speed. W. C. Cramp's Sons, who will in all probability build the new cruiser—though the *Times* has anticipated the fact by saying that the contract between that firm and the Pneumatic Gun Company was concluded on November 3—have all the professional science and the material resources requisite for the execution of the work they propose to undertake. From their practical skill and Lieutenant Zalinski's adapting genius we look for a combined result of the largest importance in Naval warfare.

THE changes in Light Battery Commanders took place on Monday of this week. They are now commanded as follows: E, 1st Artillery, Vancouver Barracks, Capt. Tully McCrea; K, 1st Artillery Presidio of San Francisco, Capt. W. L. Haskin; A, 2d Artillery, Little Rock Barracks, Capt. F. B. Hamilton; F, 2d Artillery, Fort Leavenworth, Capt. C. A. Woodruff; C, 3d Artillery, Washington Barracks, Capt. J. G. Turnbull; F, 3d Artillery, San Antonio, Capt. J. B. Burbank; B, 4th Artillery, Fort Adams, Capt. John Egan; F, 4th Artillery, Fort Snelling, Capt. G. B. Rodney; D, 5th Artillery, Fort Douglas, Capt. D. H. Kinzie; F, 5th Artillery, Fort Hamilton, Capt. J. R. Brinckle.

A WASHINGTON "special" referring to the yet unpassed bill to authorize the President to grant brevet commissions in recognition of service in fighting Indians, says Miles' Apache campaign and his commendation of a number of his subordinates is likely to help this bill next winter. Half a dozen captains and lieutenants rendered eminent services in this campaign, and distinguished themselves by courage, endurance, fertility of resource, and in fact, in every way that a soldier can distinguish himself, but beyond the commendatory language of the general commanding, and the Secretary of War, no official recognition of these services can be made.

CRITICAL *Broad Arrow* raises the question whether its London contemporary, the *Army and Navy Gazette*, is correct in saying of a deceased officer, General Baron de Mallet, that "He was maternal grandson of the fifth Viscount Molesworth, and has resided in England since his decease." Webster, who is supposed to excel in definition, gives these among the meanings of reside: "to remain, to dwell permanently or for a length of time; to abide continuously; to remain for a long time; to settle; to subside." Under any one of these definitions it would seem to be clear that the deceased Baron may be said to reside in England.

600,000 PERSONS visited the *Great Eastern* at Liverpool during the five months in which she was exhibited as a show-ship. She sailed from there on October 7, to Dublin, there to remain on show during the winter, while in the spring she is to proceed, to Havre, and there lie during the time the Havre Exhibition is open. On the voyage to Dublin a special entertainment was given in the 75 ft. tank for the benefit of the crew and visitors. On the side of the tank hung the announcement in large letters, "This tank held 1,760 miles of the Atlantic cable."

Now that the arts of peace are engaging the attention and employing the talents of our naval officers, the mercantile marine is receiving the benefit, in many ways, of the education bestowed upon the "Children of the Republic" at the Naval Academy. Lieut. V. L. Cottman, U. S. N., of the Branch Hydrographic Office, N. Y., is last officer who has placed American tide-water navigators under obligations by his talent for patient, skillful, compilation; he having, under the auspices of the U. S. Coast Survey, and from data supplied by the specialists attached to that valuable branch of the public service, prepared a series of tide tables for 1887, giving the time of high and low water, together with the variations, for all the principal Atlantic ports, for every day in the year. For painstaking accuracy these tables are models.

THE San Francisco *Report* says: "General Howard was resolved that the royal Japanese visitors should be early impressed with the military greatness of the United States, and so treated them last Thursday to what the *Chronicle* calls a 'grand review' at the Presidio, said grand review consisting of a parade of eight slim companies. The Japs were polite enough to express surprise and delight at the impressive spectacle, and no doubt had a laugh over it when they got back to the Palace Hotel."

THE amount ($35,000) apportioned by the Secretary of War to Fort Porter, N. Y., from the appropriation for rebuilding military stations, will be expended in building new barracks and a new guard house. Congress will be asked to make a sufficient appropriation during the coming session to permit the plans for new officers' quarters and other buildings to be carried out.

A DESPATCH of November 4, from Newburg to the New York *World* says: The West Point Foundry at Cold Spring was sold at auction to-day to William J. Paulding, President of the Association, for $150,000.

IMPORTATIONS BY NAVAL OFFICERS.

FOLLOWING is the decision by the Solicitor of the Treasury on the question as to the liabilities to duty of certain articles brought into port by officers of the *Portsmouth* and *Saratoga*. In connection with it attention is called to Article 12 of the Regulations for the Government of the Navy, Rev. Stat. p. 278.

Sec. 1624, Rev. Stat., Art. 12. No person connected with the Navy shall, under any pretence import in a public vessel any article which is liable to the payment of duty.

DEPARTMENT OF JUSTICE,
OFFICE OF THE SOLICITOR OF THE TREASURY,
WASHINGTON, D. C., October 29, 1886.

The Secretary of the Treasury:

SIR: I have considered the questions presented by your letter of the 27th instant, in relation to certain wines and other articles brought from abroad by the officers of the United States war vessels *Portsmouth* and *Saratoga* and found on board by the collector of customs on their recent arrival at Newport.

For convenience in order to properly answer these inquiries the articles so found may be divided into three classes.

1. Certain wines purchased abroad by the caterer of the mess and in use for consumption on board the vessel by the members of the mess or their visitors.

2. Certain articles including wines, gloves, clothing, etc., imported for the use of persons other than the officers bringing the same.

3. Other articles including wines, gloves, etc., brought for the officers' own use.

In regard to the first class, I would say that the wines although brought from a foreign country within the jurisdiction of a customs district were evidently not intended to be landed. Although the arrival is presumptive of an intent to land generally, yet circumstances which are apparent may rebut that presumption as in the present case. To constitute an importation there must be an arrival with intent to unlade. Therefore, with regard to these I should say that they are not dutiable if retained on shipboard for use according to the original intent as expressed.

In regard to the second class, viz.: the articles brought for the use of other persons than the officers bringing them whether as gifts or otherwise, I should say that they are dutiable and there is no discretion in the customs officers or in the Secretary of the Treasury to abate any portion of the duties prescribed by law. It becomes the duty of the collector in this case to collect the duties or to deposit the goods in store as unclaimed.

As to the third class, viz.: the articles brought for the officers' own use, I have to say, that the question whether they are dutiable or not, depends upon whether they are wearing apparel in actual use and personal effects, not merchandise. If they are, they are free of duty. It is a question requiring the judgment and discrimination of the collector after receiving the evidence by affidavit or otherwise of the owner, as in other cases. As to what constitutes wearing apparel in actual use and personal effects, the Supreme Court in Astor v. Merritt, 111th U. S., 202, has given a very wide and liberal construction to the statute. It is not essential that the wearing apparel, such as the gloves, stockings, etc., in this case shall have been worn on the person; but they fulfill the conditions entitling them to exemption, if bought in a reasonable quantity and within a reasonable amount suitable to the station in life and the means of the owner, and for the purpose of forming part of his present wardrobe. And the same liberal view was held as to personal effects, the words "not merchandise" in the statute being considered as defining and explaining the intent of Congress. Any of the articles named on the list bought for the personal use of the officer on shipboard or in his quarters on shore might come within the spirit of that decision and would be free of duty. I do not think that there are necessarily any penalties incurred by these officers, so that whatever is collected from them should be by way of duties on such of the goods as the collector may determine to be dutiable.

Very respectfully,
A. MCCUE, Solicitor.

REPORT OF THE SECOND COMPTROLLER.

THE annual report of the Second Comptroller of the Treasury shows that 50,829 accounts, claims and cases, amounting to $225,310,310, were settled during the year ending June 30 last, being an increase of 13,679 in the number of accounts adjusted, and an increase of $105,146,162 in amount. The large increase in the amount of the accounts adjusted ($105,146,162) is the result of an effort to dispose of the unfinished work in the adjustment of the accounts of disbursing officers, which had accumulated in previous years, and mainly those of Army paymasters and pension agents. The clerical force numbers 67.

In the back pay and bounty division 22,937 claims, amounting to $782,162 were adjusted; in the Army paymaster's division 7,809, amounting to $28,828,893; in the quartermaster's division 2,334, amounting to $19,458,544, and in the Navy pay division 2,975, amounting to $23,628,109. A special examination and revision has also been made, in connection with the Third Auditor, of the disbursements of the Signal Service from Sept. 1, 1880, until July 1, 1886, embracing expenditures to the amount of $1,865,333.04, which resulted in the suspension and disallowance of items therein aggregating $1,081,669.51.

THE OPERATIONS IN ARIZONA.

ANNUAL REPORT OF GENERAL MILES.

HEADQUARTERS DEPARTMENT OF ARIZONA,
ALBUQUERQUE, N. M., Sept. 18, 1886.

To the Asst. Adjt. Gen., Div. of the Pacific, Presidio, San Francisco, Cal.:

SIR: I have the honor to submit my annual report as follows. On the 5th of April I received the following instructions:

H. Q. OF THE ARMY, WASHINGTON, D. C., April 3, 1886.

Gen. Nelson A. Miles, Fort Leavenworth, Kansas:

The Lieutenant General directs that on assuming command of the Department of Arizona, you fix your headquarters temporarily at or near some point on the Southern Pacific R. R.

He directs that the greatest care be taken to prevent the spread of hostilities among the friendly Indians in your command and that the most vigorous operations looking to the destruction or capture of the hostiles be ceaselessly carried on. He does not wish to embarrass you by undertaking at this distance to give specific instructions in relation to operations against the hostiles, but it is deemed advisable to suggest the necessity of making active and prominent use of the regular troops of your command. It is desired that you proceed to Arizona as soon as practicable.

(Signed) R. C. DRUM, Adjutant General.

With as little delay as practicable, I proceeded to Fort Bowie, Arizona, and assumed command of the Department, April 12, 1886.

On the 20th of April, I issued the following G. O.:

H. Q. DEPT. OF ARIZONA, IN THE FIELD,
FORT BOWIE, A. T., April 20, 1886.

G. F. O. No. 7.

The following instructions are issued for the information and guidance of troops serving in the southern portions of Arizona and New Mexico.

The chief object of the troops will be to capture or destroy any band of hostile Apache Indians found in this section of country; and to this end the most vigorous and persistent efforts will be required of all officers and soldiers until the object is accomplished.

To better facilitate this duty and afford as far as practicable protection to the scattered settlements, the territory is subdivided into districts of observation as shown upon maps furnished by the Department engineer officer, and will be placed under commanding officers to be hereafter designated.

Each command will have a sufficient number of troops and the necessary transportation to thoroughly examine the district of country to which it is assigned, and will be expected to keep such section clear of hostile Indians.

The Signal detachments will be placed upon the highest peaks and prominent lookouts to discover any movement of Indians and to transmit messages between the different camps.

The Infantry will be used in hunting through the groups and ranges of mountains, the resorts of the Indians, occupying the important passes in the mountains, guarding supplies, etc.

A sufficient number of reliable Indians will be used as auxiliaries to discover any signs of hostile Indians, and as trailers.

The Cavalry will be used in light scouting parties, with a sufficient force held in readiness at all times to make the most persistent and effective pursuit.

To avoid any advantage the Indians may have by a relay of horses, where a troop or squadron commander is near the hostile Indians he will be justified in dismounting one-half of his command and selecting the lightest and best riders to make pursuit by the most vigorous forced marches, until the strength of all the animals of his command shall have been exhausted.

In this way a command should, under a judicious leader, capture a band of Indians or drive them from 150 to 200 miles in forty-eight hours through a country favorable for cavalry movements; and the horses of the troops will be trained for this purpose.

All commanding officers will make themselves thoroughly familiar with the section of country under their charge and will use every means to give timely information regarding the movements of hostile Indians to their superiors or others acting in concert with them, in order that fresh troops may intercept the hostiles or take up the pursuit.

Commanding officers are expected to continue a pursuit until capture, or until they are assured a fresh command is on the trail.

All camps and movements of troops will be concealed as far as possible, and every effort will be made at all times by the troops to discover hostile Indians before being seen by them.

To avoid ammunition getting into the hands of the hostile Indians every cartridge will be rigidly accounted for and when they are used in the field the empty shells will be effectually destroyed.

Friendly relations will be encouraged between the troops and citizens of the country and all facilities rendered for the prompt interchange of reliable information regarding the movements of hostile Indians.

Field reports will be made on the 10th, 20th and 30th of each month, giving the exact location of troops and the strength and condition of commands.

By command of Brig.-General Miles:

WM. A. THOMPSON, Captain 4th Cavalry, A. A. A. G.

The districts of observation were placed under command of experienced officers, and sufficient troops were given to each to enable him to make his district untenable for any hostile bands.

Early in April I decided to make prominent use of the Signal Service and so notified the Chief Signal Officer of that Bureau, and in answer to my request he furnished me ample men and appliances for making that service most useful and effective.

Each troop of cavalry and company of infantry was fully equipped with the necessary supplies and transportation for effective service.

ORGANIZATION OF THE PURSUING FORCES.

I made such disposition of our troops as would give the best protection to our own citizens, and organized an effective force to pursue them when in Old Mexico. For this purpose I selected Captain H. W. Lawton, 4th Cavalry, an officer who had a brilliant record during the war, whose splendid physique, character, and high attainments as an officer and commander peculiarly fitted him for one of the most difficult undertakings to which an officer could be assigned. He also possessed another element of success in believing that the Indians could be out-manœuvred, worn down, and subjugated. His command was comprised of picked cavalry and infantry, scouts, guides, etc., with a pack-train capable of carrying two months' provisions, with the necessary ammunition and medical supplies. Before this command was organized the Indians assumed hostilities, making simultaneous attacks at three points in Central Sonora, from near the Mexican Border to 150 miles south of that line. This raid spread terror throughout that district of Mexico. The hostiles swept northward and on the 27th of April invaded our territory, passing down the Santa Cruz Valley stealing stock and killing a few citizens, including the Peck family. At this point they struck a section of our country further west than they had appeared in for many years, not however without opposition. Captain T. C. Lebo, with his troop, 10th Cavalry, was quickly on the trail and after a hot pursuit of 200 miles brought them to bay in the Pinito Mountains, some thirty miles south of the boundary in Sonora. In this rapid march and encounter, Capt. Lebo displayed his usual energy, good judgment, and gallantry, and although engaging a hostile adversary on grounds of their own choosing and with every natural obstacle against him, he made a good fight, inflicting some loss and sustaining very slight loss to his own command. During the engagement Corpl. Scott, a brave soldier, was severely wounded and lay disabled under a sharp fire of the Indians and Lieut. Powhatan H. Clarke, a gallant young officer, distinguished himself by rushing forward and with his own hands and at the risk of his life carried the disabled soldier to a place of safety. A youth thus rescuing a veteran under a severe fire indicates that the days of chivalry have not passed.

After the engagement the Indians continued their retreat and the trail was soon after taken up by Lieut. H. C. Benson, 4th Cav., a very enterprising young officer of Capt. Lawton's command, who during this entire campaign has rendered most difficult and valuable services. They were then pursued south and west. Their trail was again taken up by Lebo's command and later by Capt. Lawton, and they were finally on May 15 intercepted by the command of Capt. C. A. P. Hatfield, 4th Cav., which had been placed to intercept them, east of Santa Cruz, Sonora. The hostiles were completely surprised, Capt. Hatfield's command capturing their entire camp equipage and about twenty horses. At this fight the hostiles lost their first deserter, who having his horse shot under him, crawled into the rocks and continued his retreat for forty-five days, surrendering at Fort Apache, 250 miles north, on the 28th day of June. Unfortunately while passing west through a deep and narrow cañon, towards Santa Cruz, embarrassed with his captured property and Indian horses Capt. Hatfield's command was attacked by the hostiles and a sharp fight ensued. There were several cases of conspicuous bravery displayed in this fight. The action of Sergt. Samuel H. Craig was most heroic and very worthy of praise. 1st Sergt. Samuel Adams, and citizen Packer George Bowman exposed their lives in attempting to rescue John H. Conradi, of that troop, who lay seriously wounded on the ground, but still using his rifle to good effect. This act of bravery and heroism would have been richly rewarded had not this unfortunate soldier received a mortal wound as he was being borne from the field by his devoted comrades.

After Hatfield's fight, Lieut. R. A. Brown, 4th Cavalry, an enterprising young officer, with a small command struck the trail and pursued the hostiles in an easterly direction with good effect. The hostiles then divided and a part struck north passing through the Dragoon, Caesura, and Santa Teresa Mountains. While these movements were being conducted, preparations were made to prevent the Indians at the different agencies affording the hostiles any assistance in men, ammunition or provisions, and on the third day of May, I went as far north as Fort Thomas, Arizona, and there met Capt. F. E. Pierce, commanding at San Carlos Agency, and Lieut. Col. J. F. Wade, commanding at Fort Apache.

Soon after assuming command of the Department, I became convinced that there could be no permanent peace or lasting settlement of the chronic condition of warfare that had for centuries afflicted the territories now comprising Arizona and New Mexico, and the bordering Mexican States, until the hostile Apache Indians then on the warpath were captured or destroyed and those at the agencies entirely moved from that mountainous region. The trails they had made in past years showed that their raids had been from the Agency through the settlements, and back again to that source of evil, and every few years their boys became full-fledged warriors, who in order to achieve distinction according to the traditions and practices of their fathers, were compelled to commit savage acts of devastation.

I then informed Col. Wade that he should make it his duty not only to prevent any communication between the hostiles and the Indians on his reservation, but that he should exert his utmost energy to bring the camp of Chiricahua and Warm Springs, who were then not only mounted but still armed and liable at any time to assume hostilities, entirely under his control and gain their confidence if possible, but at least, to obtain such control over them as would enable him to remove them from the territory in case he received an order from me to that effect, and furnished him additional troops to accomplish that object. That duty could not have been assigned to a more efficient, judicious and determined officer.

Capt. Pierce, who is by appointment of the President, in charge of the civil administration of the San Carlos and White Mountain Indians, and who is a very faithful and efficient officer fully concurred with me in the importance of the work, and actively co-operated in the enterprise. The matter was kept a secret and every effort was made to bring about the desired result.

PURSUIT OF THE HOSTILE INDIANS.

I return again to the movements of the hostile Indians who were now divided into two bands. The one moving north through the Dragoon Mountains was intercepted by Lieut. L. M. Brett, 2d Cav., they crossing the Southern Pacific Railroad near Dragoon Summit, thence passing north to a point west of Fort Grant, Arizona.

In this pursuit Lieut. Brett displayed great energy and determination. The Indians going over the roughest mountains, breaking down one set of horses would abandon them and pass straight over the highest ranges and steal others in the valley below, while the troops in order to pursue them were obliged to send their horses around the impassable mountain heights, and followed the trail on foot climbing in the ascent and sliding in the descent. He went at one time twenty-six hours without a halt, and was without water during eighteen hours in the intense heat of that season. When they were in the mountains west of Fort Grant, Lieut. L. P. Hunt, 10th Cav., took up the trail and later the pursuit was continued by Lieuts. R. D. Read, Jr., S. D. Freeman, J. W. Watson, J. B. Hughes, and W. E. Shipp, 10th Cav., Lieut. A. T. Dean, 4th Cav., and Lieut. G. W. Ruthers, 8th Inf., and when near Fort Apache all the horses then in the hands of the hostile raiding party captured by Captain J. T. Morrison, 10th Cav. The Indians then turned south and the pursuit was again continued by troops under Capt. S. T. Norvell, 10th Cav., Capt. Allen Smith, 4th Cav., Capt. G. C. Doane, 2d Cav., Lieut. W. E. Wilder, 4th Cav., and others. They finally recrossed the Mexican boundary.

The other party or band of hostiles were followed west by Lt. Brown until the trail was struck by Capt. Lawton. They were turned north by the movement of the troops under Capt. A. E. Wood, 4th Cav., and Lieut. Wm. Davis, Jr., 10th Cav., and then entered our territory again east of Oro Blanco, Arizona.

Then the pursuit was taken up by Capt. Lebo and Lieuts. Davis and Clarke, 10th Cav., and followed through the Santa Rita, Whetstone, Santa Catalina, and Rincon Mountains.

When in the Catalina Mountains, they were attacked by a body of citizens under Messrs. Samaniego and Leatherwood from Tuscon, Ariz., and a boy who had been recently captured by them was recaptured. They were pressed south by Capt. Lebo and Lieut. Davis, Capt. Lawton and Lieut. John Bigelow, Jr., 10th Cav., and in passing through the Patagonia Mountains, they were intercepted by Lieut. R. D. Walsh, 4th Cav., June 6, with a loss of much of their equipments and stock. They were then pursued by Capt. Lawton and Capt. J. G. McAdams, 2d Cav., into Sonora for the second time. These movements occurred in the Districts commanded by Cols. Royall, Shafter, Wade, and Mills, who made excellent dispositions of their troops.

From that time, Capt. Lawton with a fresh command assumed the arduous and difficult task of pursuing them continuously through the broken, mountainous country, of Sonora, for nearly three months.

In this remarkable pursuit he followed them from one range of mountains to another, over the highest peaks, often 9,000 and 10,000 feet above the level of the sea, and frequently in the depths of the cañons, where the heat in July and August was of tropical intensity.

A portion of the command leading on the trail were without rations for five days, three days being the longest continuous period. They subsisted on two or three deer killed by the scouts and mule meat, without salt. The pack trains had been delayed by the roughness of the road and the difficulty in following the trail.

A portion of Capt. Lawton's command consisted of picked infantry, a part of the time under command of Lieuts. Henry Johnson, Jr., and C. P. Terrett, 8th Inf., Lieut. H. C. Benson, 4th Cav., Asst. Surg. Leonard Wood, Lieut. T. J. Clay, 10th Inf., and Lieuts. J. J. Haden and S. E. Smiley, 8th Inf.

These men made marches where it was impossible to move cavalry and pack trains; but their laborious and valuable efforts were crippled by the miserable shoes, made at and furnished from the military prison at Ft. Leavenworth, Kan. The worthless material frequently fell to pieces in three or four days marching. This not only occasioned unjust expense to the soldiers, but caused them unnecessary and cruel hardship and suffering. His scouts and trailers performed very difficult service under Lieut. Leighton Finley.

The troops suffered somewhat from fever, but fortunately they were very strong men and endured their hardships with commendable fortitude. When on the Yaqui River and in the district of Moctezuma, the hostile camp was surprised and attacked by Capt. Lawton's command. The Indians escaped among the rocks, but their entire property, with the exception of what they could carry, was captured, including all their horses. They scattered in every direction, but whenever this occurred the troops followed the trail of a single Indian until they came together again. They committed several murders and many depredations in the districts of Sahuaripa, Ures, Moctezuma, and Arizpe, in the State of Sonora, Mexico, and moved rapidly north by a march of nearly 300 miles to the vicinity of Fronteras in Arizpe, district Sonora. Meanwhile the concentration of our troops in the vicinity of the hostile camp, the rapid movement of two troops of cavalry under Lieut.-Col. George A. Forsyth, 4th Cav., from Fort Huachuca, the movement of Lieut. James Parker, 4th Cav., from the east, and Lieuts. James Lockett and W. E. Wilder, 4th Cav., with his own and Lieut. D. N. McDonald's troop, 4th Cav., from Fort Bowie to that point, and the very vigorous and rapid movement of Capt. Lawton in following them up from the south, were most threatening to the Indians, and had a most discouraging effect upon them.

During their raids in the United States Territories, fourteen persons were reported killed by the hostiles; in their raids through the Mexican States their depredations were still greater.

REMOVAL OF THE CHIRICAHUA AND WARM SPRINGS INDIANS.

During the time the hostiles were 300 miles south of the Mexican boundary, and when a temporary peace and security prevailed in our own Territories I turned my attention more particularly to the removal of the Chiricahua and Warm Springs Indians, as their camps have been the place of refuge for the hostiles for years.

In my visit to Fort Apache, the Honorable Secretary of the Interior very kindly sent his secretary, Mr. L. Q. C. Lamar, Jr., to accompany me. This secured a co-operation of that Department, and avoided any conflict of opinion or authority. I made a very careful examination into the condition of the Chiricahua and Warm Springs Apaches. I found over 400 men, women, and children, and a more turbulent and dissipated body of Indians I have never met. Some of them, chiefly women, were industrious. They had raised a little barley, but much of their earnings and crops went for trifles and "*tiswin*" drunks; riots and bloodshed were not infrequent.

These people were on paper prisoners of war, yet they had never been disarmed nor dismounted and the stillness of the nights was often broken by the discharge of rifles and pistols in their savage orgies. The indolent and vicious young men and boys were just the material to furnish warriors for the future and these people although fed and clothed by the Government had been conspiring against its authority. They had been in communication with the hostiles, and some of them had been plotting an extensive outbreak. Being fully confirmed in opinion that the permanent peace of these Territories required the removal of these tribes from the mountains of Arizona, I sent a delegation of both Chiricahua and Warm Springs Indians to Washington, under charge of Capt. Dorst, to confer with the authorities with a view of some location being selected for them where they would no longer be a disturbing element. My first intention was to have them moved to some place east of New Mexico, all their arms taken away, the most of their children scattered through the Industrial Indian Schools, and should they consent to go peaceably, enough domestic stock, money, and farming utensils given them to make them self-sustaining, and such disposition made of the hostiles as should subsequently be determined upon by the Government as most advisable.

There were ten men sent to Washington, and the number included several of the principal leaders and some of the most dangerous characters. Nothing was accomplished at Washington, and the delegation was ordered back to Arizona. Against this I telegraphed an earnest protest, giving as a reason that if these Indians returned to Arizona, in defiance of the military authorities and the appeals of the people for their removal, outbreaks and disturbances might be expected for the next twenty years; that their presence had been a menace to the peace of this country and that in my opinion there could be no hardship in retaining a handful of Indians at Carlisle, Pa., until a question involving the lives, property and peace of the people of this section of the country could be satisfactorily decided.

This had the desired effect of stopping their return—not, however, until they had reached Kansas on their way to Arizona.

They were then independent and defiant and their return to the mountains about Apache under the circumstances would have been worse than the letting loose of that number of wild beasts. I then asked that Capt. J. H. Dorst, 4th Cav., who had charge of them, be ordered to report to me, and I also ordered Lieut.-Col. Wade, commanding at Fort Apache, to report to me at Albuquerque, N. M. The importance of the measure then appeared to me sufficient for taking very decided action.

Capt. Dorst was directed to return to Fort Leavenworth and inform those Indians that they could be either friendly treaty Indians or individuals; that they could conform to the wishes of the Government and people, and consent to the peaceable removal of the Indians referred to from these territories, or they could return and be held responsible for their crimes. As the principals had committed scores of murders and warrants for their arrests were awaiting them—and they could not expect the military to shelter them from the just and legal action of the civil courts—the effect of this plain talk was the absolute submission of the Indians to any disposition the Government might decide to make of them. They agreed to go to any place that I might designate, there to wait until such time as the Government should provide them a permanent reservation and funds, domestic stock and utensils by which they could become self-sustaining. This was the first step in that direction that promised ultimate success. In the meantime I had directed Colonel Wade to place those tribes near his post at Apache entirely within his control and in addition to the three troops of cavalry and two companies of infantry then under his command, I ordered one troop from San Carlos, two from Fort Thomas, A. T., and one from Alma, N. M., to march to Fort Apache.

This important and difficult service Lieut.-Col. Wade performed with good judgment and decision. He placed the Indian men under guard and moved the entire camp of nearly 400 persons 100 miles to Holbrook, Arizona, on the Atlantic and Pacific Railroad, and thence by rail via Albuquerque, St. Louis and Atlanta to Fort Marion, Florida. This I regard as one of the most difficult duties that can be required of a commanding officer and it was accomplished with complete success.

While at Fort Apache, July 1, I learned from one of the Apaches who left Geronimo's camp after Capt. Hatfield's fight, of the weakened condition of the hostiles, and that and other information convinced me that they could not hold out much longer against the zealous and persistent action of the troops, and that they would soon surrender. I selected two Chiricahua Indians from those at Apache and sent them with Lieut. C. B. Gatewood, 6th Cav., to Fort Bowie, Arizona, and thence south into Sonora.

SURRENDER OF THE INDIANS.

The effort of a small party of Indians to get through the lines south of Bowie near the boundary, and their action in not committing any depredations indicated a desire to surrender or get past the troops to the agency. When near Fronteras there was some communication between the Indians and the local authorities regarding terms of peace,

but it amounted to nothing as the Indians would not place themselves in the hands of the Mexicans. During the two days of truce while this matter was being considered, Lieut. Wilder met two of the Indian women belonging to the hostile camp and informed them that if they and their people desired to give up they could surrender to the American troops, and when the hostiles withdrew from the vicinity of Fronteras closely followed by Lawton's command, communication was opened through means of the two men above referred to with Lieut. Gatewood. They were sent forward with a demand for the surrender of the camp. This resulted in their meeting Lieut. Gatewood, when he rode boldly into their presence at the risk of his life and repeated the demand for their surrender. They refused to surrender at once, but they desired to see Capt. Lawton who had pursued them with great pertinacity. Capt. Lawton granted the interview, but the Indians asked similar terms and privileges to what they had been given before and through the interpreters sent me two messages and made most urgent appeals to see the Department Commander. I replied to Capt. Lawton that their requests could not be granted and that he was fully authorized to receive their surrender as prisoners of war to the troops in the field. They were told that the troops were brave and honest men and that if they threw down their arms and placed themselves at the mercy of the officers, they would not be murdered. They promised to surrender to me in person and for eleven days Capt. Lawton's command moved north, Geronimo's and Natchez' camp moving parallel and frequently camping near it. At the request of Capt. Lawton, I joined his command on the evening of September 3d, at Skeleton Canyon, a favorite resort of the Indians in former years and well suited by name and tradition to witness the closing scenes of such an Indian war.

While en route to join Lawton's command, Geronimo had sent his own brother, with the interpreter, to Fort Bowie to see me and, if not as a hostage, as an assurance of their submission and desire to surrender and as an earnest of their good faith.

Soon after reaching Lawton's command, Geronimo came into our camp and dismounted; then coming forward unarmed he recounted his grievances and the cause of his leaving the reservation. He stated that he had been abused and assailed by the officials and that a plot had been laid to take his life by Chatto and Mickey Free, encouraged by one of the officials; that it was a question whether to die on the war-path or be assassinated; that at that time he was cultivating a crop and if he had not been driven away he would by this time have been in good circumstances. A part of this story I knew to be true. I informed him that Capt. Lawton and Lieut. Gatewood were honorable men and that I was there to confirm what they had said to them; that though Capt. Lawton with other troops had followed and fought them incessantly, yet should they throw down their arms and place themselves entirely at our mercy we should certainly not kill them, but that they must surrender absolutely as prisoners of war to the Federal authorities and rely upon the government to treat them fairly and justly. I informed them that I was removing all the Chiricahua and Warm Springs Indians from Arizona and that they would all be removed from this country at once and for all time. Geronimo replied that he would do whatever I said, obey any order and bring in his camp early next morning, which he did. Natchez sent in word requesting a pass of twenty days to go to the White Mountains, but this was refused. They had found troops in every valley, and when they saw heliographic communications flashing across every mountain range, Geronimo and others sent word to Natchez that he had better come in at once and surrender. Natchez was wild and suspicious and evidently feared treachery. He knew that the once noted leader Mangus Colorado, had years ago been foully murdered after he had surrendered, and the last hereditary chief of the hostile Apaches hesitated to place himself in the hands of the pale faces.

He sent in word that if Geronimo would come out he would return with him. I told Geronimo to go and bring him in, and the two subsequently rode in together, and dismounting moved forward, and Natchez formally surrendered his camp. It was then late in the afternoon of September 4, and soon commenced raining in torrents. Early next morning Natchez's people came in and joined Geronimo's camp and I immediately started to return to Fort Bowie, distant sixty-five miles, taking with me Natchez, Geronimo and four other Indians, reaching there after dark. Capt. Lawton following reached that post three days later. The night before reaching Bowie, three men and three squaws crawled out of Capt. Lawton's camp and escaped into the mountains. There was one Mescalero among them and they have since been trailed towards the Mescalero agency and it is believed will soon be arrested by the troops. On reaching Fort Bowie, the Indians were placed in wagons and sent under heavy guard to Bowie Station, thence by rail to El Paso and San Antonio, Texas. Immediately before and after the surrender, several official communications were received regarding these Indians, but their surrender was in accordance with measures I had taken and directions given to bring it about months before, and the direct result of the intrepid zeal and indefatigable efforts of the troops in the field: when they surrendered they had not ammunition enough to make another fight. At the time referred to I did not suppose that the Indians who surrendered or were captured would in any marked degree be considered different from those hostile Indians who had in the past surrendered to others and to myself in other parts of the country. It is true that they have committed many grievous offences, and there are some malicious and vicious looking men and boys in the camp, but Natchez, and Geronimo and his brother do not appear to be among the worst. Since the establishment of the Government there have been two methods or policies of dealing with the Indians. One, holding them individually responsible for their acts and amenable to the local laws, subject to arrest and punishment; the other, the almost universal policy—where their offences have assumed the nature of an insurrection—to use the military forces against them as a people, and by the devastations of war and destruction of their property, and imprisonment of the whole tribe or banishment from their native country, to effectually subjugate and punish them as one body. Such men as Natchez and Geronimo occupy the same status as Red Cloud, who led the Fort Fetterman massacre, Chief Joseph, Rain-in-the-Face, Spotted Eagle, Sitting Bull and thousands of others, many of whom have burned and mutilated their living victims.

In determining what policy it is legal and judicious to pursue regarding these Indians it may be well not only to consider the course the Government has pursued heretofore in its relations with Indians, but also the probable effect which any radical departure from established policies would have upon other Indians that may in the future be in hostility to the Government. Should they be held as prisoners of war and never allowed to return again to the territories of Arizona and New Mexico—and there are military reasons why this would be advisable—I would recommend that their children of suitable ages be placed in the various industrial Indian schools in order that the rising generation may not suffer from the acts of their fathers, and that their present degraded condition may be materially improved.

Arbitrary and absolute banishment is a severe punishment for any people, and its effect upon neighboring tribes has been very salutary heretofore, in other parts of the country.

All of the friendly Indians in this Department have been kept under control, and the hostile bands have "by prominent use of the Regular troops" been subjugated and are now prisoners.

These gratifying results have been produced by the most laborious and persistent effort on the part of all—officers and men.

The hostiles fought until the bulk of their ammunition was exhausted, pursued for more than 2,000 miles over the most rugged and sterile districts of the Rocky and Sierra Madre Mountain regions, beneath the burning heat of midsummer, until worn down and disheartened they find no place of safety in our country or Mexico, and finally lay down their arms and sue for mercy from the gallant officers and soldiers, who despite every hardship and adverse circumstance have achieved the success their endurance and fortitude so richly deserved.

The above is not the only good work accomplished by the disposition of the troops and a thorough system of communication over the different sections of these vast territories. The military were thus enabled to give substantial protection to the scattered settlements, and in addition to this have removed the whole hostile Apache tribe, who have fought the civilized races for 300 years, from the Territories of Arizona and New Mexico.

This affords the citizens of these territories great gratification and the troops a feeling of relief to know that they are away from this part of the United States.

The results of the military operations during the last four months will, I believe, effect a saving for the Government of $350,000 per annum, and the benefits to the material interests of these territories cannot well be estimated.

HONOR TO WHOM HONOR IS DUE.

I am under obligation to Gov. Luis E. Torres, of Sonora, Mexico, for his most courteous and hearty co-operation. His intelligent and liberal construction of the terms of the compact between the two Governments was of very great assistance to our officers in moving troops and supplies through that portion of the country, and was acquiesced in by our Mexican officials. In fact every assistance within his personal and official powers was rendered by the Governor to aid in arresting the common enemy that had for many years disturbed the peace of the two Republics.

To Gov. E. G. Ross, of New Mexico, and Gov. C. Meyer Zulick, of Arizona, as well as the territorial officials under them, I am thankful for their fullest sympathy and support.

To the District Commanders, Cols. Grierson, Kautz, Shafter, Bradley and Royall, Lieut. Cols. Wade and Morrow, Majs. Mills, Beaumont, Van Vliet and Vance, Capts. Tupper, Chaffee, Sprole and others I am much indebted for the earnest and judicious use of their troops.

Capt. Wm. A. Thompson, 4th Cav., was appointed acting assistant adjutant general in the field, and in that capacity rendered most valuable assistance. His personal knowledge of the country and his many soldierly qualities have rendered his services most valuable.

Lieuts. Dapray and Stanton have each rendered efficient service in the capacity of aides-de-camp. Reports of the officers of the general staff are hereby enclosed, also roster of the troops.

Maj. Barber has discharged the important duties of assistant adjutant general with fidelity and intelligence, and I enclose herewith his annual reports, also the report of Col. L. P. Bradley, commanding the District of New Mexico.

Lieut. Spencer's report and map will show the various trails of the Indians and routes of march of the troops and other topographical information that will be found of interest, and when fully developed will be of value in the future.

The reports of Lieuts. Dravo and Fuller will show the workings of the most interesting and valuable heliographic system that has ever been established. I have made this service useful heretofore, and it would be found valuable in any Indian or foreign war. These officers and the intelligent men under them have made good use of the modern scientific appliances, and are entitled to much credit for their important service.

I would invite special attention to the report of Major Kimball, chief quartermaster of this Department. This efficient officer has rendered most important assistance in the thorough organization and equipment of the means of transportation and in the prompt and proper disbursement of the public funds, and Lieuts. Benson, Neall and Patch are entitled to especial mention, for their arduous and efficient service as A. A. Q. M.

Captain Weston, chief commissary of subsistence, has through his agents kept the scattered camps well supplied.

I enclose herewith the report of Assistant Surgeon Leonard Wood, who accompanied Captain Lawton's command from the beginning to the end. He not only fulfilled the duties of his profession, in his skillful attention to disabled officers and soldiers, but at times performed satisfactorily the duties of a line officer, and during the whole extraordinary march, by his example of physical endurance greatly encouraged others, having voluntarily made many of the longest and most difficult marches on foot.

I also submit the report of Capt. Lawton, who has distinguished himself as a resolute and skillful commander. His report of the operations of his command and account of one of the most remarkable marches ever made will be found valuable and interesting.

On the 19th of April last, soon after assuming command and seeing the wants and necessities of the Department, I addressed a letter to the Adjutant General of the Army (copy enclosed) and I would repectfully invite attention to that important subject. The recommendations contained in that letter are respectfully renewed. So long as the territory adjacent to the international boundary remains as it is now, the greatest temptation is offered and facilities afforded for marauding bands of outlaws, whether composed of Indians or others of a kindred nature, to make forays from the Mexican side of the line or seek refuge there after devastating the settlements on our own soil, renders the military defences of paramount importance, and fully justifies the extension of the appropriation for defences between Texas and Mexico, made a few years since, to this line also.

The scattered settlements, and vast material interests of these territories require that strong military garrisons be maintained at available stations in order that the lives and property of the citizens, as well as the public interests, may be as secure and well protected here as in other parts of the United States.

Very respectfully, your obedient servant,

NELSON A. MILES, Brig. Gen., U. S. Army,
Comdg. Dept. of Arizona.

Military Order of the Loyal Legion.

At a meeting of the Minnesota Commandery at St. Paul Nov. 3 the applications of Maj. E. M. Van Duzen and Col. C. B. Lamborn, U. S. V., were acted upon. After the business meeting an interesting paper was read by Gen. John B. Sanford entitled "Reminiscences of the War in the Department of the Missouri." This commandery keeps steadily progressing, having now a membership of 112.

At a meeting of the District of Columbia Commandery, held Nov. 3, Col. A. A. Hosmer and Capt. W. P. Atwell, U. S. V., were balloted for: Col. J. Conrad and Major J. W. Clous, U. S. A., have been received by transfer. The total membership Oct. 20 was 355.

At a meeting of the Wisconsin Commandery, held at Milwaukee Nov. 3, several new candidates were balloted for and a most interesting meeting was held. The Commandery now numbers 139.

At a meeting of the New York Commandery held at Delmonico's, Nov. 3, General E. L. Molineux, presiding, the following were elected: Lieut.-Commander Charles H. Rockwell, U. S. N., Capt. Samuel C. Peck, Jr., U. S. V., Bvt. Brig.-Gen. Alfred B. Smith, U. S. V., Capt. Judson B. Andrews, U. S. V., Bvt. Brig.-Gen. Edward F. Winslow, U. S. V., Surgeon Horatio N. Beaumont, U. S. N., P. A. Engineer James Entwistle, U. S. Navy, Capt. William O. Wyckoff, U. S. V., 1st Lieut. Adj. Joseph W. Plume, U. S. V., Act.-Ensign Philip B. Low, Late U. S. N., Bvt. Col. Benjamin F. Watson, U. S. V. and Captain Walter P. Tillman, U. S. V. Maj. Gen. J. M. Schofield and Maj. J. P. Sanger, U. S. A., and Capt. W. A. Clark, U. S. V., were received by transfer. Gen. T. B. Van Buren was transferred to the California Commandery, and Lieut. W. M. Wright, U. S. A., to the Nebraska Commandery. The death of Prof. John Forsyth, U. S. A., retired, was announced and proper action taken. After the meeting an interesting military paper was read by Maj. Thorndike D. Hodges, U. S. V.

ASSISTANT PAYMASTER T. J. COWIE, U. S. N., who joined the *Saratoga* this week, "has," says the Newport (R. I.,) *News*, "during his stay made a host of friends by his uniform courtesy and agreeable manners."

THE STATE TROOPS.

THE NEW YORK INSPECTIONS OF 1886.

THE following table gives a condensed statement of the numerical status of the New York and Brooklyn regiments as developed by the inspections just closed:

Present at Inspection.	Present.	Absent.	Total.	Per Cent. Present at Inspection.	Regt.	Per Ct.
1. 7th	966	65	1031	1. 23d		97.2
2. 23d	675	20	695	2. 7th		93.6
3. 69th	660	218	878	3. 12th		87.3
4. 12th	566	82	648	4. 22d		85.3
5. 22d	523	90	613	5. 14th		84.8
6. 13th	503	116	619	6. 13th		81.2
7. 14th	487	87	574	7. 69th		75.1
8. 9th	413	157	564	8. 11th		74.6
9. 71st	410	146	556	9. 71st		73.7
10. 11th	351	119	470	10. 73d		73.2
11. 8th	213	245	458	11. 8th		46.5

The result, while exceptionally satisfactory in many cases, fell generally short of the mark. As a rule the degree of instruction and discipline, so far as can be determined by an inspection of the sort they have in the National Guard, was commensurate with the size of the organizations, or in other words those who had the largest roll and the highest percentage present showed the best training and highest efficiency under arms. The 13th, of course, in view of recent occurrences, must be regarded an exception to this rule. While it cannot with reason be expected that all the regiments, especially of a body of volunteer troops, should exhibit the same degree of excellence, and be filled at all times to the maximum strength, the difference exhibited here is too marked to be passed over as a matter of course, and for this reason the subject has become the cause of much comment among those interested in the welfare of the State troops. The causes of the large absentee lists are mainly attributed to the recent frequent calls on the troops, and to lack of judgment, by selecting an improper season of the year for the inspections, when business is most active and men bound by their daily avocations. The fact that the percentage of absentees was largest in the weaker regiments, where the general interest is at the lowest ebb, and where men are on the lookout for any sort of pretence to remain away, confirms that the first mentioned theory is correct, and as compulsion in the National Guard can only be exercised to a certain extent, it follows that those who control the Guard should use careful discretion as to when, how, and how often to order out the men.

Holding the inspections in the evening gives the impression that they are not regarded as of much importance, and this naturally makes men indifferent. Furthermore, the troops are not alone inspected in the busiest season of the year, but also at the beginning of the drill season, when the ranks are full of men who have never been properly drilled, which accounts for much that calls for remedy in the set up and general bearing of the men. The percentage of recruits, again, is naturally larger in the weaker organizations where the most changes occur, and this is another reason why lack of numbers goes hand in hand with lack of general excellence. In the larger organizations the men "stick" better, and hence the contrast between the beginning and the end of the season is not so marked. Yet all labor under a disadvantage on this account, and the first step towards a remedy would be to shift the inspections from fall to spring, when the winter's work is completed, when each organization can show what it has accomplished during the months of active instruction, and when men are so situated that they can afford a full day for inspection without detriment to their ordinary every day occupation. We have reason to believe that the Inspector's and Adjt.-General's Departments hold sensible views on this subject, and, therefore, it may be expected that a change in the time of holding the inspections will be made. Reform in this matter would, no doubt, lessen the percentage of absentees.

To arrest the further decay of the decaying organizations is a more difficult matter. The present cry is, "Give us new armories and we will build up." Of course, in Brooklyn, where the people care for their soldiers, this does not apply, and the regiments, generally, are well-filled up or, at least, increasing. In New York, where the General Public is indifferent, this cry, if not all, covers a great deal of the ground, and it is but reasonable that men will not join regiments quartered in cramped, unsafe armories in deteriorating localities. Whatever the cause, however, the pitiable state of several organizations cries loudly for remedial measures, and the armory question should be brought to a satisfactory conclusion. It is the duty of the authorities to prevent the further appearance as "regiments," of organizations which barely count in their ranks sufficient material to form two maximum companies.

With the Inspector-General's Department lies the duty of providing for a more practical system of instruction, the present one being calculated entirely for show. This is a very important subject, but as we have frequently at length called attention to the necessity of a change, we do not intend to refer here to the matter in detail. That a different standard of judging about these matters is necessary is, however, beyond question.

The above table speaks for itself.

A QUESTION OF TACTICS.

WISCONSIN says:

In your remarks on the recent Governor's review of the 1st Brigade, N. G. S. N. Y., you say: "Colonel Clark in taking position on the right of the Brigadier-General after passing in review made, in our opinion, an error. (See decision from A. G. O. of Aug. 28, 1885, published in 'Official Memoranda of Decisions,' A. G. O., of Nov. 9, 1885.)" Now, as that very decision distinctly prescribes that the Colonel *should* take his place on the right of the General commanding the *brigade*, may we ask for the benefit of interested readers for an explanation?

The decision referred to by our correspondent is as follows:

HDQRS. OF THE ARMY, ADJT.-GENERAL'S OFFICE,
WASHINGTON, Aug. 28, 1885.

Colonel Charles King, A. D. C., Wisconsin National Guard, Milwaukee, Wisconsin:

SIR: Referring to your communication of the 21st inst., submitting questions on points of tactics, I have the honor to reply as follows: 1st. Neither paragraphs 826 nor 827, Infantry Tactics (for review of a brigade in line, and in line of

masses), expressly state whether or not the Colonels commanding battalions leave their battalions, after passing in review, to take place on the right of the general of brigade. Paragraph 826 does, however, state that the column passes in review according to the principles prescribed for the review of a battalion, and in the review of a battalion it is prescribed that the colonel leaves the head of column after passing the reviewing officer. Besides, the note at the foot of page 379, Infantry Tactics, states that "The ceremonies for brigades, divisions, and corps were originally prepared by Brevet Major-General A. T. A. Torbert, U. S. Army, but have been modified to meet the requirements of assimilation," and paragraph 18, General Torbert's form for review of a brigade of infantry, page 368, Upton's Infantry Tactics, edition of 1869, that "when each colonel has passed the reviewing officer six or eight paces, he will turn to the right, leaving his staff at the head of the column, and place himself on the right of the brigade commander till his regiment has passed. This rule is general for a brigade review."

For the Colonel to place himself by the side of the Brigade Commander does not violate any of the principles of assimilation of the Tactics. Moreover the presence of the Colonel at the reviewing point is desirable, that he may give information in regard to details of his regiment that might not be known to the General commanding the brigade.

I am therefore of the opinion that, in the review of the brigade the Colonels commanding battalions, should, unaccompanied by their staff, take place on the right of the General commanding the brigade.

2d. The tactics do not provide for "reversing arms" with the sabre or sword, and the movement does not appear to be a practicable one for officers who are mounted.

Very respectfully, your obedient servant,

R. C. DRUM, Adjutant-General.

We were not ignorant of this decision, but our judgment was that the principles governing this review were those applying to the review of a division, the reviewing officer being the Governor. That others share this opinion is shown by the fact that none of the colonels, some of whom received their education at West Point, turned out of the column to join the Brigadier-General. In this statement we must include Col. Clark, for we have since been informed that though he turned out it was not to place himself beside General Fitzgerald, but to give instructions to the police stationed on the sidewalk.

This view is further sustained by a paragraph of Tactics which prescribes that the "column passes in review according to the principles prescribed for the review of a battalion," where the captains do not join the regimental commander.

RIFLE PRACTICE IN THE GUARD.

To the Editor of the Army and Navy Journal:

REFERRING to my letter in your valuable paper of Oct. 23, and the subsequent remarks of "Rifleman" in your next issue and in which he takes unnecessary exception on a couple of points, I beg to make my meaning clear. In advocating a more extended practice in skirmishing in the Guard, it was not intended that recruits and unskilled shots should indulge in this useful branch of rifle firing before they learned to shoot. It was recommended only for men who have obtained some degree of accuracy. All riflemen of experience know that men who miss a bank of earth 30 feet high cannot be expected to branch off into skirmishing. Therefore, it was considered hardly necessary to make this exception in my remarks referred to. As "Rifleman" seems to be one of those who occasionally fires a little prematurely and hits on the wrong target, I take pleasure in correcting his aim in this respect and locating the wrong direction of his two wild shots in question. In regard to commanding officers putting their reliable shots in the rear rank when firing in volley, I repeat that this is wise precaution, especially considering the inferior state of marksmauship of the Guard as a whole. Riflemen of experience and others, having a knowledge of rifle matters, are well aware that it is impossible for *every* man in a command to be a sharpshooter even if they were to practice daily all the year round. There are some men having a natural timidity or nervousness, which even constant practice can never wholly efface. Some will always be found wanting; it is impossible for all to be perfect. Therefore, the expediency of putting the reliable shots in the rear rank is very evident, and while I did not claim that this course would wholly obviate timidity among nervous men (as "Rifleman" infers,) still I do claim that it would greatly allay it. In case of necessity, where every shot was valuable, it would, to say the least, be a common sense precaution. I have no desire to discourage the efforts of "Rifleman" in his efforts to help reform: still, when he fires a little wild and is wasting ammunition on the wrong target, I think he should be made aware of his mistake.

"OBSERVER."

NATIONAL GUARD ITEMS.

Ex-1st Sergeant Frank G. Ward, of Co. F, 7th Regiment, gave a handsome dinner at the St. Cloud Hotel on Monday, Nov. 1, in honor of his approaching marriage on Nov. 3. The *menu* was *recherche*. Among those present were Capt. Daniel Appleton, Adjutant George W. Rand, Lieut. Frank Pawling, 1st Sergt. E. D. Appleton, Sergt. M. B. Stille, and Corporals Dick Johnson and R. A. Powers.

Adjutant General Stephen R. Smith, of Connecticut, orders to call in all helmets, artillery helmet plumes, dress coats, non-com. officers' chevrons, and trousers issued by the State to commanding officers, for use of the enlisted men, with the exception of the Machine Gun Platoons, as soon as practicable, and to issue the new pattern helmets, artillery helmet plumes, uniform dress coats, non-commissioned officers' chevrons for uniform dress coats and blouses, and trouses as adopted according to Article XXX., Regulations. All officers will equip themselves complete according to Article XXX., Regulation C. N. G., without delay, and the wearing by any officer or enlisted man of any portion of uniform not in conformity therewith after December 15, 1886, unless by special consent of the Commander-in-Chief, is forbidden.

The Governor of California has appointed Lieut. Colonel Eugene Lehe, of Stockton, Brigadier General, vice James A. Shepperd, resigned. The appointment is a most excellent one and is well received in the 3d Brigade. General Lehe was appointed Captain of Company A, 6th Battalion, Oct. 6, 1876, and has served as such continuously, although during the State Encampment at Santa Cruz he acted as Lieutenant Colonel, and was so commissioned, of a provisional battalion. He has always been an energetic officer, highly esteemed by those with whom he associated, and there is no doubt of his being able to infuse new life into the 3d Brigade.

The matches shot at Creedmoor on Election day were participated in by over 300 members of the 1st and 2d Brigades, every regiment but one being represented. The day was perfect and the scores, as a whole, were ahead of anything ever before made. Some thirty targets were in constant use from 8 o'clock until sundown, the usual dinner hour being omitted. The second Company of the 7th Regiment and Co. I. of the 23d head the two Brigades with the largest percentage of marksmen and are undoubtedly the winners of the trophies presented by the State of New York, value, $50 each. The attendance in these matches of the N. R. A. has been much larger this season than ever before. The prizes amounted to $117 in cash, and were divided among the seven competitors making 46 or over.

NEW HAMPSHIRE.

MAJOR FRANK W. RUSSELL, Asst. Inspr. General, reports as follows as to the condition of the New Hampshire Guard at its Encampment in 1886:

It would be nearer in accordance with the custom of the Regular Service, as well as with the Army Regulations of 1881 (Par. 1041), for the regiments to be marched to their respective color lines; the battery to its park, and the troop to the rear of its camp; and left at these points, in line, at "In place, Rest," while the several commanding officers report in person, at brigade headquarters (dismounted, unless the brigade commander is mounted), the arrival of their commands.

With regard to the guard mounting he says: The details from the 1st and 2d Inf. were slow in arriving on the line whose right was marked by the staff officer. They did not start at all till ordered to do so, and once in motion pursued devious routes in approaching it, that from the 2d taking in brigade headquarters on its way. When officers and non-commissioned officers were ordered to the front and centre, many of them were in doubt as to their proper positions. The staff officer inserted the obsolete phrase "about face" in the preparatory command for returning the non-commissioned officers to their posts. During the inspection men from the different commands crowded upon the guard so closely, that the brigade commander directed the details to be returned to their regimental parades and the ceremony commenced anew. At the first formation of the guard, four men appeared without overcoats, in their dress uniform. A sergeant of the 1st Infantry marched on in the front rank of his detail, instead of in the line of file closers (Par. 518, Tactics.) Several men were without gloves. Whenever troops turn out under arms, gloves should be worn. The second formation was much more promptly and correctly made than the first. In correcting the action of certain of his men during the inspection, the senior officer of the guard, although apparently quite familiar with his duties and desirous of discharging them properly, used the expression, "Bring the hammer to the safety notch, please," repeatedly. This word is undoubtedly required by common courtesy in ordinary social intercourse, but it should not form a part of any military command or caution, and its use therein savors of a discipline modelled after the standard of "H. M. S. Pinafore," rather than the directness which ought to mark all communications between soldiers on duty. The junior officer of the guard was none too well informed concerning his functions, although commissioned more than a year ago. Many men in ranks were evidently recruits, or, in any event, those who, however long in service, had not received proper instruction, and were generally unsteady, gazing about, holding pieces incorrectly at "order arms," etc. The behavior of all soldiers at guard mount ought to be as exact as at parade or review: the "position of the soldier" being strictly maintained and absolute silence preserved. The guard was marched direct to the guard house.

At 5 P. M. undress parade took place in the company streets. I did not see the field music of any regiment, except the 3d, take position and sound off as prescribed in Par. 813, Tactics. The guard was not paraded at retreat. It is the duty of the commander of the guard to parade it at reveille, retreat and tattoo, and also during parades and reviews. No evening gun was fired. Tattoo roll call was attended throughout the entire command, but earlier than the prescribed time. The assembly is the signal for forming the company in ranks and calling the roll (Par. 835, Tactics). The field music of the 1st Infantry was slow in assembling to beat the marches prior to tattoo and that of the 2d did not turn out at all. G. O. No. 8, c. s., Brigade Headquarters, contains explicit directions for sounding and repeating all the calls, and it is not apparent why there should be any difficulty in complying with them.

With reference to brigade guard mount he says: Brigade guard mount was in full dress under the direction of Major Daniel B. Donovan, Judge Advocate, Major Nathan H. Randlett, 3d Inf., being field officer of the day. The detail from the 3d Inf., marched out before adjutant's call, and was returned to his own parade. The regimental guard details should start for the brigade parade when the band stationed there commences to play and not before. The staff officer gave the command "Front and rear rank, count fours" instead of "Count fours." The officers of the day took position opposite the right centre instead of the centre of the guard. In wheeling to the right the first platoon broke badly and at the completion of the wheel its chief posted his guide at the pivot instead of the marching flank. The guard was started on the march in review with the left instead of right. After breaking into column of fours, the leading guide kept his piece at a carry when the guard was at a right shoulder. In a column of fours the sergeants should carry their arms the same as the men (Letter A. G. O., Nov. 20, 1877). The old guard was formed too near the main entrance. It should be paraded sufficiently far from it to allow the new guard to complete its change of direction before arriving opposite its left. One man in the rear rank of the old guard wore a citizen's overcoat. The guard house was in good order except the floor of the upper room, which was littered with straw from the bunks. At morning drill call every organization in camp was out promptly and put in two hours of hard work. At 2 P. M. the infantry of the brigade was formed in line of masses and exercised in the evolutions of the brigade for an hour or more by the Brigadier General commanding. The movements attempted were mainly formations in line of masses and column of masses, with deployments from them into line. This drill was valuable in showing how little the battalion commanders and the brigade staff know of brigade evolutions, it being difficult to say which of these two classes of officers was the more poorly versed in its duties. If a brigade drill is to be a feature of the next camp, it will require close study on their part to insure its successful performance. At 4.15 P. M. the 3d Inf. turned out for inspection. Its formation was quick and correct. When arms were presented, the ruffle, to which the rank of the inspector entitled him, was omitted. The time being limited there was no separate inspection of dress and general appearance. Pieces varied greatly in condition; occasionally one was found in fine order, but in very many instances the men had evidently made no effort to clean them. All of them were serviceable however. In most of the companies equipments were not clean. H (Franklin) Co. being a notable exception to this rule. The brigade dress parade this evening was an excellent ceremony. Police of camp ground at inspection about 7.30 P. M. was good. Tattoo roll call was more uniformly observed than last evening and taps was generally obeyed. Inspection of camp ground at 7.30 A. M. showed it to be well policed, with the exception of large heaps of soiled straw in the battery stable yard. The battery commander stated that he had made application to the proper authority for teams to remove this straw, but they had not been furnished.

At 9 A. M., Troop A, Cavalry, was promptly in line, mounted, for inspection. When arms were presented to the Inspector-General, the single trumpeter present, who wore his trumpet slung at his breast instead of his back, failed to sound a flourish. The horses were generally of fair size, in good working condition and well groomed, the sabres, belts and horse equipments well cleaned and uniforms well kept. At carry sabre many troopers held the wrist against the ribs, instead of resting it upon the top or the thigh (par. 439, Cav. Tactics). At present and inspection sabre, the blade was quite often inclined to the front instead of being vertical. Some incorrect positions of the bridle hand were noticed. Belts were frequently too loose. When the belt is sufficiently tightened to keep it above the rear buttons and over the lower front buttons, it is not only more soldierly in appearance, but vastly more comfortable for the wearer. More instruction in the school of the trooper mounted would be beneficial, and the frequent practice of the exercises prescribed in par. 527 Cav. Tactics would give the troopers better seats and more confidence when mounted. There were many absentees from this inspection. The Army regulation (par. 1322) concerning attendance at inspection should be enforced as far as practicable. The stable, cook house, mess tent and mess furniture of this command were all in excellent order. Its general condition, in view of the many difficulties inseparable from the mounted service in the National Guard, is worthy of much praise, and testifies to the competence and faithfulness of its commander, the willing support of his subalterns and the zeal of the troopers. If this troop could be armed with a good revolver, the Army "Peacemaker," cal. 45, for example, and properly instructed in its use, its efficiency would be very materially increased. At 9.30 A. M. the 1st Battery of Light Artillery formed in battery in front of brigade headquarters for inspection. At command "Present, sabre," trumpets did not flourish. Chiefs of platoons were not six yards in front of the line of muzzles (par 962 art. Tactics.) Although one half of this battery is almost wholly new, Platoon B having been recruited and officered at Manchester since its disbandment at Concord last spring, the entire command is in excellent condition. At this inspection its carriages were newly painted and washed clean, its pieces bright, the horses of good size, well groomed and surprisingly well trained (taking into account the few days they are in service), horse equipments and harness clean, drivers and cannoneers steady and better set up than their comrades of the infantry. One explanation of this creditable state of affairs is found in the statement of the battery commander that for some months past four evenings a week had been devoted to drill. The attainment of such a degree of efficiency in this arm of the service is sufficient evidence not only of the ability and energy of the captain, but also of the enthusiasm which must animate every member of his command.

On the evening of the review I found the best instructed sentinels I have ever seen in New Hampshire. The sentries of the cavalry and artillery, when challenging, are in the habit of holding their sabres with the hand in quarte near the waist plate, the point directed horizontally to the front. There is nothing in either Tactics or Regulations (so far as I am aware) that directly prescribes the position a dismounted sentinel armed with the sabre takes when challenging; but par. 1160, Cavalry Tactics distinctly states that mounted sentinels armed with the sabre take the position of guard when challenging and holding communications, and, I think, a dismounted sentinel, so armed, should, when thus occupied, hold his sabre in that position.

On June 18 brigade guard mount was much better performed than those earlier in the encampment, the men being steadier and the passage in review very good indeed. Two of the details were marched on the line in double time; a manifest error as the band was playing in quick time.

The drills this morning showed perceptible improvement in all the infantry regiments. The artillery spent a large portion of the time in formations from line into battery and the reverse, all of which were well done. The cavalry exhibited commendable knowledge of the school of the troop mounted. In charging, however, the troopers should endeavor to "increase the gallop without losing control of their horses or opening the files," (par. 530, Cavalry Tactics).

At 2.45 P. M. the 2d Infantry paraded for inspection. Its formation was well made. When arms were presented to the Inspector General, no ruffle was beaten. As in the other regiments there was no inspection of dress and general appearance, the time allowed not admitting of it. The band had been directed to report for consolidation with the others at 3.30 P. M., and was therefore inspected before the companies were. This band was the only one which had clean instruments. The arms and equipments were in good condition, and the regiment was, in my judgment, the cleanest of the three. In all the regiments some men still neglect the repeated admonitions of the Inspector General and my own predecessors concerning the various little details of dress and personal habit, which, united, distinguish the soldier from the sloven. Company commanders should hold their non-commissioned officers responsible for these matters, requiring them to see that the members of their squads, if they come short of godliness, at least attain the cleanliness which is accounted next to it. The uniforms of the infantry show unmistakable signs of their nine years' wear, and ought to be replaced by new ones at an early day. When this change is made it is hoped the oft repeated recommendation of the Adjutant General will be heeded, and that relic of antiquity, the "claw hammer" coat, discarded for a garment similar to the one now worn in the Regular Service Fatigue uniforms ought to be issued by the State, it being a most unjust expense for the enlisted men to be obliged to buy their caps and blouses as they now do. The brigade was reviewed by the Commander-in-Chief at 4 P. M. Formations were not as good, troops were not as steady while reviewing party was passing around the line, nor were alignments as well preserved when marching in review as at this ceremony two years ago. Trumpets of mounted troops should sound while the organization to which they belong is passing the reviewing officer (par. 1139, Cav. 962, Art. Tactics).

The dress of soldiers of all grades when on duty should be the prescribed uniform, and no article of civilian clothing should be permitted. When out of their tents and not in dress coats, blouses ought to be worn and buttoned throughout.

The camp ground is much better adapted to its purpose now than then, the erection of the State arsenal and permanent cook houses, and the introduction of a supply of running water having wonderfully increased its convenience and healthfulness. The discipline was better this year, and the personal conduct of both officers and enlisted men was above reproach. When New Hampshire can assemble 1,200 men, representing every section of the State, and hold them in camp for five days without the occurrence of a single case of drunkenness or disorder of any description, it is a fact to which not only National Guardsmen, but her citizens generally, should be glad to "point with pride." Military courtesy was well observed, it being the exception for enlisted men to pass officers without rendering the proper salute. Failure to do this, when it did occur, was found to be due to a lack of instruction and not to intentional neglect. Study of general orders and armory instruction are beginning to bear fruit in a better knowledge of guard duty. It was in general well performed. The calls when sounded from Brigade Headquarters were not repeated at the guard house. The musicians of the guard should do this as invariably as those of the other organizations in camp. I respectfully recommend that a guard report book be supplied instead of the blanks now used. The time available for drills was unusually limited this year, owing to the unpleasant weather and the day consumed by the parade in Concord, but such time as could be obtained was fully utilized. It is very much to be regretted that the length of the annual encampment cannot be extended somewhat. At present the men hardly get settled down to their work before camp is broken, and the routine of military duty to which they were getting accustomed is abruptly dropped, not to be resumed for a twelvemonth. Signalling was practiced whenever possible by a detachment of Co. D, 1st Inf., under the able direction of Capt. Richard M. Scammon, A. D. C., acting signal officer.

(Correspondence of the Army and Navy Journal.)

OHIO.

THE present Administration is quietly doing very much for the advancement of the National Guard. In the first place the appointment of that splendid soldier, H. A. Axline, to be Adjt.-General gave the Guard a true friend in the right place. Ohio has never had a better Adjt.-General.

The encampment next year will be a State encampment—an encampment of the entire Guard at one point.

This plan has long been discussed and the result will be awaited with much interest. Gen. Axline has succeeded in purchasing for the State, at very advantageous terms, enough knapsacks and canteens to supply the entire Guard, and a full supply of field cooking utensils, camp kettles, etc., and in future proposes to limit the amount of baggage taken by the men to camp to the capacity of the knapsack, and it is also proposed to do away with bulky stoves.

There has also been a purchase of 260 riot guns which will be distributed among the different regiments. These, with the new pattern Gatlings and rifled field guns added last spring, vastly improve the armament of the Guard.

Targets will be issued to the different companies and more attention given hereafter to marksmanship; of this we will write more fully next week.

General Order No. 14, Sept. 16, 1886, requires every officer of the Guard to send a complete statement of his military services in the Army or National Guard, on blanks furnished for the purpose, to the Adjt.-General's office that it may appear in the forthcoming A. G. reports.

General Order No. 15, dated Oct. 13, reads as follows: The following named officers are hereby detailed to act as Inspectors of Armories of the several organizations of the Ohio National Guard, as provided in Section 3,085 Revised Statutes, and they will be obeyed and respected accordingly: Artillery:—1st Regt., Major E. O. Dana, Cincinnati. Infantry.—1st Regiment, Col. F. W. Moore, Cincinnati; 2d, Col. James C. Howe, Kenton; 3d, Lieut.-Col. James E. Shellenberger, Piqua; 5th, Major J. W. Gibbons, Cleveland; 6th, Major Arthur L. Hamilton, Chilicothe; 7th, Col. W. J. White, Springfield; 8th, Major C. V. Hard, Wooster; 9th Battalion, Capt. R. R. Rudd, Springfield; 13th Regiment, Lieut.-Col. Chas. D. Thompson, Georgetown; 14th, Maj. A. B. Coit, Columbus; 16th, Major H. S. Bunker, Toledo; 17th, Major S. Roe Robinson, Coshocton. No inspections, at the expense of the State, will be made by these officers, unless specially authorized from General Headquarters.

There is being issued from the Adjutant-General's office a complete roster of Ohio soldiers in the War of the Rebellion. The series will contain not less than ten volumes. Volume 2 is now ready for distribution, and contains the roster of the first twenty regiments of three years' men. Vol. 3 will be ready for distribution after Jan. 15, 1887. A circular letter from the Adjt.-General's office will give full particulars to those who may be interested enough to send for it.

CALIFORNIA.

THE *Alta* says: More attention is being paid to matters in the National Guard than for some time past, and unusual interest is being manifested in relation to its future by both officers and men. At present things are being shaped to secure promises of aid from legislative candidates, and a large number of favorable replies to a circular sent out have been received from those who aspire to the Senate and Assembly, who promise relief in case the candidates are elected. It is certainly a desirable thing to have on record what ambitious legislators propose to do for the benefit of the National Guard, and among those officers having the matter in charge there is a strong belief that great assistance will accrue to the Service when the next Legislature assembles.

ANSWERS TO CORRESPONDENTS.

E.—Par. 1870, Army Regulations, 1881, is still in force.

Doe-Boy.—We do not find the decision to which you refer. Please give further particulars.

O. B. S—A non-commissioned officer or any other enlisted man of a light or any other battery, or any other organization, executes the about prescribed in Tactics for all enlisted men.

Apache.—The names of the Indian prisoners at Fort Pickens, so far, are Ge-ro-ni-mo, Nat-chez, Pe-ri-co, Fun, Ah-nan-di-a, Na-pi, Yah-no-zha, Tish-nolth-tonz, Zhonne, Kilth-di-gai, Bish-i, Cha-po, La-zai-yah, Mot-sos, Lo-nah.

Marion asks: Marching in column of fours in single rank, is the command "right by twos" a proper command? ANS.—Yes. The tactics provide for all evolutions in single as well as in double rank. What can be the objection anyhow?

Maginnis.—We do not recall any special decision, but there is nothing to prevent a man, *after* being discharged from the Army, from presenting a claim for extra duty pay to which he thinks he is entitled, but which was not paid him previous to discharge.

Constant Reader.—Boatswains, carpenters and quartermasters rank the highest among the petty officers of the Navy. If you pass the examination for a cadetship a captaincy might be reached; and if you are under 25 years of age you are eligible for examination for a cadetship.

J. F. D.—You should endeavor to advance yourself to a fair, if not superior, English education, acquire some knowledge of military tactics, forms, habits, etc., cultivate your intelligence by all the means open to you, and then, if you go before a Board, you will stand a good chance of passing for a commission.

B.—Alexander Selkirk, the original of Robinson Crusoe, lived on the island of Juan Fernandez in complete solitude four years and four months. He was landed from the Cinque Port galley, A. D. 1704, and was taken off by the *Duke*, privateer, Feb. 12, 1709. He died while lieutenant of H. M. S. *Weymouth*, A. D. 1723, aged 47.

W.—For ascertaining the reasons, etc., for the distances, etc., mentioned in Tactics we refer you to files of the ARMY AND NAVY JOURNAL. We published some time ago in pamphlet form a list of retirements of cavalry, artillery, and infantry officers from the ARMY AND NAVY JOURNAL, which is sent by mail for ten cents. We have no club rates with any other periodical.

J. D. asks: The company being in line in single rank, the command is given—Form double rank fours right, double time, march. After the fours have wheeled into column, gained the distance and halted, do they, at the command, fours left, complete the movement in double time or in quick time? ANS.—The command as given doubtless intends that the entire movement should be executed in double time, and therefore the wheel into line should be executed in that cadence.

F. F. C.—In a vessel built with a ram the bowsprit (if she happens to have one) is fitted so that it can be unshipped and run in with little trouble. In case of action this precaution would be taken. It would require only a moderate blow to carry away the bowsprit from a vessel running into another head on. The following are the lengths of the vessels referred to: Chicago, 315ft.; Boston and Atlanta, 270; Dolphin, 240; Newark, 310; Charleston, 320; Baltimore, 315; Gunboat No. 1, 230, and Gunboat No. 2, 175.

"Left in front" asks: In the following score at target practice which is the best, viz.:

(1)	4	2	4	3	3
(2)	2	3	4	3	4
(3)	4	3	4	3	2

ANS.—The second score is unquestionably the best, because it shows improvement as it advances, while the other two scores lead off high and decrease in value. No. 2 shows a steady improvement while the others are shooting wild. The bills you ask for were published in the JOURNAL at the terms of their introduction.

H. W.—1. No change in executing "attention" from parade rest has been made to our knowledge so far as the Infantry arm is concerned, and the order arms is resumed as prescribed in tactics.

2. If you execute the loadings and firings by the numbers and wish to have them executed without the numbers you must first give command to that effect, see par. 8 of the Tactics. A decision from A. G. O. of Oct. 5, 1882, says: "In drilling by number it is correct to execute the firings and the load immediately after by the numbers."

Anxious.—Having found it very difficult to get employment, I resolved to enter the Navy. I am 33 years of age, sound and healthy, etc. but unacquainted with the different trades that are generally followed on ship board; what position do you think I am best fitted for, and how can I enlist without paying $2 to an agent, and does the Government furnishes clothing, etc.? ANS.—Lacking definite information we should say the position of landsman would be your only chance. You can enlist by applying in person at the Receiving Ship, Navy-yard, N. Y., and the Government furnishes a full outfit on enlistment, charging its value to the recruit.

Sergeant asks: On dress parade is it proper for 2d Sergeants of Companies acting as left guides to return to their places on left of Companies at command "Guides Post," from the Adjt.? ANS.—1. The 2d Sergeants are not on the left of their companies when the battalion is in line. They are in line of file closers. The only exception would be where the 2d Sergeant of the left company would be the left guide of the battalion.

2. 2d Sergeants do not assist in marking the alignment for the rear rank, except the left sergeant of the battalion. In the left wing the 2d Sergeants come out to mark the line during the formation. They take their place in line of file closers at command guides posts. Neither guide of the color company is employed in marking the line at formation; for this markers are provided. The left guide of color company executes just what is laid down for the other left guides.

3. In forming close column of divisions from column of fours the markers and company guides are employed in establishing the distances and alignments. The general guides keep their places in line of file closers.

4. The leading guide of the column, in par. 448, if the wheel into line is to be to the right would be the right guide of the first company. The left guide places himself opposite the right guide, facing to the rear, at the point where the left of the company is to rest on completion of the wheel, and this brings him just in the position required by the tactics.

THE HOME OF VON MOLTKE.

THE home of Von Moltke, the Schloss Creisau, in Silesia, is described as being a large square building of two stories, approached by a broad flight of steps and a ferestyle. The reception-rooms are upon the ground floor, and are plainly furnished, while in the hall are two bronze guns, brought from one of the forts outside Paris, and given to the Marshal by the Emperor, an equestrian statue of whom, in bronze, together with statues of Frederick the Great and the Marshal himself, is also in this hall. The living rooms of the Marshal are very plain, his bedroom containing only a low camp-bed and furniture with a writing-desk and book-shelf, the walls being covered with maps and the genealogical tree of the Moltke family. There are several rooms filled with glass cases, containing the different presents and addresses which have been presented to him, notably addresses from the town of Berlin and Dresden, the latter of which is in letters of gold upon a silver plate, while an address from the town of Essen, where the Krupp guns are made, is engraved upon a piece of steel. Other cases contain panoplies of arms which the Marshal has collected during his travels in the East, and besides, a sword which was given him by the Germans in the United States after the war with France. Many of these arms are engraved with the Moltke motto, "Erst wœgen, dann wagen (First weigh, then dare.) In the courtyard is a colossal bust of the Emperor, and the gates are guarded by two enormous statues of gladiators.

FOREIGN ITEMS.

OUT of 400 Canadian horses inspected for the English Army, but nine were passed. Out of another lot of 270 but two.

SIR FREDERICK ROBERTS assumes the chief command in Burmah, consequent on the death of Sir Herbert Macpherson.

IN August last 11,257 officers and men of the English East Indian Army were enrolled as members of the Soldiers Total Abstinence Association.

THE number of visitors to the London Colonial and Indian Exhibition for the week ending Oct. 16 was 248,072. The total since the opening, 4,922,571.

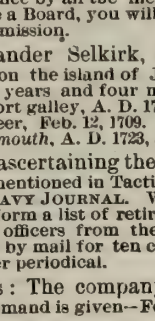
THE sea trials of H. M. S. *Imperieuse* have resulted in a decision to remove her masts and spars and fit her with the military tops such as are carried by the *Inflexible* and *Ajax*.

THE *Resistance* has been subjected to further torpedo experiments. Another Whitehead torpedo has been fired at her whilst surrounded by her nets The only damage done was to blow one of the extending booms away from its attachment.

THE offer of a money reward for the study of languages by English officers is having its effect, and Russian, which has hitherto been studied in a desultory way, as possibly being useful to a pushing man, is now a recognized item of military education.

IT is announced from Pekin that Marquis Tseng and Minister Hsu have purchased arms and munitions of war amount to Tls.1,000,000, and the Board of Revenue has been authorized to levy contributions from all the provinces in order to meet the expenses of the Naval Department.

ADDING sponsons and heavy guns to ships not intended to carry them has been found in the English Service to be a dangerous experiment. Heavy seas, as in the case of the *Leander*, strike the ship, and running up or breaking against them, act like a small avalanche of water, flooding the decks, and straining the ship.



EXTENSIVE changes are in contemplation with regard to the distribution of the Russian troops and garrisons on the western frontier. Plans have been prepared for the erection of several extensive artillery and cavalry barracks, and a site for new barracks has already been expropriated at Proskurov, in the Government of Podolia.

FROM statistics published by the German Statistical Office, it appears that the educational standard of the recruits enrolled in the German Army and Navy is being slowly but steadily raised. Of those entering the Army or Navy in 1885-6, only 1,657, or 1.08 per cent., were unable to read and sign their names. In 1875 6 it was 2.37 per cent. in 3,311.

ON the 21st of October, the eighty-first anniversary of the Battle of Trafalgar, Admiral Lord Nelson's flagship at Portsmouth was decorated and dressed with evergreen garlands and flags. Of the twenty-four British and the thirty three French and Spanish line-of-battle ships which went into action on that memorable occasion the only one remaining is the *Victory*. There is one survivor of the battle, Lieut.-Col. James Fynmore (retired full-pay, Royal Marines), aged 97, who served as a midshipman on board the *Africa*, 64.

THE news received from Annam in France is far from pleasant; the country continues in a very disturbed state, missionaries suffering, and the number of native converts massacred being something appalling. From Tonquin comes intelligence that the civil, military, and naval authorities are at loggerheads, and that Generals Jamont and Jamais, Col. Mourlan, Chief of the Staff, and three other Colonels have asked to be recalled. We are told that the feeling is so bad between the residents and the military commandants that they no longer salute each other.

NEW YORK

A MILITARY council in Berlin has sentenced Engr. Hoffmann, of Spandau, to nine months' imprisonment, and Quartermaster Brinnkmann to fourteen months' imprisonment, for stealing plans of fortresses for purposes of sale.

A DESPATCH of Nov. 1 from Cairo conveys the official announcement that the English Government is determined to maintain public safety in Egypt, and not to leave the country to disorder and possibly to a fresh and disastrous revolution.

THE *Egyptian Gazette* announces that "in future rank and precedence in the Egyptian Army is to be regulated by the rules that seniority will be regulated by seniority in Egyptian rank, and seniority in the British officers of the same Egyptian rank will be regulated by their seniority in the British Service." This appears to be one of those problems which "no fellow can understand."

A BLUE-BOOK has just been issued from the English War Office containing a return of the annual accounts of the several manufacturing establishments under the Office for the financial year 1884-85. The sum set down for the Royal Gun Factories, Woolwich Arsenal is £595,414; for the Royal Laboratory, Woolwich, £868,731; the Gas Factory, also at Woolwich, £17,172; the Small Arms Factory at Enfield, £359,141; the factory at Birmingham, £31,192; the Gunpowder Factory, Waltham Abbey, £109,276; and the Clothing Factory at Pimlico, £362,302. These eight departments therefore represent a total expenditure of £2,876,876.

A FRENCH flying squadron to cruise in extra-European waters, is to be formed shortly under the command of Contre-Amiral Layrle, and is to assemble at Brest. It is to comprise one ironclad, several first and second-class cruisers, and a few avisos (éclaireurs). The object of the cruise, which is the idea of the French Minister of Marine, Admiral Aube, is stated to be the training of officers and men.

A FRENCH commission is to select the best site in the Basse-Seine for the construction of a harbor of refuge and concentration for torpedo-boats and other vessels of light draught. It is also in contemplation to erect a new torpedo station on the French coast at Lézardrieux, in the department of the Côtes-du-Nord, in the arrondisement of Lannion, on the left bank of the River Trieux, near its exit into the Channel

A CORRESPONDENT to the London *Times* quotes the following respecting French steel shells: "Hitherto no English ship has been able to beat a 16 in. composite armor plate, but this one (a French shell), fired from a 12 in. breechloading gun of 45 tons went slap through an 18 in. plate, 9 ft. of timber, and half through a 10 in. plate at the back, and was practically uninjured; the point was perfect, and the shell had only shortened about one-third of an inch after doing all that work. The result will cause considerable revolution in ideas, and we have not a ship in the Royal Navy which would not be knocked into a cocked hat by a few of these shells."

I AM sorry to hear, says the London *World*, that the widow of Hobart Pasha has been left very badly off indeed. She is still at Constantinople, anxiously awaiting the decision of the Sultan concerning the promised pension about which so much was said at the time.

A new repeating rifle has been tried at Vienna. The weapon may be used as a repeating or as a single-firing rifle. When fired as a single-shooter, it discharges twenty-four shots per minute. On being changed into a repeater, which is easily effected, the repeating mechanism is brought into action, fifty-two shots being fired per minute, and this includes loading, although the magazine only holds ten cartridges. As a magazine rifle, this new weapon is said to be very satisfactory.

A DESPATCH from Madrid says: "Spanish politics are attracting much attention. Sagasta has made a big popular hit by abolishing at one stroke the institution of Orderly Sergeants. Since the sixteenth century these fellows have been the source of most of the Spanish troubles. As the highest officers in the Spanish Army living in barracks they have practically been masters of the privates, and as they are ignorant and often venal they have been the natural tools of agitators. By the change they all, to the number of 1,300 retire, and the office is abolished. Other reforms are in prospect, the chief of which is an arrangement that superior officers shall hereafter live in barracks with the men and and get better pay."

PAPER MERCHANTS AND MANUFACTURERS, 3 BEACON ST., BOSTON, MASS.

Thomson's Patent Pocket Spur.

Only Pocket Spur in the World.

Exact size, weighing less than one Oz. each.

Solid Screw Pattern. **Dove Tail Pattern.** Patented June 20, 1882

Considered the *Ne Plus Ultra* of all Spurs for Military and Equestrian Riding. Can be attached and detached quickly, and carried in the vest pocket, they are so small and light. Can be attached a thousand times and still set as firmly as when first adjusted. Pants allowed to set the same as if no spur attached. Free from danger breakage in rough ground or going up and down steps.

Has the endorsement of Adjutant General Townsend of N. Y., and many others. For sale by all Saddlery, General Hardware, and Military Equipment Houses, or by the manufacturer, PETER HAYDEN, 50 to 56 Mechanic St., Newark, N. J., Sole Agent for the U. S. for Bowns Celebrated Newmarket Horse and Toilet and Challenge Clippers. Send for Circular. Mention paper.

ACCORDING to the *Militar Zeitung* (Vienna), a Swiss inventor named Haberthur has invented a new repeating rifle, the mechanism of which is said to work very satisfactorily. The new weapon can discharge 30 shots per minute.

THE eight batteries of field and mountain guns ordered by Montenegro of Krupp have arrived at Cettinje, together with a large quantity of ammunition. The Principality has never before been in the possession of such a large amount of excellent artillery material. The strangest part of the business is that the Montenegrin Government has paid in cash for it.

AS AN illustration of the manner in which the enforced use of the German language works in the Austrian Army, the *Vedette* (Vienna) states that of 81 volunteers in one district, 37 Hungarians were absolutely precluded from any hope of an officer's commission in the Reserve, through inability to understand the theoretical lectures, delivered in German. Of the remaining Hungarians, only three, or 7 per cent. passed the necessary examination.

ACCORDING to news received from Burmah, Oct. 16, Ningyan was attacked by a large body of insurgents, who were repulsed after some sharp fighting, in the course of which a small British column, under Lieut. Coxwell, was driven back into the town, Lieut. Coxwell being wounded. On Oct. 17 a body of 700 Phoongyees attacked Sing Bong-Weh, but were repulsed with the loss of twenty wounded. Reinforcements had been summoned from Minhla, above which place the river is so infested by Dacoits in canoes that trading boats cannot pass without being attacked.

FROM France we learn that the Arms Manufactory of Tulle has received an order for 10,000 rifles of a new model, due to Lieutenant-Colonel Lebel. The rifle is small-bore; the bullet which it fires is covered with steel and brass, and the initial velocity is said to be not less than 530 mètres a second. The powder employed is the invention of Colonel Brugère, Aide-de-Camp to the President of the Republic, and who commands the 12th Regiment of Artillery. We are told that these rifles are destined for the *chasseurs à pied* and the troops serving in Tonquin, but that further experiments will be made at Châlons and Valbonne before serving them out to the Line.

A FRENCH paper reports that General Boulanger intends asking Parliament for very important sums of money, with the view of providing French forts with metallic cupolas, as a defence against the new shells being manufactured in Germany, which destroy the thickest earthworks in the twinkling of an eye. It is stated that the shells will glide harmlessly off steel cupolas, hardly leaving a trace of their passage, and that this means of defence is first of all to be applied to the frontier fortresses.

HANCE BROS. AND WHITE, manufacturing chemists of Philadelphia, are public benefactors by their introduction into this country of Phenol Sodique, the marvellous remedy of so many ills and injuries that man and beast are subject to. Many a limb has been saved from amputation, and possibly a life saved, by the prompt use of Phenol Sodique after the accident.

COUGH AWAY IF YOU WANT TO, but if not, use HALE'S HONEY OF HOREHOUND AND TAR.
PIKE'S TOOTHACHE DROPS Cure in one Minute.

R. W. TANSILL & CO., Chicago, are now making especially for the Officers of the Army and Navy a new and very fine Havana hand-made cigar, known as "TANSILL'S REINA." They are put up in beautiful packages of 25 cigars, each cigar banded. They come in three sizes, 4¼, 4⅛, and 4¾ inches, while their moderate cost, viz. $65, $70, and $75 per thousand brings them within the reach of the entire Service.

BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

MARRIED.

FLEMING—VEDDER.—At Washington, D. C., October 27, Colonel R. I. FLEMING to Miss BELLE VEDDER, daughter of Major Nicholas Vedder, U. S. Army, retired.

DIED.

CHANDLER.—At Onset, Mass., October 31, Civil Engineer B. F. CHANDLER, U. S. Navy, retired.

CLEMENTS.—At Fort Leavenworth, Kas., Nov. 1, Brevet Lieutenant Colonel BENNETT A. CLEMENTS, Major and Surgeon U. S. Army.

MARTIN.—At Brooklyn, N.Y., November 1, JAMES MARTIN, formerly Mate U. S. Navy.

WHITTINGHAM.—At Milburn, N. J., October 26, Dr. EDWARD T. WHITTINGHAM, formerly an assistant surgeon, U. S. Army.

WILLIAMS.—At a meeting of the enlisted men of Fort Union, N. M., held Oct. 28, 1886, the following preamble and resolutions were unanimously adopted:

Whereas, It has pleased an all-wise Providence to suddenly remove from our midst by the hand of an assassin our beloved friend and comrade, James S. Williams, Pvt. Company B, 10th Infantry, and while humbly bowing to the Divine will, with sorrowing hearts, we desire to bear testimony to his worth; therefore be it

Resolved, That while living he had endeared himself to us by his soldierly bearing, courteous manners, and kind and genial disposition, and that in his death the company has lost one of its most efficient members and the Army a bright and trustworthy soldier, whose honorable and spotless record lives after him, a source of pride and satisfaction to his friends, a model worthy of imitation by all; and be it further

Resolved, That he needs no higher tribute to his worth as a man than the widespread sorrow which his loss has occasioned, and the respect for his memory which will ever be cherished by all who knew him.

Resolved, That we extend to his sorrowing relations our heartfelt sympathy in this their hour of bereavement; that a copy of these resolutions be forwarded to them in Ohio, and another to the ARMY AND NAVY JOURNAL for publication.

Committee—Sergt. Charles Carter, Co. B, 10th Inf.; Pvt. John Fox, Co. B, 10th Inf.; Pvt. Frank Head, Co. B, 10th Inf.; Sergt. Harry Grady, Co. C, 10th Inf.; Pvt. Harry D. Wells, Co. C, 10th Inf.; Pvt. Harry J. Butler, Co. C, 10th Inf.

56 to 70 Allen St., | 59 to 65 Orchard St.,

NEW YORK.

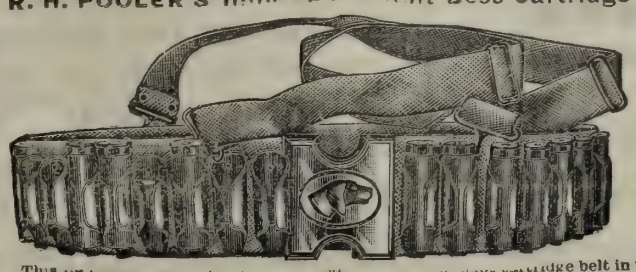
THE REASONS WHY THE "GILBERTSONS'S OLD METHOD" ROOFING PLATES

Were selected as the best Material for the Roof of the

WHITE HOUSE IN WASHINGTON.

"The United States desires only the best class of materials, and parties who imagine that any other class will be received are respectfully requested not to bid."

"Comparative tests will be made for weight, ductility, uniformity of plates and thickness and quality of coating, ALL of which, as well as the prices, were specially considered by the United States Government in making the award."



The "GILBERTSON'S OLD METHOD" took the contract for the WHITE HOUSE roof at 70 cents per box over the so-called "Genuine Old Style" for the IC 14x20 size (equal to $1.40 per box for the 20x28 size.)

We unhesitatingly affirm that the "Gilbertson's Old Method" is the heaviest coated and best Roofing Plate ever made or imported.

NEW ENGLAND MUTUAL Life Insurance Company, OF BOSTON, Mass.

Assets, ------ $17,846,546.65
Liabilities, --- 15,238,761.16
Total Surplus, - $2.607,785.49

This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.

Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.

Pamphlets explanatory of the New Feature may be had on application at Compy's Office,

Proposals for Mineral Oil.

JEFFERSONVILLE DEPOT, Q. M. DEPT., JEFFERSONVILLE, IND., October 11, 1886.

SEALED PROPOSALS in triplicate, subject to the usual conditions, will be received at this office until 11 o'clock A. M., (Central Standard time.) on Thursday, the 11th day of November, 1886, at which time and place they will be opened in the presence of attending bidders, for furnishing and delivering 100,000 gallons Mineral Oil, at the Jeffersonville Depot, Indiana, in cases of two five-gallon cans each.

Deliveries to commence by December 1, 1886, and be completed by January 15, 1887, in such quantities, and at such times, between those dates, as may be agreed upon.

The Government reserves the right to reject any or all proposals.

Preference given to articles of domestic production and manufacture, conditions of price and quality being equal, and such preference given to articles of American production and manufacture produced on the Pacific coast to the extent of the consumption required by the public service there.

Blanks and full information as to bidding, etc., will be furnished by this office on application.

RUFUS SAXTON,
Assistant Quartermaster General, U. S. Army

ARMY NAVY

GAZETTE OF THE REGULAR **JOURNAL.** AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 16. WHOLE NUMBER 1212. | NEW YORK, SATURDAY, NOVEMBER 13, 1886. | SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

THE Headquarters of the Division of the Pacific and of the Department of Dakota, have been duly established in San Francisco and St. Paul respectively, and the officers of the staff are busy getting settled into quarters in those cities.

THE annual reports of the chiefs of bureaus of the Navy Department were all completed this week, and are now in the office of Secretary WHITNEY, who is already informed as to the salient points in them, and has made use of them in the preliminary work on his own report.

THE annual report of the Lieutenant General of the Army will be given to the public the early part of next week, and the reports of the Division and Department Commanders and bureau officials will immediately follow, one or two being given to the press each day until all have been published.

A RECENT "Descriptive List of Deserters" gives a total of 86, of whom 44 were General Service recruits, who deserted from rendezvous and depots; 21 from the Engineers' Battalion; 6 from the Artillery; 8 from the Cavalry, and 7 from the Infantry. This speaks well for the Line, especially the Infantry, and somewhat relieves it from the generally accepted statement that it is the hard work and other ills men have to undergo, or think they undergo, *after* joining regiments and posts, which causes them to desert.

MANGUS and one buck arrived at Fort Pickens, Fla., Nov. 6, and were heartily welcomed by GERONIMO and the other Indian captives to the hospitalities of that post. The party for Fort Marion was also delivered, Lieutenants T. J. CLAY, 10th Infantry, and LEIGHTON FINLEY, 10th Cavalry, being the officers in charge. One buck for Pickens died in New Mexico while en route. MANGUS, it is reported, made a desperate effort to escape while passing through Colorado. He jumped through a car window, stabbed himself in a half a dozen places, then attacked the interpreter and mauled him with his shackles. Notwithstanding all this and more, he was delivered safely at Pickens, and now doubtless nurses his various wounds in congenial company and congratulates himself on having at last reached a haven of rest where his daily bread is assured him.

GENERAL MILES, in his report of the Indian campaign, which we published last week, criticizes severely the character of the Army shoes made at the Military Prison at Fort Leavenworth, as causing unnecessary hardships and suffering on the part of those compelled to use them. When the report was received at the War Department a copy of General MILES's criticism was sent to the Prison Board, of which General TERRY is President, and their attention was called to his complaint. The Board was directed to make a thorough investigation of the whole matter. This they have done, and their detailed report is now in the hands of the Secretary of War. Several new patterns of Army shoes have been submitted by the Quartermaster-General, and, if approved by the Secretary of War, it is believed the soldier will have little cause for complaint about their footgear in future.

THE annual report of the Fourth Auditor of the Treasury, by whom the accounts of the naval service are adjusted, is made up principally of figures, by which it is shown that of the $23,503,865.55 appropriated for the fiscal year 1886, $14,853,950.72 has been expended; $15,603,088.80 has been drawn out by warrant, and $7,737,003.61 left undrawn. It is out of the latter sum that the expenses for the construction of the new vessels will be paid. Claims for prize money amounting to $10,424.41 and general claims to the amount of $433,269.98 were settled during the year. It is recommended that, for the convenience of disbursing officers on the South Pacific Station, funds shall be placed at Valparaiso, Callao, and Panama, subject to their demand. It is again urged that some system of property accountability be instituted by which an audit of the accouuts of officers in charge of public property may be had by accounting officers.

COMPARATIVELY little work is now in progress at the Washington Navy-yard. The guns for the *Chicago* are so far advanced that there is no haste, while nothing has yet been done, or will be for some time, with the proposed new guns. Plans for them are about complete, but some months will be required before the material can be furnished. We learn that the circular containing information as to dimensions, tests, etc., for manufacturers who contemplate bidding for steel for these guns and for armor plates for the new vessels, will be issued from the Ordnance Bureau within a day or two. The data for the plates being the first of the kind ever prepared by the bureau, every precaution had to be taken in the compilation of the circular in order that there might be an accurate formula for the Department to go by in the future. This is the reason given for the delay of which complaint has been made. Since there has been delay, the Department should extend the time for the submission of bids, as contractors will hardly be able to make their calculations and estimates by the time designated—December 10 next.

OF the ex-Director of English Naval Construction, now on a visit to Switzerland for the benefit of his health, the *United Service Magazine* says: "We retain a lively recollection of a similar visit made by Sir N. BARNABY about this time last year to the United States, and we have read the articles, since published in the American and our home papers, on the supply of confidential Admiralty plans and designs to the United States Navy, and on the man-of-war syndicate. We should think this time that our State pensioner is really bent on recruiting his health, as the country he has chosen to visit is not likely to bid £5,000 per set for plans of our latest man-of-war designs as the Americans did last year. There is still, however, a small opening for a little remunerative traffic and barter in information on torpedo-boat design and construction, as works are established on the calm and peaceful lakes of Switzerland for the purpose of building as many of these marine spitfires as they can get orders for. Seeing that Sir N. BARNABY's son is intimately connected with the firm of THORNYCROFT, of Chiswick, little difficulty would be experienced in doing business in this line if required."

THE COMTE DE KÉRATRY has just published, in a work called "Autour du Monde," a description of Bizerta, near Tunis, one of the ports which the French intend converting into a naval station. We are assured that all the incomparable French-African Empire now requires is the port of Bizerta turned into a naval station. The Comte says: "This natural port could contain with ease all the navies in the world, its depth being from 10 to 40 fathoms. It will suffice to cut through a narrow strip of sand which is only 20 inches higher than the sea and the Lake of Bizerta. This strip of sand, at the spot where a canal certainly existed in former times, does not measure more than 200 metres across. The port of Bizerta is Tunis, brought six hours nearer to Marseilles; it is the traffic of Sfax, of Kef, of Kairouan, and of Kroumirie, arriving direct by rail; it is an impregnable refuge for our fleets; it is the Empire of France forever secured in the basin of the Mediterranean. The whole expense would not exceed 20,000,000 francs." A similar harbor might be established on Puget Sound by cutting a passage from the Sound into Lake Washington, back of Seattle.

THE project of establishing an intelligence bureau in the War Department seems to be advancing without the act of Congress, which it was thought last winter would be required. Several clerks have been engaged for some months in General KELTON's branch of the Adjutant General's office compiling, copying and filing away for future use articles and statistics on military matters. No officer has as yet been placed in direct charge of this work, but the detail of Lieutenant E. A. GARLINGTON, 7th Inf., as an attache to the U. S. Legation at Bogota, to gather information for the intelligence bureau, is taken as an indication that before long a number of officers will be detailed for intelligence work, some going abroad as attaches to legations and others assigned to the office at Washington. It is proposed to establish this office in relations to the Army corresponding to those held by the Naval Intelligence Bureau to the Navy. This Naval Bureau has grown to its present proportions without the sanction of Congress, and similer advantage may be taken by the Army of the general laws, which allow the President to order officers wherever their services may be necessary.

WE note this week two court-martial cases (one of them desertion) where the prisoners, though found guilty and sentenced to dishonorable discharge, etc., were restored to duty by the reviewing authority on account of technical errors in the proceedings. We do not question for a moment the legality of this action, yet there is an underlying question as to how far the Service is benefited by the rule of technicalities which compels it. We are not unmindful of all the questions involved, nor of civil laws and rulings in cases of flaws, etc., but the *military* penal code is to some extent at least a thing apart, and certainly the interests of the Service would seem to require that where a crime has, without shadow of doubt, been committed, the offender should be punished. Two men are tried for desertion by the same court, both found guilty, and both sentenced; one goes scot free because of a technical omission in the record, the other receives a "bobtail" and goes to Leavenworth for two or more years, the victim of a perfect record. It is undoubtedly better that many guilty men should escape, rather than that one innocent man should suffer, but when the guilt of two men is equally clear in the case of both a substantial injustice results from the punishment of one and the release of the other.

PERSONAL ITEMS.

LIERTENANT R. N. GETTY, 22d U. S. Infantry, will spend the winter in the East.

CAPTAIN S. M. MILLS, 5th U. S. Artillery, of Fort Monroe, Va., is in Washington.

SURGEON J. C. BAILY, U. S A., left Fort Monroe, Va., on Sunday, on a week's leave.

CAPTAIN MICHAEL COONEY, 9th U. S. Cav., closed the recruiting rendezvous at Nashville, Nov. 6.

LIEUTENANT M. F. JAMAR, 13th U. S. Inf., comes East for the winter for the benefit of his health.

MRS. MORGAN, wife of Gen. M. R. Morgan, U. S. A., of San Francisco, is visiting relatives at St. Paul.

CAPTAIN M. B. HUGHES, 9th U. S. Cavalry, of Fort Niobrara, will spend a portion of the winter on leave.

GENERAL R. H. JACKSON, U. S. A., assumed command of Fort Schuyler, N. Y. H., early in the week.

LIEUTENANT W. H. W. JAMES, 24th U. S. Infantry, lately East on leave, has rejoined at Fort Reno, I. T.

PRINCE LOUIS NAPOLEON, after a round of visits which included West Point Nov. 5, sailed for England Nov. 7.

GENERAL H. F. CLARKE, U. S. A., retired, celebrated his sixty-sixth birthday on Tuesday of this week, Nov. 9.

LIEUTENANT W. F. BLAUVELT, 15th U. S. Infantry, has been visiting at Fort Leavenworth on Court-martial service.

GENERAL S. V. BENÉT, U. S. A., was Acting Secretary of War this week, in the absence of Secretary of War Endicott.

LIEUTENANT E. T. BROWN, 5th U. Artillery, rejoined at Fort Wadsworth, N. Y. H., on Wednesday from a short leave.

CAPTAIN EDWARD HUNTER, 1st U. S. Cavalry, and family, on leave from Fort Assiniboine, are visiting in Washington.

MAJOR W. H. GARDNER, Surgeon, U. S. A., and Mrs. Gardner, are at the Clarendon, Washington, D. C., for the winter.

LIEUTENANT W. L. FINLEY, 9th U. S. Cavalry, lately at Fort McKinney, Wyo., has joined at Fort Leavenworth for duty.

GENERAL WESLEY MERRITT, U. S. A., of West Point, registered at the Fifth Avenue Hotel, New York, early in the week.

GENERAL ADAM BADEAU'S latest article on General Grant is "Grant in Peace" and treats mainly of the memorable visit to England.

LIEUTENANT H. R. LEMLY, 3d U. S. Art., lately in South America, has returned to Washington Barracks and joined Light Battery C.

MISS LOVE, daughter of Gen. G. M. Love, U. S. A., retired, of Buffalo, sailed for Europe, on the *Germania*, on Thursday of this week.

COLONEL E. F. TOWNSEND, 12th U. S. Infantry, has arrived at Sackett's Harbor and taken command of Madison Barracks and of his regiment.

LIEUTENANT C. R. EDWARDS, 23d U. S. Inf., lately on sick leave at Warm Springs, Va., was expected to rejoin at Fort Porter, Buffalo, this week.

CAPTAIN H. O. PERLEY, Assistant Surgeon, U. S. Army, and Mrs. Perley, daughter of Col. T. G. Baylor, U. S. A., will spend the winter on leave.

MAJOR W. H. H. BENYAURD, Corps of Engineers, U. S. A., much to the regret of his many friends in Chicago, will shortly leave there for duty at San Francisco.

ASSISTANT SURGEON BLAIR D. TAYLOR, U. S. A., lately at Jackson Barracks, La., has arrived in San Antonio and reported to Gen. Stanley for assignment to duty.

CAPTAIN W. H. H. CROWELL, 6th U. S. Inf., recruiting officer at Buffalo, was in New York on Wednesday, en route to David's Island as witness before a Court-martial sitting there.

MAJOR THEODORE K. GIBBS, formerly of the 1st U. S. Art., has been publicly thanked by the School Committee of Newport, R. I., for his generosity in donating a sum of money to purchase prizes for scholarships.

"MARK TWAIN" attracted a large audience to the rooms of the Military Service Institution of the U. S. at Governor's Island on Thursday evening, and his paper on the "War Experiences of a Connecticut Yankee at King Arthur's Court" was received with much applause and laughter.

THE remains of the Revolutionary hero, General Israel Putnam, were disinterred last week at Brooklyn, Conn., placed in a metallic casket and reinterred under the foundation for the monument which the State will erect to the hero's memory in the spacious grounds north of the Mortlake House, in Old Brooklyn. The monument will have a large equestrian statue, to cost $10,000. The bones were found remarkably well preserved.

GENERAL SHERIDAN is fond of his joke. He hasn't much faith in the Indian, and has a poor opinion of people who have. He suggested to Secretary Endicott when the question of finding a place for Geronimo and his band was under consideration, that they be sent to Fort Warren, at Boston. He recommended the Hub because he thought most of the Indian sentimentalists lived here, and he wanted them to have a little practical experience with the Indian character.—*Boston Journal.*

THE Brooklyn *Eagle* says: Lieutenant Benét has been transferred to the Ordnance Corps; Lieutenant Zalinski is permanently detailed to pursue his experiments with dynamite guns and projectiles; Lieutenant Brown is at Fort Richmond, and Captain Day is engaged in perfecting his invention of an electric gun. Thus the officers of Light Battery F, 5th U. S. Artillery, who have made their impress upon the National Guard at the State Camp and at Creedmoor are widely scattered.

LIEUTENANT A. C. DUCAT, 3d Cavalry, is visiting at 1,105 H street, Washington, D. C.

COLONEL G. L. FEBIGER, U. S. A., who will be retired Dec. 8, is residing at New Haven, Conn.

LIEUTENANT B. S. WEVER, 1st U. S. Inf., lately at Plattsburg, N. Y., has arrived at San Francisco.

COLONEL C. L. BEST, 4th U. S. Artillery, of Fort Adams, spent a few days in New York this week.

GENERAL JOHN GIBBON, U. S. A., has returned to Vancouver Barracks from an official trip to Idaho.

LIEUTENANT J. V. WHITE, 1st U. S. Artillery, has taken charge of recruiting matters at Alcatraz Island, Cal.

COLONEL J. G. TILFORD, U. S. A., and Mrs. Tilford, of Fort Meade, were recent guests at the Ryan Hotel, St. Paul.

LIEUTENANT J. S. BISHOP, 13th U. S. Inf., arrived in San Francisco a few days ago in charge of a squad of prisoners for Alcatraz Island.

LIEUTENANT W. F. FLYNN, 8th U. S. Cavalry, leaves Fort Clark, Texas, next week for the North, to spend two or three months' leave.

MAJOR J. P. WRIGHT, Surgeon, U. S. A., lately at San Antonio, will succeed the late Dr. Clements as Surgeon at the Leavenworth Military Prison.

LIEUTENANT C. B. THOMPSON, R. Q. M., 5th U. S. Inf., lately visiting in Washington and Louisville, will rejoin at Fort Keogh, M. T., early next week.

MAJOR GENERAL J. M. SCHOFIELD, U. S. A., and staff paid an official visit to Commodore Gherardi, Commandant of the Brooklyn Navy Yard, November 5.

MRS. B. J. D. IRWIN and the Misses Irwin have returned to the city from Cranston's, West Point, and have resumed their residence at the New York Hotel.

CAPTAIN GEO. F. PRICE, 5th U. S. Cavalry, after an arduous tour of duty at Chilocco Creek, Indian Territory, returned this week with his troop to Fort Riley for a winter's rest.

COLONEL H. C. MERRIAM, 7th U. S. Inf., who left Brooklyn last week, was expected to reach Fort Laramie, Wyo., this week and resume command of that post and of his regiment.

COLONEL LUTHER P. BRADLEY, 13th U. S. Infantry, closes up his affairs in Santa Fe., N. M., this week and then goes to his home to await retirement for age which will occur Dec. 8 next.

THE death of 1st Lieutenant N. D. Wolfe, 2d U. S. Artillery, promotes 2d Lieut. E. H. Catlin to a first Lieutenancy and moves him from Jackson Barracks to St. Francis Barracks, Fla.

LIEUTENANT CHAS. N. CLINCH, 24th U. S. Infantry, is one of the heirs of the late Mrs. A. T. Stewart, and if rumor is to be believed, "will soon be the wealthiest man on the active list of the Army."

LIEUTENANT J. A. LUNDEEN, 4th U. S. Artillery, arrived at Bedford, Mass., early in the week, and spent a few days at the Fort at Clark's Point, making an inventory of the public property there.

MAJOR W. H. FORWOOD, Surgeon, U. S. A., after a pleasant tour of duty in Chicago, goes to Dakota for duty. He will be replaced at Chicago by Major Van Buren Hubbard, Surgeon, now at Fort Bayard, N. M.

A *Tribune* item says: Captain Walker, retired list U. S. A., and who served with General Custer on the frontier, remarked incidentally to a friend the other day that Mrs. Custer is broken down with nervous prostration and has been sent by her physician to recuperate. She is at Newport, in Herkimer County.

MAJOR GENERAL J. M. SCHOFIELD, U. S. A., attended the farewell reception and dinner to the French delegates at the Hoffman House, New York, previous to their sailing for Europe on Saturday last. Among the speakers were General Schofield, M. de Lesseps, Admiral Jaures, who toasted the American Navy, and General Pellissier, who toasted the American Army.

HARVARD this week conferred the degrees of Doctor of Laws upon Asaph Hall, Professor of Mathematics in the U. S. N., mathematician and astronomer; Henry Larcom Abbot, Colonel of U. S. Engineers, military engineer, mathematician and physicist, author and teacher; John Shaw Billings, Surgeon in the U. S. Army, student and teacher of public medicine, medical bibliographer.

ANOTHER chapter in the domestic unpleasantness of General S. S. Carroll, U. S. A., was added Nov. 6 in the form of a complaint filed in court by his wife, who alleges non-support, neglect and ill-treatment. Her complaint says that she is left alone with three servants on the farm, six miles from the city, the servants being instructed to ignore every order she gives. She cannot use her carriage, cannot have her clothes laundered when General Carroll is not there, and she has to walk to the railway station. "I am suffering," she says, "for the necessities of life." Suit for divorce will be instituted in Maryland.—*Critic.*

BIERAL'S attempt to assassinate Surveyor Beattie in New York illustrates the evil results of trying to pension on the Custom House doubtful characters whose claim to recognition is that they were soldiers in the Union Army 25 years ago. Bieral was a desperado of the worst character—a gambler, sport and prize-fighter. He enlisted in a California regiment, commanded a company at Ball's Bluff, bore off from the field the body of Colonel Baker, and was consequently sent home with it to California. Gen. Sickles got him a place in the Custom House in 1872, and this is the third time he has been discharged or suspended for irregularities. He has a young wife and a family and a modest home, and his son of 12 had written to the President asking to have his father reinstated, as Bieral, who is 72 years old, claims to have been unjustly dismissed. His attempt to assassinate his superior displays his unfitness for a public place, aside from the fact that he was charged with trying to collect $2 duty from an immigrant girl on an American sewing-machine.

LIEUTENANT C. A. VARNUM, 7th Cavalry, will leave Fort Yates next week on a month's leave.

GENERAL O. B. WILLCOX, U. S. A., and staff, left Fort Leavenworth Nov. 5, on an inspection tour.

MAJOR A. C. WILDRICK, 5th U. S. Art., left Fort Hamilton, N. Y. H., on Tuesday on a week's leave.

GENERAL MILES is daily expected at Washington where Mrs. Miles is the guest of her sister, Mrs. Don Cameron.

CAPTAIN S. H. LINCOLN, 10th U. S. Infantry, of Fort Lyon, is visiting his brother, Dr. Lincoln, in Washington.

LIEUTENANT KNIGHT, 3d Cavalry, and Mrs. Knight, on their wedding tour, were expected at Fort Leavenworth this week.

LIEUTENANT D. D. JOHNSON, 5th U. S. Artillery and bride were in Philadelphia this week, registering at the Continental Hotel.

CAPTAIN W. A. ELDERKIN, U. S. A., visiting in New York City this week, will return to Newport Barracks, Ky., in a few days.

ASSISTANT SURGEON J. L. PHILLIPS, U. S. A., of Fort Sisseton, Dakota, leaves there next week for the East on a two months' leave.

GENERAL A. G. BRACKETT, U. S. A., has an excellent article on the 2d and 3d U. S. Cavalry in the Philadelphia *Times* of November 7.

ASSISTANT SURGEON P. G WALES, U. S. A., left the Service for civil life Nov. 5, and his place has been filled by Dr. C. L. G. Anderson, of Maryland.

MAJOR J. B. CAMPBELL, U. S. A., of Fort Monroe, was in New York this week and took a trip to Fort Leavenworth in charge of a squad of military prisoners sent from Fort Columbus.

LIEUTENANT-GENERAL SHERIDAN left Washington on Monday with Senator J. Don Cameron and a party of friends for a short visit to Winchester and the battlefields in the Shenandoah Valley.

THE marriage of Lieut. James Sumner Pettit, 1st U. S. Inf., to Miss Bessie Bryson, daughter of Maj r Alexander Sharp, Paymaster, U. S. Army, will take place on Wednesday nex', Nov. 17, at Leavenworth, Kan.

COLONEL W. R. SHAFTER, 1st U. S. Infantry, whose birthday recently occurred, was complimented with an informal *musicale* at Angel Island, at which many prominent society people of San Francisco were present.

LIEUTENANT LUCIEN G. BERRY, 4th U. S. Art., was married Oct. 28, at Caton, N. Y., to Miss Emma R. Minier. The married couple left soon after the ceremony for Fort Preble, Portland, Me., where the Lieutenant's battery is stationed.

LIEUTENANT E. A. GARLINGTON, 7th Cavalry, who has been ordered to Washington, will be detailed as military attaché at the U. S. Legation at Bogota. Mr. Dabney Maury, the newly appointed Minister to Colombia, made application through the State Department for his detail, and it has been granted.

A CORRESPONDENT writes: "Recently a memorial to Post Quartermaster Sergeant John H. Thorington, U. S. A., has been erected in the National Cemetery at the Presidio. It is a handsome shaft, and bears the inscription, "In Memoriam, J. H. Thorington, Post Q. M. Sergeant. Died October 1, 1885, aged 51 years. Erected by his comrades and friends." Thorington was well and favorably known in the 6th Cavalry and 8th Infantry, and was a faithful soldier and "God's noblest work, an honest man."

THE Hon. George W. Baxter, lately appointed Governor of Wyoming, was graduated from West Point in 1877, and resigned in 1881, he being then a 2d lieutenant of the 3d U. S. Cavalry. On leaving the Army, he entered the cattle business and made an independent fortune. He married the daughter of Colonel Charles McGee, one of the wealthiest men of the South, and President of the East Tennessee, Virginia and Georgia Railroad. His father was Judge John Baxter, of Tennessee, whose father was Governor of Arkansas during the Brooks-Baxter imbroglio.

THE New York *Tribune* in "Chats about Men and Things," says: While General "Phil" Sheridan was here recently he met E. L. Bonner, of Montana, who is the leading manager of the great lumber company of that Territory, and who had been a companion of General Sheridan when the latter was only a lieutenant and stationed at Vancouver's Island. Shortly afterward Mr. Bonner remarked: "Do you know why Sheridan and Grant and Sherman and the other officers who became most prominent in the War of the Rebellion were so successful? I lay it to the fact that they all had service in the Far West and on the Pacific Coast. I may be mistaken, but I do not think there was a man who came clear to the front during the war who had not seen service out there. The ways and life and energy of the West gave these men a power on their return to the East which was demonstrated as they came into military leadership. I saw a great deal of Sheridan at Vancouver's Island and Walla Walla."

SPEAKING of old men recalls an experience of General Lippitt, a retired Government official, who is enjoying splendid health at the age of 79. He is one of the gayest members of Washington society. He is very fond of dancing, and at every party and reception the General is one of the gayest and the youngest. In 1874 he went to the agent of one of the largest New York life insurance companies and said that he wanted to purchase an annuity. He said that he had just $14,000. He wanted to know how large an annuity that amount of money would buy. They examined the General and decided that they could give him an annuity of $2,000 a year. When this agreement was made the General went off highly contented with his bargain. He has grown younger and more vigorous every day since. He has now drawn $10,000 back of his original amount paid in, and the other day he said to the agent of the company: "I got the start of you in '74; you should have looked up the record of my family. Not a single member of our family has ever been known to die under ninety."—*N. Y. World.*

MAJOR ANSON MILLS, 10th U. S. Cavalry, on leave from Arizona, and lately at Zanesville, O., visited friends in New York City this week.

MAJ. GENERAL JOHN NEWTON, U. S. A., was mustered in as a comrade of Noah L. Farnham Post 458, G. A. R., New York, on Thursday evening.

LIEUTENANT E. F. WILLCOX, A. D. C., is to be married Nov. 17 at St. Paul, to Miss Johnston, daughter of Colonel W. H. Johnston, Pay Department, U. S. Army.

CAPTAIN WM. G. WEDEMEYER, 16th Infantry, on sick leave, is visiting his "old commander" General Pennypacker in Philadelphia. The captain's health has somewhat improved.

AMONG those who visited the Liberty Statue at Bedlow's Island on Monday of this week, were Mrs. E. F. Townsend, wife of Col. Townsend, 12th U. S. Inf., and the Misses Townsend, Mrs. I. E. King, formerly of the 12th Inf., and Lieut. Millard F. Waltz, 12th Inf.

THE Grant relics swords, medals, jewelled caskets and historic and costly trophies of various kinds, presented to the Government by Mrs. Grant and Mr. Vanderbilt, and accepted by act of Congress, have been formally turned over to the National Museum by the War Department.

LIEUTENANT W. W. FORSYTH, 6th U. S. Cav., was married at Atlanta, Ga., Nov. 1, to Miss Mary Belger, daughter of Col. James Belger, U. S. A. The ceremony was performed at St. Phillip's Episcopal Church, the Rev. Byron Holly officiating. There was a large and fashionable attendance.

LIEUTENANT W. E. BIRKHIMER, 3d U. S. Art., an able young officer of literary tastes, has been appointed Judge-Advocate of the Dept. of Columbia, which gives him while on that duty the rank, pay, and allowances of a Captain of Cavalry. He will leave Washington in a few days for Vancouver Barracks to report to Gen. Gibbon.

MARSHAL BAZAINE has had a severe fall while walking in the Retiro at Madrid. He had to be carried by the police and the bystanders to his house. Marshal Bazaine lives alone in Madrid, as Mme. Bazaine went to Mexico with some of her children last spring on family matters. He looks very old and shaky, has a long gray beard, and is very shabbily dressed. His eldest son is a volunteer in a crack Spanish regiment of Chasseurs.

LIEUTENANT J. B. ALESHIRE, 1st U. S. Cavalry, was married at Dubuque, Iowa, Nov. 8, to Miss Hattie Dana, of Fort Custer, the groom's present station. The ceremony took place at the residence of Judge O. P. Shiras. A local paper, referring to the event, says: "The bridal couple left in the evening for Ohio to spend two months with friends of the groom. The presents were numerous and very handsome. Officers of Fort Custer gave a very handsome silver tea set. A chest of silver for table service was presented by civilian friends. Members of the old firm of Shiras, Van Duzee and Henderson made a handsome present. Miss Dana is the daughter of one of the Cattle Kings of Montana and is a most charming lady. Lieut. Aleshire is a most exemplary gentleman."

A *Boston Traveller* correspondent writes from Washington of the difference between the Willard brothers. Both are immensely wealthy. C. C. Willard is the proprietor of the Ebbitt House and owns a large amount of other property. He owns two lots on F st., one on which the Ebbitt House stands and the other some twenty feet distant on the same side of the street. His brother, Joseph Willard, owns the lot between the two pieces of property. It has been C. C. Willard's aim for years to get hold of this lot. He has tried all sorts of schemes, but up to date he has not succeeded. Not a great while ago a suave, business-like gentleman called upon Joe Willard and stated that he was looking for a location to establish a candy manufactory. He was impressed with the F street location and wanted to know if it was in the market. Joe Willard replied that he would sell if he could get his price. Then his visitor asked the terms. Looking up and catching the business-man's eye he said: "My price is $500,000. You go back to C. C. Willard, who sent you here, and tell him that." The visitor left in a hurry without any further explanation. Joe Willard, as the boys say, had "called the turn."

THE Kansas City *Times* says:

Capt. Thomas, 5th Cav., after a few days' visit to Fort Leavenworth to Col. and Mrs. Martin has returned to Fort Riley, Kansas..... A "Small and Early" by Mrs. Major Babcock Saturday, was attended by Lieut. and Mrs. Watts, Lieut. and Mrs. Paddock and others....A very pleasant card party was given in honor of Miss Martin, of Chicago, by Mrs. Lieut. Rowan Tuesday last. Among those present were Col. and Mrs. Woodruff, Capt. and Mrs. Carr, Misses O'Toole and Redfern, of Chicago, Lieut. and Mrs. Hein, Miss Ross, Lieuts. Clinch, Barney, Reade and Pardee.....The season at Fort Leavenworth was opened in form by Mrs. Capt. Carr by a grand german in the theatre building, given in honor of the Misses O'Toole and Redfern, of Washington, now visiting at the residence of Capt. and Mrs. Carr. Lieuts. Scott and Cooke were selected by Mrs. Carr to lead. The supper at Mrs. Carr's quarters sustained her reputation and the Captain's jovial way made all doubly welcome. The ladies' toilets were elegant and the glamour of the military was all that could be desired.

THE Omaha *Excelsior* of Nov. 4 says:

Dr. Ives, who has been in Florida with Geronimo, is a guest at Fort Omaha, on his way to Fort Russell.....Mrs. Miller, widow of Gen. Morris S. Miller, the mother of Mrs. Gen. Wheaton, with her daughter, Miss Catherine Miller, arrived here Monday, from Detroit, Mich. They are the guests of Gen. and Mrs. Wheaton....Miss Hickman, of Cincinnati, O., is the guest of Major and Mrs. Brown .....Lieut. W. R. Abercrombie and his charming bride have arrived and are occupying quarters No. 4.....Dr. Haskins and wife returned last week from a visit with friends in the East....Mrs. Clark, wife of Capt. S. E. Clark, 2d Inf., has returned from New York, where she has been undergoing medical treatment.... Mrs. Lieut. Cornman, of Fort Sidney, gave a progressive euchre party Thursday evening of last week. Mrs. Dr. Ewen won the first prize for ladies and Mrs. Gen. Morrow the second. The gentlemen's prizes were won by Lieut. Williams and Capt. Ebstein.....The great social event of the season at Fort Omaha was the reception given Lieut. Abercrombie and his charming bride at the officers' mess last evening. The hall was gayly festooned with flags and two mountain howitzers placed on either side of the stage gave to the place a martial appearance. The orchestra was composed of the 2d Infantry band. The committee, Capts. Mills and Dempsey, and Lieuts. Larson, Rowell and Van Liew, were untiring in their efforts to make the affair enjoyable.

LIEUTENANT M. F. STEELE, 8th U. S. Cavalry, is visiting relatives in Huntsville, Ala.

LIEUTENANT A. A. AUGUR, 24th U. S. Inf., has joined at Fort Elliott, Tex., for temporary duty.

GENERAL S. V. BENÉT, U. S. A., was in New York on Wednesday, with quarters at the Grand Hotel.

ADJUTANT J. B. HICKEY, 8th U. S. Cav., on leave from San Antonio, will remain North until January next.

COLONEL C. E. BLUNT, Engineer Corps, is this week visiting his son, Colonel Blunt, of Gen. Sheridan's staff.

THE death of 1st Lieut. John Scott, 4th U. S, Inf., promotes 2d Lieut. G. N. Chase, A. D. C. to General Crook, to a 1st Lieutenancy.

MAJOR-GENERAL J. M. SCHOFIELD, U. S. A., was on Thursday evening elected an honorary member of the Union League Club, New York City.

CAPTAIN H. A. BARTLETT, U. S. Marine Corps, was married Nov. 9 at London, Eng., to Miss Cara Hall, daughter of A. Oakey Hall, formerly Mayor of New York City.

CHAS. E. MUNROE, S. B., Professor of Chemistry, has prepared part 1 of a comprehensive "Index to the Literature of Explosives," which has been published by Isaac Friedenwald, 99 Fayette street, Baltimore. Price, 50 cents.

LIEUTENANT GEORGE EDGAR FRENCH, 4th U. S. Infantry, will be married at Saugerties, N. Y., Nov. 18, to Miss Lydia Cantine, daughter of Mr. and Mrs. Peter Cantine. In an item last week concerning this event the gentleman was inadvertently referred to as "Lieut. W. E. P. French, 3d U. S. Infantry."

THE following Army officers are registered at the War Department: Capt. S. H. Lincoln, 10th Inf.; C. Sutherland, Surgeon; Major W. H. Gardner, Surgeon; Capt. W. H. Bixby, Engr.; Col. Theo. Yates, retired; 1st Lieut. J. V. Benét, Ord.; 1st Lieutenant Frederic V. Abbot, Engr.; Colonel Charles E. Blunt, Engr.

COLONEL JACOB E. BLOOM, who has recently been admitted to the bar by the Supreme Court, is a graduate of West Point, served for some years in the 4th U. S. Artillery, and was for a year commandant of cadets and Professor of Military Engineering at the East Tennessee University, and was there appointed a colonel and aide-de-camp on the staff of Gov. James D. Porter. In 1880 he resigned, and has for some years been president of the Screw and Tap Co., and vice-president of the Ligowsky Clay Pigeon Co., Cincinnati.

LIEUTENANT GEORGE O. WEBSTER, Adjutant 4th Infantry, writes that he is delightfully situated at Fort Cœur d'Alene, his wife and twins have joined him from El Paso, and feels as much at home as if he were back in the old days at Fort Leavenworth. Lieut. Webster says that it is one of the most delightful stations he has ever served in outside of the cities....Lieut. Wetherill, 6th Inf., has the finest span of carriage horses in the post. They are both black and match handsomely....Right royally did Gen. McCook entertain a number of the companions of the Missouri Commandery, M. O. L. L. U. S., on Sunday last....Major George H. Burton, Inspector-General, has returned from an inspection trip.—*Kansas City Times.*

ENSIGN HARRY KIMMELL, U. S. N., was a recent guest at the Occidental Hotel, San Francisco.

LIEUTENANT GEORGE M. STONEY, U. S. Navy, was married at San Francisco, November 10, to Miss Kate Babcock, daughter of the late W. F. Babcock.

A BRILLIANT French naval officer, Lieut. Olivieri, who covered himself with glory at the bombardment of Foochow, and was decorated for his bravery under Admiral Courbet, has withdrawn from the Navy in order to retire to La Trappe and there devote himself to contemplation.

THE U. S. S. *Thetis*, which was formerly the flag ship of Comdr. W. S. Schley in the Greely Relief Expedition, is now undergoing repairs at the Brooklyn Navy-yard preparatory to a cruise to Alaska. It is reported that the command of the vessel has been offered to Lieut. Wm. H. Emory.

COMMANDER C. M. CHESTER, U. S. N., so well known in Washington through his long connection with the Coast Survey as Hydrographic Inspector, is now in command of the *Galena*, and recent accounts from the ship are to the effect that her commanding officer is as well liked afloat as ashore.

LIEUTENANT LUCIEN YOUNG is receiving the congratulation of his friends on his long-delayed promotion. Lieut. Young has been recently detached from the *Shenandoah*, and will probably make Washington his winter residence. Mr. Young will be remembered as one of the few survivors from the ill-fated *Huron*.

To those who know Rear-Admiral E. Y. McCauley, the news of the serious illness of Mrs. McCauley will cause deep regret. The Admiral has been allowed a leave of absence for the purpose of visiting his wife, and the command of his squadron, the South Pacific, has been temporarily transferred to Comdr. Louis Kempf, U. S. N., commanding the *Adams*.

MAJOR G. C. GOODLOE, paymaster, U. S. M. C., has about completed his report of the operations of his department during the fiscal year ending June 30, 1886. The Major is seldom absent from Headquarters, and his department is in a most efficient condition. Maj. Goodloe occupies a fine residence at 1,706 Rhode Island avenue, where Mrs. Goodloe does the honors to the host of friends she has drawn around her by uniform courtesy and amiability.

LIEUTENANT HENN and his wife are living aboard the cutter *Galatea* at her winter anchorage in Manning's basin, in South Brooklyn, as they prefer the "home" comfort thus obtained to that furnished in the hotels ashore. This happy couple always live aboard the yacht wherever they go. The gallant Lieutenant tells many amusing stories of his voyages all about the world, and of hair-breadth escapes from collisions in dangerous localities, always alluding to the heroism of his amiable wife.

ASSISTANT CONSTRUCTOR F. T. BOWLES, U. S. N., has left Norfolk, Va., on a fortnight's leave.

MRS. EDWARD Y. MCCAULEY, wife of Rear Admiral McCauley, is quite ill at her home in St. Paul, Minnesota.

CIVIL ENGINEER A. G. MENOCAL, U. S. N., registered at the New York Hotel, New York City, early in the week.

MR. T. WILSON SPRATLEY, late paymaster's clerk on the *Trenton*, was married Nov. 3, at Washington, to Miss Reay, daughter of Dr. J. W. Reay, of Brooklyn.

LIEUTENANT ADOLPH MARIX, U. S. N., lately returned from Europe, has entered upon duty in the office of the Judge-Advocate General of the Navy at Washington.

CAPTAIN WILLIAM S. MUSE, Marine Corps, now at Washington, is to be ordered to the Norfolk Navy-yard when the course of lectures at the Naval War College is ended this season.

REAR ADMIRAL AND MRS. MULLANY have moved to their Spruce street residence, Philadelphia, where they will occasionally give one of their pleasant little dinners during the winter.

MISS WINNIE DAVIS, daughter of Jefferson Davis, visited Mrs. W. H. Emory at Roslyn, Long Island, early in the week and goes from New York to Syracuse as the guest of Mrs. Thomas Emory.

LIEUTENANT W. H. JAQUES, U. S. N., is still abroad busily engaged in gathering information in his specialties, and as he knows exactly what he wants and how to find it, it is probable that the results of his leave of absence will be especially valuable.

THE approaching marriage of another Washington beauty is announced, that of Miss Kate Willard, daughter of Mr. C. C. Willard, the millionaire proprietor of the Ebbitt House, to Dr. Boyd, a surgeon in the Navy, an exceedingly fortunate man.—*Cin. Gazette.*

ADMIRAL DANIEL AMMEN, U. S. N., retired, has been over in Warwick County, Va., where he has been spending the past two weeks with his old friend, Commo. J. Pembroke Jones, on a hunting expedition. He was accompanied by his two sons. —*Landmark.*

CAPTAIN ALBERT KAUTZ, U. S. N., has been passing a few days at the Capital, paying a flying visit from the Boston Navy-yard, where he is the Equipment Officer. The Captain's last cruise was on the *Michigan*, and was completed in August, 1883. His present orders date from July, 1885.

THE paragraph that is going the rounds of the newspapers to the effect that Admiral Porter, U. S. N., has realized $50,000 from his novels seems to be wide of the mark. While in Newport recently the Admiral is reported to have declared that his publishers had sent him thus far less than $70.

CAPTAIN N. H. FARQUHAR, U. S. N., has been at the Department several times the past week, and is engaged in looking out for prospective sea duty. His last cruise expired in 1881, and he is now waiting orders in Pottsville, Penn. It is regarded among the possibilities that he may command a steel cruiser.

ASSISTANT PAYMASTER S. LAURENCE HEAP, U. S. Navy, in charge of his department on the ironclads at City Point, Va., is making hosts of friends in that part of the Old Dominion, and his approaching detachment will break up a most pleasant circle of friends who have become very much attached to the Paymaster.

ASSISTANT SURGEON THOS. A. BERRYHILL, U. S. N., appointed June 17 of the present year, is now serving on the *Minnesota*, training ship for boys. Dr. Berryhill was for a time on duty in the Museum of Hygiene, Washington, and the many friends at the Capital will be pleased to learn that he is as much a favorite there as here.

LIEUTENANT E. F. QUALTROUGH, U. S. N., now on duty at the Mare Island Navy-yard, Cal., is said to be at work on a book to be brought out some time during the coming year. The Lieutenant's previous ventures in this line have been so successful, and withal so valuable, that the new venture will be looked for with much interest.

PASSED ASSISTANT ENGINEER ROBERT CRAWFORD, U. S. N., who for several months past has been on sick leave, has been ordered to duty at the Mare Island Navy-yard, Cal., where it is hoped the climate will be favorable to his full recovery to health. Mr. Crawford has credit for eleven and a quarter years of sea service out of a total of twenty-two and a half years in the Navy.

LIEUTENANT ZALINSKI, 5th U. S. Cav., had a large party to visit him at Fort Lafayette on Tuesday, to witness experiments with the dynamite gun. In the party were Col. Barkar, Royal Engineers; Col. Ellis, Royal Artillery, both connected with the British War Department; Col. Fosberry, English Army; Commo. Gherardi, Commandant of the Brooklyn Navy-yard; Captains Kirtland, Bunce, Boyd, and Kane; Lieut. Comdr. R. M. Berry and Comdr. Robeson, U. S. N.

PROFESSOR WILLIAM HARKNESS, U. S. N., is a well known figure at the Capital, and the results of his patience and skill are justly regarded as models wherever scientific work is most appreciated. But the Professor is not alone esteemed in the walks of "applied mathematics," but socially he is a success as well. The Cosmos Club, the most club-like club in the city, which will soon move into its commodious new quarters at the corner of 15½ and H streets, numbers the Professor among its most valued and genial members.

LIEUTENANT G. C. FOULK, U. S. N., on duty as naval attaché at the Consulate, Soeul, Corea, has become thoroughly familiar with the language, manners, and customs, and with much of the folk-lore of the "Hermit Nation," and will probably set forth the results of his observations and experience in the form of a book or report as soon as relieved from that far-away and mysterious station. Mr. Foulk's knowledge of several eastern dialects renders him quite an invaluable adjunct to our Government in that part of the world.

ASST. NAVAL CONSTRUCTOR LEWIS NIXON, U. S. Navy, of Chester, Pa., was in Washington this week.

P. A. PAYMASTER J. A. MUDD, U. S. N., rejoined this week at the Brooklyn Navy-yard from a visit to Washington.

THE engagement is announced of Lieut. G. M. Stoney, U. S. N., to Miss Babcock, with the wedding in the near future.

PAY DIRECTOR J. S. CUNNINGHAM, U. S. N., is at present staying at the Sturtevant House, New York City. He will remain there several weeks and then go to Washington, D. C.

LIEUTENANTS C. C. TODD, Lucien Young and Alfred Reynolds and Ensign R. Henderson were examined for promotion this week, and it is believed that each passed successfully.

PROF. CHAS. E. MUNROE, of the Naval Academy, publishes in the Nove'ber number of Van Nostraud's "Engineering Magazine" an analysis of deposit from the channel way of the U. S. S. *Richmond*, submitted to him by P. A. Engr. Canaga, U. S. N.

P. A. ENGR. H. S. ROSS, P. A. Engr. C. R. Roelker, Med. Insp. E. S. Bogert, Lieut. C. P. Rees, P. A. Paymaster John W. Jordan, Lieut. Lucien Young, Asst. Constructor Lewis Nixon and Ensign R. Henderson registered at the Navy Department during the week.

THE Examining Board of Naval Engineers at Philadelphia has been reorganized. Chief Engr. Nones has been detached, and Chief Engr. McEwan ordered as a member of the board. The board now consists of Chief Engrs. H. W. Fitch, A. S. Greene and H. D. McEwan.

ONE of the most brilliant marriages of the season was that of Lieut. L. L. Reamey, U. S. N., to Miss Mary Roget Brewster, daughter of Mr. Wm. Cullen Brewster, which took place at the Church of the Holy Spirit, New York City, on Wednesday evening, Nov. 10. About fifteen hundred guests were present, including Admiral Nicholson, Col. and Mrs. Lamont, Secretary and Mrs. Endicott, Secretary and Mrs. Whitney, Commodore Gherardi, Commander Forsythe, Miss Kate Davis, daughter of Admiral John Lee Davis; Commodores Kane and Gerry, Gen. and Mrs. Sheridan, Col. and Mrs. Wilson, Admiral and Mrs. Upshur. The venerable father of the bridegroom, Capt. Daniel K. L. Reamey, of Hollidaysburg, Pa., was present with his two daughters. The mother of the bride entered the church leaning on the arm of her nephew, Lieut. Alfred M. Fuller, U. S. A. Immediately preceding the bride, who advanced up the aisle on her father's arm, was the maid of honor, Miss Anna Brewster. From the door of the chancel, attended by his best man, Lieut. Edw. E. Bradbury, U. S. N., came Lieut. Reamey to meet his bride. The bridesmaids, Miss Agnes Moen and Miss Eloise Ayres, of New York; Miss Jennie Sherrill, of Washington; Miss Carrie Ryan, of Charleston; Miss Mary Bush, of Niagara, wore demi-train dresses. The six groomsmen, all in full uniform, were Lieut. A. M. Fuller, U. S. A., cousin of the bride; P. A. Surg. J. C. Boyd, U. S. N.; Lieut. N. E. Mason, U. S. N.; Lieut. Cowles, U. S. N.; Lieut. S. C. Lemly, U. S. N., and Lieut. Jacob J. Hunker, U. S. N. The ushers were Messrs. Edw. B. Adriance, Jas. R. Wales, Wm. Tailer and Rich'd Oliphant. The Rev. Dr. Guilbert performed the ceremony, after which came a reception at the residence of the bride's parents. The wedding tour will occupy about a fortnight, after which the married couple will establish themselves in Washington, at 1825 I street. Mrs. Reamey's first reception there will be on New Year's day. Lieut. Reamey has planned for building a house in Washington at an early date.

RECENT DEATHS.

LIEUTENANT NATHANIEL DOUGLASS WOLFE, 2d U. S. Artillery, died at his residence at Chestnut Hill, Philadelphia, Nov. 4, after a long illness. He had been on sick leave since June, 1885. Lieut. Wolfe was born in Kentucky, and in September, 1861, volunteered with the Louisville Home Guards to resist the advance of Gen. Buckner. He was appointed sergeant major of the 28th Kentucky Volunteers in January, 1862, and soon afterwards was promoted to 1st lieutenant. He was aide-de-camp to Gen. Ward from May to June, 1862; assistant to the ordnance officer of Louisville until July, 1862, and ordnance officer of the district of Kentucky until September of that year. He was subsequently aide-de-camp to Gen. Granger, and A. A. A. G. of the Army of Ohio and Cumberland, filling these positions up to March, 1864, and was engaged at the actions of Lawrenceburg, Tenn., and Eaglesville, Ky. In March, 1864, he was mustered out, and in January, 1867, was appointed a 2d lieutenant, 34th U. S. Infantry; was transferred to the 2d U. S. Artillery in 1869, and promoted 1st lieutenant April 28, 1875. He was married some years ago to a daughter of Dr. John Neill, of Philadelphia. The funeral services took place from the house Nov. 6.

LIEUTENANT JOHN SCOTT, 4th U. S. Infantry, who was taken some time ago to the Insane Asylum at Washington, died there Nov. 10 of general paralysis. He served as enlisted man and officer during the war in the Illinois infantry, rising to the rank of captain and receiving the brevet of major for faithful and meritorious services. He was appointed 2d lieutenant 30th Infantry March 7, 1867, transferred to the 4th Infantry in 1869, and promoted 1st lieutenant in 1878. He was a native of Scotland.

THE remains of the late Surgeon B. A. Clements, U. S. A., whose death we announced last week, were sent, Nov. 4, from Fort Leavenworth to St. Louis, where they were temporarily placed in a vault at Bellefontaine Cemetery. Lieut. Bingham, U. S. A., with Mrs. Bingham, a sister of Mrs. Clements, accompanied the remains, which were taken to Leavenworth City in a hearse, with the following pall-bearers: Lieut.-Col. Charles Page, M. D.; Lieut.-Col. William A. Rucker, P. D.; Major J. V D. Middleton, M. D.; Major J. P. Martin, Asst. Adjt. Gen.; Major George B. Sanford, 1st Cav.; Capt. W. D. McCaw, M.D.; Capt. C. C. C. Carr, 1st Cav. and Act. Asst. Surg. Chase. Mrs. Clements was too much prostrated to go to St. Louis. Her father, Mr. T. S. Rutherford, of St. Louis, and Mr. and Mrs. Lawrence, of New York, are with her.

The Kansas City *Times*, in an obituary notice of the deceased, says:

He was an excellent physician and successful surgeon. His kindness of heart endeared him not alone to his patients, but to all who came in contact with him. As a soldier he had a fine sense of duty, in fact duty was with him the first consideration. His thoughtful kindness to all serving under him will ever be cherished in their memory. He was a gentleman of the old school, touched up with a mixed coloring of Georgetown Heights and the Rocky Mountains. Born and educated under Jacksonian ethics, he remained loyal to his commission and received polish and promotion together. The ruggedness of the first was tempered by the clime of the second, forming a happy combination both for himself and friends. A student in severity and simplicity, his mind was richly stored from certain fields, and of late he was much interested in biblical studies, reading largely every new phase and with a growing interest. A certain translation of the New Testament had peculiar charms for him, throwing as he expressed it "floods of light on passages that to him had always been obscure." He was a lover of children, giving evidence of a normally good heart, and was exceedingly particular that his own children—daughters—should read only the books that were purest and best. His earthly labors ended, let him have the kindliest benedictions of men and God will manage all else.

MRS. TODD, widow of Gen. J. B. S. Todd, died at Minneapolis Oct. 23. Gen. Todd, it may be recollected, was graduated from West Point in 1837, rose to Captain, 6th U. S. Inf., resigned in 1856, was sutler at Fort Randall from 1856 to 1861, appointed Brig.-Gen. of Volunteers by President Lincoln, his cousin, Sept. 19, 1861, and resigned July 17, 1862. He died in 1872. Mrs. Todd was a sister of the late Gen. William Hoffman, U. S. A., and mother of Mrs. Dean, wife of Lieut. A. T. Dean, 4th U. S. Cav.

MR. SETH WILMARTH, one of the best known of American machinists, died Nov. 5, at Malden, Mass., of heart disease at the age of 76. In 1855 he was appointed superintendent and master mechanic of the Charleston Navy-yard. During his long term of service—over 20 years—he made many permanent and valuable improvements in several departments of the Navy-yard.

DR. RALPH L. STONE, one of the house physicians at the Kings County Hospital, at Flatbush, committed suicide on Friday last by shooting himself in the forehead. He was a nephew of Medical Director J. C. Spear, U. S. N., stationed at the New York Navy-yard, and was unmarried and lived with his uncle.

MR. ANDREW GRAY, a venerable gentleman of 86, who died at Georgetown, Ind., October 15, was the father of Capt. C. N. Gray, 25th U. S. Infantry. Captain Gray, who left Fort Meade for Georgetown, to attend his father's funeral, will return to that post next week.

MR. CHAS. LOUIS BORIE, brother of ex-Secretary of the Navy Adolph E. Borie, died at Philadelphia, November 7.

DEATH OF DAVID CROCKETT.

CAPTAIN REUBEN M. POTTER, U. S. A., writing to correct some statements in an account of the fall of the Alamo that appeared in an article on General Sam Houston, in the *Century* for August, 1884, states that Crockett was killed by a bullet shot while at his post on the outworks of the fort, and was one of the first to fall. Capt. Potter says that the story of Crockett being captured with a gun barrel in one hand, and a huge knife in the other, and a semicircle of dead Mexicans about him is pure fiction. Bowie was ill at the time of the fight, and was found murdered in his bed; and a single bullet hole in the forehead of Travis tells the whole tale of his death. Nothing else, he adds, can be known.

THE WORLD'S BIG GUNS.

SIR FREDERICK BRAMWELL recently in the Town Hall, Birmingham, delivered his inaugural address as president of the Birmingham and Midland Institute, his subject being "Our Big Guns." Having dwelt at length and with great minuteness on the technical branches of his subject—the construction of guns, the form and velocity of shot, and the relative values of steel and other metals—he referred to the great increase in the size of the guns which has taken place within the last few years and instituted a comparison between those of England and other countries. He said:

"The facts as regards France, so far as I know them, are that their largest steel guns are of 75 tons weight and of 16½ inches bore, firing a projectile weighing 1,720 pounds, with a muzzle velocity of 1,739 feet per second, giving an energy of 36,000 foot-tons. The gun is breech-loading, and is rifled on the increasing twist system, as the English guns are. As regards Germany, I do not beli t hat the Germans have in their service any guns larger than (if indeed they be so large as) the steel guns I have mentioned as belonging to France, although, no doubt, the great German gunmaker is prepared to manufacture for them, as he has done for the Italians, guns up to 119 tons. The facts as regards Italy are that, except two 119-ton guns just mentioned, her other big guns of 100 and 105 tons have been manufactured in England.

"With respect to the 119 ton guns, I am informed their ballistics are as follows: Weight of charge, 727 pounds; weight of shot, 2,314 pounds; muzzle velocity, 1,772 feet per second; and muzzle energy, 50,324 foot-tons. It may be interesting to compare the ballistics of the 105 ton guns, which are: Weight of charge, 900 pounds; weight of shot, 2,000 pounds; muzzle velocity, 2,019 feet per second; and muzzle energy, 56,547 foot-tons. I think you will agree I am justified in saying that the position of Italy as regards big guns is no more than on a par with our own. Now, I think the foregoing statements should satisfy you we are not fagging behind other nations, but are well to the front, while with regard to wire-gun experiments I believe we have done, and are doing, more than has been attempted by any other nation."

CRUISE OF THE BROOKLYN.

A CORRESPONDENT of the Baltimore *Sun* describes the *Brooklyn's* trip through the Suez Canal to Aden as follows: Left Port Said Oct. 5 and proceeded at a speed of 5½ knots per hour. Found the canal run in a straight line through Lake Menyaleh for a distance of 29 miles. At the end of the lake we came to the small village of Kantara. Leaving Kantara, steamed on through the small Ballahnakes and then on past the highest point on the line of the canal, El Gisr, about 52 feet high. A few miles further on saw the palace of the Khedive, a neat-looking one-story building, but with no shade of any kind around it. Rounded a curve in the canal here, entered Lake Timsah and got a good view of the canal town of Ismanya. It was getting late on arrival off this place, so the pilot concluded to anchor for the night. The next morning got under way early, steaming through the lake and into the canal again. Shortly after entering the canal passed the foot of Gebel Maryam. A few miles beyond came to the little station of Serapeum, so named from some large blocks of stone near it, which were at first supposed to be the remains of a temple of Serapis, but which are now pronounced, from inscriptions found upon them, to be the ruins of a large monument originally erected by Darius, King of the Medes and Persians. A few miles farther on entered and passed through the two Bitter Lakes. The first station after leaving these lakes was Shaluf.

Passed Suez on the afternoon of Oct. 5, stopping but long enough to drop our pilot and the mail, and then standing on down the Gulf of Suez, bound for Aden, with the mountains of Sinai on one side and a burning Egyptian desert on the other. A short time after passing Suez had a fine view of an oasis in the desert, midway between the sea and the foot of Sinai Mountains. Next morning had a fine view of the top of Mount Sinai for a short time before sunrise, but the sun brought up a companion in the form of a veil of white mist, which hid the mountain from view for the remainder of the day. Towards sunset the reflection of the sun's rays gave a purplish tint to this misty veil, which was reflected onto the sea, giving it a delicate pink color. During the same day sighted three wrecks, not an uncommon sight in this sea. The numerous shoals in this sea and the ragged coral patches along the shores have caused many vessels to come to grief. Then, again, the currents are very uncertain, and until lately the coasts have been but poorly lighted. The fourth day out passed Djeddah, the seaport of Mecca. The weather in this sea was intensely hot, the temperature at night being almost as unbearable as that of the day. Each day brought a dazzling dawn of brilliant color, a blistering noon, a burning sunset, and a clear starlight night, which would be called glorious but for the heat. There is said to be but one more oppressive stretch of water on the face of the globe, and that is the Persian Gulf. The seventh day out passed close to the imposing-looking town of Mocha, with its many fine stone buildings and its numerous mosques, with their lofty minarets showing out in bold relief against the purplish-looking mountains behind.

The evening of this same day entered the historical Strait of Bau-el-Manseb—the Strait of the Gate of Affliction—and ran into a most refreshing breeze. The heated air of the deserts on each side of the Red Sea is constantly rising, forming a partial vacuum, and its place is supplied by airs which, in coming through the narrow strait, blow with considerable violence nearly all the year round. About sunset reached the Island of Perim, an English colony. It is almost a bare rock of volcanic formation, occupied by a small English garrison, which receives all its supplies from Aden. After passing Perim a run of a hundred miles over a smooth sea brought us to Aden, and there dropped anchor on the afternoon of Oct. 13, 1886.

DEFENCES FOR NEW YORK HARBOR.

JOSEPH NIMMO, Jr., recently Chief of the Bureau of Statistics of the Treasury Department, on Tuesday before the Committee on Sea Coast Defences of the New York Board of Trade and Transportation, read a paper giving at length his suggestions as to the proper defences for New York Harbor, as recently set forth in a letter to the Chamber of Commerce. The committee discussed the plan and will make a report to the Board of Trade approving it.

RAILROADS IN CHINA.

P. A. ENGINEER H. S. ROSS, U. S. N., lately returned from China, was in Chicago this week, and is reported as saying: "The efforts of capitalists of other nations to build a railroad through China had as yet come to naught. Gen. Wilson, an American, was there looking after this work for American interests and had the sanction of the State Department. The Chinese Government, he says, has put a stop to the practice of sending its young men to America and European cities to be taught. Most of them become dissatisfied with their own country upon their return, are restless, and fail to make contented citizens. Americans in China are looked upon with more favor than any other class of foreigners, because the Chinese believe they have 'no axes to grind.'"

LATE ARMY ORDERS.

"When an officer is granted leave of absence it shall be charged to the year or years in which it first accrued in order of priority of date, and any balance of accrued leave remaining shall stand to his credit for future leaves, provided no credit shall stand longer than four years from date of accruing." This to take effect Jan. 1. (G. O. Nov. 12, H. Q. A.)

THE ARMY.

G. O. 76, H. Q. A., Oct. 20, 1886.

By direction of the Secretary of War, par. 1327 of the Regulations, is amended to read as follows:

1327. In addition to these inspections, post, station, and other permanent commanders will, between the first and fifth days of August in each year, make thorough inspections of their respective commands, and forward reports thereof, through the proper military channels, to the Inspector General's Office, at the Headquarters of the Army, so as to reach that office not later than August 31. These reports are not to interfere or dispense with those of the inspecting officers.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 80, H. Q. A., Oct. 4, 1886.

By direction of the Secretary of War the dispensaries at division and department headquarters, when these are not located at military posts, will be closed, and the hospital stewards thereat allowed the option of taking their discharges or of being transferred to military posts. The necessary medical supplies at such places will be procured as provided for in the Regulations.

Where division or department headquarters are located at a military post only one dispensary will be allowed, which will be used for both headquarters and post.

By command of Lieut. Gen. Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 81, H. Q. A., Nov. 5, 1886.

Hereafter, besides the field musicians, saddlers, farriers, and blacksmiths authorized by law, only bakers and cooks will be supplied from the recruiting depots to troops, batteries, and companies, upon the approved requisitions of their respective commanders; and the practice of specially assigning recruits of trades or occupations other than those above mentioned, being no longer deemed beneficial to the service, will be discontinued.

Companies serving at posts in course of construction, or when other urgent necessity exists, may, upon application setting forth the necessity, be furnished enlisted men, mechanics by occupation, when it is practicable to do so.

Band musicians will be supplied as heretofore, whenever practicable, upon the approved requisitions of regimental commanders, as contemplated by paragraph 814 of the Regulations.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

CIR. 13, DEPT. OF ARIZONA, Oct. 26, 1886.

The following report received through regular official channels, is published for the information of this command:

FORT APACHE, ARIZONA, Oct. 20, 1886.

Post Adjutant, Fort Apache, Arizona:

SIR: I have the honor to report that in obedience to verbal orders of the post commander I proceeded, in command of twenty enlisted men of Troop H, 10th Cavalry, on a scout in search of hostile Indians supposed to be in the direction of the eastern border of the territory. I left this post on the 14th inst., and after searching the country on the Bonito Fork of the Black River proceeded in a N. E. direction. About dark, on the 17th inst., I found a trail of about 30 head of stock, principally unshod mules, going west. The next morning at break of day I took up the trail and followed it at as rapid a gait as possible, considering the kind of country I had to travel over, it being almost impossible to describe its ruggedness, for about thirty miles when I obtained sight of the Indians, and was at the same time discovered by them.

They were just going over the top of a mountain fully 2,000 feet high and almost perpendicular, and I was at the bottom of it. After climbing for two hours I reached the top, my men and horses greatly exhausted, and gave chase, passing over at least five mountains fully as high as the one described, and after a hard chase of fifteen miles the Indians dropped their stock and took to the mountains, but my command was so close to them that their movements were discernible. One after another they were run down or hunted out of the places in which they were hiding until I had captured all but three.

I sent one of the squaws out into the mountains to induce the rest to come in, and succeeded so well that the next morning by daylight I had the entire band.

The captures consist of Chief Mangus and two bucks, three squaws, two boys capable of bearing arms, one girl, and four children of various ages; also twenty-nine mules, five ponies, all the rations, camp outfit, blankets, in fact everything they had.

The next day I marched toward Fort Apache, reached here on the 19th inst., and turned over result of the scout to the Commanding Officer.

My entire command consisted of myself, two Sergeants, two Corporals, one Trumpeter and fifteen privates; also two scouts.

Very respectfully, your obedient servant,
CHARLES L. COOPER, Capt. 10th Cavalry,
Commanding Troop H.

In this connection the Department Commander desires to express his commendation of the skill and enterprise exhibited by Captain Cooper in this important capture, and also the valuable services rendered by the troops engaged.

By command of Brig. Gen. Miles:
J. A. DAPRAY, 2d Lieut. 23d Inf., A. D. C.,
Acting Asst. Adjt. Gen.

G. O. 34, DEPT. OF ARIZONA, Nov. 4, 1886.

Gives detailed instructions so that the troops of the Department may at all times be fully prepared and equipped for active field service, and with a view to promote their efficiency in the emergency of a sudden outbreak of hostile Indians, etc.

G. O. 19, DEPT. OF THE MISSOURI, Nov. 1, 1886.

The Commanding General wishes it to be distinctly understood by all officers in this Department, that there will be required a strict compliance in all respects with the United States laws, regulations and tactics, and with instructions for plans and estimates duly authorized from these or superior Headquarters. In case any deviation from authorized plans, in any particular locality, be considered desirable by a post commander, application therefor, with reasonable ground stated, must be made before any change whatever is undertaken.

By order of Brigadier General Willcox:
J. P. MARTIN, Asst. Adjt. Gen.

G. O. 20, DEPT. OF THE MISSOURI, Nov. 5, 1886.

Calls attention to the great importance of estimating distances correctly, of accustoming the men, particularly recruits, to the use of their arms by the liberal expenditure of blank cartridges, of teaching the troop horses to stand fire by the use of the same, and finally to the importance of pistol practice, both mounted and dismounted.

G. O. 7, DEPT. OF CALIFORNIA, Oct. 29, 1886.

The post of Fort Halleck, Nevada, will be abandoned, and as soon as the public property is disposed of, Co. H, 1st Infantry, will proceed to Fort McDermit, Nev., relieving Co. K, 1st Infantry, which will proceed to Angel Island, Cal., and take station.

By command of Major General Howard:
CHAUNCEY MCKEEVER, Asst. Adjt.-Gen.

STAFF CORPS AND DEPARTMENTS.

General Officers.

Brig. Gen. Gibbon, Dept. Comdr., accompanied by 1st Lieut. Edward J. McClernand, A. D. C., will proceed to Boise Barracks, on public business (S. O. 189, Oct. 27, D. Columbia).

Brig. Gen. Willcox, commanding, accompanied by Capt. L. E. Campbell, A. Q. M., and Capt. J. E. Greer, Chief Ord. Officer, will proceed to Forts Riley and Hays, Denver and Cantonment on the Uncompahgre, thence to Forts Lyon and Reno, I. T., on public business (S. O. 125, Nov. 3, Dept. Mo.)

Quartermasters and Subsistence Departments.

Col. Charles H. Tompkins, A. Q. M. G., will proceed to Fort Porter, N. Y., on public business (S. O. 178, Nov. 8, Div. Atlantic)

Lieut.-Col. Marshall I. Ludington, D. Q. M, G., will inspect damaged and obsolete property at Philadelphia, for which Capt. John V. Furey, A. Q. M., is responsible (S. O. Nov. 10, H. Q. A.)

The leave granted Capt. Wm. A. Elderkin, C. S., Newport Barracks, Ky., is extended three days (S. O. 179, Nov. 9, Div. Atlantic).

The furlough for four months granted Com. Sergt. Daniel Harner is extended thirty days (S. O., Nov. 5, H. Q. A.)

Com. Sergt. James M. Don is assigned to Fort Bowie to relieve Com. Sergt. George M. Berkel, who will proceed to Fort Mojave, for duty. Com. Sergt. Robert H. Jones will proceed to Whipple Barracks to relieve Com. Sergt. John Hessler, who will proceed to Fort Mason, Cal., for duty (S. O., Nov. 4, H. Q. A.)

S. O. 257, relating to Com. Sergts. James M. Don, Herman Mendel, and George M. Berkel, is revoked. Com. Sergt. Emile Laray, upon being relieved at Fort McDermit by Com. Sergt. James M. Don, will proceed to Fort Bowie, Ariz., to releive Com. Sergt. George M. Berkel, who will proceed to Fort Mojave, Ariz., for duty (S. O., Nov. 6, H. Q. A.)

To enable Com. Sergt. Jonathan R. Southwick to comply with par. 12, S. O. 250, c. s., H. Q. A., he is relieved from duty at Fort Fred Steele, Wyo., and will turn over the duties of that post, with which he is charged, to the non-commissioned officer commanding the guard in charge of the public property at that post (S. O. 145, Nov. 4, D. Platte)

Pay Department.

Major Wm. Smith, Paymr., will proceed to Rock Island Arsenal, and pay the troops (S. O. 170, Nov. 8, Div. Mo.)

Major Charles McClure, Pay Dept., will report to the C. O., Newport Barracks, Ky., for temporary garrison C. M. duty (S. O. 179, Nov. 9, Div. Atlantic).

Payment of troops on muster rolls of Oct. 31 will be made as follows: Major James P. Canby, Paymr., at Boise Barracks and Fort Klamath. Major John B. Keefer, Paymr., at Forts Walla Walla, Spokane, and Cœur d'Alene. Major De Witt C. Poole, Paymr., Vancouver Barracks, Forts Canby and Townsend (S. O. 186, Oct. 23, D. Columbia).

Col. Daniel McClure, Chief Paymaster, will, on the 1st of December, 1886, take station and establish his office in New York City. (G. O. 20, Div. A., Nov. 12.)

Medical Department.

Par. 7, F. O. 89, and par. 6, F. O. 90, c. s., D. Ariz., are amended to read Asst. Surg. Leonard Wood, instead of M. W. Wood (S. O. 114, Nov. 3, D. Ariz.)

Lieut. Col. R. H. Alexander, Surg., is detailed as member of the G. C. M. convened at Whipple Barracks, A. T., by par. 2, S. O. 77, D. A. (S. O. 114, Nov. 3, D. Ariz.)

Asst. Surg. E. R. Morris is relieved from duty at Fort Bayard, and will proceed to Fort Thomas, A. T., for duty (S. O. 110, Oct. 29, D. Ariz.)

A. A. Surg. C. H. Allen is relived from duty at Fort Thomas, and will proceed to Fort Bayard, N. M., and report for duty (S. O. 110, Oct. 29, D. Ariz.)

S. O. 107 is modified to direct A. A. Surg. R. P. Finlay to take station at Fort McDowell instead of Fort Bowie (S. O. 110, Oct. 29, D. Ariz.)

Asst. Surg. W. D. Crosby is relieved from duty at Fort McDowell, and will proceed to Fort Bowie for duty (S. O. 110, Oct. 29, D. Ariz.)

Leave for one month, with permission to apply for an extension of one month, is granted 1st Lieut. John L. Phillips, Asst. Surg., Fort Sisseton, D. T. (S. O. 116, Nov. 2, D. Dakota.)

To enable Capt. Henry S. Turrill, Asst. Surg., to comply with par. 12, S. O. 252, H. Q. A., he is relieved from duty in the Dept. of Platte (S. O. 145, Nov. 4, D. Platte).

1st Lieut. Francis Ives, Asst. Surg., will proceed to and take station at Fort D. A. Russell, Wyo. (S. O. 145, Nov. 4, D. Platte.)

A. A. Surg. David S. Snively is relieved from duty at Fort Randall, and will proceed to Fort Sisseton, for duty (S. O. 116, Nov. 2, D. Dakota).

The journey of Capt. W. G. Spencer, Asst. Surg., from Fort Yates, D. T., to Fort Meade, D. T., and being necessary for the public service, the order of the C. O., Fort Yates, is confirmed (S. O., Nov. 2, D. Dakota).

Capt. Edward B. Moseley, Asst. Surg., is relieved from duty in the Dept. of Columbia (S. O. 186, Oct. 23, D. Columbia).

Hospl. Steward John A. Murray, recently app'd from private, Troop C, 8th Cav., will report to the Comdg. Gen., Dept. of Tex., for assignment to duty (S. O., Nov. 4, H. Q. A.)

Hospl. Steward C. H. Skeels will proceed to Fort Lowell, A. T., for duty (S. O. 111, Oct. 30, D. Ariz.)

Hospl. Steward J. A. Leslie is relieved from duty at Fort Lewis, Colo., and will proceed without delay to Fort Bowie, A. T. (S. O. 114, Nov. 3, D. Ariz.)

The extension of leave on surgeon's certificate granted Capt. Leonard Y. Loring, Asst. Surg., is further extended three months on surgeon's certificate. On the expiration of his leave he will report by letter to the Surgeon General (S. O., Nov. 10, H. Q. A.)

Hosp. Steward Chas. Primbs, will report to the Com. Gen. Div. Atlantic for assignment to duty S. O., Nov. 10, H. Q. A.)

Engineers and Ordnance Departments.

Lieut. Col. John W. Barlow, C. E., will proceed to the Mussel Shoals of the Tennessee River, on duty connected with works under his charge (S. O. 169, Nov. 8, C. E.)

Major Wm. H. Heuer, C. E., will proceed to Bayou Plaquemine and its connecting streams, on duty connected with works under his charge (S. O. 170, Nov. 9, C. E.)

Mr. S. T. Abert, U. S. Agent, will proceed to the Rapahannock River, Va., on duty connected with works under his charge (S. O. 167, Nov. 4, C. E.)

Col. Henry L. Abbot, C. E., and Lieut. Col. Walter McFarland, C. E., will proceed to Buffalo, N. Y., on duty in connection with the improvement of the harbor (S. O. 168, Nov. 6, C. E.)

Lieut. Col. George L. Gillespie, C. E., will proceed to Plymouth Harbor and Manchester Harbor, Mass., on duty connected with works under his charge (S. O. 168, Nov. 6, C. E.)

Capt. Frederick A. Hinman, C. E., will proceed to Baltimore, Md., on duty connected with works under his charge (S. O. 168, Nov. 6, C. E.)

The telegraphic instructions of Nov. 3, directing the Chief Engineer officer of the Dept. of Dakota to return from Fort Custer, M. T., to his station, at these headquarters, are confirmed (S. O. 117, Nov. 4, D. Dakota).

Major Milton B. Adams, C. E., will proceed to Fort Montgomery, N. Y., on public business (S. O., Nov. 6, H. Q. A.)

1st Lieut. John Millis, C. E., will report for temporary duty as engineer of the third light-house district, relieving Brig. Gen. James C. Duane, Chief of Engineers, of his duties as engineer of that district, and taking station in New York City (S. O., Nov. 6, H. Q. A.)

1st Lieut. E. J. Spencer, Chief Engr., is relieved from duty as engineer officer of the Dept. Arizona (S. O. 110, Oct. 29, D. Ariz.)

Major Jared A. Smith, C. E., will proceed to Penobscot and Brooksville, Me., on duty connected with works under his charge (S. O. 171, Nov. 10, C. E.)

Leave for one month from Dec. 2 is granted Major Milton B. Adams, C. E. (S. O. 171, Nov. 10, C. E.)

Lieut. Lansing H. Beach, C. E., will proceed to Coraopolis, Pa., on duty connected with works under his charge (S. O. 171, Nov. 10, C. E.)

Lieut. Lansing H. Beach, C. E., will proceed to New Cumberland, W. Va., Powhatan Point, O., and Ravenswood, W. Va., on duty conuected with works under his charge (S. O. 171, Nov. 10, C. E.)

1st Lieut. Frank E. Hobbs, O. D., will proceed to Johnstown, Penn., for the purpose of inspecting work on hoops and forgings being performed at that place (S. O., Nov. 8, H. Q. A.)

1st Lieut. Douglas A. Howard, Ord. Dept., is relieved from duty at the West Point Foundry and will report for duty to the president of the board for testing rifled cannon, etc., taking station in New York City (S. O., Nov. 10, H. Q. A.)

Capt. Joseph C. Clifford, Ordnance Dept., ordered from Frankford Arsenal, Phila., to West Point, Pa., to inspect work on boilers being constructed for Ordnance Department.

Ord. Sergt. John Barr will proceed to St. Francis Barracks, Fla., and report for discharge and reenlistment (S. O. 179, Nov. 9, Div. Atlantic).

Signal Corps.

Sergt. Wm. W. Thomas, Signal Corps, will proceed to St. Francis Barracks, St. Augustine (S. O., Nov. 4, H. Q. A.)

2d Lieut. Benjamin M. Purssell, Sig. Corps, will proceed to Norfolk, and thence to Cape Henry and Cape Charles, and carry out instructions (S. O., Nov. 6, H. Q. A.)

THE LINE.

Changes of Stations of Troops Ordered.

As reported to the Adjutant-General's Office during the week ending November 6, 1886:

Troop M, 2d Cav., to Fort Bidwell, Cal.
Troop L, 4th Cav., to Fort Stanton, N. M.
Troop E, 6th Cav., to Fort Union, N. M.
Bat. K, 5th Art., to Fort Wood, N. Y. H.
Co. K, 14th Inf., to Fort Klamath, Ore.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

1st Cavalry, Colonel N. A. M. Dudley.

Hdqrs., B, D, E, G, and K, Ft. Custer, Mont.; A and C, Ft Maginnis, Mont.; I, Ft. Leavenworth, Kas.; F, H, and L, Ft. Assinniboine, Mont.; M, Camp Sheridan, Wyo.

1st Lieut. J. G. Galbraith is detailed to witness the issue of annuity goods at Tongue River (S. O. 115, Oct. 30, D. Dak.)

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Presidio of San Francisco, Cal.; C and M, Ft. Bidwell, Cal.; D, Boise Bks., Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Cœur d'Alene, Idaho.

So much of F. O. 99 as directs 2d Lieut. A. M. Fuller to proceed to San Diego Barracks is amended to direct him to proceed to the Presidio of San Francisco (S. O. 110, Oct. 29, D. Ariz.)

4th Cavalry, Colonel William B. Royall.

Hdqrs., B, D, E, F, H, and K, Ft. Huachuca, Ariz.; A and M, Ft. Lowell, Ariz.; C, G, and I, Ft. Bowie, Ariz.; L, Ft. Stanton, N. M.

2d Lieut. R. D. Walsh, now at San Carlos, A. T., will report to Capt. Pierce, 1st Inf., for special duty at that place (S. O. 114, Nov. 3, D. Ariz.)

A Fort Stanton correspondent says: "Troop L, of the 4th Horse, arrived 65 men strong on Sunday, Capt. Wint in command, and Lieut. Murray, 4th Cav. They made a very fine show, as well as an impression, as they marched into the post. After dinner they were treated to an offhand base ball match between the infantry, composed of men from Cos C and E, 13th Inf., and men from Troops D and E 6th Horse. The cavalry boys pulled ahead, and won the game by a score of 16 to 18."

Lieut.-Col. Forsyth, commanding, in a circular of Nov. 4, publishes a table of distances marched by

troops of the regiment during the operations against Chiricahua-Apache Indians, 1885-6:

D. M., by Detachments, Troop D 240 miles, Troop G 135 miles, Troop M 438 miles. Aggregate of distances marched by regiment during campaign, 21,484 miles. Average per troop, 1,953 1-11 miles. Troop L is serving in Dept. of Missouri. Headquarters marched in August, 1886, 220 miles.

5th Cavalry, Colonel Wesley Merritt.

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

Troop E (Capt. Price's), now at Camp on Chilocco Creek, I. T., will return, Nov. 15, to Fort Riley, Kas. The C. O. Fort Reno, I. T., will exercise control over that part of the Indian Territory heretofore guarded by Capt. Price's troop (S. O. 124, Nov. 1, Dept. M.)

6th Cavalry, Colonel Eugene A. Carr.

Hdqrs., A, C, G, and L, Ft. Bayard, N. M.; I and K, Ft. Wingate, N. M.; B and F, Ft. Lewis, Colo.; D and H, Ft. Stanton, N. M.; M, Ft. Leavenworth, Kas.; E, Ft. Union, N. M.

Leave for one month, with permission to apply for an extension of one month, is granted 2d Lieut. F. G. Hodgson, Fort Wingate, N. M. (S. O. 111, Oct. 30, D. Ariz.)

Leave for one month, with permission to apply for an extension of one month, is granted Capt. H. P. Perrine (S. O. 113, Nov. 2, D. Ariz.)

2d Lieut. J. M. Stotsenburg is relieved as a member of the G. C.-M. convened at Fort Stanton, N. M., by par. 3, S. O. 71, D. Ariz. (S. O. 114, Nov. 3, D. Ariz.)

7th Cavalry, Colonel James W. Forsyth.

Hdqrs. B, C, D, G, K, and M, Ft. Meade, Dak.; E and H, Ft. Yates, Dak.; F and L, Ft. Buford, Dak.; A, Ft. Keogh, Mont.; I, Ft. Totten, Dak.

Leave for one month is granted 1st Lieut. Charles A. Varnum, Fort Yates, D. T., to take effect about Nov. 20 (S. O. 116, Nov. 2, D. Dak.)

8th Cavalry, Colonel Elmer Otis.

Hdqrs., C, and H, San Antonio, Tex.; A, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; D, Camp Del Rio, Tex.; E, F, G, K, and L, Ft. Clark, Tex.; B and M, Ft. Brown, Tex.

The leave granted Capt. Louis T. Morris is extended seven days (S. O., Nov. 6, H. Q. A.)

1st Lieut. Samuel W. Fountain will report to the C. O. of the Cavalry Depot, Jefferson Barracks, for duty (S. O. 148, Oct. 25, R. S.)

A furlough for four months is granted Sergt. Jas. H. Ray, Troop F (S. O. 169, Nov. 4, Div. M.)

The leave granted 1st Lieut. James B. Hickey is extended two months and fifteen days (S. O. Nov. 9, H. Q. A.)

9th Cavalry, Colonel Edward Hatch.

Hdqrs., D, and H, Ft. McKinney, Wyo.; C, F, and K, Ft. Robinson, Neb.; A, G, and I, Ft. Niobrara, Neb.; M, Ft. Washakie, Wyo.; B and E, Ft. Du Chesne, Utah (Post-office address via Ouray, Utah); L, Ft. Leavenworth, Kas.

Leave for two months, with permission to apply for an extension of one month, is granted Capt. Martin B. Hughes, Fort Niobrara, Neb. (S. O. 169, Nov. 4, Div. M.)

Capt. Michael Cooney is relieved from duty on recruiting service upon the closing of the rendezvous at Nashville, Nov. 6 (S. O. 156, Nov. 5, R. S.)

Lieut.-Col. James S. Brisbin is relieved from duty at Fort Niobrara, Neb., and will proceed to Fort Robinson, Neb., and take station at that post. Par. 5, S. O. 109, D. Platte, assigning Major James F. Randlett to station at Fort Robinson, Neb., is amended to assign him to station at Fort Niobrara, Neb. (S. O. 146, Nov. 5, D. Platte.)

10th Cavalry, Colonel Benjamin H. Grierson.

Hdqrs., E, K, and L, Ft. Grant, A. T.; B, Whipple Bks., A. T.; A and H, Ft. Apache, A. T.; I and M, Ft. Verde, A. T.; C, D, F, and G, Ft. Thomas, A. T.

The verbal instructions of the Dept. Comdr. to Lieut.-Col. J. F. Wade, Aug. 20, 1886, to return from Albuquerque, N. M., to his proper station at Fort Apache, A. T., are confirmed (S. O. 114, Nov. 3, D. Ariz.)

The journeys on official business by 1st Lieut. Charles H. Grierson, from St. Louis to Jefferson Barracks and return, Sept. 14, 21, and 28, are approved (S. O., Nov. 8, H. Q. A.)

1st Lieut. L. Finley, having completed the duty for which he was ordered to St. Augustine, will return to his station (S. O. Nov. 9, H. Q. A.)

1st Artillery, Colonel John C. Tidball.

Hdqrs., A, C, I, L, and K,* Presidio, San Francisco, Cal.; B and H, Alcatraz Island, Cal.; E,* Vancouver Bks., W. T.; D and F, Ft. Canby, W. T.; G, Ft. Monroe, Va.; M, Ft. Mason, Cal.
* Light battery.

A Board of Survey, to consist of Capt. Charles A. Woodruff, Sub. Dept.; Capt. Andrew H. Russell, Ord. Dept., and 1st Lieut. James N. Allison, 2d Cav., will convene at Vancouver Barracks, W. T., Oct. 25, to fix the responsibility for breakage and loss of certain Q. M. stores received by Capt. William S. Patten, A. Q. M. (S. O. 186, Oct. 23, D. Columbia.)

DEPARTMENT NEWS.

Dept. of Dakota.—Brig. Gen. T. H. Ruger.

A despatch from Miles City says: "Chief Crazy Head and two Cheyenne bucks who were arrested and put in jail at Miles City, charged with killing some sheep, have been released at the request of the military authorities. Their arrest caused all the excitement on the Rosebud Agency, which resulted in sending a battalion of infantry to Cheyenne Agency to suppress any attempt at an uprising on the part of the Indians. The troops have received notice to remain at the agency until further orders.

Dept. of the Platte—Brig. Gen. George Crook.

Lieut. D. C. Kingman, Corps of Engineers, has returned to Omaha, having suspended operations at the Yellowstone National Park for the season. He says the reports of slaughter of game in the park by hunters and employees are greatly exaggerated. There is a large herd of buffaloes, numbering 300 or more; white bears, Rocky Mountain sheep, deer, and antelopes in abundance. Whether the troops now in charge of the park will succeed in protecting the game from the inroads of hunters this winter at well as the park overseers have done in former seasons remains to be seen.

A "Roster of Troops," dated October 30, reaches us this week. It contains minute notes of "Events in the Platte from Aug. 4 to Oct. 19," and gives the usual complete information concerning the *personnel* of the Department.

Division of the Pacific—Maj.-Gen. O. O. Howard.

The *News-Letter* says: The first of the Presidio concerts was a very pleasant one, also, and the announcement of the fortnight hops to be given, commencing next week, has imparted much pleasure to the numerous admirers of those who wear the "buttons." These hops will alternate weekly with the concerts, so that hereafter Tuesday nights at the Presidio will be the red letter nights of the week; and let anyone attempt to interfere with them by giving conflicting parties, and see what the result will be! The Angel Islanders, not contented with the honors they have attained as entertainers, are determined to enter the list as charity aiders also, and to that end they will give a garden party for the benefit of an hospital next week. Music, both vocal and instrumental, games and dancing are among the attractions offered, and should the weather only prove fine a very delightful afternoon may be looked for.

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

General Miles this week reported 700 Hualpai Indians located in Northwestern Arizona in a destitute condition in a barren country, and as they must be fed or starve, requested that the military authorities issue a two-thirds ration per day.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

PRINCE KAMATSU, uncle of the Mikado, commander of his bodyguard and Lt.-General in the Army of Japan, visited West Point last Friday. He was accompanied by Lieut.-Col. Tomatsin, Capt. Toshiaya Bodjo, officers of ordnance and aids to the Prince, and four Japanese civilians. Many points of interest were seen and a number of section rooms visited while cadets were at recitation. The customary salute was fired in honor of the Prince's arrival, and shortly after four o'clock he reviewed the Corps of Cadets. One incident of the review, not prescribed in tactics, did not fail to be noticed. As the battalion was passing in review at double time, the left guide of the first company was seen to fall just as the company completed the first wheel; it looked as if his sword had gotten between his legs and tripped him. Just why non-commissioned officers should carry both sword and musket is one of those tactical mysteries known only to experts. It looks pretty but is awfully inconvenient.

We did not have many visitors the past week, Col. H. Clay Wood, of the Adjt.-General's Dept., and Lieut C. C. Hewitt, 19th Int., being the only ones.

Preparations are in progress looking toward the organization of a dramatic association for the purpose of giving private theatricals the coming winter.

We had our first snow last Saturday night, when the weather turned cold.

At the recent election two graduates of the Military Academy were elected members of the State Legislature from Brooklyn. They were Major R. H. Poillon, class of 1871, and Col. Alexander R. Bacon, of the class of 1876. A '77 graduate has been appointed Governor of Wyoming, from which it appears that young graduates in civil life are getting faster promotion than their companions who remain in the Service.

(Correspondence of the Army and Navy Journal.)

SAN ANTONIO, TEXAS.

NOVEMBER 1, 1886.

ON Thursday evening the post hall was filled with the officers and their wives and many prominent people from the city, to witness a dramatic entertainment. Thomas J. Williams's popular farce, "Ici on Parle Francais," was given by the same children who took part last time. They went through it in good style and kept the audience in the best of humor. Miss Mattie Otis's recitation was a pretty feature. The performance concluded with the sparkling comedietta, "Taken from the French." Following is the cast of characters: Colonel Cosey, Lieut. D. J. Rumbough; Sir Felix Fritterly, Dr. H. S. Harris; Arthur Vallance, Elmer S. A. Otis; Lady Fritterly, Mrs. H. J. Delamer; Myrtle Vance, Miss Haunard. I mention *à la hâte* the comical love scene between Arthur and Lady Fritterly, which deservedly won the applause of the evening, and the Old Cosey of Mr. Rumbough, who forever in the land of Nod, was very funny. The orchestra was from the 8th Cavalry Band and their execution was all that could be desired. To the efforts of Mr. Elmer Otis in securing the erection of the stage and to his general management of the affair was largely due the success of the evening. Rumor has it that the city people will enter into rivalry with the post for histrionic honors.

MIZPAH.

(Correspondence of the Army and Navy Journal.)

FORT McHENRY, MD.

A HANDSOME gold-mounted sword of exquisite design was presented to Major John G. Turnbull previous to his departure to take command of the Light Battery at Washington Barracks. The committee of Battery D selected to make the presentation was 1st Sergeant Curran, Corporal Whisten, Musician Gibson, and Private Ackerman, and it took place at Major Turnbull's quarters on the evening of Oct. 28. Sergeant Curran being spokesman said: "We present you this sword as a token of our esteem and high regard and our kind feeling towards you as an officer and a gentleman while in command of Battery D, 3d Artillery, for sixteen years. We are at a loss for words to express the gratitude that each and every one of us owe you, and it is our wish and hope that you will yet live to wear it as a major general. We tender you our best wishes for your future welfare and happiness."

Major Turnbull responded feelingly, assured the battery it would even have his best wishes, and hoped it would prove as faithful to his successor as it had done to him.

J. P. E.

FORT NIOBRARA, NEB.

THE Omaha *Excelsior*, of November 4, says:

Society at Fort Niobrara has cast off the summer's pall and taken upon itself new brightness by reason of enforced idleness. The first progressive euchre party of the season was given by Mrs. Gen. Brisbin on Wednesday evening, 23d ult. The first prize for ladies was won by Miss Belle Thacher, of Valentine. Capt. Conline, well-known in Army circles here, captured the first prize for gentlemen. On the 24th Mrs. J. M. Thacher gave a charming party in honor of her niece, Miss Belle Thacher, at the rooms of the officers' club. Dancing and refreshments contributed to a pleasant evening. Mr. Al. Thacher, not to be outdone, gave a dancing party the following Monday evening just to get the season's pleasures comfortably started. On Friday evening Mrs. Keller gave a progressive euchre party, which was largely attended.

THE CASE OF GENERAL SWAIM.

A FRIEND of D. G. Swaim, Judge Advocate General, U. S. A., says: "There is something in the report that an effort has been made to secure a rehearing by the President on this case. The grounds are the same that they always have been: That a great injustice was done to Gen. Swaim, and an equal injustice to the Army, by such an absurd and impracticable verdict. The President and the Secretary of War both feel the embarrassment of the position, and the tendency of such a condition is towards complete demoralization of the Judge Advocate's Department. The President would like to have an efficient judge advocate of the Army. The principal question is: How can he get one? It was at first thought that the President could nominate a new judge advocate general, and thus settle the question, summarily removing Swaim from the Service by the appointment of his successor. There seems to be warrant in a comparatively recent decision of the United States Supreme Court for such a course. By that decision it appears that the President could vacate the commission of any officer in any branch of the military and naval service by appointing his successor, provided the Senate confirmed him; but it has been ascertained that that decision was not thoroughly considered by the court, and that in view of its very far-reaching effect it is quite possible that upon a rehearing it would be reversed. If such a decision is good law, it seems possible for any incoming or outgoing executive, provided he has a majority of one in the Senate with him, to remove every commissioned officer in the Army and Navy and appoint his own partisans. But there is reason to believe that Judge Advocate-General Swaim has friends enough in the Senate to prevent the confirmation of any one who would be nominated on such terms as to summarily vacate the commission of Swaim himself.

THE OLDEST ORDNANCE SERGEANT.

THE Omaha *Bee*, in a long account of the "oldest Regular" Ordnance Sergeant Leodegar Schnyder, U. S. A., for many years at Fort Laramie and now at Fort at Clark's Point, New Bedford, Mass., says: During his brief stay in Omaha "old Leo Snyder" was met upon the street by many persons who had visited Laramie. The only person whom Leo expressed a desire to see was Gen. Crook, to whom he referred familiarly as "Crook." The multiplicity of his years of residence in Laramie have made him a part of the fort, in association at least, and he will be missed by the officers and men who remain there. "I was not transferred," he explained with an emphasis, "It was optional with me whether I stayed or not. I was Ordnance Sergeant and had little to do besides issue the ammunition, make out the reports and take care of the cannon—or, rather let the cannon take care of themselves." "I might have retired had I wished, because I am entitled to do so, but the retired pay would only be $40 a month; and where I am going—Clark's Point, New Bedford, Mass., I think the place is—I will get $70 a month, and all I will have to do will be to haul up the colors in the morning and haul them down again at night. Besides, I don't want to retire. They have codfish and oysters at New Bedford, don't they?" he inquired with some interest. "Do they have many mosquitoes there?"

When assured that codfish was cheap and boneless, that oysters were fat and thick as sands by the seashore, and that the mosquitoes were not particularly large nor numerous in the vicinity of New Bedford, the old gentleman nodded his head in pleased approval.

THE BEST MATERIAL FOR SOLDIERS.

GENERAL W. S. ROSECRANS is thus reported in the Detroit *Free Press* as to the kind of men who make the best soldiers:

"Native-born Americans whose boyhood, at least, was either passed upon the farm or in a small country village, because they are usually of good physical quality, and they know how to do, fairly well, almost anything. Most of them can do a fair turn at plain cooking or baking, they can sew tolerably well, and on a pinch can do a clever act at washing clothes; they can handle an axe, a crosscut saw, and the ordinary mechanical tools quite well; they are not apt to be visionary or hot-headed, and when it comes to discipline they all seem to take to it with manly good grace.

"The American people are pre-eminently self-helpful and self-reliant and they make the best soldiers in the world. The English soldier is all right so long as his stomach is full, but let his rations fall off and he loses spirit. The German soldier is dogged and brave because he knows his is a nation of soldiers. The Russians are desperate and immovable because of religious devotion and ignorance that they were calculated for any other purpose than to be shot down. The French soldiers are all right, with superb elan and frank patriotism, but physically they are inferior. The Americans combine the best qualities of all these nations, with the added value of habits of thought, self-argument, natural intelligence, mechanical versatility and thorough belief in self-help, backed by ambition to excel."

HONORS TO COLONEL W. J. LYSTER.

BEFORE leaving Fort Clark, Tex., on his promotion from Captain 19th Infantry to Major 6th Infantry, the officers of the 19th gave Col. W. J. Lyster and Mrs. Lyster a reception and banquet at which they abundantly indicated their love and esteem. The addresses on the occasion were numerous, and we give the following extract from that of General C. H. Smith, Colonel of the 19th, which expresses the tenor of the whole:

Our honored guest joined his old regiment, the 19th Infantry, at the time of its organization in 1861, 25 years ago and was a member of it for a longer period than anyone else who has ever belonged to it, and no one of any length of service or rank whatever has ever done more to promote its good name and reputation, or less to mar or injure the same than he has done. If, indeed, you will permit me to speak

as frankly as I do, sincerely, I will state in the fullest words that in all those years of service in the regiment one cannot recall a single act of his that ever caused a stain or left a blemish upon its record or his own. What more need I add? No other eulogy by me or review of his record is necessary here in the presence of these friends. There is one circumstance of his record, however, that perhaps I may appropriately refer to at this time. Some years ago he was sent on a tour of recruiting service, and his smartest act during that tour of duty, or indeed of his whole life, was the finding of a very beautiful and accomplished recruit, whom he enlisted for life in the *home guard*. How nobly she has served and done you all well know, and her going away is of no less moment and importance, no less loss to us than his going will be, and they will both leave us, I am certain, with the fullest assurance of our heartfelt congratulations for their present advancement, our best wishes for all their future prosperity and happiness and our sincere regrets at their departure from us.

LETTERS FROM MEADE AND McCLELLAN.

THE following letters, written by Generals Meade and McClellan, commanders of the Army of the Potomac, are now first published by permission of Colonel John P. Nicholson, in whose collection the originals are contained:

HEADQUARTERS ARMY OF THE POTOMAC,
November 6, 1863.

DEAR HANCOCK: I have barely time to acknowledge the receipt of yours of the 1st instant, and to say I am glad to hear that you are getting along as well as you are. You will have to be patient and resigned and give your wound time to heal, consoling yourself with the reflection that matters might be much worse.

I should like to talk to you about our recent operations and explain why my ardent desire to engage Lee in anything like a fair ground was frustrated. God knows no one was more disappointed than myself, but I had to look out for my train, and I would not fight without some opening to the rear in case of disaster. To secure this I had to cross Bull Run, to which point Lee would not follow me. After it was all over information was obtained, which, if I had possessed at the time, would have induced me to operate differently. Lee was slow and ought to have been further ahead, as I supposed he was at the time.

They are very polite and civil to me at Washington, but I am prepared at any moment for my congé, and accordingly keep my sabre packed. I never desired the command. I knew the result if I was placed in it and shall feel no regret whenever the order relieving me arrives.

While here I will do the best I can.

I share with you the regret that the promotions you refer to are not made, but I have done all in my power in forwarding and urging them.

I made a special effort in Gibbon's case, but without avail.

Lee is now behind the Rappahannock, with some small force on this side at the railroad crossing. I am at Warrenton and Warrenton Junction. I am getting ready to move to the river and attempt the crossing, but you know how hard this is to accomplish from former efforts.

Your corps has acquired great reputation from the Bristow affair and Warren is now our hero. Hoping soon to see you, I remain

Most truly yours,
GEO. G. MEADE.

EASTERN DIVISION,
OHIO AND MISSISSIPPI R. R. CO.,
PRESIDENT'S OFFICE, CINCINNATI, April 18, 1861.

MY DEAR OLD FITZ: Your welcome note has just reached me. I had already received an intimation that I had been proposed as the commander of the Pennsylvania forces and asked if I would accept—replied yes!

If General Scott would say a word to Governor Curtin in my behalf, I think the matter could be easily arranged.

Say to the General that I am ready as ever to serve under his command.

I trust I need not assure him that he can count on my loyalty to him and the dear old flag he has so long upheld.

I throw to one side now all question as to the past—political parties, etc. The Government is in danger, our flag insulted and we must stand by it. Though I am told I can have a position with the Ohio troops, I much prefer the Pennsylvania service. I hope to hear something definite from them to-day and will let you know at once.

Help me as far as you can.

Ever yours,
MC.

THE MESS.

"You need a coat of arms, Mr. Hoey," commented a distinguished Englishman after he had been shown through the vast estate of Hollywood, at Long Branch. "Indeed? I hadn't thought of that," was the reply. "Who was your father?" "A night ——" "A knight! then it will be easy; any herald's college can readily trace your line. Ah! what kind of a knight did you say?" "A night watchman."

This interesting announcement is made by a correspondent of the New York *Post:* "According to Blair's chronology, Adam and Eve were created on the 28th day of October, 4004 B. C. It seems curious that this day, of all others, should have been unwittingly selected by man for the unveiling of the marvellous Statue of Liberty, the fairest of the daughters of Eve." This must have been written by a woman, for no man who had had experience with the genuine article would be so carried away by sentiment for a bronze beauty.

The *Court Journal* says: "A funny story is being told in which two Russian noblemen and a favorite Parisian actress played the principal parts. Both of the Bayards were suitors for the lady's smiles, and both seemed to be equally esteemed by her. In Russia a lock of hair is considered a signal pledge of the tender passion, but few of the French theatrical divinities are endowed with profuse cheveleures. Mlle. Alice glories in the possession of auburn ringlets and wouldn't part with one of them for less than a duchy. Her Russian admirers, the Count de L. and the Baron de M., both happen to have hair of the same golden hue as that of their mutual Dulcinea. Each begged a tress of her hair in exchange for a lock of his own; to which the charming creature readily assented, and without touching a single tuft of her head cunningly managed to effect an exchange of parcels by which each gentleman received a curl of his rival's capillaries. The Count now wears the Baron's hair next his heart, and the Baron sleeps with the Count's scalplock under his pillow."

NEW PUBLICATIONS.

"Katy of Catoctin, or the Chain Breakers," by George Alfred Townsend, from the press of D. Appleton and Co., is a tale of vivid interest. It is replete with character sketches and a panorama of life in Virginia during the War of the Rebellion. The Dunkers of Maryland, their religion and their habits are realistically portrayed, and the awful crime of John Wilkes Booth is led up to and described in a manner which rivets the attention. The book, though long, is one which should command a large constituency of attentive readers.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 8d rate, 8 guns, Comdr. Colby M. Chester. At Portsmouth, N. H., undergoing repairs.

TENNESSEE, 1st rate, 22 guns (f. s. n. a. s), Capt. Robert Boyd. At New York Navy-yard.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at Newport, R. I., Nov. 8, and sailed for Norfolk Nov. 9.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Dropped down in New York Bay from Navy-yard Nov. 12.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Sailed from Rio de Janeiro Nov. 6, for Montevideo, stopping at Maldonado.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. At Rio de Janeiro Oct. 4.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns(f. s. e. s.), Captain George Dewey. At Genoa, Italy, Oct. 21. Would leave about Nov. 10 for the East, making Alexandria her headquarters.

KEARSARGE, 3d rate, 7 guns, Comdr. Charles D. Sigsbee. At Maderia Oct. 11, 1886, on her return to the U. S., and is expected to arrive during this month.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. At Genoa, Italy, undergoing repairs. Will sail about the middle of November for the coast of Africa to cruise during the winter.

Pacific Station—Rear-Adm. E. Y. McCauley.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Was at Callao, Peru, Oct. 1, 1886.

HARTFORD, 2d rate, 16 guns (f. s. p. s.), Capt. J. H. Gillis. Was at Callao Sept. 30. Will shortly be ordered to San Francisco, Cal. She will go out of commission and undergo repairs, at the Mare Island Navy-yard. Address mail to care of Navy Pay Office, San Francisco, Cal.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Rio Oct. 24.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. Was at Callao, Peru, Sept. 30.

MONONGAHELA, 2d rate, 9 guns, Lieut. Comdr. George B. Livingston in command. Used as a storeship at Coquimbo, Chili. Comdr. S. H. Baker was ordered to command, per steamer Sept. 11 from New York.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. At Auckland, New Zealand, Aug. 28.

No recent reports have been received from the *Mohican*, but it is supposed that, in obedience to orders from the Department, she is still among the Samoan Islands, probably at Apia, Island of Upolo, where she was to remain pending the settlement of the difficulties between the natives and German residents. The following is a list of her officers: Commander B. F. Day, commanding; Lieutenant Commander James H. Dayton, executive officer; Lieutenants, Fred. M. Symonds, Chas. A. Stone, James C. Cresap, Reginald F. Nicholson; Ensign, James H. Oliver; Naval Cadets, Theodore C. Fenton, Robt. L. Russell, Chas. M. McCormick, Chas. M. Corpening; Surgeon, Geo. H. Cooke; P. A. Surgeon, Hervey W. Whitaker; Paymaster, Wm. J. Thomson; Chief Engineer, Elijah Laws; P. A. Engineer, H. H. Cline; Asst. Engineer, Wm. R. King; 2d Lieutenant, F. J. Moses, U. S. M. C. The only thing which offsets the pleasure of their cruise among the "South Sea Islands" has been the long periods between mails.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. Henry E. Nichols. At Sitka, Alaska. Address care of Navy Pay Agent, San Francisco, Cal. Lieut. Comdr. J. S. Newell has been ordered to command.

VANDALIA, 2d rate, 8 guns, Captain Henry L. Howison. Sailed from New York, Aug. 14, for the Pacific Station. Arrived at Montevideo Oct. 19.

Asiatic Station—Rear-Admiral J. L. Davis.

Rear Admiral Ralph Chandler has been ordered to command this station, and was to leave San Francisco per steamer of Oct. 30.

Vessel with (†), address, Mail. General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. At Aden, Arabia, Oct. 15.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Arrived at Aden Nov. 11.

MARION,† 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Chefoo Sept. 27.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. Was probably at Macao, China, Sept. 27.

OMAHA,† 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. Reported by cable to the JOURNAL to have arrived at Nagasaki, Japan, Nov. 1, 1886.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. Has been ordered to return to New York by the middle of February, 1887. Arrived at Singapore, Oct. 31.

PALOS,† 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. At Canton, China, Sept. 27.

Apprentice Training Squadron.

Address of *Portsmouth* and *Saratoga*, Newport, R. I.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station F, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, flagship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Chas. V. Gridley. Sailed from New York for Norfolk, Va., Nov. 6. Arrived at Hampton Roads Nov. 9.

SARATOGA, 3d rate, 12 guns, Comdr. C. H. Davis. Sailed from New York for Norfolk, Va., Nov. 6. Arrived at Hampton Roads Nov. 9.

On Special Service.

DESPATCH, 4th rate, Lieut. Wm. H. Emory, Jr. At New York Navy-yard.

DOLPHIN, despatch boat, 7 guns. Lieut. Chas. O. Allibone. At Norfolk, Va.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Will remain at Hampton Roads for the present.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. Sailed from San Francisco, Oct. 30, for the Central American coast to resume her survey work.

ST. MARY'S, sails, 8 guns, Comdr. Edwin M. Shepard. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

VARIOUS NAVAL ITEMS.

THE U. S. Coast Survey steamer *Arago* left Stoney Brook, L. I., Nov. 10, for Northport, L. I.

THE training ships *Jamestown*, *Saratoga* and *Portsmouth* will fit out at the Norfolk Navy-yard for their winter cruise in the West Indies.

BINGHAMPTON *Republican:* "When Liberty took off her veil and saw the American Navy she wept till her tears fell in showers all over the country."

THE new stone dry dock at Mare Island was formally opened Oct. 31, by taking in the old receiving ship *Independence*. Preparations were made for a grand celebration, but the rain prevented them being carried out.

THE Second Comptroller has decided that privates of the Marine Corps are entitled to extra duty pay at the rate of 50 cents per day when actually performing duty as a mechanic, artisans, or school teachers for a period of not less than ten days.

FOURTH AUDITOR SHELLY, by whom the accounts of the naval service are supervised, has submitted his annual report, showing the work of his office to be well up to date. He recommends that, for the convenience of naval officers on duty on the South Pacific station, funds should be placed at Valparaiso, Callao and Panama, subject to their demand.

THE 7th Annual Complimentary Ball of the "Tennessee Boys in Blue" took place in Irving Hall, New York City, on Friday evening of this week, and like its predecessors was a most enjoyable occasion. Several naval officers and ladies were present, and did all in their power to further the efforts of the Tennesseeans in Blue to make the ball a success.

TWO TORPEDO-BOATS, built for the Italian Government, which recently arrived at Portsmouth from Wilhelmshaven, have been docked in No. 8 dock to have defects made good before proceeding to Spezia. They are about the same length as the English first-class torpedo craft, but are broader. They have perfectly straight stems, and have tubes for torpedoes on each side of the cut-water.

THE *Admiralty Gazette* says: "America is certainly in earnest in her endeavors to have, once more, an efficient Navy. Not content with the information and designs which Sir Nathaniel Barnaby was kind enough to place at the disposal of its Government, the Admiralty has now been asked to lend a helping hand. Accordingly, directions have been given for models of some of our latest ships of war to be prepared and forwarded to Washington."

MR. CHARLES EATON CREECY, president of the Pneumatic Gun Carriage Company of Washington, has submitted to the Navy Department a proposition to fit out the unfinished double-turret monitors Amphitrite, Miantonomoh, Monadnock, Puritan and Terror with pneumatic apparatus for handling and loading the guns, revolving the turrets and steering. The claim is made that the pneumatic plant in each vessel will occupy much less space, and will be much more economical. The company agrees to guarantee the successful working of its apparatus or receive no pay. The Ordnance Bureau will inquire into the merits of the invention after some active steps have been taken in the direction of supplying these vessels with new guns.

THE Coast Survey steamer *A. D. Bache*, Lieut. J. M. Hawley commanding, has returned to New York from her summer cruise surveying on the coast of Maine. The *Bache* will be overhauled and refitted, preparatory to a winter's cruise on the west coast of Florida, between Tampa Bay and Cedar Keys. Lieut. Hawley is to be relieved of the command of the vessel by Lieut. Jefferson F. Moser, recently attached to the Hydrographic Office, and the former goes as assistant to the Hydrographer of the Navy. A large portion of the sailing vessels are to be laid up near Williamsburg, under charge of Lieut. C. P. Perkins, to undergo the usual winter overhauling.

NAVY GAZETTE.

Ordered.

Nov. 9.—Ensign Albert Gleaves to ordnance duty at the Washington Navy-yard.

Chief Engineer H. D. McEwan as a member of the Naval Examining Board.

Nov. 10.—Lieutenant Henry Morrell to ordnance duty at the Washington Navy-yard, 3d of January next.

Assistant Paymaster L. Hunt to duty in the Bureau of Provisions and Clothing, Dec. 1.

Nov. 12.—Lieutenant F. W. Coffin to receiving ship New Hampshire, Nov. 20.

Lieutenant F. A. Wilner to Naval Ordnance Proving Ground, Annapolis, Md., Jan. 3.

Captain R. L. Pythian ordered as Superintendent Naval Observatory.

Captain Byron Wilson ordered as Captain of the Maryland Navy-yard.

Commander Wm. H. Whiting ordered as equipment officer of the New York Navy-yard.

Ensign H. C. Wakenshaw ordered to ordnance duty, Washington Navy-yard,

Detached.

Nov. 6.—P. A. Engineer Joseph P. Mickley from duty connected with the Boston and ordered to the Yantic.

P. A. Engineer Richard Inch from the Yantic and placed on waiting orders.

Nov. 9.—Chief Engineer H. B. Nones from the Naval Examining Board and placed on waiting orders.

Lieutenant Wm. H. Schuetze from special duty under the State Department and placed on waiting orders.

Nov. 10.—Lieutenants G. F. W. Holman and Hamilton Hutchins, Ensigns R. F. Lopez, Wm. P. C. Muir, and G. W. Denfeld from the Naval War College, Nov. 19, and ordered to an advanced course in torpedo instruction at Newport, R. I.

Commander R. P. Leary, Lieutenant S. M. Ackley, B. S. Richards, J. K. Cogswell, T. Dix Bolles, and Ensign L J. Clark from the Naval War College, Nov. 19, and placed on waiting orders.

Lieutenant J. C. Colwell from the Naval War College, Nov. 19, and ordered to duty in the office of Naval Intelligence.

Lieutenant F. H. Lefavor from the Naval War College, Nov. 19, and ordered to the Hydrographic Office.

Ensign A. W. Grant from the Naval War College Nov. 19, and ordered to the Navy-yard, Norfolk.

Lieutenant W. A. Marshall and Ensign J. H. Rohrbacker from the Naval War College, Nov. 19, granted two months' leave.

Passed Assistant Paymaster T. D. Hoxsey from the Michigan, Nov. 30, and ordered to settle accounts and wait orders.

Passed Assistant Paymaster Wm. W. Galt from special duty at the Navy Department, Nov. 29, and ordered to the Michigan, Nov. 30.

Passed Assistant Engineer A. V. Zane from the Explorer, Oct. 27, and placed on waiting orders.

Nov. 12.—Lieutenant Commander F. W. Crocker from the New Hampshire and ordered to Naval Hospital, Chelsea, Mass., for treatment.

Lieutenant F. E. Green from the New Hampshire and placed on waiting orders.

Sailmaker John Martin from Saratoga and ordered to the Equipment Department, Navy-yard, N. Y.

Sailmaker Frank Watson from the St. Louis and ordered to the Saratoga.

Leave granted Ensign E. H. Tillman, until Dec. 20, then to Coast Survey duty.

Commander A. D. Brown detached as Acting Superintendent Naval Observatory and ordered as Assistant Superintendent.

Commissioned.

Commander C. M. Schoonmaker as captain.

Lieutenant Commander G. W. Pigman as commander.

Lieutenants (junior grade) to be lieutenants: F. A. Wilner, F. H. Tyler, Henry Morrell, and C. B. T. Moore.

Ensigns W. S. Hogg and W. F. Fullam as lieutenant, junior grade.

John Corwine to be Passed Assistant Paymaster.

George S. Willits to be Passed Assistant Engineer from July 1, 1885.

Transferred.

Rear Admiral E. W. McCauley, commanding Pacific Squadron, informs the Navy Dept., under date of Oct. 14, that Assistant Surgeon F. W. F. Wieber nas been transferred to the Iroquois, and P. A. Surgeon E. H. Marsteller to the flagship Hartford, as directed by the Department in September last.

Leave.

Assistant Engineer W. S. Sample has been detached from the Tennessee and granted six months' leave.

Changes on the Asiatic Station.

Paymaster L. A. Frailey from the Marion to the Ossipee.

Paymaster William MacMahon from the Ossipee to the Marion.

Assistant Engineer W. D. Weaver from the Marion to the Omaha.

Assistant Engineer C. G. Talcott from the Monocacy to the Ossipee.

Cadet Engineer W. S. Smith from the Ossipee to the Monocacy.

Cadet Engineer R. Stewart from the Ossipee to the Monocacy.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending November 10, 1886:

Alfred W. Dixon, captain foretop, died on the Jamestown, Nov. 8, 1886, result of a fall from aloft.

Michael H. McAdams, sea apprentice, 2d class, died on the Mohican, Sept. 20, 1886, result of a fall from aloft.

James Smith, beneficiary, died at Naval Hospital, Philadelphia, Pa, Nov. 6, 1886, with aneurism of the aorta.

MARINE CORPS.

Nov. 4.—1st Lieutenant Thomas N. Wood is granted leave for one month from date with permission to apply for an extension.

(Correspondence of the Army and Navy Journal.)

FROM THE SOUTH ATLANTIC STATION.

RIO JANEIRO, October 12, 1886.

REAR ADMIRAL DANIEL L. BRAINE, U. S. N., arrived at Rio Janeiro on the 6th of October, in the American steamer *Finance*, and assumed command of the South Atlantic Station the same day, hoisting his flag on board the *Lancaster*. Salutes were fired by the *Lancaster*, the English flagship *Ruby*, and by one of the Brazilian ships. In a general order issued on the 8th of October, the Admiral announces that his personal staff will consist of the following officers: Captain S. L. Breese, U. S. N., Chief of Staff; Lieut. A. B. Wyckoff, U. S. N., Secretary, and Lieut. H. H. Barroll, U. S. N., Flag Lieutenant.

A naval General Court-martial, of which Lieutenant Commander Geo. M. Totten, U. S. N., was President, and Lieut. H. C. Haines, U. S. M. C., Judge Advocate, met on board the *Tallapoosa* on the 11th inst., for the trial of Asst. Engineer C. C. Willis, U. S. N.

In a closely contested boat race with the Brazilians on the 10th inst., the gig of the *Lancaster* won by three seconds.

Pay Clerk L. F. Brigham, U. S. N., of the *Lancaster*, having been condemned by Medical Survey, will sail for home on the *Finance* Oct. 6.

The *Lancaster* will sail for Montevideo about the 1st of November. The *Tallapoosa* will sail the last of this week, the latter stopping at several ports on her way down, and the former going direct to Montevideo.

There has not been such a healthy season at Rio as the present for many years. It is the first real winter for three years, and the coldest for at least ten years. The mercury has not been below 60 deg., however.

The following is the list of the officers now on board the *Lancaster*: Rear Admiral Daniel L. Braine, Commander-in-Chief; Lieut. A. B. Wyckoff, Secretary; Lieut. H. H. Barroll, Flag Lieutenant; Captain S. L. Breese, commanding; Lt.-Comdr. H. N. Manney, Executive; Lieut. D. Kennedy, Navigator; Lts. E. S. Prime, Wm. P. Potter and Kossuth Niles; Ensigns Joseph Beale and J. S. Brown, Watch Officers; Chief Engineer, Charles H. Baker; P. A. Engineers, A. B. Canaga and C. W. Rae; Asst. Engineers, Howard Gage and W. H. Allderdice; Surgeon, H. M. Wells; P. A. Surgeons, P. M. Rixey and S. H. Griffith; Paymaster, C. P. Thompson; Chaplain, D. H. Tribou; Captain, A. S. Taylor, 2d Lieutenant. H. C. Haines, U. S. M. C.; Boatswain, P. H. Smith; Gunner, John A. McDonald; Sailmaker, C. H. Jones.

Rear-Admiral D. L. Braine reports to the Secretary of the Navy under date of Rio de Janeiro, Brazil, Oct. 14, 1886, that upon his assuming command of the South Atlantic Squadron at that port, Oct. 6, he received in behalf of his Government the usual offers of courtesy, calls from foreign officials afloat and ashore, and offers of assistance from the Admiral of the Port and the Brazilian Minister of Marine. His flag, as rear-admiral, was saluted with 13 guns by the two Brazilian commodores and the senior English naval captain present, each of which was returned gun for gun. He called, Oct. 7, upon Hon. G. J. Jarvis, U. S. Minister to Brazil, and the following day he returned the calls of the foreign officials. Oct. 12 he called upon the Vice-Almirante, B. de Ivinheima, commanding the naval station there; Señor Wallace MacDowell, the Minister of the Brazilian Navy, and Señor Joas Mendez Salgado, the Admiral of the Brazilian Navy.

The U. S. Minister returned his call Oct. 11. Oct. 12 Vice Admiral B. de Ivinheima returned his call and was saluted with fifteen guns. On the same day Mr. Henry D. Haggard, Charge d'Affaires de S. M. Britannique, acting English Minister, called, and was saluted with eleven guns.

Rear Admiral Braine reports that he intended sailing about Nov. 2, in the flagship *Lancaster* for Montevideo, stopping at Maldona for the purpose of landing and exercising the crews of the *Lancaster* and *Tallapoosa*. Mails intended for the vessels of the squadron should reach the flagship at Montevideo during the months of December and January, unless occasion arises for the further movement of the vessels of his command. His visit in the U. S. and Brazil Mail steamer *Finance* to Para, Maranham, Pernambuco, Bahia, and Rio de Janeiro, enabled him to communicate with nearly all the U. S. Consuls in that part of the station, and the commercial interests of the United States appeared to be carefully looked after.

The English merchants were, however, the most successful competitors for the trade of Brazil, offering longer credits to the Brazilian merchants for the kind of goods they desire, and getting their freight that almost defy competition. The health of the officers of the *Lancaster* and *Tallapoosa* was excellent.

FROM THE EUROPEAN STATION.

REAR-ADMIRAL FRANKLIN, commanding the European squadron, reports to the Navy Department, under date of Genoa, Italy, Oct. 21, on board the *Pensacola*, that in obedience to instructions he would direct the *Quinnebaug* to proceed to the coast of Africa to cruise during the winter. She would sail about the middle of November.

The *Pensacola* would leave the coast of Italy about Nov. 10 and would proceed to the East, making Alexandria her headquarters. The *Kearsarge* reported her arrival at Madeira, Oct. 11, and was probably crossing the Atlantic. The health of the squadron was good.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

CAPTAIN N. H. FARQUHAR is spending a few days with his cousin, Mrs. Lieut. Hodgson. Commo. H. F. Picking, of the Lighthouse Board, spent last Saturday and Sunday with Superintendent Sampson.

Asst. Engr. W. C. Herbert, Ensigns J. H. Fillmore, H. O. Dunn, and W. J. Maxwell paid a flying visit last week with some of their friends at the bachelor's quarters.

Naval Cadet A. Rust, class of '85, is visiting friends in Annapolis.

A very pleasant matinée was held in the gymnasium last Saturday, and quite a crowd of Academy people were present.

The cold weather of the past week has had no appreciable effect upon the tennis players; but in view of a greater drop in the temperature, they are considering the feasibility of playing indoor tennis, during the winter, in the armory.

Miss Faith, a daughter of Lieut. Tyler, met with a very painful accident last Saturday, while riding a tricycle. In trying to avoid a collision she was thrown against a curbstone, cutting her lip and breaking two of her teeth. Miss Tyler was confined to her room for several days, but is now able to be about.

The foot ball match with the St. John's College team was postponed on account of rain.

Drill on the U. S. S. *Wyoming* began on Monday last, and will continue until Nov. 20. The work will consist in rigging ship, bending sail, and drilling with light spars are followed by a general stripping and cleaning up for winter. Comdr. Harrington is in command, with Lieut. Leutze as executive officer, and Lieuts. Bartlett and Colahan as watch officers.

Mrs. Ensign Haeseler has been spending a few days with her parents at her home in Philadelphia.

Cadet Melson, who sprained his ankle in last Saturday's foot ball game, is still confined to the hospital.

Some one who, presumably, had been drinking too much sea serpent, raised a fire alarm on Monday night night, but he was extinguished without serious damage.

The game of foot ball played between the St. John's College team and the cadets on Wednesday afternoon resulted in a victory for the cadets by a score of 12 to 0. The cadet's score was made upon touchdowns by Brittain and Anderson, both of '88. Excellent playing was done by Schoff, of the college team; and Stone, '87; Rowan, Anderson and Brittain, '88; and Williams, '90, of the Naval Academy. The game was witnessed by a great crowd of Naval Academy and Annapolitans, who cheered lustily for their respective sides.

Naval Cadets P. C. Shaffer, second class, of Ohio, and A. S. Thompson, fourth class, of Wisconsin, have resigned.

NAVAL STAFF AND LINE.

THE *Engineering News* says: "Rear Admiral Luce in an interview published in a late number of the *Herald*, speaking of the demoralizing quarrel between the line and staff in the Navy, says, 'It is idle to talk of ships or guns or men, until we can have system at the Navy Department and until we restore mutual confidence among the officers,' and 'I again repeat that all bills for the better government and improvement of the Navy should be divested of features that will injure the co-ordinate branches of the Service.'

"All this is very well for the *line*, but in defiance of civil service rules, the head of the Bureau of Civil Engineers in the Navy is a line officer, and line officers are generally, if not always, made chairmen of any commission to decide on engineering subjects, even though the chairman has to, as in one instance, ask what concrete is. We strongly advise the line to keep on agitating for such change in the rules or laws of the Department as will allow its engineering to be done without interference from men, who, however skilled they may be in their own profession, are without training, experience, or even theoretical knowledge of engineering. Even if some of them have to reside in New Jersey for awhile, as a penalty for their desire to 'injure the co-ordinate branches of the Service.'"

WAR BETWEEN COLOMBIA AND VENEZUELA.

BOGOTA, September 25, 1886.

THERE are some prospects of a war between Colombia and Venezuela, Gen. Guzman Blanco, President of the latter, having declared it his purpose to unite the two Republics, as did Bolivar. He probably has his eye on the Canal of Panama. The Colombians will resist. Guzman was recently in Paris with de Lesseps.

General Morgan, of the Army of Colombia, is an ex-Confederate from West Virginia, who served in Egypt and won his star here during the last revolution, in a few years passing through all the grades from a private to general officer. His most important service was saving the arsenal at Tunja for the government. He now commands the Engineer Battalions building a road in the Quindio Mountains.

BLACK STARR & FROST

SUCCESSORS TO

GALL BLACK & CO.,

Fifth Avenue, Cor. 28th Street.

DIAMONDS, AMERICAN AND FOREIGN, WATCHES, JEWELRY, STERLING SILVER AND PLATED WARE, FRENCH CLOCKS, BRONZES AND FANCY GOODS.

BLACK, STARR & FROST have models of the West Point Class Rings for many years, and can supply duplicates (in case of loss) at short notice.

BROWN BROTHERS & CO.,
59 Wall Street, New York,
Buy and Sell Bills of Exchange

In Great Britain and Ireland, France, Germany, Belgium and Holland, Switzerland, Norway, Denmark, Sweden, Australia, and British West Indies. Issue *Commercial* and *Travellers' Credits in Sterling*, available in all parts of the World. MAKE TELEGRAPHIC TRANSFERS OF MONEY TO EUROPE.

Established 1811.
CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, - $21.00
Old Reserve Whiskey, - - - - 18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION: otherwise to be returned at our expense. Correspondence solicited.

H. & H. W. CATHERWOOD,
114 SOUTH FRONT STREET, PHILADELPHIA.

N. Y. OFFICE—16 SOUTH WILLIAM ST.

CALIFORNIA VINTAGE CO.
21 PARK PLACE, NEW YORK.

LA ROSA ZINFANDEL CLARET—per cask $60.00, or bottled, corked only, 2½ doz., $76.30. Packing for shipment at cost additional (cheapest manner, $7.50.) Send $4.50 for sample case to try, and you will *never* again pay high prices for inferior French wines. White wines, Ports, Sherries, Brandies, &c., *pure and reliable* at *moderate* prices.

U. S. ARMY AND NAVY JOURNAL.

PUBLISHED EVERY SATURDAY.

NEW YORK, SATURDAY, NOVEMBER 13, 1886

Office, No. 240 Broadway New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

W. C. and F. P. CHURCH, Publishers,
Cable address: 240 Broadway, New York.
ARMYNAVY.

THE NEXT CONGRESS.

THE results of the elections in several States on the 2d inst. will necessitate serious changes in the *personnel* of the Congressional Committees in which the Army and Navy and the organized militia of the country are especially interested. As one of our contemporaries very justly observes: "It is astonishing to see how many chairmen of committees in the Forty-ninth Congress have been left at home by recent events." Of the committee on Military Affairs, General BRAGG, the chairman, General VIELE, the third on the roll, and General NEGLEY, have been relegated to the home circle, BRAGG and NEGLEY for want of nomination and VIELE for want of votes. The second on the committee list and the conventional successor to the chairmanship—the political control of the House of Representatives promising to remain Democrat—is General WHEELER of Alabama, of Confederate cavalry record. General WHEELER occupies the same relative position on the Committee on Expenditures in the War Department, the chairman of which, ROBERTSON, of Kentucky, has not been returned. Altogether the Committee on Military Affairs will suffer a loss of six and that on Expenditures of five present members, necessitating an unusual change of organization. General BRAGG has made an efficient presiding officer of the former committee, and, we trust, will carry the bills, emanating from it and left on the calendar, during the coming session, to their final passage. The changes in the Committee on Militia consist in the retirement of the chairman, MULLER, of New York, and of two minor members. the next on the roll being an ex-Confederate colonel, FORNEY, of Alabama, whose absurd ideas on the fortification question, given to the press last winter, do not recommend him to the chairmanship.

The Committee on Expenditures in the Navy Department will lose its chairman, TAYLOR, of Tennessee, and a member, BROWN, of Pennsylvania, but will retain Mr. TIM. CAMPBELL, of New York. The Committee on Naval Affairs suffers a material loss in the retirement of Mr. HEWITT, though its chairman, Mr. HERBERT, of Alabama, will probably be continued. LOVE, of Delaware, and BUCK, of Connecticut, were not returned, but BOUTELLE, of Maine, GOFF, of West Virginia, and MCADOO, of New Jersey, who have been earnest advocates of naval reconstruction, will fortunately be eligible for reappointment on the Committee.

The Committees of the Senate will experience less change through the recent elections than those of the House. The Republicans having a legislative majority in Connecticut, it may be assumed will re-elect Senator HAWLEY, and West Virginia will probably give Senator CAMDEN another term. The re-election of Senator SEWELL from New Jersey will depend upon the political complexion of the Legislature, which is yet in doubt. These Senators are members of the Committeee on Military Affairs. The Committee of the Senate on Naval Affairs will not be essentially affected, Senator DAWES, of Massachusetts, seeming likely to be re-elected.

OUR NEW NAVAL GUNS.

THE new cruiser *Atlanta* is now receiving the guns which will complete her armament. The success of the recent statutory tests of the 6 and 8-inch guns has, we are informed, warranted the shipment of the guns to New York. A number of pieces previously shipped thither, had been repeatedly fired in the trials, incidental to the grading of powder, etc., in some instances as many as fifty or sixty times. The authorities were satisfied with their performance, as the preliminary trials exceed the test required by law. One of the two remaining 8-inch guns has been ordered from the Washington Navy-yard to the naval proving grounds at Annapolis. As the statutory tests are only required for a gun of certain type and calibre, no more such tests will be made until one of the two 10-inch guns in course of construction at the Washington Navy-yard is ready for such a trial. These guns are now in an advanced stage, and will be rifled at an early day. They are being built from an appropriation of three years ago, and though not intended for any particular vessel they will probably be placed on board the best ship suited for carrying them, if they pass the test successfully. Captain SICARD intended them for the armament of the monitor *Miantonomah*, and now that that vessel is to be completed it is very probable that they will be placed on board her. The statutory test of a 5-inch gun will probably be made at the same time as that of the 10-inch gun. Two of this calibre are completed, and could be tested now, but as they are intended for the *Chicago* there is no haste. Under any circumstances the guns of the *Atlanta* will be ready to go on board when the vessel is ready to receive them. They could have been tested with the six and eight 9-inch guns, but the powder was not graded sufficiently. They have been fired with the powder of the 6-inch guns with satisfactory results, and it is expected that with powder carefully graded for them they will do still better.

Foreign experience thus far is not at all conclusive as to the merits of built up steel guns, and these guns will not command the confidence they should until we return to the Rodman system of casting. As was said in the JOURNAL of October 16, of the law of contraction, as Rodman, Wade, and others named discussed, "it is always true; it is one of the constants of nature, and the mode of satisfying that law which they introduced seems to be merely the setting in action of another law of equal value." The London *Engineer*, in discussing the subject of the fracture of the gun of H. M. S. *Collingwood*, presents some views on the subject of steel guns which entirely accord with those suggested by the communication of Mr. Edward Bates Dorsey, C. E., which appeared in the JOURNAL of October 16. Our contemporary says:

The only way in which big guns can be made safe is to reject absolutely all steel which is too hard. The Ordnance authorities show by the tests which they have laid down for gun steel that they do not yet fully understand what a soft steel is; or else that they have knowingly adopted a steel which is hard, for a reason which they have not stated. They say that gun steel must have a breaking stress of not less than 35 tons or more than 45 tons. Now this is flatly opposed to the practice, not only of Lloyd's, but of all engineers. It is perfectly understood outside the War-office, that a steel to stand tensile strains must, under no circumstances, have a greater tensile strength than 32 tons to the square inch, or no less than 13 tons less than the War-office maximum, and three tons less than the War-office lowest limit. No engineer in his senses would think of making a boiler, or a bridge, or a tire, out of steel with a 45-ton limit; and we say without hesitation, that if the War-office will rest content to make its guns of steel with a minimum limit of 30 tons and a maximum of 32 tons, and an elongation of 20 per cent., there will be no more broken guns—always provided, of course, that the gun is properly proportioned to the nature of the powder to be burned in it. We have said that the authorities possibly adopt a hard steel for a special reason. This reason is that it is assumed—we are not aware that it has ever been proved—that soft steel scores so fast as soon to render a gun useless. Whether this is so or not, the true remedy does not lie in using hard steel; or rather the remedy is much worse

than the disease. Unless soft tough steel is employed in guns the results must be disappointing. It is all very well to talk of oil tempering, and so on. Such treatment may mitigate the evil, it will not remove it. Knowing as much as we do of steel, we repeat, that the use of any steel with a higher tensile strength than 32 tons, or at the outside 33 tons, to the square inch is a serious mistake, and so long as it is persisted in, so long shall we continue to hear of failures of guns; and it must not be forgotten that such failures need not all be of the *Collingwood* or *Active* type. We may have the chases split or cracked, without the complete breaking up of the gun; and we shall not be wrong if we assert that the occurrence of failures of this kind is very far from uncommon. It is not confined to the guns of Great Britain—the guns of all nations are liable to fall victims. Hard steel is no respecter of persons or nations. Engineers know it to be of a treacherous material; and artillerists will do well in this matter to profit by the experience which engineers have acquired with much trouble and vexation of mind and at an enormous expense.

With reference to Engineer-in-Chief LORING'S statement that the difficulty on the trial trip of the *Atlanta* "was due entirely to an imperfect manner of lubricating," the *Engineer* says: "English engineers will ask, Why was the method of lubrication adopted imperfect? The power of the engines was less than that contracted for by 20 per cent.; it seems to be a serious deficiency. We venture to think that the troubles of the *Atlanta* do not all centre in her thrust block."

THE ROUTINE OF A MODEL ARMY.

THE London *Daily Telegraph*, referring to the recent strictures of the Duke of CAMBRIDGE upon the regimental officers of the British Army, says: "Commissioned idlers, we are glad to believe, are not less difficult to discover nowadays in British regiments than were formerly hard-working officers who took a serious view of their duties and responsibilities. Still, it is an open secret that our captains and subalterns, as far as campaigning work is concerned, have yet much to learn that they may be able to teach. No student of law, physic, or divinity, no city clerk or shopman, no skilled operative or handicraftsman works as hard or for as many hours daily as does a lieutenant in any branch of the German military service. In the literal sense of the expression, he is a slave to duty. It is more especially in time of peace that his labors know no intermission—save during the brief intervals allotted to him for his meals—between the hours of seven in the morning and nine at night. War-time he regards as a comparative holiday, the relaxations of which would be altogether delightful were they not accompanied by the urgent probability of getting shot. As long as the Fatherland continues to be on friendly terms with its neighbors, the German subaltern's life, week in, week out, from the opening to the close of the year, is what Mr. MANTALINI would have called 'one dem'd horrid grind' of teaching his men every item of their duty in barrack and field. They drill him, instruct him in the construction and use of his weapons, indoctrinate him to a certain extent in tactics, inspect him in many several ways with relation to his diet, habits, and general conduct; in short, look after him with benevolent severity from rosy morn to dewy eve. With such a weight of duty and responsibility ever hanging to their shoulders, it may well be understood that they have no time for recreation, and that, their day's work done, they are only too glad to seek in well-earned slumber a brief rest for their wearied bodies and minds. Yet these overworked men are notoriously the best military officers in the world, although, with respect to pay, leave, and promotion, they are at a disadvantage compared with their comrades of every European Army."

So far as the work is concerned we are disposed to believe that the officers of the German Army are better for it, and more content in consequence of it. Idleness is the mother of discontent, as well as of mischief. Constant occupation that absorbs the mind and disciplines the faculties is as essential to happiness as it is to health of mind and body. The trouble with our Army is that its officers alternate between such a strain upon their faculties as that to which officers in Arizona have been recently subjected, and a want of sufficient occupation to draw attention away from the petty matters that dwarf the mind and belittle the soul. One of the hardest things is for a man to keep himself healthily occupied when there is no stress of necessity upon him. The circumstances of his life must be such as to compel his constant attention to daily duties of some sort which seem imperative, or he is in danger of stagnation and decay. Some, under such circumstances, will seek and find occupation whether it offers itself or not; others will let their faculties rust in idleness, until they become as useless as an unused weapon.

FRENCH HOSTILITY TOWARDS ENGLAND.

THE hostile attitude of France towards England seems to be more disturbing to British sentiment than even that of Russia, somewhat upon the principle, doubtless, of "et tu Brute." The *Army and Navy Gazette* tells that it foresaw from the first that Egypt would be a bone of contention between the two countries, but it never foresaw, and never could have imagined, that England's ally of 1854-55 would have set to work in 1886 to form a combination of the Great Powers to eject her from a country which she occupied with their assent. It was the facile subservience of English policy to the pressure of the Quai d'Orsai and the Paris Bourse in the deposition of Ismail Pasha which led to the rise of the national party and to the revolt of the Army which gave expression to it, and when the moment for action came France backed out of Alexandria, and left England to take the chestnuts out of the fire. She may have burned her fingers with them; she may be willing to give up her share if properly approached; but she will not and cannot submit to the "Stand and deliver!" of the Republic, no matter what the consequences of refusal may be.

"If reasons were as plenty as blackberries for their departure, the troops of the Queen nevertheless," says the *Gazette*, "must not be forced out of Egypt by an array of paper-battalions. We cannot afford it. Far better to fight and be beaten, if it must be, than to yield to any voice, however powerful, calling to us across the waters, 'Clear out! or else ——.' Let else come, by all means! this is not bravado; it is plain English. It is because French journalists and French statesmen seem resolved to humiliate us by hauling down our flag by word of command in a foreign tongue that Englishmen are determined to keep it flying on the Nile."

To *Broad Arrow* France just now appears to be in such a frame of mind as that of a man whose liver is out of order. Nothing agrees with her. She cries for *la revanche*, but, instead of quietly preparing for it, biding her time, strengthening her resources, and saving her money against a time when it will all be wanted, she fritters it away in such fruitless and inglorious enterprises as the conquest of Tonquin and the occupation of Madagascar.

"But what," it asks, "if Russia should join France, and add her Baltic fleets to the French naval armaments?" "Even then," it answers, "we should have no fear. With France it would be staking what is left of her colonial empire on the cast of a single die. It might not have such grave results for Russia, but it would be very far from furthering her ambitious projects in the East. As long as this country, the heart of the empire, remains intact, her resources are so great, and her recuperative powers so vast, that the defeat of our home fleet by the combined fleets of France and Russia, though disastrous, would not be ruinous. No fighting ships could convey a sufficient force to invade this country—and even if the hostile fleets were victorious, we should think they would be so crippled as to put invasion for the moment out of the question."

The discussion of England's weakness in her home papers is giving her French critics much comfort, just at this time, and especially Lord Charles Beresford's memorandum. They should not forget that the English are more accustomed than are the Continental nations to washing her soiled linen in public. And the French would do well to recall the revelations as to the actual condition of their own military resources—which followed the outbreak of the war with Prussia. Undoubtedly, there has been great improvement since then, but it is not so certain that it is such as to give France the advantage of England on the high seas. Some of the French papers find less comfort in a comparison of the French and English fleets. The *Voltaire*, for example, quotes from a Parliamentary report which gives England 66 armorclads afloat or building; France, but 44. It adds:

"In counting the squadron armorclads finished and nearly finished, France will have 8; England, 18; Germany, 9; Russia, 1; and Italy, 4. This fact is not calculated to inspire much pleasure; our inferiority with respect to England is as 8 to 18. We have 8 armorclads on the stocks, 2 of which are not to be continued; England has 10; Italy, 5; Germany, 2; and Russia, 5. If the present, therefore, is not very brilliant, the future is more gloomy still. The other naval powers have already a certain number of rapid cruisers which could easily cut off our packet-boats, while our marine would be obliged to look sadly on while the enemy's packet-boats and cruisers disappeared on the horizon, as was seen in the far East with the Chinese cruisers, built in Germany. In spite of this humiliating situation, we still talk of indulging in a war of privateers, and of ruining the commerce of England if she attempted to attack us."

MAJOR GENERAL O. O. HOWARD, U. S. A., in his recent annual report, from which we extracted last week says: "In some of the correspondence carried on by General MILES with those higher in authority than myself, I have been left uninformed, especially with regard to his own communications. The replies to him being usually sent through my headquarters, give me but partial knowledge. I think it most probable that this direct reporting arose from a dispatch sent by my predecessor to General CROOK, authorizing him, to save delay, to telegraph directly important news. Certainly if this were done a duplicate should have been forwarded at once to the responsible Division Commander. So much confusion arises from ignoring the prescribed channels, that I earnestly hope that such action of my subordinate commanders will not hereafter, except in plain emergency, be sanctioned nor encouraged." General HOWARD, ever anxious for the welfare and progress of the enlisted man, says: "It has occurred to me that a distinction in the matter of pay might be made, as in the Signal, Ordnance and Engineer Corps, with good results, between the sober, intelligent man, who understands and performs his duty, and the worthless 'ne'er do well,' who does nothing satisfactorily, and passes most of his time in guard-house or hospital. I suggest that the former be rated as 'first class private,' with higher pay, and of course to be the man eligible for promotion; the latter, as 'second class private,' with lowest scale of pay. It might be well to refuse the benefit of additional pay, authorized by the act of May 15, 1872, to the 'second class private.'" The suggestion is not without weight, and such an inducement as that suggested might be productive of good results. As it is now, the chronic "guard-house bum" shifts his share of duty upon his better behaved comrades and lolls at his ease on the bed of the prison-room, congratulating himself upon his ability as a shirk, and upon his cuteness in getting board and lodging and some occasional pocket-money out of Uncle Sam, for little or no return.

LIEUTENANT-GENERAL SHERIDAN seems at last to have a chance of carrying out his policy of abandoning a large number of the smaller posts and of concentrating the troops at the larger posts, where they will have better opportunities for instruction, and from which they can readily and quickly be sent in any direction should occasion arise for their services. Fort Halleck, Nevada, is under orders to be abandoned; Fort A. Lincoln, Dakota, comes next, and other posts are destined to share a like fate. Fort Snelling, Minnesota, is likely to be strongly reinforced next spring, as it is looked upon as an important strategic point with reference to the northwestern Canadian frontier. It may take some time to carry this plan of concentration into full execution, but it has been started and will go on as the exigencies of the Service will permit. The companies of the 2d Infantry, now at other points, have been ordered to Fort Omaha.

THE Second Auditor in his annual report states that 380 claims for longevity under judgment of the Court of Claims in the WATSON Case have been filed. He estimates that 2,200 officers are interested and that one million and a half dollars will be required to pay claims. Action on cases filed has been suspended until the Supreme Court acts upon the ap-

peal by the Government in the WATSON case. "Prosecution of these claims," the Auditor says, "is a striking illustration of the necessity of the Statute of Limitation."

THE lighting, or rather the non-lighting, of the Statue of Liberty, at Bedlow's Island, has given rise to a good deal of newspaper discussion and many erroneous statements. Private offers have been made to light the statue, but the matter seems to be one which rests with the authorities at Washington. The Lighthouse Board, as such, has no authority over the statue, no connection with it, no power to light it, and no money to expend in lightiug it if it had any power in the matter. What Lieut. Millis has done in connection with the lighting of the statue was done under the orders of Gen. Schofield. The police were withdrawn from the Island this week, and Captain H. F. Brewerton, 5th U. S. Art., with a detachment of troops, is now in immediate charge. Miss Liberty herself explains the situation in these few remarks to New Yorkers, which appear in the Washington *Critic*:

Ladies and Gentlemen!
Friends and Fellow Citizens!
I am put here to enlighten the world.
But the appropriation for light appears to
Have been exhausted, and
I am out of a job.
But I am no Mugwump;
I am a perfect lady,
And if somebody will pass me
The matches and a tallow candle,
I'll make a scratch at doing what
I was put up here for, or I'll
Tear a width out of my bronze peplum
Trying to do it.
I am not making anything out of this
Job, directly,
But, as an advertisement,
It is a great snap!
We will show you in a few days—
Excuse me—nights,
That Liberty knocks electricity, gas, kerosene,
Tallow dips, pine knots, greasy rag,
Midnight oil, paraffine, gasoline,
Etcetera,
Clean out as a great enlightener,
And is bound to take the place
Of those old-fashioned illuminators
In every well-regulated family!
Our agent will call on you
This week.

MR. J. A. LONGRIDGE does not share the opinion of ordnance officers as to the value of cocoa powder. In a communication to *Engineering* he says: "Its chief merit, in my opinion, is that it makes less smoke than black powder; otherwise it seems to be inferior to it. If the strength of a powder be roughly estimated as proportional to the product of the volume of the permanent gases by the units of heat evolved, the strengths of the threo following powders will be:

Pebble, Waltham Abbey	.....	1.0000
R. L. G., "	.....	.9925
F. G., "	.....	.9690
Cocoa	.....	.8268

Thus cocoa is about 17 per cent. below pebble. But what is important to know is, that as regards the units of heat evolved by the same weight of powder, it is 16 per cent. higher; while as regards volume of permanent gases, it is 23 per cent. lower. It follows that the temperature of the gaseous products must be considerably greater with the cocoa powder, and in all probability it will prove more erosive in its action than the black powder. However this may be, I cannot but think that the Ordnance Department have been somewhat hasty in adopting the cocoa powder, and in leading this country, as it is understood they have done, into a very heavy expenditure for its production. In France this powder has for some time been the subject of careful study, but, so far, I believe it is *not* adopted. It is, I am informed, at least 30 per cent. dearer than the black powder, and is 16 per cent. weaker. Nor has it any particular explosive advantage as regards pressure. The maximum pressure in a gun is, *cæteris paribus*, inversely at the time of combustion of the individual grains of the powder, but the form of the grains has also its influence, both in the maximum pressure and the velocity."

WE shall probably be doing a service to officers of the Army and Navy on duty in and near New York, by informing them that an excellent "Fencers Club" has been established at the very convenient locality of 19 West 24th street, where, as we have been assured, either their membership or occasional presence will be welcome. This club stands very high socially, besides containing some of the best local experts at fencing. The chairman of the Executive Committee, which is headed by Mr. W. W. Astor, is Mr. Chas. De Kay, and the secretary is Mr. J. Murray Mitchell. Capt. Nicolas is instructor in fencing and superintendent of the club house, and from him no doubt all detailed information can be had. The rules provide for the occasional introduction of visitors, resident or non-resident, by members, and also for temporary membership. We understand that should a considerable number of the Army and Navy officers join the club, their entrance could probably be effected under special arrangements satisfactory to them and conceded to no others. The disposition to drop fencing after leaving West Point and Annapolis has often been remarked, but the advantage is here presented of keeping up this accomplishment, so useful as gymnastic discipline and so officer-like, under agreeable social surroundings. We may add that the club also has a shooting gallery.

AN European correspondent says: The question of war is gravely debated day by day by the Austrian rulers, and the time for settlement grows cruelly short. Hungary is resolved either to fight Russia or smash the Government at Vienna. On the other hand, none knows better than Kalnoky that the Austrian army is in a woful state of disorganization. What with inferior armaments, the chaos of a change from old systems to new, and the almost comical necessity of translating every general order into six languages, and these in turn into sixteen dialects for regimental use, either alternative is full of peril. Yet if she can be assured of allies the chances still are that Austria will decide to risk war.

GENERAL BENÉT, Chief of Ordnance, visited the Sandy Hook Proving Grounds Nov. 11, to witness the trial of a new metal field carriage for the 3.2-in. breech-loading rifle, which has recently been delivered there from the Watertown Arsenal. The carriages heretofore constructed for these guns have always broken down under the heavy charges used in these light guns and it has been an object of much concern to the Ordnance Bureau to get a suitable carriage for this purpose. The one referred to is supposed to be a great improvement, in point of strength, over the others. The checks have been made longer, and as better steel has been used, it is expected to prove much stronger.

OFFICERS of the Regular Service will find our report of the court-martial proceedings in the 13th Regiment of the N. Y. National Guard sufficiently amusing, in spite of the melancholy exhibit it makes of insubordination in a body calling itself military. Saying to a superior officer, "get out you ——sucker;" threatening to throw another officer into the well-hole, and generously inviting him to come out and "have his nose smashed"—such, according to the testimony we publish, are the negro minstrels performances which have varied the monotony of military proceedings in the 13th Brooklyn, with Lieut. Smith as the principal actor.

MR. CLARKE MERCHANT, who resigned from the Navy in 1865 as commander, after a service of thirteen years, is now the head of the house of Merchant and Co., of New York, Philadelphia, and Chicago, engaged in the business of furnishing roofing plates. They were recently awarded the contract for furnishing the White House at Washington with Gilbertson's "Old Method" roofing plates. The conditions of the contract were very rigid, and its award to Messrs. Merchant and Co. is a valuable endorsement of the superiority of the method of roofing used by them.

THE Portland *Oregonian* (Ind. Rep.) asks: "Why not Sherman" as the next Republican Presidential candidate. We suspect that in this case the trouble will be that Barkis isn't "willin'". Besides, the General is so accustomed to saying what he thinks, and thinking what he says, that we fear if he were the candidate it would he impossible to suppress him long enough to get him elected. He is the worst sort of timber out of which to shape a politician.

THE young lady who asked the Reverend Sydney Smith his idea of heaven was told in reply that it was 'eating *paté de foie gras* to the sound of trumpets.' In spite of this indorsement by the reverend gentleman the Archbishop of Canterbury objects, it appears, to the use of trumpets by the Salvation Army.

THE cavalry regiment at Aldershot which made the best record in the field-firing recently concluded was the Scots Greys, whose percentage of hits to rounds was 28·29; the 10th Hussars made 27·89; and the Royal Dragoons 20·40. In the infantry the highest return is by the 2d Royal Inniskilling Fusiliers, 23·46.

SOUTH AFRICAN "stinkwood" is being substituted in England for French walnut in the manufacture of gun-stocks. Not only is it said to be far superior to walnut for this purpose, but its supply is practically unlimited, while walnut is getting scarcer every year.

IT was announced last week, on what seemed to be excellent authority, that the President had decided to give the Surgeon-Generalship to Lieutenant-Colonel John Moore, now on duty at San Francisco. No appointment, however, has yet been made, and the matter is apparently as far from settlement as ever. Even the officials of the War Department who believed that Colonel Moore would get the place are unable to account for the delay.

THE General Order closing the dispensaries at division and department headquarters, at places other than military posts, was prepared in the Secretary's own office, and was prompted by a desire to economize. It was the Secretary's own idea. He considered that medicines could be purchased just as cheaply under contract with druggists in large cities, where division and department headquarters are located, and by them dispensed, thus relieving the Government of the expense of keeping up an establishment for this work. The dispensaries at Vancouver, Omaha, Chicago, and New York will be abolished. The hospital stewards at these places are allowed the option of taking their discharge or of being transferred to military posts. No applications have yet been received for discharge, so that they will all probably accept the transfer.

Broad Arrow says: "The days of armor-plate protection are, in the estimation of many thinking men, coming to a close. The gun is victorious all along the line, and the increased speed given to the torpedo boat, taken in conjunction with the destructive efficiency attained by the torpedo, makes it a matter of very questionable policy to spend such large sums of money as heretofore upon individual ships."

WE are authorized to state that the time named (Oct. 1886) in the circular of the Chief or Ordnance of the Navy, for submitting applications to furnish specimens of domestic armor-plate for trial, is indefinitely extended, the Department being willing to consider proffers at any day so that the plates shall be delivered before Oct. 1, 1888.

THE CASE OF ENSIGN ORMSBY.

G. C. M. O. No. 37, Navy Dept., published the proceedings of the court-martial at Payta, Peru, of which Lieut.-Commander Charles M. Thomas, U. S. N., was President, and which tried Ensign Geo. F. Ormsby, U. S. N., for conduct to the prejudice, etc., found him guilty and sentenced him to two years suspension with $50 per month pay and a public reprimand by the Secretary of the Navy. The character of the offense is sufficiently shown by the extract which follows:

III. The evidence in this case shows that Ensign Ormsby, after being advised, in substance, by his commanding officer, against such a course, persisted in the intrusion of an improper request upon the commanding officer of the North Atlantic Station, viz., that he would endeavor to detain, at Panama, the U. S. S. *Adams*, a vessel attached to the Pacific Station; that in making such request Ensign Ormsby sought to avoid his responsibility as an officer by assuming to make the request in the capacity of counsel for another officer of the *Adams*, who was then awaiting trial by court-martial, and that he forwarded the communication containing such request directly to the commanding officer of the North Atlantic Station, instead of forwarding the same through the regular official channels, as required by the Navy Regulations. These facts were substantially admitted by Ensign Ormsby in pleading guilty to the first specification. The evidence further shows that Ensign Ormsby, after being suspended from duty to await further action in the premises, made an unfounded report against the commanding officer of the *Adams*, charging that officer with oppression and maltreatment in having publicly reprimanded him.

The charge, "conduct to the prejudice of good order and discipline," having been fully sustained, it is proper to add that Ensign Ormsby, in the conduct referred to, was guilty of insubordination, disrespect to his superior officers, and a wilful disregard of the regulations. These are offences which, under any circumstances, are of a grave character; they are especially so in the case of Ensign Ormby, who, after consultation with his commanding officer, adopted a course which he knew to be improper, and thereby brought upon himself the deserved punishment imposed upon him by the sentence of the court.

The sentence in the case of Ensign Geo. F. Ormsby, U. S. Navy, takes effect from May 27, 1886, the date of its approval.

D. B. HARMONY, Acting Secretary of the Navy.

PAY CORPS, U. S. NAVY.

CHANGES SINCE JANUARY 1, 1876.

Retirements (19).—Pay Directors: C. C. Jackson, Aug. 27, '76; John O. Bradford, Feb. 22, 1877; John S. Gulick, May 14, 1879; Jos. C. Eldredge, Mar. 8, 1880; Robt. H. Clark, Dec. 5, 1880; Geo. F. Cutter, Aug. 30, 1881; Caleb J. Emery, May 28, 1882; Edw. C. Doran, Dec. 25, 1882; John S. Cunningham, Dec. 23, 1883; Jas. H. Watmough, July 30, 1884; Alex. W. Russell, Feb. 4, 1886; A. H. Gilman, Aug. 9, 1886. Pay Inspectors: Jas. N. Carpenter, Mar. 7, 1879; Geo. L. Davis, Jan. 17, 1881; Francis H. Swan, 1886. Paymasters: Milton B. Cushing, April 1, 1882; Danforth P. Wright, Dec. 12, 1885; Rufus S. McConnell, Jan. 27, 1886. Asst. Paymaster: N. H. Stavey, Sept. 1, 1876.

Resignations (6).—Asst. Paymasters: Cameron Burnside, Feb. 21, 1878; John Breese, June 14, 1878. Passed Asst. Paymasters: Robt. P. Paulding, Dec. 3, 1879; John C. Burnet, Aug. 31, 1881; Geo. M. Allen, Nov. 1, 1884. Appointment not confirmed: S. K. Radford, Asst. Paymaster, Jan. 28, 1879.

Dismissals (3).—Pay Inspector Rufus C. Spalding, Aug. 18, 1876; Paymaster Geo. R. Martin, Aug. 18, 1877; Passed Asst. Paymaster Frank Plunkett, Oct. 14, 1881. Deceased (33)—Retired List, 15; Active List, 18.

Appointments (32).—Asst. Paymasters: Henry R. Smith, June 1, 1876; Thos. D. Hoxsey, Jr., Sept. 1, 1876; Hiram E. Drury, Sept. 8, 1876; Chas. W. Littlefield, Sept. 8, 1876; Arthur Peterson, Feb. 23, 1877; Callender L. Lewis, June 23, 1877; A. K. Michler, Oct. 31, 1877; Wm. W. Galt, Jan. 25, 1878; John R. Martin, June 14, 1878; Chas. M. Ray, Mar. 3, 1879; M. C. McDonald, Mar. 3, 1879; Geo. M. Allen, Mar. 3, 1879; John Corwine, Mar. 3, 1879; Eustace B. Rogers, Mar. 3, 1879; Jacob D. Doyle, June 16, 1880; Leeds C. Kerr, June 16, 1880; R. T. M. Ball, June 16, 1880; H. R. Sullivan, June 16, 1880; Thos. J. Cowie, June 16, 1880; Chas. S. Williams, June 16, 1880; Jas. H. Chapman, Mar. 22, 1881; John S. Carpenter, Oct. 29, 1881; Livingston Hunt, Oct. 29, 1881; John A. Mudd, Oct. 29, 1881; Willis B. Wilcox, Oct. 29, 1881; Madison R. Calvert, Oct. 29, 1881; Edw. R. Webster, Oct. 29, 1881; Geo. W. Simpson, April 1, 1882; S. L. Heap, April 1, 1882; John Q. Lovell, July 26, 1882; Jas. A. Phillips, Oct. 21, 1882.

GATLING GUNS FOR CANADA.

GEN. MIDDLETON, commander of the militia of the Dominion, in his annual report recommends that the Gatling guns now held by A and B Batteries be transferred to two of the infantry schools, and that additional Gatling guns be purchased to supply one to each infantry school. He believes, after a thorough study of the American weapon, that it could be made serviceable in the hands of the militia.

(From the New York Tribune.)

AT THE WARD-ROOM TABLE.

FLOTSAM AND JETSAM OF NAVAL LIFE.

THE receiving-ship was aglow with lights, for night had come and the work of the day was over. From the spar deck came the sound of an accordion and the voices of men, talking or singing.

These sounds floated down through the open hatches and died away when they met the thick curtains that screened the ward-room country from the ward-room proper, where the officers in undress uniform sat around the table indulging in their usual after-dinner chat. They were talking of naval battles and one said:

"The splendors of Mobile Bay do not wane, even in that fierce light which streams from Salamis and Trafalgar."

"Which reminds me," said another, "of how Admiral Jouett, then captain of the *Metacomet*, took his ship into that storm of shot and shell, lashed alongside Farragut's flagship, the *Hartford*. Seeing a rebel ram trying to escape, 'Fighting Jim,' as the sailors loved to call him, cut loose from the *Hartford* and dashed after her.

"The ram ran in over a shoal spot in the bay. The *Metacomet*, which drew more water than the ram, put after her at full speed, with a man in the chains calling out the soundings. Soon he called out exactly the water which the *Metacomet* drew. At this Jouett turned to his executive and said: 'Call that man in out of the chains, Mr. Sperry. He makes me nervous.'

"The *Metacomet* rushed on over the shoals, dragging the bottom but getting over safely, captured the ram and brought her back under the guns of the *Hartford*."

THE QUESTION OF WIVES.

"The question of wives," said a young officer, "and their being with their husbands, when their husbands happen to be Naval officers is one that never troubled me personally, for I have not the honor to possess such a relative. But I knew of a very sad case of a classmate of mine. When the order forbidding wives of officers to follow their husbands was first issued, my friend had just married a lovely young lady to whom he was devotedly attached, as she to him.

"Before this order, when an officer was attached to a foreign station as you know, wives of officers would live at some city where their husbands could occasionally get a few days' leave and see them. When this order prohibiting this came out, the officer whom I have mentioned was ordered to a foreign station. His wife wrote a letter to the Secretary of the Navy, saying that she would follow her husband and closing with the solemn words: 'Whom God hath joined together, let no man put asunder.'

"She kept her word and followed her husband. As soon as she got to one place he would be ordered to another, and finally, worn out with the hardships of travel in South America and the hopelessness of her position, she came back to the States to die. A lovely and beautiful woman was killed; a man's heart was broken; but the majesty of an order from the Secretary was vindicated."

A HERO NOT KNOWN TO FAME.

"That order is still in force," said another lieutenant, "and, of course, we cannot criticise it. But how much goes on in the Navy of which the outside world knows nothing. Take the example of poor Judd. When Prestan became ugly at Colon last year and seized the steamship *Colon*, Captain Kane, then of the *Galena*, sent Judd ashore to demand an explanation. Prestan promptly seized Judd, the American Consul, Wright, and M. Connos, the local agent of the Pacific Mail Steamship Company, and placed them in the 'calaboose.'

"Then he sent word to Captain Kane that at the first gun the *Galena* fired or the first marine or sailor she landed, he would execute the prisoners. They were kept in the 'calaboose' all night, expecting to be shot in the morning. In the morning Prestan came to them and told Judd that if he would sign an agreement that the arms on board the *Colon* would be delivered up he would let them all go.

"Judd did so and Prestan released his prisoners. Judd returned on board the *Galena* and told what he had done. But meanwhile Captain Kane had driven the Dagos off the *Colon* and towed her out into the stream. When Captain Kane learned what Judd had done he said the arms should not be delivered to Prestan. Now Judd had purchased his life by signing the agreement that they would be, so he immediately returned ashore and told Prestan that he could not keep his compact.

"Prestan promptly put him in the 'calaboose' again, and the next morning took him out to Monkey Hill to be shot. Before Judd's grave was dug, however, Col. Ulloa came dashing up with the Government troops, and in the fight Judd escaped and went on board the *Galena*.

"It was then that Capt. Kane landed his men, and Judd went with them, eager for reveuge. That day the horrible massacre and the burning of Colon took place, and all day Judd fought bravely. But for two nights and three days his mind had been under the most terrible strain and his reason gave way.

"He is now as you all know a hopeless maniac, but I think his voluntarily putting himself in the power of Prestan, when he found he could not keep the promise to him by which he had purchased his life, is one of the most chivalric things of the century. When he went back he went to almost certain death, and he knew it. But he went calmly and deliberately, rather than break his word. Now how many people who read of the burning of Colon knew of this story of Judd?"

A SONG OF THE OLD NAVY.

"Ah, well," said the dreamy lieutenant, "let us have no more sad stories. Our part is to do our duty as officers and gentlemen, and as to the fame of what we do, why this is a matter of kismet. Now I will confide to you all a secret, as soon as I light my cigar. There, that is a cigar that I like—a genuine Manilla.

"Sadly smoking my Manilla,
Visions come and go,
Of that lady in a villa,
Who once loved me so."

"Is that the secret," interrupted the Paymaster, "If so we don't want any more of it."

"No," replied the dreamy lieutenant. "The secret is that I have in my stateroom a bottle of very fine Curacoa, which I bought on the island of the same name, and if you will all be real good I will let you have a little. Then, if the doctor will favor us, we will have a song."

After sampling the lieutenant's Curacoa, the doctor seated himself at the piano and while he played the accompaniment the officers sang that quaint and stirring old Naval ballad:

"There were two ships from Old England came—
Blow high, blow low—and so sailed we
Cruising down along the coast
Of the High Barbaree."

(Correspondence of the Army and Navy Journal.)

SOME WASHINGTON GOSSIP.

THE fact that the War Department has not enthused much over General Miles's work in the late Apache Campaign is due, in a great measure, to his action toward the Department since the surrender. For days after the surrender the Department was unable to get particulars from him regarding terms of surrender, telegram after telegram being sent and no replies received. It was not until the President returned to Washington and sent a peremptory demand for an account of the matter, that Gen. Miles consented to let the Department know what had been done. He seemed to have ignored all requests from the Acting Secretary of War and taken his own time about making a report on the campaign, which he did, in his annual report. It was during this suspense that the Department was in, that he made application for leave of absence. No mention was made, in his request, of a sick child and the President himself refused to grant the leave. This he did because he wanted to have the prisoners disposed of before Miles absented himself. I don't believe the President or any of the officials at the War Department are displeased with General Miles for the manner in which he closed the campaign, but the best judgment is that the independent spirit shown by him since the surrender has tended to deprive him of the glory which he would otherwise have received from this end of the line. It is believed, too, that the Adjt.-General is not particularly friendly toward him and that he has not troubled himself to present Gen. Miles's case in the best possible light.

It appears that at least one civilian is to be given a chance for a commission in the Army during the current year. The candidate is Harry D. Humphrey, of Idaho. A Board for his examination has been ordered to convene at Boise Barracks, Idaho Territory, Nov. 23. It consists of Capt. Wm. H. Powell, 4th Inf.; Capt. Alfred C. Girard, Asst. Surg.; 1st Lieut. Thomas J. Lewis, 2d Cav., and 2d Lieuts. Frank B. Andrus, 4th Inf., and Robt. E. L. Michie, 2d Cav. Very little is known of the candidate by the officials of the War Department beyond the fact that he was appointed a cadet-at-large to the Military Academy in 1881 by the late President Garfield, and that he was discharged in the following year, having failed to pass the second year examination. The particular reason for his designation as a candidate is also uncertain. A Miss Jennings, of Monroe, Mich., who is understood to be a personal friend of the President and Mrs. Cleveland, has interested herself in his behalf, and it is probable that the exception made in his case was through this influence. All other candidates have been informed that no appointments would be made, as it was the purpose to reserve the existing vacancies for the graduates of 1887. In fact, the general understanding has been that no appointments of civilians could legally be made, the law on the subject having hitherto been construed as allowing the appointment of civilians only in cases where vacancies existed on the 1st day of July of each year after the graduates and meritorious non-commissioned officers have been assigned. This year, as is well known, there were not even vacancies enough for the graduates on July 1, several being assigned as additionals until vacancies occurred for them; so that if the law is literally carried out there would not be a chance for the civilian for some time to come. The vacancies to which the seven non-commissioned officers were recently assigned occurred since July 1, and some consider that the President violated the law in appointing them. The West Point graduates of next year will be the chief sufferers by the appointments which have been made since July last, as the promotion of some of them will be necessarily retarded, and it is likely that they will be heard from when the Senate Military Committee comes to act upon the nominations of those referred to.

The following are the laws under which appointments of 2d lieutenants are made:

Act June 11, 1878.—That appointments of civilians, except such as are regular graduates of the United States Military Academy who have been honorably discharged from the service, to be 2d lieutenants in any of the regiments of the Army, shall be made in time of peace *only when more vacancies exist in the Army than will be required in the assignment* of the *next graduating class of cadets at the United States Military Academy: Provided*, Nothing herein shall prevent the appointment for a commission in the Army of meritorious non-commissioned officers or private soldiers.

Act June 18, 1878.—Sec. 3. That hereafter all vacancies in the grade of 2d lieutenant shall be filled by appointment from the graduates of the Military Academy so long as any such remain in service unassigned; and any vacancies thereafter remaining shall be filled by promotion of meritorious non-commissioned officers of the Army, recommended under the provisions of the next section of this act: *Provided, That all vacancies remaining*, after exhausting the two classes named, may be filled by appointment of persons in civil life.

Sec. 1325. No cadet who is reported as deficient, in either conduct or studies, and recommended to be discharged from the Academy, shall, unless upon recommendation of the Academic Board, be returned or reappointed or appointed to any place in the Army before his class shall have left the Academy and received their commissions.

BREAD ENOUGH AND TO SPARE.

To the Editor of the Army and Navy Journal:

THE abolition of corporal punishment, the passage of the Wilson and kindred acts, the creating of a comfortable bunk for the enlisted man, all were reforms due in a great measure to the persistent efforts of the press, aided by such intelligent suggestions as could be found in truthful narratives emanating from the enlisted men most affected. If this latter element should take part in the agitation of the present moot point, rations and company funds, the evil therewith connected, should any be found to exist, may attract notice and receive correcting. But if the guard-house lawyer, whose earmarks are unmistakably stamped upon the article fathered by the Kansas City *Times* no less than upon the one credited to "A private of 28 years," are going to be given full swing, the result will be that the civilian, who is to do the legislating, will find on investigation that he has been grossly maligned and will incontinently drop the whole matter. The fellow who contributes that diatribe to the cowboy's journal, after telling us in one breath that the company fund system is "nothing more than downright robbery," and in the next—O, rare paradox!—that "the soldier receives his benefit" therefrom, expends the remainder of his wrath upon the outrageous method of maintaining military bands out of the savings of flour. The fact is that not only do we have a band, but there is likewise maintained a post library, where the enlisted man may find material with which to qualify himself for his present duties, for promotion or for some other calling should he desire to abandon the Service. We have both at the post whence this emanates, and if a vote were taken to-morrow upon the issue "another ounce of bread" or "no band and library," 99-100ths would favor the continuance of the two things, without which garrison life would, indeed, be monotonous and desertion likely to increase. The soldier at this post does not cry, like little Oliver, for more. Minus the amount given the post or regimental fund there still remains bread enough and to spare.

Briefly analyzed, the eruption of the "Private of 28 years" is found to consist of six parts misrepresentation, two parts scurrillous innuendo, reflecting upon the superiors whom he seems fond of swearing to respect and obey, one part is devoted to his revealing his ignorance of Naval matters, and the remaining tenth to showing that he is utterly devoid of the *esprit du corps*, which should actuate every soldier in the discussion of service topics. If he has really been a private for 28 years it must have been due to his propensity for criticizing the customs of the Service. He justifies his rushing into print and so do those of his ilk whom I have heard comment upon his brilliant production, by the plea that it is a fitting retort to the statement made at the Governor's Island Military Institute, "that seven-eighths of the enlisted men are better fed in the Army than they ever were before," and in his blind fury he holds up the American soldier as a thing to be derided, instead of standing up in a manly way, telling the truth, and omitting all his personalities, in a calm, straightforward manner, stating any real grievance. I say it is time to cry halt to this class of writers and to seek information from only trustworthy sources.

URSA MAJOR.

WHY THE THREE VOLLEYS?

To the Editor of the Army and Navy Journal:

IN continuation of your quotation from the Philadelphia *Ledger*, on your page 292, I would say that my source of information has passed from my memory, but I have seen the origin of the three volleys over the grave referred to symbolizing the ascription:

"We lay thee in the grave waiting for the resurrection, *In the name of the Father* (volley), *and of the Son* (volley), *and of the Holy Ghost* (volley). AMEN."

This strikes me, considering the close alliance between war and religion at the time of the introduction of the use of gunpowder, as the most reasonable origin of the practice.

The same is probably the symbolism of the three *cheers* of the music at the hoisting and lowering of the flag for the day; the gun here is an addendum.

RONREVOG.

Another correspondent writes:

Would like to know origin of No. 3 for volleys at the grave. The number of cheers for salutation of a multitude is the same. The earth to earth, dust to dust, ashes to ashes is preceded by a pagan custom referred to by Horace, who ends one of his elegies with asking the visitor at the grave to piously let fall a threefold gift of sacrificial sand. Right oblique, left oblique, front, covers the ground. One volley covers nine, three is embracing but one is not.

ANSWERS TO CORRESPONDENTS.

Montana.—P. Q. M. Sergeant Chas. Reich is at Fort Brown, Texas, and Thomas Griffin at Benicia Arsenal, California.

J. W. P.—The act approved May 15, 1872, establishing a system of deposits provides that the money deposited "shall not be subject to forfeiture by sentence of Court-martial, *but shall be forfeited by desertion*."

Old Subscriber asks: 1. Can an officer, not entitled to forage, purchase hay or grain of the Q. M. D. if he does not keep either horse or mule? ANS.—No. See second decision in Circular 10, A. G. O., Nov. 10, 1884.

2. Can an officer *not* entitled to forage, purchase hay, etc., if he keeps a horse or mule? ANS.—For one he may. See par. 1,894, Reg., as amended in G. O. 9, A. G. O., 1882.

3, Can an officer, entitled to forage, purchase any of Q. M. D. in excess of allowance? ANS.—Yes. See par. 3, G. O. 69, A. G. O., Sept. 4, 1878.

H. N. S. asks: Drilling the manual by the numbers, order arms and in place rest are executed; on resuming attention to continue the manual by the numbers, is it necessary to give the command by the numbers? ANS.—In a recent decision the Lieutenant General says: "The interposition of the side step or other company movements between two manual exercises would require the command 'by the numbers' to cause the second exercise in the manual to be executed in detail." According to this principle your case would require the command "by the numbers" after resuming attention.

Ignorance.—A soldier does not forfeit his citizenship by enlisting. He is still entitled to vote where he has a "residence." If he came from New York, for instance, he may vote in New York, if he can get home on Election Day. If he came from New York City his living on Governor's Island would not deprive him of his right to vote in New York City. If he came from Louisiana he does not acquire a residence in New York with right to vote by serving on Governor's Island. A man does not forfeit his "residence" by enlisting. If a minor his residence remains that of his father or guardian. Your question is scarcely full enough for us to understand the particular point you are in doubt about.

REVENUE MARINE.

The U. S. revenue cutter *Manhattan*, reported by some of the sightseers along the coast to have been lost with all hands, is safe. She arrived at Greenport, L. I., on Sunday afternoon and left the next afternoon for New York. She sustained some slight damage by the storm, but was repaired before leaving Greenport. The captain and crew are all safe and well.

THE STATE TROOPS.

THE THIRTEENTH NEW YORK.

ANOTHER exciting feature added to the troubles in the 13th Regiment is the arrest by the order of the colonel on Friday, Nov. 5, last, of Maj. J. F. Ackerman. It is the intention to prefer charges against him, but they have so far not been drawn up, and their exact nature is therefore not known. It has been reported for a long time that the major did not serve his commander with the loyalty required by military law and custom, that he openly took the side of the mutiniers, associated with them and assisted in obtaining them counsel, etc.; and it is further alleged that he declared his reason for remaining in the regiment, to be either to "down the colonel or drag down the regiment," and wrote unsoldierly letters to his commander. By some it is alleged that he has all along been the main spring of the mutiny. Not being personally acquainted with the facts we only give what is talked about the matter in military circles, and make no comments. The trial, if it should come off, will bring out the facts.

The court in the case of Lieut. W. K. Smith, which held its first session on Friday, Nov. 7, absorbs a large portion of the military interest in Brooklyn. The second session was on Tuesday, Nov. 9, and at its close the court adjourned until Friday, Nov. 12. After many vain attempts to secure the services of several military lawyers (members of the National Guard), who declined to have anything to do with the case, Lawyer Wernberg, of Brooklyn, was engaged by the accused as counsel. Of course no device will be neglected to get a verdict in Smith's favor, and the trial promises to be a tedious one. The court, however, seems to understand itself, as its rulings against the objection by the accused's counsel to Capt. Rasquin as a member of the court, and other objections during the trial show. The proceedings so far demonstrate curious methods of intercourse between some of the officers of the 13th. Par. 786 of the Tactics seems to have been observed among them by an indiscriminate application of the term "sucker," and the well-known phrase unjustly ascribed to a departed millionaire with regard to the general public, while invitations to come and be thrown into the "well hole," or to "have your nose smashed," were issued with the most generous freedom.

The charges on which the lieutenant is being tried are in substance, that he had said on one occasion, "D——n the colonel. I don't know that I have to obey any order issued by him." Another specification was that he had encouraged insubordination by asking an enlisted man if he should obey the colonel's order. Another charged him with saying to a superior officer, "Get out, you —— sucker! You are one of the suckers that bullied for Fackner." The fourth specification charged him with exciting and sustaining insubordination by signing a paper asking Capt. Kretschmar, of Co. H, to resign. Charge second, alleged conduct prejudicial to good order, in that the prisoner did refuse to obey an order of Col. Fackner to cease inciting the enlisted men to insubordination, saying that he would continue to do so until Capt. Kretschmar skipped. A supplementary charge alleged that he broke his arrest.

The first and only witness on Nov. 5, Commissary Sergeant Heywood Smith, in spite of a severe cross-examination, substantiated the first charge. At the second session of the court Lieut. Henry C. Clark, acting adjutant at the time, testified that Smith said to him: "I want nothing to do with you or any of the gang that voted for Fackner. There goes one of the suckers that voted for Fackner." He admitted that he had threatened to throw Smith over the rail into the wellhole. Another witness testified to the first quoted sentence, while another denied that the words "the Colonel be damned" were used. The remaining testimony was with regard to the resignation of Capt. Kretschmar, which was demanded in a resolution by some members of the company, in which matter Lieut. Smith is said to have been the leader.

Corporal A. A. Hutchinson testified: "I was not present at a company meeting when a paper was read by Capt. Kretschmar, saying that he was ready to resign whenever it was demanded; there was a request read asking Capt. Kretschmar to resign; I do not remember that the captain put the motion; things were thoroughly mixed up; a resolution was passed that no member in uniform should go into a saloon; I do not know that Capt. Kretschmar and Lieut. Smith had any words about the resolution, or that the captain said that it was a damned nonsensical one; I saw such a paper in the hands of a man who sat next to Lieut. Smith; it had 49 names; Lieut. Smith said that he had proof that Kretschmar had said that he would withdraw; he asked myself and another to sign; he induced one to sign; I did not hear any remarks made by Lieut. Smith detrimental to Col. Fackner after the latter's election; have seen Lieut. Smith in a saloon with his uniform trousers on; there were members of the company there; I was there myself and so were others; that was at the usual time—after drill; I have seen him there more than once."

Capt. C. H. Kretschmar said: "I know about a petition in circulation asking for my resignation; I never saw it in Lieut. Smith's hand; I never heard him try to get signatures for it; I attended the meeting at which the request was made; I presided; Lieut. Smith voted for it by a standing vote; Lieut. Smith made no remarks; I was about to talk to the men on discipline when Mr. Smith ruled me out of order and excited the men so that I could not do so; his conduct that night was not gentlemanly in speaking in the manner he did to me and ordering me to take my seat; he caused so much disorder that I could not make myself heard; I was present on the 10th of September; Col. Fackner called Lieut. Smith's attention to the fact that he was under arrest and asked him to go to his quarters; he did not do so and the Colonel ordered him to go; Lieut. Smith did not do so but remained until the meeting was over; I did not tell any one that Lieut. Smith had to 'smell hell;' I did tender my resignation to Col. Barnes about the middle of last winter; it was on account of my business and health; Lieut. Smith was the first to incite disorder at the meeting; I never said that Lieut. Smith had a 'swelled head.'"

The last witness, Charles Codet, of Co. H, after having given his version of the affair between Lieuts. Clark and Smith, which somewhat contradicts the previous witnesses, said that Capt. Kretschmar had called certain members of the company "suckers," had taken the company in a body into a bar-room, made fun some time ago of Lieut. Benedict while the latter was drilling the company, and said that he "would vote as he pleased. The company be damned."

This sort of testimony speaks for itself, but there is little doubt that the statement of the Brooklyn *Eagle* after the first session of the court that the case looks bad for Lieut. Smith has a great deal of truth in it.

DISTINCTIVE UNIFORMS.

THE New York State uniform is not popular for dress occasions. This is natural, because it is too plain and has to be used on all kinds of service, dress parade as well as police, fatigue and guard duty. It therefore wears rapidly in service and soon loses whatever dressy appearance it may possess, while on guard and at work it is uncomfortable. The 23d, one of the first organizations which adopted it, has now discarded it for dress occasions and gone back to the gray; the 69th is expected to soon follow suit, and nearly every other organization has made additions and alterations by way of ornaments, etc. Yet the uniform is a soldierly one and looks well in its original condition, as was shown at the recent inspection of the 23d and the 12th at the Bartholdi parade. While at present it does not seem good policy to raise any obstacles to regiments providing their own dress uniforms, the State should not abandon its uniform for active duty, but something should be provided at once serviceable and comfortable. In this connection we renew our recommendation for a neat blouse, a substantial overcoat with large cape, and trousers of solid material, all of blue color. While the change could probably not be made at once for lack of funds, the further manufacture of the present tunic should be stopped at once and the blouse introduced gradually.

WHAT IS THE STATE GOING TO DO?

IT is now conceded that charges have been preferred by somebody against Col. Edward Fackner, of the 13th. The nature of the charges and the probable action on them by the proper authorities cannot be conjectured. It is, however, a fact of more than usual significance, and one which requires prompt attention, that a regiment, at this dangerous time, is allowed to exist with its colonel under charges, the only field officer and two company officers under arrest, and a large number of the company officers and enlisted men in an open state of insubordination. What could be expected of this organization if called on for duty? Do not the authorities realize that something beyond and more prompt than the slow process of a court-martial is necessary to put things in their proper shape?

IS THIS PROPER?

A CORRESPONDENT writes us:

The business of a lawyer is to defy the law and get off his client at every hazard. That is right. A soldier, however, has sworn to uphold the laws of the United States, and, if a National Guardsman, the laws of his State as well. I think, therefore, that the presence of two lieutenants of the 13th acting as assistants to the counsel for the accused now before the Court-martial in session there, is a violation of the law as well as a disgrace to the Military Service and those employed in the practice referred to. Should not this be stopped? I hope the ARMY AND NAVY JOURNAL will raise its voice against this thing.

There is no law against, and custom sanctions the practice of an officer acting as counsel for an accused before a Court-martial, and they may belong to the same regiment or even to the same company. The Court is the judge whether to accept such counsel or not. In this case, however, if not a violation of law, of which we are doubtful, it is certainly an exhibition of bad taste.

(From an article in the Chicago Current.)

THE ARMY AND THE MILITIA.

NEXT to substantial recognition by Congress in the shape of larger appropriations, and the general instruction of the people in military science, the ready sympathy and earnest co-working of the Regular Service will be the most important element in the higher education of the militia. The militia generally are composed of men who give their time and brains and money gratuitously to their States for their protection and the enforcement of their laws. They, more than others, are identified with, and have a deeper interest in, the localities from which their regiments are made up. There are numbers of officers of the Army who have not too much employment as it is, or who have only the same daily routine over and over again, in which they are so tied down that they can make no improvement. What a field is opened for them, and for the mutual good of the Army and militia, if they were detailed as instructors to various military districts.

Again, a large militia-appropriation means more numerous and efficient militia and a broader field in which to operate. With the body of men which, under such conditions, could be selected for the militia, we would really have the finest military service in the world. The same ideas and methods that animate the Regular Army would animate the militia, and in time of both peace and war, they would work side by side under the same system, and for the attainment of a common end. In some States there are numbers of officers of militia, who would gladly, if they had the opportunity, spend a great deal of their money and time to perfect themselves by association with Regulars in the military work, and this can be done in this way. Our Army posts are becoming more concentrated each year; a great many officers are absent from their companies and regiments by reason of special details, sickness, leave of absence or other good and sufficient reasons. Let the Adjutants General of the various departments notify, in turn, the Adjutants General of the States in their departments, of the number and rank of those officers absent, together with probable length of absence. At Fort M——, for instance, there are six or eight companies. The full complement of officers at the post, exclusive of staff officers, is from twenty to thirty-eight, according to whether the garrison is Infantry or Artillery, but two or three captains, more lieutenants and perhaps a field officer are absent—say ten vacancies.

The States have these vacancies apportioned so that Wisconsin gets three, Illinois four, Indiana three, Minnesota two. The State Adjutants General notify certain officers of their militia who have before made application, and express the desire to go, and they proceed as early as possible, at the expense of their respective States, to Fort M——; there they can be provided with quarters and fuel by the Government, and if paid at all, it would be paid by their own States. They remain at Fort M—— for three months, six months, or a year, and learn practically all the duties of their positions. They learn military methods and customs and regulations, military etiquette, and the unwritten laws that more than anything else make a salutary discipline, and give *esprit* and tone to officers. They cannot perhaps be Judge Advocates of Court-martial, but they can witness the conduct of trials and be required to write up all the proceedings except the findings and the sentence. They will take their turn in all routine duty of the post, and their detail is a mutual advantage to the Regular and militia officers. The former has his work at the post lightened, perhaps, so that a greater number of details may be made for militia instruction, while the latter learns by experience and in a thorough way the duties of his rank, and goes back to his State better qualified for his work. When he leaves the fort, the vacancy is filled by another officer, until the Regular officer returns. There would be but little expense to the Government, as the States would provide for their own officers.

Another matter: the experiment tried last summer at Fort Wadsworth, New York harbor, should be repeated each year and at every garrison post on the seacoast. At Wadsworth only a limited amount of knowledge was obtained by the militia in working seacoast guns. This was due to its being the first time the experiment was ever tried, and of therefore crowding too much in the six days' encampment, so that much that was even learned was imperfectly so, and was forgotten soon after. A better plan would be as follows:

Each year the regiments to go through the instruction should be designated at such a time before as to enable the officers of such regiments to post themselves in their duties. This could be done by the officers making up squads of eight or ten, and going over to Forts Wadsworth, or Warren, or Adams, or McHenry, or wherever the fort and militia may be, on Saturdays, after business hours, and remaining there till the following Mondays. The officers of the fort could give them the benefit of their knowledge and experience, drill them at the guns, etc., and a few such trials, together with proper study of tactics and text-books, the officers of the militia would become qualified to teach their own men all they themselves have just learned. When the regiment itself went to the fort for instruction, instead of six or seven instructors at as many different kinds of drill, there are twenty-five or thirty qualified teachers, and the work proceeds with much more rapidity, to much greater advantage, and more surety of its retention.

Again, it would be well for the militia in all their encampments to have the presence of Regular troops. Indeed, when the number of Army posts is reduced, the garrisons being concentrated and much larger, it would be advantageous to hold all encampments at these Army posts in their respective States. The companies and battalions from these schools and academies near by should also have provision made for encamping there at the same time, and it does seem that a nation that is bound to do all its own fighting should take every precaution that its officers are *all* well qualified in their profession.

By such means are the bonds between the Army and militia strengthened and a relation established by law and custom that each year adds to the efficiency and confidence of each.

Of course, there are some who will quibble at any recognition of the militia, on the ground that, by the Constitution, they cannot be used in foreign warfare. But there is no fear that, in any war, foreign or civil, our militia would fail to do their entire duty as American soldiers, acting under and for one Government. Entire regiments would volunteer their services at the first sound of the National tocsin. Whatever their history in 1776, 1812, and 1847, in 1861 they volunteered and did good work, and in New York in 1877, the militia prevented the riot outbreaks, although the lawless and mob element is greater in that State than in any other of the Union.

It would be well, also, to give their officers opportunities of learning something of the higher branches of the Art of War. And so the Artillery School at Fort Monroe, and the School of Application at Leavenworth, might with advantage be opened to a certain number of militia officers every year, who would gladly seize any such opportunities, often at their own expense. In fact *all* increased opportunities of learning the Art of War would be gladly sought and made good use of by the citizen-soldier, who as a citizen desires the greatest good for his country, and as a soldier is willing to pay his greatest tribute for it, if necessary.

R. W. HAMILTON, U. S. A.

ILLINOIS TROOPS UNDER ARMS.

GOVERNOR OGLESBY, of Illinois, has evidently learned something from experience, for he has taken prompt action in calling out the militia to preserve the public peace in Chicago, threatened by the troubles between the meat packers and their employees. The troops under arms are the 1st and 2d Infantry, Ill. N. G. Thus far they have not been called on for any action beyond the march to the scene of the troubles and their presence there. There can be no doubt, however, that this presence had its decided moral effect upon the strikers. The prompt action of the Governor in ordering out the soldiery, has brought forth the warmest commendation of the law abiding community far beyond the locality concerned. The readiness displayed by the troops in obeying their orders and the lack of bravado and boisterousness in their execution indicates that these men understand what discipline is. The crowd through which they had to pass in order to reach their temporary quarters was one of the most determined and reckless of its kind. Their defiance of the police and their treatment of the hapless victims who fell into their

hands amply vouch for this statement. Yet they interfered with the militia no further than by the usual jeers, which, though exasperating, are practically harmless. The fact that the soldiers reached their destination without being compelled to take any action whatever against the crowd, shows the wholesome dread inspired by breechloaders, ball cartridges, and Gatlings, if handled by cool and determined men. The necessity for the maintenance of an efficient force of National Guard troops has here again been practically demonstrated. What may be the ultimate result of the Chicago troubles we cannot tell at the writing of this article, nor is it intended to give a history of the work of the troops in this connection, but it is a gratifying fact that the Chicago people realize the value of their troops, which is hardly the case in some other localities where the danger is much greater, and the field of operation more extensive.

A despatch from Chicago says: Even the strikers, who have no animosity against the State, seemed pleased to think that the militiamen were to take the place of the hated Pinkerton guards. The two regiments left their respective armories, the 1st in Jackson street, next to the Leland Hotel, and the 2d in Washington boulevard on the west side, about 11 o'clock, an order having been issued an hour earlier directing that they proceed to the Lake Shore station and thence to the stock yards. The militiamen were liberally cheered as they marched through the streets, the Board of Trade men being particularly enthusiastic as the 1st marched by the big Board building. Ferguson's big warehouse was turned into a barracks, and into this the two regiments were directed. The men looked upon the whole affair as a good deal of a picnic. Those not employed in getting the barracks into shape for occupancy amused themselves as they saw fit. Several of them sat down to quiet little games of stud-horse poker; others calmly went to sleep.

On Tuesday afternoon a big crowd of strikers gathered on a viaduct at the northwestern corner of the stock yards, near the entrance to the Anglo-American Packing Company's house, and sought to interfere with new men going from the house. A company of militia cleared the viaduct four times, but the strikers returned and the situation grew threatening. The soldiers were ordered to load with ball cartridge for the first time since they were sent to the yards. The moment the strikers heard the order they scattered in every direction, and no further trouble was experienced. Several trainloads of non-union men were escorted through the yards by the militia.

"Them dude soldiers," as the stock yard toughs call the militia, were doing their duty well, in spite of the discomforts of rain and mud, with insufficient clothing and inadequate foot covering. It was difficult to find grumblers, and most of the men had no complaint beyond the fact that their foot gear is totally inadequate to the circumstances. Requests for leaves of absence are beginning to come in, but usually for good cause. One private, who is a foreman in a factory, showed a letter from his employer saying that his workmen, who are Knights of Labor, threatened to quit unless the foreman quit his post of duty But the foreman's wife pluckily bade him remain where he was, no matter at what cost, and he withdrew his request.

The waiter girls at the Transit House are in full sympathy with the strikers, as several of the brigade staff found out when they went in there for supper. The girls would hardly condescend to supply them with food, and napkins and dishes were tossed about them in the most resentful manner. At the same time a representative of the strikers and his friends were eating at another table, and there was a neat girl hanging over each man's chair to attend to his slightest wish. Forty-two cavalrymen were ordered to the yards to assist the militiamen in guarding adjacent streets. There is an impression that some of the country regiments will be ordered into the city to relieve the local regiments if the strike continues, as it is generally believed it will.

The spirit of lawlessness and riot may be temporarily subdued, the current of anarchy be stemmed, but this is by no means proof that it is crushed. On the contrary, past experience shows that as soon as an outbreak is subdued in one place it breaks out in another part of the country with increased violence. The ranks of the dissatisfied elements are constantly augmented, their demands become more aggressive, their outbreaks more frequent, and consequently the importance of increased vigilance must be plain to every observer. The eruptions in New York have so far been mild, people scarcely realize the danger and continue to neglect the troops in the old well known style. The appearance of the 1st Brigade at the last two parades, with the exception of the Gatlings of the 2d Battery and three regiments of Infantry, was hardly calculated to impress those inclined to strike as very formidable. Regiments only filled up to one-fifth of their proper strength are very apt to show a lack of spirit corresponding to their lack of numbers, and the crowd quickly appreciates this. To ascertain this it is only necessary to listen to the remarks on the sidewalk during a parade. Encouraging as this decay of the State troops may be to the lawless classes, it forms a matter of deep regret to those who understand the situation, especially as there seems to be no prospect of any immediate remedy. The undeniable fact is, however, that never was there any more necessity in New York for an effective body of soldiers, and never was the condition of a large portion of them more discouraging. The Chicago imbroglio should be sufficient to rouse the people here to a realization of their danger. The bulk of the National Guard is unprepared to meet it. Is this not the proper time to take vigorous steps to improve its condition, raise it numerically to a respectable status, remove the causes which slowly but surely have been sapping the life blood of what used to be the best organization, and put it in a condition to which its friends can point with pride instead of pity, and which will strike terror into the ranks of enemies?

NATIONAL GUARD ITEMS.

Gen. John B. Gordon was sworn in as Governor of Georgia, Nov. 9. There was a military display, in which twenty-one companies of militia participated.

Joseph Egolf has been elected captain of Tibbits Veteran Corps, N. Y., Ed. L. Cole 1st lieutenant, and Samuel P. Eccles 2d lieutenant. Non-commissioned officers will be elected on Thursday night, Nov. 18.

Adjt. Gen. S. R. Smith, of Connecticut orders the muster of the National Guard between Nov. 20 and 30, the commanding officers acting as mustering officers.

Attendance at company drills in the New York armories is satisfactory only in a few cases outside of the 7th Regiment, where the attendance exceeds any previous season.

The 23d Regiment has received a flattering recognition with regard to its inspection from Albany. This was well deserved.

With regard to the national drill, we learn that the progress of preparations for a national drill at Washington next May interests Baltimoreans, from the close connection of the two cities. Mr. T. C. De Leon, secretary of the Citizens' Committee, paid Baltimore a flying visit on drill business. He stated that the sum of $50,000 had already been subscribed by citizens of Washington, a Representative Committee had been formed, and that already over fifty companies from 22 different States had signified their intention of taking part. General Passenger Agent Lord, of the B. and O. Railroad, took counsel with the committee, and indorsed the idea of the drill as thoroughly practical, and promising great results in collection of troops from all quarters and consequent crowds. He pledged the B. and O. not to be behind any road in the arrangements for transporting soldiers and excursionists or in the rates at which they would be brought.

The New York troops should take increased interest in this matter.

Lieut. Benedict, one of the officers of the 13th, now under charges, has received permission to go to Europe until December next, and his trial will have to be postponed until that time.

Co. D, 47th Regt., is making preparations for a handsome entertainment at the armory on Thanksgiving Eve. Colonel E. F. Gaylor has issued stringent orders regulating drills.

The disturbances in Chicago have caused an increased demand for Brownell's Riot Tactics, which has almost exhausted the supply. As there will be no further edition those wishing to provide themselves should lose no time.

(Correspondence of the Army and Navy Journal.)

OHIO.

HORACE U. CLEMENS, Editor Wooster *Republican*, has been elected Captain of the Wooster City Guard, Co. D, 8th Regt., O. N. G., to succeed James A. Ogden resigned. Capt. Clemens is a gentleman of scholarly attainments. He is a well drilled man and has won his way from the ranks upward, having served as Corporal, Sergeant, 1st Sergeant, and was elected 2d Lieutenant last spring.

General Orders No. 16, dated Adjutant-General's Office, Oct. 20, adopts Blunt's "Instructions in Rifle Firing" as the authority for the O. N. G. in rifle practice. Targets A, B, and C; see secs. 385, 386, 347, 388, will be used, paper targets will be issued from the A. G.'s office. For this season the practice will consist of ten shots fired by each officer and enlisted man: five shots at 200 yards, and five shots at 300 yds. Proper blanks are issued for reports of scores:

CLASSIFICATION.

Fourth class, officers and men who do not appear on the range for practice; third class, all who have failed to make a score of 60 per cent. The practice in this class will be at 200 yards, standing, on target "A"; second class, those who score 60 per cent. and upward in the practice with the preceding class, and fail to make a score of 60 per cent. at 300 yards, kneeling or sitting; first class, those who score 60 per cent. and upward in both the preceding classes.

A score of 80 per cent. and upward in the second and first classes, constitutes a Marksman. A score of 90 per cent. and upward a Sharpshooter. Suitable recognition will be made in General Orders, of all officers and men qualifying as Marksmen and Sharpshooters.

The figure of merit of any organization will be ascertained by multiplying the number of Sharpshooters by 200; the number of Marksmen by 100; the number of first class men by 60; the number of second class men by 30; the number of third class men by 10; and the number of fourth class men by 0, and adding the products together and dividing the sum by the aggregate of the company.

The target practice for this season will close on or before Nov. 30. F. G. S.

CALIFORNIA.

IN the National Guard unabated interest continues relative to sounding candidates for legislative honors as to how they will act in case of election. A meeting of the National Guard Officers' Association was held at the 1st Infantry Armory last Wednesday evening, at which Col. John H. Dickinson presided. Colonel Dickinson gave it as his opinion that the bill in behalf of the National Guard which is to be presented to the next Legislature will pass with little opposition, inasmuch as so many favorable responses had been received from candidates. A committee was appointed consisting of Major Horace Platt, Capt. Charles Tilden, and Lieut. Ed. F. Moran to take such action as the committee deemed advisable in relation to the proposed National Guard bill before election day, and to send circulars to all Captains of the National Guard in which names of the legislative candidates favorable to the National Guard are given. The next regular meeting of the Association will be held Dec. 6, at which time it was suggested by Col. Dickinson that several papers on subjects regarding interests of the National Guard organization shall be prepared and read by a number of officers. At the same time it is proposed to give a concert by the regimental band.—*Alta California.*

Military Order of the Loyal Legion.

At a meeting of the Massachusetts Commandery held Nov. 3, the following were elected: W. B. Aiken, Capt. C. E. A. Bartlett, U. S. V.; Maj. G. S. Blodgett, formerly of the U. S. Army; W. S. Chaplin, C. F. Crosby, Lieut. W. G. Fitch, U. S. Army, retired; C. L. Griffin, Capt. D. W. Lewis, U. S. V.; Dr. J. H. Mackie, formerly U. S. N.; E. E. Moulton, Capt. J. W. Newton, U. S. V.; Lieut. G. E. Priest, U. S. V.; Edmund Rice, son of Bvt. Lieut.-Col. J. H. Rice, U. S. A., retired; Lieut.-Col. J. L. Rice, U. S. V.; Lieut. J. E. Shepard, U. S. V.; Lieut. H. A. Turner, U. S. N.; Col. G. E. Waring, Jr., U. S. V.; Lieut.-Col. A. Warner, U. S. V., and Col. J. C. Whiton, U. S. V.; Gen. A. P. Blunt, U. S. A., has been transferred from this Commandery to the Kansas Commandery.

A charter for a Commandery of Iowa with headquarters at Des Moines, has been issued, and it will be organized there Nov. 23. Maj. Hoyt Sherman, of Des Moines, is the Acting Recorder.

At a meeting of the California Commandery held Nov. 10, the following were balloted for: Capt. H. H. Bryce, U. S. V.; Capt. C. A. Sumner, U. S. V.; Lieut. G. H. Pettis, U. S. V.; Paymr. J. B. Redfield, U. S. N.; P. A. Engineer J. Pemberton, U. S. N.; F. A. Kinne, Gen. N. B. Sweitzer, U. S. Army; Lieut. A. V. Bohn, U. S. V., Lieut. M. Shaughnessy, U. S. V.; Lieut. G. Ady, U. S. V.; Capt. J. C. Currier, formerly 12th U. S. Inf.; Lieut. W. W. Gilpatrick, U. S. N.; Lieut. R. A. Lovell, 14th U. S. Inf.: Allen T. Bird and A. Harasztby.

(From the Washington Republican.)

THE RUSS KNOWS A HAWK FROM A HANDSAW

HOWEVER "crazy" the Czar may be he seems to be moving right on towards the goal of Russian ambition. Such "madness" is exceedingly methodical.

YANKEE SMITH OF CAMELOT.

MARK TWAIN EXPLORES A NEW LEGEND OF THE ROUND TABLE.

THURSDAY night's monthly meeting of the Military Service Institution on Governor's Island was made entertaining by Mark Twain, who read a paper, the announcement of which caused the thronging of the old museum hall. Gen. W. T Sherman and his brother, Senator Sherman, were present. Gen. James B. Fry presided.

Gen. Schofield presented, in an appropriate speech, Surg. A. A. Woodhull with the gold medal for the prize essay of 1885. Mr. Clemens said: "LADIES AND GENTLEMEN: This fragment which by your courtesy I am to read here to-night is a story—a satire if you please—which I began to write some time ago and which is not finished; so what I propose to do under the circumstances is to read the first chapter just as it is and then in brief synopsis or outline tell the rest of it in bulk, do as the dying cowboy advised his spiritual adviser to do, 'just leave out the details and heave in the bottom facts.' It would be impossible to tell much of the story in so short a time as we have and I will begin it just as it is written."

Mr. Clemens then went on to say, reading from the first chapter of his forthcoming book, that in exploring Warwick Castle in England he met a stranger who interested him greatly. They became very good friends and one day the stranger said, "You know about the transmigration of souls; do you know about the transposition of epochs and bodies?" Mr. Clemens had not heard of it, and subsequently this stranger sent him a manuscript. Beginning the reading of the supposed manuscript, the lecturer read:

"'I am an American.' Well, he did not look it, 'I was born in Hartford, in the State of Connecticut.'"

"I am a Yankee of the Yankees, a practical man, nearly barren of sentiment or poetry—in other words, my father was a blacksmith, my uncle was a horse doctor, and I was both. Then I went over to the great arms factory and learned my real trade—learned to make everything, guns, revolvers, cannon, boilers, engines, electric machines, anything, in short, that anybody wanted anywhere in the world. * * * I became head boss and had a thousand men under me. Well, a man like that is full of fight—that goes without saying. With a thousand rough men under one one has plenty of that sort of amusement.

"Well, at last I met my match; I got my dose. It was during a misunderstanding conducted with iron crowbars with a fellow we used to call Hercules. He laid me out with a crusher alongside the head that made everything crack and seemed to make every joint of my skull lap over on its neighbor, and then the world went out in darkness and I felt nothing more, knew nothing more for a while, and when I came to again I was standing under an oak tree and the factory was gone.

"Standing under an oak tree on the grass with a beautiful broad country, a landscape spread out before me—all to myself. No, not quite, not entirely to myself. There was a fellow on a horse looking down at me—a fellow fresh out of a picture book. He was in old-time armor from his head to his heel. He had a helmet on like a cheese box with slits in it, and he carried a shield and a sword and a prodigious spear. And his horse had armor on, too, and gorgeous silken trappings, red and green, that hung around him like a bedgown to the ground. And this apparition said to me:

"'Fair sir! Will you joust?'

"Said I, 'Will I which?'

"'Will you joust? Will you break a lance for land or lady?'

"Said I, 'What are you giving me? You go along back to your circus, or I'll report you.'

"Now what does this fellow do but fall back a couple of hundred yards and then come tilting at me, as hard as he could drive, his cheese box down close and his long spear pointed straight at me. I saw he meant business, and I was up the tree when he arrived. Well, he allowed I was his property; the captive of his spear. Well, there was argument on his side and the bulk of the advantage so I judged it best to humor him, and we fixed up an agreement. I was to go along with him, and he wasn't to hurt me. So I came down, and we started away, I walking by the side of his horse, and we marched comfortably along through glades and over brooks that I could not remember to have seen before. It puzzled me ever so much, and yet we didn't come to any circus, or any sign of a circus, so I gave up the idea of a circus, and concluded he was from an asylum. But we never came to an asylum, so I was up a stump, as you may say."

Describing a woman encountered on the way, the narrative said: "Around her head was a wreath of red poppies, but as regards the rest of her clothing—well, there was not enough of it to talk about. (Great laughter.) She walked along by the circus man and did not pay the slightest attention to him—did not even seem to see him; but when her eye fell on me she seemed to be turned into an image of stone, and there she stood gazing with a sort of stupefied attention till we turned a corner and were lost to view. That she should be startled at me instead of the other man was too many for me. That she should seem to consider me a spectacle, totally overlooking her own merits in that respect, I thought curious." (Laughter.)

And so the two wander on together, and amid scenes of human life that afford the author many opportunities for quaint philosophic contrasts and dry humor, until they come to Camelot, to the court of King Arthur. Fanciful and curious are the reflections of the transposed Yankee about that place—which he at first thinks must be the asylum—in its country of soft, reposeful summer landscape, as lovely as a dream and lonesome as Sunday; where the air was full of the smell of flowers and the buzzing of insects and the twittering of birds, and there were no people or wagons or life or anything going on.

Very vividly he portrays the scene at Camelot, where King Arthur, with his knights, sits at a round table as big as a circus ring, and 300 dogs fight for bones around them, while the musicians are in one gallery high aloft and the ladies in another. But before he gets in there he seeks information from a plain-looking man in the outer court, saying to him: "'Now, my friend, do me a kindness. Tell me, do you belong to the asylum or are you just here on a

visit or something like that?' And he looked me over stupidly and said: 'Marry! Fair sir—' 'Oh!' I said. 'That will do. I guess you are a patient.'" To another he said: "'Now, my friend, if I could see the head keeper only just a minute, only just a minute.' He said: 'Prithee, do not let me.' 'Let you what?' 'Do not hinder me, if the word please thee better,' and he was an under cook, and had no time to talk, though he would like to another time, for it would just comfort his very liver to know where I got my clothes."

Then another, a lad, came to him saying that he was a page. "Oh! go along," I said; "you ain't more than a paragraph." The page happened to mention that he was born in the beginning of the year 513.

"It made the cold chills creep over me. I stopped and said, a little faintly, 'Now, maybe I didn't hear you just right. Would you say that again, and say it slow. What year did you say it was?' '513.'

"'And, according to your notions, according to your lights and superstitions, what year is it now?' 'Why,' he said, 'the year 528, the 19th of June.' Well, I felt a mournful sinking of the heart, and muttered: 'I shall never see my friends again—never see my friends anymore: they won't be born for as much as a thousand years.'"

The speaker had often been interrupted by laughter, but at the originality and fun of that conceit his auditors laughed until they cried, and kept on laughing with renewed outbursts over and over again. How the cute Yankee determined to get at the bottom facts about the year by watching for a total eclipse of the sun that he remembered the almanac of 1884 had spoken of as having occurred in 528, will have to be learned from the book when it appears.

"I made up my mind to two things. It was still the nineteenth century and I was among lunatics and couldn't get away. I would boss that asylum or know the reason why, and if, on the other hand, it was really the sixth century, all right. I didn't want any better thing; I'd boss the whole country inside of three months, for I judged I'd have the start on the best educated man in the kingdom by 1,300 years. * * * But I'm not a man to waste time, so I said to the boy: 'Clarence, if your name should happen to be Clarence, what's the name of that duck, that galoot, who brought me here?'"

The galoot turned out to be Sir Kay, the Seneschal. In the natural course of the story came the charming description of the interior of King Arthur's castle, leading up to a royally funny account of the competitive lying of the gallant knights about their feats at arms. The transposed Smith looked upon the knights as a sort of "white Indians," admired their "bigness and their simplicity," and eventually concluded:

"There didn't seem to be brains enough in the entire nursery to bait a fishhook, but you didn't mind that after a little while, for you saw that brains were not needed in a society like that, and would have marred its symmetry and spoiled it."

Everybody goes to sleep when Merlin reels off that same old story about Excalibur. Guinevere makes eyes at Launcelot in a way that would have got him shot in Arkansas. King Arthur orders the Yankee to go to some unknown place not down in any map, capture a castle, kill the colossal saucer-eyed ogre who owned it, and release sixty royal princesses. Of course he went, but he reflected:

"Well, of all the d——d contracts, this is boss! I offered to sublet it to Sir Launcelet, to let him have it at ninety days, with no margin, but 'No,' he had got a better thing. He was going for a menagerie of one-eyed giants and a college of princesses."

It occurs to him finally, after wondering if a compromise with the ogre wouldn't work, simply to go back and tell the King, with artistic circumstantiality of detail, that he has killed the ogre. He does so, and, of course, the King and his knights, who are used to swallowing each other's huge lies, readily take in this, and a brilliant career opens before him as the boss liar of the court.

He took a contract from King Arthur to kill off, at one of the great tournaments, 15 kings and many acres of hostile armored knights. When, lance in rest they charged by squadrons upon him, he behind the protection of a barbed wire fence charged with electricity mowed them down with Gatling guns that he had made for the occasion. He found that the "education of the nineteenth century is plenty good enough capital to go into business in the sixth century with," and the next year he was running the kingdom all by himself on a moderate royalty of forty per cent.

He spoiled the ogre business; cleared out the fuss and flummery of romance and put King Arthur's kingdom on a strictly business basis. Inside of three and a half years the improvement was complete. Cast iron clothes had gone out of fashion. Sir Launcelot was running a kind of Louisiana lottery. The search for the Holy Grail had been given up for a hunt for the Northwest Passage. King Arthur's 140 illustrious Knights had turned themselves into a stock Board, and a seat at the Round Table was worth $30,000.

The description of how a man of the present time would be supposed to feel in a suit of armor was one of the most humorous things in Mr. Clemens's paper. One portion of it was as follows: "God has so made us that there comes a time when we must scratch, and the more we want to scratch the more we would give $10,000 if we could scratch, and if that deprivation goes on there comes a time when we would give a million. First I wanted to scratch my head, then my arms, then my legs," etc. He went on to describe how he had perspired inside the armor, and how on ascending the mountain he froze stiff inside of it, and was finally in a frozen state rubbed off the horse by the animal passing under a tree, and, the armor breaking, he was liberated.

(From the London Daily News.)

COUNT MOLTKE.

THE GREAT COMMANDER LOPS TWIGS, GRAFTS, RAISES STOCK, AND IS A FIRST-CLASS FARMER.

On the 26th instant (to-day), Field Marshal Count Moltke completes his eighty-sixth year, for he was born at Parchim, in Mecklenburg, in 1800. For many years past it has been his fixed custom to avoid all public celebrations by passing the day in complete retirement at his little estate of Kreisau, in Silesia. After attending the military manœuvres in Alsace last month in the Emperor's suite, he took his usual autumn stay at Ragaz, in Switzerland, and returned to Kreisau on Sept. 30. His only company there consists of his nephew, Capt. Von Moltke of the general staff, and the latter's wife, a Swedish lady, the aged Marshal being childless and a widower.

During his stay at Kreisau Count Moltke doffs his military uniform and devotes himself to agricultural pursuits. He rises regularly every morning shortly after 6 and, after drinking a coup of coffee, takes a walk through his park to the "Chapel Hill," where the remains of his wife and sister rest in the vault of a small chapel-like structure. Count Moltke has specially desired that his body shall also be buried there, and a large marble slab already marks the spot of his last resting place. The chapel is surrounded by arbor vitæ, which he has planted with his own hands, and of which he is very proud. Whenever he receives visitors at Kreisau he never fails to take them to this spot.

During his morning promenades he always carries his garden shears and a small grafting saw with him, and is continually busy sawing off dry branches or lopping protruding twigs.

The trees in his park include specimens from all parts of the world; including many rare ones. It must not be supposed, however, that the great strategist neglects his military work when taking his holiday at Kreisau. On the contrary, the time of his stay there is usually with him the most productive of the whole year. All important work is forwarded to him from the general staff at Berlin, and comes back with copious annotations and marginal remarks. Count Moltke also passes much time in studying the latest publications of the military literature of all nations. His working hours usually extend till past noon.

After luncheon he passes the afternoon by riding about on his estate and inspecting the laborers in the fields, for during his presence at Kreisau he always directs all work personally, which otherwise is under the superintendence of his other nephew. He also pays visits to his neighbors in the afternoon or receives their calls. Dinner is taken at 6, after which Count Moltke usually takes a carriage drive. The evenings he always passes at home with his nephews. The aged Marshal also gives much attention to stock raising. His stables contain a fine herd of cattle, all of pure Dutch breed, besides eighteen teams of horses. He frequently visits the school in the neighboring village, listens to the instruction given, and often puts questions to the children. Count Moltke usually returns to Berlin in November for the winter season. Besides his position at the head of the general staff, he is also a member of the German Reichstag, and one of its most regular attendants. His seat is in the front row of the Right, just below that of Prince Bismarck.

(From London Engineering.)

STEEL PROJECTILES.

We learn, but speak under reserve, that the current trials of steel projectiles at Shoeburyness, have so far, with one exception, shown that the armor-plates have done their duty better than the shell Out of the number tried (and the Whitworth shot alone remains to be fired in the first series), only the Holtzer projectile has shown that compound armor-plating has no chance against chrome steel. We have already referred to the splendid performance of this projectile, and may repeat with some additions the particulars of the round fired. The gun was a 12-in. breech-loader, and the charge 295 lb. prismatic powder; the projectile weighed 715 lb., and was 30.71 in., or 2.56 calibres long. The target was a 5 ft. by 5 ft. compound Brown plate, 16 in. thick, backed by 6 ft. of oak, 16 in. of fir backing, and 14 in. of fir balks and an old 7 in. wrought-iron plate. The range was 120 yards, the muzzle velocity 1,934 ft., and the striking velocity 1,913 ft. per second; the striking energy was 18,176 foot-tons. Endowed with this tremendous energy the projectile passed through 16 in. of the steel and iron, making a hole rather larger than its own diameter, driving off flakes of steel from the surface of the target in a circle 33 in. in diameter and 3½ in. maximum thickness, and breaking up the plate into six pieces. Then it passed through the 8 ft. 6 in. of timber backing, and went 5 in. into the iron plate. It was found broken to pieces, but the havoc it had wrought spoke sufficiently for the wonderful quality of the steel, even if this cannot be improved, as the makers claim it can be. If what we hear be true, none of the other projectiles fired in the trials can show anything to compare with these results. We have, however, yet to learn what Whitworth steel is capable of, and we have every reason to anticipate great things from it. Certainly the Holtzer shot fired on the 29th of last month, settled the question of compound plates, as compared with those of solid steel, and doubtless it was the experience then gained that convinced the Ordnance Committee of the absolute necessity of obtaining suitable steel plates in the shortest possible time, either from home or foreign manufacturers. It is not improbable either that the Committee somewhat injudiciously discounted the anticipated performance of the Firminy projectile, otherwise they would not have considered further trials unnecessary before recommending that a large order should be given through Sir W. Armstrong and Co. for Firminy projectiles. We trust that for the credit of the department, and the good of the country, the best material will be purchased, whatever disappointment may be caused to individual contractors.

RUSSIAN MONUMENT OF VICTORY.

Shortly after the last war between Russia and Turkey it was resolved to erect a monument in commemoration of the Russian victories. It was the late Czar Alexander II. who gave the idea of the form of the monument, and the present Czar, shortly after his accession to the throne, ordered that the idea of his father should be faithfully executed. The pedestal, about 30 feet high, is of Finnish and Serdobol granite. It is rounded with Turkish cast-iron guns, which bear tablets with the chronological record of the battles during the last war, and the names of all the regiments which took part therein. On the pedestal is placed a column, about 60 feet high, formed of 44 steel and 60 bronze guns. The upper part of the column is composed of Corinthian capitals with leafage of bronze. On the top is an allegorical figure of Victory, with a palm leaf in the left hand and an oak crown in the right. Round the pedestal are placed ten Turkish guns on their carriages. The place before the Cathedral of the Holy Trinity, on the Ismailoff prospect, near the Warsaw railway station, where the monument is erected, has been transformed into a square, in the two corners of which are placed colossal lamp-posts, also formed of Turkish guns. The ceremony of unveiling the Great War Memorial was performed, Oct. 25, at St. Petersburg with much pomp, in the presence of the Czar and Czarina, the members of

ROYAL BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* Royal Baking Powder Co., 106 Wall st., New York.

Horsford's Acid Phosphate
A GOOD TONIC.
Dr. R. Williams, Le Roy, N. Y., says: "It is a good general tonic and worthy of trial."

A SAFE INVESTMENT
For both large and small sums of money is offered in the DEBENTURE BONDS of the NEBRASKA LOAN AND TRUST CO. and the CENTRAL LOAN AND LAND CO. These bonds are secured by mortgages on productive real estate after the manner of securing National Bank notes, bear 6 per cent. interest and run 10 years. Experience proves that they are one of the safest investments ever devised, and they are commended to the attention of officers of the Army and Navy.

the Imperial family, the generals who commanded in the war, and representatives of all branches of the army. To all those immediately concerned in the ceremony medallions of gold, silver, and bronze, according to the rank of the recipient, were distributed.

MOVEMENTS OF ANIMAL MACHINES.

AT a recent meeting of the Paris Academy of Sciences a paper was read on "A Kinematic Analysis of the Locomotion of a Horse," by M. Marey, who described and illustrated the movement of the fore-leg in the step, trot, and gallop. The tendency to economy of labor displayed in various degrees in the movements of all "animal machines" appears to attain the greatest perfection in the action of the horse, being, however, less evident in the trot and the gallop than in the slow pace.

A paper on comparative study of the actions of walking and running, together with the mechanism of the transition between these two movements, was recently read before the Paris Academy of Sciences, by MM. Marey and Demeny. In this paper, which complements the author's previous communications on animal kinematics, numerous differences are shown to exist between slow and rapid pace, the latter being characterized by moments of complete detachment from the ground and by other equally important features scarcely visible to the naked eye, but which are now clearly revealed by the chronophotographic and dynamographic processes. The paper was furnished with six diagrams illustrating the contrasts between both motions and the transitions from one to the other.

GERMAN ARMY PENSION REGULATIONS.

PENSION regulations in the German Army in 1883 were as follows: Each officer gets a pension for life, if, after having spent ten years at least in service, he has become unable to continue it and therefore has been dismissed. He has a title to pension already before this time, if the inability to perform active service is caused by a wound or some other hurt suffered in service without his fault. The pension amounts to a quarter of his salary at first, and may rise to three-quarters. It is withdrawn when the pensioner fills a public office and his salary together with his pension exceeds the income gotten before the dismission and when he re-enters into active service. The widows of those officers who have fallen in war receive 1,500, 1,200 or 900 mk. a year. Besides, their children are supported as far as their seventeenth year of age.

The soldiers belonging to the class of the inferior officers and common soldiers have a former claim to provision, when they have become invalid by hurts in service, or after a service of eight years at least. A difference is made between "half-invalids," who are still able to perform garrison service, and "quite invalids," who are entirely disabled. The provision for invalids consists in pension and augmentation of it, in the "civilversorgungsschein" (certificate for a civil position (living)—literal translation), in the reception into hospitals, and in employing to garrison service. The pension amounts to 6 mk. at least and to 42 mk. at most a month, and is measured by rank, duration of service, and cause of inability. In extraordinary cases the pension is augmented. The "civilversorgungsschein" entitles to obtain an inferior place in the government of the Empire or the State, and any ancient soldier is preferred to a civil person. The "quite invalids" receive this certification besides their pension. Those who need an excellent care and attendance are entertained in invalid houses, if they wish to enter there. Instead of their pension, the "half-invalids" may choose the "civilversorgungsschein," in case they have been twelve years in service, or they may remain in garrison service. The widows of invalid soldiers receive a pension of 15-27 mk. a month.

(Berlin Despatch to the London Daily News.)

AN OLD MAN'S ACTIVITY.

THE Emperor William returned here this afternoon from Blankenburg, apparently none the worse for yesterday's exertions. According to the official report, his Majesty brought down 28 head of large game, which is certainly good proof of his keenness of hand and eye. Another evidence of his vigor is afforded by the fact that on the evening of his arrival at Blankenburg, after a long railway journey, and on returning from the theatre, his Majesty passed some time playing at billiards with his grandson, Prince Henry.

GLYCERINE IN A NEW SERVICE.

SURGEON-MAJOR COTTER, in the columns of the Indian *Medical Gazette*, furnishes an interesting account of a patient suffering from enteric fever, and who was awakened every ten minutes by the dryness of his tongue, which was parched and covered with sores. In the treatment of this case the tongue was painted with glycerine frequently, the result of this application being that at the first trial the patient slept almost comfortably, waking up about every two hours with the tongue feeling dry, but not really dry to the touch; after renewed application of the glycerine he at once slept again. It also appears that this treatment was resorted to in a number of other cases with similar satisfactory results.

COMPOUND AND TRIPLE ENGINES.

THE London *Engineer* says: "Before shipowners launch out into a large expenditure on triple engines, we venture to suggest that it would be prudent to try what can be done with the machinery they have. It is well known that there is no difficulty in working ordinary compound engines with steam of as much as 110 lb.—that is, the pressure carried in such ships as the *Etruria*, for example, with one high-pressure and two low-pressure engines. There are large numbers of steamers now running which carry only 80 lb., some not more than 70 lb. To put new boilers into such a ship will cost, says Mr. Doxford, £2,000. It is more than probable that in many cases the engines are quite strong enough to stand an increase in pressure from 80 lb. to 110 lb. If not, let a new high-pressure cylinder be put in smaller than that which it replaces and let the steam be used more expansively. The cost of the alteration need not exceed in all £3,500, or say one-half the outlay contemplated by Mr. Doxford. It will readily be seen that a saving of ten per cent. in fuel in this case would pay as large a return on the capital outlay as one of 20 per cent. if a triple expansion engine at double the price were used. Put into a nutshell, our argument is that the double cylinder compound engine has not yet been made to do all of which it is capable, and that it should be given the chance before we plunge into a very large outlay on the adoption of a new type of machinery concerning the durability of which no information exists, because no complete sets of triple engines and boilers have yet been a sufficient time at sea to permit sound conclusions to be drawn as to their probable durability."

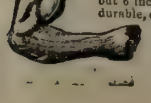
FOREIGN ITEMS.

THE 32d anniversary of the Balaklava charge, was last month celebrated by the survivors among the non-commissioned officers and troopers, who dined together as usual.

A RUSSIAN engineer claims to have discovered a process of reducing petroleum to the form of crystals, which may be easily and safely transported to any distance and then reconverted into liquid form.

TRIALS have been recently made in Italy, with a new system (the Bulivant) of anti-torpedo netting. The experiments were made with the *Volta* with eight lengths of netting defending her flanks, disposed at 26 feet from the ship. This new crinoline weighs but 15 tons against its predecessor's 60 tons, and can be placed in position in a quarter of an hour. It has the additional merit of offering a minimum resistance to the vessel's way, and is so elastic that torpedoes explode without serious effect.

THE London *Horse Guards Gazette* says: "We understand that arrangements are in progress for issuing a machine gun of either the Gardner or Nordenfeldt pattern to every battalion of infantry. Should the experiment prove a success, it is probable that this number will be considerably increased. It is evident that the Government are at last awaking to the fact that machine guns are a valuable adjunct to infantry, but it is a pity that they should select a pattern of gun that has been found wanting on more than one critical occasion."



THE *Army and Navy Gazette* says: "Notwithstanding all statements to the contrary, we have the best authority for stating that no orders have yet emanated from the French Ministry of War for the supply of repeating rifles to the army. The margin of the military estimates presented to the Budget Committee by Gen. Boulanger will not permit of the additional expenditure. The new rifles, as proposed, will cost about £2 10s. 2d. each. The present changes are restricted merely to the adoption of the Gras rifle now in use on the Lebel system, which has been lately approved of, after lengthened experiments at the camp of Chalons."

ACCORDING to intelligence received at Hamburg, advices from the waters of Spitzbergen now confirm the former news from Iceland and from the mouth of the Pechora, on the Siberian coast, to the effect that the ice in the Arctic sea has this year extended unusually far southwards. Spitzbergen, the sealers report, was found to be surrounded with an ice belt five to eight miles broad, and there was firm pack ice from Hope Island to Forland, about 56 miles. The great bays on the Storfjord, Hornsund, Bellsund, and Isfjord were quite inaccessible, and the sealers, after waiting all the spring and most of the summer, returned at the end of August, as there was no prospect of the Polar ice dividing.

AN EXTRAORDINARY RAZOR:
HAS BEEN INVENTED BY THE QUEEN'S OWN COMPANY of England. The edge and body is so THIN and FLEXIBLE AS NEVER TO REQUIRE GRINDING and hardly ever setting. It glides over the face like velvet, making shaving a luxury. It is CREATING A GREAT EXCITEMENT in EUROPE among experts, who pronounce it PERFECTION. $2 in buffalo handle; $3 in ivory. Every razor, to be genuine, must bear on the reverse side the name of NATHAN JOSEPH 541 Clay Street, San Francisco, the only place in the United States where they are obtained. Trade supplied; sent by mail 10c. extra or C. O. D.

ALLAN RUTHERFORD,
Late Third Auditor U. S. Treasury, late Captain U. S. Army, and Colonel of Volunteers,
ATTORNEY AND COUNSELOR AT LAW,
(Corcoran Building), F. and Fifteenth Streets, Washington, D. C.
Havin been Third Auditor U. S. Treasury for six years, I am thoroughly familiar with the course of business before the Executive Departments at Washington. Special attention given to the settlement of Officers' Accounts, Claims for Pension and Bounty, Claims of Contractors, and generally *all* business before any of the Departments, Congress or the Court of Claims. Refers to Gen W. S. Rosecrans, Register U. S. Treasury, Washington, D. C.; Hon. John S. Williams, 3d Auditor, U. S. Treasury, Washington, D. C.; Hon. W. P. Canaday, Sergt.-at-Arms, U. S. Senate, Washington, D. C.; General O. O. Howard, U. S. Army.

GEN. VON DANNENBERG, commander of the Second German Army Corps, has resigned his command, owing to eye disease.

A PROFOUND sensation has been created at Berlin by the discovery that the only existing specimen of a new German repeating rifle has been stolen from a factory at Wesel, it is suspected through the treachery of some one attached to the garrison.

A RECENT despatch from Tonquin says that a force of Chinese, armed with repeating rifles, attacked from an ambush a body of Tonquinese riflemen at Pfunho, in the Province of Namdiub, killing thirty of them. At the same time 1,200 Chinese attacked the posts at Dongsong, but were repulsed after desperate fighting.

AS GREAT difficulty has been experienced in the *Colossus* and other English ships in communicating with the engine room from the bridge by means of the ordinary telegraphs and voice pipes, mainly through the noise caused by the workings of the machinery, the Admiralty have ordered a committee to assemble at Portsmouth to consider the whole subject and with special reference to the subdivisions of a man-of-war.

THE competition for the supply of new torpedo boats to Turkey which has been carried on for some time past has terminated in favor of a German firm. A contract has been signed for three torpedo cruisers and nine torpedo boats. The cruisers are to be 70 metres, 60 metres, and 45 metres long, respectively, with a speed of 25 knots, 23 knots, and 20 knots. The torpedo boats are to be 37 metres long, with a speed of 22 knots. All will be armed with Hotchkiss guns, in addition to Swartzkopf torpedoes. The whole will be delivered within eighteen months.

ORDERS have been received at Enfield to manufacture fifty rifles with the alterations that have been suggested by the committee that has been inquiring into the subject, and forward them to the School of Musketry at Hythe for trial. The suggestions are that the locking bolt, the brush, and the wooden hand guard should be done away with. Some slight alterations are also suggested in the arrangements of the barrel and upper band and also a modification to the lever and extractor, and the cleaning rod. Alterations are proposed in the system of sighting, a much simpler method being suggested.

GREAT excitement has been caused by the recent discovery of gold at Mount Lyell, in Tasmania. It is stated that the discovery is equal to any in Victoria or Queensland.

THE *Esercito Italiano* states that the Italian War Office has appointed a commission to report upon the proposal to change the present infantry arm of the Italian Army, the Vetterli rifle, into a repeater on the Vitali system. Experiments made with the latter have shown the practicability of the change. Several hundred Vetterli rifles have been so transformed. There is said to be little doubt that the new weapon will shortly be introduced in the Italian Army, and that by the beginning of next year the transformation of the Vetterli rifle will be rapidly proceeded with. The cost of effecting the change is estimated at £400,000.

FIRST A COLD, THEN BRONCHITIS. Check the first with HALE'S HONEY OF HOREHOUND AND TAR.
PIKE'S TOOTHACHE DROPS Cure in one Minute.

R. W. TANSILL & CO., Chicago, are now making especially for the Officers of the Army and Navy a new and very fine Havana hand-made cigar, known as "TANSILL'S REINA." They are put up in beautiful packages of 25 cigars, each cigar banded. They come in three sizes, 4¼, 4½, and 4¾ inches, while their moderate cost, viz. $65, $70, and $75 per thousand brings them within the reach of the entire Service.

BENSON'S CAPCINE PLASTERS are well known n the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

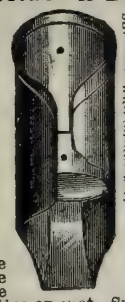
NEW ENGLAND MUTUAL
Life Insurance Company,
OF BOSTON, Mass.

Assets, ... $17,846,546.65
Liabilities, ... 15,238,761.16
Total Surplus, $2,607,785.49

This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.

Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.



Pamphlets explanatory of the New Feature may be had on application at Compy's Office.

ARMY AND NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 17. WHOLE NUMBER 1213. NEW YORK, SATURDAY, NOVEMBER 20, 1886. SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

THE percentage of desertions to the legal strength of our army has been reduced from 15 in 1884, and 11.7 in 1885 to 8.3 in 1886. The proportion in the English Army, on the contrary, shows a tendency to increase, being 13 per cent. in 1885 against 12 per cent. in 1884, and 11 per cent. in 1883.

AMERICAN steel manufacturers have been notified that the time (Dec. 10, 1886) fixed for receiving proposals for steel gun forgings and armor plates for the vessels of war, has been extended until 12 o'clock noon March 15, 1887. This action was made necessary by the delay in getting out the specifications for the armor plates. Manufacturers are still waiting for this information.

WE note in a recent Court-martial order in the Department of the Platte that a private soldier was tried for disobedience of orders, in that being ordered by the judge-advocate of a garrison Court martial to report at the Court-martial room for trial he failed to do so, but walked off the post and thereby "rendered a meeting of the garrison court impossible." In the absence of further information this strikes us as rather a free and easy way of doing business. We had always fancied that privates to be tried by Court martial were held confined in the guardhouse, and sent under proper guard before the court when duly assembled.

VENEZUELA is said to be quietly purchasing arms and ammunition, especially Hotchkiss cannon, in anticipation of a war with Colombia, and later with Ecuador. These three States were formed into a single Republic by the immortal BOLIVAR, but separated after his death; and GUZMAN BLANCO, actual President of the first, is apparently contemplating their forcible reunion. Since the splendid marriages of his daughters, Venezuela no longer furnishes sufficient scope for the statecraft of *El Ilustre Americano*, and in a recent after-dinner speech in Paris, he boldly alluded to his projected control of the Interoceanic Canal under French auspices.

ADJUTANT GENERAL DRUM'S suggests that a law be passed making discharges from the Army, prior to expiration of term of service, and by way of favor conditional on reimbursement to the Government of certain expenses. In other words he recommends the discharge by purchase system, and there can be no doubt that the recommendation is a sound one. The discharges by way of favor, as now allowed, are injurious to the Service, and often place the War Department in an embarrassing position. A soldier wishes to leave the Service. He gets his friends in civil life to induce Senators, Congressmen and other influential persons to ask the Secretary of War to order the discharge. These gentlemen seldom refuse, and it is safe to say that six times out of ten at least their intercessions with the Secretary prevail. But let it be a matter of cost, then before the machinery can be put in motion the money must be forthcoming. If the friends of the soldier cannot produce it, it is safe to assume the middlemen won't. The passage of such a law as that suggested by General DRUM would undoubtedly reduce to a minimum the requests for discharge, now so numerous and generally ingenious.

PROPOSALS for the construction of the three new cruisers and two gunboats, advertised for in August last, will be opened in the office of the Secretary of the Navy on Wednesday next. Indications point to a fair number of bidders. Full sets of drawings of all the vessels have been furnished to about a dozen firms, and plans of one or more of the vessels to as many more. Specifications and general plans have gone out to all the leading shipbuilding and iron and steel firms in the country, though bids are only expected from those who received the detailed drawings. Detailed plans of the engines and machinery of all the vessels have been furnished Cramp and Son, Harlan and Hollingsworth, George W. Quintard, Thos. F. Rowland; Union Iron Works, San Francisco; W. H. Ramsey, of Baltimore, and plans of the gunboats to Reeder and Son, of Baltimore; Atlantic Iron Works, Boston; Neafie and Levy, of Philadelphia, and the Globe Iron Works, of Cleveland. The only leading shipbuilding firm which has not applied for drawings is that of John Roach and Son. No bid is, therefore, expected from this source, much to the relief of the other shipbuilders, who now consider that a dangerous competitor is out of the way, and will probably advance their prices accordingly. The general opinion is that the Department will find the bids to run pretty high when opened. The discretion, however, is left the Secretary of building the vessels in the Navy-yard in the event of the proposals being unsatisfactory.

GENERAL A. MCD. MCCOOK, U. S. A., has recently issued a stringent order designed to put a stop to the traffic in uniform clothing between enlisted men of the infantry and cavalry school and civilians. He directs that in future no issue of clothing will be made or witnessed by an officer of this command until the same shall first have been marked as required by this order. All necessary exchanges to secure proper size, etc., will therefore be made before the articles are marked. Enlisted men will not be permitted to purchase clothing from each other except in cases of discharge from the Service, when they may purchsse of such discharged men, by first asking permission of the company commander and having the clothing so purchased or acquired marked with the letter "C," when they will not be further held responsible Thereafter no enlisted man will be permitted to mark his own clothing or change the markings when properly made by the company clerk or other persons to be designated by the company commander for this duty. When clothing is worn out and no longer fit for use, it must first be presented at stated inspections, be marked "C," and such fact entered upon the check-roll before a new article shall be issued in its place. The check-roll will be renewed as often as necessary to keep a complete current account of clothing issued to each man. This order might well, we think, be adopted as a general regulation, for it has often struck us that the system under which clothing is issued at present is somewhat lax and the opportunities to draw clothing and afterwards dispose of it for a little ready cash are too numerous. General MCCOOK'S plan is a good one, and with a thorough kit inspection once a week might soon put a stop to the evil in question.

Engineering, of October 22, in an article of considerable length on "Armor," urges the expediency of a thorough trial of the Creuzot (SCHNEIDER) solid steel plates by the British Government, and makes the strange statement—for a generally well-informed journal—that the orders for this armor "in France equal those of all the compound manufacturers together." So far from this being the fact, we have direct and positive evidence that the French War Office has not for months given an order for Creuzot plate, and has countermanded orders already obtained by SCHNEIDER. A thoroughly reliable correspondent writes within the past fortnight as follows: "One fact which I should bring to your knowledge is that I know for truth that in the manufacture of the *Terrible's* armor, composed of 90 plates, Creuzot have had 18 plates broken in pieces in tempering at the works and in the port at the time of being put in place on the ship. These accidents show the great difficulty and the slight security of this mode of manufacturing armor-plates. I have now in my possession several photographs of the test plates selected to represent the armor of this very ship, *Terrible*, and they in all cases show the slight defensive power of the all steel system, as, at the third shot in nearly all cases they fall from the backing and leave the target unprotected, and in the one where the plate still adheres to the target, it is by the number of bolts used, the plate itself being broken into several pieces. *It is no wonder then that the French Government have transferred their orders from Creuzot to manufacturers of compound, steel-faced armor.*" The facts above stated are worthy of serious consideration by those of our domestic producers who contemplate sending in test plates.

WE quoted in our issue of November 13 the Second Auditor as alleging in his Annual Report of this year in regard to officers' claims for rations illegally withheld that "prosecution of these claims is a striking illustration of the necessity of the Statute of Limitation." If, as the Supreme Court has decided, the law has been violated by "rulings" of accounting officers, and from 2,200 officers have been withheld what was due to them to the value of one and a half million dollars it would be more just to draw from this shameful tale of wrong, and of loss inflicted upon those whom the officers of the Treasury hold in their power, that it were better to appoint to such responsible positions men of broad intelligence and of true impartiality; men who would seek truth and justice and not be betrayed into false and forced constructions of law by anxiety to appear careful of the interests of the Treasury, which hires them, rather than to be just to others also hired as servants of the people. Why should a line of successive Auditors for many years make and maintain an illegal construction of law, one which is ruled false the first time it comes into court? The laws have not been changed by the Supreme Court, they have only been interpreted and their true and evident meaning proclaimed. But it appears to be inevitable that many men put into office become blinded by the vanity of office and haste to make decisions without sufficient consideration, perhaps without sufficient knowledge. If they have not the knowledge and skill, they should resign, or, at least, seek counsel of those who have. In this case they have rejected all counsel, and with a pertinacity which looks personal and vindictive have driven the suitors for justice through every costly court till none remain to hear their appeals against the plain right and now they work in an *ex post facto* Statute to support a false decision.

PERSONAL ITEMS.

LIEUTENANT W. O CORY, 15th U. S. Infantry, has joined at Fort Buford, D. T.

LIEUTENANT W. P RICHARDSON, 8th U. S. Infantry, was a recent visitor in San Francisco.

LIEUTENANT C. B. SATTERLEE, 3d U. S. Artillery, left Washington early in the week on a short leave.

COLONEL G. M. BRAYTON, 9th U. S. Infantry, lately visiting at Ravenna, Ohio, will spend the winter on leave.

COLONEL C. L. BEST, 4th U. S. Artillery, rejoined at Fort Adams, R. I., early in the week from a short leave.

LIEUTENANT C. C. HEWITT, 19th Infantry, was registered at the Hotel Duquesne, Pittsburgh, on Nov. 12.

LIEUTENANT J. H. H. PESHINE, 13th U. S. Infantry, has taken charge of recruiting matters at Fort Mojave, A. T.

COLONEL C. E. BLUNT, Corps of Engineers, U. S. A., returned to Portland, Me., this week from a trip to Washington.

LIEUTENANT R. W. HOYT, 11th U. S. Infantry, returned to Bismarck this week from a trip to Yankton on civil business.

LIEUTENANT W. L. SIMPSON, 3d Cavalry, and bride are visiting at Leavenworth, and will go to Fort Elliott, Texas, in a few days.

LIEUTENANT E. E. HATCH, 18th Infantry, on sick leave from Fort Hays. Kas., and lately at Liberty, Me., has received an extension of leave.

GENERAL C. H. TOMPKINS, U. S. A., and Captain J. P. Sanger, A. D. C., rejoined at Governor's Island early in the week from a trip to Buffalo.

CAPTAIN D. C. KINGMAN, Corps of Engineers, much to the regret of his many friends in Omaha, goes in a few days to New Orleans for duty.

THE marriage of Captain Henry P. Birmingham, Assistant Surgeon, U. S. A., to Miss Myra E. Clarke, is to take place the first week in February next.

MAJOR J. B. CAMPBELL, U. S. A., returned to New York early in the week from a trip to Fort Leavenworth, and afterwards left for Fort Monroe, Va.

MAJOR G. B. RODNEY, 4th U. S. Artillery, arrived last week at Fort Snelling, Minn., and took over the command of Light Battery F of his regiment.

CAPLAIN J. M. LEE, 9th U. S. Infantry, Indian agent at Darlington, I. T., is in Washington, on business connected with the Interior Department.

COLONEL GEORGE GIBSON, 5th U. S. Infantry, lately East on leave, has joined at Fort Keogh, M. T., and assumed command of the post and of his regiment.

CAPTAIN LOUIS R. STILLE, 23d U. S. Infantry, who has been visiting in Philadelphia since early in September, will return to Fort Brady, Mich., in a few days.

CAPTAIN H. S. TURRILL, Assistant Surgeon, U. S. Army, was expected at Vancouver Barracks this week to report to General Gibbon for assignment to a post.

MAJOR C. W. RAYMOND, Corps of Engineers, U. S. Army, after a pleasant tour of duty in New Orleans, will shortly go to Washington for duty under Gen. Duane.

GENERAL NELSON A. MILES, U. S. A., has been making a tour of his Department, and was to be at Santa Fé early this week, thence going to Washington.

COLONEL E. F. TOWNSEND, 12th U. S. Infantry, on a few weeks' leave from Madison Barracks, Sackett's Harbor, N. Y., is visiting at 113 East 14th Street, New York City.

GENERAL J. S. BRISBIN, U. S. A., under recent orders, goes from Fort Niobrara to Fort Robinson, Neb. He has done much for the former post while in command there.

LIEUTENANT D. D. JOHNSON, 5th U. S. Artillery, and bride, now on their wedding tour, will join at Fort Columbus, N. Y. H., next week. A hearty welcome awaits them.

ASSISTANT SURGEON C. C. BARROWS, U. S. A., in New York last week, arrived at St. Augustine, Fla., this week, and has taken medical charge of the Indian prisoners at Fort Marion.

GENERAL D. MCCLURE, U. S. A., now at Governor's Island, will shortly take up his residence in New York City, and establish the office of the Chief Paymaster Division of the Atlantic in the Army Building.

COLONEL FRANCIS WISTER, formerly Captain 12th U. S. Infantry, read on Wednesday evening, before the United Service Club of Philadelphia, some interesting "Experiences of the 12th U. S. Infantry at Fort Hamilton and throughout the campaigns of the Army of the Potomac."

LIEUTENANT WILLIAM BAIRD, 6th Cavalry, has relinquished the regimental adjutancy, and goes from Fort Bayard to Jefferson Barracks for recruiting duty. General Carr has appointed Lieutenant L. A. Craig regimental adjutant, a position which he filled with much credit in 1883 and 1884.

THE *United States Gazette* says: "Miss Endicott, daughter of the Secretary of War, will figure in society this winter also. She is as different from Miss Lamar as Massachusetts is different from Mississippi. She is a Boston girl to the tips of her fingers. While not pretty she has an agreeable figure and a face of marked intelligence. She has blonde hair and sometimes wears glasses. Her bearing is proud, almost disdainful apparently, and her manners the acme of Boston culture. You would likely find many like her on Beacon street, but few anywhere else. Like most of the highly cultured girls of the Hub she is serious, has an expression of intellectuality and likes to talk about philosophy. She has written poetry, too—or, at least, verses. One of her poems was printed in the Chicago *Current* and some more, it is said, appeared in the Springfield *Republican*."

CAPTAIN J. M. BELL, 7th Cavalry, was in Omaha this week on civil business.

CAPTAIN E. L. HUGGINS, 2d U. S. Cavalry, left Fort Walla Walla a few days ago on a month's leave.

CAPTAIN CASS DURHAM, 18th U. S. Infantry, on sick leave, will spend a portion of the winter in St. Paul.

CAPTAIN W. A. ELDERKIN, U. S. A., rejoined at Newport Barracks, Ky., this week from a visit to New York.

COLONEL R. I. DODGE, 11th U. S. Infantry, is visiting friends in New York, and is located at 110 West 125th street.

LIEUTENANT E. H. CATLIN, 2d U. S. Artillery, joins next week, on promotion, at St. Francis Barracks, St. Augustine.

CAPTAIN J. C. CLIFFORD, of the Ordnance Corps, U. S. A., visited West Point, Pa., this week, on inspection service.

CAPTAIN G. G. LOTT, 11th U. S. Infantry, returned this week to David's Island, N. Y. H., from a trip to Dakota with recruits.

CAPTAIN J. H. HURST, 12th U. S. Infantry, rejoined at Fort Niagara, N. Y., on Thursday, from a short leave of absence.

ANNOUNCEMENT is made of the engagement of Lieut. E. C. Brooks, 8th U. S. Cavalry, to Miss Margaret A. Gray, of Chicago.

LIEUTENANT L. D. GREENE, 7th Infantry, on leave for three months from Camp Pilot Butte, Wyo., is visiting at Fredonia, N. Y.

LIEUTENANT OTTO HEIN, 1st Cavalry, has been appointed Secretary of the Infantry and Cavalry School at Fort Leavenworth.

LIEUTENANT J. T. KNIGHT, 3d U. S. Cavalry, and bride were expected at Fort Hancock, Texas, this week from their wedding tour.

ASSISTANT SURGEON L. S. TESSON, U. S. A., who arrived in New York last week from the West, is visiting friends in Philadelphia.

SURGEON MAJOR ANDERSON and Surgeon W. B. Thompson, British Army, were guests at the Murray Hill Hotel, New York, this week.

MISS EDITH CAROW, who is to be married to Theodore Roosevelt in December, is a granddaughter of the late Gen. Daniel Tyler, of Connecticut.

LIEUTENANT G. W. GOODE, 1st U. S. Cavalry, will spend a four months' leave in St. Louis, Mo. His address in that city will be 514 Pine street.

KAISER WILHELM has authorized the presentation of suitable souvenirs to the soldiers of the Prussian Army on the occasion of the eightieth anniversary of his admission to the military service, Jan. 1, 1887.

GENERAL B. H. GRIERSON, Colonel 10th U. S. Cav., the senior Colonel on duty in the Dept of Arizona, has been assigned to the command of the District of New Mexico, and has transferred regimental headquarters from Fort Grant to Santa Fe.

LIEUTENANT G. E. FRENCH, 4th U. S. Infantry, was married at the Reformed Church, Saugerties, N. Y., Nov. 18, to Miss Lydia Cantine, daughter of Mr. and Mrs. Peter Cantine. A reception followed at the residence of the bride's parents, after which the married couple left for the groom's station, Fort Spokane, Washington Territory.

MISS ANNIS MACLEOD, a member of the American Colony at Paris, recently married to Lieutenant John Jean de la Taille, of the French artillery, had for one of her witnesses General de Vandœuvre, who led the famous charge of the Cuirassiers at Reichshoffen, and Vice Admiral du Petit Thouars, the captain of the Port at Cherbourg.

LIEUTENANT J. S. PETTIT. 1st U. S. Infantry, was to have been married Nov. 17, at the First Presbyterian Church, Leavenworth, Kas., to Miss Bessie Bryson Sharp, daughter of Major Alexander Sharp, Paymaster, U. S. A. A despatch says: "Lieut. Petit was shot and seriously wounded by a robber at Leavenworth on the eve of his expected marriage."

THE marriage of Lieut. E. F. Willcox, 6th U. S. Cavalry, A. D. C., to Miss Johnston, daughter of Lieut.-Col. W. H. Johnston, Deputy Paymaster-General, U. S. A., took place at St. Paul, Nov. 17, and was a brilliant event in society. The officers and ladies of Department Headquarters, of Fort Snelling, and of other military posts at a distance were largely represented. The groom and bride, after the wedding tour, go to Fort Leavenworth.

THE Winona, D. T., *Times* remarks upon the custom of "ranking out" which prevails, and by way of illustration cites the case of Fort Yates, where, it says, "Col. Bush has signified his intention of taking the commanding officer's quarters, now occupied by Major Page, the present commandant. This is synonymous to the cotillion call, 'everybody dance,' and the changes are: Major Page takes Capt. Ilsley's quarters; Capt. Ilsley, Capt. Galbraith's; Capt. Galbraith, Dr. Spencer's; Dr. Spencer, Capt. De Rudio's; Capt. De Rudio, Lieut. Sickel's; Lieut. Sickel, Lieut. Wheeler's; Capt. Roe, Lieut. Cress'; Lieut. Cress, Lieut. Davison's; and Lieut. Davison, Lieut. Lewis. 'On with the dance; let joy be unconfined.'"

MAJOR OSWALD H. ERNST, Corps of Engineers, U. S. A., says the St. Louis *Republican*, has almost completed the transfer of the records and accounts of the St. Louis division of the river and harbor improvement service to Maj. Miller, and will go to Galveston next week. The St. Louis Merchants' Exchange, in a set of resolutions, with regard to Major Ernst, adopted at a recent meeting, say: "We cannot permit him to leave without giving expression to our regret at the departure of so skilful an officer and so genial a gentleman. During all the years of his sojourn here he has been alert to the interests of the Mississippi River, and his skill has been made manifest by the permanent success he has achieved. The committee knows his ability and commends him to those who will appreciate him, as we do, by his work; and he carries with him to his new home and sphere of usefulness our best wishes for his success, happiness and prosperity."

CAPTAIN O. W. POLLOCK, 23d Infantry, left Buffalo, N. Y., early in the week on a short leave.

LIEUTENANT A. C. DUCAT, 3d U. S. Cav., in Washington on leave, will remain a few weeks longer.

CAPTAIN E. P. EWERS, 5th U. S. Infantry, in St. Paul last week, has joined at Fort Keogh, Montana.

COLONEL R. N. BATCHELDER, U. S. A., registered at the Hoffman House, New York, early in the week.

SURGEON ALBERT HARTSUFF, U. S. A., left Fort Hamilton, N. Y. H., on Monday to be absent for a week.

SURGEON J. P. WRIGHT, U. S. A., and Mrs. Wright have arrived at Fort Leavenworth from San Antonio.

COLONEL A. G. BRACKETT, 3d U. S. Cavalry, has recently appointed Lieut. Joseph T. Dickman, regimental adjutant.

COLONEL R. E. A. CROFTON, 15th U. S. Infantry, visited friends in St. Paul last week on his way to Fort Buford, D. T.

ASSISTANT SURGEON VICTOR BIART, U. S. A., and family, arrived at Leavenworth, Kas., early in the week from Los Angeles, Cal.

CAPTAIN E. H. LISCUM, 19th U. S. Infantry, who has been visiting at 305 Fulton street, Brooklyn, has received a three months' extension of leave.

LIEUTENANT CHAS. MCQUISTON, 4th Infantry, has rejoined at Fort Cœur d'Alene, I. T., from a trip to Vancouver Barracks on Court-martial service.

LIEUTENANT J. A. SLADEN, 14th U. S. Infantry, left Vancouver Barracks a few days ago for the East on a month's leave, to procure an artificial limb.

WM. POPE, the negro who recently wounded Gen. C. C. Augur, U. S. A., was found guilty on Wednesday, but sentence was postponed pending a motion for a new trial.

SURGEON J. V. D. MIDDLETON, U. S. A., and Mrs. Middleton, arrived in New York this week from the West and will take up their residence at David's Island, N. Y. H.

LIEUTENANT C. A. L. TOTTEN, 4th U. S. Artillery, of Fort Adams, spoke on Tuesday before the Historical Society of Newport upon the Seal of the United States, etc.

LIEUTENANT DOWDY, 17th Infantry, lately on duty at the University of the South, Sewanee, Tenn., has reached Fort Russell with his family and settled there for the winter.

GENERAL W. T. SHERMAN, U. S. A., was entertained at Delmonico's, New York, on Wednesday evening by A. E. Bateman, of the Stock Exchange firm of Green and Bateman, and formerly an officer of the Navy. A notable company was present.

MRS. GENERAL MILES will spend the winter in Washington. She is a sister of Mrs. Don Cameron. Mrs. Whitney, wife of the Secretary of the Navy, is an old friend of Mrs. Miles, and was one of her bridesmaids when she married Lieut. Miles several years ago.

WHILE at Woodstock on Monday Lieut.-General Sheridan and Senator Cameron called upon Senator Riddleberger and were agreeably entertained. On Tuesday the General left in the direction of Winchester and Charlestown, to cross the Blue Ridge in the vicinity of Berryville.

MAJOR MACMURRAY, 1st Artillery, was in Omaha with his family last week on his way to Portland, returning from a sick leave of nearly a year. His eyesight, which was seriously affected, has greatly improved under the care of Dr. Stevens, of New York, and other well known oculists.

THE Cleveland *Leader and Herald* says: "Miss Bertha Barnitz, daughter of Col. Barnitz, U. S. A., retired, formerly captain 7th U. S. Cavalry, is achieving quite a reputation in clay modelling. Though only a Miss, she has just completed a bust of Homer which would do credit to an artist of mature years."

MAJOR JOHN EGAN, 4th U. S. Artillery, of Fort Adams, R. I., received a pleasant visit Nov. 17, from Capt. Wellington and the officers and men of Battery B, Massachusetts militia, of Worcester. A review, reception and a dinner was tendered at Fort Adams and the proverbial Regular Army hospitality pleasantly developed.

LIEUTENANT FRANK E. BROWNELL, U. S. Army, has returned to Washington, says the *Critic*, from an extended trip in the West and to the Pacific Coast. He is the officer who, while sergeant in the New York Fire Zouaves, avenged the death of Col. Ellsworth by shooting and bayonetting the hotel-keeper Jackson, at Alexandria.

THE Vancouver *Independent* of Nov. 4 says:

Mrs. and Miss Keefer have joined Paymr. Ke fer at Fort Walla Walla. .....Lieut. Frank Taylor, 14th Inf., has gone to Fort Townsend, on Court-martial duty.....Lieut. Chas. McQuiston, 4th Inf., has returned to Fort Cœur d'Alene..... Capt. Tully McCrea, 1st Art., arrived at Vancouver Barracks Saturday, to take command of Light Bat. E.....Gen. Gibbon, and his aide, Lieut. McClernand, went up to Boise Barracks last week.

MRS. ELIZA WILCOX, a clerk in the Treasury Department, is the child of an adopted son of Andrew Jackson, and was born in the White House during Andrew Jackson's Administration. When her application was made for an appointment in the Treasury Mr. Folger, of New York, was the Secretary. He sent for Appointment Clerk Butler and told him to appoint her. "All right," said Butler, "but do you know she has strong Southern sympathies?" "Yes, I know," said the Secretary; "but she was born in the White House, and I want her appointed. I will take all chances of criticism." When the Treasury Department was dedicated, Andrew Jackson, who was President, was waited upon and asked if he wished to have anything special deposited in the corner stone. "No," he said. "Nothing I think of." Then calling the messenger back he said: "Wait a moment. I will send a lock of baby's hair." This he did send. The then baby is now Mrs. Eliza Wilcox.

LIEUTENANT E. S. AVIS, 5th U. S. Infantry, is visiting at Luray, Va.

CAPTAIN C. AUGUR, 2d U. S. Cavalry, was a recent visitor in San Francisco.

CAPTAIN BYRON DAWSON, 9th Cavalry, is spending a portion of his leave in Indianapolis, Md.

GENERAL RUFUS INGALLS, U. S. A., has located at his old quarters on K street, Washington, D. C., for the winter.

CAPTAIN GAINES LAWSON, 25th U. S. Infantry, on leave from Fort Snelling, is visiting friends in Washington.

LIEUTENANT W. E. ALMY, 5th Cavalry, visiting relatives in Washington, has been ordered to Jefferson Barracks, Mo.

COLONEL M. M. BLUNT, 16th U. S. Infantry, was to leave Fort Concho, Tex., this week for the North on a six weeks' leave.

LIEUTENANT JOHN MCCLELLAN, 5th U. S. Artillery, is the happy father of a son and heir born at Fort Monroe, Va., Nov. 2.

CAPTAIN G. H. TORNEY, assistant surgeon, U. S. A., left Fort Monroe, Va., early in the week on a brief visit to friends.

CAPTAIN ALLIGOOD, Q. M. Dept., was at the Paxton Hotel, Omaha, with his daughter Nov. 13, on his way to San Francisco.

GENERAL ADAM BADEAU is to write a series of "War Stories for Boys and Girls," for the coming year of "St. Nicholas."

CAPTAIN C. E. DUTTON, U. S. A., attached to the Geological Survey, is preparing a comprehensive report on the Charleston earthquake.

GENERAL A. J. PERRY, U. S. A., of San Francisco, was at Fort Selden, N. M., recently visiting his son Lieut. J. A. Perry, 10th U. S. Infantry.

GENERAL W. T. SHERMAN, U. S. A., attended the celebration on Tuesday evening by the New York Historical Society of its 82d anniversary.

CAPTAIN W. E. BIRKHIMER, U. S. A., was expected at St. Paul this week to enter upon his duties as Judge Advocate, Department of Dakota.

CAPTAIN SELDEN A. DAY, 5th Artillery, returns next week to Fort Hamilton from a fox hunting visit to the Yorktown Peninsula of Virginia.

CAPTAIN C. A. STEDMAN, 9th U. S. Cavalry, now located at the Park Avenue Hotel, New York, will remain East until after the Christmas holidays.

LIEUTENANT D. D. JOHNSON, 5th U. S. Artillery, and bride arrived in New York this week, and will settle into quarters at Fort Columbus in a few days.

MISS CHARLOTTE CATLIN, daughter of Gen. Isaac S. Catlin, U. S. A., was married at Brooklyn, Nov. 17, to Mr. Robert Graves, a prominent manufacturer.

MAJOR CREARY, Paymaster, stationed at Cheyenne, is on the sick list, having been badly bitten by a dog. It is thought that one of his fingers will have to be amputated.

GENERAL FRED. E. CAMP, of Middletown, Conn., is likely to be appointed Adjutant General of the State. He was formerly a captain of the 2d U. S. Infantry, and resigned in 1875.

THE amount of learning among our Army officers is indicated by the fact that we have had in the Service a Dr. Geo. Washington, a Dr. Ulysses S. Grant, a Dr. Andew Jackson, a Dr. Horatio Gates, a Dr. Artemas Ward, a Dr. the Marquis De Lafayette, a Dr. Winfield Scott, a Dr. George G. Meade, and other military doctors bearing the title of LL.D.

THE following officers of the Army registered at the War Department: Capt. J. M. Lee, 9th Inf.; 1st Lieut. Frank E. Brownell, retired; 1st Lieut. A. L. O'Brien, 2d Cav.; Capt. Gaines Lawson, 25th Inf.; 2d Lieut. Ormand M. Lissak, 4th Art.; Brig.-Gen. Rufus Ingalls, retired; Major E. H. Brooke, retired; Capt. S. M. Mills, 5th Art.; Capt. Edward Maguire, Engr.

THE Vancouver *Independent* of Nov. 14 says: Lt. Frank Taylor, 14th Inf., Tuesday, returned from C. M. duty at Fort Townsend....Colonel Anderson has been in command of the 14th Infantry several days, and has already commenced a strict course of discipline....Capt. J. A. Sladen, 14th Inf., on Tuesday, started for the East, on a visit to his son at West Point....2d Lieut. J. S. Parke, 21st Inf., well and favorably known in Vancouver, has been promoted to 1st Lieutenant.

THE trial of the suit against Gen. Adam Badeau was concluded on Wednesday in the U. S. District Court, New York. This suit was brought to recover $10,000 claimed to be due the Government by the defendant on the settlement of the General's accounts as Consul-General in London, England. Gen. Badeau had paid, prior to the year 1874, certain fees that he had received which the State Department afterward decided were personal fees and not returnable to the Government. In rendering his accounts subsequent to this decision, the General made deductions that were equivalent to the amount he had mistakenly paid. The court directed a verdict for the defendant on the ground that the payments were made voluntarily to Gen. Badeau while acting in a non-official capacity, and were therefore beyond any judicial action for their recovery.

A WASHINGTON "special," referring to Col. John Moore, Medical Department, U. S. A., says: "Dr. Moore is not an applicant for the office of Surgeon General, but it is probable that his admirable record and his proved executive and administrative capacity have attracted the favorable notice of the President. While he is a man of strong and positive ideas, and therefore presumably has political convictions, he belongs to a class who adhere to the tradition that it is indecorous for Army officers to conduct themselves as partisans. He possesses coolness and determination, is of quick apprehension and of most excellent judgment; of kindly disposition, and has an infinite fund of dry humor. His term will expire in about four years. His well-earned promotion will give great satisfaction to his old comrades of the Potomac and of the West, as well as to numbers of friends in civil and military life."

LIEUTENANT O. M. LISSAK, 4th U. S. Artillery, is visiting friends at 1353 Connecticut avenue, Washington, D. C.

AMONG those injured in the wreck of an express train by a land slide near Pittsburg on Thursday morning was Mrs. Glass, wife of Lieut. J. N. Glass, 6th U. S. Cavalry. It is stated that Mrs. Glass was one of the coolest ladies on the cars, and remarked to a reporter: "I don't want you to say that I am hurt, as it will worry my husband. You see I am only a little bruised and am walking around."

CAPTAIN R. E. NELSON, British Navy, was in New York this week, quartering at the Westminster.

COLONEL JAMES FORNEY, U. S. Marine Corps, joined at League Island this week from Norfolk, Va.

A WORK of the late Admiral Hobart Pasha, entitled "Sketches of My Life," has just appeared in London.

THE marriage of Miss Kate Willard, daughter of Mr. C. C. Willard, to Passed Assistant Surgeon John C. Boyd, U. S. N., will take place in February next.

MEDICAL DIRECTOR A. C. GORGAS, U. S. Navy, and family, and Capt. Frederick V. McNair, U. S. Navy, and family, are located at the St. George Hotel, Philadelphia, for the winter.

P. A. ENGINEER ROBERT CRAWFORD, U. S. N., lately at the Manual Training School in Philadelphia, was due in San Francisco this week, for duty at the Mare Island Navy-yard.

LIEUT.-COMMANDER F. W. CROCKER, detached from the *New Hampshire* and sent to the naval hospital at Chelsea, Mass., has not fully recovered from the breaking of his leg last summer.

AFTER coaling and taking in mess stores the *Yantic* sailed for Simon Bay on Sunday last. Passed Asst. Engr. Jos. P. Mickley, late of the *Boston*, goes out in place of Passed Asst. Engr. Inch, detached and placed on waiting orders.

LIEUTENANTS (junior grade) LUCIEN YOUNG and Alfred Reynolds and Ensign Henderson have completed their examinations for promotion and the papers are now before the President for his signature. Asst. Engr. E. R. Freeman is before the Examining Board.

COMMANDER PICKING, secretary of the Lighthouse Board, telegraphed Nov. 17 to Commodore Benham, inspector of the Third Lighthouse District, which embraces Bedlow's Island, to take steps for the lighting of the Bartholdi Statue of Liberty as soon as possible.

PAY INSPECTOR J. H. STEVENSON, U. S. N., has apparently given up his position in connection with the Panama Railroad, and he is now in Europe. He is reported to have carried with him from the Isthmus $19,000, his profits as the agent of a dynamite company. John was always thrifty.

THE steam whaler *Eagle*, on board of which is Civil Engineer R. E. Peary, U. S. N., arrived safely at St. Johns, N. F., Nov. 17. Mr. Peary, who went north in the *Eagle* last spring to examine the Greenland inland ice, had many adventures and experiences, but accomplished the object of his expedition.

MEDICAL INSPECTOR SOMERSET ROBINSON, recently detached from duty at the Mare Island yard, has returned to Washington, where he is now busily engaged arranging for the construction of a handsome new residence. He is said to have become quite rich through mining investments while on the Pacific Slope.

ONE of the few dinners of last week was given by Rear Admiral and Mrs. Baldwin, at their residence, No. 590 Fifth Avenue, New York, to Capt. Emory, of the *Despatch*, and Mrs. Emory. Their guests included Mr. and Mrs. Gerald Redmond, Mr. James Parker and Miss Kitty Morgan. If Admiral Baldwin's health permits he will remain in New York for the winter.

ASST. NAVAL CONSTRUCTOR F. T. BOWLES, U. S. N., was married at Immanuel Church, Boston, Mass., on Wednesday evening, Nov. 17, to Miss Adelaide Savage. Mr. Bowles is a nephew of the late Samuel Bowles, founder of the Springfield *Republican*. Rev. Dr. Winslow, assisted by the Rev. Leighton C. Parks, officiated. Over 1,500 invitations had been issued. Mr. Eustace Conway, son of Mr. M. D. Conway, was best man.

LIEUTENANT-COMMANDER GEO. A. BICKNELL, executive officer of the *Essex*, is reported as having brought the crew of that vessel to the highest state of discipline and efficiency possible in so brief a period, and it is likely that, as in times passed, the *Essex* will serve to "point a moral and adorn a tale" for many a disgusted 1st lieutenant who sees the little ship walk away with honors of drill and seamanship.

PASSED ASSISTANT ENGINEER H. SCHUYLER ROSS, U. S. N., recently home from a full cruise on the China Station, seems to have kept his eyes open and his wits about him, if the accounts of interviews, etc., can be credited. Mr. Ross is favorably known to the scientific world by the numerous inventions in engineering which he has perfected and put in operation. He will probably now enjoy a "spell" of waiting orders.

THE will of the late Medical Director George Maulsby is dated July 1, 1885, and to his wife and niece he leaves each one-half of the income of his personal estate, which he bequeaths to the Fidelity Insurance Trust and Safe Deposit company of Philadelphia. He leaves his real estate to his wife during life and then to his niece, Ida Corson, and in case of death of the last named to the children of his brother and sisters.

THERE was great excitement in the Norfolk Navy-yard, Nov. 16, caused by Mr. George Hill, a well-known gunsmith, doing business on Union Street, going over to the yard, accompanied by his 18-year old daughter, in search of J. D. Potter, a draughtsman of the Steam Engineering Department, and then shooting down Potter by firing two bullets into his body, from the effects of which Potter died the next day. Hill is held without bail under indictment of the U. S. Court. Miss Hill claims that Potter wrote her insulting letters.

LIEUTENANT C. M. MCCARTENEY, who sailed from the United States on the *Omaha*, has been transferred to the *Monocacy*, and latest advices show that his health is better than for some time previous to his departure.

LIEUTENANT F. LEE DENNY, M. C., and Ensign C. W. Jungen, U. S. N., have been admitted to membership in the Navy Mutual Aid Association, increasing the membership to 779, and making the total benefit $3,661.20.

THE large circle of friends of Passed Asst. Paymr. W. W. Galt will view with regret the sudden departure which his orders to the *Michigan* necessitates. Paymaster Galt goes as the relief of Passed Asst. Paymaster T. D. Hoxsey, Jr., detached, settle accounts and then wait orders.

IF it be true, as stated in nearly every daily paper from Maine to California, that Admiral Porter has received but $70 for his literary labors up to date, it is difficult to see what induces him to continue labor of the same unremunerative sort. Probably the Admiral has not disclosed his literary balance sheet to any newspaper man.

LIEUTENANT TIMOTHY DIX BOLLES, son of the late Solicitor of the Navy Department, has been placed on waiting orders after a course at the Naval War College. Mr. Bolles will be remembered in Washington for the excellent assistance rendered at the National Museum in cataloguing the ethnological treasures collected by him during a cruise in Alaska.

COMMANDER W. H. WHITING, U. S. N., has been assigned to duty as the equipment officer of the New York Yard, where he has been on duty since last June. Comdr. Whiting's last service afloat was in command of the training-ship *Saratoga*. He is regarded as a skilful and efficient officer. Comdr. Whiting entered the Service from Wisconsin in 1860.

LIEUTENANT W. H. H. SOUTHERLAND, so well known at the capital from having been on duty in the Hydrographic Office, is now serving a three years' cruise on the *Brooklyn*, and from private advices it appears that he is *the* irrepressible of the ship. His fund of good humor never flags, and woe to the messmate guilty of any slip whereby to point a joke or turn the laugh.

ASSISTANT SURGEON F. W. F. WIEBER, U. S. N., who relieves Dr. Marsteller on the *Iroquois*, is on his first cruise, having been appointed from New York in November, 1884, and his assignment to the flagship *Hartford* is of date of May, 1886. Dr. Wieber has become fairly proficient in Spanish, so his transfer to the *Iroquois* will enable him to perfect himself in "*la idioma bonita*."

LIEUTENANT C. A. FOSTER, U. S. N., now attached to the U. S. S. *Minnesota*, has become quite reconciled to his disappointment at not getting ordnance duty at the Washington yard. While Lieut. Foster's bent is in the direction of guns and cocoa powder, he possesses the fortunate character of adaptability, and the circumstances must be very bad indeed where he cannot accommodate himself to them.

PASSED ASSISTANT SURGEON E. H. MARSTELLER, U. S. N., has been transferred from the *Iroquois* at Callao, to the *Hartford* for passage to San Francisco, whither the latter vessel should be some time before Christmas. Dr. Marsteller has a wife and family in Virginia, and unless he receives an assignment to shore duty on the Pacific side, it is probable that he will enjoy an extended period of waiting orders.

LIEUTENANT W. H. SCHUETZE, whose successful mission to the Lena Delta has been but recently concluded, has completed his report to the Secretary of State, and was, the latter part of last week, placed on waiting orders. Lieut. Schuetze was especially well fitted for this service and it is more than probable that should the "Farthest North" be pushed yet closer to the pole, Mr. Schuetze will be there.

P. A. SURGEON J. H. GAINES, Ensign J. L. Jayne, P. A. Surgeon W. G. G. Willson, Asst. Paymr. S. L. Heap, Comdr. C. H. Davis, Ensign Gilbert Wilkes, Gunner H. R. Yewell, Lieut.-Comdr. Franklin Hanford, Carpenter P. T. Mager, P. A. Paymr. J. A. Ring, P. A. Surgeon F. S. Nash, P. A. Engr. Richard Inch, Comdr. B. J. Cromwell and Lieut. A. Dunlap, registered at the Navy Department during the week.

ALTHOUGH not specially authorized by law, the Bureau of Naval Intelligence is receiving the hearty co-operation of the Secretary of the Navy, and the best evidence of this is seen in recent orders of Lieut. J. C. Colwell from the Naval War College and the above-mentioned Bureau. Lieut. Colwell is looked upon as one of the rising men of the Navy, and his assignment to duty in Washington will add one more accurate compiler to the staff of the Bureau.

LIEUTENANT FRANK A. WILNER, U. S. N., until now on leave in Pontageville, N. Y., has been ordered to duty at the Naval Ordnance Proving Grounds, Annapolis. Mr. Wilner having made a cruise on the China Station, will, no doubt, appreciate the agreeable functions of the proving grounds, and as the actual time occupied depends upon the progress of work at the Ordnance Yard, the duty will not be onerous. Lieut. Wilner was detached from the *Alert* in March of the present year.

CAPTAIN BYRON WILSON, U. S. N., recently in command of the *Shenandoah*, and more lately waiting orders, has been detailed for duty as captain of the Yard at Mare Island. It is understood that this station is quite agreeable to him, as it is in truth to nearly every one in the Service who has experienced its vicissitudes, and as the officers' quarters have been a constant source of carefulness and attention on the part of Civil Engr. Wolcott, the captain may be congratulated on showing the good taste of knowing when he is well off.

CHIEF ENGINEER NATHAN B. CLARK, U. S. N., retired, the projector, in this country, of deflecting armor for war-vessels, has made his permanent residence in Washington, where he is located at 2,620 K street. Mr. Clark's health continues precarious, and but for the natural energy of his character he would long since have given up the fight. Mr. Clark was retired in 1868 as the result of disabilities incurred in the line of duty, and for a few years lived in Philadelphia. His sea service was mostly on blockade duty in the West Gulf. He entered the Navy in May 1861.

ASST. NAVAL CONSTRUCTOR FRANCIS T. BOWLES, U. S. N., was married at Boston, November 17, to Miss Savage, daughter of Mr. and Mrs. Samuel Savage. A reception at the residence of the bride's parents followed the ceremony. After the wedding tour the married couple will go to Washington to reside.

EX SECRETARY WILLIAM E. CHANDLER is still in New York. He has word from home that the Governor will within a day or two appoint as successor to Senator Pike either ex-Governor P. C. Cheney or Mr. Marston, who was Mr. Pike's law partner. Governor Cheney is a wealthy paper manufacturer. Both Marston and Cheney will be candidates before the Legislature next year for election to the place, as well as Mr. Chandler, ex-Senator Rollins, and ex-Senator Patterson.—*N. Y. Tribune.*

RECENT DEATHS.

WE publish this week a General Order announcing to the Army the death of ex-President Arthur. Of him the New York *Sun* well says: "Chester Alan Arthur, 21st President of the United States, died at his house in Lexington avenue, at 5 o'clock Thursday morning, at the age of fifty-six years, one month, and thirteen days. This sad event was not unexpected, but the public loss is none the less deplorable. He was a man of patriotic motives, of high and steady practical wisdom, always faithful to his own convictions of right, warm, gentle and true in every relation of life, cordial to his friends, magnanimous to his foes, scrupulous in obeying his obligations, faithful as a citizen, dignified, just, and conservative as a statesman. He was born for public affairs and for politics, and though he was only elected Vice-President, and rose to the higher office on the death of President Garfield, it is not too much to say that he was one of the most successful and meritorious in our whole list of Presidents. He was a Republican and a partisan,' and with his political ideas he could not be anything else, yet he always bore himself toward the opposing party with courtesy and respect, as toward those seeking by different means the same end of good government: and thus he had friends everywhere. Above all, Arthur was an American, strong, broad, catholic and generous, and every generous heart can join in the admiration, affection and sorrow that will surround his grave." Not long after his establishment in the legal profession Gen. Arthur married Miss Herndon, daughter of Comdr. Herndon, U. S. N., who was lost at sea with his vessel, the *Central America*. They had two children, a son and a daughter, both of whom are living. Mrs. Arthur was a devoted wife, and a woman of many accomplishments. She died in 1880. Gen. Arthur's immediate family, besides his sons and daughter, consists of one brother, Maj. Wm. Arthur, U. S. A., who is stationed at San Antonio, Tex., and five sisters, Mrs. Mary McElroy, wife of John E. McElroy, of Albany; Mrs. Maloma Haynsworth, wife of Capt. Henry J. Haynsworth, A. Q. M., U. S. A.; Mrs. Regina McCaw, a widow; Mrs. Amelia Masten, wife of James H. Masten, of Cohoes, and Miss Annie E. Arthur, of Schenectady.

—

PASSED ASSISTANT ENGINEER FRANCIS M. ASHTON, U. S. N., died Nov. 15, at his residence, 815 South 5th street, Philadelphia, in the 44th year of his age. He was appointed 3d assistant engineer, U. S. N., May 20, 1863, and resigned in 1871, having a good war record. He then went into the grain business at San Francisco, but re-entered the Navy in 1873 as 2d assistant engineer, and was promoted P. A. engineer Dec. 14, 1878. He was on duty at League Island at the time of his death.

—

MRS. FINLEY, widow of Surg. Gen. Clement A. Finley, U. S. A., died at Frankford Arsenal, Pa., Nov. 11. A correspondent writes: About three months since, Mrs. Finley visited her daughter, Mrs. Flagler, wife of Col. Flagler, U. S. A., commandant of the arsenal, and was attacked with the illness that preceded her death, Nov. 16. A number of the relatives and friends of Mrs. Finley and of her late husband joined the family in the religious services, which were conducted in the commandant's dwelling. Rev. James M. Crowell, D. D., read the lesson selected by the Presbyterian Church for such an occasion, and made an interesting address descriptive of the character of the deceased, dwelling particularly upon her firm faith, edifying example and benevolent acts. Her model was Christ, whom she humbly endeavored to follow and imitate. Mrs. Finley was the daughter of the late Dr. Samuel Moore, well known to Philadelphians of the past generation as a physician of great skill, and also prominent in public life as Director of the United States Mint. Mrs. Finley was 74 years old, and had enjoyed excellent health until a few months previous to her death.

THE Illinois Commandery, Loyal Legion, in an obituary notice of the late Major M. L. Courtney, Captain, 25th U. S. Infantry, recount his distinguished services during the war, and say:

Of a quiet and retiring disposition, he was an officer of strong character, great efficiency, and sterling worth; one who could always be counted on in emergencies. As a brother officer he was companionable, affable, and a true friend, as a man, honorable, upright, and just: in every sense, a true companion of the Order. As an illustration of his specially studious nature it may be mentioned that, on leave of absence, he tested the success of his studies in one direction by taking his graduating degree in law. There is a measure of our work in such a companionship which both pride and modesty compels us to recall, while sympathy unites us with his family and all his friends in the great loss we have sustained. We should gather from his life of sterling worth the lessons of true manhood which made him the irreproachable officer, gentleman, and true companion, that they may be our guide in life and be held by us as the whole essentials for companionship in this Order. He has laid away the honored sword he wore, "with charity for all and malice toward none," and has entered into that peace the world cannot give. Without desiring to intrude on any greater grief, we recommend that copies of this brief expression be sent to his family, his regiment, and the ARMY AND NAVY JOURNAL.

OF the late Col. William Potter Wilson, formerly of the 21st U. S. Infantry, and of distinguished war record, the Pennsylvania Commandery of the Loyal Legion say: "It is impossible for his personal friends and Army comrades who met him for ten years past in business or social life every day, to speak of this genial man in other than words of merited praise. None knew him who did not admire the wise counsels, the determined spirit he exhibited in whatever he believed to be right, the courteous gentleman, always the friend, given to hospitality, the warm-hearted advocate of all in distress, and the ardent lover of all who fought by his side in the civil conflict. His happy fireside filled with domestic love, replete with all that is refined in literary and artistic taste, was a gathering place for all his friends who enjoyed his rare conversational talents, his graphic stories of scenes in which he had been an actor, the sincere hospitality of his generous heart. The Army chieftain, Hancock, whom he loved and admired so deeply had but just passed away, and now we bid farewell to his own model staff officer—a true soldier in appearance, in every act, up to the last hour of his life.

MRS. MCCAULEY, wife of Rear Admiral E. Y. McCauley, U. S. N., whose illness we alluded to last week, died at St. Paul, Nov. 9. The Admiral, lately relieved in command of the Asiatic Station, was on his road to St. Paul to be with his wife, and their son, Assistant Surgeon C. N. B. McCauley, U. S. A., was hastily summoned from Camp Poplar River, Montana. The remains were conveyed to Philadelphia, where the funeral services took place from St. Luke's Church, on Tuesday, Nov. 16. There was a large number of relatives and friends of the family at the funeral.

MR. SAMUEL ENGS died at Newport, R. I., Nov. 14, aged 75. To him Newport is indebted for her hospital, which he was instrumental in having erected and endowed. He leaves a widow, two sons, and three daughters, one of whom is the wife of Comdr. Royal B. Bradford, of the U. S. N.

MR. C. A. NEWTON, a prominent citizen of Norfolk, Va., died suddenly in that city Nov. 15. He was a brother of Major-Gen. John Newton, U. S. A.

MR. JOHN HUGHES, who served on the man-of-war *Essex* during the War of 1812, is dead. He resided at Mapleton, Pa., and was 91 years old.

WE regret to note the death, Nov. 13, of the son of Lieut. A. M. Palmer, 24th U. S. Inf., a boy of eight years of age.

NEW PUBLICATIONS.

The reasons for the wonderful success attending the publication of the "Century Illustrated Monthly Magazine" are made sufficiently apparent by an examination of the bound half yearly volume, which includes the numbers from May to October of 1886. The table of contents shows how largely literary talent is centring in the class of publications among which the "Century" holds the first place; not in circulation merely, but in the excellence of its contents, literary and artistic. It gives throughout evidence of thorough and conscientious work. A kindred publication, "St. Nicholas," issued by the same house, The Century Co., New York, is intended for young people, but is quite as interesting to their elders in much of its contents. The serial, "Little Lord Fauntleroy," by Frances Hodgson Burnett, which runs through the two bound volumes for the current year, is, for example, one of those stories which interest young and old alike. The other contents of the two volumes furnish a fitting setting for this rare gem. The only trouble we find with our modern periodicals is that they furnish so much enticing reading that we read too much, especially the children. Impressions succeed each other so rapidly as to efface one another, and fail to leave the decided mark upon character, which our fathers and mothers derived from the thorough reading of a few good books.

"The Full Stature of a Man," a story by Julian Warth, is the first volume of "Round the World Series," published by D. Lothrop and Co., Boston. The scene is laid in New York and its vicinity and the characters are few in number but well drawn and lifelike. There are two heroes with a single heroine, but the author makes the best of the situation and successfully accomplishes the difficult feat of transforming a superfluous lover into a much needed friend. He has shown excellent judgment, however, in selecting as the victim of his skill a man and not a woman. The principal character is the clergyman of "an obscure sect," who on one occasion creates consternation in an Episcopal Church by a sermon hardly calculated to produce the effect described. The freedom of expression in our modern pulpits goes far beyond what this author seems to imagine, and a congregation in the City of New York, where this scene is laid, would hardly be shocked to the extent imagined by such a sermon as is here reported. The story is well written and interesting and has an earnest purpose which is as far removed as possible from the flippant spirit of modern sensational literature.

"Outing" is one of the latest comers among illustrated monthlies, but it does not suffer by comparison with its elders. It has a special field to itself, and this it fills admirably. Its editor, Mr. Poultney Bigelow, belongs to a family which furnishes talent nearly sufficient in itself to provide a monthly feast for the readers of "Outing." Among the articles in Volume VIII., just issued in bound form, are a series of seven by the brother of the editor, Lieut. John Bigelow, Jr., U. S. A. The subject is "After Geronimo." Another interesting series is the "Last Voyage of the Surprise," by the editor himself, and a third, "Ranch Life and Game Shooting in the West," by Theodore Roosevelt, who is an excellent sportsman, in spite of the fact that he shot a little wild in trying to bring down Mr. Hewitt and Mr. George at the same time in the triangular contest for Mayor of New York, just closed. The most unique series in the volume, take it altogether, is Thomas Stevens's "Around the World in a Bicycle."

"Humorous Masterpieces from American Literature" is a series of three pocket volumes, edited by Edward T. Mason, and published by G. P. Putnam's Sons. They contain characteristic extracts from Washington Irving, Hawthorne, Lowell, Holmes, and their compeers, as well as from the works of our later humorous writers, such as Artemas Ward, Josh Billings, Joel Harris, and others whose names readily suggest themselves. We have no literature more distinctively national than that which is here represented, and it is a question whether it will survive under the more artificial conditions which result from our growth in population. At all events, it is an excellent idea to present in one view the characteristics of our national school of humorous writing.

"The Casting Away of Mrs. Lecks and Mrs. Aleshine," which appeared serially in the "Century," and is now issued in book form, is one of Mr. Frank R. Stockton's unique and amusing stories. All who read it will beg for a sequel, since it is impossible not to long to know what became of the Dusants.

GENERAL ORDERS, NO. 84.

HEADQUARTERS OF THE ARMY,
ADJUTANT GENERAL'S OFFICE,
WASHINGTON, November 18, 1886.

I. The following proclamation has been received from the President;

EXECUTIVE MANSION.
WASHINGTON, D. C., November 18, 1886.

To the People of the United States:

It is my painful duty to announce the death of Chester Alan Arthur, lately the President of the United States, which occurred after an illness of long duration at an early hour this morning, at his residence in the city of New York.

Mr. Arthur was called to the chair of Chief Magistracy of the Nation by a tragedy which cast its shadow over the entire Government.

His assumption of the grave duties was marked by an evident and conscientious sense of his responsibilities and an earnest desire to meet them in a patriotic and benevolent spirit.

With dignity and ability he sustained the important duties of his station, and the reputation of his personal worth, conspicuous graciousness, and patriotic fidelity will long be cherished by his fellow-countrymen.

In token of respect to the memory of the deceased it is ordered that the Executive Mansion and the several departmental buildings be draped in mourning for a period of thirty days, and that on the day of the funeral all public business in the departments be suspended.

The Secretaries of War and of the Navy will cause orders to be issued for appropriate military and naval honors to be rendered on that day.

Done at the city of Washington, this eighteenth day of November, in the year of our Lord one thou-
[SEAL.] sand eight hundred and eight-six, and of the Independence of the United States of America the one hundred and eleventh. GROVER CLEVELAND.

By the President:
THOMAS F. BAYARD, Secretary of State.

II. In compliance with the instructions of the President, on the day of the funeral, at each military post, the troops and cadets will be paraded and this order read to them, after which all labors for the day will cease.

The national flag will be displayed at half staff.

At dawn of day 13 guns will be fired, and afterward, at intervals of 30 minutes between the rising and setting of the sun, a single gun, and at the close of the day a national salute of 38 guns.

The officers of the Army will wear crape on the left arm and on their swords; and the colors of the Battalion of Engineers, of the several regiments, and of the U. S. Corps of Cadets will be put in mourning for the period of six months.

The date and hour of the funeral will be communicated to department commanders by telegraph, and by them to their subordinate commanders.

By command of Lieut. Gen. Sheridan.

R. C. DRUM, Adjt. Gen.

GIVE US THE FACTS.

To the Editor of the Army and Navy Journal:

IN the interest of fair play and of exact knowledge of facts it seems proper to ask, "in a spirit of love," who was responsible for the statements respecting Gen. Miles's Apache campaign which crowded the papers a few weeks since, being distributed from Washington as a centre. The quotations were, in brief, these two: (1) That Gen. Miles had disobeyed orders in giving terms that embarrassed the Government in its dealing with the captive Indians, and (2) that Gen. Miles's predecessor was able, before he was relieved, to effect the same result that Miles has, but was not allowed by the Government to do so.

Miles's report, published in the JOURNAL of Nov. 6, shows that quotation first contains two falsehoods; the Lieutenant-General carefully and in terms abstained from giving "specific instructions," so as not to "embarrass" the Department Commander, Gen. Miles, and as to the alleged "terms," they consisted of this: the promise that the Indians should not be killed by the troops. On these terms only Geronimo placed himself and his following entirely at the mercy of his conqueror. It is difficult to see what the mighty pen wielders would have unless they wish brave soldiers to become cowardly murderers and kill unresisting prisoners; also their women and children. It is safe to say that the holder of such an opinion could not be long the holder of a commission in our Army, and while he did hold the commission would never be able to so lead troops as to have any captives of his own to practice his tenets upon. The leader whom soldiers follow through hardships and to wounds and death may not have all of the virtues, but he is never a coward.

As to the second quotation, that Miles's predecessor could have done and was on the point of doing equally well, while it is not a matter in which the general public can well have great interest, still, as the assertion has been made over and over, and with the manifest purpose of belittling Miles's services and withering his newest laurels, it is well to bear in mind that that predecessor, just prior to being relieved, was, it is true, not giving terms, because he was considering terms offered by Geronimo, and that these were the terms: (1) That they (the Indians) should go East *for not exceeding two years;* then to return to the reservation. (2) That they should go at once to their reservation on the old status. (3) That they should continue the war. The first proposition was accepted. What relation, except of contrast, there is between an officer considering such propositions, when they were independently and fiercely presented by an enemy who was the master of the situation and armed to the teeth for war—the officer himself being practically without troops—and an officer surrounded by his own victorious command saying to an utterly worn out and beaten enemy, "I will spare your life," it is hard to see.

And, again, let it be asked who was responsible for the false and injurious statements, and what was his motive in sending them forth?

QUIEN SABE.

THE cashier of the military office in Madrid has absconded, short by $100,000 in his accounts. Other officers, it is said, have largely shared in his peculations.

THE ARMY

G. O. 77, H. Q. A., Oct. 20, 1886.

By direction of the Secretary of War, the following regulation is published to the Army; will be numbered Par. 79½ of the Regulations; and will take effect on the 1st day of January, 1887:

79½. When an officer is granted a leave of absence it shall be charged to the year or years in which it first accrued in order of priority of date, and any balance of accrued leave remaining shall stand to his credit for future leaves; provided, no credit shall stand longer than four years from date of accruing.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 82, H. Q. A., Nov. 11, 1886.

By direction of the acting Secretary of War, Par. 1937 of the Regulations, as amended by G. O. 26, of 1886, from this office, is further amended to read as follows:

1937. The baggage to be transported at the public expense, including mess chests and personal baggage, shall not exceed as follows:

	In the field. lbs.	Changing stations. lbs.
Major general	1,000	2,500
Brigadier general	700	2,500
Field officers	500	1,800
Captain	200	1,500
1st lieutenant	150	1,300
2d lieutenant	150	1,200
Acting assstant surgeon	150	1,000
Veterinary surgeon	150	500
Ordnance. commissary, post quartermaster sergeants, hospital stewards of the first class, and sergeants of the Signal Service		500

These allowances are in excess of the weights transported free of charge under the regular fares by public conveyances, and will be turned over to the Quartermaster's Department for transportation as freight; they may be reduced *pro rata* by the commanding officer when necessary, and may be increased by the Quartermaster General on transports by water, when proper, in special cases.

The change of station allowance of baggage will also be transported from last stations of duty to the homes, as indicated by the records of the Adjutant General's Office, of officers or enlisted men who may be retired, or who die in the service.

By command of Lieut. Gen. Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 83, H. Q. A., Nov. 17, 1886.

The following order has been received from the War Department:

WAR DEPARTMENT, WASHINGTON, Nov. 15, 1886.

By direction of the President that portion of the State of Colorado embraced in the District of New Mexico, Department of Arizona, in which is located Fort Lewis, is transferred to the Department of the Missouri. The commanding general, Department of the Missouri, will assume command of the territory above specified and the troops serving therein.

WM. C. ENDICOTT, Secretary of War.

G. O. 25, c. s., from this office, is modified accordingly.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

CIRCULAR 10, H. Q. A., Nov. 12, 1886.

The following decisions, rulings, etc., have been made during the month of October, 1886, and are published to the Army for the information of all concerned:

DISCHARGE OF HOSPITAL STEWARDS, SECOND CLASS.

Enlisted men detailed as hospital stewards of the second class are discharged, on expiration of term of service, as of the grade they held in their companies.—(Decision Sec. War, Oct. 6, 1886.)

REWARD FOR APPREHENDING A DESERTER.

In view of the decision of the Second Comptroller of the Treasury dated August 11, 1886, the reward of thirty dollars for apprehending a deserter cannot be paid to enlisted men.—(Decision Sec. War, Oct. 7, 1886.)

BOX FOR CLEANING MATERIALS.

The box furnished by the Ordnance Department, containing certain cleaning materials prescribed for the use of the troops, is a durable, well made wooden case, with lock. When the contents of the box are exhausted a new supply is furnished, but the box itself, with proper care, will last for many years, and should not be broken up merely because it is empty.—(Views Chief Ord., approved by Sec. War, letter Oct. 22, 1886.)

FORFEITURE OF PAY.

A garrison court-martial in sentencing a soldier to forfeit one month's pay cannot include the retained pay.—(Decision Sec. War, letter Oct. 23, 1886.)

COMMUTATION OF QUARTERS.

An officer on duty at a station where he is entitled to and in receipt of commutation for quarters is entitled to a continuation of that allowance during his authorized cumulative leave on full pay; but when the officer is first relieved from duty and then granted a leave, he is not entitled to commutation for quarters during his leave, as he was not, when the leave took effect, on duty at the station or entitled to commutation.—(Decision Sec. War, letter Oct. 23, 1886.)

INDIAN SCOUTS.

Indian scouts, whether enlisted for three, six, or twelve months, are subject to the rules and articles of War, the same as other enlisted men of the Army.—(Decision Sec. War, letter Oct. 25, 1886.)

GENERAL SERVICE CLERKS.

General Service clerks and messengers cannot legally be paid commutation of rations.—(Decision Sec. War, letter Oct. 27, 1886.)

GRATUITOUS ISSUE OF BOOTS AND SHOES.

In view of the rapid destruction of the boots and shoes worn by the U. S. troops during the recent operations against Indians in Arizona and New Mexico, such boots and shoes will be replaced gratuitously when the fact is fully established by a board of survey that they have been thus destroyed through no fault of the men to whom they were issued.—(Decision Sec. War, letter Oct. 30, 1886.)

MUSTER OF HOSPITAL COOKS AND NURSES.

An ordinary muster and pay roll is of the nature of an account stated between the United States and the soldier.

Section 3679, Revised Statutes, prohibits the expenditure in any one year of any sum in excess of the appropriation for that year.

Congress having failed to make an appropriation for the payment of extra duty pay to hospital cooks and nurses, it would be in violation of law to muster them for such pay unless certificate on the muster roll be made to conform to G. O. 70, c. s., A. G. O., to the effect that the payment depends upon the future action of Congress, and that such muster creates no claim against the United States.—(Decision Sec. War.)

UNIFORM TO BE WORN BY PAYMASTERS.

Paymasters will hereafter be required to wear undress uniform when paying troops after regular muster.—(Decision Lieut. Gen., letter Oct. 14, 1886.)

USE OF FLAGS AND COLOR GUARDS BY TROOPS NOT HAVING REGIMENTAL ORGANIZATION.

The display of a flag and the use of a color guard with a battalion of troops not at regimental headquarters, or representing a regimental organization, is not proper. Flags issued to regiments according to regulations should be kept in the custody of regimental commanders and paraded when he may so direct. For any other officer to procure and display a flag which has not been regularly and properly issued to his command, or which might probably be refused him should he make requisition for it, seems to be clearly improper.—(Decision Lieut. Gen., letter Oct. 14, 1886.)

POSITION OF OFFICERS OF THE GENERAL STAFF AT REVIEWS.

As officers of the general staff serving at posts are on the staff of a commander, of any degree, it is plain they should place themselves where he instructs. The rank of inspecting officer does not change the status of the post staff.—(Decision Lieut. Gen., letter Oct. 14, 1886.)

FIRES IN STABLES.

Hereafter fires will not be allowed to be kept in any stables at military posts.—(Decision Lieut. Gen., letter Oct. 16, 1886.)

CAMPAIGN CHEVRON.

The campaign against hostile Indians in 1885 and 1886 was not of such magnitude as to entitle the soldiers engaged therein to wear the service-in-war chevron.—(Decision Lieut. Gen., letter Oct. 18, 1886.)

RATION CERTIFICATES.

As it appears from reports and returns received at this office and the office of the Commissary General of Subsistence that paragraph 2167 of the Regulations, in reference to the certificate required to be given when troops are detached from a post or command, is frequently neglected or not strictly complied with, thus causing unnecessary delay and loss either to the Government or to the organizations to which the detachments are temporarily attached for the purpose of drawing rations, the attention of all concerned is specially invited to the matter.

Blank forms of the certificates are now distributed to posts, and the certificate (Form No. 67½, Subsistence Regulations), properly filled out, should be furnished in every case of a company or smaller detachment detached from a post or command. If such certificate is not presented, as required by Par. 2167 of the Regulations, to the commissary from whom the company or detachment next draws rations, he will at once report the fact to his post commander, who will require from the commander of the detachment a report, in writing, stating why it is not furnished and the name and station of the acting commissary of subsistence from whom rations were last drawn. This report will be forwarded by the post commander, at once, to the Adjutant General of the Army.—(Decision Lieut. Gen.)

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 33, DEPT. OF TEXAS, Nov. 6, 1886.

Officers serving in this department, who may be granted leaves of absence, or may be ordered on detached service beyond the limits of the department, or within the department under orders from these headquarters, will report promptly to these headquarters, through intermediate commanders, the respective dates of their departures on leave or detached service from their stations; and on rejoining, will report, in like manner, the respective dates of their return.

G. O. 28, DEPT. OF COLUMBIA, Oct. 27, 1886.

G. O. 25, c. s., H. Q., is revoked, and Capt. Charles A. Woodruff, Chief Com. of Sub., is assigned as A. A. A. G.

G. O. 35, DEPT. OF ARIZONA, Nov. 6, 1886.

Col. B. H. Grierson, 10th Cav., is assigned to the command of the District of New Mexico, and will proceed to Santa Fe, N. M., the established H. Q. of the District.

By command of Brig. Gen. Miles:
M. BARBER, A. A. Adjt.-Gen.

G. O. 2, DIST. OF NEW MEXICO, Nov. 13, 1886.

The undersigned relinquishes command of the District of New Mexico.

L. P. BRADLEY, Colonel 13th Infantry.

G. O. 3. The undersigned assumes command of the District of New Mexico.

The District Staff will remain temporarily as now constituted.

BENJAMIN H. GRIERSON, Colonel 10th Cavalry.

STAFF CORPS AND DEPARTMENTS.

General Officers.

Brig. Gen. Nelson A. Miles will proceed from Whipple Barracks to Forts Lowell and Willcox, A. T., and Fort Bliss, Tex., and thence to Santa Fe, N. M., on public business (S. O. 115, Nov. 5, D. Ariz.)

Quartermasters and Subsistence Departments.

Major Ezra B. Kirk, Q. M., will proceed from Atlanta, Ga., to Fort Sumter, S. C., on public business (S. O., Nov. 17, H. Q. A.)

Major John P. Hawkins, Chief C. of S., will proceed to Pierce, Neb., on public business (S. O. 148, Nov. 8, D. Platte).

Capt. J. E. Weston, Chief C. of S., will proceed to Forts Lowell, Huachuca and Grant, A. T., Fort Bliss, Tex., and Fort Wingate, N. M., on public business (S. O. 115, Nov. 5, D. Ariz.).

Pay Department.

The leave granted Major Charles I. Wilson, Paymaster, is extended one month (S. O., Nov. 13, H. Q. A.)

Medical Department.

Par. 12, S. O. 252, Oct. 29, H. Q. A., is so amended as to direct that Capt. Joseph K. Corson, asst. surg., be relieved from duty at Jefferson Barracks, Mo., on receipt of this order. Par. 11, S. O. 245, Oct. 22, H. Q. A., is so amended as to direct that the leave of absence for one month therein granted Capt. Joseph K. Corson, asst. surg., shall take effect upon his being relieved from duty at Jefferson Barracks, Mo. So much of par. 10, S. O. 227, Sept. 30, H. Q. A., as directs Major Wm. H. Gardner, surg., to report in person to the commanding general, Dept. of the East, for assignment to duty, is amended so as to direct him to so report upon the expiration of the leave of absence granted him (S. O., Nov. 17, H. Q. A.)

The following changes in the stations and duties of officers of the Medical Department are ordered: So much of par. 8, S. O, 257, Nov. 4, H. Q. A., as directs Major Van Buren Hubbard, surg., to report to the Comdg. Gen., Div. of the Mo., for duty as attending surgeon and examiner of recruits, is revoked, and he will report at Columbus Barracks, O., for duty. Major Charles R. Greenleaf, surgeon, will be relieved from duty at Columbus Barracks, O., and will report in person to the Comdg. Gen., Div. of the Mo., as attending surgeon at the H. Q. of that division and as examiner of recruits at Chicago, Ill. (S. O., Nov. 17, H. Q. A.)

Leave for one month upon surgeon's certificate is granted A. A. Surg. J. M. Kollock, Fort Cœur d'Alene (S. O. 194, Nov. 3, D. Columbia).

Leave for one month is granted Major Charles Smart, Surg. (S. O., Nov. 13, H. Q. A.)

Leave for twenty days is granted 1st Lieut. Carter N. B. Macauley, Asst. Surg., Camp Poplar River, M. T. (S. O. 118, D. Dakota.)

1st Lieut. C. B. Ewing, Asst. Surg., is relieved from duty at Fort Supply, and will proceed to Fort Leavenworth, Kansas, and report for duty (S. O. 126, Nov. 6, Dept. Mo.)

Major J. V. D. Middleton, Surg., is relieved from duty in this Dept. (S. O. 127, Nov. 8, Dept. Mo.)

Hospl. Steward Francis W. Fitz-Gerald is discharged the service (S. O. 173, Nov. 12, Div. Mo.)

Hospl. Steward John B. Comber will report to the Comdg. Gen., Dept. of Texas, for assignment to duty (S. O., Nov. 16, H. Q. A.)

Engineers and Ordnance Departments.

Major Amos Stickney, C. E., will proceed to Mount Carmel and Grayville, Ill., and Kelly's Ripple, White River, Ind., on duty connected with works under his charge (S. O. 173, Nov. 12, C. E.)

Lieut. Col. George L. Gillespie, C. E., will proceed to Newburyport Harbor, Mass., and to Gloucester Harbor, Mass., on duty connected with works under his charge (S. O. 175, Nov. 15, C. E.)

Capt. Daniel W. Lockwood, C. E., will proceed to harbor at St. Joseph, Mich., on duty connected with works under his charge (S. O. 175, Nov. 15, C. E.)

Lieut. Wm. M. Black, C. E., will proceed to Indian River between Haul-over and Gilbert's Bar, Fla., and to Tampa and Clearwater Harbor, including Anclote and St. Joseph's bays and the narows into Boga Ciega Bay, Fla. on duty connected with works under his charge (S. O. 175, Nov. 15, C. E.)

Capt. Wm. H. Bixby, C. E., will proceed to Alma, N. C., and by river to Nichols, S. C., to Supply, and to mouth of Lockwood's Folly River, N. C., to Alma, N. C., and Georgetown, S. C., to Salisbury, N. C., and down the Yadkin River to Cheraw, S. C., to Marion, N. C., and Chester, S. C., to Georgetown and Bull's Bay, S. C., on duty connected with works under his charge (S. O. 174, No. 13, C. E.)

By direction of the Secretary of War, the Board of Officers of the Corps of Engineers on building and repair of levees on the Mississippi River, consisting of Major Charles W. Raymond, Capt. Wm. T. Rossell, and Capt. Smith L. Leach, will convene at Memphis, Tenn., at as early a day as practicable upon the call of the Senior Member, for the purpose of taking immediate action on the subject of closing gaps in the levees along the Yazoo front of the Lake Providence Reach and in the levees along the Tensas front (S. O. 172, Nov. 11, C. E.)

Capt. Wm. T. Rossell, C. E., will proceed to Wilson's Point, La., on duty connected with works under his charge (S. O. 172, Nov. 11, C. E.)

Lieut. William M. Black, C. E., will proceed to Wakulla Springs and Saint Marks, Fla., on duty connected with works under his charge (S. O. 172, Nov. 11, C. E.)

Lieut. Col. Henry M. Robert, C. E., will proceed to Fort Delaware, to the fort and mortar battery opposite Fort Delaware, and to the battery at Finn's Point, N. J., for the purpose of making an inspection at those points (S. O., Nov. 13, H. Q. A.)

Capt. Dan C. Kingman, C. E., will be relieved from duty as engineer officer, Dept. of the Platte, and will take station at New Orleans, relieving Maj. Charles W. Raymond, C. E., of his present duties. Maj. Raymond, upon being relieved, will take station in Washington, reporting to the Chief of Engineers for duty in his office (S. O., Nov. 13, H. Q. A.)

Leave for fifteen days is granted Capt. Andrew H. Russell, Chief Ord. Officer. During the absence of Capt. Russell, Capt. Wm. S. Patten, A. Q. M., will perform his duties (S. O. 192, Nov. 1, D. Columbia).

The Chief Ordnance Officer will proceed to Dept. H. Q. on official business (S. O. 119, Nov. 10, D. Dakota).

The C. O., Fort McHenry, Md., will send a reliable sergeant to Fort Delaware, for duty as acting ord. sergt. during the illness of Ord. Sergt. James Maxwell (S. O, 186, Nov. 18, Div. Atlantic).

Ord. Sergt. Wm. Byrnes, recently appointed from sergt., Co. B, 19th Inf., will proceed to Fort Delaware, Del., to relieve Ord. Sergt. James Maxwell, who will proceed to Fort McHenry, Md., and await orders for his retirement (S. O., Nov. 16, H. Q. A.)

Ord. Sergt. Wm. Land, recently appointed from 1st sergt., Troop E, 2d Cav., is assigned to duty at Fort Walla Walla, relieving Ord. Sergt. Joseph Rush, who will proceed to Fort Gibson, I. T., for duty (S. O., Nov. 16, H. Q. A.)

THE LINE.

Changes of Stations of Troops Ordered.

As reported to the Adjutant-General's Office during the week ending November 13, 1886:

Troop M, 4th Cav., to Fort McDowell, Ariz.
Co. H, 1st Inf., to Fort McDermit, Nev.
Co. K, 1st Inf., to Angel Island, Cal.
Cos. G, I, and K, 2d Inf., to Fort Omaha, Neb.
Hdqrs. and Cos. A, B, E, F, G, and H, 8th Inf., to Fort Niobrara, Neb.
Cos. C and I, 8th Inf., to Fort Robinson, Neb.
Cos. D and K, 8th Inf., to Fort Bridger, Wyo.
Co. D, 16th Inf., to Fort Ringgold, Tex.
Co. D, 19th Inf., to Fort McIntosh, Tex.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., **B, E, F, G,** and **I,** Ft. Walla Walla, Wash. T.; **A** and **K,** Presidio of San Francisco, Cal.; **C** and **M,** Ft. Bidwell, Cal.; **D,** Boise Bks., Idaho; **H,** Ft. Spokane, Wash. T.; **L,** Ft. Cœur d'Alene, Idaho.

Leave for one month is granted Capt. Eli L. Huggins, Fort Walla Walla (S. O. 194, Nov. 3, D. Columbia.

3rd Cavalry, Colonel Albert G. Brackett.

Hdqrs., C, F, L, and M, Ft. Davis, Tex.; A, Ft. Concho, Tex.; G, Camp at Eagle Pass, Tex.; E, Camp Rice, Tex.; B, Camp Pena Colorado, Tex.; D and H, Ft. Sill, Ind. T.; I and K, Ft. Elliott, Tex.

1st Lieut. Joseph T. Dickman is appointed Regimental Adjutant, vice Allen, whose resignation as Adjutant is accepted. 1st Lieut. James Allen is assigned to Troop M (Orders 98, Nov. 7, 3d Cav.)

The leave for one month granted 1st Lieut. Arthur C. Ducat, Jr, is extended one month (S. O. 174, Nov. 15, Div. M.)

Lieut. A. C. Ducat and Sergt. J. Brennan, L, have qualified as sharpshooters.

Sergt. W. J. Merrill, B, has qualified as a sharpshooter.

4th Cavalry, Colonel William B. Royall.

Hdqrs., B, D, E, F, H, and K, Ft. Huachuca, Ariz.; A, Ft. Lowell, Ariz.; C, G, and I, Ft. Bowie, Ariz.; L, Ft. Stanton, N. M.; M, Ft. McDowell, Ariz.

Leave for one month, on Surgeon's certificate, is granted 1st Lieut. A. L. Smith, Fort Huachuca, A. T. (S. O. 117, Nov. 10, D. Ariz.)

Leave for four months, with permission to leave the U. S., is granted Capt. Henry W. Lawton (S. O., Nov. 17, H. Q. A.)

Sergt. W. Young and Pvt. E. A. Sullivan, L, have qualified as sharpshooters.

5th Cavalry, Colonel Wesley Merritt.

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

Leave for one month, to take effect on or before Nov. 30, with permission to apply for an extension of one month, is granted 1st Lieut. Ebenezer Swift, Adjt. (S. O. 126, Nov. 6, Dept. M.)

2d Lieut. William E. Almy, on the expiration of his leave, will report to the C. O. Jefferson Barracks for duty at that depot (S. O., Nov. 16, H. Q. A.)

Pvt. N. P. Lundgren, Band, and Sergt. C. Gregory, L, have qualified as sharpshooters.

6th Cavalry, Colonel Eugene A. Carr.

Hdqrs., A, C, G, and L, Ft. Bayard, N. M.; I and K, Ft. Wingate, N. M.; B and F, Ft. Lewis, Colo.; D and H, Ft. Stanton, N. M.; M, Ft. Leavenworth, Kas.; E, Ft. Union, N. M.

1st Lieut. William Baird will report to the C. O. Jefferson Barracks for duty at that depot (S. O., Nov. 12, H. Q. A.)

7th Cavalry, Colonel James W. Forsyth.

Hdqrs. B, C, D, G, K, and M, Ft. Meade, Dak.; E and H, Ft. Yates, Dak.; F and L, Ft. Buford, Dak.; A, Ft. Keogh, Mont.; I, Ft. Totten, Dak.

Leave for fifteen days is granted Capt. James M. Bell, to take effect upon being relieved from attendance as witness before the U. S. Court at Omaha (S. O. 119, Nov. 10, D. Dak.)

S. O. 260, directing 1st Lieut. Ernest A. Garlington to repair to Washington and report to the Adjutant-General, is revoked (S. O., Nov. 13, H. Q. A.)

8th Cavalry, Colonel Elmer Otis.

Hdqrs., C, and H, San Antonio, Tex.; A, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; D, Camp Del Rio, Tex.; E, F, G, K, and L, Ft. Clark, Tex.; B and M, Ft. Brown, Tex.

Capt. L. T. Morris will return to Fort Clark, Tex. (S. O. 128, Nov. 11, Dept. M.)

A San Antonio despatch says: "Wilhelm Marx and F. Spintig, 8th Cav. Band, were crossing Maverick Park Wednesday night, and discovered a neat little box in the path. Spintig took the box up, opened it, and held the apparatus close to his face. While pulling the drawer out a terrible explosion occurred. The musician's beard was scorched from his face, and both eyes were so horribly burned that it is thought his sight has been destroyed. An examination of the box proves it to be an infernal machine of ingenious construction."

9th Cavalry, Colonel Edward Hatch.

Hdqrs., D, and H, Ft. McKinney, Wyo.; C, F, and K, Ft. Robinson, Neb.; A, G, and I, Ft. Niobrara, Neb.; M, Ft. Washakie, Wyo.; B and E, Ft. Du Chesne, Utah (Post-office address via Ouray, Utah); L, Ft. Leavenworth, Kas.

The C. O. Jefferson Barracks will send a reliable man to Detroit to report to Capt. John S. Loud for duty (S. O. 157, Nov. 8, R. S.)

Leave for one month is granted 1st Lieut. W. L. Finley (S. O. 128, Nov. 11, Dept. M.)

The leave granted Capt. Clarence A. Stedman is extended two months (S. O., Nov. 16, H. Q. A.)

10th Cavalry, Colonel Benjamin H. Grierson.

Hdqrs., E, K, and L, Ft. Grant, A. T.; B, Whipple Bks., A. T.; A and H, Ft. Apache, A. T.; I and M, Ft. Verde, A. T.; C, D, F, and G, Ft. Thomas, A. T.

Col. B. H. Grierson is assigned to the command of the Dist. of New Mexico (G. O. 35, Nov. 6, D. Ariz.)

2nd Artillery, Colonel Romeyn B. Ayres.

Hdqrs., G, and L, St. Francis Bks., Fla.; A* and E, Little Rock Bks., Ark.; B and H, Atlanta, Ga.; C and D, Mount Vernon Bks., Ala.; F,* Ft. Leavenworth, Kas., K, Ft. Monroe, Va.; I and M, Jackson Bks., La.

* Light battery.

In a regimental order of Nov. 11, Gen. R. B. Ayres announces the death, Nov. 4, of 1st Lieut. N. Wolfe, recounts his services, and says: "During his long service in the 2d Artillery, Lieut. Wolfe endeared himself to his brother officers, by his frank and manly bearing, and by his unusually attractive social qualities. The members of his family have the sincere sympathy of the regiment in their great affliction. As a mark of respect to the memory of Lieut. Wolfe, the regimental colors will be draped, and the officers of the regiment will wear the usual badges of mourning for thirty days."

4th Artillery, Colonel Clermont L. Best.

Hdqrs., B,* D, E, G, and L, Ft. Adams, R. I.; A and C, Ft. Trumbull, Conn.; F,* Ft. Snelling, Minn.; H and K, Ft. Warren, Mass.; I, Ft. Monroe, Va.; M, Ft. Preble, Me.

* Light battery.

1st Lieut. Henry H. C. Dunwoody, A. S. O., will proceed to Philadelphia and carry out special instructions (S. O., Nov. 13, H. Q. A.)

5th Artillery, Colonel John Hamilton.

Hdqrs., F,* I, H, and M, Ft. Hamilton, N. Y.; A, C, and L, Ft. Columbus, N. Y.; G, Ft. Monroe, Va.; B, Ft. Wadsworth, N. Y.; D,* Ft. Omaha, Neb.; E, Ft. Schuyler, N. Y.; K, Ft. Wood, N. Y. H.

* Light battery.

Leave for ten days is granted Capt. Charles Morris, Fort Columbus, N. Y. H. (S. O. 186, Nov. 18, Div. A.)

The C. O. Fort Wadsworth, N. Y. H., will issue a furlough for one month to Sergt. Frank Smith, Bat. B (S. O. 182, Nov. 12, Div. A.)

Corpl. Paul Sommer has been promoted sergeant and Private Edward L. Swart appointed corporal in Light Bat. F.

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

1st Lieut. William Gerlach, A. C. S. at Fort Missoula, will send, by express, to the nearest depository, all subsistence funds not required (S. O. 118, Nov. 8, D. Dak.)

4th Infantry, Colonel William P. Carlin.

Hdqrs., C, D, E, and H, Ft. Cœur d'Alene, Idaho; A, B, F, I, and K, Ft. Spokane, Wash. T.; G, Boise Barracks, Idaho.

The attendance of 2d Lieut. Charles McQuiston being no longer required as witness before the G. C.-M. at Vancouver Barracks, he will rejoin his station, Fort Cœur d'Alene (S. O. 192, Nov. 1, D. Columbia.)

Major J. Ford Kent will inspect Ord. stores, Q. M. stores, and C. and G. E. at Fort Spokane, for which Capt. Thomas F. Quinn is accountable (S. O. 195, Nov. 4, D. Columbia.)

6th Infantry, Colonel Alex. McD. McCook.

Hdqrs., H, and I, Ft. Leavenworth, Kas.; A, B, C, E, F, and G, Ft. Douglas, Utah; D, Camp on Montezuma Creek, San Juan County, Utah; K, Salt Lake City, Utah.

1st Lieut. Arthur L. Wagner, not being available for the duty assigned him in S. O. 142, 1st Lieut. David L. Craft, Salt Lake City, will perform the duty assigned Lieut. Wagner in that order (S. O. 149, Nov. 10, D. Platte.)

8th Infantry, Colonel August V. Kautz.

Hdqrs., A, B, E, F, G, and H, Ft. Niobrara, Neb.; C and I, Ft. Robinson, Neb.; D and K, Ft. Bridger, Wyo.

S. O. 112 is amended so far as to authorize 1st Lieut. J. W. Summerhayes, R. Q. M., to return to Fort Lowell, A. T., via Colton, Cal., owing to his impaired health and the impracticability of the usually shortest travelled route (S. O. 115, Nov. 5, D. Ariz.)

2d Lieut. G. W. Ruthers is relieved from special duty at San Carlos, and will join his company (C) at Fort Mojave, A. T. (S. O. 115, Nov. 5, D. Ariz.)

Capt. A. W. Corliss is relieved as recruiting officer at Fort Mojave, A. T. (S. O. 115, Nov. 5, D. Ariz.)

So much of S. O. 247 as directs 2d Lieut. Frank Owen to proceed to join his company (K, then at Fort Huachuca, A. T.), is amended so as to direct him to report to the C. O. 8th Inf., Fort Niobrara, Neb., for assignment to duty with his company (S. O., Nov. 12, H. Q. A.)

9th Infantry, Colonel John S. Mason.

Hdqrs., C, and F, Whipple Bks., A. T.; B and D, Ft. Thomas, A. T.; H and I, Ft. Union, N. M.; E, Ft. Wingate, N. M.; A and G, Ft. Apache, A. T., K, Ft. Verde, A. T.

Capt. Morris C. Foote has been granted four months' leave (S. O., Nov. 18, H. Q. A.)

10th Infantry, Colonel Henry Douglass.

Hdqrs., F and H, Ft. Bliss, Tex.; B, C, and I, Ft. Union, N. M.; A and E, Ft. Lyon, Colo.; G and K, Uncompahgre, Colo.; D, Ft. Selden, N. M.

1st Lieut. D. F. Stiles, G, has qualified as sharpshooter.

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., A, D, E, and K, Ft. Sully, D. T.; B, C, F, and H, Ft. Yates, D. T.; G, Ft. A. Lincoln, D. T.; I, Ft. Bennett, D. T.

The telegraphic instructions to 1st Lieut. Ralph W. Hoyt, Bismarck, contemplating his being governed by the subpœna to appear before the U. S. District Court at Yankton, D. T., Nov. 9, are confirmed (S. O. 118, Nov. 8, D. Dak.)

A furlough for four months is granted Sergt. Clem Weber, Co. I (S. O. 172, Nov. 11, Div. M.)

12th Infantry, Colonel Edwin F. Townsend.

Hdqrs., A, B, D, F, G, and I, Madison Bks., N. Y.; C, Plattsburgh Bks., N. Y.; E and K, Ft. Niagara, N. Y.; H, Ft. Ontario, N. Y.

The leave granted Col. Edwin F. Townsend is extended thirteen days (S. O. 183, Nov. 15, Div. A.)

13th Infantry, Colonel Luther P. Bradley.

Hdqrs., D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth, Kas.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.

1st Lieut. J. H. H. Peshine is appointed recruiting officer at Fort Mojave, A. T. (S. O. 115, Nov. 5, D. Ariz.)

In compliance with telegraphic instructions from Hdqrs. Div. of Pacific, the Hdqrs. of the 13th Inf. are transferred from Santa Fe to Fort Wingate, N. M., the change of station to be accomplished as early as practicable. The Q. M. Dept. will furnish the necessary transportation and for the authorized allowance of officer's baggage, regimental and public property (S. O. 116, Nov. 8, D. Ariz.)

Leave for four months, to take effect about Dec. 13, is granted 2d Lieut. Marion B. Saffold (S. O., Nov. 12, H. Q. A.)

The leave granted 2d Lieut. Charles S. Hall is extended one month (S. O., Nov. 12, H. Q. A.)

The unexpired portion of the leave of absence granted Lieut.-Col. John C. Bates is revoked, and he will proceed to join his station in the Dept. of Arizona (S. O., Nov. 17, H. Q. A.)

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, and I, Vancouver Bks., Wash. T.; A, Ft. Townsend, Wash. T., K, Ft. Klamath, Ore.

Leave for one month is granted 1st Lieut. Joseph A. Sladen, Vancouver Barracks (S. O. 194, Nov. 3, D. Columbia.)

Before a G. C.-M. at Vancouver Barracks, W. T., of which Col. William P. Carlin, 4th Inf., was president, and Capt. William H. Bisbee, 4th Inf., J.-A., was tried 1st Lieut. Albert Austin, 14th Inf. Charge—"Conduct to the prejudice," etc. (Seven specifications, not given in the order.) Plea—"Not guilty." Finding—Of the charge, "Guilty." Sentence—"To forfeit to the U. S. $25 per month of his monthly pay for four months, and to be confined to the limits of the post where his company may be serving for the same period, and to be reprimanded by the Department Commander." The proceedings, finding, and sentence are approved, and the sentence will be duly executed, except so much of it as confines him to the limits of the post for four months, which is remitted. In accordance with the sentence of the court, the Department Commander desires to impress upon Lieut. Austin that any one who cannot make use of intoxicating liquor without becoming its slave should abandon its use entirely, and this is especially true of one in the Military Service who, if he cannot control himself, is unfit to be placed in control of others. Lieut. Austin will be released from arrest and returned to duty with his company (G. C.-M. O. 21, Nov. 6, D. Columbia.)

15th Infantry, Colonel Robert E. A. Crofton.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

1st Lieut. William O. Cory will return to his station, Fort Buford, D. T. (S. O. 118, Nov. 8, D. Dak.)

The leave for one month granted 1st Lieut. Edward S. Chapin is extended fifteen days (S. O. 175, Nov. 16, Div. M.)

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., B, C, F, and H, Ft. Concho, Tex.; E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; A, G, and K, San Antonio, Tex.; D, Ft. Ringgold, Tex.

Major John B. Parke is assigned to command of Fort Ringgold (S. O. 155, Nov. 5, D. Tex.)

Co. D will be relieved from duty at Fort McIntosh and will march to Fort Ringgold and take station (S. O. 155, Nov. 5, D. Tex.)

1st Sergts. E. Nissen, A, and W. Plesier, C; Corpl. A. H. Caldwell, F, and 2d Lieut. G. I. Putnam, H, have qualified as sharpshooters.

17th Infantry, Colonel Alexander Chambers.

Hdqrs., A, C, D, E, F, G, I, and K, Ft. D. A. Russell, Wyo.; B, Camp Medicine Butte, Wyo.; H, Ft. Bridger, Wyo.

The leave granted 1st Lieut. George Ruhlen, Fort D. A. Russell, Wyo., is extended fifteen days (S. O. 148, Nov. 8, D. Platte.)

A correspondent writes: "Co. A (Van Horn) has made the following at skirmish practice: Hits on standing figures, 155; kneeling figures, 171; lying figures, 76, or a total of 402 hits out of a possible 440, or 91.36 out of a possible 100. This beats the record and is something to be proud of."

18th Infantry, Colonel John E. Yard.

Hdqrs., A, B, and D, Ft. Hays Kas.; E and F, Ft. Leavenworth, Kas.; C and I, Ft. Gibson, I. T.; G, H, and K, Ft. Riley, Ks.

1st Lieut. W. T. Wood (recently promoted) will proceed to Fort Riley and report for duty with his company, H (S. O. 127, Nov. 8, Dept. M.)

Leave for two months, to take effect about Dec. 12, is granted 2d Lieut. Charles B. Hardin, Fort Hays (S. O. 174, Nov. 15, Div. M.)

A furlough for four months, with permission to go beyond sea, is granted Principal Musician Oscar Grett (S. O. 173, Nov. 12, Div. M.)

The Kansas City *Times* says: "Tommy Pendergast, Co. F, Tuesday night was nearing the reservation homeward-bound when he was halted by 'Roman Nose,' the Indian, released a short time ago, demanding a dollar. This Tommy claimed he did not have, but told him he had something in a bottle. Roman Nose then grabbed him by the neck and searched him, finding Tommy had told the truth. During the searching the bottle dropped to the ground, and while Roman Nose stooped to pick it up Tommy made good his escape by returning to the city on double time. Roman Nose was arrested and taken before Gen. McCook."

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, E, F, H, and K, Ft. Clark, Tex.; D, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; G, Ft. Brown, Tex.

Co. D will be relieved from duty at Fort Ringgold and will march to Fort McIntosh and take station (S. O. 155, Nov. 5, D. Tex.)

The furlough to be granted Principal Musician John W. Whiteley will take effect about April 1, 1887 (S. O. 172, Nov. 11, Div. M.)

The extension of leave on Surgeon's certificate granted Capt. Emerson H. Liscum is further extended three months on Surgeon's certificate (S. O., Nov. 13, H. Q. A.)

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assiniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

1st Lieut. Henry A. Greene, Adjt., is detailed for duty on Gen. Rec. Service at Fort Assiniboine, vice 1st Lieut. John B. Rodman, relieved (S. O. 119, Nov. 10, D. Dak.)

Leave for one month, with permission to apply for an extension of ten days, is granted Major David D. Van Valzah (S. O. 119, Nov. 10, D. Dak.)

The C. O. Camp Poplar River will grant a furlough for one month to Sergt. Julian Fortain, Co. I (S. O. 118, Nov. 8, D. Dak.)

21st Infantry, Colonel Henry A. Morrow.

Hdqrs., A, C, E, and G, Ft. Sidney, Neb.; D and H, Ft. Bridger, Wyo.; B, F, I, and K, Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

1st Lieut. Edward S. Farrow is detailed for duty on Gen. Rec. Service at Fort Bridger, Wyo., in place of 1st Lieut. Francis E. Eltonhead, relieved (S. O. 149, Nov. 10, D. Platte.)

Leave for two months, to take effect when his services can be spared by his post comdr., is granted 1st Lieut. Joseph W. Duncan, Fort Du Chesne, Utah (S. O. 176, Nov. 17, Div. M.)

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

The leave granted Capt. Will W. Daugherty is extended two months (S. O., Nov. 16, H. Q. A.)

23rd Infantry, Colonel Henry M. Black.

Hdqrs., F, G, H, and I, Ft. Wayne, Mich.; A and B, Ft. Brady Mich.; C and D, Ft. Porter, N. Y.; E and K, Ft. Mackinac, Mich.

2d Lieut. J. A. Dapray, A. D. C., will proceed on public business to Albuquerque, N. M. (S. O. 115, Nov. 5, D. Ariz.)

The C. O. David's Island, N. Y. H., will detail three reliable men and order them to proceed to Camden, N. J., and report to 1st Lieut. Charles H. Heyl, recruiting officer, for duty as members of his recruiting party (S. O. 160, Nov. 12, R. S., N. Y.)

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

The C. O. Fort Snelling will grant a furlough for fifty days to 1st Sergt. A. J. Smith, Co. B (S. O. 119, Nov. 10, D. Dak.)

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, November 13, 1886.

PROMOTIONS.

2d Lieutenant Edward H. Catlin, 2d Artillery, to be 1st Lieutenant, November 4, 1886, vice Wolfe, deceased.

2d Lieutenant George N. Chase, 4th Infantry, to be 1st Lieutenant, November 10, 1886, vice Scott, deceased.

CASUALTY.

1st Lieutenant John Scott, 4th Infantry, died November 10, 1886, at St. Elizabeth Hospital, District of Columbia.

Courts-martial.

The following courts have been ordered:

At Fort Verde, A. T., Nov. 8. Detail: Major C. B. Mc-

Lellan and Capt. T. A. Baldwin, 10th Cav.; Capt. Leonard Hay, 9th Inf.; 1st Lieut E. A. Mearns, Asst. Surg.; 1st Lieut. M. F. Eggleston and 2d Lieut. H. S. Whipple, 10th Cav., and 1st Lieut. J. McB. Stembel, 9th Inf., J.-A. (S. O. 115, Nov. 5, D. Ariz.)

At Fort Bayard, N. M., Nov. 10. Detail: Lieut.-Col. A. P. Morrow, 6th Cav.; Major Van Buren Hubbard, Surg.; Capt. T. C. Tupper, 6th Cav.; Capts. J. B. Guthrie and H. G. Cavenaugh, 13th Inf.; 1st Lieut. J. N. Glass, 6th Cav.; 2d Lieut. W. S. Biddle, Jr., 13th Inf., and 1st Lieut. G. R. Cecil, 13th Inf., J.-A. (S. O. 115, Nov. 5, D. Ariz.)

At Madison Barracks, N. Y., Nov. 15. Detail: Capts. Harry C. Egbert and Alex. B. MacGowan, 12th Inf.; Capt. Edward T. Comegys, Asst. Surg.; Capts. David J. Craigie and James Halloran, 1st Lieut. Frederick Von Schrader, 2d Lieuts. Charles W. Abbot, Jr., David J. Baker, Jr., Benjamin A. Poore, Walter H. Gordon, and George J. Godfrey, 12th Inf., and 1st Lieut. Robert K. Evans, 12th Inf., J.-A. (S. O. 182, Nov. 12, Div. A.)

At Jackson Barracks, La., Nov. 19. Detail: Major James W. Scully, Q. M. Dept.; Capt. Joseph G. Ramsay, 2d Art.; Capt. William H. Nash, Sub. Dept.; Capt. William P. Vose, 1st Lieuts Alexander D. Schenck and Edward H. Catlin, 2d Art., and 1st Lieut. Lotus Niles, 2d Art., J.-A. (S. O. 183, Nov. 15, Div. A.)

At Fort Monroe, Va., Nov. 18. Detail: Major Joseph C. Baily, Surg.; Major Royal T. Frank, 1st Art.; Major Alexander C. M. Pennington, 4th Art.; Capt. John H. Calef, 2d Art.; Capt. George H. Torney, Asst. Surg.; Capt. Charles A. Booth, Q. M. Dept.; Capt. Frank E. Nye, Sub. Dept.; Capt. William A. Kobbé and 1st Lieut. Henry B. Osgood, 3d Art., and 2d Lieut. Adelbert Cronkhite, 4th Art., J.-A. (S. O. 183, Nov. 15, Div. A.)

At Fort Adams, R. I., Nov. 18. Detail: Capts. John Egan, Arthur Morris, and John W. Roder, 1st Lieuts. Richard P. Strong and Harry R. Anderson, 4th Art.; 1st Lieut. Richard W. Johnson, Asst. Surg.; 2d Lieuts. Charles L. Corthell, John E. McMahon, and Walter N. P. Darrow, 4th Art., and 1st Lieut. Charles A. L. Totten, 4th Art., J.-A. (S. O. 183, Nov. 15, Div. A.)

At Fort Marcy, N. M., Nov. 18. Detail: Major P. J. A. Cleary, Surg.; Capt. A. R. Chaffee, 6th Cav.; Capt. E. B. Atwood, A. Q. M.; Capt. Norton Strong, Asst. Surg.; Capt. J. J. Clague, C. S.; Capt. J. C. Chance, 13th Inf.; Capt. J. B. Kerr and 2d Lieut. F. G. Hodgson, 6th Cav.; 2d Lieut. E. M. Johnson, Jr., 10th Inf., and 2d Lieut. W. L. Buck, 13th Inf., J.-A. (S. O. 116, Nov. 8, D. Ariz.)

—o—

Army Boards.

By direction of the Secretary of War, and in pursuance of the provisions of the act of Congress making appropriation for sundry civil expenses for the fiscal year ending June 30, 1887, approved Aug. 4, 1886, which provides "for the construction and completion of a new wharf, and improvements to the roadway leading thereto, on the Government reservation at Fortress Monroe, Virginia," a Board of Officers, to consist of Col. John C. Tidball, 1st Art.; Lieut.-Col. John G. Chandler, Deputy Q. M. Gen., and Major William R. King, Corps of Engrs., is appointed to meet at Fort Monroe, Va., Nov. 29, 1886, to select and report upon the most suitable site and upon the plans for the wharf, and also upon the most suitable piers and other material of construction (S. O., Nov. 17, H. Q. A.)

A Board of Officers is appointed to meet at Fort Bayard, N. M., to examine into and report upon the qualifications of Q. M. Sergt. George Athorn, 6th Cav., and such other enlisted men as shall be ordered before it, for appointment as post quartermaster sergeant. Detail: Col. E. A. Carr, Capt. T. C. Tupper, and 1st Lieut. W. H. Carter, R. Q. M., 6th Cav. (S. O. 116, Nov. 8, D. Ariz.)

A Board of Survey will meet at Portland, Ore., Nov. 4, to fix responsibility for the imperfect condition of O. and O. stores, shipped by Capt. C. A. H. McCauley, A. Q. M., Omaha, to Capt. A. H. Russell, Vancouver Barracks. Detail: Capt. William S. Patten, A. Q. M.; 1st Lieut. James N. Allison, 2d Cav., I. R. P., and 1st Lieut. Edward Burr, C. E, E. O. (S. O. 192, Nov. 1, D. Columbia.)

A Board, to consist of 1st Lieuts. H. H. C. Dunwoody and Thomas M. Woodruff, A. S. O., and 2d Lieut. F. M. M. Beall, Signal Corps, will assemble for the purpose of fixing the responsibility for the loss of certain line receipts (S. O. 116, Nov. 8, Sig. Office.)

A Board, to consist of 1st Lieut. H. H. C. Dunwoody, A. S. O.; 2d Lieuts. Fielder M. M. Beall and James Mitchell, Signal Corps, will assemble to draw up instructions to fully cover the use of the penalty envelope so that the law will be fully observed (S. O. 117, Nov. 9, Sig. Office.)

—o—

Engineer Battalion.—That "hell hath no fury like a woman scorned" is exemplified by the fact that a few days ago Louis Duval, an engineer soldier, who deserted from Willet's Point, was apprehended through the instrumentality of a woman whom he had promised to marry but did not. This prompt retribution conveys its own moral.

—o—

The Armaments Must Suffer.—In a recent letter the Chief of Ordnance says: "The limited appropriations for the present fiscal year will not warrant the issue to seacoast forts and posts of stores required merely for preservation of ordnance and ordnance stores. Only such as are indispensably necessary for the working of the armament can be supplied."

—o—

DEPARTMENT NEWS.

Dept. of Dakota.—Brig. Gen. T. H. Ruger.

A despatch from Custer says: "Notwithstanding the country is patrolled by troops from Fort Custer, Indian raids and outrages continue. A few days ago the troops picked up a small band of worn-out horses on the Musselshell that had belonged to the Piegans, and been dropped there by the Crows or some other corps of Indian raiders, because they could not be driven any further in a hurried march. The aggregate of horses that have been stolen from each other by the Crows and Piegans this year will reach into the thousands. Their love for pillage is as strong as ever, and is kept in restraint only by overawing power, and that they occasionally shake off."

Dept. of the Missouri.—Brig. Gen. J. H. Potter.

A despatch of Nov. 15 says: "A company of troops has been sent to Caldwell, Kan., from Fort Reno to keep prospectors out of the Indian Territory. The greatest excitement prevails. Thousands of claims have been staked out in the Territory below Caldwell, where silver is believed to exist in large quantities."

The *Critic* reports Capt. J. M. Lee, 9th Inf., as saying; "There will be no more trouble, I think, with the Cheyennes and Arapahoes in the Indian Territory. The new agent there, Mr. Williams, was my chief clerk while I was there as special agent, and I was somewhat instrumental in having him appointed. He is a good man, and is very able. I think he will have no trouble at all, and I don't think there will be any more worry with the 'Dogs' or Arapahoes."

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

A Roster of Troops, in a new dress, for November, 1886, reaches us this week.

An Albuquerque despatch of Nov. 12 says: "Captain Edward Friend, of the El Paso Rifles, has arrived and opened a roll for recruits to join Cutting's filibustering expedition into Mexico. Two hundred and thirteen names have been placed on the list and more are promised. It is expected that the expedition will be thoroughly organized within a month and that the insurgents will rendezvous at El Paso, from which point they will invade the Mexican Republic. Federal officials are closely watching the movement."

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., Nov. 17, 1886.

AN alarm of fire last Saturday evening was caused by the burning out of a chimney of Capt. Williams's quarters. No damage was done, but a good deal of excitement was caused because a very strong wind was blowing at the time.

An officers' meeting was held at the mess on Monday evening for the purpose of arranging a series of hops from now till the beginning of Lent. A committee of six was appointed to fix the times, etc.

The post promises to be unusually sociable this week. A card party to-morrow evening, an afternoon tea from four to six o'clock by Mrs. Hasbrouck and two entertainments on Friday evening will make it quite gay.

The first indoor concert this year was given last Saturday evening in the library. The attendance was not very large. Mr. William C. Rehm assisted the orchestra, using a Steinway grand piano.

Major Brook, of the English Army, Capt. Symonds, of the Engineers, and Lieut. Howell, 7th Inf., were visitors here during the past week.

The following named candidates have been designated for examination for admission to the U. S. Military Academy: W. T. Johnston, Kingston, Mo.; Jay J. Morrow, Allegheny, Pa.; Giles A. Saint (alt.), Allegheny, Pa.; Sylvanus J. Leech, Bloomington, Ills.; LeRoy S. Upton, Big Rapids, Mich.

(Correspondence of the Army and Navy Journal.)

FORT OMAHA, NEB.

NOVEMBER 10, 1886.

ON the evening of Nov. 5, the officers of Fort Omaha gave a reception to Lt. W. R. Abercrombie, 2d Inf., and his lovely bride, the daughter of Major A. S. Kimball, Q. M. Dept. Many distinguished guests, civil and military, were present, who were gracefully received by Mrs. Wheaton and Mrs. Butler from half-past eight until half-past nine, at which time the dance commenced and joy was unconfined until two o'clock in the morning. To the officers of Fort Omaha and to their indispensable assistants, the ladies of that stronghold, nothing could be more gratifying than the hearty response given to their invitations by the good people of Omaha, who thus received their first social introduction to the happy pair and to the officers and ladies of the 2d Infantry, recently arrived from the far Northwest. The perfect success which attended this occasion augurs well for the future of the 2d Infantry, at Fort Omaha, which is conceded to be one of the choice stations in the United States by virtue of its vicinage to the city and the Atlantic seaboard.

Following is a list of those present: Gen. and Mrs. Geo. Crook, Mr. Mylins, Mr. and Miss Berlin, Mr. Robt. Patrick, the Misses Dundy, Miss Chambers, Mrs. and Miss Miller, of Detroit; Mrs. McKane, Mrs. P. S. Eustis, Miss Eustis, Miss Griffits, Mrs. Hawes, Miss Smith, Mr. and Mrs. Samuel Burns and Miss Burns, Capt. C. A. H. McCauley, Mr. Chas. Butler, Miss Eustis, Mr. and Miss Berlin, Gen. and Mrs. Samuel Breck, Miss McParlin, Mr. Mitchell, Miss Miller, Gen. and Mrs. Hawkins, Mrs. Read, Mr. and Mrs. J. C. Corwin, Lieut. and Mrs. Kennon, Mr. Geo. F. Downey, Mr. Charles B. Ott, Lieut. and Mrs. C. W. Rowell, Lieut. Towsey, Lieut. and Mrs. Van Liew, Capt. Dempsey, Gen. and Mrs. Frank Wheaton, Dr. and Mrs. Brown, Major and Miss Butler, Capt. and Mrs. Mills, Capt. and Mrs. Ulio, Lieut. Wright, Lieut. and Miss Earle, Lieut. and Mrs. Larson, Capt. Haines, Miss Satterthwaite. X.

THE *Excelsior* of Nov. 13 says: "Bishop Quintard, of Tennessee, the founder of the Sewanee College, was the guest of Lieut. Powell this week, and preached at Fort Omaha on Sunday ...Lieut. Ames has gone on leave....A music class has been organized at the fort by Mr. French of Omaha. Mrs. Gen. Wheaton, Miss Miller and Miss Earle have joined..... The remainder of the 2d Infantry are to be stationed at Fort Omaha, but the quarters are insufficient. This may awaken Congress to the necessity of making needed appropriations for the post."

(Correspondence of the Army and Navy Journal.)

FORT WINGATE, N. M.

NOVEMBER 10, 1886.

OUR post commander, Col. R. E. A. Crofton, recently promoted to the colonelcy of the 15th Inf., has just left us to take command of Fort Buford, Dakota Territory.

The officers and ladies desiring to extend to the colonel and his family an acknowledgment of their high regard designated the evening of Nov. 3 for their entertainment. The occasion was a reception and complimentary hop to the colonel and family. All the officers and ladies of the garrison were present to pay their respects.

The reception was immediately followed by a ball, lasting until the small hours of morning. The floor management was in the able hands of Capt. J. B. Kerr, 6th Cavalry, and the arrangements in those of the following committee: Capt. Wm. Auman, 13th Infantry; Capt. J. B. Kerr, 6th Cavalry, and Lieut F. L. Dodds, 9th Infantry, a representative from each regiment in the garrison.

The affair was held in the new assembly rooms, which were elaborately and artistically decorated. Each company and troop contributed devices and mottoes, which were placed in the dance hall and adjoining rooms and spaces, these being relieved by garlands of green, flags and decorations of ordnance, flowers, etc.

At the head of the hall to the right and left of the stage were the cavalry designs. The stage itself being a mass of flowers, plants and lights. The approaches, waiting rooms, promenades and corners were filled with evergreens and flowers, which, under a hundred lights presented a brilliant and beautiful effect. The ball and supper rooms alone furnished sufficient to entertain for an evening, in the way of designs, devices and mottoes. The music was furnished by two orchestras alternating in playing, one brought from Albuquerque, the other being the post orchestra.

The supper was elaborate, the committee being engaged for several weeks in arranging for the menu and the table decorations.

The entertainment was the handsomest ever given here, and was extended as a farewell to the departing colonel, and shows that his going was sincerely regretted and that kind wishes followed him to his new command. G. B.

(Correspondence of the Army and Navy Journal.)

SAN ANTONIO, TEXAS.

NOVEMBER 8, 1886.

NOTHING of moment stirring here. Inspector-General Heyl and bride have joined and received a cordial welcome. Lieuts. Woodbury and Chandler, 16th Infantry, have returned from Florida, having safely delivered at Pickens and Marion the Indian notables concerning whom I have heretofore written. We all of us are sorry to lose Dr. J. P. Wright, who goes to Leavenworth. He and his amiable wife are friends to every one and have been active workers in the Episcopal Church and Sunday school on the Hill. The new band leader, 8th Cavalry, Kline, has arrived. He is an excellent performer on the cornet. I see the Surgeon Generalship still hangs fire, and that John Moore *may* get it. I hope so. I remember him well when he was attending surgeon in New York some years ago. A nice, genial, clever gentleman, he will fill the bill to perfection. We are divided here. Some are Baxterites, others Sutherlandites, a few Perinites, and yet some Pageites. I, and I am not alone, am a Mooreite. I see Swaim is making an effort "to get back," but I fancy he won't succeed. I hear "Billy" Grierson, a great favorite in Texas, is to succeed Bradley at Santa Fé. This will be a pleasant billet for him, which he fully deserves. PUNK.

(Correspondence of the Army and Navy Journal.)

FORT MEADE, D. T.

NOVEMBER 10, 1886.

COLONEL AND MRS. TILFORD, of the 7th Cav., have returned to Fort Meade, after a short leave enjoyed in St. Louis, where a most cordial welcome was extended them by old friends and a large circle of relations. Captains Godfrey, Edgerly and McDougal have arrived with their crack troop of the 7th, and are busy getting into quarters. Lieut. Slocum and his wife, neé Miss Brandreth, with their baby boy, are among the new arrivals. Also Lieut. Bullock with his bride.

FORT GRANT, A. T.

A KANSAS CITY *Times* correspondent writes:

Ordnance Sergeant J. J. Donnelly, U. S. A., died Nov. 2. The funeral took place with full military honors. Colonel Grierson turned out the entire garrison to attend. Three days ago Lieutenants Haden and Pettie, 8th Inf., started off for a hunt in Graham Mountains. Yesterday their packer, with game, bedding and rations, returned to the post and stated that the officers had remained behind for a little small game hunting and would be in later, and, therefore, their protracted absence has led to the belief that they are lost, without, however, creating very great uneasiness on their account, as they are well mounted, have plenty of ammunition, and at this season of the year plenty of wood and water, with grass for the animals can be found. But inasmuch as it is cold enough in the mountains for ice to form every night, it is presumed that the favorite game of "freeze-out" will not prove as interesting as usual.

Captain Charles Porter, 8th Inf., is in Fort Lowell, acting as counsel for Lieut. McDonald, 4th Cav., who is being tried by Court-martial. Lieut. McDonald is a popular officer and his faults are of the head, and not of the heart, and whatever be the results of his present trouble the best wishes of a host of friends will ever be with him.

A daughter was born to the wife of Lieut. Hunt, 10th Cav., this afternoon, but died shortly afterward.

General Grierson and Lieut. Maxon, 10th Cav., will leave in a few days to purchase cavalry horses for this Department.

Captain Norvell, 10th Cav., is a guest at the post; and Lieut. Read is expected from Fort Thomas.

FORT LEAVENWORTH.

THE social given at at the Catholic school Wednesday was quite a success in a financial way. The most interesting part of the affair was the election held to decide which of the two arms of the Service, cavalry or infantry, was the most popular. Corporal Daily, Troop M, 6th Cavalry, represented the cavalry, and Sergeant Kraemer, Co. H, 6th Infantry, the infantry. A large cake and several barrels of apples were to go to the winning organization. At the beginning Daily had 125 and Kraemer 206. As the election progressed things became exciting, finally resulting in a victory for the cavalry by a vote of 1,486 to 1,125. The entire evening was pleasantly spent by those present, and a handsome revenue derived for school and religious purposes.—*Kansas City Times.*

PRESIDIO OF SAN FRANCISCO.

THE *Alta* says: "The winter festivities were inaugurated Nov. 2 when the officers gave their first hop. The hop room was decorated with flags, banners and flowers, and presented an attractive appearance. The guests were welcomed by Maj. H. K. Tilton, Capt. J. W. Dillenback, Lieuts. Samson L. Faison, Geo. W. Van Deusen and Samuel D. Sturgis, Jr., who comprised the Reception Committee. Music was furnished by the 1st Artillery Band, and the dancing was enjoyed for several hours. Next Tuesday evening a musicale will be held at the same place. Among those present were: Gen. and Mrs Chauncey McKeever, Capt. and Mrs. Corcoran, Lieut. and Mrs. G. W. Van Deusen, Lieut. and Mrs. Murray, Lieut. and Mrs. Pfister, Lieut. and Mrs. C. L. Best, Capt. and Mrs. Doane, Lieut. and Mrs. Greble, Dr. and Mrs. Moore, Maj. and Mrs. H. R. Tilton, Col. and Mrs. W. R. Smedberg, Capts. J. M. K. Davis, J. W. Dillenback and Tisdall, Lieuts. Bear, Towers, S. L. Faison, Oyster, Robinson, etc."

FORT SIDNEY, NEB.

The *Excelsior* of Nov. 13 says: "Lieut. Farrow visited the fort Sunday en route to Fort Du Chesne to join his company. ....Mrs. Dr. Ewen and Mrs. Paine have gone to New York, where they will spend the winter.....The drama of 'Our Boys,' for the benefit of the building fund of the Episcopal Church at Sidney, took place at the Post Theatre last Wednesday evening. The cast was: Sir Geoffry Champneys, Lt. Sparrow; Talbot, his son, Lieut. Bonesteel; Perkyn Middlewick, Capt. Ebstein; Charles, his son, Mr. Mancourt; Kempster, Sir Geoffry's man servant, Lieut. Brooke; Violet Melrose, an artist, Miss Haughey; Mary Melrose, her poor cousin, Miss Clark; Clarissa Champneys, Sir Geoffry's sister, Mrs. Downey; Belinda, a lodging house servant, Mrs. Sparrow."

COURT-MARTIAL CASES.

In a case recently tried at Fort Huachuca, Gen. N. A. Miles says: "The proceedings are irregular. The record shows that after the court was organized and had proceeded so far with the trial as to hear all the evidence for the prosecution, a member who had been absent from the beginning participated in the trial, although a sufficient number of members were present to proceed with the trial, but in any

event the proceeding was entirely irregular. The prisoner was charged with being drunk and disorderly in the camp of his troop and assaulting and striking his 1st sergeant. The evidence shows that the prisoner was drunk and disorderly, as charged, complaining in a disorderly manner about the insufficiency of his rations. If he did not strike his 1st sergeant, as charged, his conduct towards him was grossly disrespectful and insubordinate, for which he deserved punishment."

REPORT OF THE ADJUTANT-GENERAL.

THE statistics contained in the report of Adjt.-Gen. Drum will be found in the report of the Lieutenant-General, which appears elsewhere. Gen. Drum says in his report to General Sheridan:

While the crime of desertion can never, perhaps, be absolutely eliminated, I am convinced that the adoption of a carefully considered code of punishment for all military offences, the establishment at posts of a light prison for the confinement of minor offences, etc., would greatly tend to still further lessen the number of desertions. An examination of the official reports made this year on the subject of Army schools further strengthens my opinion that the present voluntary school system in the Army is a failure, and from inherent radical defects will remain so. Those of the men who are the most ignorant, and therefore in the greatest need of instruction, are the most averse to attend school. The attendance of this class of men should be made compulsory. There is no question that military schools properly organized and efficiently taught would prove of very great benefit to the rank and file of the Army, but among the necessary requisites for successful results instruction must be made a military duty, and the hours of attendance should be during the day. The course of studies should be carefully prepared, and embrace such subjects of general and special nature as would be of positive and practical advantage to soldiers. Teachers should have recognized rank and position, and their selection carefully made after an examination, which would develop not only the knowledge they possess, but also their special capacity and aptitude for imparting it—a much rarer qualification than is generally supposed.

The total number of enlistments and re-enlistments in the Army (exclusive of the Signal Corps) for the year ending June 30, 1886, was 6,941. Of the 5,327 accepted recruits, 3,308 were native born and 2,021 of foreign birth; 4,847 were white and 480 colored. 18,094 applicants for enlistment were rejected by recruiting officers on account of physical or mental disqualifications, indicating that the public interests were carefully guarded by the officers charged with the responsible duty of recruiting. This care and vigilance on their part is emphasized by the fact that while 29 per cent. of the total number of applicants for enlistment was accepted in 1884, the percentage of acceptances was reduced the following year to 27.7, and during the past year did not quite reach 23 per cent. All newly-enlisted recruits of the general and mounted services have been retained at least three months at the general depots for instruction before assignment to regiments, and it is believed this has been an important factor in reducing the number of desertions during the past two years.

In his report to the Secretary of War, Gen. Drum says:

The reports submitted herewith, of the several officers designated by the War Department to inspect the encampments of State troops are highly interesting and worthy of careful consideration. [We commence the publication of these reports this week with that of General Jackson on the New York Encampment.] While just but kind criticism points out many defects (none that cannot be remedied by men exhibiting the military zeal and pride that animate the State militia), the reports unmistakably evidence a slowly maturing temper and character destined to still more closely unite the Regular Army and the militia, the twin parts of the defensive power of the Government. A careful perusal of these reports leads me to make the following general remarks:

State encampments, to be of absolute benefit, should at least be of ten days' duration, and, while established at convenient points looking to economy in the concentration of the troops, should be at a sufficient distance from the homes of the members of the command in order to overcome business and social influences, which seriously affect efforts at parting instruction and holding the men in hand for drills, target practice, guard duty, etc. Camps should be divested of every appearance of holiday character. The programme of military exercises should exclude elementary company drills, and the time of the encampment devoted to instruction and practice in skirmish and battalion drills and guard duty. As most of the fighting in the future must be done in open order, a thorough acquaintance with the skirmish drill is of the highest importance.

Officers should be required to recite upon the duties of guards and sentinels, and instruction in guard duty be given to the men in the armories.

So far as fatigue uniform or dress for field service is concerned, it would be of advantage for the authorities of each State to prescribe a simple, plain, but serviceable fatigue uniform for all its troops to which companies might gradually conform within a limited time, say one year. This is not intended to interfere with the right of each command to wear such full dress uniform as it may have selected for wear on reviews, parades, and other occasions of pure ceremony.

Obsolete arms and ammunition in the hands of State troops should be replaced by improved guns of same pattern as in the hands of the Regular Army, and suitable ammunition provided. On this subject I beg to renew the recommendation made in my last report.

Exhibition drills, while interesting as showing to what degree of mechanical precision a body of men can be trained to attain in movements and motions, are an undesirable feature of military camps. In many instances the development of extreme smartness in drill involves the neglect of some of the most important and solid parts of a soldier's training.

The report on the target practice at the Maine encampment is most creditable to the troops participating, and demonstrates what results can be obtained from careful instruction and practical discipline in this important exercise. The great want is a thorough, systematic course of instruction prescribed from State headquarters and rigidly insisted on, and the establishment in each State of an examining board before whom ignorant and incompetent officers could be brought with a view to their elimination from the military service of the State. Every officer elected should, before appointment, be subject to examination by a board of officers, of which, if possible, the regimental and brigade commanders and the inspector-general should be members. The material composing the militia of the several States is generally excellent, and zeal and intelligence the rule; but the former must be wisely directed and the latter systematically cultivated.

The tables submitted exhibit the apportionment of details corrected to Oct. 1, 1886, and a synopsis of the data contained in the reports of the several officers performing the duties of professor of tactics and military science.

These reports show a steadily growing interest in military instruction, as evidenced by the increased percentage of students attending drills, etc., and the degree of appreciation of the value of the system on the part of the college authorities. The aptitude of American youths for military exercises is undoubtedly good, and, when supplemented by the frank and full recognition on the part of the several faculties that military training (beyond the enforced physical exercise it gives) is of positive service to the student in the ordinary avocations of civil life, will realize all the practical advantages resulting from a course of instruction enforcing manliness of character and deportment.

To reap, however, the full benefits of the law authorizing the detail of officers of the Army as military instructors, it is imperative that the professor of tactics and military science be a recognized member of the faculty of the institution at which on duty, with equal vote, and that military instruction be given a co-ordinate position with the other departments of study.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. At Portsmouth, N. H., undergoing repairs.

TENNESSEE, 1st rate, 22 guns (f. s. n. a. s), Capt. Robert Boyd. At New York Navy-yard.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at Norfolk Nov. 12, and sailed Nov. 14 for Aspinwall.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Sailed from New York, Nov. 14, for the S. A. Station.

Her voyage will be through the Mediterranean, touching at Malta for coal, thence to Suez and through the Suez Canal to Aden. From that point she goes along the East Coast of Africa, visiting Madagascar. Finally she expects to bring up at Rio Janeiro or Montevideo, on the station she is ordered to for a full cruise. She is not to stop at any port except for coal, and will probably be six months or more in reaching her station. The following is a list of her officers: Commander Charles McGregor, commanding; Lieutenant Commander and Executive Officer, Geo. E. Ide; Lieutenants, W. P. Day, E. B. Barry, H. R. Tyler, L. K. Reynolds (junior grade), and Wm. Braunersreuther; Ensigns, Frank R. Heath, E. W. Sutphen, and E. A. Anderson (naval cadets); Surgeon, M. Aulick; Chief Engineer, A. J. Kenyon; Passed Asst. Engineer, W. C. Eaton; Asst. Engineer, K. McAlpine; Paymaster, J. R. Martin; First Lieut. Marines, A. C. Kelton, U. S. Marine Corps.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Arrived at Montevideo Nov. 13.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. Sailed from Rio de Janeiro Nov. 6, and arrived at Montevideo Nov. 13.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns(f. s. e. s.), Captain George Dewey. At Genoa, Italy, Oct. 21. Would leave about Nov. 10 for the East, making Alexandria her headquarters.

KEARSARGE, 3d rate, 7 guns, Comdr. Charles D. Sigsbee. Arrived at Portsmouth, N. H., Nov. 12. Will go out of commission at that yard, and probably be repaired there.

Commander C. D. Sigsbee reports to the Secretary of the Navy, from Portsmouth, N. H., Nov. 13, that the *Kearsarge* arrived there at 11.10 P. M., Nov. 12. She left Leghorn, Sept. 30, and arrived at Gibraltar, Oct. 5; left on the 7th, and arrived at Tangier 1.20 P. M. the same day. Left Tangier, Oct. 8, and arrived at Funchal, Maderia, Oct. 11, and left on the 13th. At Gibraltar she took on board 105 tons of coal, and at Funchal 96 tons. The passage was made over the southern sailing route, through the N. E. trades in latitude about 22deg. North. The northing to the latitude of Bermuda was made over the usual sailing route from the Equator to New York. They found the trades light and varying in direction from N. E. to S. E. To the northward of Bermuda and until across the gulf stream much rainy and squally weather was encountered. A number of new but small leaks in the boilers were developed during the passage, which were repaired as they occurred. On the 23d of Oct., Lat. 21deg. 36 N., Long. 34deg. 43min. W., Joseph Kavanaugh, 2d class fireman, died suddenly of aneurism. His remains were buried at sea the following day, Lat. 21deg. 38min. N, Long. 36deg. 40min. W.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. At Genoa, Italy, undergoing repairs. Will sail about the middle of November for the coast of Africa to cruise during the winter.

Pacific Station—Rear-Adm. E. Y. McCauley.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Arrived at Panama Nov. 15.

HARTFORD, 2d rate, 16 guns (f. s. p. s.), Capt. J. H. Gillis. Sailed from Callao, Peru, Nov. 12, for San Francisco, Cal. She will go out of commission and undergo repairs, at the Mare Island Navy-yard. Address mail to care of Navy Pay Office, San Francisco, Cal.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Rio Oct. 24.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. Was at Callao, Peru, Nov. 13.

MONONGAHELA, 2d rate, 9 guns, Lieut. Comdr George B. Livingston in command. Used as a store ship at Coquimbo, Chili. Comdr. S. H. Baker was ordered to command, per steamer Sept. 11 from New York.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. A correspondent writing from Apia, Samoan Island, Oct. 15, where the *Mohican* lay at that date, says: We had a splendid time at Auckland as well as at the Fiji Islands. A grand ball was given to the officers at the city of Levaka Fijis, and at Auckland all sorts of entertainments, the swellest of which was a banquet at the leading club. We hurried back to Apia, Samoa, from Auckland in obedience to cable instructions from Washington, and there met Mr. Geo. A. Bates, of Wilmington, Del., who was the commissioner sent by Secretary Bayard to meet commissioners from England and Germany. The German refused to treat, pretending not to understand the matter, and said his instructions were indefinite. Mr. Bates and the British commissioner agreed perfecily, and made similar reports to their respective governments. The stars and stripes were hauled down by Mr. Bates, and the Samoan flag now floats alone. We took Mr. Bates on board and went again to the Tonga Island to make a treaty with the Tongans, which I believe was satisfactorily accomplished, though Mr. Bates is wonderfully reticent concerning his affairs. We will leave about Oct. 21, taking a southerly course until the region of the westerly winds is reached, when we will make the best of our way to Easter Island, where we will take on board a lot of botanical and geological specimens and an immense statue or idol for the Smithsonian Institution. From there we will go to the Island of Juan Fernandez, made famous by the story of Robinson Crusoe, and from there to Valparaiso about January 1.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. Henry E. Nichols. At Sitka, Alaska, October 19, having left Juneau Oct. 13. Will winter at Sitka. Address care of Navy Pay Agent, San Francisco, Cal. Lieut. Comdr. J. S. Newell has been ordered to command.

VANDALIA, 2d rate, 8 guns, Captain Henry L. Howison. Sailed from New York, Aug. 14, for the Pacific Station. Arrived at Montevideo Oct. 19.

Asiatic Station—Rear-Admiral J. L. Davis.

Rear Admiral Ralph Chandler has been ordered to command this station, and was to leave San Francisco per steamer of Oct. 30.

Vessel with (†), address, Mail, General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. At Aden, Arabia, Oct. 15.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Arrived at Aden Nov. 11.

Commander T. F. Jewell reports to the Navy Department, under date of Port Said, Egypt, Oct. 27, that the *Essex* arrived at that port at ten o'clock the previous evening, five days from Malta. During the first three days calms and light airs prevailed, but for the last 36 hours favorable winds were experienced. Notwithstanding the leaky condition of the boilers, more leaks having developed after leaving Malta, she was able to steam almost continuously at eight knots an hour, with an average daily expenditure of eight tons of coal, using only four boilers, the grate surface of which was reduced one-fourth by fire brick. She would remain at Port Said three or four days to make necessary repairs to boilers, and then proceed through the canal to Aden. The health of officers and crew continued good. Small pox prevailed to some extent on shore, but was confined to the Arab quarters of the town. Communication with the shore was restricted to the officers.

MARION,† 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Nagasaki Oct. 11.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. Was at Hong Kong Oct. 11.

OMAHA,† 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. Reported by cable to the JOURNAL to have arrived at Nagasaki, Japan, Nov. 1, 1886.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. Has been ordered to return to New York by the middle of February, 1887. Arrived at Columbo, Ceylon, Nov. 13.

PALOS,† 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. At Canton, China, Oct. 11.

Apprentice Training Squadron.

Address of *Portsmouth* and *Saratoga*, Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Left Hampton Roads Nov. 15. Next address will be Annapolis, where she will arrive in about a week.

MINNESOTA, 1st rate. 24 guns, Comdr. T. F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, flagship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor. Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Chas. V. Gridley. Sailed from New York for Norfolk, Va., Nov. 6. Arrived at Hampton Roads Nov. 9.

SARATOGA, 3d rate, 12 guns, Comdr. C. H. Davis. Sailed from New York for Norfolk, Va., Nov. 6. Arrived at Hampton Roads Nov. 9.

On Special Service.

DESPATCH, 4th rate, Lieut. Wm. H. Emory, Jr. At New York Navy-yard.

DOLPHIN, despatch boat, 7 guns. Lieut. Chas. O. Allibone. At Norfolk, Va.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. Sailed from San Francisco, Oct. 30, for the Central American coast to resume her survey work.

ST. MARY'S, sails, 8 guns, Comdr. Edwin M. Shepard. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 20 guns, Capt. Henry Wilson. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails. 6 guns. Commander Frederick Rodgers. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

FORTUNE, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

ST. LOUIS, 3d rate, sails. Commander H. B. Seely. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

VERMONT, 2d rate, 7 guns. Captain Augustus P. Cooke. Receiving ship. At New York.

DALE, 8 guns. Commander Silas Casey. Receiving Ship. At Washington, D. C.

PHLOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate Kuhl, commanding. At Norfolk.

The iron-clads *Ajax, Catskill, Lehigh, Mahopac, Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

VARIOUS NAVAL ITEMS.

THE apprentice training squadron, the *Jamestown*, *Portsmouth* and *Saratoga*, expect to sail from Hampton Roads about Dec. 15 for the winter cruise.

A SET of new boilers for the U. S. S. *Swatara* have been completed at the Navy-yard in Washington and shipped to that vessel at Portsmouth, N. H.

THE *St. James Gazette* publishes a clever sketch of what might possibly happen if England should be unexpectedly involved in a struggle with France. The story is entitled "The Great Naval War of 1887."

THE German Naval Budget for 1886-87 is accompanied by a Memorandum, showing the necessity for increasing the number of torpedo-boats, and of protecting the mouths of large rivers in war-time by small vessels.

CONSIDERABLE work is now going on at the boat shop of the Portsmouth, N. H., Yard. The *Galena's* boats are being repaired, and work will soon begin on more new boats for cruisers, including one or two steam launches.

COMMANDANT GHERARDI, of the Brooklyn Navy-yard, has suspended his chief clerk, Charles Capouilliez, who had previously refused to resign. Thos. Costello was appointed to fill the vacancy, and the commodore has asked Secretary Whitney to revoke Capouilliez's appointment on the ground of incompetency.

IN dealing, in the *Gebiet des Seewesens*, with Rear Admiral Freemantle's paper on "Naval Tactics," Herr Attlmayr states that the proposed composition of the Admiral's ideal squadron of operation is correct, namely, twelve ironclads, four frigates, and twelve *éclaireurs*, or vedettes, divided into two divisions, each, again, consisting of three sub-divisions.

THE matter of the importations by officers of the U. S. ships *Saratoga* and *Portsmouth* was settled Nov. 17 so far as the Newport customs officials are concerned. The duties collected from the officers of those vessels amounted to $650 under the ruling of the Solicitor of the Treasury, but $50 of this had to be remitted. The $600 has been covered into the Treasury.

THE U. S. S. *Tennessee*, at present the flagship of the North Atlantic Squadron, met with a mishap at the Navy-yard on Sunday, Nov. 14. A steam cutter of small dimensions bumped against her port bow and opened a hole nearly three feet long. It is 30 years since the *Tennessee* was launched. While she is one of the most comfortable vessels afloat, it is said she has long outgrown her usefulness for war.

BOARDS of Survey on the *Saratoga* and *Portsmouth* report that about $3,000 will be necessary to put them in good condition for their winter cruise. The work has been ordered, and it is expected that they will be ready to sail by Dec. 20. The following Board of Survey on the *Tennessee* has been appointed: Capt. A. P. Cook, Naval Constructors T. E. Webb and S. H. Pook, and master workman at New York Navy-yard.

STRONG efforts are being made to secure for San Francisco the contract for building one of the new Government cruisers. The *Journal of Commerce* says: "The Pacific Coast is entitled to this consideration at the hands of the Government, especially as all the requisites exist here for turning out as good and cheap vessels of the required class as can be done at any shipyard in the country. The steel steamer *Arago*, built here, has proved one of the best and most successful ships ever floated."

COMMANDER BARTLETT, in charge of the Hydrographic Office of the Navy Department, has received a letter from the commander of the steamship *Prof. Morse* in regard to the efficacy of oil in quieting heavy seas. The *Prof. Morse*, in October last, encountered a severe hurricane upon entering the Caribbean Sea, and lay for several days in the trough of the sea. Her destruction seemed inevitable, but oil was poured around the vessel, and the waves so quieted that the steamship rode out the gale in safety.

THE Vallejo *Chronicle* says: "A despondent marine this morning determined to put an end to his miserable existence. Divesting himself of all loose apparel, he knelt down and offered up a prayer, then went off the side of the wharf. There was just enough softness of mud to make this method of departure from life both cold and disagreeable. So after a little floundering about, the would-be suicide concluded to postpone, and crept crestfallen up the ladder to the wharf again, dripping with mud and slime. The performance will not be repeated until the balmy days of next summer make the passage to the other world by the Georgia street route more comfortable."

COMMANDER W. S. SCHLEY, says a Washington correspondent, has just returned from Boston, where he assisted Secretary Whitney in a quiet inspection of the navy-yard. The Secretary and Commander Schley have been strongly in favor of setting aside some one of the navy-yards for the Bureau of Equipment, of which the latter is chief. It has been deemed advisable to have a supply depot, where all the work of the bureau will be done, and all vessels fitted out for sea. The visit to Boston will probably result in the selection of that yard for the purpose. The Secretary favors a concentration of the bureaus, and it is possible he will have a yard set apart for the Bureaus of Steam Engineering and Construction in the near future.

THE Vallejo *Chronicle* says: "The U. S. S. *Ranger* in going from San Francisco to San Diego made the run down in 47½ hours. This was good work for the *Ranger*, as it generally takes her about 70 hours to make the same distance. The wind was fair and the use of sail increased her speed considerably. The vessel made as high as 11½ knots an hour. On the way down she indulged in a race with H. M. S. *Triumph*. They both started from the heads at the same time, but night coming on the *Triumph* was lost in the darkness. She was then in the lead and making further out to sea. The crew of the *Ranger* thought their vessel ahead until they came in sight of San Diego, where they saw the *Triumph* lying at anchor. The *Ranger* got there about 2 o'clock on the afternoon of the 2d; the *Triumph* arrived about three hours earlier. The English vessel is one of the fastest vessels in that navy, and has twin screws. Taking this into consideration the *Ranger* was not beaten very badly.

THE *Atlanta* is undergoing another trial trip in Long Island Sound this week. All the alterations in her machinery, consisting principally of a change in thrust bearings, which were suggested during the last trial, have been made, and it is thought now that she will be able to make the six hours' run without interruption, as required by contract. The sea trial, heretofore spoken of, will not take place until the vessel has been regularly placed in commission and her battery placed aboard. She sailed from New York, Nov. 19. There is no foundation for the story which appeared in the dailies to the effect that the *Atlanta* had sprung a leak.

UNDER a flaming heading the New York *Herald* publishes the following despatch, dated London, Nov. 15: 1886: John Ward, a prominent shipbuilder of Dumbarton, on the Clyde, has just delivered a lecture on "Destructive Aid in Naval Warfare" at the Greenock Institute. In the course of the evening he made himself the express authority for what have hitherto been mere undefined rumors, and as such discredited at the embassy here. Shipbuilder Ward said: "I find a circular advertised in this country by the United States Navy Department asking for designs for an armored cruiser and an armored line of battle ship. The terms of the circular show that the United States Government wished the designs to come from 'those in this country who, at the country's expense, have similar designs to get out for our own navy.' The honorarium offered for this betrayal of trust was $15,000, with a further sum for working drawings. Here is a humiliating state of things. First, that a foreign government should have cause to know the efficacy of a bribe upon our government officials; and, second, that a friendly government should not scruple to lay such a temptation in the way of weak patriots. Of the United States Government we might expect better things.' The press to-day in the provinces seem to believe this, and remark on it.

NAVY GAZEITE.

Ordered.

Nov. 12.—Lieutenant A. G. Paul, as assistant to the 5th Lighthouse District.

Nov. 13.—Chief Engineer John P. Kelly, to duty at the works of the DeLancey Forge and Iron Company at Buffalo, N. Y.

Assistant Paymaster John Corwine, to duty on the ironclads at City Point, Va., on Nov. 30.

Nov. 15.—Passed Assist. Engineer Herschel Main, to temporary duty in the Bureau of Steam Engineering.

Nov. 16.—Lieutenant F. H. Tyler, to the receiving ship Franklin.

Passed Assistant Surgeon Francis S. Nash, to duty at the Smithsonian Institution Nov. 26.

Acting Gunner Horace R. Yewell, to instruction in ordnance at the Washington Navy-yard.

Nov. 17.—Medical Inspector A. C. Rhoades, to special duty at New York.

Detached.

Nov. 13.—Assistant Paymaster S. L. Heap, from the ironclads at City Point, Va., Nov. 30, and ordered to settle accounts and wait orders.

Nov. 15.—Boatswain Wm. H. Frary, from the Franklin and granted three months' leave.

Nov. 16.—Ensign W. L. Howard, from Exploring Northern Alaska Expedition, Oct. 29, and placed on waiting orders.

Assistant Engineer A. O. Young has reported his return home, having been detached from the Lancaster Sept. 15, and has been placed on waiting orders.

Nov. 17.—Lieutenant Commander G. C. Reiter, from duty at the Torpedo Station and granted six months' leave.

Nov. 18.—Lieutenant W. F. Hasley, from the Tennessee and granted six months' leave.

Ensign John H. Hetherington, from the Coast Survey and placed on waiting orders.

Lieutenant R. H. Townley, from the Jamestown and placed on sick leave.

Revoked.

Orders of Ensign W. C. P. Muir of Nov. 10, and he is detached from the Naval War College, Nov. 19, and ordered to the Naval Academy.

Promotions.

Assistant Paymaster John Corwine, to be Passed Assistant Paymaster from Nov. 2; 85.

Leave.

Granted to Lieutenant Commander F. M. Barber for one year with permission to leave the United States.

Granted Naval Cadet Edw. E. Dement from Naval Academy until May 15, 1887.

MARINE CORPS.

Nov. 13.—2d Lieutenant Lincoln Karmany, so much of his orders of Oct. 30 as directs him to proceed to Boston, Mass., revoked, and ordered to report for duty at the Marine Barracks, Brooklyn, New York.

2d Lieutenant Chas. A. Doyen, detached Nov. 19 from the Marine Barracks, Brooklyn, N. Y., and ordered to report without delay for duty at the Marine Barracks, Boston, Mass.

Nov. 16.—Colonel Thos. Y. Field, so much of the order dated Oct. 1, as directs him to proceed to Norfolk, Va., suspended.

Nov. 18.—Major James Forney, granted leave of absence for 20 days from Nov. 29, provided that his presence at Norfolk, Va., is not required by the general court-martial about to convence for the trial of Captain J. H. Higbee.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending November 18, 1886:

Frank Doublin, seaman, died Oct. 8 on U. S. S. Ossipee at Nagasaki, Japan.

Joseph Kavanaugh, second class fireman, died Oct. 23 on U. S. S. Kearsarge at sea.

Henry Rhoades, first class fireman, died Nov. 11 at Washington, D. C.

John F. O'Brien, ordinary seaman, died Nov. 13 at Naval Hospital, N. Y.

Francis M. Ashton, passed assistant engineer, died Nov. 15 at Philadelphia, Pa.

FROM THE ASIATIC STATION.

REAR-ADMIRAL JOHN LEE DAVIS reports to the Secretary of the Navy, from Nagasaki, Japan, Oct. 11, that the flagship *Marion* left Chefoo, China, Oct. 2, and reached Nagasaki Oct. 5.

The *Omaha* had been at Chemulpo, Korea, since Sept. 25. She was expected to leave Oct. 11 for Chefoo, China, in order to coal and give liberty, after which she would return to Chemulpo.

The *Ossipee* left Chefoo, China, Oct. 1, arrived at Chemulpo Oct. 2, and received from the *Omaha* men and material to be transported to the United States. She left Chemulpo Oct. 2, and reached Nagasaki Oct. 5; started for New York in obedience to Department's order of Oct. 9.

The *Monocacy* when last heard from was at Hong Kong.

The *Palos* was at Canton.

All was quiet within the limits of the station, and the health of officers and men was excellent.

NAVAL REORGANIZATION.

NAVY DEPARTMENT, Nov. 17, 1886.

The Department having determined to concentrate as far as practicable under the charge of one general storekeeper at each yard and station and on board ships the various stores and materials and also to transfer to the Paymaster General's office the duty of providing through contract and purchase of such supplies for the Navy and Marine Corps, together with the custody of all monetary and property accounts of the Navy Department and its several bureaus and the Marine Corps, you are constituted a Board to formulate regulations to effect such object. To this end you will confer with the several bureau chiefs and other officers interested, and obtain from them and their officers all information necessary to aid you in arranging the details for the harmonious inauguration of the proposed change. You will collaterally ascertain what exceptions, if any, should be made to the general application of this order, and also fix the reduction in clerical force and office space admissible in the respective bureaus by the diminished work therein and the probable increase of working force and office room that will be necessary in the bureau of the Paymaster General; also furnish similar data applicable to civil employees, etc., affected by the change at the yards and stations.

You will confer with the Board, of which Capt. Richard W. Meade is President, and prepare the necessary orders, to go into force upon the 1st of January, 1887, making the actual transfers contemplated. In this work make use of the inventories prepared by the last-mentioned Board.

A system of books must be prepared in concert with the Paymaster-General, and should be kept by him, and all stores and property transferred should be carried into said books at their appraised market value, enabling the Department to establish and maintain a system of accountability for its property.

Forms for the receipt and issue of stores and material at yards and stations should be prepared and careful attention should be given to the current works of construction, repair, equipment, etc. These forms should be such as to insure the necessary accountability under the proposed system, and yet should not hamper the progress of work by over much detail or unnecessary formalities.

Very respectfully,
W. C. WHITNEY, Secretary of the Navy.

Captain George Brown, U. S. N.; Paymaster John R. Carmody, U. S. N.; Paymaster Trumbull H. Stancliff, U. S. N.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

NOVEMBER 16, 1886.

THE third and fourth classes are wiser now than they were last week. This sudden increase in wisdom on their part has been brought about by Ensign Haeseler, who has command of the infantry battalion. Last Friday, while Mr. Haeseler was drilling them in the armory, these Brobdignags, *per se*, evinced a determination to run things. This pleased Mr. H., who comprehended the situation at a glance. "Forward, double time!" he said, and no sound resembling "halt" came from his lips until they had galloped around the armory for 24 minutes, taking the rebellion out of them in a way that would have made Gleason, the horse trainer, green with envy. That isn't the worst of it. Every Wednesday and Saturday, during recreation hours, they are to repeat the same dose. This is why they are wiser now than heretofore.

The Saturday matinees in the gymnasium are becoming very popular. Among those present last Saturday were Lieut. and Mrs. Barnette, Comdr. and Mrs. Huntington, Ensign and Mrs. Huse, Ensign and Mrs. Copehart, Misses Heap, Morehard, Loomis, Murray, Farmer and Pinkney; Ensigns Gibbons, Huse, Smith, Blish and Knapp, and many others.

The invitations for the Thanksgiving ball have been issued.

Ensign W. C. P. Muir was ordered to the Naval Academy November 15.

Ensign A. C. Almy has been spending a 15 days' leave with his family in Annapolis.

Mrs. Lieut. Miles is visiting her parents at Norfolk, Va.

Although the diphtheria is reported to have abated somewhat in Annapolis, no Saturday liberty has as yet been granted the cadets.

In the foot ball game between the Johns Hopkins University team, of Baltimore, and the naval cadets, played last Saturday on the Academy grounds, the cadets won by a score of 8 to 0. The game was won in the first four minutes, when, by excellent playing, Brittain, of '88, scored a touchdown, and Hayward, '88, kicked the goal. For the rest of the game, although the visitors had no decided advantage, the cadets were prevented from scoring. Prof. Cane, of St. John's College, acted as referee.

(Correspondence of the Army and Navy Journal.)

NEWPORT NOTES.

THE naval ball on the evening of Nov. 12, at Coasters' Harbor Island, was a brilliant affair. The large gymnasium was used for dancing, and it was pretily decorated with flags of all kinds. Many handsome women and noble-looking men were present. The toilets were elaborate. Nearly all the cottagers who remain by the seaside were present, and none seemed to mind the severe storm. The reception Committee consisted of Captain Yates, Captain Mahan, Commander Higginson, Paymaster Hobbs, Professor Monroe and Lieutenants Little, Ackley and Veeder. The officers of the War College and the officers of the Torpedo Station were present with ladies. Fort Adams, too, was represented by its officers and their families.

GENERAL COURT-MARTIAL.

A Naval Court-martial has been ordered to convene at the Norfolk Navy-yard on Nov. 23, for the trial of Capt. John H. Higbee, of the Marine Corps, on charges of drunkenness on duty. The following is the detail of the Court: Capt. F. V. McNair, Capt. A. V. Reed, Capt. N. H. Farquhar, Comdr. Nicoll Ludlow, Comdr. F. W. Dickins, Lieut.-Colonel John L. Broome, U. S. M. C.; Lieut.-Col. C. D. Hebb, U. S. M. C.; Major Charles Heywood, U. S. M. C., and Major G. P. Houston, U. S. M. C., with Lt. S. C. Lemly, Judge-Advocate.

CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865,	**$21.00**
Old Reserve Whiskey,	**18.00**
Unrivalled Upper-Ten Whiskey,	**15.00**
Brunswick Club Whiskey,	**12.00**

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION: otherwise to be returned at our expense. Correspondence solicited.

ARMYNAVY.

THE APACHE CAMPAIGN.

ASSISTANT SURGEON LEONARD WOOD, U. S. Army, who rendered efficient services in General MILES's recent campaign against the Apaches, has made an official report, which contains many valuable suggestions.

Under the head of clothing he says: "The uniform is totally unfit for Sonora or along our southern border, and troops on expeditions where hard work is to be done have got to have something lighter and cooler. . . A cavalry soldier, with his heavy clothing and clumsy boots, is unable to do more than a portion of the work he can do properly dressed."

In the first place, he is carrying about twice the weight of clothing required. "If instead of the heavy woollen clothing, something of the nature of stable or fatigue clothing were issued, and with this a pair of shoes with light uppers coming up to the ankle and having a medium thick Scotch sole with a few hob nails around the edge, and in place of the heavy overcoat a rubber poncho; they would then be in a fair shape for as much work as could be expected."

Upon the subject of shoes, concerning which General MILES has already spoken in strong terms, Doctor WOOD says that "as an indication of what was preferred to walk in, a number of the men paid as high as $6 per pair for moccasins. The sewed shoes are totally unfit for field service (at least all we had were) and they were the cause of much suffering, wearing out usually in six or seven days, and in some cases on the second. The stitching seems to have been very poorly done, resulting in the sole falling off after a short time. The uppers appeared to be of good quality. The old brass screwed shoe turned out to be a little better, but is nothing like it should be. If a soldier were on hard duty in a rough country and was forced to wear the sewed shoe, I think his pay would be about enough to keep him shod. The shoe which gave the best results was a shoe similar to the Mexican shoe, but made of American leather."

Coming to one of the most, if not the most, important item of the soldier's daily existence, the ration, the Doctor says: "The ration as commonly issued is enough to keep a man alive, but he cannot do a great deal of hard work on it in this climate, or sustain long continued fatigue, simply because he gets very little meat, and, as a rule, poor bread. Bacon, half cooked and almost entirely fat, is hardly attractive, even to a hungry man, when served in a temperature of 115 degs., and, although it will sustain life, it will not keep men in good condition." Doctor WOOD then suggests that "if corned beef in cans could be issued, also rice, cornmeal, and oat-meal, in place of a portion of the flour, the men would get a change now and then. All the articles mentioned would be of great value in the field." In speaking of the health of the troops on the campaign, he says: "The principal complaints were diarrhœa and malarial troubles. Many men were sent back, not on account of any particular disease, but because they were worn out."

Doctor WOOD closes with a paragraph which does honor to the innate courage and devotion to duty of our soldiers. He says tersely: "Those who were sick bore their ills without complaint, and expressed regret at being sent back." Of Assistant Surgeon WOOD's services in this connection we note that Captain H. W. LAWTON, 4th Cavalry, in *his* report says: "He was the only officer who was with me through the whole campaign. His courage, energy and loyal support during the whole time; his encouraging example to the command, when work was the hardest and prospects darkest; his thorough confidence and belief in the final success of the expedition, and his untiring efforts to make it so, has placed me under obligations, so great that I cannot even express them."

In a sub-report, which accompanies General MILES's report, Lieutenant C. B. GATEWOOD, 6th Cavalry, thus describes the surrender of GERONIMO: "At sun down both parties retired to their respective camps. Early next morning GERONIMO with several Indians came near LAWTON'S camp where I met them. They laid aside their arms, unsaddled their ponies, shook hands (all of which means a great deal in Apache customs, in the way of good will) and said: 'We have talked the matter over and if you will give your word that we can meet General MILES with safety, we will go to him and accept his terms. We will throw ourselves on his mercy, something we have never done before. Our experience leads us to be careful as to whom we trust. There are two sides to every question; and whoever is the cause of a war like this is a man with a bad heart.' This is the substance of what he said as near as it could be interpreted. My word was given them. GERONIMO then expressed a desire to meet the American commander present and to ask protection from him till he and his people could deliver themselves to General MILES in person. GERONIMO expressed great admiration for Captain LAWTON and said to me I want to meet the American commander who has followed and fought me so long, and once surprised me in my camp. He entered Captain LAWTON'S camp and was really happy when his request was granted. From that time the two parties marched together until General MILES was met to whom the hostiles delivered themselves as prisoners of war."

An Arizona friend of the JOURNAL, in a letter to us concerning Lieutenant GATEWOOD'S report, says: "Particularly beautiful in its simplicity is GATEWOOD'S report. It is not generally known of this valuable officer that he is a thorough student in Apache vernacular and his knowledge of their language accomplished much in determining GERONIMO and his chiefs to sue for peace. In fact, it was due mainly to this invaluable acquisition that

the honorable intent of General MILES towards them diffused itself with such satisfactory results to the country at large. They may talk as they please, but I believe General MILES and his selected officers have done the greatest beneficial deeds to our Western frontier known to the world in a long period of years."

THE NEW SURGEON-GENERAL.

THE President on Thursday afternoon appointed Lieutenant Colonel John Moore, Assistant Medical Purveyor, to be Surgeon General, vice Murray retired. The Medical Department has at its head an officer in every way qualified to manage its affairs. For two weeks it has been known that Colonel Moore was the President's choice, but the delay in announcing his appointment has been considerable of a mystery. The fact that Colonel Sutherland appeared on the scene the very day that the President's determination to appoint Colonel Moore was announced, is thought to have had something to do with the delay. Colonel Sutherland, when he presented his papers to the President, impressed upon him very strongly his claim of seniority. To have made the appointment of Colonel Moore the same day, as originally intended, the President probably thought, would be discourteous to Colonel Sutherland, and it was accordingly postponed. The claim of senority was urged in behalf of so many, either on the ground of rank or length of service, that it defeated its purpose. The President in his perplexity doubtless considered it expedient to select some one not identified with this dispute, and thus avoid a mistake in taking some one who might be regarded as not clearly entitled to the senior place. Having passed the seniors by, the next question was to take some one thoroughly qualified for the office, and in selecting Dr. Moore as that person the general verdict will be that the President did not make a mistake. General Moore was informed by telegraph of his appointment and instructed to proceed to Washington without delay. Although of course those who looked for the position may feel some natural disappointment, yet we feel confident the Medical Department of the Army as a whole will receive Dr. Moore as their new chief with sincere congratulation. Apart from his honorable record he is a genial and cultured gentleman, and a general favorite throughout the Service. We met him often while he was on duty as attending surgeon in New York a few years ago, so that our opinion of his character and attainments is not formed from mere hearsay. He was then the model of a man and soldier, standing over six feet high, and with a heart of even more generous proportions. During the war he served with great credit and efficiency in the responsible position of Medical Director, receiving the brevet of lieutenant colonel for gallant and meritorious services during the Atlanta campaign, and of colonel for faithful and meritorious services during the war.

The following promotions will ensue: Major Jos. C. Baily, to be assistant medical purveyor, with the rank of lieutenant colonel; Captain Charles L. Heizmann, to be surgeon, with the rank of major, and Robert R. Ball, of Virginia, is appointed assistant surgeon. General Moore will retire on account of age on Aug. 16, 1890, and will then be nearly four years in control of the Department. During his incumbency the following officers will retire: Colonel E. I. Baily, Nov. 14, 1888; Colonel Glover Perin, Nov. 17, 1887; Colonel Thomas A. McParlin, July 10, 1889; Lieutenant-Colonel D. L. Magruder, April 23, 1889; Lieutenant-Colonel A. K. Smith, Feb. 9, 1890; Major Edwin Bentley, July 3, 1888; Major Morse K. Taylor, May 14, 1887.

REFORMS IN THE NAVY DEPARTMENT.

PAY DIRECTOR JAMES FULTON was, on Wednesday, appointed Paymaster-General and Chief of the Bureau of Provisions and Clothing, vice Smith, suspended. His appointment was a surprise only from the fact that the long delay in filling the office had caused people to cease talking about the matter; that he would at some time or other get the place has been predicted by the JOURNAL time and time again. His selection was announced at this time because the Secretary has finally matured his plans for reorganizing this branch of the Service and the time had come for having them carried out. The appointment is an excellent one.

An order has been promulgated materially enlarging the scope of business in this office. We have hinted on several occasions that Secretary WHITNEY had in mind a consolidation or concentration of the work of his Department on his own responsibility, and that one of the first steps in that direction would be in placing under the jurisdiction of the Bureau of Provisions and Clothing the purchasing and distribution of all supplies now purchased separately by each of the bureaus. This step has been taken and the new Paymaster General is expected by the Secretary to carry out the scheme. Everything will be purchased through the new bureau. A great amount of circumlocution and red tape will be done away with and the whole matter greatly simplified. Under its provisions the stationery board in New York, which purchases and forwards stationery to the Navy-yards, upon requisitions from Washington, will be abolished. At present each bureau has its storekeeper and subordinate officials in each Navy yard to look after its own particular supplies. Hereafter there will be but one supply division in each yard for all the bureaus. Where one hundred and sixty men are now paid by the Government it is estimated that forty will hereafter be sufficient, five men for each yard instead of twenty.

In planning this reform the Secretary has had the assistance of Captain MEADE and his board. They have not yet completed their report, but the Secretary has been in consultation with Captain MEADE for some days and has learned in a general way what it will contain, so that he was sufficiently informed as to their action, to be justified in starting ahead with the new system. A new system of accounts, in the line mapped out by the expert a year or more ago, will also be a new feature of the bureau. Nor is it Mr. WHITNEY'S intention to stop here. He said a few days ago that he proposed to carry out the recommendations, contained in his last annual report on the reorganization subject. so far as possible under the general law giving him the distribution of the work of the Department. The fact that he has not yet appointed a chief of Bureau of Construction and Repair is taken as an indication that he is maturing a scheme for enlarging the functions of this office. It is still generally supposed that Naval Constructor WILSON will be appointed Chief of the Bureau.

CONGRESS and the Secretary of War have come to the relief of the chiefs of bureaus who have felt obliged to follow the precedent of inserting in their annual reports matter not absolutely essential to a proper understanding of the business of the year. In a circular dated War Department, Nov. 13, 1886, the Secretary of War says:

> Attention is called to the circular of Aug. 12, 1886, a copy of which is enclosed. The Secretary of War, in such examination as he has been able to give to the reports of chiefs of bureaus, finds that their reports, together with the papers and appendices annexed thereto, are very voluminous, and seem to contain a great deal of matter which does not relate exclusively to the transaction of the public business and is not necessary for its proper administration. The Secretary is obliged by the law to certify, in his letter transmitting his report, that all the matter included therein and annexed thereto is necessary and relates entirely to the transaction of the public business. It being impossible for him to examine all the papers thus transmitted to him, the Secretary will require that each chief of bureau shall certify, respectively, to him that all the matter in the reports they have signed, and in the appendices thereto, is necessary and relates entirely to the transaction of the public business of the Department. He therefore desires that each chief of bureau will re-examine his report before giving to him the above certificate.

The result will be a material reduction of some of the annual reports, notably those of the Chiefs of Ordnance and Engineers. The law referred to by the Secretary was contained in the last Sundry Civil bill, and the attention of the Secretary has only recently been called to it.

LIEUTENANT E. A. GARLINGTON, 7th Cavalry, who was recently ordered to Washington preparatory to receiving orders for duty as Attache to the U. S. Legation at Bogota, Colombia, has, at his own request, been excused from that duty, and will remain at his present station. As General MAURY, the Consul General to Bogota, is very anxious to have an officer associated with him there, it is possible that some other one will be chosen in the place of Lieutenant GARLINGTON. It is hardly probable, however, that any other details of this character will be made for the present, as there is some uncertainty as to whether the accounting officer will approve the mileage and other accounts of officers while on such duty. Favorable action on the measures now pending before the two Houses o Congress covering this point regarded as among the possibilities, and pending action there the Department is inclined to allow the matter to drop.

THE presence of Colonel Gras, the superintendent of the French small-arm manufactories, in this country has created considerable interest among the purchasers of gun machinery and war material Of his visit, *La France Militaire*, of the 1st inst., says: "In order to hasten the reorganization of our infantry armament, General Boulanger some time since sent to the United States Colonel Gras, inspector general of armories, to purchase on account of Government a certain number of machines for boring barrels of small calibre, only to be procured in America because the owners of the patents have thus far prohibited their use on this side of the water. As soon as the new machines shall be set up at Saint Etienne, Tulle and Chatellerault, the shops will be able to deliver to the infantry three hundred stand of rifles per day. Colonel Gras will naturally avail himself of his sojourn in America to visit the manufactories of war material, but he has no official commission." Colonel Gras has visited New Haven, Bridgeport, Hartford and other Eastern cities. The statements of large orders placed by him, which have emanated from the press of the last-named place, are simply speculative, whatever contracts that may have been made being in small figures and not in the name of the French Government. On Wednesday he visited Ilion, the seat of the Remington Armory, for the purpose of acquainting himself with the extraordinary plant and processes which render that establishment the only one in the world capable of turning out five hundred repeating rifles (the Lee magazine rifle) per day. It is not improbable that Colonel Gras's inspection of our industrial resources of an military character may bring about business results. We understand that he will, during his stay, witness a trial of the Pneumatic Dynamite cannon and of the several mobile-torpedoes. It is noteworthy that a very clever draftsman is a member of his suite, and that his sketching ability is frequently called into use.

THE new regulation on the subject of leaves of absence to Army officers, which goes into effect on the 1st of January next, is intended to give officers the full benefit of the cumulative leave. Although the law of 1876 authorizes thirty days' leave in each year, which can be accumulated for four years, the intention of the law was not strictly carried out under former regulations. An officer, for instance, who took one month's leave in four years, would at the beginning of the next year stand in the same position as an officer who had taken the full limit allowed him in the same time, as that month's leave was credited to the last year of the four. Under the new order such a leave will belong to the first year of the four considered, and an officer will be allowed to enter upon a new series from the year in which he took his portion of cumulative leave. The text of the order was published last week.

THE Ordnance Department of the Navy will follow the Army Ordnance officers in extending the hooping of the 8-inch steel guns to the muzzle. The two guns of the *Atlanta* were at the Proving ground before this conclusion was reached, and it was thought best to test them as they stood, in spite of the experience with partially hooped English high power guns. Notwithstanding, however, that very satisfactory results were obtained, the tests demonstrated the necessity of additional hooping to make the guns entirely safe, and the Department now proposes to return these guns to the Navy-yard at the first opportunity and hoop them to the muzzle as they have done with the *Boston's* guns. The latter's guns are now nearly ready for trial. If the *Atlanta* is ready for sea before her guns are entirely finished, the guns of the *Boston* will be substituted for those originally intended for her, and the latter when rehooped will be placed on the *Boston*.

THE plans and specifications for the completion of the double-turreted monitors have been completed by the board at the New York Navy-yard, of which Chief Constructor Pook is president, and sent to Washington for the approval of the Secretary of the Navy. Advertisements inviting proposals for their completion will shortly be issued. Bids will probably not be asked for completing the *Miantonomoh* as it is the intention to have the work upon this vessel performed at the New York Navy-yard. The law appropriating money for finishing these monitors requires that one of them should be fitted out at one of the navy-yards. Messrs. Wm. Cramp and Son, the contractors for the machinery of the U. S. monitor *Terror*, reports to the Navy Department that the work is now complete and the vessel ready

for a dock trial. Engineer-in-Chief Loring will probably inspect the work upon his return from the trial of the *Atlanta*.

A CORRESPONDENT of the United Service *Gazette* asks if it is hopeless to expect the National Rifle Association to do anything substantial towards improving the shooting of the mass of the volunteers. Its Council, he says, "spend enormous sums yearly in developing a few hundred individuals whom they nurse up into wonderful proficiency with the rifle; but what good are they for fighting purposes, scattered among the 200,000 British volunteers? They are but drops in the ocean; their excellence does nothing practical towards raising the standard of their comrades. At Wimbledon they are looked upon as superior beings by the rank and file—a sort of sacred caste, but no attempt is made to rival their performances, and so the general average of shooting in the volunteers remains most dangerously low."

THE forms of contract for new cruisers issued from the Navy Department on Friday contains a number of new and important provisions to bidders. It provides that the contractor shall be allowed for the three large cruisers, *Charleston*, *Newark* and *Baltimore*, of seven, eight and nine thousand indicated horse-power, respectively, $100 for every unit of horse-power attained above these guaranteed amounts, and forfeit $100 for every unit deficient. Penalties are also imposed for failure to complete the vessels at the specified time, the amount being increased from month to month until the vessel has been finished. There are also a number of other important conditions, most of which are favorable to the contractor.

Il Popolo Romano (Rome) publishes an interesting calculation on the ultimate cost of the Panama Canal, founded on the figures of M. A. Beyeler, a Swiss engineer, who was for some time employed in the work of excavation. According to his estimate, if the work be carried on at the present rate, the total cost will amount to nearly 3,400 millions of francs ($680,000,000), but should the enterprise be concluded within ten years the saving in interest will reduce this sum to about 3,000 millions of francs ($600,000,000)—five times M. de Lesseps's original estimate of 600 millions of francs, or $120,000,000.

THE only professions represented in the office of President are those of the soldier and lawyer: Washington, Jackson, Harrison, Taylor, and Grant were soldiers; Monroe, Pierce, Hayes, and Garfield were lawyers as well as soldiers; the other thirteen Presidents were lawyers, viz., the two Adams, Jefferson, Madison, Van Buren, Tyler, Polk, Fillmore, Buchanan, Lincoln, Johnson, Arthur, and Cleveland. Two of these last, Johnson and Arthur, had military rank at one time.

THE Sturtevant House, New York, is a favorite resort of officers of the Army and Navy, to whom it offers the advantages of special rates, and the pleasure of meeting members of the same service who may be stopping there. It reopened on the 5th of October under a new management, thoroughly renovated and reorganized. Messrs. Mathews and Pierson, formerly of the Albemarle and St. James Hotels, are the present proprietors.

THE Second Comptroller of the Treasury has decided that the officers of the Signal Corps are entitled to purchase wood from the Q. M. Department at regulation prices, and they have been reimbursed for the amount paid by them in excess of $3 per cord during the years 1885 and 1886—in amount $505.73. The language of the appropriation bill for those years was construed to exclude officers of the Signal Service at Forts Myer and Washington from the privilege and they were obliged to pay higher prices for the fuel.

CAPTAIN HENRY F. BREWERTON, 5th U. S. Artillery, the commander of the U. S. troops stationed on Bedlow's Island, has been castigated this week by some of our New York papers, because, in the execution of his duty as commander of one of the military posts in New York Harbor (which Bedlow's Island is) he has had to request the civilians living at free quarters on the Island to withdraw so as to make room for the garrison. Captain Brewerton is an experienced and discreet officer, who knows his duty and does it, but it is hard to make the average civilian understand what duty in a military sense means.

SECOND COMPTROLLER MAYNARD has decided to allow the claims of Allan McDonald and Frederick J. Hurstell, civilian, member of the Proteus Arctic Search Expedition, for reimbursement for clothing lost in Smith Sound in July, 1883. This decision overruled the action of the Third Auditor, who disallowed the claims for want of jurisdiction on the ground that the claimants were not officers or enlisted men of the Army, and the Second Comptroller holds that the claimants are entitled to payment, as the clothing was lost through no fault of theirs.

THE London *Daily News* is trying to discredit our Bartholdi statue by undertaking to show that there is at Bamian, in Afghanistan, on the road between Cabul and Balkh, a statue of Buddha 173 feet high, while Miss Liberty is only able to get the tip of her torch up 151 feet. The Buddha statue was cut out of the solid rock some 1,800 years ago, and it is wholly unfair to compare a statue just erected with one that has had so long a time to grow.

THE jacket of the defective 6-inch gun was dropped off at the Washington Navy-yard on Tuesday. The hoops were removed several weeks ago, but the remainder of the disassembling operation was postponed until Tuesday. The work was successfully performed, and the defective tube will be returned to the Midvale Iron Works to be replaced according to contract.

THE Chief of Ordnance, upon the recommendation of the Lieutenant General, has contracted for 300 Fogarty saddle pads for trial. If they prove satisfactory they will be substituted for the blanket now in use.

AN Army officer, who has figured out the new general order regarding leaves of absence, says that under it it is now possible for one officer to have five months cumulative leave if the leave is taken at any time between Feb. 25 and May 20.

TWENTY 10-barrel Gatling guns were contracted for by the Chief of Ordnance this week for issue to State militia.

LATE ARMY ORDERS.

A G. C. M. will meet at Fort Wayne, Mich., on Nov. 23. Detail: Major Henry McElderry, surgeon; Capts. Geo. M. Randall, Jos. T. Haskell, Chas. Wheaton, 1st Lieut. Stephen O'Connor, 2d Lieuts. Edwin P. Pendleton, Wm. H. Allaire, Daniel B. Devore, and Geo. D. De Shon, 23d Inf., and 1st Lieut O. L. Wieting, 23d Inf., J. A. (S. O. 187, Div. Atl., Nov. 19.)

Under instructions from the H. Q. A., in connection with the funeral of the late ex-President, Chester A. Arthur, to take place in New York City, Nov. 22, the following is ordered: The 5th U. S. Artillery (except the light battery and band), in New York Harbor, will, under the command of Col. John Hamilton, escort the remains from the Church of the Heavenly Rest (551 Fifth avenue) to the railroad depot, 42d street. The troops will arrive at the church and form in front of it not later than 9.30 A. M. on Nov. 22 (S. O. 187, Div. Atl., Nov. 19.)

A G. C.-M. will meet at Little Rock Barracks, Ark., Nov. 23. Detail: Major Francis L. Guenther, Capts. Frank B. Hamilton and William McK. Dunn, Jr.; 1st Lieuts. Geo. S. Grimes, Louis V. Caziare, John H. Gifford, 2d Lieut. John T. Thompson, and 1st Lieut. Asher C. Taylor, 2d Art., J. A. (S. O. 187, D. Atlantic, Nov. 19.)

Lieut. J. P. Finley, Signal Corps, is relieved from duty in the office of the Chief Signal Officer, and will take station in New York City, with change of station there. (S. O., H. Q. A., Nov. 19.)

CONTINUOUS SERVICE.

LEWIS NIXON, Asst. Naval Constructor, claims that by virtue of the provisions of the Naval Appropriation Act of March 3, 1883 (23 Stats., 493), he is entitled to have his previous service as a Naval Cadet or Cadet Midshipman counted as service as an Assistant Naval Constructor, so that immediately upon his appointment he was to be deemed to have served for a period of six years in that grade, and hence entitled to receive the pay prescribed by law for an Assistant Naval Constructor who was serving in his second four years. He claims his second four years expired in July, 1886, and that he is now entitled to the increased compensation provided by law for an Assistant Naval Constructor who has been in the Service in that grade for a period of eight years from the date of his appointment.

Comptroller Maynard does not think that the act of March, 1883, in terms, applies, or was intended to apply to the claimant's case. In his opinion on this case he says:

There has been no break in his service; he entered as a Cadet Midshipman in 1878, and has been continuously in the Service from that time; he has been simply transferred from one grade to another; he never resigned his appointment as a Cadet Midshipman or Assistant Naval Constructor. His appointment as Midshipman was, *eo instanti*, vacated by operation of law. There has never been a moment of time since June 28, 1878, when he has not been in the Naval Service.

The act of March 3, 1883, was evidently intended to provide for those cases where the officer had served in the regular or volunteer forces of the United States, and especially the latter, and had been discharged from the Service because of the expiration of the term of enlistment, or because his services were no longer required, and had afterwards re-entered the Navy and received a commission in a grade entitling him to graduated pay under the provisions of the Revised Statutes. In such cases the Revised Statutes did not recognize his prior service, and although he may have previously served a full longevity period in the same grade to which he had been commissioned upon his last entering into the Service, yet it must be ignored and his longevity periods computed from the date of his last appointment. It was this manifest inequality and injustice that Congress undertook to remedy by the passage of the act of 1883. This very clearly appears by reference to the Senate debates upon the subject, in which body the amendment to the law as it is found in the act of 1883 was first inserted. (Vol. 14, part 4, Congressional Record, 47th Congress, 2d session, pages, 3090-3092.)

The express language of the act of 1883 would seem to admit of no other construction without doing violence to its plain terms. It refers to non-continuous service and its apparent object is, by a legal fiction, to have such service regarded as continuous for the purpose of graduated pay, which is to be adjusted in the lowest grade held by the officer "since *last* entering the Service." A "*last*" entry into the Service is only applicable to cases where there has been other and previous entries and is manifestly inappropriate to a case where there has been but one entry and a continuous and unbroken service.

If this is not the proper construction of the act of 1883 then it is difficult to see why all line officers who entered the Service as Naval Cadets and have afterwards been commissioned and have passed through different grades of service having graduated pay in unbroken snocession are not also entitled to have their services in grades having no graduated pay counted as if rendered in the lowest grade having such pay. Such a construction would open the pay account of nearly every line officer in the Navy, and I am not aware that any such construction has ever been contended for in the case of such officers.

I think it plain that such results were never contemplated by the law-making power, and even if the letter of the section favors such a claim, yet the maxim should be applied that "a thing within the letter is not within the statute unless within the intention." The point is also suggested that claimant's case is not within the act of 1883, because his service as Cadet Midshipman or Naval Cadet is not service as an "officer or enlisted man in the Navy." In this respect the act differs from the statute giving longevity pay to Army officers because of previous service, for in the latter act the words "officers or enlisted men" are not used, but service in the Army in any capacity is sufficient. It is contended that while the service of a Cadet Midshipman or Naval Cadet is service in the Navy, yet that he is neither an "officer or enlisted man" and hence the act has no application to his case. The question thus presented is a grave one, but in view of the conclusion which I have reached upon the other point it is unnecessary to pass upon it. The claim of the officer will be disallowed.

PRACTICAL TARGET PRACTICE.

To the Editor of the Army and Navy Journal:

I AM sure that many officers and men will be struck with the practical sense and endorse the views set forth in the letter signed A. M., in your issue of Nov. 6. Reams of paper have been used up in reports of sundry kinds in the present mania for target practice and the hot competition for prominence and inflated figures of merit, and in it the Army has lived and had its being for four or five years past to the subordination and sometimes suppression of military duties fully as important. Napoleon placed a high value on the legs of his armies, but marching ability in our infantry occupies a decidedly subordinate position; it is certainly as necessary to get to where the enemy is as to be able to shoot at him with a fair prospect of making a hit. Is it not now about time to come to a "place rest" and inquire for what do we have target practice, at a very large annual expense. Is it for utility, for training men to shoot against an enemy, or is it to make phenomenal records under existing rules? Theoretically the former object is desired; practically the latter is attained. Seldom will the enemy pose as a target at known distances. Seldom will the ground offer facilities for lying on one's back for aiming and shooting. Never does a hunter get himself into such a position for a shot—and in hunting is the nearest possible approach to the conditions found in offensive battle as compared with any other rifle shooting for practice.

All this goes to prove, in my humble opinion, that for practical efficiency, more attention should be given to training men to fire lying in a *prone* position, and in kneeling, a *hunter's* position nine times out of ten, enabling him to see and estimate the distances and handle himself and his piece to the best advantage. Next, relegate all firing at known distances to a subordinate and auxiliary position for purposes of drill and training, and base *all* figures of merit on records made at unknown distances only, taking due precaution to insure that they shall be unknown and causing the officer in charge to count and verify all hits and certify all records. By this system figures of merit will suffer lamentably, but the troops will shoot better practically. PRAX.

WYOMING TER., November 11, 1886.

(From the London Times.)

WHAT THE DUKE OF WELLINGTON DID.

THE story is one which Sir Francis learned from his father, to whom Wellington told it himself in his own characteristic language, when the elder Doyle was dining at Apsley House:

"After the battle of Talavera I wanted the Spanish force to make a movement, and called upon Cuesta to make the necessary steps, but he demurred. He said by way of answer, 'For the honor of the Spanish Crown I cannot attend the directions of the British General, unless that British General go upon his knees and entreat me to follow his advice.' Now, I wanted the thing done, while as to going down upon my knees I did not care a twopenny damn, so down I plumped."

Military Order of the Loyal Legion.

The New York Commandery has sent to J. Pierpont Morgan, treasurer of the Hancock Fund, its check for $1,050, the amount of subscriptions for the relief of the widow of the late Major-Gen. Hancock.

Chandler P. Chapman has been elected recorder of the Wisconsin Commandery. Address 202 Langdon street, Madison, Wis. Col. Chas. King, U. S. A., has been elected registrar. Address Milwaukee.

FISH COMMISSION.

The Albatross, Lieut. Commander G. L. Tanner, comdg. At Washington, D. C.

The Fish Hawk, Mate James A. Smith, comdg. On her way to Washington, D. C.

The Altyon, Wm. Hamlin, con. dg. At Havre de Gras, Md.

The Grampus, J. W. Collins, con dg. At Gloucester, Mass.

THE MESS.

A correspondent wants to know what "compounding a felony" is. In those States having prohibitory statutes we submit the following as a satisfactory recipe for compounding a felony:

℞ *Spr. Vini Gallici* oz. *ij*
Sach. Alb dr. *i*
Acidi Citrici. *q. s.*
Aqua Pura "
M. ft. Solutio.
Sig. ad Libitum.

J. O. KING, M. D.—*Puck.*

There is a divinity that doth hedge a king, but four kings together don't need a hedge. Generally they can take care of themselves.—*Washington Hatchet.*

LIEUT.-GEN. SHERIDAN'S ANNUAL REPORT.

At the date of the last consolidated returns the Army consisted of—

	Officers.	Men.
General	10	
General staff	573	1,212
Ten regiments of cavalry	411	6,942
Five regiments of artillery	272	2,473
Twenty-five regiments of infantry	836	10,721
Indian scouts		595
Detachments—recruiting parties, etc.		2,003
Total	2,102	23,946

Since my annual report of last year we have had the misfortune to lose Major-General Winfield Scott Hancock, who died Feb. 10, 1886, and the Lieutenant-General performed the melancholy duty of accompanying his remains to the family vault at Norristown, Pa., Feb. 14, 1886. He was succeeded in the command of the Division of the Atlantic by Major General John M. Schofield. No military operations of importance have occurred in this Division during the year. Gen. Schofield repeats the recommendations heretofore made by himself and his predecessor relative to the concentration at some suitable post of several light batteries for their better instruction, and he also calls attention to the fortification and armament of our seacoasts, his command embracing a large portion of our coasts lying along the Atlantic Ocean.

In pursuance of orders from the President, Major-General Alfred H. Terry assumed command of the Division of the Missouri April 9, 1886. While the Division has had no troubles approaching a condition of hostilities during the year, many operations of a minor nature have been rendered necessary to suppress predatory raids in Montana by Indians from one reservation directed mainly against Indians of other reservations, to protect the Indian agents from the insolence and insubordination of their charges, and to secure settlers from the lawless demands of roving bands who have been permitted, on one pretext or another, to leave their reservations.

The adjustment made with the Cheyennes and Arapahoes by the President, through the medium of the Lieutenant-General, in July, 1885, has allayed all irritation in the Indian Territory, but the troops in that region have been kept constantly employed in the prevention of unlawful settlements in the Oklahoma country and its invasion by herds of cattle. Unless some legislation is had which will specially fix the status of the Oklahoma land, I fear its many advantages in the way of beautiful landscapes and fertile soil will prove a continual temptation to an adventurous population near its border, which in a short period could make it a prosperous State.

Vague reports of difficulties north and northwest of Fort Lewis, in Southern Colorado, have necessitated the movement of troops in that direction, and the establishment of two summer camps in the Blue Mountain region have quieted all fears and satisfied the settlers, so that all complaints have now ceased.

The Indians at the Uintah and Ouray Agencies, located on the Uintah and Uncompahgre reservations in Utah, embracing the old White River Utes (who murdered the Meeker family) and the Uncompahgres (removed there some time afterward), became very unruly during last winter, defied the agent, and did almost as they pleased. After an investigation by an officer of the Army, at the request of the Secretary of the Interior, a command of six companies—four of infantry and two of cavalry—was established in the vicinity of the agencies for purposes of discipline and control. The selection of the site for the cantonment was left to Gen. Crook, the junction of the Grand and Duchesne Rivers was fixed upon, and the station temporarily named Fort Duchesne. At this date reports indicate that the agent is now satisfied and the Indians have ceased their insolence and appear willing to behave themselves.

During the year Fort Fred. Steele, in the Department of the Platte, and Fort Ellis, in the Department of Dakota, have been abandoned. In their day both of these posts played most important parts in the settlement of the West and Northwest. Their usefulness having passed away, the expense of their maintenance has been stopped by the removal of their garrisons to other points. It is my desire to persevere in this policy of abandoning small posts, and the sums of money allotted this year to Forts Russell, Riley, and Robinson and the post of San Antonio, all in the Division of the Missouri, will aid materially in carrying it out.

DIVISION OF THE PACIFIC.

Maj.-Gen. O. O. Howard assumed command of the Division of the Pacific April 17, 1886, vice Pope, retired, and Brig.-Gen. N. A. Miles assumed command of the Department of Arizona April 12, 1886, vice Crook, transferred to the Department of the Platte. In the northern section of this division we have had some movements of troops arising from riotous proceedings against the Chinese. The prompt arrival of the different detachments at the points where difficulties had arisen inspiring great confidence, peace was readily preserved without the necessity of actual participation by the military in the enforcement of the law.

In the Department of Arizona hostilities against Geronimo were continued during the fall by the Department Commander, Gen. Crook, but as the results were unsatisfactory, it became apparent to me in November, 1885, that quiet and peace could not be restored until the Chiricahua and Warm Springs Apaches were removed from Arizona. I communicated this impression to the Secretary of War in a personal interview, and in consequence was directed to proceed to Arizona to consult with Crook on this and kindred subjects growing out of existing hostilities. Gen. Crook did not think the time for the removal opportune, and suggested that I obtain Capt. Crawford's views. Crawford coincided with Crook, and stated that the removal might affect the conduct of the Indian scouts just going out, in whom both seemed to have great confidence, and in deference to their opinions I deemed it best to await a more advantageous time for the accomplishment of this purpose.

During the winter operations were made principally by Indian scouts under the command of Capt. Emmet Crawford, 3d Cav., and Capt. Wirt Davis, 4th Cav. The former came upon the Indians in camp in Mexico, Jan. 10; surprised and routed them without loss to his own troops and no loss to the Indians except their camp equipage, horses, and camp plunder. While occupying the hostile camp negotiations were opened with the hostiles, at their solicitation, with a view to their surrender; but unfortunately Capt. Crawford's camp was stolen upon and attacked the next morning by irregular Mexican troops, who claimed to have been seeking the camp of the hostile Indians. In the engagement which ensued Capt. Crawford was mortally wounded: three of his men wounded; the Mexicans lost their leader (killed) and four or five men killed and wounded. The loss of Capt. Crawford was much to be regretted, as he would, in my opinion, have at that time terminated the cruel and bloody atrocities which continued thereafter for many months. After Capt. Crawford's death, Lieut. Marion P. Maus, 1st Inf., came in command and continued the negotiations, which resulted not in the surrender of the Indians but in a promise on the part of Geronimo that he would go to a point near the boundary line to meet Gen. Crook. This officer met him about twenty-five miles below San Bernardino, Mexico, and exacted a qualified surrender, which was not approved by the President. While en route to Fort Bowie the Indians, suspicious of treachery, marched in skirmish order so as to prevent any considerable number of their party from being entrapped; but the night succeeding the first day's march Geronimo became alarmed, from idle stories, and escaped with twenty of his best men and thirteen women. The balance of his band continued on to Bowie, after which they were sent to Fort Marion, Florida, with the thirty-three previously captured. The understanding when Geronimo and his followers started in to Bowie was, that if they surrendered their lives would be spared and they would be located in some distant part of the country. Fort Marion was selected as the best place to secure these bloodthirsty savages (whose lives were spared not from any consideration for them but as an inducement for the balance of the hostiles to surrender), so that honest and industrious white citizens and their families might be protected and trade and commerce restored to the Territories of Arizona and New Mexico. They could not be put at any military post west of the Missouri River, because the people in the vicinity would not tolerate them, and as the law excludes them from the Indian Territory, removal to that section was out of the question.

After Capt. Crawford's last engagement it became a belief in my mind that the Indian scouts could not be wholly depended upon to fight and kill their own people. I think they were faithful so far as to try to capture or to induce the surrender of the hostiles, but they had no wish to kill their own kindred. That this sentiment was reciprocal was demonstrated by the Indian engagement referred to and others that had occurred previously. Gen. Crook seemed, however, wedded to the policy of operating almost exclusively with Indian scouts, and as his experience was of great weight his policy could not well be changed without his removal to another field. To relieve the embarrassment he at once requested such a course, and as at about the time of the surrender and escape of a part of Geronimo's band a change of the geographical commands was necessitated by the death of Gen. Hancock and the retirement of Gen. Pope, Gen. Crook was sent to the Department of the Platte, and Gen. Miles, on my recommendation, assigned to the Department of Arizona, the latter's instructions being as follows: [See Gen. Miles's Report, JOURNAL, Nov. 6, p. 297.]

Gen. Miles went to work with commendable zeal. His troops followed up the hostiles with vigorous energy, broke up their camps by attack four or five times, and gave them no rest until they surrendered on Sept. 4, under circumstances and conditions, however, that should not, in my judgment, permit their being turned over to the civil authorities for punishment, as was intended by the President. On Sept. 8 they were started by Gen. Miles to Fort Marion, Florida, without authority, but at a later date stopped at San Antonio till their final disposition could be decided upon.

Previous to the surrender and early in July, Gen. Miles had visited Fort Apache, near which were located the peaceable Chiricahua and Warm Springs Apaches, some of whom had been Gen. Crook's scouts, and many of whom, before serving in that capacity, had committed the most brutal murders: On July 3 Miles telegraphed that there were strong military reasons for the removal of these Indians from Arizona, and asked authority to send a few of the tribe to Washington with reference to another location. From this I judged the time had about arrived for the forcible removal of all the Chiricahua and Warm Springs Apaches to Florida, in accordance with the suggestions I had made before visiting Gen. Crook in November, 1885. I consequently approved Gen. Miles's request, and, the Secretary of War having authorized it, I directed the former to send ten of the Indians to Washington under charge of an officer, with instructions to report them to the Secretary of the Interior. A delegation of leading men was speedily started and shortly after arrived in charge of Capt. Dorst.

On the 7th of July General Miles forwarded a communication giving his views relative to the subjugation of the hostiles and the control of the Apaches, suggesting the advisibility of moving the four hundred and forty men, women and children on the reservation to the Indian Territory, etc., on which I indorsed, July 30, as my recommendation, the following:

> Respectfully submitted to the Secretary of War. There are now on the reservation near Fort Apache seventy-one Chiricahua and Warm Springs adult male Indians. These are exclusive of those in this city. It is my belief that if the delegation which is now here goes back to the reservation without having received what they may deem the most satisfactory promises on the part of the Government a large number of those that are now peaceable will endeavor to join Geronimo. I therefore recommend that authority be granted me to direct General Miles to immediately arrest all the male Indians now on the Chiricahua reservation, near Fort Apache, and send them as prisoners to Fort Marion, Florida; that the delegation now here be sent there also, and that they be held at that point as prisoners of war until the final solution of the Geronimo troubles.

The President called together the Secretary of War, the Secretary of the Interior, and myself, and after discussing the question the President directed me to send a telegram to Gen. Miles asking him what he thought of the proposition to forcibly arrest all on the reservation and send them to Fort Marion, where they could be joined by the party then in Washington, to which he replied that there would be some advantages but that some serious objections occurred to him which he would explain fully by letter. The objections contained in his letter were that the delegation went to Washington by authority with a view of making some permanent arrangement for their future, and that it might be charged the Government had taken advantage of them; that it would be known to all other Indians in the Southwest, and, in future, they might hesitate about sending delegates to Washington, and that it would necessitate a war of extermination against the hostiles then in Old Mexico in which all would have to be killed. To me the objections of Gen. Miles did not seem sufficiently weighty in the face of the many cogent reasons existing for removal—if removed at all—to some point east of the Missouri River, and I am pleased to say that the President finally authorized them to be sent to Fort Marion, after General Miles, on August 20, had reported that Col. Wade, commanding Fort Apache, was prepared to accomplish the work.

On the 25th of August I again informed Gen. Miles, in answer to a telegram he had sent to the Interior Department, that no proposition looking to the location of the Chiricahua and Warm Springs Indians west of the Missouri River could be entertained, to which he replied with further recommendations as to establishing them at Fort Union, New Mexico. This was forwarded to the President, who adhered, however, to the decision he had already made, and in consequence the four hundred and forty men, women and children then at Fort Apache were started for Fort Marion, Florida, where they arrived on Sept. 21.

OTHER MATTERS.

Staff Department reports, etc., show the distribution of troops, statement of casualties during the year, enlistments and re-enlistments, number of enlisted men drawing increased pay under the act of Aug. 4, 1854, and the number of men who will become entitled to increased pay under the act of May 15, 1872. It is gratifying to know that there is a marked decrease in the number of desertions from the Army since my last report. The percentage in 1884 to the legal strength of the Army was 15, in 1885 11.7, and during the past year 8.3. The great decrease since 1884 is due no doubt to the improvement of administration and to the beneficent legislation which provides for honorable retirement of enlisted men after long and faithful service. From the fact that a considerable number of offenders belong to a class that may be termed professionals the evil can only be wholly eradicated by legislation which will empower us to indelibly mark with India ink every man convicted of desertion by a Court-martial. Fear of detection would prevent such criminals from again offering themselves for enlistment, and would, in my opinion, terminate forever the repeated desertions that are frequently practiced by vicious and bad characters who appear lost to all sense of obligation, and commit the crime for pleasure or the convenience of getting from one place to another.

The recruiting of the Army has been carried on under practically the same system as has obtained for many years, except that the recruits are kept at the general depots for a longer period than formerly. This has proven advantageous to the recruits and the Government in many ways, and the improved quarters and better rations and clothing that are now provided for the enlisted soldier tend greatly to improve and elevate the tone of the Service.

The Inspector-General's report indicates that the Army is in a very healthy and gratifying condition, and it contains many recommendations deserving consideration. The discipline is generally excellent. But few officers have been tried by Courts-martial during the year, and I think I may safely state there has not been a period during the last twenty-five years when so little necessity has existed for the correction of those holding commissions. Many officers are becoming disabled, however, by reason of long service on the frontier and from wounds received or disease contracted during the War of the Rebellion. While the disabled are being transferred to the retired list as fast as its limits will permit, some relief could be extended if Congress would open that list to the extent of embracing those who are now excluded from it for want of vacancies. This would give a certain degree of promotion, and if we could get the infantry regiments increased to twelve companies, as proposed by the Manderson bill, and the increase of five thousand men reported favorably by the Senate Military Committee last winter, a state of efficiency and usefulness would be reached which would enable us to creditably perform such service as the country might demand.

The reports of the Superintendent of the Military Academy, the commanding officer of the Artillery School, and the commanding officer of the Infantry and Cavalry School show the constant care that is being exercised for the maintenance of a high standard of military education among our officers. The Military Academy and the Artillery School have been in existence for so long a period, and the general principles on which they are based have proven so satisfactory, that there are no marked recommendations made in the report from either which I wish to bring before you now, though many minor points are touched upon which deserve consideration. The commandant of the Infantry and Cavalry School suggests a number of improvements to keep up with the spirit of the age, but as that establishment is yet in its infancy it is thought best to move slowly in the adoption of untried methods there until the institution becomes somewhat more crystallized.

The instruction of the Army in the use of the rifle or carbine with which the men are armed has been thoroughly prosecuted during the year, and the returns from each Department, as well as the results of the regular competitions now just closing, exhibit a decided advance in the proficiency of the Army in rifle firing.

In my previous report I called attention to the great relative importance of the company skirmish practice where the targets are figures simulating the appearance of a line of hostile skirmishers. This practice is the natural sequence to the known distance firing, and possesses great practical advantages; it not only perfects the fire discipline of the company and the ability of its officers to control in direction and intensity the fire of their men under conditions as close as peace permits to those which might exist in war, but it also presents to the soldier an object which bears a fair resemblance to the appearance of an enemy in battle, and accustoms him as far as possible to aiming and firing at men. The lack of appropriate ground for these exercises has in some cases prevented their proper prosecution, but as their importance is becoming better recognized these obstacles are gradually being overcome, until, in the near future, I anticipate that many of the soldiers will become skirmishers and the effective fire of the mass of the Army will have greatly increased in value.

As the Army is necessarily deeply interested in the settlement of the Indians in permanent abodes, I again beg leave to submit my recommendations of last year on this subject.

In my annual report for 1885 I recommended that each Indian family be given and located upon the 320 acres now provided for them by law in case of actual settlement; that the Government then condemn the remainder of each reservation and buy it for $1.25 per acre, and with the proceeds purchase Government bonds to be held in trust by the Interior Department, giving to the Indians each year the interest on the bonds for their support.

The Indian reservations of the United States contain about 200,000 square miles, and their population is about 260,000. Twenty-six thousand square miles would locate each family upon a half section of land, leaving a surplus of about 170,000 square miles, which, according to the plan I have proposed, would produce annually $4,480,000. This amount exceeds by about $660,000 the entire sum appropriated [for the

payment of their annuities and for their subsistence and civilization.

[Gen. Sheridan's estimate is as follows:

Reservations.	Acres.	People.
Fort Berthold	2,900,000	1,300
Crow Creek, Old Winnebago, and Sioux	22,250,000	25,800
Devil's Lake and South Mountain	276,480	1,800
Blackfeet	21,500 000	7,000
Others in Dakota and Montana	33,000,000	38,000
Wyoming and Idaho	5,000,000	6,000
Klamath	1,000,000	1,000
Oregon and Washington Territory	8,400,000	16,000
Utah and Colorado	5,000,000	3,650
Navajoe	8,000,000	23,000
White Mountain	2,500,000	5,000
Others in Arizona and New Mexico	14,000,000	48,000
Kiowa, Comanche, and Wachita	8,000,000	7,750
Others in Indian Territory	22,500,000	72,250
	154,326,480	256,550

The policy advocated in my report would be most advantageously applied gradually, the general government of the Indians being continued according to the methods now in vogue, or such improvement of them as time and experience may suggest. The ultimate development of the suggested policy would, as the Indians advance in civilization and intelligence, result in the return to them of the principal derived from the sale of their lands, which, until such measures were authorized by act of Congress, would be held as a trust for their benefit, and the income applied to their support.

Very respectfully, your obedient servant,
P. H. SHERIDAN,
Lieutenant General Commanding.

ARMY ORDNANCE WORK.

ANNUAL REPORT OF THE CHIEF OF ORDNANCE.

THE annual report of General Benét, Chief of Ordnance, U. S. Army, shows a total of $2,006,570.13 receipts, including $8,503, balance from the adjustment of accounts with other appropriations and $66,541.93 from the sale of Government property, of which $43,687.10 was deposited in the Treasury. The expenditures for the year were $1,896,862.92, besides $65,662.26 turned into the surplus fund on June 30, 1886. The amount in the Treasury and in Government depositories was, at the beginning of the fiscal year, $773,378.87, and at the end $773,436.72. During the year 39,527 rifles, carbines, and shotguns have been manufactured at the National Armory. One thousand rod-bayonet rifles, new model and improved sights, are still under trial by the troops. The report of Dec. 15, 1885, on magazine guns, which we published at the time, reappears here. The attention of the Department having been called to the occasional inaccurate shooting of the carbine cartridge through Lieut. Frank Baker, the officer in charge of the proof of ammunition at the Frankford Arsenal, a series of trials was ordered with a view to discover and correct the cause of inaccuracy. An exhaustive report on the subject prepared by that officer (Appendix 34) has led to the omission of the wads from future manufacture. Provision has been made to meet the changes required in both bench and hand reloading tools for reloading this ammunition. The Morse cartridge which has been under consideration by the Department for a number of years has recently been so far perfected through the efforts of Mr. Morse that it has been decided to issue a number for trial with the troops. During the past year 48 sets of bench reloading tools for metallic ammunition have been issued to posts, comprising all those of five or more companies and including eight posts of four or a less number of companies.

"During the year the new skirmish targets prescribed by Blunt's 'Rifle and Carbine Firing' have been manufactured at the Rock Island Arsenal and supplied to the Army. They have been very generally approved and are so carefully made that they will probably meet all requirements in this respect for several years to come." Gen. Benét thinks there is little doubt that at the present time the facilities for rifle practice offered to the soldiers of our Army "are greater and more perfect than those enjoyed by other armies, and the result of having practically an Army of marksmen is due in a great degree to this liberal supply of all the material for this most important element of the soldier's education—the efficient and effective use of his rifle."

The reference to the militia is covered by a brief recommendation that the annual appropriation for supplying them with arms be increased. A brief reference is made to the report of Capt. D. A. Lyle on the armor plate experiments at Spezia, which will be published at an early day. More money is asked for ordnance, ordnance stores, etc. It is recommended that Sec. 3709, Rev. Stat., be amended so as to permit purchases to a less amount than $100 without advertising. The Interior Department is allowed to purchase in open market to the amount of $500. In New York City such purchases are allowed up to $1,000, which has led to the multiplication of what are known as $999 contracts.

ARMAMENT OF FORTIFICATIONS.

Under this head the reports of the Boards on Fortifications and Gun Foundry are summed up. As to the bill embodying the recommendations of the last mentioned report, Gen. Benét says:

The features of this bill as a whole are judicious and well-devised, except that the very important question of fortifications is wholly ignored. But no doubt great good would have resulted from the passage of the bill in its present shape by Congress. A start would have been made in the right direction, by laying at least the foundation of a gun factory at the Frankford Arsenal, and which under a fostering legislation would be added to from year to year. An Army Gun Factory is a great want, and it is most earnestly recommended that Congress take such action at its next session as will place the Department on, at least, an equal footing with the Navy in respect to such an establishment. The appropriation of $6,000,000 for steel forgings is perhaps scarcely sufficient to arouse much competition among steel makers, but it would doubtless prove a healthful stimulus to those manufacturers who are now engaged in supplying the Government with gun forgings. The amount recommended by the Board of Fortifications or other Defences for gun metal for the first year alone was $8,000,000, while for inaugurating the production of armor plates, laying the foundations for fortifications, manufacturing gun carriages, submarine mines, torpedo boats was $13,500,000, making the total amount recommended for the first year $21,500,000. In these recommendations of the Board this Department fully concurs.

Through the failure of the regular Fortifications Appropriation Bill to become a law at the last session of Congress, serious injury has been sustained by the Department, and its operations as regards the armament for fortifications, for the fiscal year 1886-87, such as the completion and test of the experimental guns under construction, the further development of powders and explosives, and the alterations of carriages for mounting existing guns have practically ceased, except in so far as that work is continued over from last year by existing contracts.

And not only has the work come to a standstill, of itself a great evil, but the personnel of the Department, employed on the work, has been almost entirely discharged. The force of civilians employed at the Proving Ground, consisting of men of long experience in handling guns and explosives, and doing the technical work in connection with an Ordnance Proving Ground, has been lost to the Department, and the operations now practicable at that point must be carried on by means of enlisted men taken from the arsenals, who will require very considerable instruction and practice to fit them for the proper discharge of their new duties.

At the Watertown Arsenal, where the Department has had under construction the experimental 10-inch wire guns, the alteration of seacoast carriages, and the manufacture of gun sights and other supplies pertaining to the armament of forts, work has practically ceased, and the large force of skilled men has been discharged. The expense and labor attending the re-commencement of work, like the installation of new work, is very considerable, and is made apparent in the increased cost of the articles produced. The difficulty also of getting skilled men for such technical work, of organizing, of instructing, of getting the right man in the right place, and of determining the best and cheapest manner of doing the work—all matters of great moment—has to be again encountered and overcome after a period of enforced idleness. But the difficulty of procuring good men, when work is resumed, becomes more difficult than ever, from the feeling of uncertainty regarding the permanency of their employment.

A summary follows of the present condition of the work and of the results obtained in the experimental trials during the year, which may be condensed as follows: *Experimental 12-in. B. L. Rifles, cast-iron*—Rounds fired 137, 123 with full charge, 125 lbs.; and 79 with 800 lb. projectile. Mean pressure for 100 observations, 27,998 lbs.; maximum, 34,400 lbs. Estimated muzzle velocity with the best powder attainable not above 1,750 feet, or that obtained from a full power, 10¼ in. steel rifle, weighing 215 tons less. Firing was discontinued at the 137th round, as the erosion had become so pronounced that the gun was not considered safe. This erosion is shown by photographs accompanying the report. It is thought that by means of a lining tube, inserted either at the outset, or after the bore has begun to suffer from erosion, the life time of such a gun would be prolonged; but the Department has now partly completed a 12-inch cast-iron gun, to be lined with a steel tube, and it is thought expedient before lining the present 12-inch gun to await the trial of the lined gun, which should furnish useful information with respect to the limit of endurance that may be obtained with castiron guns when protected against the destructive effect of erosion. With the necessary money appropriated the 12-inch B. L. cast-iron rifle tubed with steel and the wire hooped and tubed with steel can be completed within the present fiscal year. The body for the first has been successfully cast at the fourth trial, is now rough bored and turned, and counter bored for receiving its tube; the tube is rough turned and the breech mechanism is in readiness to be fitted to the gun. The other has been assembled and the breech mechanism is ready to be fitted.

Experimental 12-in. M. L. rifled mortar, cast-iron steel hooped—The trial of this piece has been in progress since July, 1885, and a progress report is given in Appendix 11. The full charge was fixed at 52 pounds and that of the charged shell 610 pounds. With full and half charges the velocity and pressures were as follows: 52 lbs O. V. powder, 998 ft. vel., 26,880 lbs. pressure, 26 lbs. M. V. powder, 663 ft. vel., 11,020 lbs. pressure.

The following ranges were obtained with full and half charges:

Kind of Powder.	Charge.	Shell.	Elev'n.	Range.		Approximate time of flight.
	Lbs.	Lbs.	Degs.	Yds.	Mls.	Seconds.
M. V.	26	610	60	3366	1.91	36.0
	26	610	28	3476	1.97	19.1
O. V.	52	610	60	6992	3.97	50.5
	52	610	28	7252	4.1	27.5
	52	610	45	7983	4.53	

General Benét says:

The computed height of trajectory, for a projectile of 610 lbs., having a muzzle velocity of 1,000 feet, and fired at an elevation of 60 degrees, is 3,197 yards; angle of fall about 67.0 degrees, velocity at impact 787 feet, and the penetration in iron 8 inches under normal impact. With regard to accuracy of fire, some of the targets made are excellent, fully equalling the best results attained abroad with seacoast B. L. mortars, but there is a very considerable want of uniformity. On the other hand, it may be remarked that the published records of firings made with B. L. mortars abroad are not as full and complete as could be desired for purposes of comparison. In order, therefore, to determine by careful and extensive trial the relative merits, as regards accuracy of fire, of muzzle-loading and breech-loading mortars, the Department has placed under fabrication a 12-inch B. L. mortar of cast-iron, hooped with steel, similar to the present M. L. mortar, except as to such details of chambering, rifling and type of projectile as are peculiar to breech-loading systems. The body for this mortar has been cast at the South Boston Iron Works, and is nearly ready for the hoops. The hoops and forgings for breech mechanism, are being made at the Midvale Steel Works, and will soon be completed.

With regard to endurance, the mortar has been fired thus far 381 rounds. The star-gauging after the 381st round shows no material enlargement of the bore, and the piece is apparently in as good condition as ever. The construction is therefore abundantly strong. The rapidity of fire has been from 7 to 8.5 rounds per hour.

The shells for the mortar are designed for use with the Hotchkiss base fuse, but no trials have as yet been made to test either the action of the fuse or the effect of explosion of the charged shell.

The endurance test of the mortar will be continued up to 500 rounds.

A better sabot is also needed, and it is possible that sabots with different degrees of sensibility may be required.

Other Guns.—The cast-iron, wire-wrapped 10-in. B. L. rifle is well along toward completion, and a very interesting and able report on the fabrication of this gun has been submitted by Lieut. W. Crozier. The 10-in. wire steel-gun is in a very backward state, owing mainly to the novelty and manifold detail of the construction. The tube, jacket and trunnion hoop for the experimental 10-in. B. L. rifle, steel-hooped gun, were ordered from Sir J. Whitworth and Co., and the hoops principally from the Cambria Iron Works, though the chase hoops, with the breech mechanism forgings are being manufactured by the Midvale Steel Co. Progress in the manufacture of hoops at the Cambria Works has been slow, but the results obtained have been very gratifying, fully conforming to the high requirements specified in the contract; and it should be remembered that this is the first effort made by this company in the production of gun steel. The delay in completing this gun will be more directly chargeable to a failure to secure prompt delivery of suitable tube and jacket forgings.

The experimental 8-in. B. L. rifle steel gun completed in June last has been fired 24 rounds, with the following ballistic results, charge 100 lbs.:

	Projectile. Lbs.	Velocity at 150 ft. from muzzle. Feet.	Pressure per sq. in.
Rottweil-Hamburg.	182	2,135	29,450
	235	1,933	32,150
	286	1,787	32,800
Dupont's—P. A.	235	1,929	32,950
Dupont's—P. A.	286	1,812	35,450
P. I.	286	1,702	26,425
P. K.	235	2,017	37,662

In firing two series of 5 shots each at a target 3,000 yards distant to determine which of two differept forcing bands submitted for trial was of the better width, the following results were obtained with the band adopted: Target 30 by 40 feet—Range 3,000 yards—Mean vertical deviation from centre of impact, 1.90 ft.; mean horizontal deviation, 1.56 ft.; mean deviation, 2.46 ft., or the centres of all the shot-holes were contained within a circle of 6½ feet diameter, which denotes a very high degree of accuracy. Though these results, as compared with those obtained abroad, are considered satisfactory, further improvement is looked for. The report says:

After the twenty-fourth round for about twelve inches in the length of the bore near the muzzle the enlargement was 6 1000ths of an inch. This enlargement is in itself small, showing an extension of only 75-100000ths of an inch, per linear inch, or less than one-half of one per cent. of the ultimate extensibility of the metal after rupture, as determined by tests of bars cut from the tube forging itself. A careful consideration of the results, however, led to the conclusion that the chase should be hooped to the muzzle, having also in view the purpose of the Testing Board to fire the gun to extremity. This modification in the design will permit, with a suitable powder adapted to a high density of loading, of increasing the present powder charge, if desired, and will enable the Department fully to develop the ballistic properties for guns of this class. The gun has been returned to the West Point Foundry where it is now in the lathe being turned for its chase-hooping. It is expected that the trial will be renewed in about two months.

A satisfactory forging for experiments on the 5-in. B. L. rifle is expected by November. A carriage designed for it by Capt. Shaler, is being constructed at the Springfield Armory. Several of the steel field guns are completed and it is expected that the rest of 25 will be finished by the end of this month, November. An appropriation for carriages for Field Artillery is earnestly recommended. Ten complete sets of a new packing outfit for the Hotchkiss Mountain gun, designed by Col. Flagler, have been ordered for issue and trial. Capt. A. H. Russell has submitted a brief history of a hydraulic buffer invented by him to show that he anticipated that of J. Vavasseur.

Experiments with seacoast carriages have been interrupted by the failure of the appropriation. 104 rounds have been fired from the 12-inch B. L. rifle mounted on the Powlett carriage. The Ordnance Board expresses the opinion that this carriage "can be accuately and quickly traversed by means of the worm gearing, and can be laid in any desired line rapidly enough for the purposes of the land service; that the gun can be elevated and depressed with accuracy, but it takes as long, if not longer, than when done by hand, and in the excitement of action the slight motions needed to fix it at the desired angle are difficult to accomplish. The Board objects to the complicated arrangement of supply pipes, branches, and valves, and deem it vital that they be greatly simplified; and considers the apparatus for checking recoil too complicated, and inferior to the ordinary hydraulic buffer." They recommend that the expenditures be suspended awaiting the result of the trial of the carriage now building for the Navy Department.

The Ordnance Board has submitted a voluminous Progress Report on the experiments being made for developing an effective system of defence for torpedo lines. The progress made is encouraging, but for prudential reasons it is not deemed expedient to make public the report. The gun to which the Yates breech mechanism is applied burst explosively on the 312th round, and, as the device had not proved satisfactory, it was not recommended. A satisfactory obturating primer has been obtained, both friction and electric. From experiments as to frictional resistance due to shrinkage, some useful practical deductions have been made touching the longitudinal assistance to be derived from hoops, etc., and the efficacy of the grip, due to shrinkage, exerted on an inner tube by its enveloping jacket, hooped or otherwise, to prevent separation in firing.

The report also contains some observations on the production of steel gun forgings, which we reserve for another week.

A TORPEDO CANNON BALL.

THE *Avenir Militaire* gives us some particulars concerning a torpedo cannon ball invented by Capt. Coudray, of the French Navy. Four years ago the captain presented his projectile to the authorities, who at once ordered experiments to be made with it at Gaves, near Lorient. We are told that for some time past the modest inventor has been engaged in manufacturing his projectiles under the supervision of a special commission named by the Minister of Marine. At first it was found that all the projectiles discharged at the mean velocity of 150 metres a second rebounded on striking the object at which they were fired. Time was afforded to Capt. Coudray to improve his invention, and it seems that, in spite of much head shaking on the part of the *savants*, he has succeeded in curing the defect complained of. The torpedo cannon ball, we are assured, now travels at the rate of 300 meters a second, and instead of rebounding on striking ship, glides along its sides, and never loses contact until it explodes. The last cannon balls constructed contain a charge of 40 pounds of guncotton, although 25 pounds is said to be sufficient to blow up the biggest vessel. It is stated that these projectiles can be fired to a much greater distance than the Whitehead.

LIEUTENANT H. F. LEMLY, 3d U. S. Artillery, has an interesting article in the last number of "Frank Leslie's Sunday Magazine," on the Moravians of Salem, N. C., with whom his experiences as a native born North Carolinian makes him familiar.

THE STATE TROOPS.

THE "CIVIL COMMITTEE."

THE Smith trial in Brooklyn has brought out some curious facts in regard to the institution known as the "Civil Committee" in National Guard companies. We see the captain of a company at a "company meeting" peremptorily declared out of order by one of his subordinates and his efforts to make himself heard rendered futile by the noise and other demonstrations of a number of enlisted men, so that he had to, or at least did, give in.

Under the system of dues as existing in the National Guard, the men, of course, are entitled to be heard with regard to the disposition of their money and such articles as are procured from funds arising from their contributions. This should, however, be accomplished in a military manner, and the captain should be the head of the company in the administration of its financial as well as purely military affairs, and preside at all meetings, with all the power attached to him in his military capacity. "Civil meetings" should be abolished. A military concern can only be properly and prosperously managed on military principles, and these are diametrically opposed to the system of dual authority as it now exists in the National Guard companies. This false, anomalous, absurd and unmilitary system is at the bottom of all the troubles in the 13th. The matter requires modification on a reasonable, military basis, and for this purpose we bring it to the attention of the next National Guard Convention. In all matters connected with his regiment a man is a soldier under all circumstances, and as such he owes respect to his superiors at all times. The "Civil Committee" is responsible for many of the erroneous opinions to the contrary, so frequently expressed by National Guardsmen; the present system has been productive of much evil, and it would therefore be of immense benefit to the State service if the institution known as the "Civil Committee" were done away with.

TO IMPROVE THE MEDICAL SERVICE.

THE surgeons of the 1st Brigade will hold a meeting this (Saturday) evening with a view of improving the sanitary service in the National Guard and the Medical Corps generally. The only two occasions on which it became necessary to employ apparatus and appliances for the care of wounded soldiers in the streets of New York, during the riots in 1863 and the Orange riot in 1871, are so far remote that the matter has become neglected. In 1877 the New York troops had no occasion for stretches or other appliances of that kind. A movement to perfect the medical service has recently been set on foot in the 2d Brigade, and it is expected that some of the medical officers of Brooklyn will take part in the meeting. The necessity for a convention of this kind is obvious, as it may be said with safety that there is not a single organization properly prepared for service of this kind. No doubt many of the surgeons entertain practical views on the subject, but these have never yet been carried out, nor is there uniformity on the subject. What may be brought out in this convention cannot be told until after it is over, but its results cannot be otherwise than beneficial. One of the subjects of discussion will be a question as to the utility of medical officers carrying swords when in service with troops. The opinion prevails that the only use a medical officer has for a sword is on parade, while on all other occasions it is superfluous and in the way. This opinion has reason on its side, but as a medical officer needs something for defence when in service, some other weapon has to replace the sword, if it should be abolished, as proposed. A good revolver, carried in a handy manner, would certainly be preferable. The convention will also consider the most suitable appliances for rapid aid to the wounded, how to carry them along, what kind and how many assistants a surgeon ordered out for service should have, the quickest and most effective way of dressing wounds, etc. The subject is a very interesting one, and deserves more attention than it has heretofore received.

THE THIRTEENTH NEW YORK.

THE 13th muddle is about as turbid as ever. The Court-martial in the Smith case had its latest session on Nov. 12. Nothing very interesting was brought out. The testimony was mainly negative. The defence made an effort to establish, by the friends of the accused, the lame fact that instead of the word "Damn," he used the expression "Darn the Colonel," (whatever that may mean) and there the matter rested. Charges of some sort were preferred against Col. Fackner, some of them covering alleged actions of his three years ago, while in command of one of the companies of the 13th. The Brooklyn *Eagle*, which has taken a correct military stand in the matter all along, says the charges emanated from Major Ackerman, Capt. Morle, and another officer. A copy of them is reported to have reached Albany in an irregular manner, which is a matter for the State authorities to look after. There are various rumors about the nature of the charges, but nothing positive is known about them. From all that can be learned, however, those who preferred them were actuated by a spirit of spite and revenge, and not by that high regard for justice, fairness, and desire for the honor and improvement of the military service, which should be the first consideration of an officer. If not, why was a period of three years allowed to elapse before bringing some of the allegations to light, and why, all at once, this unseemly haste in sending a copy to Albany in an unmilitary manner, ignoring the prescribed channel of correspondence? The rumor about charges against Brig.-Gen. James McLeer in connection with this matter is absurd. That officer has displayed the utmost discretion and fairness toward all parties concerned. If any blame could be attached to him it might be for being too conciliating to the transgressors. Neither the charges against Major Ackerman nor against Col. Fackner will be brought to trial. On the other hand the State authorities, who seem to have at last found out that there was something rotten in the 13th, have determined to appoint a Court of Inquiry to look into the whole matter. The Court will be detailed from the 1st Brigade, and Col. Emmons Clark, of the 7th, will be its president. The remainder of the detail, as we write, is not known. The Court will not lack material for investigation, and the proceedings promise to be of the most tedious kind.

The Brooklyn *Union*, the only supporter of the 13th mutiny among the press, says: "A court of inquiry has been favored by the alleged 'kickers' of the 13th all along, they believing an investigation would show they had good reasons for their opposition to the present commandant. The members of the regiment state they will be satisfied with a court selected outside of the 2d Brigade, with this exception, that no officer from Col. Fackner's old regiment, the 12th, be named."

This shows that the "members of the regiment" decidedly belong to the class that never learn nor forget anything. The present trouble started by an attempt on their part to dictate to their officers in matters which did not concern the rank and file. They now presume to dictate to the Adjutant General. Considering, however, the milk and water manner in which they have been dealt with their presumption is not surprising. We hope that those who are responsible will soon find out how misplaced was their leniency and that the time for temporizing has passed.

GENERAL R. H. JACKSON'S REPORT OF THE NEW YORK CAMP.

THE report of Gen. R. H. Jackson, U. S. Army, on the New York Camp has been published by the War Department. It contains some valuable suggestions and remarks, which, coming from one who has risen to the position of Major-General of Volunteers and Bvt. Brig.-General of the Army from the ranks, are of particular importance.

With regard to uniforms the General says:

It seems a pity that blouses are not supplied by the State. Most of the organizations, however, are furnished with them at their own expense, and some of the regiments and separate companies have white helmets and trousers. If the blouse were made an article of issue and each man supplied with one, the uniform would be well enough adapted for field service. A heavy, double-breasted uniform coat is not a comfortable garment to wear at drill when the mercury stands at 85 or 90 degrees in the shade.

The arms are the Remington rifle, calibre .50, with ordinary bayonet. The Frazier patent cartridge box, carried on a black leather waist belt, with a capacity for 20 rounds of ammunition, is in use. Nearly all the officers with whom I conversed on the subject preferred this rifle and accoutrements to the Springfield, calibre 45, and the McKeever cartridge box. The knapsack was of the old glazed pattern, with a wooden frame inside to keep it in shape. It looks well, but would be utterly useless in a campaign. It always was an instrument of torture. The canteens and haversacks were very good. The arms, accoutrements, and equipments were always kept in a clean and serviceable condition.

The troops were rationed by contract. Three times a day, as the drums beat the breakfast, dinner and supper calls, the whole command marched to the immense mess hall and were certain to find the most substantial meals carefully prepared for them. The cleanliness of the kitchen, mess hall, mess furniture and surroundings reflected great credit upon the contractors and the commissary officers. I now think that this system of feeding troops in camps of instruction is the best I know of, as the companies have nothing but their drills, recitations, etc., to think of, and there is only one kitchen and mess tent in camp, instead of 10 or 15 under the old system. The food is also better and better prepared.

Gen. Varian, Chief of Ordnance, and his assistant, Col. Brownell, had charge of the Quartermaster's and Subsistence Departments. The system was a complete and thorough one. The whole machinery of transportation worked smoothly and pleasantly.

Surgeon-General Joseph D. Bryant, who made weekly visits of a day or two to camp, had charge of the medical department. It was very thoroughly organized. The regimental and other surgeons and assistant surgeons were exceedingly careful and painstaking in the discharge of their duties.

The drills, dress parades, and guard mountings were had at the hours prescribed in orders. When two regiments were present there was a dress parade just before guard mounting as well as at retreat. The dress parade and guard mountings were from first to last very creditably executed, some regiments and provisional battalions being a little better than others. The drills were in the school of the company and battalion, with some practice in skirmishing. I do not think that sufficient time was given to that most important part of the tactics entitled "instructions for skirmishers." The marching in "columns of fours," company fronts, etc., can all be taught in the armories, but the practical part of the skirmish drill can only be learned in the camp. The breech-loader has given such an "impetus to the employment of skirmishers" that a neglect to teach the subject practically to officers and men, by battalion as well as by company, should not be tolerated. The drills were as a rule admirably conducted. There were some crudities, which were always quickly noticed and corrected by the commanding officer and his assistants. The officers and men were enthusiastic and teachable. It seemed to me, however, that a good many of the company officers were inapt and wanting in their knowledge of their duties, and that they required drilling and setting up. I think that probably a good deal of instruction might be imparted to the officers and sergeants at their armories. Some well-instructed officers might be detailed to drill and instruct them, and require them to recite in tactics, etc. The instruction should be theoretical as well as practical, as this camp has very fully demonstrated the great value and need of theoretical instruction.

Capt. Horatio P. Stacpole, who supervised the company drills, is an excellent tactical officer. Nothing escaped the vigilant eye of Capt. Stacpole. I observed that some of the adjutants at dress parade, when taking their places after dressing the ranks and commanding "Front," did not march "to a point midway between the line of field officers and the commanding officer"; that the officers on approaching the commanding officer at the conclusion of the ceremony were not always halted by the adjutant "at six yards from the commanding officer," and that the ceremony was not always concluded when the officers saluted and the commanding officer had acknowledged the salute and given his instructions. In quite a number of the organizations the officers in line, with the commanding officer, who had faced about in front of them, marched fifty or seventy-five yards farther to the front, when they halted; they then separated, one-half of them moving in semicircular fashion to the right, the other half to the left of the commanding officer, until they met again in front of him, when they all faced toward the battalion, the commanding officer with his back to the line of officers, who remained standing at attention. The 1st sergeants, who had meanwhile been observing these manœuvres by the officers, then brought their companies to a carry, closed the ranks and moved them off by *echelon* from the centre to the front, and after marching them about one hundred yards away from "their parade grounds," countermarched in column of fours and returned to their streets. The band followed up this *echelon* movement and the officers, in two ranks and marching by the flank, followed the music to the camp ground, where they were dismissed. Now, this waiting by the men at attention, and all the extra marching, semicircular wheeling, etc., by the colonel and his officers, seemed very pretty to the multitude, but to the military on-looker it appeared a little ridiculous. It marred the beautiful ceremony, and was fatiguing to the men, besides being a departure from the instructions for dress parade laid down so clearly on page 351, Infantry Tactics (Upton's.)

Under the head discipline very little has to be said, as the discipline was indeed admirable. The men were obedient and respectful. The quiet that prevailed in camp, particularly between taps and reveille, was remarkable. Military courtesy, as a rule, was strictly observed. The police of the camp and its surroundings was carefully attended to; in fact, I think it was the cleanest camp I have ever seen.

Guard duty in the camp was very creditably performed, particularly so by the 69th Regiment and separate companies. Guard duty, however, cannot be taught in a single tour, and this was about as much as each officer and enlisted man had to do with it while in camp. Lieut. N. B. Thurston, 22d Regiment, who is a most competent and painstaking officer, delivered lectures to the guard details the day before they were required to march on guard. These lectures covered the duties of officers, sergeants, corporals and sentinels; they were graphic and instructive. He also made frequent observations of the guards and sentinels, and caused all inattention and irregularities to be corrected.

The facilities for placing the National Guard of the State in a condition for active service are very good, if I am to take this camp as an example. The staff departments have competent officers at their heads, and indeed the officers generally, of the line as well as of the staff, have a good knowledge of their duties, and are zealous in performing them.

As a rule, I do not like to select particular organizations for special remark, but I cannot refrain from saying a word or two about the 69th Regiment and some of the separate companies. The splendid military appearance of the 69th would have attracted the notice of any professional observer. The men were stalwart and manly, soldierly and teachable. The stature of the rank and file, few of whom I think were under five feet eight inches, was so even that the companies required very little sizing; this was a subject of remark during their week in camp. The 23d Separate Company, from Hoosac Falls, was a superb body of men, well drilled and disciplined; they are a credit to the National Guard of the State.

The 8th Separate Co., from Rochester, presented a fine military appearance; it was well instructed in drill, particularly so in marching. The 26th Separate Co., from Elmira, was the largest one in camp, having 3 officers and 98 men present; it was a pleasure to look at it. But, indeed, all the separate companies were in good military shape, and the provisional battalions formed from them were easily handled and made rapid progress in drill during their respective tours of duty. The officers selected to command these battalions were of a high order. Lieut.-Col. Harding, 22d Regiment, and Lieut.-Col. Dowd, 12th Regiment, brought their battalions to a high state of efficiency; indeed all the battalion commanders were indefatigable in their exertions to improve their commands. I think I ought to state here that the improvement made by all the regiments and separate companies during their short time in camp was very apparent and most gratifying, and I have no doubt that they all returned to their homes with every officer and man physically, as well as professionally, better than when they left them.

The Governor of the State made one visit to the camp. The 8th and 74th Regiments were present, and were reviewed by him. Colonel Scott, 8th Regiment, commanded the troops, and conducted the ceremony in a strictly military manner. All of the ceremonies incident to this visit were well performed.

General Orders No. 14, issued by direction of the Governor of the State, constituting the camp a military post and placing a competent officer in command, was, in my opinion, a step in the right direction; it assured uniformity in discipline and instruction. Major-Gen. Josiah Porter, the Adjt.-Gen. of the State, an officer of long service and large experience, was placed in command. The selection was in every respect an admirable one, as General Porter has a thorough knowledge of his duties and responsibilities as a post commander, and is a determined, dignified, and courteous officer. He was constantly in camp attending to the duties of his position, and made his presence felt everywhere for the good of the command.

Col. Fred. Phisterer, an officer of long and distinguished service in the Army, was Post Adjutant. He made daily inspections of the camp and its surroundings, when every street, tent, cot, blanket, etc., underwent a most rigid scrutiny. I accompanied him on several of these inspections and was much impressed by them. Nothing escaped his notice, from a half-burned match in the company street, to a dirty candlestick in a tent. Blankets and bedding had to be carefully folded after having been aired. The tent-floors had to be raised daily so as to admit the sun and air below them. As a place was provided for everything, he insisted that everything should be in its place. I have no doubt that a good many of the men looked upon all this as trivial, but Colonel Phisterer was always careful to explain that in small matters as well as in large the soldier should be a model of neatness, and that if he were permitted to neglect a small amount of duty to-day he would in all likelihood neglect more to-morrow.

In conclusion, I desire to thank General Porter and the officers of his staff for the courtesy and kindness extended to me during my official visit to the camp at Peekskill.

NATIONAL GUARD ITEMS.

The completed returns show that the 7th Regiment, N. Y., during the year 1886, qualified 28 sharpshooters and 640 marksmen. In the previous year there were 27 sharpshooters and 628 marksmen, showing a total gain of 13. This result is unprecedented.

Company B, of the 7th N. Y., on Friday evening, elected 1st Sergt. Nesbitt to the position of 1st lieutenant, made vacant by the resignation on account of ill-health of 1st Lieut. George A. Jones, who has been a member of the 7th for more than 20 years and an officer since 1875. This, while it overslaughs 2d Lieut. James E. Ware, who has held that position since 1881 and is one of the most faithful members of the regiment, does by no means reflect discredit on that gentleman. The company simply wanted Nesbitt, and under the elective system such occurrences cannot be prevented. Nesbitt is an excellent soldier, very popular, and will make a fine officer. With regard to this matter, Capt. Harry G. Steel, of Co. B, says: "It is with sincere regret the commandant announces the retirement of Lieut. Jones, who for more than twenty years has been a faithful, earnest, and loyal soldier, doing nearly 100 per cent. of duty. His presence and advice will be greatly missed by all who recognize his sterling worth and warm devotion to the 2d company. It will be gratifying to the company and its friends to learn that Private George Edgar French, who served with us in the ranks for two years, has just received his commission as 2d lieutenant in the U. S. Army. He is the second private who has left us for the Regular Service in the past five years—the first being Lieut. Hovey, 24th Infantry. The attention of the members is called to the fact that, including the squad, there were but 100 men present for duty last drill night. The record must be better hereafter in order to keep up our average."

We refer our readers to the remarks of the Adjutant-General of the Army with regard to National Guard troops published elsewhere in this issue. It will be observed that his recommendations, especially on encampments, agree in nearly every point with those made by the ARMY AND NAVY JOURNAL for years past.

The new 12th Regiment armory is now not expected to be in condition for occupation until the middle of January. Preparations for the opening are, however, in progress. Quartermaster E. R. Powers is the leading member of the committee on invitations. Capt. Clarence H. Eagle, of Co. E, has resigned. Efforts are being made to induce Capt. Jas.

M. Brady to take command of the company. It seems, however, not likely that he will accept.

Lieuts. David Wilson, of the 2d Battery; N. B. Thurston, of the 22d Regiment, and ex-Lieut. R. B. Moss, 1st Battery, will officiate this (Saturday) evening at a mounted sabre combat between ex-Lieut. Wm. Henderson, 2d Battery, and Xavier Orlowski, of the Emperor William's Hussars, at Central Park Garden, New York City. The combat is for $250 a side, thirty attacks, with sixteen points to win. It is a test of German against American swordsmanship, as Lieut. Henderson is an old Army man, having served a long time on the frontier in the U. S. cavalry.

Gen. Alfred C. Barnes, lately colonel of the 13th Regiment, has received a letter from the Board of Officers of the 13th, in which a handsome tribute is paid to his worth as an officer and a gentleman and his valuable services while in command of the regiment.

The new gray uniform of the 23d Regiment is expected to be finished about the beginning of next year, and will probably be worn by the regiment the first time at its reception at the Academy of Music, Jan. 20 next.

Capt. Draper, Co. B, and Quartermaster Wm. Courtenay, of the 71st Regiment, have resigned.

The resignations of Lieuts. J. Morgan Wing, 12th, and Wright H. Remsen, 9th Regiment, have been accepted.

2d Lieut. W. Delancey Cunningham, Co. I, 8th Regiment, has been promoted 1st lieutenant.

HOW OPINIONS CHANGE.

To the Editor of the Army and Navy Journal:

A NEWSPAPER despatch of Nov. 8, referring to the great strike of butchers and packing-house employees in Chicago, Ill., which necessitated the calling out of the militia there as a precaution against lawlessness and violence, among its sensational account of the trouble says: "The strikers are known to be well armed. They are huge, muscular fellows, who have been in the habit of wading in blood, and the mere presence of a thousand striplings in the blue uniform of the State has thus far had but little effect upon them." How inconsistent is the above with what has actually occurred! The "mere striplings," as they are superciliously called, have behaved with admirable coolness and have preserved the peace, saved the destruction of property and loss of life and thus far without firing a shot, and by their forbearance have commanded the respect of even the violent element themselves, who undoubtedly are aware that the "mere striplings" armed with a rifle and ball cartridge are more than a match for ruffianly hoodlums who desire hostilities. The sensational scribblers, having exhausted their store of bombast and reduced to plain facts, on Nov. 10 write as follows; "No violence whatever is attempted, as the blue coated picket line surrounds the yards and inspires due respect in the minds of even the most pugnacious of the strikers. The fact is that while the strikers jeer and sneer at the militia, they are afraid of them, and so long as they are on the ground there is very little likelihood of there being any outbreaks"

BETTER GUNS NEEDED.

To the Editor of the New York Times:

I THINK that in your editorial on "Militia Rifle Practice" you do not recognize the importance of a change of rifles. I know that some of the men who are "coached" could get through without help if they had good rifles. I am not an "expert," although I can make a fair score, and I have taken rifles from men at Creedmoor and fired several shots without "getting on," and I remember one case where a Regular Army team man undertook to show me how to sight a gun at 500 yards. He got down on his back and fired several shots without hitting the target, and then concluded that I might know how, but that gun was "no good." About a week since I loaned a man my gun to shoot with in the armory. He made a good score the first time, and previous to that he had failed twice with his own. I have tried lots of guns that would not hit the bull's-eye unless they were aimed at a corner of the target, and this was in the armory, where there was no wind. If the State will give us better guns we will do better shooting.

NATIONAL GUARDSMAN.

NEW YORK, Monday, Nov. 8, 1886.

(Correspondence of the Army and Navy Journal.)

ILLINOIS LABOR TROUBLES.

ON Sunday, Nov. 7, Sheriff Hanchett, of Cook county, had an interview with Governor Oglesby, and representing that he was unable to preserve the peace, requested the Governor to call out the militia. Adjt.-Gen. Vance was in Chicago, and about 6.30, while he was chatting with Col. KNOX, of the 1st Inf., in the Leland Hotel, a telegram came from the Governor, saying the 1st and 2d Infantry had been ordered to assemble at their armories, ready for duty, at 7 A. M. Monday. Gen. Vance read the message and handed it to Col. KNOX. Messengers were at once started to notify the men, while accoutrements, ammunition, etc., at the armory were prepared for service. All the captains but one were notified. This captain did not know of the call until just as he was leaving a train at the depot on Monday morning. Hastening to the armory, he found all but three of his command were there, ready for duty. Expecting the regiment would be held at the armory during the day, the officers were a little surprised at 9.30 A. M. to receive orders to proceed to the depot of the Lake Shore R. R. to take a train at 10 A. M. Ammunition, haversacks, and canteens were immediately issued, and the regiment, nearly 400 strong, proceeded to the depot, which was reached at 10.10 A. M. After waiting some time for the 2d Regiment, the 1st was ordered to proceed to the stock yards alone, and it was soon quartered in "Ferguson Barracks," as the boys have named the packing house in which they are living. Guards were posted, and companies thrown out in different directions, so that a cordon of videttes is established all around the "yards." The strikers respect the power of the State, as represented in the militia, and there have been comparatively few collisions. In the few that have occurred, if the bayonet was apparently not feared, the command "Detachment, with Ball Cartridge Load!" has sufficed to send the crowd flying in all directions.

The general plan of operations has been to despatch three companies of each regiment, at 5 A. M., to the different entrances to the yards. Guards are placed, and scouts thrown out, to cover all the approaches.

About 9 A. M., as soon as the men in the barracks have had their breakfast, the early companies are relieved by others. After dinner comes another relief. About 4 o'clock nearly the whole command is thrown out for patrol service, through the portions of the town near the yards, and all are withdrawn about 7 P. M.; leaving to the deputy sheriffs the guarding of the yards after the men have gone home. In this way are those who desire to work protected in their rights.

The weather on Tuesday, Wednesday, and Thursday was rainy and wet, and the majority of the men came to the yards unprepared to battle with the mud. Consignments of boots, shoes, and socks came in rapidly, and the men soon made themselves comfortable. The old packing house was swept, boards and partitions put up to mark company quarters, and on Sunday, the 14th, the writer found the men happy and contented.

Sunday morning inspection found the men and arms in good condition. A slight defect in the casting of the "bed-plate" on the Gatling gun carriage was found on Friday, but it was quickly repaired by Armour and Co.'s machinists, and will be replaced on the completion of this tour of duty.

The men have behaved remarkably well while on duty and nothing but praise is heard on all sides. One case of desertion, Private Greathead, promises to become a "celebrated case." You will be more fully informed of this later.

This tour of duty, with the tour of the 2d Brigade at East St. Louis last spring, has shown the citizens of Illinois that they have a militia organization in good shape, and ready for active service at a moment's notice. It has also shown many defects in the present code and there will probably be small opposition in the coming Legislature to needed amendments, as well as appropriations. The necessity for the militia is now conceded by many who were bitterly opposed to it in the past, and that it should be well maintained follows as a necessary consequence.

The 1st Inf. has had from 400 to 415 men on duty every day, the 2d Inf. about 280 (I think), and one company of cavalry for patrol duty, about 40. This is over 90 per cent. of the 1st Infantry.

Employers have, in nearly every case, recognized the necessity of the service, and I know of but one case of dismissal on account of doing duty. A sergeant of one of the companies is cashier for Mulford and McKenzie. They refused, in a letter which was intended to be sarcastic, to allow him to go to camp last July. On Monday, Nov. 8, he went to the office and left a note saying he had to go to the yards on duty. Later in the week he received a letter from them summarily discharging him. It is, perhaps, unnecessary to say that he will be provided with a position as good as the one he lost, and all who are interested in the welfare of the militia should remember this action of Mulford and McKenzie.

Further particulars next week. H. T. L.

CHICAGO, Nov. 15.

Another correspondent writes us:

When you receive this the strike will probably be over, as the employers have rescinded their obnoxious resolutions, and Mr. Powderly has come to the conclusion that the eight hour movement must be expected later. Many of the men of the Illinois regiments have seen their first active service at present in the Chicago stockyards. There was considerable complaining in the 1st Inf. during the first few days because the food was not up to the standard of the Palmer House Cafe, but they have now realized that soldiers cannot be fastidious and be contented. Troop D, of the 1st Cav., broke in some stockyard horses to military work, and if the strike had lasted over a week they would have performed some very efficient mounted duty.

A delicate young man of the 1st Inf. was brought before Judge Bail to answer the charge of desertion. His excuse was that his health required warmer clothing than he had with him. When he asked for permission to ride down town for other clothes he was refused. In the afternoon, seeing others bound down on similar errands, he, thoughtlessly, jumped in the wagon and rode away with them. He was sick all Tuesday night, but on Wednesday, having provided himself with what he wanted, he started to return and on his way was arrested. Such was the plea for him by his employer, Mr. J. E. G. Scott. A decision will be rendered later.

Capt. McLaughlin, I. R. P., of the 1st Cav., desiring to be absent from the city for an indefinite time, sent in his resignation, which was approved by the regimental commander.

(From the Portland Press, Nov. 11.)

CHALLENGES TO MAINE MARKSMEN.

Col. E. C. Farrington, of this city, Maine's Inspector of Rifle Practice, has received a letter from the Nevada Militia Inspector proposing a match, and replied giving the terms on which his men would shoot, which included team shooting, regimental matches, skirmish matches, etc., at 200 to 500 yards. Nevada replies that its militia could not shoot on these terms, as its men were accustomed only to plain target shooting at 200 yards and had no practice in other matches. Some time ago Col. Farrington wrote to Col. Rockwell, of the Massachusetts militia, proposing a match, but he has received no reply.

ANSWERS TO CORRESPONDENTS.

Briar.—You stand No. 4 on Hospital Steward list.

Texas.—There are no vacancies in the list of Ordnance Sergeants.

C. M.—A copy of the pamphlet on tactical decisions has been sent you by mail.

Amos Cross.—Write again to the Surgeon-General. Perhaps your first letter was mislaid.

Reader.—In our opinion a transfer of a soldier from the line to the Ordnance Corps cannot legally be made.

M. H.—Write to Colonel Allan Rutherford, F and 15th Streets, Washington, D. C., for information as to your claim.

J. M. P.—Upon presentation of proper proof to your company commander that you are entitled to "re-enlistment pay" you will undoubtedly be mustered for it.

P. S., Texas.—The Engineer Corps has prepared such a map as you desire, but so far as we know not for sale. You might obtain one by writing to the Chief of Engineers, U. S. A., Washington, D. C.

Librarian asks: In '78, when laundresses were abolished, I served 3 years and 9 months. Made application for discharge and received same. Will this service count towards 30 years' service for retirement? ANS.—Yes.

G. S. H.—There is no impropriety in requiring guard-house prisoners awaiting trial or sentence to turn out to work with other prisoners under sentence. To make all sorts of distinctions in these matters would be injurious to discipline and decidedly unmilitary.

Constant Reader.—Yes. A pensioner may live in Europe and draw his pension regularly from the U. S., conforming, of course, to the rules as to identification, etc.

2. Pension vouchers need not be executed precisely on the 4th day, but can be on or after it but not before it. See printed instructions on each pension voucher.

E. Pluribus Unum.—For membership in the first class Military Order Loyal Legion it is necessary that the applicant shall have served during the War of the Rebellion in the U. S. Service as a commissioned officer, and that he shall be a man of good character and of creditable standing. The sons of ex-officers are eligible for election to the second class on reaching their majority.

McC. B.—We adhere to our answer to you some time ago that markers who carry flags do not present arms or execute any manual. The flag "has a pike of ash with brass spear, head and ferrule—total length 8 feet." That is what Regulations say. There is nothing in Tactics, Regulations or common sense which would indicate that any portion of the manual of arms could be executed with such an instrument.

Left in Front.—1. For the bills and acts of Congress inquired for we would refer you to the files of the JOURNAL published at the time.

2. Is it wrong to subject the loadings and firings to the cadence? Has it been prohibited by General Orders? ANS. —Par. 72, Tactics, page 31, exempts the "motions relative to the cartridge" from the cadence. We recall no General Order on the subject.

Pennsylvania asks: Can double column be deployed on any other division except the first? I saw it done last summer at camp, and by such movement the colors were placed on the right of the battalion, which I contended was wrong. ANS.—The double column can be deployed by two movements to the right or left (see par. 509, Tactics). The General of the Army has decided that movements by which the colors are brought on the right of the battalion are wrong.

Inquirer asks: An appointment to the Military Academy at West Point being left open to competition, is it *allowable* for the competitive examination to include a knowledge of higher branches than is necessary for passing the examination at West Point? ANS.—As the terms of the competitive examination are prescribed by the member of Congress who has the appointment, it is *allowable* to examine them in Sanskrit or Chinese, if he so directs. We can see no good reason, however, why the examination should go beyond that required for admission to the Academy.

Wisconsin says: In your issue of Nov. 6 in Answers to Correspondents, you say: In forming close column of divisions from column of fours, the markers and company guides are employed in establishing the distances and alignments. Please state any one formation in close column of divisions from column of fours in which the markers are employed to establish alignments. ANS.—The markers should have been omitted in this answer. In reducing to a compact shape a number of answers to an unclassified lot of questions, the words slipped in inadvertently. The error was discovered before the receipt of the letter of "Wisconsin."

N. G. S. N. Y. asks: 1. How appointments to the Pay Corps of the U. S. Navy are made. ANS.—Under the established regulations, a candidate for the office of Assistant Paymaster must not be less than 21 or more than 26 years of age. His moral and mental qualifications will be the subject of rigid investigation by a board.

2. What is the nature of the examination? ANS.—A fair knowledge of all the modern English branches, and of bookkeeping and accounts especially, will be necessary to give the candidate a chance.

3. How many paymasters of the lowest grade are there? ANS.—17.

4. How often, on an average, do vacancies occur? 5. How can an applicant know when a vacancy occurs, and the proper steps for a candidate to take to make his application in the best shape? ANS.—4 and 5. From regular retirements twelve years will be required to reduce the corps to the limit now fixed by law. Other casualties liable to occur will, of course, reduce the number earlier.

FOREIGN ITEMS.

THE 80 spades and 20 axes formerly carried by each Russian infantry company have been reduced to 16 spades and 8 axes.

THE French Minister of Marine and the Colonies has declined to modify his naval plans, declaring that without the additional credits asked for ($6,600,000) he would be unable to guarantee the security of the country.

AN Austrian electrician named Marcus is supplying the German Navy with a newly-invented petroleum engine for torpedo-boats. The engine is set in motion by electro-magnetism, and is more powerful than a steam engine of the same size. It is not liable to explosion.

ACCORDING to the *Avenir Militaire* (Paris) the law for reorganizing the Turkish Army has received the approval of the Sultan. The lottery is abolished, and military service is made obligatory for all Mahommedans from the twentieth to the fortieth year. An exception is made, however, in the case of Constantinople.

A LITTLE volume, the first of a series just published at Strasburg by Colonel von Kiettschau, of the Prussian Staff, bearing the title of "La Prochaine Guerre avec la France," has, it seems, excited much attention in military circles. In noticing it, the *Temps* protests against a war of *revanche*, assuring Colonel Kiettschau that his title, which implies war at an early date, is founded on an utter misconception of French feeling.

ANOTHER rival to the Whitehead appears to have come into existence. At Rochefort recently it is reported that a torpedo called the "obus-torpille Coudray" has been experimented with most successfully. Whether this be correct or not, the French are increasing in every way their torpedo corps, both for submarine-mine defence and mobile warfare. Large stores of these machines are being accumulated at the different naval ports, and means are being devised for using them in hired merchant ships. It is also stated in the French service papers that several of their obsolete ironclads are to be converted into torpedo-depot ships of the *Hecla* class without delay.—*Army and Navy Gazette.*

GEN. MUNIER is to succeed Gen. Jamont in command of the French forces in Tonquin, as Gen. Jamont succeeded Gen. Warnet, who succeeded Gen. de Courcy, who succeeded Gen. Brière de Lisle, who succeeded Gen. Millot, who succeeded Admiral Courbet; in case Gen. Munier, like his predecessors, finds it impossible to get on with the civil authorities, he is to be succeeded by Col. Callet, who now commands the Zouaves. First of all the expeditionary force was commanded by a naval officer, then by an officer of infantry, then by an officer of marines, then by the commander of an army corps, then by two generals of division in succession, now by a brigadier, and possibly in a short time by a colonel of Zouaves.

AT Chavignon, between Laon and Soissons, there have been recent trials of a new mortar firing a projectile that is credited with diabolical destructiveness and the power to work wonders in the demolition of fortifications. The mortar, which is of an entirely novel pattern, takes a shell that has been described as one metre in length, 22 centimetres in circumference, and weighing 110 kilogrammes (220 lbs.) There seems to be a discrepancy here, however, as for this weight the shell must needs be 22 centimetres (8.6 inches) in diameter instead of circumference. Not only is the mortar of recent construction, but its projectile is exploded by the action of a chemical composition only lately discovered. Intended for high-angle or plunging fire, the shell is terminated by an elongated and very strong steel point, which penetrates the masonry of fortifications or the roof of a covered way just as a wedge is driven into a beam. Then the shell bursts with terrific force. Several of these missiles were fired on the fort of Malmaison from a point 3,250 yards distant, and the destructive effects produced are said to have been very remarkable. Plates of steel nearly eight inches thick were pierced, and the most solid walls were demolished by a few shots.

THE punishments reported in the English royal navy and marines for 1885 aggregated 50,000.

UNDER the heading of "La Grosse Défense," the *Figaro* publishes an article in which it says that, for the second time since 1871, France is going to renew her engines of war of all descriptions, and that the War Minister intends asking the Chamber to vote $80,000,000 for this purpose.

THE idea of an Antartic Expedition still finds favor in Australasia, and it is probable that a steam whaler will be sent on an exploring cruise to the far South. It is expected that, even if the results are *nil* as regards science, it will still be a financial success, owing to the sperm oil and guano which should be easily obtainable in those regions.

THE German military authorities have decided, according to the *Moniteur de l'Armée*, that the non-commissioned officers of the active army are to take part in a course of telegraphy. For this purpose a course has been commenced in one of the Berlin barracks, and is attended by 100 non-commissioned officers belonging to all arms, but principally to the cavalry and pioneers. Another school of the same kind has been instituted at Strasburg.

2,000 ENGLISH volunteers last year transferred their services to the regular army, 500 more than in the previous year; 40,000 recruits joined the army in 1885, which had an average strength of 198,064 of all arms, 126,663 being infantry of the line.

BENT AND CO.'s water crackers are the oldest and best brand made. They are sent to all parts of the world, and their continued success through a long series of years and uniform excellence has caused a general recognition of their claim to be the best cracker made.—*Providence Daily Journal.*

LIKE OIL UPON TROUBLED WATERS is the influence of HALE'S HONEY OF HOREHOUND AND TAR upon a cold.
PIKE'S TOOTHACHE DROPS Cure in one Minute.

"A Place for everything, and everything in its place," is a wise old proverb, the observance of which will save money and trouble. The place for Phenol Sodique is in every one's house, as it will save money, pain and trouble.
Before the Doctor reaches the injured, Phenol Sodique is the dressing which will afford prompt relief from pain, the checking of bleeding, and a rapid healing to the injured parts. The physician—should he be familiar with the remedy—will praise the happy thought which suggested its use.

R. W. TANSILL & Co., Chicago, are now making especially for the Officers of the Army and Navy a new and very fine Havana hand-made cigar, known as "TANSILL'S REINA." They are put up in beautiful packages of 25 cigars, each cigar banded. They come in three sizes, 4¼, 4½, and 4¾ inches, while their moderate cost, viz. $65, $70, and $75 per thousand brings them within the reach of the entire Service.

BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

BIRTHS.

MCCAULEY.—At St. Paul, Minn., November 9, JOSEPHINE MCILVAINE, wife of Rear Admiral Edwin Yorke McCauley, U. S. Navy.

NEWTON.—At Norfolk, Va., November 15, Mr. C. A. NEWTON, brother of Major General John Newton, U. S. A.

PALMER.—November 13, CHARLES M., son of Lieutenant A. M. Palmer, 24th U. S. Infantry, aged 8 years.

ALEXANDER.—At St. Louis, Mo., Nov. 10, 1886, at the residence of her daughter, Mrs. Frank P. Blair, Mrs. Mira Madison Alexander, in the 83d year of her age.

The life thus peacefully closed was one of more than ordinary interest, tinged with romance and filled with incident growing out of the two wars, in which the members of her family took an active part.

She was the daughter of Gov. Madison, of Frankfort, Ky., a distinguished soldier and statesman who took up arms in defence of his country in the War of 1812. At the battle of the River Raisin, Maj. Madison was taken prisoner by the British and carried to Quebec, where he remained in confinement two years. On his return to Kentucky he was received with every demonstration of grateful regard, and was elected Governor of the State of Kentucky, but before he was inaugurated he died from the effect of his exposure during the war, and the hardships of his subsequent imprisonment.

His daughter, Mira Madison, was married in the year 1822 to Mr. Andrew J. Alexander, of Sherwood, Woodford Co., Ky. The sudden death of her husband in 1833 left her with the sole care of her five young children and her estate, and this calamity was soon followed by the loss of her sight. The devotion of her children and kindred and her deep religious faith sustained her in this dark hour, and enabled her to rise above her misfortunes and to discharge with wonderful ability her duties as a mother and the mistress of a large establishment. Mrs. Alexander, like many Southerners, was strongly opposed to slavery, and though she had inherited a large number of slaves, and received from them a faithful and devoted service, which was invaluable to her, from time to time, as they were prepared to care for themselves, she gave them their freedom, and they were all emancipated several years before our late war.

When she removed from Kentucky to St. Louis in 1850 some forty of them followed her there, where they might still experience the benefit of her kind interest in them.

After the marriage of her children, for many years Mrs. Alexander made her home with her daughter and her son-in-law, Gen. Frank P. Blair, but the peaceful life now before her was suddenly disturbed by the breaking out of the War of the Rebellion.

To save Missouri to the Union, Gen. Blair stemmed the tide of secession, and party feeling ran so high that, for a time, his family were compelled to remove to the arsenal for protection. In the exposure of her sons, Gen. A. J. Alexander and Gen. Blair, throughout the whole of our civil war, Mrs. Alexander felt anew the anxieties of her earlier years, and lived over again, on the return of peace, the happy days which followed the sad experiences of her youth.

The evening of her life was brightened by the love and devotion of her children and grandchildren, who ministered in every way in their power to the culture of her elegant tastes and her gifted mind, keeping her informed of passing events of public interest and of the current literature of the day. Her mind was stored with a knowledge of history, biography, and belles-lettres, and so accurate was her information, and so delightful her manner of imparting it, that, though the light of the sun never reached her darkened vision, *she* brought *sunshine* to every circle which she blessed with her presence. She had, within her soul, that "shining light, which shineth more and more unto the perfect day."

ALLAN RUTHERFORD,

(Late Third Auditor U. S. Treasury, late Captain U. S. Army, and Colonel of Volunteers),
ATTORNEY AND COUNSELOR AT LAW,
(Corcoran Building), F. and Fifteenth Streets, Washington, D. C.

Havin been Third Auditor U. S. Treasury for six years, I am thoroughly familiar with the course of business before the Executive Departments at Washington. Special attention given to the settlement of Officers' Accounts, Claims for Pension and Bounty, Claims of Contractors, and generally *all* business before any of the Departments, Congress or the Court of Claims. Refers to Gen W. S. Rosecrans, Register U. S. Treasury, Washington, D. C.; Hon. John S. Williams, 3d Auditor, U. S. Treasury, Washington, D. C.; Hon. W. P. Canaday, Sergt-at-Arms, U. S. Senate, Washington, D. C.; General O. O. Howard, U. S. Army.

THE REASONS WHY THE "GILBERTSONS'S OLD METHOD" ROOFING PLATES
Were selected as the best Material for the Roof of the

WHITE HOUSE IN WASHINGTON.

"The United States desires only the best class of materials, and parties who imagine that any other class will be received are respectfully requested not to bid."
"Comparative tests will be made for weight, ductility, uniformity of plates and thickness and quality of coating, ALL of which, as well as the prices, were specially considered by the United States Government in making the award."
The "GILBERTSON'S OLD METHOD" took the contract for the WHITE HOUSE roof at 70 cents per box over the so-called "Genuine Old Style" for the IC 14x20 size (equal to $1.40 per box for the 20x28 size.)
We unhesitatingly affirm that the "Gilbertson's Old Method" is the heaviest coated and best Roofing Plate ever made or imported.

NEW ENGLAND MUTUAL Life Insurance Company,

OF BOSTON, Mass.

Assets, ------ $17,846,546.65

Liabilities, --- 15,238,761.16

Total Surplus, - $2,607,785.49

This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.

Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.

ARMY AND NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 18. WHOLE NUMBER 1214. | NEW YORK, SATURDAY, NOVEMBER 27, 1886. | SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

THE Army and Navy duly observed Thanksgiving Day, and abundance of good cheer prevailed throughout the Services.

ALTHOUGH the recently appointed Board of Survey on the *Tennessee* has not yet reported, the Navy Department is thoroughly convinced that she is beyond repair, and, in anticipation of that vessel's transfer to the junk market, has ordered that the *Richmond*, now at the Brooklyn yard, be pushed to completion as rapidly as possible in order that she may take the *Tennessee's* place.

THE 2,090 desertions during the fiscal year ending June 30, 1886, are apportioned as follows: Engineers, 72; Ordnance Corps, 5; Cavalry, 507; Artillery, 229; Infantry, 817. The remainder are distributed among the General and Mounted Recruiting Service, etc. It is a fact worth noting that the colored regiments have the best showing in the matter of desertions. In the Cavalry the 9th and 10th Regiments are lowest, the former losing 34 and the latter 2 during the year. In the Infantry the same obtains, the 24th Infantry losing 10 and the 25th only 2. When the colored man enlists he evidently intends to stay.

THE official report of the Board appointed to make the statutory tests of the Navy guns has been forwarded to the Secretary of the Navy. The report states that the ten rounds with the 6-inch gun were fired in eleven minutes and forty-three seconds and with the 8-inch in fifteen minutes and seven seconds. The 6-inch gun, which was fired with 50 lbs. DUPONT'S brown prismatic powder, gave an initial velocity of 2,025 f. s.; pressure, 14.9 tons. The 8-inch gun was fired with 121 lbs. Westphalian brown prismatic powder and gave an initial velocity of 1,991 f. s.; pressure, 14.6 tons. The guns have been carefully examined and accurately stargauged since the conclusion of the firings and found to be uninjured.

AN officer writes as follows: "I wish to present my most cordial thanks for your editorial article on the first page of the JOURNAL of November 20, respecting Treasury officers's 'rulings.' It expressed what ought to be said, and said with emphasis and reiteration, to rebuke a spirit of usurpation which is effectually transferring the command of the Army from the rightful holders of it into the hands of bureau clerks. Even when the head of a great Executive Department of the Government has given an order in the exercise of a lawful and necessary discretion, irresponsible clerks have presumed to question, and even to reverse it, and to throw upon a disbursing officer the necessity of deciding whether he will disobey orders or make a disbursement which must ultimately come from his own pocket."

THE British Admiralty has recently issued a circular forbidding applicants for promotion to attempt to make use of political influence through members. The circular says, and well says: "It is to be distinctly understood by all officers and others that any such improper solicitation will be treated by us as an admission that the case is not deserving of consideration on its own merits, and the application will be dealt with accordingly. Any attempt to obtain promotion by political or other indirect influence will be punished for a first offence by a reprimand, for a second offence by reduction or an inferior situation, and for a third offence by dismissal from the service. If a superior refuses to forward an application from a subordinate, we will not absolutely decline to receive it direct from the applicant, but a copy or statement of the refusal must accompany it, and it will rest with us to consider whether the communication was one which should have been addressed to us."

LAST week we referred to General MCCOOK'S recent excellent order in regard to the issue of clothing to enlisted men, and in commenting upon it said: "It has often struck us that the system under which clothing is issued at present is somewhat lax, and the opportunities to draw clothing and afterwards dispose of it for a little ready cash too numerous." Our attention is again called to the subject by a recent Court-martial case in Texas, where a soldier was tried for "Buying an overcoat from Private NICKERSON, with the understanding that he would draw one for him at the next issue, but did fail to do so and did sell said coat. Buying from Saddler PATTERSON a blanket, saying he would draw one for him at the next issue, did fail to do so and did sell said blanket. Buying a blanket from Private MCCAFFREY, with the understanding that he would get one for him at the next issue, did fail to do so and did sell said blanket." Although punishment overtook that clothes dealer, yet we infer that under a different system he could not have secured an opportunity either to buy or to sell.

WITH the accession of CAPTAIN PHYTHIAN to the superintendency of the Naval Observatory, it is to be hoped that the round of changes that have taken place in the headship of this institution during the last four years will have come to an end. With his full term of sea service as captain behind him, the new superintendent can (and should be permitted to) remain at his post until the time comes for him to make his final cruise as a flag officer. CAPTAIN PHYTHIAN is well equipped for his new duties, and under his administration we shall hope to see the new observatory completed and occupied. The Commissioners of the District of Columbia, in their proposed extension of Massachusetts Avenue, have planned to pass through the heart of the observatory grounds, within only 600 feet of the site of the building, a distance by no means sufficient to secure for the observatory the isolation which is desired. As it will, however, require an act of Congress to accomplish this intended destruction of the chosen site, it is more than probable that the opposition of the naval authorities will be quite sufficient to kill the little scheme. The chief argument in its favor would seem to be that a large amount of land held, by various wealthy people, would thereby be thrown upon the market.

THE funeral of the late ex President Chester Alan Arthur took place on Monday morning, November 22, at the Church of the Heavenly Rest, New York City. After the ceremony the body was taken to Albany for interment in the Rural Cemetery, where it was laid beside that of his wife, who died January 12, 1880. There was a notable gathering at the church in New York, among those present being President Cleveland and members of his Cabinet, General Sherman, Lieutenant-General Sheridan and staff, Major General J. M. Schofield and staff, Commodore Gherardi and staff, etc. Distinguished citizens from all parts of the country were present and though the ceremonies were simple, the immense concourse testified the universal respect and admiration for the deceased. The remains were escorted from the church to the railroad depot at 42d street by the 5th U. S. Artillery, under Colonel John Hamilton, and a detachment of sailors and marines from the New York Navy yard. Sergeants of the 5th Artillery, under Lieutenant B. K. Roberts and sailors from the *Vermont*, under Lieutenant Walter McLean, U. S. N., accompanied the body to Albany and were present at the interment. Among those who stood by the grave were the pall-bearers, ex-Secretaries Lincoln and Chandler, ex-Attorney General Brewster and ex-Postmaster General Gresham, General Sheridan, ex Assistant Postmaster General Hatton, C. L. Tiffany and Cornelius N. Bliss, General George H. Sharpe, Dr. Cornelius R. Agnew, R. G. Dun and Cornelius Vanderbilt; also C. Alan Arthur, Jr., and many others.

MR. E. L. ANDERSON tells the Englishmen some plain truths in a work he publishes, entitled "Vice in the Horse." He says:

> Although but few men on the Continent, as compared with those in England, turn their attention to riding, there is hardly a country in Europe in which there are not more really fine horsemen than in England. Upon the Continent riding is looked upon as an art; in England every man thinks that he is born a horseman, and scorns instruction. Upon the Continent the test of horsemanship lies in the control of the horse: in England the test of horsemanship lies in the ability to ride to hounds, a sport into which many conditions other than that of mere skill in horsemanship enters. The English are the boldest, and if they understood and followed good methods they would be the best riders in Europe; but, with very few exceptions, they are awkward and unskillful in the management of their horses, and the latter are unbalanced, disunited, and badly controlled. . . . . If the English are the best riders, what riders have they produced in modern times who can be named with Baucher, De Montigny, Hunersdorf, Von Weyrother, Hamel, Seidler, Gebhard, and others? If they are not the best riders, it is not for want of "practical experience," upon which so much is said to depend, but because the practice is not properly guided; and there can be no improvement in the horsemanship of Great Britain until riding is recognized as an art that cannot be acquired empirically.

This agrees substantially with what Colonel DODGE says on the same subject in that charming volume, "Patroclus and Penelope." He emphasized the value of training, and shows the error Americans make in following too slavishly the English school of equitation. He says the best results of school training lie in the ability of the horse and rider to do plain and simple work in the best manner. Because a horse can traverse, or perform the Spanish trot, his rider need not necessarily make him traverse a passage past the window of his inamorita, while he, himself, salutes her with the air of a grandee of Aragon. Nor because a horse can perform the reversed pirouette with perfect exactness, will a school-rider stop in the middle of a park road and parade the accomplishment. But this same reversed pirouette is, for all that, the foundation of every thing that a well trained horse should be able to do, and, if he knows, he is ready to make use of it at all times for the greater ease, safety and pleasure of his master. "Nor must you suppose that every schooled horse is of necessity kept in his most skilled form at all times. As few college graduates of twenty years' standing can construe an ode of HORACE, though indeed they may understand the purport and read between the lines as they could not under the shadow of the elms of Alma Mater, so PATROCLUS, for instance, is by no means as clever in the intricate steps of his school performance as he was when fresh from his education. But the result is there; and for all the purposes of actual use in the saddle, the training he has had at all times bears its fruit."

PERSONAL ITEMS.

LIEUTENANT F. I. MAXSE, Royal Fusileers, British Army, is visiting in New York City.

LIEUTENANT H. E. TUTHERLY, 1st Cavalry, lately visiting in St. Paul, has returned to Camp Sheridan, Wyo.

COLONEL L. L. LANGDON, U. S. A., who has been visiting friends in Iowa, is expected shortly in New York to spend a portion of his leave there and in Brooklyn.

MAJOR J. R. BRINCKLE, 5th U. S. Artillery, returned to Fort Hamilton, N. Y. H., this week from a visit to Wilmington, Del., to attend the funeral of a relative.

MAJOR HORACE NEIDE, U. S. Army, and Misses Blanche E. and M. S. Neide, of Pottstown, Pa., are in Paris, France, with apartments at the Hotel de Normandie.

CAPTAIN EDWARD MAGUIRE, Corps of Engineers, U. S. A., Secretary of the Board on Coast Defences and Fortifications, is located at 1905 I Street, Washington, D. C.

GENERAL E. B. ALEXANDER, U. S. A., of St. Paul, will spend the winter in Washington, the guest of his son-in-law, Acting Judge-Advocate-General G. N. Lieber, U. S. A.

CAPTAIN HARRY C. EGBERT, 12th U. S. Infantry, is commanding at Madison Barracks, Sackett's Harbor, N. Y., during the temporary absence on leave of Colonel E. F. Townsend.

MAJOR C. R. GREENLEAF, Surgeon, U. S. A., after a pleasant tour at Columbus Barracks, O., goes to Chicago for duty as attending surgeon at Major-General Terry's headquarters.

LIEUTENANT J. W. BENÉT, Ordnance Department, U. S. A., Mrs. Benét and two children, have arrived at Springfield, Mass., and have occupied pleasant quarters at the National Armory.

LIEUTENANT A. M. PALMER, 24th U. S. Infantry, of Fort Sill, is in Washington, where he was called last week by the death of his young son, Charles. He will remain East for a few weeks.

GENERAL M. D. HARDIN, U. S. A., is to read a paper, Dec. 9, on "Recent Earthquakes and their Peculiar Effects," before the Military Service Institution of the U. S. at Governor's Island.

ASSISTANT SURGEON C. N. B. MACAULEY, U. S. A., whose mother died recently in St. Paul, and who came on to Philadelphia with the remains, will return to Camp Poplar, Montana, in December.

COLONEL A. R. BUFFINGTON, U. S. A., says a Springfield paper, returned from the Sandy Hook proving grounds Saturday, happy in the success of his gun carriage on its third trial. The test was conducted under the direction of the Board of Ordnance and in the presence of General Benét.

LIEUTENANT-COLONEL JOHN C. BATES, 13th U. S. Infantry, in view of the early retirement of Colonel L. P. Bradley, has relinquished his leave and goes to Fort Wingate, N. M., to take command of that post and of his regiment. The next Colonel of the 13th will be R. S. La Motte, the present Lieutenant-Colonel of the 12th.

MAJOR JOHN EGAN, U. S. A,, left Fort Adams, R. I., on Monday to be absent for a week.

CAPTAIN L. S. MORRIS, 8th U. S. Cavalry, recently in the North, has rejoined at Fort Clark, Tex.

SURGEON W. E. WATERS, U. S. A., has moved from Fort Spokane, W. T., to Vancouver Barracks, W. T.

CAPTAIN JOHN PITMAN, U. S. A., returned to Fort A. Lincoln, D. T., this week from a visit to St. Paul.

PROFESSOR G. L. ANDREWS, U. S. A., of West Point, registered at the Grand Hotel, New York, on Monday.

ADJUTANT E. SWIFT, 5th U. S. Cavalry, is expected East in December to remain over the Christmas holidays.

LIEUTENANT JOHN CONKLIN, 2nd U. S. Artillery, returned to St. Augustine, Fla., early in the week from a short leave.

CAPTAIN ALFRED B. TAYLOR, U. S. A,, retired, is located at 1220 Seventeenth street, Washington, D. C., for the winter.

MAJOR T. MCGREGOR and Capt. S. T. Hamilton, 2nd U. S. Cavalry, have left Fort Walla Walla, W. T., on a month's leave.

MISS SOPHY CARR, a daughter of the late Capt. Overton Carr, U. S. N., was married at Washington Nov. 18, to Mr. James Marion Johnston.

MRS. HANCOCK, widow of Maj.-Gen. W. S. Hancock, U. S. A., is in Washington visiting Mrs. Mitchell, widow of Gen. W. G. Mitchell, U. S. A.

LIEUTENANT H. A. GREENE, 20th U. S. Infantry, has succeeded Lieut, J. B. Rodman as regimental adjutant. Lieut. Rodman has held the position since Nov. 4, 1873.

SURGEON J. P. WRIGHT, U. S. A., and Mrs. Wright arrived at Fort Leavenworth early in the week and received a hearty welcome from their many old friends there.

COLONEL B. J. D. IRWIN, Assistant Medical Purveyor, U. S. A., leaves New York to take Surgeon-General Moore's place at San Francisco, in charge of the Medical Purveying Depot there.

COLONELS J. G. CHANDLER and P. C. Hains, U. S. A., have gone to Fort Monroe, Va., to examine with General Tidball into matters connected with the construction of a much needed new wharf there.

COLONEL G. L. FEBIGER, Assistant Paymaster-General, was formally relieved from duty in Chicago Nov. 20. He is now residing at New Haven, Conn., and will be retired from active service Dec. 8.

CAPTAIN J. M. LEE, 9th U. S. Infantry, lately on duty as Indian Agent with the Cheyenne and Arapahoe Indians, is visiting friends in Columbus, O., and will join his company in Arizona in February next.

SURGEON J. R. GIBSON, U. S. A., who has been visiting in Philadelphia for some time past, reported this week at Fort Leavenworth, to General Willcox for assignment to a post in the Department of the Missouri.

GENERAL O. B. WILLCOX, U. S. A., has selected as his second aide Lieut. Chas. Dodge, 24th U. S. Infantry, who was A. D. C. to General Potter, General Willcox's predecessor in command of the Department of the Missouri.

MAJOR-GENERAL J. M. SCHOFIELD, U. S. A., is likely to be elected president of the Military Service Institution at the meeting to be held on the second Wednesday in January, 1887. The office has been vacant since the death of Major-Gen. Hancock.

AMONG the guests at the banquet last week of the Iroquois Club in Chicago were Gen. Robt. Williams, Cols. J. C. Breckenridge, H. C. Corbin, and J. G. C. Lee, Majors T. H. Handbury and W. H. Forwood, Lieut. A. B. Johnson, A. D. C., and Lieut. Philip Reade, all of the U. S. Army.

MRS. BONESTEEL, wife of Lieut. C. H. Bonesteel, 21st Infantry, stationed at Fort Sidney, Neb., is now in the East, visiting her relatives and friends, and will remain at 310 Carlton avenue, Brooklyn, till after the holidays, when the Lieutenant is expected East to join his family, before their return home.

THOSE Angel islanders of the 8th Infantry, Mrs. Kautz, Mrs. Summerhayes, and the other ladies who were so popular, socially, last winter, are once again sentenced to exile. They had just gotten comfortably settled at the several Arizona forts when lo! presto change, and they are turned face about towards Nebraska.—*San Francisco Report.*

SURGEON W. G. SPENCER, U. S. A., says the Winona *Times*, "returned to Fort Yates Thursday from Fort Meade, whither he accompanied Capt. Godfrey's troop. He speaks in the highest terms of the hospitality lavished upon him by the genial officers of that post, and particularly of the cordial entertainment tendered him by Gen. and Mrs. Forsyth, whose guest he was."

THE *New Mexican*, referring to the new district commander, Gen. B. H. Grierson, U. S. A., says: "Gen. Grierson is promptly on hand to take up his new duties. He is a pleasant, elderly gentleman, rather on the plain, unassuming order, and has already met and become acquainted with many Santa Feans, who express pleasure in welcoming him. Lieut. Fornance, adjutant of the 13th, expects to leave Nov. 21. It is not at all likely that Major Dickey and his company will be relieved from duty at Fort Marcy by these changes."

A BANQUET in honor of Major-General John Pope, U. S. A., was given November 18, at the Southern Hotel, St. Louis, by a number of gentlemen of that city who desired to testify their respect for, and admiration of, the veteran soldier. General Pope, in returning thanks for the courtesy, in a brief speech, referred to his long acquaintance and deep attachment to St. Louis and its people; touched upon the changes of the last fifty years; expressed his pleasure in renewing old friendships and associations, and his hope of forming new ones, and most heartily thanked all present for the feeling of friendship and hospitality which had prompted them to receive him so cordially into their midst.

GENERAL VOGDES and family are located for the winter at 51 West 25th street.

CAPTAINS C. B. SEARS and W. 1. Sanborn, U. S. A., were recent visitors in St. Paul.

PAYMASTER W. H. ECKELS, U. S. A., of St. Paul, visited old friends in Helena this week.

GENERAL W. B. HAZEN, U. S. A., registered at the Hoffman House, New York, early in the week.

LIEUTENANT J. A. DAPRAY, A. D. C., in Washington with Gen. Miles is visiting his mother at 1107 Thirteenth street.

LIEUTENANT C. S. HALL, 13th U. S. Infantry, of Fort Bayard, is spending a portion of his three months' leave in Mexico.

LIEUTENANT E. L. ZALINSKI, 5th U. S. Artillery, went on board the *Peacemaker* on Tuesday and examined it, manhole included.

CAPTAIN G. F. PRICE, 5th U. S. Cavalry, who has seen some hard service this summer, will visit friends in New York and vicinity next month.

LIEUTENANT W. W. TYLER, 13th U. S. Infantry, who has been recuperating for some time past at Sackett's Harbor, N. Y., will prolong his stay East until after the holidays.

COLONEL HENRY DOUGLASS, 10th U. S. Infantry, has been warmly thanked by the citizens of El Paso for his courtesy in permitting the regimental band to give public concerts on the plaza.

CAPTAIN C. E. HARGOUS, 5th U. S. Infantry, lately visiting in New York City, goes to Old Point Comfort, Va., for the benefit of his health, and will there spend a good portion of his six months' leave from Fort Keogh.

MAJOR-GENERAL POPE, U. S. A., will no doubt be surprised to learn from certain veracious newspapers that "Mrs. Ann Pope, widow of Gen. John Pope, who died in Nashville, left nearly all of her estate of $30,000 to Presbyterian churches."

JUDGE HOLT, formerly Judge Advocate-General U. S. A., still lives at Washington. He is white-haired and bent with age, but his eyes are as bright and his mind as active as ever. He lives much alone, drives out a great deal, and reads the classics.

THE board of lady managers of the Garfield Hospital have decided to hold a kettledrum that shall outrank in brilliancy all former efforts, Dec. 15 and 16. The wing added to the hospital last summer placed a debt of $25,000 on the Board, and the proceeds of the entertainment are to be applied to pay off the indebtedness.

ANNOUNCEMENT is made of the approaching wedding of Miss Ada Gwynn, daughter of Mr. Nicholas Gwynn, and Mr. Bryce Gray, Jr. Miss Gwynn's sister, Lizzie, married the late Russell Hancock, son of General W. S. Hancock. She is now on her plantation in Mississippi with her three children, Ada, Gwynn and Myra Hancock.

CAPT. HENRY S. STEELE, Co. B., 7th Regiment, N. G., S. N. Y., in orders, says: "It will be gratifying to the company and its friends to learn that Private George Edgar French, who served with us in the ranks for two years, has just received his commission as 2d Lieutenant in the U. S. A. (4th Infantry). He is the second private who has left us for the Regular Service in the past five years, the first being Lieut. H. W. Hovey, 24th U. S. Infantry."

LIEUTENANT E. R. GILMAN, 5th U. S. Inf., says a Fort Keogh correspondent, is fast developing into a man of rare business abilities. Soon after his arrival he became interested in Miles City real estate, and before long had invested some of his surplus wealth in lots and buildings. The outlay has turned out well, and Lieutenant Gilman finds himself now among the leading property holders of Miles City. Lieut. Gilman is the son of Colonel J. H. Gilman, Subsistence Department, U. S. A.

THE Brooklyn *Eagle* says: "The shining Long Island shore has lost two of its most cherished ornaments by a recent exodus of some of Uncle Sam's blue coated troopers from the garrison at Fort Hamilton. Major Wallace F. Randolph, long commander of the famous light battery in the 5th U. S. Art., and Lieutenant 'Benny' Roberts, have been transferred to Governor's Island, where, under the supervision of Major General Schofield, they will continue to render as much service as good soldiers can in 'the piping times of peace.' There is nowhere in the Regular forces a better known figure than that of Major Randolph, nor do the annals of American warfare record the deeds of a more gallant spirit. Although still on the sunny side of life, he ranked high among the heroes of the Union army. To his other exploits in the great civil conflict he added the distinction of tunnelling his way, with several companions, out of Libby Prison, and escaping from Richmond and through a hostile country to the Federal lines. The major enjoys the reputation of being the best story teller in the Army and this, with his other genial qualities, has made him a general favorite in both military and social circles. Lieutenant Roberts has a regiment of friends in Brooklyn. Both gentlemen are rather pleased with the change and Major Randolph, who commands the post at Governor's Island, amply employs his new opportunites of extending cheerful and courtly hospitality."

THE Omaha *Excelsior*, of November 20, says:

Lieut. and Mrs. Geo. H. Morgan, Fort Davis, Tex., have been made happy over the birth of a daughter. Mother and daughter are doing finely....Gen. Crook has gone to Forts Niobrara and Robinson ...Lieut. Ruhlen, 17th Inf., Fort Russell, was in the city this week on his way from Chicago. ....Gen. Brisbin will be missed at Fort Niobrara. He is a conscientious and gentlemanly officer, and Fort Robinson is the gainer by the change.

THE Presidio County *News* of Nov. 12, has the following Fort Davis, Tex., news:

A baby girl was born to the wife of Lieut. Geo. H. Morgan, 3d Cav., Nov. 10.....Lieut. J. H. King, 8th Cav., Nevill Springs, was here this week attending a Court-martial.... .. Dr. Paul Clendenin, Fort Davis, received his appointment as assistant surgeon U. S. A. The many friends of the young doctor congratulated him on his appointment.....Major Wm. Arthur, Paymaster, arrived here Friday. This is Major A.'s first visit to this post....A letter from Maj. W. H. Gardner, M. D., says he and Mrs. Gardner are pleasantly situated at "The Clarendon," Washington, D. C.

GENERAL HANNIBAL DAY, U. S. A., spent Thanksgiving in New York City.

MRS. E. R. PLATT will remain in Chicago till January. Her address is 3,424 Rhodes Avenue.

THE death of Capt. F. E. Taylor, 1st U. S. Artillery, promotes Lieut. Lowell A. Chamberlin to a Captaincy.

LIEUTENANT W. LOVERIDGE, 3d U. S. Artillery, left Washington this week to join at Willet's Point for a tour of torpedo instruction.

LIEUTENANTS W. F. HANCOCK and H. L. Hawthorne, U. S. A., left Fort Monroe, Va., on Wednesday on a brief Thanksgiving leave.

LIEUTENANT V. H. BRIDGMAN, 2nd U. S. Artillery, left Fort Barrancas, Fla., this week to join at Willet's Point for a six months' course torpedo instruction.

LIEUTENANT A. W. GREELY, U. S. Army, and his wife, will attend in New York, Nov. 30, the reception and musicale of Kane Lodge, F. and A. M., of which the Lieutenant is a member.

GENERAL SHERMAN, General Merritt, Colonel Anson Mills and Captain Selden A. Day, were among those present on the opening night of the show of Buffalo Bill, William F. Cody, at Madison Square Garden, New York.

M. PAUL DE CASSAGNAC can fight or not as he pleases. An offended fellow-editor recently telegraphed to him, "I shall have the honor to send you my seconds to-morrow," and the fire-eater coolly replied, "You need not send them, for I will not receive them."

GOVERNOR LLOYD, of Maryland, has addressed a letter to Comdr. Winfield S. Schley, U. S. N., sending a "gold chronometer watch in the name of the State of Maryland, in appreciation by her people of your brave and heroic deeds in rescuing Greely and his comrades from a possible death in the polar region."

THE following Army officers are registered at the War Department this week: Col. E. B. Alexander, retired; Brig.-Gen. Nelson A. Miles, Com. Department Arizona; 1st Lieut. Alfred M. Palmer, 24th Infantry; 2d Lieut. J. A. Dapray, 23d Inf.; Capt. C. McKibbin, 15th Inf.; 1st Lieut. R. G. Carter, retired; Capt. A. B. Taylor, retired; Capt. Henry H. Humphreys, 15th Inf.

THE Springfield *Republican* says of General Joe Hawley: "Hawley's strength with the people of Connecticut is in his bluntness and frankness, coupled with his integrity. He is so blunt that he makes his friends shiver at times, because they are fearful of the effect on popular sentiment, but somehow it turns out best for the General, so far as his election is concerned."

IT is understood that Col. W. B. Royall, 4th Art., will apply to be retired under the 62 year clause, in April next, when he will have reached that age. He recently asked to be sent before a retiring board, but the Lieut.-General did not take kindly to the request and he has concluded now to wait until he is eligible for voluntary retirement.

EX-SECRETARY OF WAR AND ATTORNEY-GENERAL ALPHONSO TAFT, of Ohio, was in New York last week as the guest of his son, who is practicing law there, Judge Taft is large in stature and heavy. He has recovered almost entirely from the illness with which he was afflicted when he returned from Russia, where he was Minister. Sitting on a sofa of the Fifth Avenue Hotel he said that he had been taking life quietly and he was now practicing law moderately at Cincinnati. He has a son there who has just entered upon the practice of law, and the Judge returned to his profession to give the young man the benefit of a partnership. Another of Judge Taft's sons is the principal proprietor of the *Times-Star* at Cincinnati.

MEDICAL DIRECTOR J. M. BROWNE, U. S. N., registered at the Victoria Hotel, New York, on Wednesday.

REAR ADMIRAL MCCAULEY and Lieut. Bleecker, U. S. N., arrived in New York from Aspinwall on Thursday.

LIEUTENANT L. L. REAMEY, U. S. N., and bride returned to Washington this week from a necessarily short wedding tour.

MRS. WILLIAM WHITNEY, wife of the Secretary of the Navy, gave a luncheon party on Sunday to 18 ladies to meet Mrs. Cleveland.

THE engagement of Miss Florence Whiting, youngest daughter of Commander W. H. Whiting, to Ensign John B. Bernadou, U. S. N., is announced.

REAR-ADMIRAL DANIEL AMMEN, who was retired more than eight years since, preserves his interest in naval matters unimpaired, and an observer would never guess his age from his appearance. The admiral still retains great faith in the Nicaragua Canal, and bids fair to see *a* canal in operation, if not *the* canal.

THE leave of absence granted Lieut. Comdr. F. M. Barber for one year, not three, as given by a contemporary, with permission to go beyond sea, will be mainly employed by him in the collection of data as to armor, hard and soft, with especial reference, however, it is fair to presume, to the particular types produced at Le Creuzot, France.

LIEUT. COMDR. G. C. REITER, U. S. N., has been detached from the torpedo station and granted six months' leave. Lieut. Comdr. Reiter is remembered by a wide circle of friends in Norfolk, where he was on duty several years since. He is a resident of Pittsburgh, Pa., and will probably remain there during a portion of his leave of absence.

CHIEF ENGR. EDWIN WELLS, U. S. N., whose tour of duty in the Bureau of Steam Engineering, and on the Examining Board, made a large circle of friends in Washington, is now serving a three years' cruise on the *Omaha* on the Asiatic Station, and from the latest reports from the "Flowery Kingdom," Mr. Wells is among those of our officers abroad who succeed in making "heap fiends" both afloat and ashore.

LIEUTENANT BENJAMIN TAPPAN, U. S. N. has left Norfolk, Va., on a month's leave.

SURGEON PAUL FITZSIMONS, U. S. N., has returned to Norfolk, Va., from a month's leave.

THE court convened at Norfolk, Va., for the trial of Capt. J. H. Higbee, U. S. Marine Corps, organized on Tuesday.

LIEUTENANT F. H. LEFAVOR, U. S. N., arrived in Washington early in the week, for duty at the Hydrographic Office.

P. A. PAYMASTER S. L. HEAP, U. S. N., joins at City Point, Va., next week for duty there in connection with the monitors.

SURGEON-GENERAL FRANCIS M. GUNNELL, U. S. N., was at Norfolk, Va., last week, in connection with the proposed improvements to the Naval Hospital.

LIEUTENANT RICHARDSON CLOVER, U. S. N., and Mrs. Clover, arrived in New York from Europe early in the week and took temporary quarters at the Fifth Avenue Hotel.

CHAPLAIN W. F. MORRISON, U. S. N., is one of the officers of the recently formed American Guild of St. Luke of the Protestant Episcopal Church of the U. S. The object of the Guild is "to promote and defend the Catholic faith, especially among the members of the medical profession, by frequent and regular communion, intercessory prayer, personal influence and example and promotion of works of mercy."

COMMANDER BARTLETT J. CROMWELL, U. S. N., paid the Navy Department a flying visit the latter part of last week, seeking to know, with many another, which is to be his "next ship." Comdr. Cromwell's last cruise was in command of the *Ticonderoga* during her famous around the world voyage with Commodore, now Rear-Admiral, Shufeldt. Mr. Cromwell's present address is Montrose, Pa.

CAPTAIN R. L. PHYTHIAN, U. S. N., who with his wife and daughter have been enjoying the fall breezes at Old Point Comfort since his detachment from the *Trenton*, has arrived in Washington, where, as Superintendent of the Naval Observatory, he will probably be stationed for several years. Capt. Phythian will be just the man to inaugurate the observatory on its new ground—if Congress appropriates the money.

LIEUT. P. GARST, Lieut. Geo. W. Stoney, Commander R. P. Leary, Commander C. S Cotton, Capt. Geo. Brown, Commander Geo. W. Pigman, Asst. Engineer E. T. Warburton, Ensign Jas. H. Hetherington, Lieut. S. M. Ackley, Lieut. B. S. Richards, Lieut. J. D. J. Kelley, Lieut. F. E. Greene, Lieut. Edw. J. Dorn, Lieut. T. Dix Bolles, and Lieut. Geo. W. Tyler, registered at the Navy Department during the week.

MISS MAUD MELVILLE, eldest daughter of Chief Engineer Melville, U. S. N., of arctic fame, is, says a Philadelphia despatch, preparing for a public career as a singer, and to aid her in her ambition, will give a concert at St. George's Hall, Dec. 14, assisted by a number of popular artists. Miss Melville, who is 18 years old, lives with her mother and sister on Woodville avenue, Wissahickon. She has a high soprano voice of much promise.

PASSED ASSISTANT SURGEON F. S. NASH, U. S. N., lately a member of Lieut. Stoney's Alaskan Exploring Expedition, has been detailed for scientific duty at the Smithsonian Institution, and reported on Nov. 26. Dr. Nash's scientific attainments eminently fit him for this assignment, and it is likely that the results of his observations in the extreme North will be of great value when brought into line with the valuable stores of knowledge already on file in that venerable institution.

IT is probably not generally known that in Panama there is a flourishing female seminary conducted by an American lady. In spite of revolutions, yellow fever and all the other certain uncertainties of the isthmus, "Esperanza College" has flourished and grown since its establishment in February of 1881. Beginning with but 25 scholars, the last report shows that 70 *senoritas Colombianas* were under the tutelage of the principal, Miss McCord of Pennsylvania, who is assisted by two young American girls.

CAPTAIN H. CLAY COCHRANE, U. S. M. C., so widely known at the Capital, has been on duty at the Pensacola Barracks about a year, and, as was to be expected, has created a large cliental of friends and well-wishers. The Captain has that faculty, so useful in the world, of turning his hand to whatever is nearest, so that he always seems to be the right man in the right place. Whether it be a surgical operation, a dance, or an after dinner speech, he is sure to be ready. Pensacola, Warrington, and Woolsey will miss the gallant Captain when his tour of duty there comes to an end.

THE Springfield *Republican* referring to the marriage, last week, of Assistant Naval Constructor F. T. Bowles, U. S. N., to Miss Adelaide T. Savage, says: "There was a reception after the marriage for the relatives and intimate friends at the bride's home, 431 Beacon street. Among the guests were Mr. and Mrs. Homer Foot, Jr., with their sons, Col. and Mrs. H. M. Phillips and Mr. and Mrs. Samuel Bowles of this city. The groom's mother and sister were not present, as they are still abroad living at Dresden, Germany. Mr. and Mrs. Bowles are to live at Norfolk, Va., for the present, where Mr. Bowles is stationed in the Navy-yard."

A GOSSIP referring to the recent marriage of Lieut. Ridgely Hunt, U. S. Navy, to Miss Kearney, writes: "They tell a good many yarns of which young Hunt is the hero, and one of the best is this: When his father was appointed secretary he was at the navy yard at San Francisco, and the other officers, thinking he would naturally have a good deal of influence, began to be more anxious to cultivate an intimacy with him than before. Their attention all at once began to be very marked, especially those of the older officers, who had not paid much attention to him before. Noticing this, Lieutenant Stoney, who was one of Hunt's most intimate friends, said to him: "'Ridgely, don't let these old roosters make a fool of you.' 'I can't help it,' said Hunt, with funny frankness, and the story has stuck to him ever since."

THE health of Lieut. Comdr. E. L. Amory, recently returned from Europe, where a portion of his sick leave has been passed, is not yet fully restored, and the persistency of his trouble is a cause of some anxiety to his friends both in and out of the Service.

THE many friends around New York of 2d Lieut. Lincoln Karmany, U. S. M. C., are pleased at the modification in his recent assignment to duty whereby he is to report for duty at the Marine Barracks, Brooklyn, instead of at Boston. Lieut. Karmany entered the Marine Corps from Pennsylvania in 1883, and in December of that year he joined the flagship *Trenton*, from which vessel he was recently detached.

ALBERT T. COWIE, Paymaster's clerk and attached to the *Saratoga*, was married at Newport, R. I., Nov. 25, to Miss Florence Nightingale, daughter of Mr. Peleg Bryer, of Newport. The ceremony was performed by the Rev. T. J. Everett, assisted by Chaplain R. Hudson, U. S. N. The best man was Asst. Paymr. G. W. Simpson, U. S. N., and the bridesmaids were Miss Sarah Bryer and Miss Lillian Bryer, sisters of the bride; Miss Louise Bryer, a cousin of the bride, and Miss Cowie, sister of the bridegroom.

SHOOTING OF LIEUTENANT PETTIT.

LAST week we briefly referred to the shooting at Leavenworth City, Kas., on the eve of his wedding to Miss Sharp, of Lieut. J. S. Pettit, 1st U. S. Infantry, and of the postponement, in consequence, of the marriage. The circumstances are related as follows: Tuesday evening the parties to the marriage and their friends repaired to the church to make some necessary preparations. Lieut. Pettit then left the party to go to the train, due at 9.36 P. M., to meet two fellow officers whom he had asked to act as best men, Lieuts. A. L. Smith and J. R. Richards. The three lieutenants took a hack and were driven to a hotel where supper was served. A little after midnight Lieut. Pettit bade his friends good-night and started to walk to Maj. Sharp's. When near Kiowa street a man who appeared suddenly seized him by the lapel of the coat and commanded him to throw up both hands. Instead of obeying the order, the lieutenant grabbed his assailant by the throat, and being a powerful man in physique was in a good way to overcome and secure the highwayman when the attacking party drew a 38-calibre revolver and fired. The two men were so close together that the aim of the revolver was turned towards the lieutenant's right side, and thus his instant death was prevented. The ball entered the chest at a point one inch left of the right nipple. Lieut. Pettit fell when shot, and it was with the greatest effort that he was enabled to make his way to Maj. Sharp's. The lieutenant suffered severe pain, and his articulation was impaired, but he talked sufficiently to give an account of the affair. When the desperado fired he was more frightened than his victim and made good his escape without waiting to go through the officer's pockets. The assault was made, no doubt, for the purpose of robbery. Lieut. Pettit had been to the bank and drawn enough money to defray his expenses for three weeks while on his bridal tour. The person that committed the crime must have known this fact, or noticed him in the bank getting the money.

This is the third time that the parties have fixed upon a day for their wedding to take place, but some unforeseen contingency has arisen to prevent its consummation. Once the lieutenant was called to the field, another time duty called him away, and now the bullet of a robber has prevented the performance of the ceremony. The wedding has been postponed, but it is pleasant to learn that it may not be for long, as there is now a good prospect of a speedy recovery. The affair has naturally created much excitement in Leavenworth and vicinity, owing to the prominence of the parties concerned, but every one hopes that sunshine may soon follow the cloud, and that Lieut. Pettit and his fair young sweetheart may have a long life of happiness before them.

UNITED STATES COAST SURVEY.

THE survey of the coast of the United States was commenced in 1826, and after 60 years of work—of course by frequent interruptions by failure of Congress to make appropriations—the surveying party have finished the present season to West Quoddy Head, in Maine. This concludes survey of the coast proper. There remains to be done Cobscook Bay and other inland waters emptying into the boundary line bays between Canada and Maine. The work in question has been done with extreme precision and care, and will be published during the coming year.

TRIAL TRIP OF THE ATLANTA.

THE *Atlanta* arrived at the Brooklyn Navy Yard on Thursday morning from the trial trip on which she started Friday of last week. Her long absence caused some anxiety, but she returns in good condition. We are not sufficiently informed as to the facts of the trip to form any judgment as to the quality of the vessel. On Saturday night last she was anchored off Bridgeport, and had, it was understood, completed her six hours speed trial, and was to have returned to New York on Monday. The *Herald* says:

The result of the trial was not as satisfactory as anticipated. While the speed attained was really more than had been expected, and greater than the contract called for, the horse power did not develop to the extent required by the contract. On two or three dashes a speed of fourteen knots and seventeenths was made, and at times fifteen were readily made. What might be regarded as a constitutional infirmity developed in a succession of breaks in the water valves, which blew out almost daily when the engine was pressed, and joints had to be renewed on each occasion. These disturbances naturally retarded the ship's speed and prevented entire success in the trials. The recorded result of this first day's trial, in a general way, was as follows: Highest number of revolutions, 59: steam pressure, 68 lbs. On the 20th things began to wear a more promising aspect. The firemen had got into a decidedly earnest working mood, and steam was so nicely generated as to record 80 pounds, with the required forced draft. The ponderous engines made 62 revolutions a minute, and the hull of the ship trembled with the power developed.

On Nov. 23 seventy-eight pounds of pressure was carried, and the engines made sixty-four revolutions. Then the opinion was reached that it would be quite as well to return to the Navy-yard and make something more than temporary repairs. There were evidently inherent defects in important

parts of the engine, and patchwork was found to be not quite the thing.

In speed she is better than the most sanguine expected; in developing the contract horse power she is somewhat behind.

The *Times* says:

For a little more than an hour and a half she went tearing through the water at the rate of 14.4 miles an hour. The best time of the yacht *Mayflower* was something like 12 miles an hour. In all her subsequent efforts the *Atlanta* did not reach the limit of that desperate burst of speed. The rest of the week was occupied with hopeless races with the Sound steamers. In the words of her gallant commander, Capt. Francis M. Bunce, she "raced everything up and down the Sound." Considering the fact that the big Sound steamers can get over 20 miles of water in an hour the racing could have been little less than hilarious to the people on the steamer.

On board the *Atlanta* were members of the Advisory Board (without their families) and Chief Engineer Loring, who went in company with Engineer Isaac R. McNary, the engineer of the *Atlanta*. Next week the *Atlanta* goes out again on another severe test, when if she returns safely she will be sent to Annapolis to get her battery of guns.

BUREAU OF EQUIPMENT AND RECRUITING.

ANNUAL REPORT OF THE CHIEF OF BUREAU.

During the fiscal year 62 vessels were fitted for sea, wholly or partially, and furnished with stores requiring an expenditure of $57,510.05 for labor, and for material the sum of $326,359.14, aggregating a total of $383,869.19.

The appropriations for this Bureau were found sufficient, and unexpended balances of considerable amount turned back into the Treasury.

An estimate for $60,000 for needed improvements is submitted.

For the use of vessels on foreign and home service there were purchased 50,841 tons of coal, costing $312,856.35. The sum of $40,513.26 was expended for hemp, and $53,229.54 for manufacture of cordage.

During the year there was manufactured in forge, anchor, smith and chain shops and rolling mill at Washington Navy-yard, chain iron, forgings, anchors, chain and galleys, costing in the aggegate, $50,215.94.

A number of needed improvements were made at Coasters' Harbor Island. A considerable amount of work in the way of dredging channel, construction of hospital and natatorium for the boys is still needed, and $60,000 has been estimated for the purpose.

The health of the station has been fairly good, but a hospital for those patients whose care and treatment needed separation or more quiet than could be afforded in the sick bay of the stationary ship *New Hampshire* is much needed.

During the year the number of applicants reached 2,674; the number rejected for various causes, 1,773; leaving the number accepted, 901. Of this number, 352 failed to report for enlistment after examination, so that the number actually received into the service was 549.

There are now 530 in the service on cruising vessels and 665 on training ships.

The same system of instruction as reported in last report was continued through this year, with the same good result. The resulting benefit of the cruise to the apprentices was very marked, as shown by an inspection of the fleet after its return to Hampton Roads.

The Bureau again adverts to the pressing need for two modern steam cruising training ships to take the place of the *Portsmouth*, *Jamestown*, and *Saratoga*.

It needs no argument to prove that for service in the modern war ship the primary education of our apprentices should begin in a ship of modern type.

There have been expended for material and labor in making sails, awnings, hammocks, clothes bags, etc., at the various yards, $108,859.83. For material and labor in fitting rigging for vessels in service, $67,644.33.

On the 30th of June there were 8,123 men and apprentices in the service. The number allowed by law has not been exceeded during the year.

Men allowed	7,500
Men enlisted during the fiscal year at rendezvous	1,688
Men enlisted on board vessels	2,497
Discharges during the year	3,500
Desertions during the year	609
Deaths during the year	112
Honorably discharged and continuous-service men in the Navy, June 30	1,470
Men employed in Coast Survey	275
" " in Fish Commission	134
" " at Naval Academy (winter)	94
" " " " (summer)	424
Cost of maintaining the men doing duty in the Coast Survey for the fiscal year	$156,799 10
Cost of maintaining the men doing duty in the Fish Commission during the fiscal year	64,064 97
	$220,864 07

It is again urged that the force employed at the Naval Academy, in the Coast Survey, and Fish Commission ought not to exceed 600 men, and should be independent of the 7,500 men allowed the Navy at present.

An urgent appeal is made for the final passage of the bills looking to the system of savings banks, homes on naval receiving ships, and retirement after 30 years' service, for seamen. These bills passed the Senate but failed of action in the House.

One other measure of great importance to the apprentices, whose pay is so small, is the matter of their outfit on enlistment. This the Bureau urgently recommends as a means to remove much of the cause of discontent now prevailing.

If section 1342, Revised Statutes, could be amended to include officers of the Navy all enlistments would be given the binding effect of oaths lawfully administered. The Bureau is much impressed with the need of this feature of enlistment, and therefore urgently recommends it.

Attention is invited to the need of some uniform system relative to punishment of men for the minor offences committed on board ship. It is suggested that all minor offences be alphabetically classified from the conduct reports of the past five or six years, and a suitable punishment prescribed for each offence in accordance with the law. It would result in greater uniformity in the means of preserving discipline, and would secure to the men of the service similar punishments for similar offences. The Bureau holds this matter to be one of vital concern to the best interests of the service, as it will secure for the enlisted men a punishment for minor offences prescribed by unbiased judges, and will tend to secure them against the effects of hasty judgment, as might occur now.

BUREAU CONSTRUCTION AND REPAIRS.

In his annual report the Chief of this Bureau, Naval Constructor Theo. D. Wilson, asks that the salary of his chief clerk be increased to $2,500, and that he be allowed four additional draughtsmen and a messenger. He says: "An additional appropriation of $310,000 is absolutely necessary to carry on the work without interruption for the remainder of the fiscal year. Unless this additional amount is allowed, it is more than likely that work in all or most of the navy-yards will have to be nearly, if not entirely, suspended early in the spring." The following vessels have been repaired at the different navy-yards during the year:

Galena	$7,213 71	Franklin	$2,602 58
Leyden	1,904 19	Jamestown	14,647 96
Vandalia	49,376 30	Portsmouth	3,010 68
Wabash	2,034 66	Saratoga	9,991 58
Brooklyn	26,294 10	Swatara	7,078 76
Catalpa	2,693 43	Yantic	9,679 58
Essex	63,783 87	Speedwell	1,337 98
Intrepid	2,378 83	Standish	668 07
Juniata	13,009 96	Adams	30,320 07
Omaha	2,282 43	Hartford	12,074 32
Powhatan	11,188 71	Independence	1,775 85
Richmond	44,264 75	Ranger	9,761 30
Tallapoosa	76,587 70	Dale	11,236 38
Tennessee	9,247 14	Miantonomoh	46,059 19
Alliance	46,459 23		
Fortune	9,952 02	Total	$528,925 33

$830,366.22 was expended last year; $271,453.81 for labor at navy-yards and stations; $99,782.21 for materials, etc.; $18,851.83 for clerks; increase of the pay, $75.51; double-turreted monitors, $23,197.92. In all, $1,305,203.76. The appropriation of $95,861 is not sufficient to complete the Chicago, Boston and Atlanta, and an additional $56,000 is asked for. The Powhatan, launched in 1850, has been condemned. The Lackawanna, launched in 1863, and the Shenandoah, are beyond repair. It is proposed that the Lackawanna be fitted for a receiving ship, to replace the Independence at Mare Island. The Wachusett and Pilgrim have been condemned.

The Tennessee, the only first-rate wooden vessel in active service, can, in my opinion, be kept in service but a few months longer. She is undoubtedly in very bad condition; her main wale-strakes are so badly decayed as to preclude their being recalked, and her lower mast-heads are so badly decayed that it is not considered prudent to carry a press of sail upon them.

This reduces the naval list to the following serviceable vessels, including the Tennessee: First rates, two; second rates, ten; third rates, twenty; fourth rates, five; torpedo rams, two. The following first rates require extensive repairs: Franklin, Wabash, Minnesota, and New York. The following ironclads require more or less repairs: Ajax, Canonicus, Camanche, Catskill, Jason, Lehigh, Mahopac, Manhattan, Montauk, Nahant, Nantucket, Passaic, and Wyandotte. The completion of the following is appropriated for: Ironclads, Amphitrite, Miantonomoh, Monadnock, Puritan, and Terror; tugs, Catalpa, Cohasset, Fortune, Leyden, Mayflower, Monterey, Nellie, Nina, Rescue, Rocket, Speedwell, Standish, and Triana.

Wooden sailing vessels.—New Hampshire, Vermont, Constellation, Constitution, Independence, Monongahela, Portsmouth, Jamestown, Saratoga, St. Louis, St. Mary's and Dale.

In addition are authorized: Dolphin, Boston, Atlanta, Chicago, Gunboat No 1, Gunboat No. 2, Newark, Charleston, Baltimore, armored cruiser, armored battle ship, pneumatic dynamite gun ship, torpedo boat, first class.

To the above list of iron and steel vessels can be added the Alert and Ranger, two iron built, single screw vessels of 1,020 tons displacement, carrying 4 guns each: the Monocacy, an iron built, paddle wheel, double ender gunboat of 1,370 tons displacement, carrying 6 guns; the Michigan, an iron built, paddle wheel gunboat, of 685 tons displacement, carrying 4 guns; the Alarm, with a Mallory propeller, of 800 tons displacement, carrying 1 gun; the Intrepid, on the stocks at the New York yard, yet to be completed, an iron built single screw gunboat of 1,150 tons displacement, designed to carry two new VIII-inch B. L. guns with a secondary battery.

The remainder of the iron built vessels now in the Service consists of 13 river and harbor monitors with single screws, rated as fourth-rates, 5 of which have a displacement of 2,100 tons each, and 8 of them 1,875 tons each. They were built without double bottoms, and with laminated armor on the sides, turrets, smoke stacks, and ventilators, and are armed with old-fashioned guns. They could not be got ready for service without an expenditure of $200,000 under this Bureau alone. The Saugus, another of this class of vessels, now laid up at the Washington Navy-yard, has been condemned as unfit for future service

Besides these there are 9 iron-built tugboats, two of which, the Palos and the Pinta, are classed in the Register as fourth rates, the former carrying 6 howitzers, and the latter 2 howitzers, as batteries.

Of the 2d rates, the Trenton, Omaha and Vandalia can probably be continued in service ten years longer; the Lancaster and Brooklyn six years; the Hartford, Richmond and Pensacola five years.

Of the third rates, the Mobican can be continued in the Service for ten years: the Adams, Alliance, Essex, Enterprise, Tallapoosa, Yantic and Nipsic, for six years; the Juniata, Ossipee, Quinnebaug, Swatara, Galena, Marion, Kearsarge and Iroquois five years longer.

No modern vessels are asked for training ships, and it is recommended that the Monongahela be sent around to Annapolis for service there. "This vessel's machinery and boilers were removed at the Mare Island Navy-yard, and she was rigged as a bark; she is spoken of as having worked splendidly on her way down to Callao."

In the event of only one of the large vessels provided for under the act of August 3, 1886, being built at a navy-yard, I have to recommend that it be built at the Brooklyn yard, as that yard is now in condition to commence any such vessel and carry on the work with some rapidity.

I respectfully call attention to the recommendations made in the last annual report of this Bureau, relative to the necessity for the Government putting its navy-yards in condition to meet any demand that might be made upon them in an emergency in the building of armored or unarmored ships of war.

The greatest necessity exists for having better docking facilities in all our navy-yards.

(From the Scientific American.)

THE NEW NAVY.

The recent expression of opinion, by Naval authorities here and abroad, as to the needs of our Navy and how far the types of the new ships are likely to meet them, furnishes us with important data. By far the major part of the testimony confirms the view frequently expressed in these columns that small, fleet-footed cruisers are more to be desired than ponderous, unwieldy fighting ships, and that torpedo-boats are necessary to an effective defence. While it can scarcely be said that the new ships, as far as constructed, are altogether satisfactory, eminent authorities on both sides of the water seem to be agreed that we have made, at least, a good beginning; that, under the circumstances, it is not surprising that mistakes have been made or that errors, at first insignificant, should have multiplied as the work of construction progressed. It is only by such practical experience, they say, that anything like perfection can be attained in so difficult an undertaking as that of trying to combine the good qualities of various novel constructions.

In order to better understand the recent criticisms on what has already been accomplished by our Naval constructors, and what they have proposed to themselves, it is necessary to have the list of new ships before us. Here it is:

	Displacement.	Guns, Breech loading Rifles.	Speed.	Condition.
Amphitrite	3,815	4 10-in.	12	Incomplete.
Monadnock	3,815	4 10-in.	12	Incomplete.
Terror	3,815	4 10-in.	12	Incomplete.
Miantonomoh	3,815	4 10-in.	12	Incomplete.
Puritan	6,000	4 10-in.	13	Incomplete.
Dolphin	1,500	1 6-in.	15	Complete.
Boston	3,000	2 7-in. 6 6-in.	14	Armament incomplete.
Atlanta	3,000	do.	14	do.
Chicago	4,500	4 8-in. 6 6-in. 2 5-in.	15	Incomplete.
Gunboat No. 1	1,700	6 6-in.	16	Not commenced.
Gunboat No. 2	870	4 6-in.	12	Not commenced.
Newark	4,000	12 6-in.	18	Not commenced.
Charleston	3,730	2 10-in. 6 6-in.	18	Not commenced.
Baltimore	4,400	4 8 in. 6 6-in.	19	Not commenced,
Armored cruiser	6,000	4 10-in. 6 6-in.	16	Not designed.
Armored battle ship	6,000	2 12-in. 6 6-in.	16	Not designed.
Pneum. dynam. gun ship	—	—	20	Not designed,
One 1st-class torp.-boat	—	—	—	Not designed.

The Dolphin is a despatch boat, not intended for fighting, nor fast enough to overhaul modern merchant steamers. The Atlanta has made 13 knots over the measured mile—a test always made under favorable circumstances—which places her, in point of speed, scarcely ahead of the ancient Iroquois, now 30 years old. Like the Boston, the Atlanta is a nondescript. Each has a battery consisting of two 7-inch and six 6-inch guns, and hence, with their limited speed, frail sides, and inability to carry heavy batteries, have neither the power to fight, the strength to stand assault, nor the ability to run away. Of the Chicago, which is larger than either the Atlanta or Boston, and has not yet been tried, Admiral Porter says: "She contains an absurd mass of machinery. The engines are of the type known as side levers—a cumbrous, friction-generating kind, unfit to put in the hold of a man-of-war. I take upon myself credit for having a change made in the valve arrangement which will better things somewhat. I succeeded in having the plans for poppet valves altered and slide valves substituted. The clanking of the side levers will be like the noise of a chain gang. I know of a merchant steamer with a single screw, plying between New York and New Orleans, that has a side lever engine. She is under repairs more than the other ships of the line, although she is fast. For a man-of-war, the Chicago's engines are as bad as can be."

It is but fair to say here that it is not the contractor, as the public is inclined to believe, who is responsible for this kind of work. He only carries out the design placed in his hands. It is the Bureau of Steam Engineering, quoting again from the Admiral of the Navy: "An ax to grind here, a pet hobby there, a patent arrangement yonder, and there you have it. I would not allow the Bureau of Steam Engineering to touch a plan or alter an engine provided by a contractor. . . . It is the incompetency of the designers of the engines, to call it no worse, that leads to such direful results as we have seen."

The admiral and other authorities who have recently spoken upon the subject believe that private firms should be called upon to design the engines. In other words, they should be expected to furnish engines which would give a certain speed. The rest is easy. If the required speed is not obtained, the ship is not accepted. But when the engines are designed by the Department, and the contractor expected to get speed out of them, disaster usually follows. All seem agreed that, to be efficient, a fleet should be composed of three classes: First, commerce destroyers—fleet-footed unarmored vessels, carrying two or three heavy guns; second, armored fighting ships; third, torpedo boats. As to how many of each are required, or the proportion of one class to the other, opinions differ; the majority, however, believing our requirements would be best served by torpedo boats and light-footed, unarmored cruisers. The National Line's steamer America is thought to be a good type of what these cruisers ought to be. She is much broader than the Oregon type, and can steam 17 knots an hour, not only on the measured mile, but continuously through the day's work. The English cruiser Inconstant, also of 17 knots speed, is an admirable specimen of this class, but is thought to be altogether too large and, consequently, too costly for our needs. What would our 13 and 14 knot unarmored ships do in the presence of an Inconstant, which could always choose her target and the most favorable firing point, and get away when the odds were against her? The general opinion of the two 4,000 ton unarmored ships is that they are too large, or, rather, needlessly large.

John Herreshoff, the ship builder of Bristol, Rhode Island, is perhaps as good an authority on speed as there is to be found. He designed and built the Stiletto, undoubtedly the simplest steam yacht afloat. He pins his faith on swift-moving torpedo boats as a

main reliance. He says that torpedo boats built on the same lines as the Stiletto, but of steel, instead of wood, and of 150 feet length, could be made to steam a speed of 30 miles an hour. The Stiletto has made 27.

That the swift-moving torpedo boat is likely to take a very important part in the future naval war there can be little doubt. Even the French Admiral Aube and Sir Spencer Robinson, Sir Edward Reed, Geo. Mackrow, of the Thames Ship Building Company, Mr. Watts, the constructor at Elswick, and ex-Chief Constructor Warren, of the Chatham Royal Navy-yard, were all spoken to recently on this subject, and either expressed confidence in the efficiency of torpedo boat attack or, if not affirming the proposition, were unwilling to deny its truth.

In view of this, it seems strange that the naval board should have contented itself to advise the construction of "one first-class torpedo boat."

PRODUCTION OF STEEL GUN FORGINGS.

WE give here the portion of the report of the Chief of Ordnance, U. S. A., Gen. Benét, which was omitted last week:

The Midvale Steel Co., has completed its contract for the delivery of 25 sets of forgiugs for 3.2-inch B. L. field guns. The steel furnished has been of a superior quality, exceeding the requirements of the contract. These Works have also completed all the parts for the 5-inch B. L. Siege gun, excepting the jacket, and that will be delivered in November. A tube and trunnion hoop for an 8-inch B. L. Rifle have also been successfully forged and accepted. The production of the 8-inch rifle jacket has been attended with considerable difficulty, and a number of failures have been experienced, this being the largest gun forging thus far undertaken at Nicetown. But the last attempt has, there is reason to believe, proved entirely successful, and the manufacturers have gained in compensation for their failures most valuable practical knowledge of how to deal with large forgings, and thus have broken fresh ground in the development of the steel industry.

Prior to ordering the trunnion hoop for the 8-inch gun, as the production of a forged steel trunnion hoop—at least of any considerable size—had not hitherto been accomplished in this country, and as it was very desirable to know accurately the mechanical qualities of such a forging, the Department procured from the Midvale Steel Co., for purposes of test, a forged trunnion hoop of about the same size as that required for the 8-inch rifle. When completed this trunnion hoop was sent to the West Point Foundry, where it was cut in half along a plane passing through the axis of the trunnions and perpendicular to the axis of the hoop. One of the halves was then subjected to thorough mechanical test by means of test specimens taken from various parts along the inner face, while the other half was subjected first to an elastic, and then to a strength test by being shrunk successively on two cast-iron cylinders. The results by both methods of test were satisfactory and demonstrated the ability of the Midvale Steel Co., to cope with these difficult forgings. The test specimens were taken tangentially, those from the tube being three inches long and of 0.564 of an inch diameter, and those from the trunnion hoop 6 inches long and of 0.564 of an inch diameter. The means of the tensile tests of the 8-inch tube were as follows: Elastic limit, 51,667 lbs.; tensile strength, 93,333 lbs.; elongation after rupture, 19.33 per cent. (from 17 to 23.33 per cent.) The tensile tests of the 8-inch trunnion showed the following results: Elastic limit, 44,000—57,000 lbs.; tensile strength, 80,760—93,920 lbs.; elongation after rupture, 14.50—22.17 per cent.

Since the manufacture of the experimental trunnion hoop the Midvale Steel Co., has delivered the 8-inch rifle forged trunnion hoop, and a similar hoop for the 12-inch B. L. Mortar, the end tests of which are nearly equal to those from cylindrical hoops.

At the Cambria Iron Works the Department has had a lot of twenty steel hoops under manufacture since Sept. 15, 1885. In this, their first attempt at the production of the steel gun forgings, the Cambria Works have encountered many obstacles, particularly so as the hoops are of considerable size and the specified qualities for the metal very high. But they are steadily completing their contract and fully meeting its requirements in spite of difficulties. A good part of the hoops have been delivered and the remainder are in a forward state of completion. This establishment has also in hand for the Department a set of forgings for a 7-inch B. L. Rifled howitzer, which will give them an opportunity for acquiring experience in the production of steel tubes and forged trunnion hoops.

The status of the steel works which have thus far undertaken the production of gun steel is to-day about as follows: There is *one* establishment able, with present facilities, to produce all the forgings, and of the required qualities, for a steel gun of 8-in. calibre, and hoops of all sizes except the very largest and heaviest, and the breech mechanism and smaller forgings for all calibres. There are *two* establishments now able to produce the tubes and jackets and miscellaneous forgings for guns of small calibre and hoops of a very considerable size.

This represents the best that can be done to-day by the steel works of this country, and in some respects their experience is yet so new and the extent of their plant and facilities so limited that a great deal of time is requisite for the production of the forgings. The orders from the Department have also been very limited, but with the prospect of a larger demand there is but little doubt that the works with which the Department has had dealings will respond with all needed alacrity in providing the necessary facilities for promptly executing its work. It is thought the manufacturers could commence delivering the heavier forgings, say for 10-in. rifles, in from 18 months to 2 years after date of contract, but the production of such forgings would for several years be slow, as the manufacturers would wish to feel sure of their ground before assuming the risk of a number of possible rejections. The delivery of the tube and jacket forgings for 12-in. guns could be commenced in from 2½ to 3 years. Then the time for finishing and assembling the parts—that is the manufacturing of the gun—must be added to the above in making any estimate on the procurement of armament.

Such a policy of development, as above indicated, is believed to be a sound one. It is considered a mistake to expect steel makers to put up at the outset the plant and facilities requisite for the manufacture of the very largest forgings, such for instance as those used in the construction of 100-ton guns. The requisite machinery for the production of even the smaller forgings will be to a considerable extent *experimental* with our manufacturers, and must be gradually developed, along with our types of guns until the experience acquired in the manufacture of the smaller forgings, as 8-in., 10-in., and 12-in., shall clearly indicate the best methods to be pursued in producing the largest forgings. Such gradual development will prove sure and economical, and the *ultimatum*—the production of the forgings for 100-ton guns—will be attained quite as speedily, and with more certainty and satisfaction, than by the scheme of a sudden and enormous expansion of their manufacturing facilities.

CLOTHING AND FOOD OF THE ARMY.

SURGEON E. P. VOLLUM, U. S. A., medical director of the Department of Texas, in his recent annual report to Gen. Stanley gives some valuable statistics and suggestions. Upon the subject of clothing he says: "Our troops, stationed along the lower Rio Grande border, look with envy upon the cool white uniforms worn by the Mexican soldiers on the other side, and they quite naturally wonder why clothing more suitable to the hot climate of that region is not issued to them likewise. Our officers enjoy a good deal of liberty in dress, and they quite habitually appear in white linen or flannel in the hot season, and they go on duty in white trousers of some cool material agreeably to regulations, while the enlisted man is forced to use at all times, except while grooming or on fatigue duty, the same heavy woollen clothing that is worn by our troops stationed on the Canadian frontier. There is room for reform in this matter, and any one who considers the subject will agree that the uniform at the permanent stations, in latitudes embraced in this department, should assimilate in fabrics to those worn by the population among whom they are serving, which in this instance is mostly cotton, against which there is an unwarrantable prejudice by those who have not worn it."

On the subject of the soldiers' ration Dr. Vollum descants at length. He states that all the post surgeons denounce pickled pork as an article of food for the soldier in this hot climate. "The men will not eat it unless driven to it by hunger; when it is served it is greasy, flabby, and disgusting to the sight and taste. It makes some men sick to vomiting if they succeed in swallowing it. The small amount of fat needed in the diet in this climate is found in the most acceptable form in bacon, which the medical officers are unanimous in recommending in place of pickled pork."

He adds a detailed table showing "that additional to the expenditure of the company funds, portions of which went for potatoes and onions through the Subsistence Department, the large sum of $7,782.23 was contributed by the enlisted men for the purchase of fresh vegetables for their company messes during the past year."

Surgeon Vollum thinks, as indeed do many others, that the soldier should be allowed the whole of the ration allowed him by law, and the entire avails of it, and should receive the whole of his authorized ration of *flour* either as flour or bread, and the whole of his ration, or the product of its barter, in the shape of food.

REPORT OF THE COMMISSARY-GENERAL.

THE annual report of the Commissary-General of Subsistence to the Secretary of War shows the receipts and resources for the year to have been $3,783,931.60 and expenditures $3,174,650.09, leaving a balance of $609,281.51. The average contract price of fresh beef per pound for 1886 was 9.15 cts. and for 1887, 8.38 cts. Supplies amounting to $40,828.65 were issued or transferred to the Interior Department for issue to the Indians during the year. The value of stores reported lost in the year by accident, wastage and in store, for which no one was held accountable, amounted to $4,714.68, being $1,535.80 less than last year. Losses by theft amounted to $3,158.58. Stores inspected and condemned during the year amounted to $16,783.64. $3,147.20 was realized from such as were sold, leaving a net loss of $13,636.44. During the year there were received from the 3d Auditor and the Quartermaster-General for examination, under sec. 3, act of July 4, 1864, 25 claims, and, in addition, seven old claims, in which no formal decisions had been rendered, were taken up. Formal decisions were rendered in 31 claims, of which eight, amounting to $2,753.45, were allowed in the sum of $339.88 and recommended to the 3d Auditor for payment, and 23, amounting to $10,178.30, were disallowed. Three claims of this class remained on hand July 1, 1886, awaiting examination and action.

At the beginning of the year 987 claims for commutation of rations to Union soldiers, while held as prisoners of war, were on file, and during the year 1,476 were received, making a total of 2,463 claims for examination. Of these, 1,251 were partially examined, 1,212 examined and transmitted to the 3d Auditor, of which 655 were recommended for disallowance, and 557, amounting to $13,969.50, for payment. In addition, 213 old claims were re-examined upon additional evidence and transmitted to the 3d Auditor, of which 164 were recommended for disallowance, and 49, amounting to $1,408.25, for payment.

379 miscellaneous claims were on hand at the beginning of the year, and during the year 341 were received, making a total of 720. Of these 253 were transmitted to the 3d Auditor, of which 125 were recommended for disallowance and 128, amounting to $1,605.41, for payment. In addition 106 old claims were re-examined upon additional evidence, of which 101 were recommended for disallowance and 5, amounting to $62.75, for payment. 13,847 communications were sent out during the year.

In relation to Army cooks and bakers, General Macfeely says:

"I have several times heretofore invited attention to the subject, and it is so manifestly a matter of the greatest importance to the health and comfort of the enlisted men individually and, therefore, to the efficiency of the Army, that I again recommend that Congress be urged to provide for the enlistment of one cook to each troop, battery and company, and to each general depot of recruits, and of a baker to each garrison post. That the Army of the United States is provided with a ration, ample in quantity and excellent in quality, has been demonstrated in war as well as in peace; but the articles composing it are furnished in the raw state, and must be further prepared by the cook or the baker. Bake ovens, kitchens, ranges, cooking stoves and utensils are now provided by the Government, but no adequate provision has been made for their use in the best manner. Everything is provided save one, and that one is a skilled hand, absolutely necessary to transform the raw material into good, wholesome, palatable food, the cook or the baker."

BUREAU YARDS AND DOCKS.

The report of Commodore Harmony, Chief of the Bureau of Yards and Docks, shows that the condition of the buildings, dry docks and wharves in the different yards, owing to the want of sufficient appropriations for their repairs, preservation and maintenance, is that of decay and gradual deterioration, and unless a more liberal amount is awarded by Congress this year than has been given for the past few years it becomes only a question of time when our yards will be unequal to the performance even of the ordinary current work of repairing and fitting out the few vessels we now have, not to speak of the utterly insufficient resources they will offer in the emergency and strain of war. He says: "When one compares the condition of our naval stations in the large ports with private and corporation property in their proximity, it compels a sense of humiliation both to the private citizen and the naval officer, and seems to indicate a state of bankruptcy rather than the wealth and power of a great nation.

"The small appropriations for the past year have been expended with the greatest economy, and as much done as was possible with this limited amount to arrest this deterioration of the Government property, but, being so inadequate, it has had but little effect. Under these circumstances I hope that the attention of Congress will be earnestly called to the urgent necessity for an appropriation of adequate amount to repair and preserve our defective wharves, water front and buildings, and to put in order and extend our meagre docking facilities. True economy, good administration and proper attention to the present as well as to the future needs of our Naval establishment alike require it.

"I beg especially to call your attention to the inadequate facilities existing in our navy-yards for docking our vessels. The modern vessels just constructed and authorized will be mainly without sheathing for their bottoms, and will require periodical docking to keep them in proper condition and to maintain their speed. In addition to this, the increase in the length and breadth of vessels of recent design and construction requires docks of greater dimensions than those now existing on the Atlantic coast. At present there are but three dry docks belonging to the Government on the coast, and, as will be seen when the yards are treated separately, they are not in proper condition."

The report, after reviewing the work done at the Brooklyn Navy-yard during the past year continues:

"At no place are additional docking facilities more necessary than at this, our most important yard. Another drydock of greater dimensions and length and width is required here at once. A timber drydock can be built in a comparatively short time, and the estimate for an appropriation of $700,000 for that purpose is hereby submitted. For the purpose of continuing the work of improvements and excavations of the Cob Dock basin $75,000 is asked. This amount, if appropriated, can be used in connection with the additional $75,000 which is also asked for repairs to the crib work of the Cob Dock. The following amounts are asked for to prosecute works of improvement much needed at this yard: For a general paint and oil storehouse, $25,000; for new boiler shop, $68,340; for beef and pork storehouse, $47,642, and for a new caisson to the present drydock, $33,000."

PAYMASTER-GENERAL'S REPORT.

THE Paymaster-General of the Army, Brig.-Gen. W. B. Rochester, in his annual report says:

So far as this office has been advised, there has been no delinquency in the prompt payment of the troops, and I take pleasure in commending the officers of the Department for the diligence displayed in the discharge of all duties required of them, especially the officers on duty in the Department of Arizona, and the District of New Mexico. Notwithstanding the fact that the troops in the recent Indian campaign on the Mexican border were scattered into numerous camps, posted distant from all usual lines of travel and reached only after days of dangerous and fatiguing travel, the duty of paying these troops was promptly performed. Of the total amount disbursed to the Army, $5,273,448.90, was disbursed in the field, the greater portion of it in small and broken amounts over the pay table on the bi-monthly muster and pay-rolls. To make these disbursements, as will appear from the statement herewith, the officers travelled 234,040 miles, of this distance 42,292 miles were by stage and ambulance. The disbursements, aggregating $13,444,733.15, were made without loss to the Government.

The deposit system authorized by the act of May 15, 1872, seems to be growing in favor with the enlisted men of the Army. The number of deposits made during the last fiscal year was 7,261, amounting to $469,031.55, showing an increase over the previous year of 228 in number and of $41,413.59 in amount. The number of new accounts opened with depositors during the year was 1,557 as against 1,411, in the previous year. Since the act went into effect, July 1, 1872, to the close of the last fiscal year, the total amount of deposits was $5,506,543.12, and of the repayments, $4,426,992.19, leaving a balance of $1,079,551,23 to the credit of the depositors. This certainly is a very creditable showing for the enlisted men of the Army.

I would recommend that the necessary legislation be asked to direct that the checks of the disbursing officers of this department be forwarded, after payment, at the end of each month, by the Treasurer, the several Assistant Treasurers and U. S. Depositories on whom they are drawn, through this office for file with the vouchers received therefor by the Paymasters. The bringing together of the voucher and the evidence of its payment, when paid by check, would complete the records in the hands of the accounting officers that the payment had been made to the party entitled to the same. Such a regulation would also speedily develop any instance of the issue of a check against an official credit for a purpose not authorized by law.

The reports from the several divisions of the Paymaster-General's Office show the number of cases on hand June 30, 1886, 4,612. The number of cases on hand Sept. 30, was 3,208, a reduction of 1,404 since the close of the fiscal year.

The large increase in the number of cases remaining on hand arises from recent legislation opening a new class of claims not anticipated when I recommended in my last estimates a reduction of the clerical force of the office. While some delay will arise in disposing of cases, it is not believed that it will warrant the employment of an additional number of clerks.

THE ARMY.

G. O. 85, H. Q. A., Nov. 18, 1886.

Paragraph 868 of the Regulations, is amended to read as follows:

868. The arrest of an officer or the confinement of a soldier will be reported to his post commander as soon as practicable; and no soldier shall be confined except on the order of an officer, who shall previously inquire into his offence.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 86, H. Q. A., Nov. 20, 1886.

The Sec. of War being of opinion that instruction by lecture or demonstration in the simpler practice of medicine and surgery may with advantage to all concerned be given by officers of the Medical Department stationed at military posts to other officers and the enlisted men serving thereat, directs that, whenever practicable and where voluntary attendance in sufficient numbers can be secured, arrangements be made for a series of such lectures on the practical treatment of the unbidden diseases, early aid to the injured, the most expeditious and proper manner of treating temporarily gunshot wounds, poisoned wounds, frost-bite, bruises, dislocations, hemorrhage, and fractures of bones; application of the tourniquet; the most aproved method for resuscitation from drowning; and other kindred subjects.

Medical officers delivering these lectures will forward, not later than June 30, 1887, through the regular military channels, to this office, a report of the results, beneficial or otherwise, which may have attended them up to that date.

By command of Lieut. Gen. Sheridan:
R. C. DRUM, Adjt.-Gen.

WAR DEPARTMENT, A. G. O., Nov. 18, 1886.

Publishes proclamation of the President of Nov. 18, 1886, directing that the military reservation at St. Augustine, Fla., known and designated as the "Dragoon Barracks Lot," be placed under the control of the Secretary of the Interior for disposition, as provided for in act of July 5, 1884, it having become useless for military purposes.

G. O. 37, DEPT. OF ARIZONA, Nov. 15, 1886.

1. Col. J. S. Mason, 9th Infantry, will take charge of and conduct the business of the office of the Inspector, in the absence on sick leave, of the A. I. G. of the Dept.

2. 1st Lieut. C. B. Gatewood, 6th Cav., A. D. C., will take charge of and conduct the business of the Judge Advocate's office of the Department.

By command of Brig. Gen. Miles:
M. BARBER, Asst. Adjt.-Gen.

STAFF CORPS AND DEPARTMENTS.

Quartermasters and Substistence Departments.

Capt. Wm. S. Patton, A. Q. M., will proceed to Portland, Ore., on public business (S. O. 201, Nov. 13, D. Columbia).

Com. Sergt. George R. Kemp, Fort Halleck, will proceed to Fort Preble, to relieve Com. Sergt. Isidore Kalmus, who will proceed to Fort Elliott, Tex., to relieve Com. Sergt. Charles Winckel (S. O., Nov. 19, H. Q. A.)

Capt. Charles A. Woodruff, Chief C. of S., will proceed to Portland on public business (S. O. 201, Nov. 13, D. Columbia).

Par. 17, S. O. 257, Nov. 4, H. Q. A., relating to Com. Sergts. Robert H. Jones and John Hessler, is revoked. Com. Sergt. Harry Hudson will be relieved from duty at Washington Barracks, D. C., and will proceed to San Antonio, Texas, to relieve Com. Sergt. John B. Hamilton, who will proceed to the U. S. Military Prison, Leavenworth, Kansas, to relieve Com. Sergt. Wm. H. Northwood. Com. Sergt. Northwood, upon being relieved, will proceed to Washington Barracks, District of Columbia, for duty. Com. Sergt. Daniel Harner, now at Fort Verde, Ariz. Ty., will, upon the expiration of the furlough granted him, be relieved from duty at that post, and will proceed to Whipple Barracks, Ariz. Ty., to relieve Com. Sergt. John Hessler, who will proceed to Fort Mason, Cal., for duty (S. O., Nov. 23, H. Q. A.)

Capt. Wm. A. Elderkin, Sub. Dept., will report to C. O., Newport Barracks, Ky., for temporary garrison Court-martial duty (S. O. 193, Nov. 26, Div. Atlantic),

Pay Department.

Major De Witt C. Poole, Paymr., will proceed to Portand, Ore., on public business (S. O. 197, Nov. 8, D. Columbia).

Col. George L. Febiger, Asst. Paymr. Gen., is relieved from duty in the Div. of the Missouri (G. O. 25, Nov. 20, Div. Mo.)

Major Wm. H. Eckels, Paymr., St. Paul, Minn., will be governed by the subpœna to appear before the U. S. District Court, now in session at Helena, Montana (S. O. 121, Nov. 17, D. Dak.)

Medical Department.

Par. 7, S. O. 110, c. s., D. Ariz., is so modified as to direct A. A. Surg. R. P. Finley, in changing station from Fort Mojave to Fort McDowell, A. T., to proceed via Barstow and Colton, Cal., to Maricopa, thence by stage to Phœnix, A. T., owing to the impracticable condition of the roads on the shortest usually travelled route (S. O. 120, Nov. 15, D. Ariz.)

1st Lieut. Paul Clendenin, asst. surg., recently appointed, will report by letter to the Comdg. Gen., Dept. of Texas, for assignment to duty (S. O., Nov. 20, H. Q. A.)

Major Van Buren Hubbard, surgeon, is relieved from duty in this Dept., and will report to the Comdg. Gen., Div. of the Missouri (S. O. 119, Nov. 13, D. Ariz.)

Major Joseph R. Gibson, surgeon, is relieved from duty in the Div. of the Atlantic, to take effect at the expiration of his present leave (S. O. 188, Nov. 20, Div. Atlantic).

Major Wm. E. Waters, surgeon, is relieved from duty at Fort Spokane, and will proceed to Vancouver Barracks, and report for duty (S. O. 197, Nov. 8, D. Columbia).

Lieut. Col. Bernard J. D. Irwin, assistant medical purveyor, is relieved from temporary duty in New York City, and will proceed to San Francisco, and take charge of the medical purveying depot in that city. Capt. Henry Johnson, med. storekeeper, will, in addition to his present duties, assume charge of the medical purveying depot in New York city as acting asst. medical purveyor (S. O., Nov. 19, H. Q. A.)

Major Francis L. Town, surgeon, will proceed to the Post of San Antonio, and report for duty, to relieve Major Joseph P. Wright, surgeon (S. O. 159, Nov. 15, D. Texas).

1st Lieut. Freeman V. Walker, asst. surg., is assigned to duty at Fort McIntosh (S. O. 159, Nov. 15, D. Texas).

Hospl. Steward John A. Murray will proceed to Fort Concho, and report for duty (S. O. 159, Nov. 15, D. Texas).

The furlough granted Hospl. Steward John W. Barney is extended three months (S. O., Nov. 19, H. Q. A.)

Hospl. Steward Charles Primbs is relieved from duty at Fort Selden, N. M., and will report in person to the Comdg. Gen., Div. of Atlantic, Governor's Island, N. Y., for duty (S. O. 121, Nov. 17, D. Ariz.)

Engineers and Ordnance Departments.

A Board of Officers to consist of Lieut. Col. Wm. P. Craighill, Major Wm. R. King, Major Andrew N. Damrell, and Major James C. Post, will assemble in Washington, D. C., to report upon the plans of locks and dams proposed for the improvement of the Black Warrior River from Tuscaloosa to Daniel's Creek (S. O. 177, Nov. 19, C. E.)

Major L. Cooper, C. E., will proceed to Toledo and Ashtabula harbors, Ohio, on duty connected with works under his charge (S. O. 179, Nov. 24, C. E.)

Leave of absence for twenty-one days, from Dec. 10, is granted Capt. Charles E. L. B. Davis (S. O. 176, Nov. 18, C. E.)

Major Thomas H. Handbury, C. E., will proceed to Peoria, Ill., and the Illinois River to its mouth, on duty connected with works under his charge (S. O. 178, Nov. 23, C. E.)

Lieut. Col. Cyrus B. Comstock, C. E., ordered to St. Louis on public business, and then to return to his station at Willet's Point, N. Y. (S. O., Nov. 24, H. Q. A.)

The extension of leave of absence granted Major William R. King, C. E., is further extended fifteen days (S. O., Nov. 20, H. Q. A.)

Major Wm. R. King, C. E., is relieved from duty as a member of the board of officers, at Fort Monroe, and Lieut. Col. Peter C. Haines, C. E., is detailed in his place (S. O., Nov. 19, H. Q. A.)

The leave granted Capt. Andrew H. Russell, O. D., is extended fifteen days (S. O. 197, Nov. 8, D. Columbia).

The Sub. Dept. will pay six days' commutation of rations to Ord. Sergt. George B. McNamara, for the journey on public service made by him from Tampa to St. Augustine, and from St. Augustine to Tampa (S. O. 187, Nov. 19, Div. Atlantic).

THE LINE.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

1st Cavalry, Colonel N. A. M. Dudley.

Hdqrs., B, D, E, G, and K, Ft. Custer, Mont.; A and C, Ft. Maginnis, Mont.; I, Ft. Leavenworth, Kas.; F, H, and L, Ft. Assiniboine, Mont.; M, Camp Sheridan, Wyo.

The leave for seven days granted 1st Lieut. Herbert E. Tutherly is extended seven days (S. O. 120, Nov. 12, D. Dak.)

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Presidio of San Francisco, Cal.; C and M, Ft. Bidwell, Cal.; D, Boise Bks., Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Cœur d'Alene, Idaho.

Leave for four months is granted Capt. Randolph Norwood (S. O., Nov. 19, H. Q. A.)

Leave for one month is granted Major Thomas McGregor and Capt. Samuel T. Hamilton, Fort Walla Walla, W. T. (S. O. 199, Nov. 11, D. Columbia.)

The C. O. Boise Barracks will grant a furlough for two months to 1st Sergt. George L. Dykeman, Troop D (S. O. 200, Nov. 12, D. Columbia.)

The leave of 1st Lieut. A. L. O'Brien has been extended four months for disability (S. O., Nov. 24, H. Q. A.)

3rd Cavalry, Colonel Albert G. Brackett.

Hdqrs., C, F, L, and M, Ft. Davis, Tex.; A, Ft. Concho, Tex.; G, Camp at Eagle Pass, Tex.; E, Camp Rice, Tex.; B, Camp Pena Colorado, Tex.; D and H, Ft. Sill, Ind. T.; I and K, Ft. Elliott, Tex.

Private George Kliemand, Troop K, will proceed to Fort Leavenworth and report with a view to examination as to his qualifications and fitness for the position of hospital steward (S. O. 131, Nov. 16, Dept. M.)

4th Cavalry, Colonel William B. Royall.

Hdqrs., B, D, F, H, and K, Ft. Huachuca, Ariz.; A and E, Ft. Lowell, Ariz.; C, G, and I, Ft. Bowie, Ariz.; L, Ft. Stanton, N. M.; M, Ft. McDowell, Ariz.

1st Lieut. Fred Wheeler will proceed to Fort Lowell, and report to relieve the post quartermaster and commissary (S. O. 119, Nov. 13, D. Ariz.)

Troop E (Mason's) is relieved from duty at Fort Huachuca, and will proceed to Fort Lowell (S. O. 119, Nov. 13, D. Ariz.)

5th Cavalry, Colonel Wesley Merritt.

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

Troop L now at Fort Riley, will proceed by rail to Arkansas City, thence march to Chilocco Creek, I. T., relieving Troop E (S. O. 129, Nov. 13, Dept. M.)

The Q. M. Dept. will furnish transportation by rail for Troop E from Winfield to Fort Riley, Kas. (S. O. 132, Nov. 17, Dept. M.)

2d Lieut. S. E. Adair, now on temporary duty at Fort Reno, I. T., is assigned to duty at that post to command Co. A, Indian Scouts (S. O. 132, Nov. 17, Dept. M.)

The journey performed by Major E. V. Sumner, from Caldwell, Kas., to Fort Reno, I. T., was necessary for the public service (S. O. 133, Nov. 19, Dept. M.)

Leave for one month on Surgeon's certificate, with permission to go beyond the limits of the Dept., is granted 1st Lieut. E. P. Andrus (S. O. 133, Nov. 19, Dept. M.)

Leave for one month, to take effect on or about Dec. 10, is granted Capt. G. F. Price (S. O. 133, Nov. 19, Dept. M.)

6th Cavalry, Colonel Eugene A. Carr.

Hdqrs., A, C, G, and L, Ft. Bayard, N. M.; I and K, Ft. Wingate, N. M.; B and F, Ft. Lewis, Colo.; D and H, Ft. Stanton, N. M.; M, Ft. Leavenworth, Kas.; E, Ft. Union, N. M.

1st Lieut. William Baird is relieved as recruiting officer at Fort Bayard, N. M., and 2d Lieut. G. H. Sands is appointed in his stead (S. O. 118, Nov. 12, D. Ariz.)

Lieut.-Col. A. P. Morrow will proceed to Fort Stanton, N. M., and take station (S. O. 119, Nov. 13, D. Ariz.)

8th Cavalry, Colonel Elmer Otis.

Hdqrs., C, and H, San Antonio, Tex.; A, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; D, Camp Del Rio, Tex.; E, F, G, K, and L, Ft. Clark, Tex.; B and M, Ft. Brown, Tex.

Leave for one month, to take effect about Dec. 10, is granted 1st Lieut. Henry F. Kendall, Fort Clark (S. O. 158, Nov. 12, D. Tex.)

Leave for fifteen days is granted Capt. H. W. Sprole, Fort Clark (S. O. 159, Nov. 15, D. Tex.)

9th Cavalry, Colonel Edward Hatch.

Hdqrs., D, and H, Ft. McKinney, Wyo.; C, F, and K, Ft. Robinson, Neb.; A, G, and I, Ft. Niobrara, Neb.; M, Ft. Washakie, Wyo.; B and E, Ft. Du Chesne, Utah (Post-office address via Ouray, Utah); L, Ft. Leavenworth, Kas.

The leave for one month granted 2d Lieut. Charles J. Stevens is extended one month (S. O. 180, Nov. 24, Div. M.)

The leave granted Capt. Martin B. Hughes is extended one month (S. O., Nov. 23, H. Q. A.)

Leave for three months, to take effect about Dec. 1, is granted 2d Lieut. John H. Gardner (S. O., Nov. 23, H. Q. A.)

1st Lieut. Philip P. Powell is relieved from further duty at Jefferson Barracks, Mo., and will join his regiment (S. O., Nov. 23, H. Q. A.)

1st Lieut. Philip P. Powell is relieved from duty as member of the G. C.-M. convened at Jefferson Barracks, Mo., by S. O. 240, Oct. 15, H. Q. A. (S. O., Nov. 23, H. Q. A.)

10th Cavalry, Colonel Benjamin H. Grierson.

Hdqrs., Santa Fe, N. M.; E, F, K, and L, Ft. Grant, A. T.; D, San Carlos, A. T.; A and H, Ft. Apache, A. T.; I, Ft. Verde, A. T.; B, C, and G, Ft. Thomas, A. T.; M, Ft. McDowell, A. T.

The Regtl. Hdqrs., Staff, and Band will proceed to Santa Fe, N. M., and report to Col. B. H. Grierson, commanding Dist. of New Mexico (S. O. 119, Nov. 13, D. Ariz.)

Troop F (Kennedy's) will proceed to Fort Grant and take station (S. O. 119, Nov. 13, D. Ariz.)

Troop M (Norvell's) will take station at Fort McDowell (S. O. 119, Nov. 13, D. Ariz.)

Major Anson Mills is relieved from station at Fort Thomas, and on the expiration of his leave of absence will proceed to and take station at Fort Grant, A. T. (S. O. 120, Nov. 15, D. Ariz.)

Troop D (Keyes's) is relieved from duty at Fort Thomas, and will proceed without delay to San Carlos and there take station, relieving Troop B (Smithers's), which will proceed to and take station at Fort Thomas (S. O. 121, Nov. 17, D. Ariz.)

Corpl. J. F. Casey, H, has qualified as a sharpshooter.

1st Artillery, Colonel John C. Tidball.

Hdqrs., A, C, I, L, and K,* Presidio, San Francisco, Cal.; B and H, Alcatraz Island, Cal.; E,* Vancouver Bks., W. T.; D and F, Ft. Canby, W. T.; G, Ft. Monroe, Va.; M, Ft. Mason, Cal.
* Light battery.

3rd Artillery, Colonel Horatio G. Gibson.

Hdqrs., A, C,* E, H, K, and L, Washington Bks., D. C.; B, Newport Bks., Ky.; D, G, and I, Ft. McHenry, Md.; M, Ft. Monroe, Va.; F,* San Antonio, Tex.
* Light battery.

Sergt. S. A. Good, Bat. G, Fort McHenry, has gone to Fort Delaware as acting ordnance sergeant during the illness of O. S. Jas. Maxwell.

4th Artillery, Colonel Clermont L. Best.

Hdqrs., B,* D, E, G, and L, Ft. Adams, R. I.; A and C, Ft. Trumbull, Conn.; F,* Ft. Snelling, Minn.; H and K, Ft. Warren, Mass.; I, Ft. Monroe, Va.; M, Ft. Preble, Me.
* Light battery.

Capt. Joseph B. Campbell, having completed duty devolved upon him, will revert to the status of leave from Fort Monroe, Va. (S. O. 188, Nov. 20, Div. A.)

5th Artillery, Colonel John Hamilton.

Hdqrs., F,* I, H, and M, Ft. Hamilton, N. Y.; A, C, and L, Ft. Columbus, N. Y.; G, Ft. Monroe, Va.; B, Ft. Wadsworth, N. Y.; D,* Ft. Omaha, Neb.; E, Ft. Schuyler, N. Y.; K, Ft. Wood, N. Y. H.
* Light battery.

In connection with the funeral of the late ex-President Arthur, to take place in New York City, Nov. 22, the following is ordered: The 5th Art. (except the light battery and band), in New York Harbor, will, under the command of Col. John Hamilton, escort the remains from the Church of the Heavenly Rest (551 5th avenue), to the railroad depot, 42d street (S. O. 187, Nov. 19, Div. A.)

The C. O. Bedlow's Island will send to Fort Columbus as many non-commissioned officers and men as he can spare for duty in connection with the funeral of the late ex President Arthur (S. O. 188, Nov. 20, Div. A.)

The C. O. Fort Columbus, N. Y. H., will detail eight non-commissioned officers, under command of a commissioned officer, to act as body bearers at the funeral of the late ex-President Arthur (S. O. 188, Nov. 20, Div. A.)

The six non-com. officers from Fort Schuyler, N. Y. H., having completed duty in connection with the funeral of the late ex-President Chester Alan Arthur, will return to that post (S. O. 190, Nov. 22, Div. A.)

Bat. H, Fort Hamilton, will relieve Bat. K at Bedlow's Island, Dec. 1. Bat. K will then return to Fort Schuyler (S. O. 192, Nov. 24, Div. A.)

Leave for one month, to commence on or about Nov. 27, is granted 2d Lieut. Edwin B. Babbitt, Fort Wadsworth, N. Y. H. (S. O. 192, Nov. 24, Div. A.)

The C. O. Fort Hamilton will direct 1st Sergt. S. F. Burgoyne and Sergt. Henry Miller, F, to report, Nov. 26, at Fort Columbus, to 1st Lieut. Samuel E. Allen, 5th Art., J. A. of G. C.-M., as witnesses (S. O. 192, Nov. 24, Div. A.)

1st Infantry, Colonel William R. Shafter.

Hdqrs., E, F, and K, Angel Island, Cal.; A and D, Benicia Bks., Cal.; C and G, Presidio of San Francisco, Cal.; B, Ft. Gaston, Cal.; H, Ft. McDermit, Nev.; I, San Diego Bks., Cal.

2nd Infantry, Colonel Frank Wheaton.

Hdqrs., A, B, C, D, E, F, G, H, I, and K, Ft. Omaha, Neb.

Leave for two months upon Surgeon's certificate is granted 2d Lieut. William Moffatt, Fort Niobrara (S. O. 177, Nov. 18, Div. M.)

5th Infantry, Colonel George Gibson.

Hdqrs., A, B, D, E, G, I, and H, Ft. Keogh, M. T.; F and K, Ft. Totten, D. T.; C, Ft. A. Lincoln, D. T.

Capt. Mason Carter, Fort Keogh, M. T., will proceed to Fort A. Lincoln, D. T., as a material witness

in the case of the United States v. Private Daniel Ross, Co. B, 5th Inf. (S. O. 121, Nov. 17, D. Dak.)

6th Infantry, Colonel Alex. McD. McCook.

Hdqrs., H, and I, Ft. Leavenworth Kas.; A, B, C, E, F, and G, Ft. Douglas, Utah; D, Camp on Montezuma Creek, San Juan County, Utah; K, Salt Lake City, Utah.

Leave for two months, to take effect about Dec. 2, is granted 2d Lieut. Charles L. Beckurts, Fort Leavenworth (S. O. 178, Nov. 19, Div. M.)

7th Infantry, Colonel Henry C. Merriam.

Hdqrs., A, D, F, and H, Ft. Laramie, Wyo.; B and E, Camp Pilot Butte, Wyo.; G and I, Ft. Washakie, Wyo.; C and K, Ft. McKinney, Wyo.

8th Infantry, Colonel August V. Kautz.

Hdqrs., A, B, E, F, G, and H, Ft. Niobrara, Neb.; C and I, Ft. Robinson, Neb.; D and K, Ft. Bridger, Wyo.

In compliance with G. O. 17, Div. Pacific, the 8th Inf. is relieved from duty in the Dept. of Arizona, and will proceed to stations in Dept. of Platte as therein designated (S. O. 121, Nov. 17, D. Ariz.)

9th Infantry, Colonel John S. Mason.

Hdqrs., and F, Whipple Bks., A. T.; B and D, Ft. Thomas, A.T.; H and I, Ft. Union, N. M.; E, Ft. Wingate, N. M.; A and G, Ft. Apache, A. T.; K, Ft. Verde, A. T.; C, Ft. Mojave, A. T.

Co. C (Munson's) is relieved from duty at Whipple Barracks, and will proceed to Fort Mojave, A. T., and take station, relieving Co. C, 8th Inf. (Corliss's), under orders to leave the Dept. (S. O. 119, Nov. 13, D. Ariz.)

Col. J. S. Mason and 2d Lieut. C. R. Noyes are detailed as members of the G. C.-M. convened at Fort Verde, A. T., by par. 6, S. O. 115, D. Ariz. (S. O. 121, Nov. 17, D. Ariz.)

Capt. Jesse M. Lee, having been relieved in Washington from special duty in the Dept. of the Interior, will proceed to join his proper station (S. O., Nov. 19, H. Q. A.)

Leave for three months is granted Capt. Jesse M. Lee (S. O., Nov. 19, H. Q. A.)

Sergt. T. C. Reeds, F, has qualified as a sharpshooter.

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., A, D, E, and K, Ft. Sully, D. T.; B, C, F, and H, Ft. Yates, D. T.; G, Ft. A. Lincoln, D. T.; I, Ft. Bennett, D. T.

1st Lieut. Benjamin F. Handforth, on sick leave at Hoboken, N. J., will report to the Supt. of Recruiting Service, New York City, to conduct recruits to the Dept. of Dakota. On the completion of this duty he will join his company (S. O., Nov. 19, H. Q. A.)

12th Infantry, Colonel Edwin F. Townsend.

Hdqrs., A, B, D, F, G, and I, Madison Bks., N. Y.; C, Plattsburgh Bks., N. Y.; E and K, Ft. Niagara, N. Y.; H, Ft. Ontario, N. Y.

Leave for one month, to commence on or about Nov. 29, is granted 2d Lieut. Harry C. Hale, Fort Niagara, N. Y. (S. O. 191, Nov. 23, Div. A.)

1st Lieut. Alexander Ogle is appointed inspector on damaged clothing at the recruiting depot at Columbus Barracks, O., for which Capt. Andrew H. Young, A.Q.M., is responsible (S. O., Nov. 24, H. Q. A.)

13th Infantry, Colonel Luther P. Bradley.

Hdqrs., D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth, Kas.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.

1st Lieut. W. S. Davies is relieved as recruiting officer at Fort Stanton, N. M., and 1st Lieut. E. L. Fletcher is appointed in his stead (S. O. 118, Nov. 12, D. Ariz.)

Lieut.-Col. John C. Bates is assigned to station, temporarily, at Fort Union, N. M. (S. O. 120, Nov. 15, D. Ariz.)

The extension of leave on Surgeon's certificate granted 1st Lieut. William W. Tyler is further extended two months on Surgeon's certificate (S. O., Nov. 20, H. Q. A.)

Private J. Bell, B, has qualified as a sharpshooter.

15th Infantry, Colonel Robert E. A. Crofton.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

The station of Col. Robert E. A. Crofton will be at the Regimental Headquarters, Fort Buford, D. T. (S. O. 120, Nov. 12, D. Dak.)

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., B, C, F, and H, Ft. Concho, Tex.; E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; A, G, and K, San Antonio, Tex.; D, Ft. Ringgold, Tex.

The leave for one month granted Col. Matthew M. Blunt is extended ten days (S. O. 179, Nov. 23, Div. M.)

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assiniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

Capt. John S. McNaught is relieved from duty on the Recruiting Service (S. O., Nov. 23, H. Q. A.)

1st Lieut. John B. Rodman will repair to Columbus Barracks, O., and report by telegraph to the Supt. of the Recruiting Service, New York City, for duty on the Recruiting Service for the unexpired term of Capt. McNaught (S. O., Nov. 23, H. Q. A.)

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

Private C. Keefe, B, and Sergt. C. E. Campbell and Private J. M. Thomas, G, have qualified as sharpshooters.

24th Infantry, Colonel Zenas R. Bliss.

Hdqrs., D, and H, Ft. Supply, Ind. T.; A and K, Ft. Reno, Ind. T.; B and F, Ft. Elliott, Tex.; C, E, G, and I, Ft. Sill, Ind. T.

The leave for seven days granted 1st Lieut. A. M. Palmer, Fort Sill, is extended twenty-three days (S. O. 130, Nov. 15, Dept. M.)

1st Lieut. Charles Dodge, Jr., is announced as Aide-de-Camp to Brig.-Gen. Willcox (G. O. 21, Nov. 16, Dept. M.)

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

The leave for seven days granted Major Frederick Mears is extended three days (S. O. 120, Nov. 12, D. D.)

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, November 20, 1886.

APPOINTMENTS.

Lieutenant-Colonel John Moore, Assistant Medical Purveyor, to be Surgeon-General with the rank of Brigadier-General, November 18, 1886, vice Murray, retired from active service.

Robert R. Ball, of Virginia, to be Assistant Surgeon with the rank of 1st Lieutenant, November 19, 1886, vice Heizmann, promoted.

PROMOTIONS.

Major Joseph C. Baily, Surgeon, to be Assistant Medical Purveyor with the rank of Lieutenant-Colonel, November 18, 1886, vice Moore, appointed Surgeon-General.

Captain Charles L. Heizmann, Assistant Surgeon, to be Surgeon with the rank of Major, November 18, 1886, vice Baily, promoted.

Courts-martial.

The following courts have been ordered:

At Little Rock Barracks, Ark., Nov. 23. Detail: Major Francis L. Guenther, Capts. Frank B. Hamilton and William McK. Dunn, Jr., 1st Lieuts. George S. Grimes, Louis V. Caziarc, and John H. Gifford, and 2d Lieut. John T. Thompson, 2d Art., and 1st Lieut. Asher C. Taylor, 2d Art., J.-A. (S. O. 187, Nov. 19, Div. A.)

At Fort Wayne, Mich., Nov. 23. Detail: Major Henry McElderry, Surg.; Capts. George M. Randall, Joseph T. Haskell, and Charles Wheaton, 1st Lieut. Stephen O'Connor, 2d Lieuts. Edwin P. Pendleton, William H. Allaire, Daniel B. Devore, and George D. De Shon, 23d Inf., and 1st Lieut. O. L. Wieting, 23d Inf., J.-A. (S. O. 187, Nov. 19, Div. A.)

At Fort Niagara, N. Y., Nov. 24. Detail: Major William H. Penrose and Capt. Joseph H. Hurst, 12th Inf.; Capt. William H. Arthur, Asst. Surg.; 1st Lieuts. Guy Howard and Palmer G. Wood and 2d Lieut. Charles H. Barth, 12th Inf., and 2d Lieut. Harry C. Hale, 12th Inf., J.-A. (S. O. 188, Nov. 20, Div. A.)

At Fort Columbus, N. Y. H., Nov. 24. Detail: Capt. William B. Beck, 5th Art.; Capt. Henry P. Birmingham, Asst. Surg.; 1st Lieuts. Benjamin K. Roberts and Anthony W. Vogdes, 2d Lieuts. Warren P. Newcomb, Harvey C. Carbaugh, and Avery D. Andrews, 5th Art., and 1st Lieut. Samuel E. Allen, 5th Art., J.-A. (S. O. 191, Nov. 23, Div. A.)

At Washington Barracks, D. C., Nov. 26. Detail: Major Edmund C. Bainbridge, Capts. Lewis Smith, James Chester, and John F. Mount, 1st Lieuts. Constantine Chase, Ramsay D. Potts, Charles Humphreys, John B. Eaton, Edward Davis, Benjamin H. Randolph, and Charles B. Satterlee, 2d Lieuts. Wilbur Loveridge and Louis Ostheim, 3d Art., and 1st Lieut. John E. Myers, 3d Art., J.-A. (S. O. 191, Nov. 23, Div. A.)

At Fort Huachuca, A. T., Nov. 22. Detail: Lieut.-Col. G. A. Forsyth and Major E. J. Spaulding, 4th Cav.; Capt. P. R. Brown, Asst. Surg.; Capts. C. A. P. Hatfield and J. H. Dorst, 4th Cav.; 1st Lieut. C. F. Mason, Asst. Surg.; 1st Lieut. W. M. Dickinson, 2d Lieuts. C. P. Elliott, F. B. Fowler, and J. E. Nolan, 4th Cav., and 1st Lieut. James Parker, 4th Cav., J.-A. (S. O. 121, Nov. 17, D. Ariz.)

Retirements of Enlisted Men.

Private Thomas Martin, Co. D, 7th Inf., Nov. 18, 1886.
Ord. Sergt. Cornelius Kelly, U. S. A., Nov. 23, 1886.

Torpedo Service.—The following named officers are detailed at Willet's Point, New York, for instruction in torpedo service for the seven months' course commencing Dec. 1, 1886, and will report for duty accordingly: 1st Lieut. Victor H. Bridgman, 2d Art.; 2d Lieut. Wilbur Loveridge, 3d Art., and 2d Lieut. Gustave W. S. Stevens, 5th Art. (S. O. Nov. 23, H. Q. A.)

DEPARTMENT NEWS.

Dept. of Dakota.—Brig. Gen. T. H. Ruger

The two troops of the 1st Cavalry which have been stationed at the Belknap Indian Agency, under command of Lieut. Hoyle, for the purpose of watching the movements of the Bloods and Piegans, and preventing them from committing depredations along the boundary line, have returned to Fort Assiniboine. The approach of winter has resulted in the suspension of operations, and no further movement on the part of the Indians is anticipated this season.

Correspondence between the Canadian and U. S. authorities confirms the report of the recent Indian massacre in the Northwest. It appears that a band of Gros Ventre Indians passed Ft. Assiniboine south of the boundary line, and on exhibiting six scalps were detained by American troops. Upon being pressed they gave an account of the fight which had taken place. They then took the militia to Sweet Grass Hills, where the scalping was done. The scene being in the Canadian Territory, the American troops could not cross the line, and the Canadian mounted police were ordered to make a search for the bodies and found them, as represented by the Gros Ventres, in Sweet Grass.

Dept. of the Missouri.—Brig. Gen. O. B. Willcox.

Twenty Indian scouts of Co. B, Fort Supply, and twenty of Co. C, Fort Elliott, have been sent to Fort Reno, I. T., for duty until further orders.

Dept. of the Platte—Brig. Gen. George Crook.

The Kansas City *Times* says: "Fort Douglas reports a contest for the championship of the Blue and the stakes of $150, on last Sunday, between Messrs. Sheldon and Garrity, of the Army. They were seconded by two well-known pugilists. At the end of the thirty-eighth round Garrity was knocked over the ropes and Sheldon declared victor. Garrity was picked up and carried from the field. The fight lasted two hours and a half." Messrs. Sheldon and Garrity would seem to be fit subjects for discipline, on the account mentioned, and we shall, therefore, keep a good lookout for their names in the court-martial orders Department of the Platte.

Division of the Pacific—Maj.-Gen. O. O. Howard.

General Howard has established his headquarters on the entire fourth floor of the Phelan Building, San Francisco. The place is a most desirable and convenient one for those who have business to transact with the officials.

ENGINEER SCHOOL OF APPLICATION.

In Orders 261, Gen. C. B. Comstock announces the course of winter instruction which will begin Dec. 1, 1886, and extend to April 30, 1887. He also makes the following assignment of instructors: Operations of war: Major W. R. King; military engineering: Captain E. Maguire; civil engineering: Captain E. Bergland; submarine mines: Captain J. G. D. Knight; photography: Lieutenant C. McD. Townsend. The course is without doubt a thorough one.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., Nov. 24, 1886.

On Monday morning, at 9 o'clock, the Corps of Cadets, Engineer Company and Cavalry Detachment were formed as a battalion on the cavalry plain, in charge of the commandant of cadets. All of the officers on duty here assembled at the same time in overcoats and sidearms. The orders relating to the death and funeral of ex-President Arthur were read, after which the parade was dismissed. Academic and other duty not absolutely necessary was suspended for the day. At intervals of half an hour during the day a gun was fired from Battery Knox, and at sunset a national salute was fired.

Last Thursday afternoon Mrs. Hasbrouck's quarters were crowded from 4 till 6 o'clock by the officers and ladies of the post in response to invitations sent out for an afternoon tea. Mrs. Hasbrouck was assisted in receiving her guests by Mrs. and Miss Hasbrouck, mother and sister of Col. H., and Miss Thompson, Mrs. Eugerton and Miss Newlands presided at the refreshment table in the dining room.

The first hop of the officers' series will be held on Friday evening. The dates for the others will be December 9 and 13, January 16 and 20, February 3 and 17. These days all come on Thursday. The managers are Lieut. Totten, Capt. Rockwell, Professor Bass, Captain Metcalfe, Lieut. Landis and Lieut. Hodges.

The usual bountiful Thanksgiving dinner will be served to the cadets and detachments stationed here.

Mrs. Kinsley has returned from his trip to Europe with health much improved.

From Miss Berard's "Reminiscences of West Point," which will be ready for the subscribers this week, we learn that the oldest house used as officer's quarters is that now occupied by Lieut. Simpson. It was built in 1815, and the first occupant was the Professor of Engineering, Capt. Crozet. Professor Mercur's house was built in 1816. The house now occupied by Capt. Augur and Lieut. Mitcham was erected in 1817 and called the "Philosophical House," because it was built for the first Professor of Philosophy. The Superintendent's, Commandant's, and Professor Bass's were finished late in 1819 or early in 1820. The stone part of the houses of Professors Postlethwaite and Michie and Professor Andrews and Capt. Rockwell were finished in 1823, the stone for them being taken from a rocky ledge where the brick house now stands that Dr. Kimball and Lieut. Foltz live in, and which was built about 1857. The stone part of the house of Professors Larned and Tillman was built about 1821. The double house of Capt. Williams and Lieut. Rodgers was built in 1830, the old officer's school house, now used as quarters by Lieut. Braden, being moved to its present site to make room for it. The front part of the latter building was the north wing of the "Thompson House," or "Washington's Headquarters," and was moved from its original place to make room for Professor Bass's house. This "north wing" has been repaired and altered several times, but the foundation is probably the same that was under it when first put up before the Revolution. The house of Capts. Price and Metcalfe was erected about 1872, and Capt. Spurgin's in 1881. We thus have the date of erection of every house from Cadet Barracks, north, to the old "North Gate," except that of Dr. Smith, of which no mention is made.

Nothing is said about the quarters below the Barracks, they being of comparatively recent date.

(Correspondence of the Army and Navy Journal.)

WASHINGTON BARRACKS, D. C.

November 23, 1886.

THE Dramatic Troupe made its first appearance in the Recreation Hall last night, before a large and highly appreciative audience, which included all the garrison, from the the general down to the recruit. "The Social Glass" was the play so successfully performed and enthusiastically cheered, and was one of the best of the season, there being neither mitake nor omission to cause the slightest interruption. The scenery, varying with each of the five acts, was both handsome and appropriate.

Where all did so well comparisons would be invidious, and none are intended. The music by the Regimental Band of the 3d Artillery was of that uniform excellence for which its productions are so justly noted. The following is the list of characters: Charles Thornley, H. Patterson; Dr. Slater, Theo. Sevenhuysen; Harold Hadley, Frank Williams; John Farley, Geo. Friedman; Bob Brittle, Otto Sountag, Jr.; James Hollis, A. Hoffman; Eva Thornley, Miss Annie M. Clifford; Nettie Nettleby, Miss Keziah Samm; Mrs. Farley, Miss Maggie A. Burns.

The evening's entertainment was ended with a dance.

The usual military ceremonies in memory of our distinguished Ex-President Chester A. Arthur, were rendered here yesterday. The troops were paraded in the morning at 10 o'clock, under the command of General H. G. Gibson, and the official communication promulgating his death, was read by his adjutant, 1st Lieut. J. D. C. Hoskins. The flag was at half mast, guns were fired every half hour, and a salute in the evening at sundown by Light Battery C ended the obsequies.

A very pleasant evening is in store for the friends and admirers of the cause of Temperance on Wednesday, the 24th. The Soldiers' Temperance Union is to give a sociable and hop in the Recreation Hall, and the hospitality of the union is extended to the garrison and interested friends.

The cool weather has now set in, and the various drills and parades must shortly come to an end. Then look out for the winter amusements, hops, balls, etc. Everything to kill the long tedious frosty evenings.

The Shamrock Social Society held a business meeting on Sunday morning last, the 21st. AULD LANG SYNE.

(Correspondence of the Army and Navy Journal.)

FORT APACHE, A. T.

NOVEMBER 15, 1886.

FATHER TIME has put on an air of chilliness to us away out here in the mountains of Arizona, and so cold has his manner become that even his good-night kiss has frozen the very breeze and changed the vivid green that clothed our lovely mountains and vales; first into crimson and gold; now into palest amber and brown, and all crisp and dead they lie upon the ground, where they rattle in answer to the foot-fall. As a pleasurable result we have been treated to ice cream and "candy pullings." Mrs. Tyson, wife of Lieut. Tyson, 9th Infantry, entertained the young people of Apache to a card and candy party at her quarters on the evening of Nov. 12. Refreshments were served during the evening and prizes distributed to the card players. Mrs. Weirick, wife of our Post Surgeon, entertained a number of her friends at her quarters a few evenings ago with cards and an elaborate lunch.

Lieut. Beck and Mrs. Beck gave a 3 o'clock lunch, Saturday, Nov. 13, for their daughter, Miss Beck, in honor of Lieut. Tyson and Mrs. Tyson. The guests invited to meet them were Lieut. Nordstrom and Mrs. Nordstrom, Mrs. Weston, sister of Lieut. Leighton Finley, Lieuts. Shipp and Smith.

Lieut. Smith entertained the officers and ladies of the garrison and their friends at a hop given at the post library, a few evenings ago. Lieut. Shipp has just returned from Fort Union, N. M., and Lieut. S. with left Apache this morning for Mexico and will be absent three or four weeks.

Lieut. and Mrs. Nordstrom entertained a number of their friends last evening with ice cream and cakes.

Lieut. Miner, 9th Infantry, left the post yesterday on a two months' leave, to be spent in Yankeeland, and Lieut. Jones, 10th Cavalry, accompanied him as far as Holbrook, at which point Mrs. Jones with her three little ones expects to join him, and they will then come to Apache. Mrs. Jones, Masters Thad and Alex and little Missie Jones will be warmly welcomed by their many friends in Arizona, as Mrs. Jones is a universal favorite with those who know her.

Lieut. Ruthers, 8th Infantry, visited our pleasant garrison

from San Carlos for a few days and added to the social enjoyment of the post. Lieut. Johnson, 10th Cavalry, with his Pima scouts, also spent a few days with his many friends here, and was a guest of Col. Wade, our post commander. Since I last wrote you, Mrs. Delaney and Master Delaney have joined the pleasant numbers at Apache, and add materially to the force. Horseback riding and lawn tennis are not yet wholly abandoned, and indeed at noonday, when Old Sol tries to excel the pale, cool distance of Fair Luna, the warmth and balmy air outside entices one to quit the fireside indoors and enjoy a seat on the gallery, a promenade, a game of lawn tennis, a drive, or a horseback ride.

A General Court-martial is grinding out the hours at the court-martial room of the post.

It is said that a new bride is to make her debut in the Army at our post this winter.

Lieut. Leighton Finley, 10th Cavalry, had charge of the guard of Mangus and party to Holbrook, where he was joined by Lieut. T. J. Clay, 10th Infantry, and both proceeded to Florida with the Indians. Lieut. Finley expects to have a delay for the purpose of visiting his sisters and brother at their old home in Aiken, South Carolina. R.

(Correspondence of the Army and Navy Journal.)

SAN ANTONIO, TEXAS.

NOVEMBER 19, 1886.

So, so. My prediction of Nov. 8 (see your JOURNAL of Nov. 20) was correct, and John Moore is Surgeon General vice Murray retired. "I told you so" is now my motto, and as a prophet I am a genuine success. If you want a tip as to who will be the next Brigadier when Willcox retires in April next, just drop me a line (with the customary fee) and I will give you the sure thing.

San Antonio received the news yesterday of Chester A. Arthur's death with genuine sorrow. Major Arthur, his brother, on duty here, had just returned from a pay trip when he learned the sad news.

On Wednesday a hop was given by the German Club of San Antonio, the 8th Cavalry Band furnishing the music. This evening there is to be another theatrical performance. If it is as good as the last everyone will be satisfied. The weather is cold here and plumbers are in demand. During the last week there have been rumors that our genial depot Quartermaster, Capt. John F. Simpson, may soon be ordered to Boston. He and family will be much missed, for they are favorites with all here. Surg. Wright and Mrs. Wright leave to-morrow for Fort Leavenworth, and Surg. Town and family are expected in a few days. Now don't hesitate if you want news about contingent promotion. I have it all figured down fine even to the time when Gen. Miles will succeed to the command of the Army as its senior general officer.

Judge J. B. Lee died Nov. 17. He came to Texas from Indiana during the young republic's struggle for emancipation from Mexican rule, and fought through the War of the Revolution, being promoted from the ranks to a captaincy before the end of that bloody conflict. As an Indian fighter he is said to have no superior on the border. He was buried today under the auspices of the Veterans' Association. PUNK.

(Correspondence of the Army and Navy Journal.)

FORT CŒUR D'ALENE, IDAHO.

NOVEMBER 13, 1886.

THESE stern old pines echoed the whistle of the steam engine for the first time a few days since, and the railroad is nearly completed, when our mail will be brought by cars instead of stage, as it always has been. Mrs. Dr. Munn gave a luncheon as a compliment to Miss Williams, who has been a guest of Capt Bubb's, and has now left for her home in Washington, D. C. The luncheon was a perfect success, as Mrs. Munn's undertakings always are. The table was decorated with flowers, and everything was furnished to tempt and satisfy the appetite. The cards were designed and painted by Mrs. Munn, and there was a lovely gift beside, for each guest, to remind them some time in the future of this delightful occasion. SQUIB.

ANGEL ISLAND, CAL.

The *News Letter* says: The Angel Island garden party in aid of the S. F. Female Hospital, which was held on Saturday, was also a great success. The Messrs. Spreckels contributed the use of their tug *Relief* for this occasion, and Colonel Shafter, U. S. A., whose good-heartedness seems as large as his body, was indefatigable in his exertions to make the affair pleasant as well as successful. A delicious lunch was spread, and first-class music was furnished on the dancing floor. The hospital was benefited to the extent of from $500 to $600.

GEN. SHERMAN AS A SUB-MARINE MARINER.

General Sherman, Major General Schofield, General Whipple, Major Sanger, A. D. C., and many others accompanied the torpedo boat *Peacemaker* on its experimental trip in the North River on Saturday last. A newspaper report of the trip says:

"Kindly tell Professor Tuck I'd like to go down on the *Peacemaker*," said General Sherman to a boy after he had stared the submarine craft out of countenance, if it had any. "Professor," he continued, when the inventor had obeyed the summons, "I'd like to see this before it is in motion, mind. I can see all I desire while it is still."

"Certainly," said Professor Tuck suavely.

"Are you sure," asked the General dubiously, "that you've enough concentrated air down there?"

"Enough to last eight hours."

"Are your lungs good?" continued the General.

"First rate."

"Well, then, come along."

General Sherman divested himself of his overcoat and gave it to a gentleman beside him, who tenderly said "Good-bye, General," and then followed Pilot John Holland and Engineer John Kline down the manhole. The General's glove was just visible as the lid of the manhole was closed. For 15 minutes General Sherman remained lost to view, and his overcoat rested unredeemed on the arm of his friend. At the end of that time he emerged, with his felt hat indented, his coat dusty, and his eyes twinkling.

"Positively no danger at all," he said, as he reached the tug with considerable difficulty. "Very nice indeed. Very nice."

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. At Portsmouth, N. H., undergoing repairs.

TENNESSEE, 1st rate, 22 guns (f. s. n. a. s), Capt. Robert Boyd. At New York Navy-yard.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at Jamaica Nov. 22.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Sailed from New York, Nov. 14, for the S. A. Station.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Arrived at Montevideo Nov. 13.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. Sailed from Rio de Janeiro Nov. 6, and arrived at Montevideo Nov. 13.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns(f. s. e. s.), Captain George Dewey. At Genoa, Italy, Oct. 21. Would leave about Nov. 10 for the East, making Alexandria her headquarters.

KEARSARGE, 3d rate, 7 guns, Comdr. Charles D. Sigsbee. Arrived at Portsmouth, N. H., Nov. 12. Will go out of commission at that yard, and probably be repaired there. Ordered out of commission.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. At Genoa, Italy, undergoing repairs. Will sail about the middle of November for the coast of Africa to cruise during the winter.

Pacific Station—Capt. J. H. Gilles
(in temporary command).

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Arrived at Panama Nov. 15.

HARTFORD, 2d rate, 16 guns Captain J. H. Gillis. Sailed from Callao, Peru, Nov. 12, for San Francisco, Cal. She will go out of commission and undergo repairs, at the Mare Island Navy-yard. Address mail to care of Navy Pay Office, San Francisco, Cal.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Rio Oct. 24.

IROQUOIS, 3d rate, 7 guns, (f. s. p. s.), Comdr. J. Crittenden Watson. Was at Callao, Peru, Nov. 13.

MONONGAHELA, 2d rate, 9 guns, Lieut. Comdr. George B. Livingston in command. Used as a storeship at Coquimbo, Chili. Comdr. S. H. Baker was ordered to command, per steamer Sept. 11 from New York.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. At Apia, Samoan Island, Oct. 15. To leave for Easter Island about Oct. 21, and from there to Valparaiso about Jan. 1.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. Henry E. Nichols. At Sitka, Alaska, October 19, having left Juneau Oct. 13. Will winter at Sitka. Address care of Navy Pay Agent, San Francisco, Cal. Lieut. Comdr. J. S. Newell has been ordered to command.

VANDALIA, 2d rate, 8 guns, Captain Henry L. Howison. Sailed from New York, Aug. 14, for the Pacific Station. Arrived at Montevideo Oct. 19.

Asiatic Station—Rear-Admiral J. L. Davis.

Rear Admiral Ralph Chandler has been ordered to command this station, and was to leave San Francisco per steamer of Oct. 30.

Vessel with (†), address, Mail. General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. At Aden, Arabia, Oct. 15.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Arrived at Aden Nov. 11.

MARION,† 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Nagasaki Oct. 25. About to sail for Yokohama, Japan.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. Was to have left for Macao Oct 5, to return to Hong Kong.

OMAHA,† 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. Reported by cable to the JOURNAL to have arrived at Nagasaki, Japan, Nov. 1, 1886.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. Has been ordered to return to New York by the middle of February, 1887. Arrived at Columbo, Ceylon, Nov. 13.

PALOS,† 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. At Canton, China, Oct. 25.

Apprentice Training Squadron.
Commnder Chas. H. Davis.

Address of *Portsmouth* and *Saratoga*, Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Arrived at Annapolis, Md., Nov. 23.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, flagship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Chas. V. Gridley. Sailed from New York for Norfolk, Va., Nov. 6. Arrived at Norfolk Nov. 11.

SARATOGA, 3d rate, 12 guns, Comdr. Edwin White. Arrived at Norfolk, Va., Nov. 11,

On Special Service.

DESPATCH, 4th rate, Lieut. Wm Jr. At New York Navy-yard. Searching for a wreck off the coast.

DOLPHIN, despatch boat, 7 guns. Lieut. Chas. O. Allibone. At Norfolk, Va.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. Sailed from San Francisco, Oct. 30, for the Central American coast to resume her survey work.

ST. MARY'S, sails, 8 guns, Comdr. Edwin M. Shepard. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. Sailed from New York Navy-yard, Nov. 19, on a trial trip up Long Island Sound, and returned Nov. 25.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 20 guns, Capt. Henry Wilson. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails. 6 guns. Commander Frederick Rodgers. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

FORTUNE, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

ST. LOUIS, 3d rate, sails. Commander H. B. Seely. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

VERMONT, 2d rate, 7 guns. Captain Augustus P. Cooke. Receiving ship. At New York.

DALE, 8 guns. Commander Silas Casey. Receiving Ship. At Washington, D. C.

PHLOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate Kuhl, commanding. At Norfolk.

The iron-clads *Ajax. Catskill. Lehigh, Mahopac, Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

VARIOUS NAVAL ITEMS.

ADMIRAL E. W. MCCAULEY reports from Callao, Peru, Nov. 6, that he would transfer his flag to the *Iroquois*, Nov. 9th.

The U. S. S. *Despatch* arrived at the Navy Yard, New York, Nov. 24, having failed to find a reported wreck which she went in search of.

COMMANDER C. V. GRIDLEY will be relieved from the command of the Training Squadron by Commander Edwin White. Commander Chas. H. Davis will then be senior officer.

THE members of the Navy Mutual Aid Association have cause of congratulation over the continued prosperity of their venture in life insurance, for from the latest exhibit it appears that considerably more than half of the availables, holding commissions in the Navy, are members. To be exact, the number is 779, paying a benefit of $3,661.20.

A BOARD of naval officers, consisting of Commander R. D. Evans, President, Civil Engineer A. G. Menocal and Lieut. J. N. Hemphill, has been appointed to examine the buildings and ships at the Washington Navy-yard, and to report upon what improvements, changes and new buildings are necessary for the purposes of the Ordnance Foundry.

THE U. S. training ship *Jamestown* arrived at Annapolis Nov. 23d, anchoring off the Naval Academy. The *Jamestown* is taking a cruise preliminary to an extended voyage to the West Indies, having been assigned to that station along with the *Portsmouth* and *Saratoga*. The vessels will meet at Hampton Roads and start together. The *Jamestown* will remain at Annapolis about a week.

SECOND CONTROLLER MAYNARD has made a decision that Lieut. William H. Schuetze, U. S. Navy, is entitled to the highest rate of sea pay attached to his grade for the period he was engaged in the search for Lieut. Chipp and party on the Lena Delta, and also while engaged in transporting the remains of Lieut.-Commander De Long and his associates from Northern Siberia to the United States.

THROUGH the strict application of Secretary Whitney's G. O. No. 354, relative to the clean sweep to be made at the Washington yard, Commander Kellogg is left without a department. Equipment and Recruiting, having about completed the work of scheduling its property, is now not even a skeleton organization, the only gentlemen remaining being Chief Clerk Gray and, as already noted, Comdr. Kellog.

THE last regular meeting for the year of the Seawanhaka Corinthian Yacht Club was held at Delmonico's, New York, Nov. 29. In compliance with a request made by Rear Admiral S. B. Luce, commander of the North Atlantic Naval Station, yacht owners furnished statistics concerning the measurement and other details of their vessels and their adaptability for an auxiliary Naval force for the use of the United States Government.

THE U. S. S. *Iroquois* continues to be the first favorite on the South American station, and especially with the girls of Lima. By letters and papers lately received from that noble "City of the Kings," we learn that on the 23d of October an enjoyable afternoon tea with dancing was given on board, at which the most distinguished of Lima society were present, and from the accounts printed in the succeeding day's papers it must have been a most notable occasion. Among those on board were many of the intimate friends of the President of Peru, General Carras, and, taken altogether, there has seldom been a more felicitous interchange of courtesies between the representatives of the two republics than on the occasion of this *fiesta*.

NAVY GAZETTE.

Ordered.

Nov. 20.—Passed Assistant Paymaster James A. Ring, to the training ship Portsmouth.

Nov. 23.—Surgeon Henry Low, Past Assistant

Surgeon Geo. C. Lippincott, and Paymaster Wm. N. Watmough, to appear before the Retiring Board.

Assistant Engineer E. T. Warburton, to special duty under the Examining Board of Engineers at the League Island Navy Yard.

Detached.

Nov. 19.—Commander J. D. Graham, from the Washington Navy-yard, 20th inst., and placed on waiting orders.

Nov. 20.—Passed Assistant Paymaster John C. Sullivan, from the Portsmouth, and ordered to settle accounts and wait orders.

Nov. 23.—Lieutenant Geo. M. Stoney, from command of the Northern Alaska expedition, and ordered to special duty in the Bureau of Navigation.

Leave.

Leave of Commander James O'Kane extended until July 1, 1887.

Changes on Pacific Station.

Admiral McCauley reports from Callao, Peru, Oct. 31st, that—

Commander S. H. Baker was detached from the Hartford, Oct. 30th, and ordered to Coquimbo, to command the Monongahela.

Past Assistant Surgeon E. H. Marsteller from the Iroquois, Oct. 14, to the Hartford.

Assistant Surgeon F. W. F. Wieber from the Hartford, Oct. 14th, to the Iroquois.

Lieutenant J. R. Selfridge from the Hartford, Oct. 21st, to the Iroquois.

Lieutenant E. P. Wood from the Iroquois, Oct. 21, to the Hartford.

Lieutenant W. I. Moore from the Hartford, Oct. 21, to the Adams.

Lieutenant Commander J. E. Noel from the Adams, Oct. 23, to the United States.

Captain W. R. Brown, U. S. M. C., from the Hartford, and ordered home.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending November 25, 1886:

George Deeth, third class apprentice, died Nov. 16th, 1886, at training station, Newport, R. I.

John Ross, beneficiary, died Nov. 20th, at Naval Hospital, Philadelphia, Pa.

Robert Gourley, seaman, died Nov. 16th, at Naval Hospital, Chelsea, Mass.

FROM THE ASIATIC STATION.

REAR ADMIRAL JOHN LEE DAVIS reports to the Secretary of the Navy, under date of flagship *Marion*, Nagasaki, Japan, Oct. 25, that the *Marion* would probably leave that day for Yokohama, via Kobe.

The *Omaha* was probably at Chemulpo, having visited Chefoo, China, to give liberty to her crew.

The *Ossipee* left Hong Kong for Singapore, October 24.

The *Monocacy* left Hong Kong on Sept. 27th, and reached Macao the next day. She was to have left Macao October 5, to return to Hong Kong, stopping for 24 hours near Tintin Island for exercise and target practice.

The *Palos* was at Canton.

All was quiet within the limits of the station, and the health of officers and men was excellent.

SPECIAL ORDER.

NAVY DEPT., WASHINGTON, Nov. 18, 1886.

THE President of the United States announces the death of Ex-President Chester Alan Arthur, in the following proclamation: [This appeared in the JOURNAL of last week.]

It is hereby directed, in pursuance of the instructions of the President, that on the day of the funeral, where this order may be received in time, otherwise on the day after its receipt, the ensign at each naval station, and of each of the vessels of the U. S. Navy in commission, be hoisted at half-mast from sunrise to sunset, and that also, at each naval station and on board of flagships and vessels acting singly, a gun be fired at intervals of every half hour from sunrise to sunset. The officers of the Navy and Marine Corps will wear the usual badge of mourning attached to the sword hilt and on the left arm for a period of 30 days. WM. C. WHITNEY, Sec'y of the Navy.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

NOVEMBER 24, 1886.

THE order in regard to extra drills for the third and fourth classes has been revoked by Supt. Sampson, as far as the fourth class are concerned. The Superintendent took this measure, because the fourth class expressed their regret for the insubordinate conduct for which the punishment was given.

The matinee in the gymnasium on Saturday was largely attended. Among those present were Lieut. and Mrs. Miles, Lieut. and Mrs. Holcomb, Comdr. and Mrs. Schouler, Lieut. and Mrs. Gheen; Misses Sampson, Loomis, Schley, of Washington; Murray, Pinkney, Lockett, Iglehart, Beck, Magruder and Hepburn; Ensigns Gibbons, Morgan, Blish, Haeseler, Fullam, Ayres and Smith.

The Thanksgiving eve hop will be held in the gymnasium. Mrs. Lieut. Merrill will receive, assisted by Naval Cadet Francis Boughter, first class.

At the foot ball game last Saturday, between the St. John's College and the Academy, the former won by a score of 10 to 0. But few members of the regular team played, and the consequence of the defeat for the cadets can be attributed to their lack of rush line skill.

Miss Schley, daughter of Comdr. Schley, is visiting her cousin, Miss Franklin, in Annapolis.

Mrs. Zane, of Norfolk, Va., is visiting Mrs. Lieut. Miles.

The increase of diphtheria in Annapolis last week will doubtless postpone the cadets' liberty through Thanksgiving week.

The U. S. S. *Jamestown* arrived from Fort Monroe on Monday night and anchored off the Academy grounds.

Nearly all of the annual report of Commander W. T. Sampson, Superintendent of the United States Naval Academy, is devoted to an argument in support of a proposed change in the Academic course. He calls attention to the fact that the first four years of the courses were devoted chiefly to a good general education, the technical course beginning in the fourth year and continuing in a professional line through the fifth and sixth years, during which naval cadets serve on board cruising vessels. Under the act of August 5, 1882, says the Superintendent, the selection of cadets for the several naval corps cannot be made until the completion of the sixth year of the course. Under this system those cadets who are appointed assistant engineers upon their final graduation are diverted during the last three years of the course from the exclusive study of those subjects which pertain to the office and duty of the naval engineer, and they are, instead, compelled to devote a great part of their time to studies connected with another branch of the Naval Service, which they do not eventually join. Moreover, it may happen, and doubtless does occur, from the circumstances of vacancies and of the final selection by the Academic Board, that cadets who are appointed to one corps are better fitted by their tastes, capabilities and the direction and extent of their acquirements for the duties of another.

After expressing the opinion that the beginning of the fourth year is the period at which the cadets should be assigned to different branches of the Service, the Superintendent says the reason that led Congress to increase the course from four to six years no longer exists, since the number of appointments has since been restricted by law to the aggregate number of vacancies occurring in each year in the corps to which appointments are made. It is shown that the return of each class to the Academy for final examination costs the country $12,000 annually, without any advantage therefrom in the case of cadets honorably discharged after the cruise. He holds that the final examination is unnecessary, as it is similar in character to that which ensigns must pass before promotion.

The Superintendent says: "From these considerations it seems advisable that the two years' course at sea of Naval cadets should be abolished. The country obtains at the end of the four years' course all the advantages which now accrue from that of six years."

THE BIDS FOR NAVAL VESSELS.

THE bids for the construction of the three new cruisers and two gunboats were opened in the office of the Secretary of the Navy at noon on Wednesday, in the presence of representatives of nearly all the ship-building firms of the country, Navy officers and other officers of the Navy Department.

Secretary WHITNEY presided, and associated with him were Judge Advocate General REAMEY, Commander WALKER and Commander SCHLEY, Naval Constructor FERNALD, and Chief Clerk HOGG. Mr. HOGG opened the bids and handed them over to the Secretary, who announced the name of each bidder and the amount of his bid, to the persons present. The clerks of the office jotted them down on a schedule, conveniently marked out, as they were read by Mr. WHITNEY.

The bidding was as follows:

CRUISER NO. 1 (4,000 TONS).

Harlan and Hollingsworth, of Wilmington, $1,224,900.
Union Iron Works of San Francisco, $1,132,000.
Cramp and Sons, of Philadelphia, $1,198,000.

CRUISER NO. 2 (3,700 TONS).

Harlan and Hollingsworth, $1,140,000.
Cramp and Sons, $1,050,000 and $1,065,000, with contractors' design for machinery.
Union Iron Works, $1,017,500.

CRUISER NO. 3 (4,400 TONS).

Harlan and Hollingsworth, $1,452,000.
Union Iron Works, $1,348,000.
Cramp and Sons, $1,325,000.

GUNBOAT NO. 1 (1,700 TONS).

Cramp and Sons, $455,000.
Charles Reeder and Sons, of Baltimore, $495,500; machinery alone, $185,000.
Columbia Iron Works, of Baltimore, $499,720.

GUNBOAT NO. 2 (870 TONS).

Columbia Iron Works, $247,000.
Machinery—Charles Reeder and Sons, $95,000, and H. A. Ramsay and Son, of Baltimore, $89,000.

When the bids had all been recorded, Secretary WHITNEY said:

I am well satisfied with the results of the bidding, except with reference to cruiser No. 1, the plans of which have been made by the department. No bid has been received within the limit fixed by Congress for the outside cost of the boat. The only solicitude I have ever had with reference to the bidding arose from the fact that the conditions which were imposed upon the bidders in the way of producing the horse-power upon which the speed of the ships depend is much more exacting than ever has been called for before. It is about twice per ton of displacement what the contractors were called upon to produce in the Roach ships. It makes a vast difference in the expense of the machinery, and does impose very grave responsibility on the contractor. It is much beyond anything that has ever been sought for or attained in this country in Naval vessels. I feared that the limits fixed by Congress for the cost of the ships would be exceeded on the three large cruisers and the number one gunboat. That opinion was shared by the officers of the department. We shall be able to let all but the four thousand ton ship to responsible parties within the limits fixed by Congress. The interest taken in the matter is very gratifying to me.

I do not think we have got any bid this time that is based on the expectation of giving us a shabby job. I have so arranged, I think, that any party who expects to deal honestly and fairly, will get along all right, but those who do not will not. I have been looking over for some days the data available as to the cost of such vessels in England, and I find to my astonishment that there is not over from fifteen to twenty per cent. difference between these prices and those in England, which, considering the difference in wages and the novelty of the work here, is quite a small difference. Suppose we accept the bid of the Union Iron Works for cruiser No. 2. It is $1,017,500. Take fifteen per cent. off and you have $864,000. Consider that the foreign price for the ship, and compare with what you know as to the price of ships built abroad. The *Giovanni Bausan*, built at Elswick for the Italian Government, cost $715,000, and was a vessel of three thousand and sixty-eight tons displacement.

Cruiser No. 2 has 3,700 tons displacement, and at the same rate should have cost about $875,000. So that 15 per cent. off the price at which the Union Iron Works take cruiser No. 2 would get us to the foreign price for a similar ship. The two ships are quite alike in all their characteristics. Take cruiser No. 3, Cramp and Sons will take her at $1,340,000. Deduct fifteen per cent. from this price and you have $1,139,000 as the foreign price for a similar ship. Compare it with the price of the *Reina Regente*, building by Thompson, on the Clyde, for the Spanish Government. She is to cost $1,172,475 and is 4,800 tons displacement, while cruiser No. 3 is 4,400. They approximate very close to a difference of 14 per cent. The *Alger*, of 4,123 tons displacement, built by the French Government in their dockyard, where labor is extremely low, cost them, $900,000. I take these only where the requirements as to speed and general characteristics are quite similar to those we are letting. Many other illustrations might be given. Of course the moment you let down the requirements to those of a cheap ship you get a cheaper price, but we have, for the first time, asked for the best.

The limit fixed by Congress for cruiser No. 1, the *Newark*, was not to exceed $1,100,000, and as all of the bids went beyond that figure, it remains for the Secretary to go to Congress and request to have the limit extended or to call for new bids. He may decide to have the vessel built at one of the Government Navy-yards.

The same limit was fixed for cruiser No. 2, the *Charleston*. Two of the bidders went below that amount, and as the Union Iron Works of California are the lowest bidders, the contract for this vessel will go to them.

For cruiser No. 3, the *Baltimore*, $1,500,000 was the limit, and therefore, as Cramp and Son are the lowest bidders, the contract will go to them. Cramp and Son are the lowest bidders for gunboat No. 1, and as the Columbian Iron Works and Dry Dock Company were the bidders for gunboat No. 2, Baltimore will probably get the contract for the last named vessel.

CROSSING FROZEN GREENLAND.

Of the journey in Greenland of Civil Engineer Robt. E. Peary, U. S. N., a despatch from Halifax says: From the time Lieutenant Peary landed in Greenland the sun never descended below the horizon. The day he landed he put on colored glasses and did not remove them until he left Greenland behind, as the continuous glare of the bright sun on the unbroken field of snow would have injured, perhaps destroyed his sight. On the journey not a sign of vegetation was discovered, and no bird or beast of any kind was seen. The weather was found not to be so cold as expected, the lowest point reached being 8½ degrees below freezing. When rest was required the men scooped holes in the snow, rolled themselves in their sleeping bags and slept with comfort for hours at a time. Lieutenant Peary afterward went on several other short trips alone, and on September 6 left Greenland for Newfoundland, whence he proceeded to Halifax. From the information he has gathered he thinks an expedition will be sent out next year to cross Greenland and complete the work he had to leave unfinished. His object this year was not to make the entire journey (otherwise he would not have gone alone), but to establish his theory that Greenland can be crossed, of which he is now convinced. Lieutenant Peary believes the glory of discovering the North Pole will fall to the lot of the American Republic.

ANSWERS TO CORRESPONDENTS.

Pulvis.—You stand No. 8 on Hospital Steward list.

K. W. C. H.—You stand No. 7 on Hospital Steward list.

H. O. W.—You stand No. 48 on Commissary Sergeant list.

Reader and S.W. M.—Information as to standing on Ordnance Sergeant list cannot be obtained.

"Constant Reader" and "Inquirer" are informed that no attention is paid to anonymous communications.

B. F. D. asks: Is there any authority for sales of forage by Q. M. D. to Hospitals, companies, and like organizations for use of cows, hogs, and other company animals? ANS.—Not that we are aware of.

Y. Z.—1. You stand 55 on Commissary Sergeant list.

2. Appointments are made according to length of non-commissioned service.

A. J. W.—The Act of Congress of July 5, 1884, authorizes the Secretary of War to detail "such number of officers of the line as he may deem necessary to serve as Acting Judge Advocates of military departments *who shall have, while on such duty, the rank, pay, and allowances of Captains of Cavalry.* See G. O. 72, A. G. O., July 17, 1884.

Old Subscriber.—Our answer to your 3d question in JOURNAL of November 13, "Can an officer entitled to forage purchase any of Q. M. D., in excess of allowance?" should have read: "No See decision circular of December 31, 1885, which announces that 'the sale of forage to mounted officers in excess of regulations is disapproved."

G. A. K.—Of course the Army and Navy officers present at the funeral officially, were in full uniform, and it is not unlikely others not under orders were. The law also permits ex officers, on occasions of ceremony, to wear the uniform of the highest brevet rank held by them while in service. There is no etiquette that would prevent officers, not under orders, from attending the funeral in uniform, and it would be entirely proper that they should do so.

Michigan.—We can furnish you Pbisterer's books on guard and kindred duties, on ceremonies, and also instructions for non-commissioned officers. They are just about what you want. There is only a small supply on hand, and as they will not be reprinted you should send in your order early.

Is there some kind of figures and a stand to be used to show the positions in the formations of men drilling at military schools, etc? ANS.—There was such an apparatus devised some years ago by General W. H. Brownell. It is for sale by J. H. McKenney and Co., 141 Grand St., New York City.

Military Order of the Loyal Legion.

A meeting of the New York Commandery will be held at Delmonico's on Wednesday, December 1, at which the following will be balloted for: Captain J. H. Stiner, U. S. V.; Captain W. V. McCrackin, U. S. V.; Park Benjamin, late Ensign U. S. N.; T. E. Smith, late Assistant Paymaster U. S. N.; Capt. C. C. Moore, U. S. V.; Capt. F. S. Benson, U. S. V.; Capt. J. A. McMicken, U. S. V.; Capt. H. L. Beach, U. S. V.; Major G. A. Beardsley, U. S. V.; Major W. Wagner, U. S. V.; Major-General John Newton, U. S. A.; Lieut. S. H. Paulding, U. S. V.; Major E. L. Jov, U. S. V.; Lieut. G. R. Herbert, U. S. V., and Mr. J. V. B. Clarkson. At this meeting Assistant Surgeon T. Munson Coan, late U. S. N., will read "Some Recollections of the Mobile Bay Fight."

How Soldiers are Pensioned in the United States: "So you say you were five years old at the close of the war?" "I beg your pardon, five years and a half, and I trembled so for the fate of our country that I have kept on trembling ever since. "Good soldier you are entitled to a pension of $12,000. — *Berlin Kladderadatsch.*

CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.
We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, - $21.00
Old Reserve Whiskey, - - - - 18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.
For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.
These Whiskies are sold under guaranty to give PERFECT SATISFACTION: otherwise to be returned at our expense. Correspondence solicited.

ROLL CALL---CRIMEA 1855-6.
A fine india print of this noted picture for sale. Original plates destroyed. Size of engraving 20x40 inches. Address P. O. Box 910, Hartford, Conn.

A FIRST LIEUTENANT of White Cavalry, date of '83, desires correspondence relative to transfer with Officer of Artillery. Address TROOPER, this office.

PROPOSALS FOR SUPPLIES FOR THE NATIONAL Home for Disabled Volunteer Soldiers.

THE NATIONAL HOME FOR D. V. S.
HARTFORD, CONN., Nov. 23, 1886.

Proposals will be received at this office until noon on TUESDAY, December 7th, 1886, for supplying 3,000 old pattern Army overcoats at the CENTRAL BRANCH, N. H. D. V. S., Montgomery Co., Ohio.
A sample of the coats must accompany each bid, and none will be received which are affected by dampness or moths or are in any way imperfect.
The sizes and numbers required are as follows: 500 No. 2, 1,000 No. 3, 1,000 No. 4, and 500 No. 5. Proposals must be addressed to the undersigned.

W. B. FRANKLIN,
President Board of Managers, N. H. D. V. S.

U. S. ARMY AND NAVY JOURNAL.

PUBLISHED EVERY SATURDAY.

NEW YORK, SATURDAY, NOVEMBER 27, 1886.

Office, No. 240 Broadway New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.
Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.
Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.
Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.
The date when the subscription expires is on the Address-Label of each paper, the change of which to a subsequent date becomes a receipt for remittance. No other receipt is sent unless requested.
Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.
We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

W. C. and F. P. CHURCH, Publishers,
Cable address: 240 Broadway, New York.
ARMYNAVY.

THE VOLCANO UNDER THE CITY.

MESSRS. FORD, HOWARD AND HULBERT publish a volume entitled, "The Volcano under the City," which might properly have been included in the Scribner's series of war histories. This anonymous work not only supplies an unwritten chapter in our past history but furnishes a warning and example for present instruction. As the author shows, the draft riot of 1863 was simply the outbreak on a favoring occasion of influences which are now and always at work in a great city to produce an outbreak. People at that time residing in New York, including even the men who aided in suppressing the mob, had but an imperfect conception of the magnitude and bloody results of the tumult. The police authorities estimated the loss of the mob at from twelve to fifteen hundred and a despatch to the War Department at the time from an official in the detective service, reported the number at fourteen hundred and sixty-two. Of the number of broken heads and bruised and wounded limbs there is no estimate. There was a suspicious increase in the death rate for the months following, two hundred and seventeen deaths from sunstroke being reported during riot week and the succeeding week. There is no estimate of the number killed and wounded among the police and the military. About two millions of dollars was paid by the city for riot damages, and no account was made of the heavier losses suffered by the interference with the industrial activities of the city. Business was suspended; the ships at the wharves ceased loading and unloading; the street cars suspended their trips; the telegraph lines were torn down; innumerable houses and stores were plundered, and twenty-four fires were kindled by the mob in a single day. Every villain and vagabond in the city or its vicinity was abroad, watching his opportunity for plunder or joining in the riotous demonstrations. The whooping, yelling, blaspheming crowd showed evidence of organization and leadership. The red flag floated aloft, and in various tongues arose the cry: "Down with the rich men." "Down with property." "Down with the police."

That cry has been heard more recently in Chicago and Milwaukee, and may be heard again at any time in New York. The conditions which make such outbreak possible exist here now as they did in 1863, intensified by the growth of the population to nearly double its size as that time, and the consequent increase in the elements of discontent and disorder. The crust over the volcano broke through "at the want of preparation point," as it may break through again. It is true that special circumstances favored an outbreak at that time, but these, though they might well have been foreseen and provided against, were hidden from the forecast of the authorities. Within three days of the riot a leading daily satisfied itself that the draft had been accepted "as a matter of course," and that no disturbance was to be feared. No requisition was made for a police guard to preserve order at the several enrolment offices at which the draft was to take place. No unusual military force was provided, a few crippled soldiers of the Invalid Corps being detailed for guard duty. Purely as a routine precaution, the Superintendent of Police, KENNEDY, a brave, sagacious and capable man, ordered a sergeant and twelve men to proceed to each of the enrolment offices on the Monday morning when the work of enrolment was to begin.

The men first awakened to the impending crisis, before it aroused the suspicions of those who were supposed to be professionally on the watch for its indications, were, we are told here, the military officers who, for various reasons, remained in the city. A meeting of officers and ex-officers, of which the editor of the JOURNAL was chosen Secretary, was held at the 7th Regiment armory, and measures were taken to enrol and organize volunteers. At an early hour on the day following General WOOL had a consultation with the city authorities, and all the United States troops that could be spared from the forts in the harbor were concentrated in the city under the command of General HARVEY BROWN. A naval brigade, numbering seven hundred, was also organized. These were chiefly employed on guard duty at exposed points, but almost the first lesson received by the mob as to the effect of muskets at short range was given to them by a company of marines en route from the navy-yard. Finding their march interfered with, the marines fired with ball-cartridges at once. A company of the Veteran Corps who tried blank cartridges first were overwhelmed by the mob, scattered, and some of them beaten to death. The military forces were gathered at so many places and under so many different and semi-independent commanders that no estimate of their numbers or availability can be made. There were three companies of Regulars, numbering about one hundred and fifty altogether. The navy-yard, which was threatened, was put under the protection of the 100 guns of the six vessels there, and the approach to Governor's Island was guarded by the ironclad *Passaic* and the gunboat *Fuschia*. A company of regular artillery, under Captain MOTT, after giving repeated warning to a mob which attacked them with uncommon ferocity, fired with grape, killing twenty-five persons and wounding a large number. Collisions on the third day of the mob were, as a rule, more bloody, from the more prompt and merciless use of firearms, which had been more sparingly used in the beginning. The work of the Metropolitan Police was beyond all praise, and of them General HARVEY BROWN enthusiastically declared: "I never saw such drill and discipline in all my life, and I was born in the Army." Wherever they could be gathered in sufficient force they overmastered the mob, and their clubs and revolvers were as effective as musketry. Police Commissioner ACTON, in response to the suggestion that he should issue muskets to them re-

plied that this would simply transform them from good police to poor militia. One of the most notable incidents of the struggle was the attack of the mob on the armory corner of Twenty-first street and Second avenue. The thirty-five police who had gathered for its protection, when they found that they could hold the building no longer escaped, through a "man-hole" in the rear. They were scarcely out when the doors were burst open and the mob surged in. They filled the building and so weakened the attacking force outside that the police, by a vigorous charge, succeeded in taking possession of the front entrance, the principal means of escape for those who were yet inside. A double line of Metropolitans was quickly formed as a sort of human lane leading to the doorway, and as the plunderers rushed out, their arms full of carbines and other prizes, they were pitilessly clubbed down. It was a terrible gauntlet to run, and the police were in no condition to take prisoners. No man who came out of that doorway took any further share in the great riot. Living or dead, he was out of the fight for good, and was left on the pavement for such care as his friends might afterwards be able to give him. The intoxicated plunderers yet inside of the building were unaware of the fate of their friends, and no word of warning had reached the drill room on the upper floor. Those imprisoned there were overwhelmed by the flames and not a man escaped Charred human bones, devoid of flesh or form of body, were subsequently carried off by the cart load, and one half roasted body was found by the workmen who rebuilt the factory.

As to the result of a similar outbreak, this author says: "There are about thirty thousand known convicts in the city of New York, and it is quite possible that the unknown are as numerous. A large part of all have had no military training whatever. Another large part have served in European military organizations. They are drilled soldiers, as familiar with the use of weapons and at least twice as numerous as are the members of the city regiments of the National Guard militia. An outbreak, once free to attract the depraved and the reckless, would grow and gather strength to-day precisely as in 1863, and in like manner be beaten and burn itself out, leaving more or less of wreck and ruin behind it. The question whether or not sedition could hold the city for any length of time, if asked at all, is answered by the map of Manhattan Island. No matter by what force it might be held, that force could be assailed, simultaneously, from the foot of every street along the entire water front, and from the Westchester mainland. GEORGE WASHINGTON knew he could not hold the island for a week after the British were ready to move against him, they having naval superiority."

The great buildings in the lower part of the city, such as the sub-treasury, custom-house, stock and other exchanges, and trust companies, are most of them now of stone, brick and iron, and practically forts impregnable to everything except artillery. They could be held by a small garrison occupying each one, unless, indeed, the mob should take possession of them by strategy in advance of their military occupation. The real protection of this district, therefore, as of the entire city, depends upon providing every such possible banditti with an abiding assurance that in case of their temporary success the artillery would be there within an hour. Before noon of the first day of the riots of 1863, a mountain howitzer, full to the lips with grape and canister, scowled down the stone steps of the custom-house, while a hundred suddenly-enlisted citizens occupied the front of the sub treasury, ready to go inside as a garrison if required. The greed of the mob for other plunder, the imperfection of their plans and organization, and the promptness with which protective measures were taken, saved the financial district.

The author of this work shows that in a country where every man has the opportunity to right his wrongs at the ballot box, there is no real occasion for revolution, and it must, therefore, be accepted as an axiom that a mob of violence in the United States is a mob of crime. It is composed of criminal units, in the act of committing felony, who must be dealt with accordingly. The promptest action is the best, and the safest course is to begin at the beginning. In this way only can we escape, under like circumstances, a repetition of the outrages which disgraced New York in those days of July, 1863, when dead and mutilated negroes were seen hanging from lamp posts all over the city. In one instance cited, the mob after beating a negro to death hanged him to a tree, slicing his skin with knives while they did so, torturing him to death with the ingenuity of so many Indian devils. When cut down it was found that hardly a square inch of his skin was ungashed, and all of his fingers and toes were sliced off. Colonel O'BRIEN, of the 11th New York Volunteers, was beaten to death on his own door step. Where the police and the soldiers held together and gave no sign of wavering or hesitation they were the victors. In the narrow streets of a city there are no odds too great to be overcome by a body of men sufficient to present a compact front, and kept thoroughly in hand to the end. Inspector CARPENTER, with 200 men as he wheeled into Broadway from Bleecker street, encountered the mob surging down Broadway to sack Wall street. Without parley or hesitation the Inspector shouted, "By the right flank! Company front! Double quick! Charge!" Then were seen the admirable results of discipline and drill. Steadily and promptly the line of police, as they came into Broadway swept out to "company front," filling the roadway from curb to curb. In perfect order, but with swift and sturdy steps, their heavy locust service clubs in hand, the Metropolitans went forward, the Inspector well in advance of the front line. The ground was soon strewn with dead or disabled ruffians, and the mob was speedily broken and scattered.

A body of fifty men of the Invalid Corps, on the contrary, taken unawares, hesitated at the critical moment. Their feeble lines were broken into, their weapons wrested from them, and many of the crippled soldiers seriously beaten before they could escape. Two of them were caught and pounded to death; a third was chased to the river, hurled over a ledge of rocks there, and his battered body covered with stones, and boulders showered upon him from above.

WE give elsewhere an account of the opening of the bids for the new cruisers at the Navy Department on Wednesday. As compared with the limit of cost fixed by Congress they were as follows:

	No. 1. Newark.	No. 2. Charleston.	No. 3. Baltimore.
Limit of cost fixed by law...	$1,100,000	$1,100,000	$1,500,000
Limit of cost, less premiums offered.....	1,050,000	1,050,000	1,325,000
Cramp and Sons....	1,198.000	1.050,000	1,325,000
Union Iron Works.....	1,132,000	1,017,500	1,348,000
Harlan and Hollingsworth.	1,224,000	1,100,000	1,452,000

This is an aggregate, taking the lowest bids in each case, of $3,507,000. The total of the limit allowed by law for the three vessels was $3,700,000. The bids for the four vessels built by JOHN ROACH AND SONS were as follows:

	Chicago.	Atlanta.	Boston.	D. B.
Harlan & Hollingsworth.	$1,120.000	$775,000	$777,000	
Cramp and Sons...	1,080,000	650.000	650.000	$375.000
John Roach and Sons.....	889,000	617.000	619,000	315,000
Delamater and Co.....	1,163,000			
Quintard Iron Works.....		763,400		
Harrison Loring....			748,000	380,000
Allen and Blaisdell.....				420,000
H. A. Ramsay and Co.....	1,248,000	783,500*		399,000

* Estimate.

The total of ROACH'S bid was $2,440,000. The limit of cost fixed by law for the four vessels was $3,213,000. ROACH'S bid was at the rate of $203 a ton; the lowest bids for the new vessels average $290 a ton. The difference in the character of the two sets of vessels, and the conditions of the contracts, make an exact comparison of relative cost difficult.

LIEUTENANT E. ST. J. GREBLE, A. D. C. to Major General Howard, in a recent report on the defences of the Pacific Coast, says: "Given all the men our best generals could employ, all the money in the treasury, and the best talent in the country working night and day for its defence, it would take three years to put the harbor of San Francisco in a condition to successfully encounter the attacks of foreign nations. This state of affairs at least merits contemplation." We should say it did.

SHOULD the recommendation of Naval Constructor Wilson be carried out with regard to the old *Independence*, one more of the old-timers will have terminated her official existence. The *Independence*, now in the dry dock at Mare Island, is the second of the name, the first having been a sloop of war of ten guns, purchased in 1775 in Rhode Island, and supposed to have been destroyed in the Delaware river in 1777, to prevent it falling into the hands of the British, while the second *Independence* was a 54-gun razee, carrying 550 men, and was built in Boston in 1814 at a cost of $421,810. The principal dimensions of the *Independence* are as follows: Length on keel 174 ft.; length over all, 208 ft.; extreme beam, 57.ft.; draft, 19½ ft.; displacement, 2,200 tons. She was the first vessel docked on the sectional dock at the Mare Island yard nearly thirty-two years ago to test it, and was the first in the stone dry dock, an account of whose opening appears elsewhere.

THE Cyclorama, illustrating the battle of Gettysburg, is still on exhibition in the iron rotunda, at City Hall Square, Brooklyn, N. Y. It is a grand dramatic spectacle and will continue on exhibition for a limited time only. The cyclorama represents the battle as it appeared on the afternoon of the third day, and illustrates the desperate effort of the Confederates, under General Pickett, to gain "Round Top." At intervals during the day and evening lecturers describe the situation, plans, and incidents represented. The picture is a most life like and spirited representation of an episode in our history, interesting to every one, and especially to those who participated in this historical engagement.

LIEUTENANT-COLONEL R. N. SCOTT, in charge of the records of the War of the Rebellion, has reported to the Secretary of War that the act of August 7, 1882, which went into effect after the first five volumes of the records had been published, contemplated a completion of the sets, to be issued under that law, and for that purpose he submits an estimate for reprinting and binding 6,000 copies each of volumes 1 to 5. A recommendation is made for $600 additional compensation for the clerk of class 4 engaged in preparing the general index. The volume containing the Fitz-John Porter trial will be ready by the time Congress meets.

COLONEL CASEY, in his annual report on the construction of the State, War and Navy Department Building, states that the west and centre wings of the building will be completed and ready for occupancy by January 1, 1888. Colonel Casey reports that the brickwork of the building and annex of the new Army Medical Museum and Library is nearly completed, the topping out of parts of the main wall and laying of considerable portions of the fourth story and smaller portions of the others yet remaining to be done. The iron roof frame of the west wing is nearly complete, ready for painting and the reception of the terra cotta covering.

CAPTAIN J. W. DIXON, formerly of the 4th U. S. Artillery and an A. D. C. on the staff of Maj.-Gen. Hancock, now a resident of Flushing, Long Island, has prepared a handy pamphlet on "The Rank and File of the U. S. Army," (price 25 cents). Everything pertaining to the duties and daily life of the soldier has been carefully summarized by the author, and as a consequence the little volume is replete with useful information. Officers, non-commissioned officers and privates will do well to procure a copy.

GEO. WASHINGTON POST, No. 103 G. A. R., of this city, proposes to hold at Chickering Hall on the evening of Dec. 4 a memorial service in remembrance of its late senior vice commander, General Lloyd Aspinwall. The eulogy will be delivered by the Post Commander, General Martin T. McMahon. Officers and ex-officers of the Army, Navy and Volunteers are cordially invited by the Post to attend, and it is desired that they should appear in uniform. The service will begin at 8 P. M.

THE Second Comptroller allowed the Mexican War claim of Private Wm. H. Wright, Co. B, 1st Louisiana Volunteers, for $21, and of J. A. Whitall, brevet Captain 5th Infantry, for $120, during the past week.

LATE ARMY ORDERS.

The sick leave of Major C. C. RAWN, 24th Inf., is extended four months (S. O. Nov. 26, H. Q. A.)

Sick leave for four months is granted 1st Lieut. E. P. Andrus, 5th Cav. (S. O. Nov. 26, H. Q. A.)

The leave of Asst. Surg. W. J. Wakeman is extended three months (S. O. Nov. 26, H. Q. A.)

Asst. Surg. W. D. McCaw is granted two months leave (S. O. Nov. 26, H. Q. A.)

A G. C.-M. will meet at Fort Preble, Me., Dec. 1. Detail: Major William M. Graham, Capts. George G. Greenough and George E. Bushnell, Asst. Surg.; 1st Lieuts. Montgomery M. Macomb and John T. French, Jr., and 2d Lieut. Lucien G. Berry, 4th Art., and 1st Lieut. John A. Lundeen, 4th Art., J.-A.

THE flying of the flag of the White House at half mast in honor of ex-President Arthur is criticised on the ground that it should never be lowered to half mast except in the event of the death of the actual occupant of the Presidential Mansion. Otherwise it should fly full, high aloft, or else be lowered altogether.

RECENT DEATHS.

BREVET MAJOR FRANCK E. TAYLOR, 1st U. S. Artillery, the senior captain of his regiment, died suddenly at Vancouver Barracks, W. T., November 25, of rheumatism of the heart. He had recently been transferred from Light Battery E to Battery C, and was preparing to leave Vancouver to join the latter at the Presidio of San Francisco. He leaves a widow and five children. He was a brother of Captain D. M. Taylor, of the Ordnance Corps, on special duty at the War Department. The deceased officer has a distinguished record, was emphatically a duty officer, and was a general favorite in his regiment and throughout the service. He was appointed a 2d Lieutenant of the 1st U. S. Artillery, August 5, 1861, when but a boy, and promoted to 1st Lieutenant the same day, and attained his captaincy February 1, 1866. During the war he was in many engagements, and made an honorable record. For his gallantry at the siege of Port Hudson, La., he received the brevet of Captain, and for his services at the battle of Winchester, Va, when in command of horse batteries K and L, 1st U. S. Artillery, he received the brevet of Major. He was born in the District of Columbia, where his father was the well-known bookseller, and there his relatives reside. The remains will be carried there for interment.

MRS. MARIA ELIZABETH BRANDT, who died in New Orleans Nov. 16, in the 90th year of her age, was the daughter of Col. Bartholomew Schaumburg, who left the U. S. Army in 1817 and died in 1835. Colonel Bartholomew Schaumburg, was an officer in the Revolutionary war, and Mrs. Brandt was born in Cincinnati, O., on April 6, 1798, her father being at the time aide-de-camp to Gen. Wilkinson. She married Mr. James Brandt, a New Orleans merchant, who died many years ago. Her only son was killed in the ill-fated Lopez expedition.

EX-GOVERNOR JOHN S. PHELPS, of Missouri, who died last week at St. Louis, served eight terms in Congress, and resigned in 1862 to accept the appointment of Brigadier-General of Volunteers. He was elected Governor of Missouri in 1876, and served in that capacity for four years. He also served as Military Governor of Arkansas, to which position he was appointed in 1862 by President Lincoln.

LAURA DELAFIELD, daughter of the late Gen. Richard Delafield, U. S. A., died at Washington Nov. 20. The remains were taken to New York City and the funeral services took place from Trinity Church on Wednesday morning. There was a large attendance of relatives and friends of the family.

MR. JOHN DONALDSON, a brother of Rear Admiral Edward Donaldson, U. S. N., died at Baltimore, Md., Nov. 14, in the 69th year of his age.

THE MARE ISLAND DOCK.

COMMODORE BELKNAP has sent to the Bureau of Yards and Docks, a report of Civil Engineer C. C. Wolcott, U. S. N., on the opening of the new drydock at Mare Island. A steam plow had to be used to open a channel wide enough to admit the *Independence*. This was attached to the engine of the pile driver on one side, and to that on the dock coping on the other side, and see-sawed back and forth across a narrow ridge of clay puddle, cutting a channel 82 feet wide and 21 feet deep in four days and two nights. Just as the channel was completed as far as necessary for the docking of the ship, the contractor returned with his dredger, having this time a heavy iron scoop with which to do the work. He commenced on either side of this channel, which we had cut, and found no difficulty in removing the material.

Saturday, Oct. 30, the day fixed for the opening, was rainy, with high water (slack) at 3.30 P. M. The gates of the caisson were opened at 11.48, and the dock was filled at 1.20 P. M. The steam pump on the caisson was started at 1 30 and at 1.45 the caisson began to rise slowly and, without a single hitch, as the water was removed, until it was entirely free from the shoulder. The steam hose was then disconnected and the caisson swung out in front of the return wall, on the north side of the dock entrance.

The *Independence* was hauled in without trouble and as her bow crossed the invert the little daughter of Mr. Wolcott cut the silk ribbons stretched across the line at this point. The caisson was sunk in place and at 4.15 everything was in readiness to start the pumps but owing to the sharp rain storm and the lateness of the hour the pumping of the dock was delayed until Monday morning, when the first pump was started at 7.20 A. M., with 31 feet of water in the dock, and the work of pumping the dock completed at 2.30 P. M. With both pumps working the water was lowered four feet in two hours, giving a discharge of 1,865,003 gallons, or 155,417 gallons per minute. The pumps were run separately for most of the time and frequent stoppages were made to permit the introduction of shores against the ship's sides. Mr. Wolcott says:

"There was no hitch in the whole proceeding. Nothing could have been more satisfactory in each and every particular. There was quite a large deposit of mud in the dock despite the care exercised in flooding, but this could not be avoided. The dock has been tested and has fulfilled its allotted part, despite its incomplete state. The caisson fits admirably on either side, and works most readily. The small pump for freeing the ballast water quickly exhausted it and the rise of the caisson was one of slow but uniform progression and on an even keel. The *Independence* was the vessel which was first docked on the sectional dock at this Yard nearly 32 years ago to test it, and now is the first in the stone drydock. The Government has now ready for continuous use the most modern and completely equipped dock in the world so far as the plant is concerned. A series of views are sent herewith numbered in sequence. It will be noted that even so large a ship as the *Independence* does not occupy but a small portion of this great dock. The displacement of this vessel, it is reported, is 2,200 tons. This weight is borne on 44 blocks, giving 50 tons to each block, and thence to the dock floor over an area of 15x5—6.25, or 8 tons per square foot."

THE TORPEDO SCHOOL.

THE course of lectures at the Naval War College at Coasters' Harbor Island, Newport, R. I., closed Nov. 20. During its session, the college was opened this year on Sept. 6; over 100 lectures have been delivered, which have not only been interesting but also of the greatest benefit to those who had the opportunity to attend. The course was opened by Rear-Admiral Luce, U. S. N., with an interesting account of the college and its mission, to which we referred at the time. The following summary of lectures will give an idea of the character of the instruction:

Capt. A. T. Mahan, U. S. N., 18 lectures on "Naval History and Naval Battles."

Lieut. T. H. Bliss, U. S. A., 20 lectures on "The Science and Art of War."

Lieut. John F. Meigs, U. S. N., 16 lectures on "Exterior Naval Ballistics, Target Firing, etc."

Prof. J. R. Soley, U. S. N., 14 lectures on "International Law."

Comdr. W. Bainbridge-Hoff, U. S. N., six lectures on "Naval Fighting Tactics."

Rear-Admiral S. B. Luce, U. S. N., four lectures on "Naval Warfare and History."

Mr. John C. Ropes of Boston, Mass., one lecture on the "Battle of Gettysburg."

Gen. J. C. Palfrey, one lecture on "McClellan's Peninsula Campaign."

Asst. Naval Constructor Richard Gatewood, U. S. N., one lecture on "Deterioration on Iron and Steel Ships."

Medical Director Richard C. Dean, U. S. N., three lectures on "Naval Hygiene."

Lieut. C. C. Cornwell, U. S. N., three lectures on "The Management of the Compass on Board Iron Ships."

Capt. Bixby, U. S. A., four lectures on "Sea Coast Defences."

Comdr. C. F. Goodrich, U. S. N., four lectures on "Sea Coast Defences."

Lieut. Wm. McCarty Little, U. S. N., one lecture on "Colomb's War Game."

Lieut. C. C. Rogers, U. S. N., one lecture on "Naval Staff Duties."

Medical Director Dean's lectures were merely introductory to a full course of Naval Hygiene. The three lectures were chiefly confined to a discussion of the "Nature of alcoholic drinks and their effects upon the human system in connection with physiology and hygiene." Not only through its lectures but also through its practicable exercises at the War College the officers of the Navy have derived great benefits. The two steam launches of the *Tennessee* were used to illustrate certain principles of ramming tactics, with reference to avoid collisions at sea. These principles are now well recognized, and depend upon difference of speed and handiness in two contending vessels.

The practical exercises in gunnery consisted in experimentally ranging a gun by firing it at different elevations, getting the range curve and marking the sight bar; also some practice in curved fire and the shots clearing their heads by about forty feet, in order to enable them to judge whether men would be made unsteady by passing shots so close to them. The *Tennessee* went to sea with the class on board and with her helm constantly over one way or the other, fired at a target at distances from 800 to 1,500 yards, the points of fall of all projectiles being plotted by two observers anchored at known distances from the target in boats. The target diagram thus made was worked up and compared with other diagrams similarly obtained.

In the matter of the correction of the compasses of steel ships the officers had an opportunity of witnessing the whole process on the U. S. S. *Atlanta*. It had been hoped to have an iron or steel vessel at Newport for a considerable period of time in order to go into this very interesting and important subject very fully and deliberately, but upon the arrival of the *Atlanta* the opportunity was promptly seized and the officers went on board at once. Notwithstanding the poor quality of the launches for all purposes of torpedo warfare an attack against the *Tennessee* was organized and carried out.

There were five steam launches in the attacking party, those being commanded by officers at the War College, and the *Tennessee* was defended by a very complete system of booms and hawsers, as well as by machine and rapid fire guns. The attack and defence were mutually ignorant of each other's arrangements, and the whole matter was governed by certain rules drawn up in advance by the Judges, who were officers of the torpedo station and other disinterested persons. The attack was adjudged to have failed totally to place a torpedo under the *Tennessee*, or even to have broken through her passive defence.

In conclusion, it may be said that the success which has attended the term just concluded has been most gratifying, and has far exceeded the expectations, not only of those interested in the college, but of all true friends of progress in the Navy.

BRAVE SAILOR LADS.

THE *Herald* reports that on Nov. 21 a man, who was fishing on the dock foot of E. 31st st., New York, where the schoolship *St. Mary's* is berthed for the winter, was seized with a fit and fell into the river, carrying with him a small boy, whom he convulsively grasped. The boy swam to a piece of timber and clung to it. The man was drowning directly in view of a lot of lazy fishermen, who made no effort to rescue him, satisfying themselves with a great amount of shouting and howling. This noisy display was heard upon the *St. Mary's*, and in a moment young Craven, a pupil, was on deck and on the dock. He boldly plunged overboard, reaching the drowning man and supported his head until assistance was rendered by another boy, who was Betram Fay, son of Gaston Fay, the artist. Together they managed to keep the man above water until one of the ship's boats got him ashore. Then he was brought to sensibility again. The first boy was a grandson of the gallant Captain Tunis A. Craven, who went down in the monitor *Tecumseh* in the battle of Mobile Bay. The grandson is a chip of the old block, and showed that he is a worthy descendant of the man who sacrificed his life on the ill-fated monitor.

Comdr. Shepherd has called the attention of the Humane Society to the incident, and the boys will doubtless receive an acknowledgment of their gallantry. In October last a drowning man was saved while floating past the ship in one of the worst nights of the season by a Japanese boy named Okabu and C. J. Larsen, a seaman. This affair was noticed at the time. The lads of the *St. Mary's* are evidently a spirited, courageous lot, and they bid fair to reflect honor upon the school in which they are being educated.

A COREAN DUEL.

LIEUT. W. H. BEEHLER, U. S. N., gave the following interesting account of a novel duel between two Coreans, which he witnessed during his last cruise, to a reporter the other day: "One of the belligerents had a big double-edged sword, and the other had a gun, a muzzle-loader. The gun had about an inch bore, while the ball was not larger than a pea. It was necessary to keep the muzzle of the gun elevated, for if it ever had been turned downwards the ball would have rolled out without any firing. The duel took place on the brow of a hill, the two adversaries starting on a level. Usually in such a case, the struggle would be for the high ground, but in that case it was for the low ground. If the gunner had to lower the muzzle of his gun to fire at his adversary the little ball would be out before he could fire and then he would be at the mercy of the swordsman. The struggle was very exciting and continued long. But a time came when the gunner thought he had the advantage he needed, but before he could fix and fire his antagonist managed to pull down the muzzle and empty out the pea. Then the gunner blazed away, but it was no use. It was only fireworks before death, for, according to the Corean code of honor, what had occurred made it necessary for him to bow his head and have it cut off by the two-edged sword, a beautiful Oriental rite which was promptly performed."

COMPOUND AND ALL-STEEL ARMOR.

To the Editor of the Army and Navy Journal:

In the N. Y. *Tribune* of to-day there is a telegram from Washington saying that: "Compound armor has been discarded by all first-class naval powers." This statement is absolutely at variance with the truth, for compound steel-faced armor is to-day the form of armor in use and adopted by the admiralties of Great Britain, Germany, Austro-Hungary, Russia, Holland, Brazil, the Argentine Republic and China. France, the only country in the world where all steel armor is produced at this date, has armored three-fourths of her mailed ships of war with compound steel-faced armor, and very lately has withdrawn an order placed with the makers of all steel armor and given it to the makers of compound plates. The most recent competitive trial between compound and all-steel armor was at Pola, in Austro-Hungary, and resulted in a complete victory for the compound system, the all-steel plate having been completely destroyed. This trial decided the Austro-Hungarian government to place the order for the armor of their two new belted cruisers now building at Trieste, with the makers of compound. The largest single order ever given for armor, some 5,000 tons, was placed last summer by the English government for compound steel-faced armor, and not a single one of all the great war ships of England is armored with all steel.

The weakness of all-steel armor is in the fact that the plates are either so soft that the projectiles go clearly through them, or they are so hard and brittle that at the second or third shot they fall to pieces. It is impossible to produce both hard and soft steel in the same plate. Compound steel-faced armor is the only kind of armor where a hard steel face joined to a soft iron back is possible, and thus far is the only armor made that can stop the projectile and absorb its energy before it can get through the plate. This is what armor is intended for, and the United States are certainly entitled to have what is the best known defence to their vessels now building and to come. Respectfully yours,

WILLIAM H. WALLACE AND CO.

NEW YORK, Nov. 22, 1886.

NEW PUBLICATIONS.

John Wiley and Sons, New York, publish a handsome quarto volume entitled "Topographical Drawing and Sketching, including Applications of Photography," by Lt. Henry A. Reed, U. S. Army, Assistant Professor of Drawing, U. S. Military Academy. It is the first American work which fully treats of and illustrates rapid methods of hill-shading. It embraces the information obtained from every available source, foreign or domestic, and the methods, both of drawing and sketching, as now practiced in the principal topographical schools, and those considered the best are described in detail. Instruments and material are described in detail in the first two sections, and the method of using them is fully explained. A little instrument, called the "polygraph," which has just been put on sale at the price of 25 cents, will be found useful here, for drawing curves and angles of every sort. Sec. III. is devoted to "scales and plotting." This completes Part I. Part II. is devoted to plain topographical drawing; conventional signs, representing the details, configurations of surface forms of grounds, hillshading, lettering and ornamentation being the subjects treated. Topographical drawing in colors follows in Part III.; copying, reduction and enlargement of maps and modelling in Part IV., and projections for maps of large areas in Part V. A treatise on topographical sketching, with and without instruments and by photography, concludes the work. In the appendix are a series of tables. There are 119 illustrations at the end of the volume and 17 diagrams are scattered through the text. It is an extremely valuable publication and will be found very useful by officers of the National Guard and every one interested in drawing and sketching, as well as by the officers of the Regular Service. The capacity to describe with pencil the topographical features of a country is one which every military man should possess in some measure, and it is a source of entertainment as well as an aid to professional usefulness. The arrangement of the work is excellent, and it is so complete in its details as to leave nothing to be desired. The price is $3.50.

An Afghan general who was sent out to subdue the Ghilzai rebels has sent ten cart loads of human heads to Cabul as a proof of his victory. After such incontestable evidence of his generalship it ought to be impossible to attack his military reputation in the magazines.—*Chicago Times*

NAVAL BUREAU OF ORDNANCE.

IN his annual report, Captain Montgomery Sicard, Chief of the Naval Bureau of Ordnance, presents this statement for the fiscal year ending June 30, 1888:

Expended in armament, etc	$1,086,750
General Repairs	15.000
Freight and Miscellaneous	5,000
Civil Establishment	31.244
Torpedo Station	78,500
Washington Navy-yard (arsenal)	25,000
Armament of new vessels	1,500,000
Total	$2,741,494

He reports as follows:

Since the last report was made a considerable number of the 6-inch high-power steel guns have been finished and fired at the Naval Ordnance Proving Ground. They have all endured proof in a very satisfactory manner, and over 2,000 feet muzzle velocity was readily obtained with standard powder and projectiles, and moderate chamber pressures.

The two 5-inch guns for the *Chicago* have been finished. One has been fired at the proving ground, and the results are very satisfactory, although the powder used was not made for the gun. A powder will be made for this calibre. The first 8-inch gun finished has also been proved, with most satisfactory results. The powder used in this last calibre was Westphalian brown, as no opportunity had occurred for grading American brown powder to this calibre. The matter, however, presents no serious difficulty, and will be proceeded with at once.

Chase and muzzle hoops for heavy guns have been made in the United States, and as far as fitted, are satisfactory in quality. No practical difficulty is encountered in the manufacture and fitting of the different parts of the guns. The compression of the bore obtained by assembling is satisfactory. The breech mechanism is found to work well; the action of the gas check is very efficient, and the flight of the projectiles is smooth and steady.

The two 10-inch guns referred to in the last report are well advanced. They are assembled; one is smooth bored, and the rifling will commence speedily. A 10-inch carriage, adapted to use in the monitors, will be completed about the time the guns are finished, so that they can be proved together. All the forgings ordered from Sir Jos. Whitworth and Co., for the 10½-inch type gun have been received. Additional chase hoops will be required, but they can be made in the United States. As no funds have heretofore been available for work on this gun, no progress has been made on it.

The elaboration of a simple and convenient lock for high-power breech-loading guns has offered considerable difficulty, and a good many forms have been devised, most of which have been figured in previous reports. That now being used (and considered the best) is simple, strong, and efficient. It is reported upon very favorably from the proving ground, and will be supplied to the *Atlanta* and the other new ships.

POWDER, PROJECTILES, CARRIAGES, AND MACHINE GUNS.

The following are the best results obtained with brown powder in the 6-inch and 8-inch guns. It will be observed that the muzzle velocities are high, while the chamber pressures are considerably below those which the guns were calculated to support in service:

Gun.	Powder.	Muzzle Velocity.	Pressure.
6-inch	American brown	2105 f. s.	15.6 tons
8-inch	Westphalian brown	2013 f. s.	15.5 tons

The powder for the different classes of Hotchkiss guns has all been developed, the specifications approved, and a supply sufficient for the outfit of the new steel cruisers has been obtained. This is, of course, American powder; its action is perfectly satisfactory.

Nearly all the cast iron common shell for the use of the new steel cruisers have been cast and are largely completed. A few alterations were made in the nose of the latest patterns, to facilitate solid casting. It must be remarked, however, that cast iron is not a suitable metal for the manufacture of projectiles for use from high-power guns, as it has not the necessary strength and extensibility to support satisfactorily the shock of striking ordinary targets. Of course against armor plates it would be useless. For some years the Bureau has been trying to obtain from our steel makers some unhammered cast steel common shell for use against unarmored ships. Several firms have presented castings, but none have thus far passed satisfactorily, being mostly porous or otherwise unsound. Efforts will be continued in this direction. There is but little doubt that the art of making solid steel castings will soon advance sufficiently to enable us to overcome the difficulties that have thus far presented themselves.

A cast iron shrapnel has been perfected and tried with satisfactory results. It will be adopted for use until steel manufacturers can furnish a satisfactory steel shrapnel case. A proposed cast steel shrapnel is shown in the appendix; but wrought steel tubing is really the proper thing from which to make shrapnel, and this matter is receiving the attention of the Bureau. A satisfactory canister for the new guns has also been made, tried, and adopted for service. It is shown in the appendix.

The Bureau has heretofore been able to use unhammered cast-steel forms only to a very limited degree in building gun carriages on account of the brittleness of the castings, and it is greatly to be hoped that sufficiently ductile castings will soon be produced to answer for the different parts of carriages; if so, great advantage will result in point of simplicity and cost of manufacture. The specimen castings last furnished endured the fire of the Hotchkiss guns without cracking or breaking. In some future designs of carriages, it is proposed to use fluid pressure to elevate and depress the gun, by means of a hydraulic cylinder; and it is proposed also to work the carriage by means of air or other elastic fluid (under pressure) carried in flasks or in other suitable receptacles, placed upon the carriage itself.

There have been no especially new developments in machine guns and cannon lately. The effort abroad is constantly to increase the calibre of the machine cannon, and it is thought that such pieces throwing projectiles of 20 and 30 lbs. will be perfected soon. The Bureau has given a great deal of attention to furthering the production of domestic ammunition for the Hotchkiss guns.

We have methods by which the best quality of armor piercing projectiles for these guns can be made, and the Winchester Repeating Arms Co. has succeeded in making solid drawn cartridge cases (for both the revolver and rapid fire guns), which perform, if anything, better than those made abroad. As the powder has been previously developed, it may be said that ammunition for this class of gun can now be made in the United States.

ARMAMENTS AND ARMOR.

For the new ships approaching completion, we have eighteen 6-inch and three 8-inch and two 5-inch guns finished, and three 6-inch and five 8-inch well advanced, together with all the carriages for the *Atlanta* and *Boston*, and all for the *Chicago*, except the 8-inch. All the guns of the secondary batteries and nearly all the small arms have been provided, and all the electric search-lights and appendages. The mounts for the secondary batteries are being pressed; most of the powder of the *Atlanta* and *Boston* is delivered, and that for the *Chicago* will be ordered speedily. The equipments of the unfinished ships are now in a forward state. The South Boston Iron Works have virtually completed the six 6-inch guns which are to be assembled and finished there, and the two 8-inch guns are being pushed. The West Point Foundry has made good progress on the guns that are to be finished there. The contract of the Midvale Steel Works for 6-inch forgings is nearly filled, only a few remaining to be furnished.

The designs for the guns of the projected ships and monitors are virtually finished, and also those for all but the heaviest of the carriages. Preparations are being made for receiving bids on the gun forgings.

The third rate modern ships last built are good sea boats, have compound engines, and are in most important respects good examples of the best class of wooden vessels. They will last some years, and must be depended upon to do most of the work of the Navy until a sufficient number of new ships are built to replace them. It appears desirable that they should receive a modern armament, as the impression they produce without it is but slight. When they are finally replaced the armament will answer for newer vessels. There are eight of the class referred to, but the Bureau has submitted estimates for six, assuming that two may become unserviceable before their armament could be prepared. The modern armament of these six vessels was also included in the estimates made last year.

It is thought that a 10-inch gun will be available for the test of the Clark's defective turret target soon. As before remarked, two guns of this calibre are very well advanced, and if they endure the test called for by the Act of Congress, dated March 3, 1885, one can be used against the Clark target. Projectiles for this purpose will be supplied in time.

NAVAL ORDNANCE PROVING GROUND—TORPEDO TRIALS.

This establishment has continued to do most excellent and necessary work for the Navy. Since December, 1885, the establishment has been in charge of Lieut. Austin M. Knight, U. S. N., whose administration has been very satisfactory to the Bureau.

The present location of the Proving Ground is certainly unsuitable, and must become more so as the development of Ordnance progresses. The range is entirely over water, and its use is embarrassed by the neighborhood of lighthouse near the batteries, and of a large hotel about half way down the range, besides the number of oyster and fishing boats which are frequently anchored or moving about the range, cause expensive delays in the practice. An over-water range is not convenient, and all projectiles fired on it are lost. It is not possible to study much of the action and resistance of percussion and other fuses on the farther parts of the range, and projectiles and the rotation bands cannot be examined after flight.

Trial with the Howell torpedo belonging to this Bureau were continued this year. They took place in the harbor of Michigan City, Indiana, and were, as a whole, confirmatory of the favorable opinion before entertained regarding the principles embodied in this weapon. Numerous runs were made with speed greater than had been previously attained, and also with increased regularity of immersion; the accuracy of flight in the horizontal plane being, as usual, good. The trials were not, however, conclusive, and it is understood that a company is engaged in further elaborating the weapon.

INSTRUCTION OF ENLISTED MEN.

This very important branch of instruction has been pursued by the Bureau both at the Ordnance Department of the Washington Navy-yard and at the Torpedo Station. The course of instruction will be made to cover four months instead of six, the former period being considered sufficient for the present.

THE TORPEDO STATION

Is now in charge of Comdr. C. F. Goodrich, U. S. N., he having very recently relieved Comdr. W. T. Sampson. The stock of gun-cotton now on hand being nearly sufficient for present service needs, it is proposed to reduce the production very considerably, making only sufficient to supply expenditure and keep a proper reserve stock on hand. The new boat fittings for spar torpedoes have been issued to service, as also, in some instances, the cubical torpedo case, which allows a much closer stowage of the gun-cotton than before obtained. The compact Le Clanché firing batteries referred to last year have been issued to all the ships that have fitted out since their completion. New boilers have been supplied to the torpedo machine shop, and they also afford power for the gun-cotton factory.

Attention is again called to the importance of furnishing the station with two steam launches of modern form, engines, and speed, with which to exercise the torpedo class in the manœuvres which they will be expected to put in practice in time of war.

An additional supply of fresh water should be furnished for use in the manufacture of gun-cotton, and an item has been inserted in the estimates for bringing this water in a pipe from the City of Newport to Goat Island. An estimate has also been made for renewing the ferry landing stages at the Island and at the City of Newport.

A class of twenty-one commissioned officers and four gunners received instruction during the summer months, in matters bearing on torpedo warfare. Their interest in the subjects taught and their progress was gratifying, and the new course of instruction as marked out last year worked well. It is very much desired to give thorough practice in the management of electric lighting circuits, and partly to this end the station will be lighted by electricity. Those officers who took the long or special course acquitted themselves well.

A class of enlisted men has also received a course of instruction in torpedo warfare. They showed intelligence and industry, and will, no doubt, be valuable to the general service on account of their practical acquaintance with torpedo and electrical matters. This instruction will continue and be a prominent feature.

Many of the officers and enlisted men become quite proficient in submarine diving (which is taught at the Station), and the Bureau feels much gratified at the increasing interest which is being shown in this most important branch of a seaman's training.

The Board of Officers ordered to witness the examination of the Torpedo Class recommends that the length of the course should be increased to seven months. The Bureau does not concur in this recommendation as proposed by the Board. There is already in operation a special or longer course for those who are qualified to take it.

The question having again been raised concerning the carrying of the sewage of the City of Newport in a pipe across the inner harbor through the breakwater on Goat Island to discharge outside of the Island, the report shows that unless the discharge of the sewer is carried a considerable distance into the outer bay, the result will be disastrous to the health of the Torpedo Station.

THE KEARSARGE AND ALABAMA FIGHT.

MESSRS. HOUGHTON, MIFFLIN AND CO. publish "The Cruise of the Alabama," a very lively description by one of the crew, which closes with an account of the final scene, from which we take the following:

"We steamed towards the *Kearsarge* direct, bringing her on our starboard, and the sail-shifters got in our top-sail and course. I glanced down the guns, and our crew looked very strong and serviceable. They were all stout, muscular men, and were evidently in earnest, and were very martial in their cutlasses and belts. 'Now men be steady,' and, at I think a mile away we opened fire. I was serving one of the thirty-twos, and knew their range, and for all the good we might do, might as well have fired belaying pins at the enemy.

"One of the men at my gun was an old man-o'-war sailor, and he said to me, 'How rank our powder smells, and the smoke is dull and thick.' He was right, our powder was no doubt 'caky,' and the smoke floated black and foul to the leeward. We were now circling around the *Kearsarge*, each vessel being starboard to the other.

"The Yankee was evidently in no hurry, and her men were on the top-sail yards yet. At about one thousand yards she fired her first gun, evidently a heavy one, for the shot flew over us. We were firing as fast as we could load and pull the lanyards. There was but little swell on, and nothing to prevent accurate gun practice. We were steaming around each other, and were not more than eight hundred yards apart, when the *Kearsarge* gave us her whole broadside.

"One shot came through our bulwarks close to my gun, taking 'Jumper's' head clean off, and whirling him around like a top. He was of course dead before he touched the deck, but there was no time for looking, for my gun had the range, and I laid her with care. A shell flew overhead and scooped about half the round of the mizzen-mast out and flew over the side. The Yankee looked bulky amidships, where no doubt the chain cables that are talked so much about were stoppered.

"Bang! We got a shot that made us reel, and then another that burst right among the crew of the pivot gun, and listed the piece over; practically it was done for, and those serving it were half of them killed.

"A thirty-two pound shot came in at the port next to mine, glided along the gun, striking the man at the breech in the breast, and fairly tearing him in two. Men were falling fast, and we were evidently getting worsted.

"Before we were ordered away from the guns I knew the ship was making water fast, and when the order was given to set top-sails and fore-course, and wear the ship, I expected we would go down. The ship gave a sickly roll, and was visibly settling aft. The deck was in a dreadful state; across the platform of the rifle gun lay the Scotchman, M'Gregor, his hard head smashed into a gray mass; one man of my watch was gasping in agony with his arm and shoulder torn off, and the poor Wagabone lay still and stark at the foot of the main-mast, one hand clutching the bosom of his shirt.

"The *Kearsarge* had stopped firing; if she had not we should have gone down like a stone; but when we set sail she fired a shot over us, and the order was given with energy, 'All hands here! man the boats! jump, men; get the wounded in.' One man died just as we picked him up, and we left him. I am happy to say that nothing could have been better than the conduct of the crew. There was no funking, shirking, or disorder, and although many a glance was cast at the bodies of those that had been our messmates for two years, there was no time for sympathy or sentiment.

"The incredibly foolish stories told in some of the English newspapers were of course lies. No gunner threatened our tall first lieutenant with death for pulling down the flag; no boatswain embraced the quartermaster, and let the 'salt, salt tears run down their heroic noses.' When we knew that it was all over and the boats were in the water, it was every man for himself. Nor did I see Captain Semmes with a peck of gold watches going over the side as American newspapers describe. I only saw him for an instant, and although he passed a package to the boat I have no idea what it contained, and don't want to. He had fought his ship bravely, and was no doubt right to get out of the way as quickly as he could, as he was by no means assured of fair play from the Yankees, although nothing could be more generous that the treatment they gave that part of the crew they captured. In fact, they fought their ship magnificently, and beat us fairly, and this, honestly stated, is interesting reading enough without the harrowing pathos and shandy gaff sentiment injected into it by the British penny-a-liner.

"I do not believe that it was ever known how many of the crew were killed. I know that many of the wounded went down with the ship, and it is safe to say that at least twenty men lost the number of their mess. The official account says seven killed. Frankly, I know better, and I think I am nearer the mark in my estimate.

"It was exasperatingly funny to hear a snuffing cockney, who was no doubt first lieutenant in some haberdashery establishment in London, laying down nautical reasons why we were whipped. 'Ye should 'ave boarded 'em, my fine fellers. They carn't stand the cold steel.' Like most sailors, I did not take kindly to this sort of thing, so I told the fellow if he didn't 'belay his jaw' I would throw him in the dock. But foolish as this talk was, it was repeated by men who should have had more sense and knowledge. Board the *Kearsarge!* We would have had a fine time running alongside of her. There wouldn't have been enough of us left to have boarded a cat-boat.

"No; the eleven-inch gun and the first-rate shooting of the Yankee crew cooked our goose, and that's all there is in it. But Ananias was in his glory.

"When I reached home in Cumberland with eight shillings in my pocket my mother hailed me as a hero, but my father received me with deep disgust and strong language. He spoke of the *Alabama* as a 'sneaking pirate,' and hoped that I wouldn't take to housebreaking next."

ACTING SECRETARY OF WAR.

UNDER its heading of Washington Gossip the New York *World* says: Nearly every Secretary of War has trouble with the General of the Army. In times of peace there is always a conflict of authority between these two officials. The General resents the assumption of authority by the Secretary, and the Secretary, who is nearly always a civilian, has a cool way of ignoring and overlooking the General, that is very exasperating to the chief commander of the Army. This was the reason why Gen. Sherman first left Washington to go to St. Louis. Gen. Sheridan is now having nearly the same kind of a difference with Secretary Endicott. The General is very much dissatisfied. Mr. Endicott not only passes over him from time to time when he is in the Department, but he also, when absent, puts one of Gen. Sheridan's subordinates, Adjt.-Gen. Drum, in the position of Acting Secretary of War. During Mr. Endicott's absences Gen. Sheridan has to act under the commands and direction of this subordinate. There is only one opinion in Army circles about the propriety of Mr. Endicott's action. Whatever question there may be as to the powers of the Secretary of War and the General of the Army there is no question but what Gen. Sheridan should be made Acting Secretary of War during the absences of Mr. Endicott. These absences are very frequent and are often quite prolonged.

THE torch held aloft by the Goddess of Liberty at Bedlow's Island was lighted on Monday evening and it is hoped that her light will thenceforth illuminate the world, or so much of it as lies within the circle of the rays emitted by the uplifted torch.

THE STATE TROOPS.

REGULAR OFFICERS ON STATE TROOPS.

ALABAMA.

CAPTAIN R. G. HOWELL, of the 2d U. S. Artillery, in his report on the camp of the 1st Alabama regiment at Mobile says that that organization consists of eight companies, seven of which are uniformed and one ununiformed. The former occupied the camp from beginning to end, with a strength present of 241 out of 274. Six of these companies are armed with old pattern Springfield muskets, and one has two Gatlings and two 3 in. rifles and is designated as a battery. The pieces were in fair condition, but the harness is old and rotten and would not stand much service. The personnel is too limited to man more than the 3-in. gun platoons, with four horses to the carriage, but the Gatlings could be put promptly and efficiently into the field. The men are well drilled as cannoneers. The regiment owns about 210 muskets, 174 of which were in camp; some of them serviceable, but all evincing a lack of care. 50 of them entirely unserviceable from neglect. This was especially the case in one company (Evergreen) where the report states that "there was not a single gun that I would not anticipate unfortunate results from in case it was fired, and this in consequence, principally, of the guns being eaten up with rust." Some of the companies showed remarkable skill in company and squad movements, but beyond this they apparently had made no progress worthy of mention, skirmish and battalion drills and target practice being completely neglected. At some voluntary target practice there was a great lack of system and instruction. Guard duty was not carried on in as military manner as was hoped for. The report credits this regiment with the fact that the idea of readiness for field service seems to have considerable weight with it, but equipage is deficient, two companies have no uniform fit for service, aid from the State is lacking, and the system among the companies wastes time in endeavoring to reach mechanical perfection in certain directions to the detriment of useful exercises for active service operate as drawbacks. The State allows $200 per annum to each uniformed company, and 50 cents per man per diem while in camp. The officers receive about $2. This money is expended by the Quartermaster in defraying regimental expenses, and this, with what is allowed by the U. S. for arms, etc., is all to which they are legally entitled. Capt. Howell recommends the same dress for the whole organization, at least for field service, and that the camp be located more remote from the homes of the men to remove them from business and social influences, which now hamper every attempt at instruction. The command was at some disadvantage on account of the absence of its Colonel who was sick.

MAINE.

Capt. Edward Field, 4th U. S. Artillery, says he was very much struck with the size and physical condition of the Maine militiamen.

"Tall, straight, stalwart and broad-shouldered," he says, "they far surpassed in physical quality anything I had seen in the way of militia. Instead of the round backs and stooping shoulders of men accustomed to bend over the work bench, you see the frames of lumbermen, farmers, and men accustomed to pursuits which develop health, strength and stature. I saw many companies which inspired feelings of positive envy and a wish to enlist every man. Their figures were such that, although much cruder than the militia of New York or Massachusetts, they almost attained the setting-up of veterans. It was nature's setting-up. That was all the difference."

The troops encamped were the 1st and 2d Regiments and one unattached company (the Frontier Guards) of infantry and one light battery. Cooking was done by steam, and as a general thing gave satisfaction. The police of the camp (a fair ground) was defective. The report says that guard mounting was very crude, and only showing improvement on the last day. Parades in the 2d Regiment were fair; in the 1st, conspicuously good; company drills marked by extreme care on the part of the commanders, but loadings and firings formed the weakest point.

"Co. E (Montgomery Guards), of Portland, Capt. John A. Gallagher, 1st Regiment," the report says, "is probably one of the best drilled companies in the Eastern States, and gave an exhibition drill which was really wonderful. Their wheels about in line and column and their obliques were superb; their firings the best I have ever seen in my life. I don't remember ever having seen even an attempt in loading at will to have the muskets brought to a ready together; but they had attained such accuracy that you could not have told that the command 'ready' had not been given. Their left oblique aim and recover was apparently done by clock-work, and their firings, kneeling and lying, beautiful."

Later on, however, in referring to an inspection of the 1st Regiment, it is said:

The muskets were all good except the crack Montgomery Guards, and they were, strange to say, the worst in the command and positively unserviceable, being so rusted that the rifling could not be seen. They claimed that they had been long in use; but I cannot imagine that ten years' wear, if the arms were properly cared for, could produce such a condition. I suspect that in some companies extreme smartness in drill and frequent exhibition performances tend to the neglect of some important and solid parts of a soldier's training.

A high tribute is paid to the Maine militia for its proficiency in target practice and particularly in skirmish firing, a fact well worthy of imitation by other States. With regard to an exhibition match on the ground, Captain Field says:

Many of the spectators were veterans of the war, and they agreed that the fire of these one hundred men would have annihilated any thousand men that either side could have produced during the war; that in such a fire Rickett's division could not have got half way across the open ground.

On the other hand, it is mentioned that:

Guard duty is poorly done. This is the weak point of the Maine Militia. Sentinels rarely saluted during the day and were still more rarely right. When I visited the guard-tent I found both officers of the guard absent, and no one seeming to know their whereabouts or being apparently in charge. In fact, out of a guard of at least eighteen men only half a dozen at the most were present. At night guard duty was much better, and the sentinels, as far as my observation went, always challenged; and although very crude, seemed very anxious to do their duty. Military courtesy was almost entirely neglected; men rarely ever saluting an officer, and never rising or standing at attention.

The troops are armed with the cal. .45 Springfield and the McKeever cartridge box, but have no haversacks and canteens. The plaited blouse is as unpopular among the men as it was in the Army before it was superseded by the present garment.

The great want is a thorough, systematic course of instruction prescribed from headquarters and rigidly insisted upon, and the immediate establishment of an examining board, before whom all officers reported by the Inspector-General as ignorant and incompetent could be brought and remorselessly dropped. Such a board, coupled with great personal zeal on the part of the Adjutant-General, has done wonders for Massachusetts.

Guard duty especially should be carefully taught and practiced. If it would be possible for the War Department to detail officers, to report to the Governors of the various States, to be assigned to duty as instructors solely, with no command whatever, it would be of the greatest assistance to the Inspector's Department and benefit to the State.

Next to instruction, the Maine Militia wants money. The appropriation is most niggardly. Of course, this is something entirely outside of my province as an observer and inspector, but I cannot help speaking of it, hoping that when the legislators of this large State, so exposed in situation, the very frontier and barrier of the United States, read of the splendid material of which their militia is composed and see such fruits as their shooting, they may recognize some of the possibilities that the future holds out and vote them a decent support.

Haversacks and canteens should be furnished as soon as possible.

A medical department should be organized as soon as practicable, and a hospital service and ample medical supplies be a feature of all future camps.

MICHIGAN.

From the report of Major A. C. M. Pennington, 4th U. S. Artillery, it would appear that the Michigan troops at their camp at Island Lake did not exhibit in a particularly creditable manner. To begin with: Of the four regiments encamped about 40 per cent. were absent. There was no uniformity in the arrangement of the tents, each company being permitted to follow its own taste. Six men were assigned to each wall tent, which Major Pennington thinks is too many under the circumstances. The roll calls were ragged, the fall in irregular; the men looked unmilitary, some wearing caps, others helmets, and still others civilian hats, some smoking cigars, or wearing civilian overcoats, or even no coats at all. No attempts at standing in a military position, no silence, and, worse than all, no endeavors on the part of the supervising officers to correct the irregularities. The men "ran the guard" at night in very large numbers and when brought back were left unpunished. Major Pennington correctly suggests that the penalty for officers and men, which is that they shall forfeit their day's compensation for absence from any one roll call, should have been enforced. Taps was not observed, and there was a perfect din of noise even as late as midnight, depriving those who desired to behave themselves of their proper rest. No attempts to check the practice were made. Military courtesies were neglected or rendered in an imperfect, careless way. Officers and men were too familiar. They drank and smoked together in the company streets, and that respect which is indispensable in a well-regulated command was absent. Guard duty was not one of the worst features of the camp, but sentries carried their arms very frequently improperly, challenges were prefixed by the command halt, salutes improperly rendered, while those who were not on guard did not pay attention to the orders of those who were, and the sentries in their endeavors to time themselves so as to arrive at the ends of their posts simultaneously, etc., lost sight of more important occurrences.

The troops are armed with the Sharps and calibre 45 Springfield rifles. The latter are reported in serviceable condition, which is not the case with the Sharps. Besides, the fact that they are hammerless, destroys the uniformity of the manual, as no support can be executed with them. The exterior diameter of the muzzles is varying, and the bayonets are not interchangeable, and for this reason the inspector recommends that they be gradually superseded by the Springfield. Cartridge boxes and belts are of the U. S. pattern. The uniform resembles that of the U. S. very much, but it is a singular fact that the State only owns 500 overcoats, which gives about one to each four men.

The creditable features of the camp were subordination of the men, good police, good battalion and brigade drills, though somewhat unsteady, a generally fair understanding of the tactics by the officers, and good material of which to make soldiers, and ample and efficient hospital facilities.

Col. Pennington recommends regimental instead of brigade encampments, more preparation before going to camp; only one brigade drill in a brigade encampment, because it takes away too much time from other more important duties; to hold company officers strictly responsible for the discipline of the men, the distribution of a pamphlet on guard duty, instruction in target practice at home stations, setting up drill, sword drill for officers, examination of officers before appointment, the exclusion of visitors from camp, the appointment of an I. R. P., and the encampment, as a separate command outside of the lines of the National Guard camp of a body of Regulars for the instruction of the State troops, and the detail of men to acquire a knowledge of signal and telegraph duty. These are all sensible suggestions and worthy of consideration by the Michigan authorities.

DISCIPLINE IN THE MILITIA.

SEVERAL of the Regular Army officers who inspected militia troops in camp last summer refer, in their official reports, to the lack of discipline. For future guidance we summarize what the reports say on that head as follows:

Maine.—Capt. Edward Field, 4th U. S. Artillery, says:

Discipline within certain limits is very good. Sobriety is an almost universal rule. The camps were perfectly quiet and orderly at night, and when under arms and on the field orders are obeyed in a way that shows willing, self-respecting, and intelligent men. The defects are a rough, noisy joviality when not on duty, which does not always respect the persons and authority of officers, and a sturdy, rather obstinate independence, which rather clamorously demands some good reason for doing or ceasing to do a thing. But the severe tests of shooting at all distances, and in large numbers, shows a practical discipline which argues great things in actual service. I would trust the Maine Militia in a mob or riot to give as good an account of themselves as any I know in America.

Michigan.—Major A. C. M. Pennington, 4th Artillery, says:

The men were all willing and generally subordinate, but seemed to think they were licensed to enjoy themselves after the work of the day was done. After retreat large numbers left the camp without authority, running the sentinel posts. . . . No punishment followed these infractions of discipline. . . . The signal "extinguish lights" did not seem to have any meaning to the command, no attention whatever was paid to it, and lights were extinguished at the pleasure of the occupants of the tents. . . . I regard this as one of the worst features of the camp.

New Hampshire.—Col. H. W. Closson, U. S. A., says:

The rigidity in ranks and the impassive demeanor that are supposed to characterize regular troops were not to be expected, but neither is there any excuse for such general neglect of these points.

Minnesota.—Major J. M. Bacon, 7th U. S. Cavalry, says:

Military courtesy was with few exceptions fairly well observed. . . . Less social intercourse between the company officers and their men when on duty in a camp of instruction is recommended, notwithstanding their relations elsewhere.

Missouri.—Capt. Theo. Schwan, 11th U. S. Infantry (now Major and A. A. G.), says:

During a portion of at least two nights of the encampment the noise caused by the firing of blank cartridges and loud yells was such as to render sleep impossible, and the attempts of the camp guard to suppress the uproar proved utterly futile. . . .

New York.—Major R. H. Jackson, 5th U. S. Artillery, says:

The discipline was, indeed, admirable. The men were obedient and respectful. The quiet that prevailed in camp, particularly between taps and reveille, was remarkable. Military courtesy, as a rule, was strictly observed.

Ohio.—"The guard duty was rather loosely performed. . . . The officers comply fully with the rules as to saluting each other, but do not require a strict observance of those from their men."

Kentucky.—"Discipline in camp was well maintained. What these troops need most is a thorough drill in the 'School of the Soldier.' It would improve their soldierly appearance."

Pennsylvania.—Major W. J. Volkmar, A. A. G., says:

In the most conspicuous defects of the Guard mentioned by me last year, viz., their general ignorance, for want of practice, of duties of sentinels, and their frequent neglect of prescribed courtesies from inferiors to superiors on duty, I found a marked and almost general improvement this year, but there is still room for further progress, and I cannot too earnestly suggest that during the period of encampment all *social* relations between officers and men ought to be resolutely suspended. . . . Almost intolerable violations of the fundamental requirement of a military organization (dignified relations between officers and men), were to be observed this year.

Iowa.—Col. R. I. Dodge, 11th U. S. Infantry, says:

Discipline was fairly maintained. Men ran the guards and spent the night in town, . . but the general result was much better than could have been expected, and this is due more to to the general tractability and sense of honor of the men than to any fear of punishment.

Illinois.—Captain Gaines Lawson, 25th U. S. Infantry, says:

Military courtesy was not, as a rule, well observed. This was not from disrespect to the officers, but in consequence of not having been properly instructed. . . . Sentinels were not properly instructed by the officers and non-commissioned officers of the guard, and they were often seen sitting down on their beats.

Vermont.—Lieut. W. H. Coffin, 5th U. S. Artillery, says:

The discipline of the command was good. There were no disturbances of any kind to speak of in camp, and all orders and regulations seemed to have been faithfully adhered to.

Massachusetts.—Capt. G. B. Rodney, 4th U. S. Artillery, says:

The discipline seemed to be good. The men were in excellent temper and willing, . . but they had not been under restraint a sufficient length of time to show the effect of camp regulations, etc. They were generally respectful and obedient.

Rhode Island.—Col. C. L. Best, 4th U. S. Artillery, says:

Salutes to officers (that magic path to discipline) became much better observed as the camp wore away, but was still incomplete at the end. . . As is the case probably at every militia camp, too much familiarity existed between company officers and enlisted men, but this is the direct fault of of the elective system, and irremediable so long as it exists.

Indiana.—Major R. Lodor says:

The men failed in nearly every case to salute their officers; in fact, I only saw the salute given in one instance. Guard duty was performed in a very slovenly manner, so far as detail and appearances went.

Dakota.—Col. E. F. Townsend, 12th U. S. Infantry, says:

I found the officers zealous in the discharge of their duties and the men reasonably well-disciplined.

Alabama.—Capt. R. G. Howell, 2d U. S. Artillery, says:

The command generally seem to respond with alacrity and cheerfulness to the efforts of the colonel to impart instruction and enforce discipline.

Kansas.—Lieut.-Col. C. E. Compton, 5th U. S. Cavalry, speaks well of the discipline, and says:

The personal appearance of many of the men would have been much improved had their faces received the attention of a barber prior to the inspection. Many of the men marred the general good and soldierly appearance of their companies by wearing collars (in some cases unclean) others fancy colored handkerchiefs, etc., and neglecting to have their shoes properly dressed. Colonel Compton further says "guard duty has received but little, if any attention.

Connecticut.—Lieut. C. A. L. Totten, 4th U. S. Artillery, says:

Discipline was generally excellent; but when analyzed down to its roots, was not so. An apology is usually made where laxity of discipline is noticed in National Guard organizations, based upon the essential difference of their circumstances from those surrounding similar Regular organizations: but this is begging the question, and there are notable exceptions within the Guard itself which disprove the fact. I do not recognize the impossibility of obtaining true discipline in the National Guard, for I am personally familiar with the very elements which go to form it, have commanded it for years, and know it can be molded like clay, and is willing to be shaped."

These extracts confirm the idea we have always held that what the militia lacks most is a knowledge of what military discipline is and means. If money is to be appropriated by the States and by the General Government merely that a number of men may band together to "play at soldiering," then the money might better be saved to the taxpayers and some other system of national defence and reliance speedily adopted. The officers of the militia, from the highest to the lowest, have a duty to perform in this respect, and it is evident from some of the ex-

tracts given above that there must be a neglect of duty on the part of many officers commanding and on duty with the troops in camp. This the States should not permit, and when the troops are sent into Camps of Instruction should hold the officers to a strict responsibility that the main objects of the camp—discipline and instruction—are carried out to the letter. Soldiers, even in the Regular Army, will romp if left to themselves, but there is a time to romp and a time to learn, and the short time permitted to the militia to learn the duties of a soldier in camp and the methods of camp life should not be wasted. The *officers* should look to that with an undying vigilance. As Adjutant-General Drum in his late report well says: "Camps should be divested of every appearance of holiday character. . . . The great want is a thorough, systematic course of instruction prescribed from the State headquarters and rigidly insisted upon, and the establishment in each State of an examining board, before whom ignorant and incompetent officers could be brought with a view to their elimination from the military service of the State."

THE NATIONAL DRILL.

THE proposed national drill at Washington may now be regarded as a certainty. The date for its commencement has been fixed for May 23 next. The committee, which consists of District Commissioner Saml. E. Wheatley, Chairman; Gen. Albert Ordway, Vice Chairman; T. G. De Leon, Managing Secretary; Charles S. Bradley, Cashier National Bank Republic, Treasurer, state that $50,000 has already been subscribed for prizes, and that 9 regiments, 7 battalions and 67 companies have applied for entry. They hail from 25 different States, and include the Chickasaw Guards, Porter Rifles, Houston Light Guard, the Mobile Rifles, Co. D, of St. Paul; the Light Horse Squadron and the 1st Light Battery of Milwaukee; the Governor's Grays, of Dubuque; the Muscatine Rifles, the Custer and Detroit Light Guards, of Michigan; Co. D, 7th Minn.; Minneapolis Light Infantry, New Jersey Zouaves, companies from Indiana, the Rochester Separate Co., Co. K, of Hartford, and a host of others.

The standing committees are as follows:

Executive—S. E. Wheasley, Chairman; General Albert Ordway, James E. Waugh, A. A. Wilson, William A. Gordon, Thomas E. Waggaman, C. C. Duncanson, George T. Dunlop and James P. Willett.

Finance—Thomas E. Waggaman, Chairman; Jas. L. Norris, Charles S. Bradley, M. M. Parker, J. W. Boteler and C. W. Thorn:

Transportation, etc.—George Pearson, Chairman; H. H. Carter, James L. Taylor, James H. Marr, John F. Waggaman and A. M. Lathrop.

Advertising—E. W. Fox, Chairman; George Gibson, O. G. Staples, John Keyworth and Charles T. Murray.

Rules, Judges, Prizes—General Albert Ordway, Chairman; Capt. Geo. E. Lemon, Major H. L. Cranford, Jeff. Chandler, Dr. Smith Townsend and Thos. J. Luttrell.

Grounds, Construction, Etc.—A. A. Wilson, Chairman; Will Wheatley, P. H. Cristman, J. P. Willett, C. C. Duncanson and O. C. Green.

The drill will commence on Monday, May 23, and will end with Decoration Day, May 30, 1887. Entries will be open to regularly organized volunteer militia of the country for competition as regiments, battalions or companies, in infantry, artillery, cavalry and zouave tactics and also to regularly organized corps of cadets from military or university schools. The prizes costing over $26,000, will consist of medals of honor in gold, silver and bronze, according to grade, besides magnificent souvenir stands of colors to regiments, and more than double the largest money prizes yet offered, graded among the infantry, cavalry, artillery, and zouave arms of service, with special prizes for cadet corps from State and military schools. These awards will be made upon judgment of officers of the Regular Army of the United States specially designated by the War Department for that special service. The programmes for the different drills will be made by them also, and will, of course, be unknown to the committee, as is usual in such cases. A fair field and no favor shown to all comers is promised.

The drill offers a show to larger bodies of troops, which has not been the case heretofore in inter-State contests. Its object is defined to be an incentive to advancement and proficiency in the science of arms of the citizen soldiery of the Union through emulation and friendly competition on the common ground of the national capital; second, the massing of representative men comprised in the volunteer organizations in the fraternal associations of a camp, where they may better appreciate each other and learn mutual reliance, should the national reserves ever be called to stand shoulder to shoulder in defence of their common country.

NATIONAL GUARD ITEMS.

The 1st Regiment, N. G. P. Athletic Association, will hold an athletic meeting at their armory, Philadelphia, Pa., on Saturday evening, Dec. 11, 1886. The list of events are 220 yards hurdle race and sparring, which are open only to members of the regiment. The following events (handicaps) are open to all amateurs: One-mile walk, running high-jump, pole-vault, half-mile run, one-mile run, quarter-mile run, and a tug of war, weight limited to 600 lbs. Entries are 50 cents for each event, and close Dec. 4 with Sergt. A. W. Deane, 930 Spruce street, Philadelphia, Pa. The prizes to be given for each event consist of handsome gold medals for first prize, and silver medals for second prize.

Philadelphia newspapers are favoring an appropriation of $500 per annum per company for the 35 companies located in that city. While the State appropriations are regarded as liberal, city aid is regarded necessary in order to prevent sufferings of the Pennsylvania Troops like those experienced by the soldiers in the Chicago stock yards on account of the parsimony of the State of Illinois. The Philadelphia troops paraded on Thanksgiving Day.

The Old Guard of New York held their annual parade on Monday, Nov. 22. They marched from the armory to the Windsor Hotel and back.

The rifle range of the 47th New York is now in first-class shape, and extensively frequented by the members of the regiment.

With regard to the formation of a Society of War Veterans, 9th Regiment, N. G. S. N. Y., suggested at the 25th anniversary of the 9th for the war, held May 27 last, it is reported that out of 31 circulars sent to addresses furnished by those in sympathy with the project, 18 responses favorable to the plan have been received; four returned "not found;" three fail to approve of the organization, believing the Veteran Association of the 9th Regiment, N. G. S. N. Y., to answer the requirements proposed; and six are undecided.

The 12th New York will wear the letter of the company on the collar of the coat, for which the Adjutant General has granted them permission.

Lieut. James E. Ware, of the 7th Regiment, the architect of the new 12th Regiment armory, has invented an ingenious apparatus by which to demonstrate tactical movements. The whole thing is manufactured on a scale three-fourths of an inch to the foot, and from its construction it not only enables those who use it to illustrate movements, but it affords an easy opportunity to demonstrate the different distances and their reasons. Not only can company and battalion evolutions be executed, but the apparatus gives every facility for skirmish movements, which has never been possible with any apparatus previously devised. This solves the problem as nearly as can be done with devices of this kind.

The mounted sword contest between ex-Lieut. Wm. Henderson, 2d Battery, and Xavier Orlowsky, which had to be postponed last week, took place at Recreation Hall, 107th Street and Lexington Avenue, last Tuesday night. The combatants were dilatory in making their appearance, not commencing until 9:30. Lieutenant David Wilson, 2d Battery, acted as master of ceremonies and as judge. The conditions were thirty assaults, with 16 points to win. The different assaults were interestingly defended by both competitors. Henderson's horse was somewhat fractious, and considerable advantage was lost by his shying, while his opponent had a good horse and easily managed him. The floor was not in a good condition, sand and sawdust being strewed around, which made it very slippery. The result of the contest was: Henderson, 15 to Orlowsky's 12 points. The latter refused to fight further mounted, and Henderson would not fight dismounted. The referee, after considerable wrangling and confusion upon the non-appearance of Orlowsky at the call of time, decided in favor of Henderson. The latter in the course of the contest made a few good parries, but upon the whole the entire affair was rather tame. The audience was enthusiastic, but the attendance small. Several military gentlemen were present, among them General L. Fitzgerald, Captain F. P. Earle, and Lieutenant G. E. Pasco, 2d Battery; Captain I. N. Pressy, 11th Sep. Co., and representatives from every organization in the 1st and 2d Brigades. The members of the 2d Battery were out in full force as interested spectators.

The 2d Battery, Capt. F. P. Earle, held their annual prize match at Creedmore, Thursday Nov. 18th. About forty members participated. Good scores and an enjoyable dinner were the result. The prizes, aggregating $300, were distributed at the armory on the same evening. An election for 2d Lieutenant will be held at the armory next Tuesday night. Cosmopolitan Hall has been secured for the annual ball on Feb. 22, 1887.

There is much dissatisfaction in the National Guard about the slow progress made in the armory business.

The establishment of a signal service in the 1st Brigade is under consideration by Gen. Fitzgerald, who intends to have a separate organization of about 30 men, to be trained in signalling, telegraphing, etc., and to be used as mounted orderlies if necessary. He does not favor regimental details for the purpose, and in this we believe he is correct. This branch of the Service requires higher than ordinary qualifications, and therefore some inducements should be held out to the men. Gen. McLeer favors the establishment of a similar corps in the 2d Brigade, and in the signal detachment of the late 2d Division he has a good basis for a beginning.

A despatch from Chicago states that a convention of National Guard officers has made the following recommendations, to be brought to the attention of the Illinois Legislature: An appropriation of $100,000 per annum to pay the expenses of the Illinois National Guard, and the further sum of $80,000 for uniforms, equipments, permanent camps and rifle ranges, including a permanent camp and rifle range in the northern part of the State; compensation to the officers and enlisted men for injuries received in the line of duty; increase of pay of enlisted men, while on a tour duty, to $2 a day, adding an engineer and signal officer and also a non-commissioned staff to the brigade staff, and also properly adjusting the work of the staff officers; suitable provisions for enforcing penalties for neglect of duty; an increase of the contingent fund in the hands of the Governor to meet the necessities arising from riot and other disturbances, and the lengthening of the tour of instruction to a maximum of 10 days; each company commander to have the power to hire two cooks to each tour of instruction and duty, and to carry them on the pay rolls at the rate paid the private soldier for the actual time employed; leaving to every soldier who has served a term of enlistment the option to re-enlist for one or more years thereafter; exempting every member of the National Guard who has served six continuous years from jury duty, from road tax and poll tax ever afterward; the addition of a commissary with the rank of 1st lieutenant to the staff of each regiment; urging that the code be so amended as to preclude the issue by the commander in chief of licenses for demi-military organizations to parade with arms.

The Rich Hill Rifles of Missouri were ordered Nov. 19 by Col. C. C. Allen, of the 5th Regiment, to report for active duty for nine months on the frontiers. The order is to ascertain how many members can report for service. A report of the number of iron and wood workmen in the company, also how many have been drilled in skirmish line, and how many uniforms in the company has also been ordered.

The 7th Missouri Regiment appear to be in a state similar to that of the 13th New York, a number of the field and company officers having made a demand on Col. H. H. Hunt to resign, and the colonel refusing to comply.

Dana B. Pratt has been appointed Quartermaster of the 9th Regiment, and 2d Lieut. Franklin T. Morgan, Co. I of that regiment, has resigned. Col. Seward has asked authority to have the 15 battles in which the regiment participated during the war inscribed on the regimental flag, an authority which will doubtless be granted.

Elections in the 71st: Chas. B. Stone, 2d lieutenant, Co. D, and Emile R. Bangs, 2d lieutenant, Co. H.

The 19th Separate Co., Bvt. Maj. Wm. Haubennestel, and the 15th Separate Co., Capt. Barthold Myers (Poughkeepsie), a correspondent writes us, are steadily improving. Maj. Haubennestel has now 100 effective men on the rolls, and Captain Myers is steadily adding to his force, and drill and parades are thoroughly attended to. The 19th Co. is under orders for inspection at the armory Nov. 30 at 7 P. M. in State service dress with knapsacks and overcoats rolled thereon. The Board of Supervisors of Dutchess County will be present. Both companies are expected to turn out strong.

(Correspondence of the Army and Navy Journal.)

ILLINOIS LABOR TROUBLES.

IT is generally conceded by both officers and men of the commands ordered out for duty at the Union Stock-yards, that more benefit accrued to the men during this tour of duty than a camp of instruction of the same duration could possibly give. The opportunities for company drills were scarce and battalion instruction really impossible. Instruction in company and battalion movements can be had in armories, but the chance is rarely given the militiaman to test his soldierly qualities under such conditions of physical hardship as the occasion of the late Packingtown strike afforded. The members of the 1st and 2d Regiments of Infantry and Troop E of the 1st Cavalry have occasion to congratulate themselves and the citizens of Chicago and the State at large no less, for it is now a part of our militia history that within a few hours of the issue of the orders ninety per cent. of the strength of the regiments ordered out were placed at the point of danger, ready for any service that might be demanded of them. The members of these two commands were roused from their beds at an early hour and by daylight of Monday, Nov. 8, a large proportion of both commands were under arms in their respective armories. So hastily did the men assemble that almost none were properly clad for the duty that lay before them. During quite three days and nights the duty in rain and mud was done by men insufficiently clad as to underwear and but lightly shod. The barracks were not heated at first and were damp and dirty. The meals were roughly served in slaughter houses in active operation, where the smell and sight of blood and entrails did not tend to stimulate the appetite of men accustomed to clean meals and quiet dining rooms.

Reveille sounded at 5. The troops at 5.30 marched daily to different posts commanding the entrances to the disturbed district. Throughout the day and until 6.30 half the men were on duty at these points. When the days were not wet the weather was cold. The duty was done in the open air—no shelter was possible. Under these circumstances it might be reasonably expected that more or less complaint would be made—that men accustomed to a degree of luxury, at least, would bewail the hard fate which compelled them to sleep in wet overcoats in an unheated building after hours of hard duty in rain and mud. On the contrary, no growling was heard. The men endured cheerfully all this necessary discomfort like veterans. Very few requests to be excused from duty were made even when wisdom dictated the propriety of a man remaining in quarters because of a heavy cold, rheumatism or other serious ailment.

This experience resulted first in the men acquiring a confidence in themselves, their superiors and their comrades—a confidence which cannot come too soon to the young soldier. And second, the experience has taught the men the necessity of being prepared at all times for active service. A good soldier will always have his rifle in effective condition and his uniform in good repair. Not less will he have at hand his strong well-greased boots, his flannel shirt and his heavy underwear.

After the third day the quarters at Fort Ferguson and the mess arrangements were greatly improved. The heat and light were sufficient, and meals of excellent quality were prepared and served in a clean dining room located in the barrack building. The men too had provided proper clothing and were comfortable.

A barracks guard was mounted every twenty-four hours composed alternately by details from the 1st and 2nd regiments. The duty was carefully and faithfully performed. Courtesies between officers and men were fairly regarded.

An inspection of men and quarters was held on Sunday the 14th, and in the afternoon of Tuesday the 16th a dress parade of the 2nd regiment was followed by one of the 1st. The notable feature of all these ceremonies was the absence of white gloves and the presence of a week's growth of beard on nearly every face. An ununiformity in the matter of foot gear was noticeable. High boots, arctics, leggings of all colors and rubber boots were to be seen in plenty. But the men presented a most soldierly appearance, obeyed the orders with precision and alacrity and the alignments and distances were quite as accurate as at an armory dress parade.

The cavalry troops under command of Captain Hough, an experienced and able officer, was mounted on horses obtained of the packers. Many of them had never been under saddle, but after two days' hard drill the troop was found to be perfectly fit for any service likely to be demanded of it. The horses proved excellent animals and the men intelligent and persevering. The cavalry duty consisted mainly of patrol provost and orderly work.

The Gatling section of the 1st had daily drills and attained additional excellence in the handling of this destructive arm.

It is hoped by the friends and supporters of the I. N. G. that the tour of duty just finished will result in awakening a useful interest in our at present poorly encouraged militia, that young men of proper spirit will be attracted to our ranks and that our legislature will be moved to appropriate liberally the necessary "sinews of war," of which we stand sorely in need.

MASSACHUSETTS.

ADJT.-GENERAL S. R. DALTON, in his annual report to the Governor of Massachusetts, comes to the conclusion that the Commonwealth receives good returns for its expenditure on the militia and is to be congratulated on having so effective a body of citizen soldiery. He reports improvement in drill and discipline as well as in the administrative branches of the organizations, in camp as well as in the armory, and only five organizations are reported in poor condition. The guard duty at the camp is stated to have been better than during any previous year. "Some of the officers detailed for guard duty were unable to impart instruction from ignorance of their duties. Such officers should receive attention if found deficient the coming year. The general tone of the State force is good, a large majority of its officers are doing all in their power to increase its effectiveness, and should not be compelled to be hampered by officers who are neglectful, and in some cases ignorant, of the duties of their position. A few would do well to give attention to their personal appearance as regards fit of uniform, cleanliness, and carriage, and such as do not should give way for more earnest and interested men." The report recommends wooden horses for armory instruction of the Artillery and Cavalry, increased culinary facilities, the employment of regimental instead of company caterers, more attention to military courtesy and discipline in the armories, and the distribution of cards showing the insignia by which to recognize officers. Gen. Dalton emphatically and most properly denounces the custom of excessive numbers of visitors to camps and especially the habit of allowing them to remain over night.

ATHLETIC MILITIAMEN.

THE annual competition for the all round amateur athletic championship of the 8th Regt., N. G. S. N. Y., was held at the armory, Twenty-seventh street and Ninth avenue, Friday evening, Nov. 19, and attracted a large number of friends. Only three of the five athletes entered competed. They were Oscar J. Mendel, Frank B. Buchhorn and George D. Scott, Jr. The winning of an event counted five points, a second place three points and a third place one point. During the evening Mr. Al Fleischman,

of the Olympic Athletic Club, gave an exhibition of club swinging, and Joseph T. McDonald, of the West Side Athletic Club, walked half-a-mile, square heel and toe, on the twenty lap track in 3m. 32½s.

The championship was retained by Scott, who won with a score of 26 points. Mendell was second with 23 points and Buchhorn's score was 22 points. A summary of the various events is as follows:

40 Yards Run.—Mendell won, Scott second, Buchhorn third. Time of winner, 5¼ seconds.

Running High Jump.—Won by Scott, with a leap of 4 ft. 4 in.; Buchhorn second, with 4 ft. 2 in.

220 Yards Run.—Buchhorn won. Time, 33 seconds. Mendell second, Scott third.

Running Broad Jump.—Mendell won, Scott, second, Buchhorn third. Mendell cleared 19 ft. 4 in.

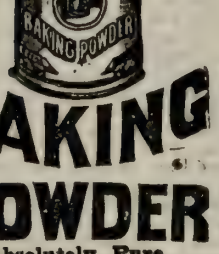
440 Yards Run.—Mendell first. Time, 1m. 11s. Scott and Buchhorn came in together for second place, but a toss up gave the place to the first named.

Standing Long Jump.—Won by Scott, who cleared 8 ft. 3 in.; Mendell second, 7 ft. 9½ in.; Buchhorn third, 7 ft. 8 in.

220 Yards Hurdle Race.—Won by Buchhorn. Time, 36 2-5 seconds. Scott second, Mendell third.

One Mile Run.—Won by Buchhorn, Time, 6m. 53s. Scott second, Mendell third.

THE THIRTEETH NEW YORK.



WE are informed that the Brooklyn *Eagle* was incorrectly quoted as saying that the charges against Colonel Fackner, of the Thirteenth Brooklyn, emanated from Major Ackerman. We are glad to learn that these charges did not come directly or indirectly from Major Ackerman, that he never saw or read them, and is ignorant of their contents. He cannot, therefore, be involved in any way in the criticism as to the spirit which actuated these charges. Colonel Ackerman has always held a high position as a soldier and a gentleman, and we accept his assurances that he is not responsible for the difficulties which have disturbed the Thirteenth. The present inquiry will, no doubt, show clearly upon whom the responsibility rests. The Court of Inquiry has not yet been appointed, but it has been definitely decided upon.

A woman sold her wash-tub to a party of riflemen for a target. They paid her $1.50 for it; and, after they had gone home, she went out into the field, and brought it back as good as it ever was.—*Advance.*

AN UNFORTUNATE COUNTRY.

ONE ceases to be surprised at the anxiety of the citizens of the Flowery Kingdom to escape from their native land, when he learns that in that ill-starred country there are no lawyers. The Chinese authorities have an unaccountable prejudice against lengthy proceedings, and regard it as of more importance that a conclusion shall be promptly reached than that it shall be absolutely accurate. On the other hand, a trained practitioner of the common law, as everybody knows, considers it the

ROYAL BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

main object of a trial that his view shall be adopted, and failing in that he has no desire save to prevent any final decision whatever. Especially in criminal cases is this penchant of the Chinese for summary methods manifested. Anybody may make an arrest. The magistrate examines the prisoner, and his replies are stimulated by lashes of the bamboo rod across his bared back. The population being about fifteen hundred to the square mile, human life is lightly esteemed, and the death penalty is inflicted, in the magistrate's discretion, for the smallest crimes. There is said to be no jurisdiction in the courts for the collection of debts, and consequently most business is done on a cash basis.

Instead of sending missionaries to China, let us send her some of our lawyers. A few could surely be spared.—*The Maryland Law Record.*

ONE AFRAID, THE OTHER DARSN'T.

ONCE on a time the sporting nobleman known as "the Giant" came into collision with a lot of "roughs" at a fair. His lordship, taking off his coat, tendered them a general invitation to send out "their best man and fight it out." Whereupon there arose in the midst of the roughs a severe contention as to their several pretensions to have a round with the Earl, each of them most modestly denying his individual claims to be considered the champion bruiser, and leaving "the Giant" the satisfaction of putting on his coat, walking away triumphantly, and telling them they were a pack of curs. The part of "the Giant" seems to be played by the Czar just at the present very effectually. The press of Germany, Italy, Hungary, Austria, and England are scolding away at him, whilst they call on each other to collar the Russian, as it is "the other fellow's interest" to play the part of champion. "Go on, Austria! It's clearly your business!"—"Oh, dear, no! Germany should take it up! The Danube is a German river."—"Not the little finger of my Pomeranian Grenadier," says the Hermit of Varzin, "shall be hurt in this quarrel." "It's the special duty of Great Britain to keep the Turk at Constantinople, and Bulgaria safeguarded on the Balkans." What Lord Iddlesleigh "observes" to them all may easily be guessed. And, meantime, "the Giant" appears to have it all his own way, and to refrain from an occupation of Bulgaria merely because he does not think it necessary.—*Army and Navy Gazette.*

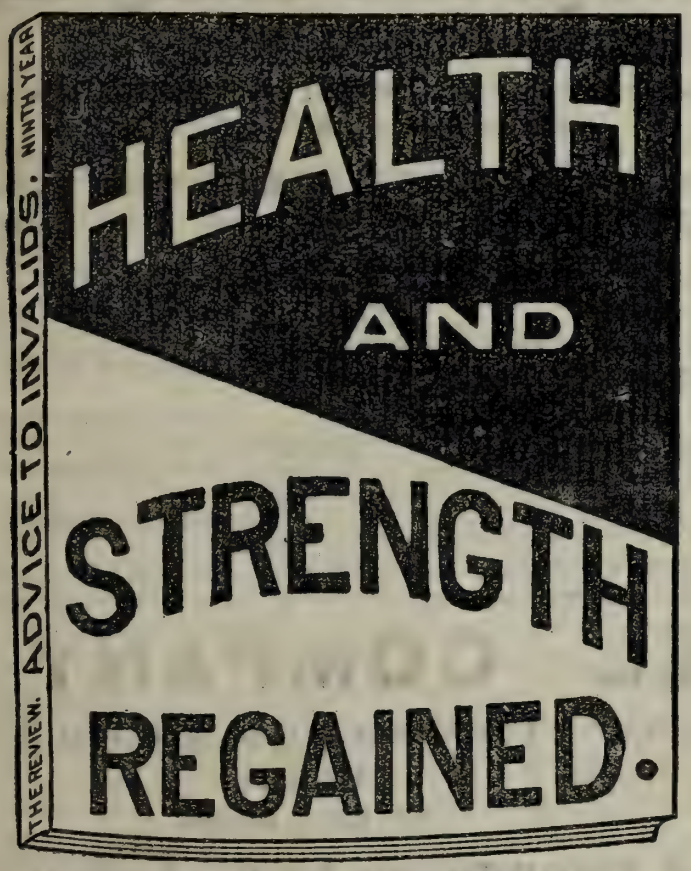
A CENTURY'S LAWS IN FRANCE.

A FRENCH journalist has counted up the laws passed in French since the revolution, and arrived at the total of about 200,000. From the decree which proclaimed Louis XVI. the restorer of French liberty, in August, 1789, until May, 1793, 1,200 acts were passed. Between 1793 and the First Empire there was a total of 10,572.

The laws and decrees under Louis XVIII. came to 18,653—an average of 2,072 per year. Charles X. went beyond this, and with an average of 2,645 every year reached a total of 15,810. Under Louis Philippe the number was 37,192, and the Second Republic, brief though it was, had time to pass no fewer than 12,386 laws. The total for the Second Empire was 45,589, but the highest average has been reached under the present regime, which, from September 4, 1870, until the end of last year, passed 40,129 laws or decrees. This represents a yearly average of 2,675. The exact total is 190,246 acts in ninety-six years, without counting many ministerial decrees and ordinances.

KRUPP GUNS.

COLONEL HENNEBERT, in a communication to the *Correspondant*, speaking of the German artillery, says of Krupp: "When we took some guns from the Chinese during the Tonquin Expedition they were made by Krupp; and more recently the heroic Gordon, shut up in Khartoum, mentioned the part played by these guns in the regions bathed by the waters of the White and the Blue Nile. And yet this *matériel* is far from being irreproachable. During the war of Bohemia several field pieces burst. After the war in order to allay public agitation, trials *à outrance* were made and these cost several young officers their lives. In 1868, General de Bœuf declared that several guns firing ordinary charges had burst; nor can it be said that the Prussian steel guns of to-day are safe. In fact, between 1867 and 1870, numerous accidents occurred in Russia, England, Germany, and Italy on land and on board ship." Colonel Hennebert says that during the Franco-German war, 200 Krupp guns burst, as mentioned by Major Haig in a report read before the Royal Artillery Institution, and by the Duke of Cambridge, in a speech in the House of Lords on April 30, 1876. "Out of seventy heavy guns employed against the southwest of Paris, thirty-six were disabled during the first fortnight of the bombardment by the effect of their own fire. At Versailles it was thought that if the French had held out a week longer, the German siege batteries would have been reduced to silence. It is equally certain that during the campaign on the Loire, Prince Frederick Charles had twenty-four of his guns disabled by their own fire." The Krupp system "requires delicate handling and the employment of a skilful *personnel* capable of sustained attention, and under the obligation of taking extremely minute precautions." The initial velocity and other merits of the gun are not denied.



THE SORROWS OF SOVEREIGNS.

A LONDON correspondent writes:

"The British lion having delivered himself of a most stentorious and tree-shaking roar of defiance, listens now for the echoing answers which shall tell him that he is not alone in his desire to brave the Russian bear. The bigger beasts compliment him on the splendid volume of his voice and the clearness of his challenging note, but there is no sign of that spontaneous rushing to aid him in the fray which was expected on their part, and the lion has no idea of fighting alone.

"The truth is Austria is afraid. The Emperor is a disappointed, melancholy man. He dreamed in his youth that he would be a second Cæsar, restoring and augmenting the ancient glories of the Hapsburgs, and finds himself instead a humiliated deputy of Bismarck, forced to pocket alike warnings from Berlin, sneers from Pesth, and bullying insults from St. Petersburg, and to pretend that he likes them all. Vienna talks even more of the new pamphlet declaring the Austrian Army worthless than of Kalnoky's buttery evasions of the point at issue. All the reports I can get affirm that the army is in a wretched state despite Byland's official assertion that it can be mobilized now in less than half the time it would have taken a decade ago."

Under the head of "Gossip from Europe," the New York *Times* says: "Fate never played on mortal a crueler trick than when she suddenly hurled upon Alexander the load of Czarship. To be absolute master of over a hundred millions of human beings is in itself a task of inconceivable magnitude. When, further, the task is complicated by organized

COPIES FREE.

INVALIDS AND OTHERS SEEKING HEALTH,

Strength, and Energy, should avoid Drugs, Secret Medicines, etc., and send for "The Review," or "Health and Strength Regained," a large Illustrated Journal, published entirely for their benefit.

It Treats on Health, Hygiene, Physical Culture, and Medical Subjects, and is a complete encyclopædia of information for suffering humanity afflicted with long-standing, chronic, nervous, exhausting, or painful diseases. Every subject that bears on health and human happiness receives attention in its pages; and the many questions asked by ailing persons and invalids who have despaired of a cure are answered, and valuable information is volunteered to all who are in need of medical advice. No similar work has ever been published. Every sick or ailing person should have it.

Young and Middle-Aged Men, and others who suffer from nervous and physical disability, exhausted vitality, premature decline, etc., are especially benefited by consulting its contents. Everything such sufferers wish to know is fully given in its pages. If in need of medical aid or counsel, read it before "doctoring" or investing in medicines or appliances of any description, and you will save time, money, and disappointment. If using medicine, or medical treatment of any kind, read it and learn the better way.

THE REVIEW exposes the frauds practiced by quacks and medical impostors who profess to "practice medicine," and points out the only safe, simple, and effective road to health, vigor, and bodily energy.

Beware of the sham curative articles called Shields, Generators, Girdles, Pads, Brushes, Corsets, Clothing, Plasters, etc., now deceptively advertised as Electric, Voltaic, or Magnetic. These articles are as entirely spurious as the advertisements concerning them are insidious. This can be easily detected by a simple test which is fully explained in THE REVIEW.

Electric Belts and all curative appliances are treated upon; all about them. Belts on thirty days' trial (?) and other fallacies reviewed. Thousands of dollars saved nervous-debility sufferers and others by the advice given.

Reader, are you afflicted and wish to recover the same degree of health, strength, and energy experienced in former years? Do any of the following symptoms, or class of symptoms, meet your diseased condition? Are you suffering from ill-health in any of its many forms consequent on a lingering, nervous, chronic, or functional disease? Do you feel nervous, debilitated, fretful, timid, and lack the power of will and action? Are you subject to loss of memory, have spells of fainting, fullness of blood in the head, feel listless, moping, unfit for business or pleasure, and subject to fits of melancholy? Are your kidneys, stomach, urinary organs, liver, or blood in a disordered condition? Do you suffer from rheumatism, neuralgia, or other aches and pains? Are you timid, nervous, and forgetful, with your mind continually dwelling on the subject? Have you lost confidence in yourself and energy for business pursuits? Are you subject to restless nights, broken sleep, nightmare, dreams, palpitation of the heart, bashfulness, confusion of ideas, aversion to society, dizziness in the head, dimness of sight, pimples and blotches on the face and back, and other despondent symptoms? There are thousands of young men, middle-aged and old, who suffer from nervous and physical debility. There are thousands of females broken down in health and spirits, and who, from false modesty or neglect, prolong their sufferings.

Why further neglect your health and future happiness, or continue to be dosed, drugged, and quacked, when THE REVIEW, which costs you nothing, teaches the true and only way to permanent health, strength, and vigor?

"THE REVIEW," OR "HEALTH AND STRENGTH REGAINED,"

Contains particulars and information worth thousands to suffering humanity.

THE REVIEW is now in its ninth year of publication. Complete specimen copies mailed free. Address, naming this paper,

Publishers REVIEW, 1164 Broadway, New York.

Now is the time to apply, as you may not see this notice again. Send your addess on postal card to-day.

robbery among officials and organized murder among subjects, by continual necessity of provoking war by aggression abroad, and ceaseless terror of assassination at home—it becomes simply impossible. A less stubborn and less conscientious man than the Czar would have cut his throat long ago under the frightful load imposed upon him. He suffers, and sticks to his post. He does no good to himself or anybody else. His wife is a pale spectre of her former self, looking old enough to be the mother of her older, but marvellously preserved, sister, the Princess of Wales, worn and gray-haired with her life of fright. Their eldest son, the Czarowitz, a boy of 18, is in a decline from which there is little hope of recovery—simply terrified out of his life. But the Czar still manfully tries to be Czar. The task is beyond him. If there could be a man made up of Bismarck, Washington, Richelieu, Bonaparte, and Tamerlane put on the Russian throne, perhaps he could hold his place and compel success. The present Czar lives in the dazed nightmare of terror which paralyzes a prisoner under indefinite sentence of death. Any moment the messenger of the axe may appear. He cannot sleep; when he eats, it is as an animal, not as the master of the world's costliest cuisine. He tries to work, without understanding the things he does or caring for them. He looks into every man's face for a sign of murderous knowledge. He trusts nothing—nobody. The gulf between what he is and what he is supposed to be is so abysmal—the joke of being at once the most powerful man on earth and the poorest hunted slave in existence is so grimly horrible—that he becomes a madman almost in the effort to comprehend the two extremes. The longing to assert himself, to put to the test his autocracy, drives him to wild and foolish measures. His whole course towards his hated cousin, the Battenberg, and the Bulgarians has been that of a crazy man. People who know Russia best expect that his brain will give way under the strain long before we have heard the last of the Bulgarian question."

THE Duke of Cambridge has just issued an order partially rescinding the old rule which imposed a penalty upon all soldiers caught smoking in the streets. Now, during certain prescribed hours, English soldiers may appear in public with their cigars, cigarettes, or clay pipes, and puff the Duke's military genius.

ATTACHED to the British Indian Army, which is now in Burmah trying to wipe out the murderous bands of Dacoits that are affrighting the country, is an elephant battery. Seven-pound guns, including their carriages, are fastened to frame-work and hoisted upon the backs of the elephants. In this way the troops are able to transport their artillery through long stretches of country where there are no wagon roads, and where they would not be able to take their cannon if they did not have beasts of burden strong enough to carry the artillery on their backs.

THE French War Minister has already categorically stated that nothing short of 400,000,000 fr. will suffice to provide new weapons and other means of defence. The Gras musket, which succeeded the Chassepot, and which was to have performed wonders, is now declared a useless weapon, and, save in Tunis and Tonquin, has served no purpose. If the Gras musket is to be replaced by a repeating weapon, the change must be effected at once, at the cost of $80,000,000. It is calculated that 3,000,000 muskets will have to be manufactured at once. Even if the price of each musket were as low as $13, this alone would imply an outlay of $39,000,000. The Minister counts on providing at least 500 cartridges for each musket, which brings the expense to a total of $60,000,000. A hundred millions more will soon be exhausted if every fort in the Republic is to be provided, as Gen. Boulanger intends, with steel cupolas to protect the troops.

LIKE OIL UPON TROUBLED WATERS is the influence of HALE'S HONEY OF HOREHOUND AND TAR upon a cold.
PIKE'S TOOTHACHE DROPS Cure in one Minute.

R. W. TANSILL & Co., Chicago, are now making especially for the Officers of the Army and Navy a new and very fine Havana hand-made cigar, known as "TANSILL'S REINA." They are put up in beautiful packages of 25 cigars, each cigar banded. They come in three sizes, 4¼, 4⅝, and 4¾ inches, while their moderate cost, viz. $65, $70, and $75 per thousand brings them within the reach of the entire Service.

BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

C. W. SIMMONS & CO.,
32 to 44 North Street, Boston.

NEW ENGLAND MUTUAL Life Insurance Company, OF BOSTON, Mass.

Assets, ------ $17,846,546.65
Liabilities, --- 15,238,761.16
Total Surplus, $2,607,785.49

This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.

Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.

Pamphlets explanatory of the New Feature may be had on application at Compy's Office,

POST OFFICE SQUARE.

Proposals For Quartermaster's Stores.

NEW YORK DEPOT OF THE QUARTERMASTER'S DEPARTMENT, HOUSTON ST. Cor. Greene, New York City, Nov. 19, 1886.

SEALED PROPOSALS in triplicate, subject to the usual conditions, will be received at this office until 11 o'clock A.M. Dec. 9, 1886, at which time and place they will be opened in the presence of attending bidders, for furnishing and delivering at this depot, miscellaneous Quartermaster's Stores, such as lumber, window glass, lime, paints, hardware, etc., etc., specified on schedule to be seen and had at this office.

The Government reserves the right to reject any or all proposals, or to accept, as may be most advantageous to the Department.

A preference will be given to articles of domestic production and manufacture, conditions of price and quality being equal.

Envelopes containing proposals should be marked "Proposals for Quartermaster's Stores, to be opened Dec. 9," and be addressed to the undersigned.

ARMY NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 19. WHOLE NUMBER 1215. | NEW YORK, SATURDAY, DECEMBER 4, 1886. | SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

THE Secretary of the Navy has designated Cooper Building in the Boston Navy-yard as a naval prison, and directed that it be fitted up for this purpose without delay.

ENGINEER IN-CHIEF LORING'S recommendations for alterations in the machinery of the *Atlanta* have been referred to the Advisory Board, and until they have acted upon them nothing further will be done toward getting the vessel ready for another trial.

THE regulations established in G. O. 86, current series, prescribing a course of instruction at military posts in the simpler practice of medicine and surgery, is a commendable one, and it is to be hoped that the "voluntary attendance" may not be like that of many of the post schools, represented by a zero. The medical officers themselves have a special interest in getting up classes, for the course will serve to keep from rusting many of them stationed at posts where opportunities for practice are exceedingly limited.

FROM correspondence this week, we infer that the new regulation that "no soldier shall be confined except on the order of an officer who shall previously inquire into his offence," does not meet with universal favor. One critic says: "Why profess to constant endeavors to elevate the position of the non-commissioned officer, in the face of such a restriction. There may be cases of abuse of power, but they are rare, and the non-com. should be allowed to confine first and report afterwards." We should be pleased to receive further expressions of opinion on this subject.

GENERAL JOHN MOORE, the new Surgeon General of the Army, bade farewell to his friends in San Francisco on Saturday last and is now en route to assume his new duties at Washington. He is expected there Dec. 4. His appointment will be handed him upon his arrival. Dr. MOORE is regarded as one of the hardest workers in the Department, and as the President and Secretary of War are in favor of a number of reforms in this branch of the Service, particularly with regard to pension work, a number of radical changes may be expected during the early days of the new administration.

WE are requested by the Second Comptroller to deny the statement, which appeared in some of the daily papers this week, to the effect that he had declined to allow mileage to officers when travelling between the United States and Alaska on the ground that such travel was "foreign travel." His ruling on this subject has directly the opposite effect. It was Comptroller UPTON who refused to allow the eight cents per mile for the full route between San Francisco and Sitka. Under his ruling officers travelling between these points received mileage for 658 miles and actual travelling expenses for the remainder of the way. When the present Comptroller assumed office, in June, 1885, he reversed this decision, and officers are now receiving eight cents per mile for the entire route.

SOME weeks since we announced the production of Corrugated Boiler Flues, the original invention of an American, RICHARD MONTGOMERY, by THOMAS F. ROWLAND, of the Continental Works. The favorable reception of Mr. ROWLAND'S enterprise has been immediate and we cordially congratulate him on its commercial success. We also congratulate our Engineers and Constructors on the fact that they need not go abroad for this important feature of ships and locomotives, and the grave Senators and Representatives who frame appropriation bills, that there is one less reason against a total, unequivocal prohibition of the use of foreign material or device in the building of national vessels.

ON Wednesday next, December 8, two veteran officers of the Army will be retired for age, Brevet Brigadier-General LUTHER P. BRADLEY, colonel 13th Infantry, and Colonel GEORGE L. FEBIGER, assistant paymaster general. General BRADLEY served with distinction during the war as lieutenant colonel and colonel of Illinois troops and as brigadier general of volunteers. On the 28th of July, 1866, he was appointed lieutenant colonel 27th Infantry, and March 20, 1879, colonel 3d Infantry, afterwards being transferred to the 13th Infantry. For gallant and meritorious services at the battles of Chickamauga and Resaca he received the brevets of colonel and brigadier general. For some time past he has been in command of the District of New Mexico, with headquarters at Santa Fe, relinquishing it very recently to General GRIERSON to await retirement. Colonel FEBIGER was appointed a paymaster, with the rank of major, May 3, 1861, and served with great merit during the war, and received on this account the brevet of lieutenant colonel. He attained his present grade of assistant paymaster general, with the rank of colonel, January 24, 1881. Both officers have deserved well of their country, and we wish for them in their retirement many pleasant years of peace and prosperity.

MAJOR-GENERAL HOWARD has recently issued a General Order, in which he deprecates the "general indifference to drill and military instruction throughout the Division of the Pacific," adverts to the "woful ignorance shown by many officers, both as regards the tactics and the Army Regulations," and says to commanding officers that they "should not simply issue orders on the subject but see to it that they are properly and duly executed." We should scarcely have thought that such a condition of affairs could have existed at any military post in any Division, for we are well aware of the efforts which Lieutenant-General SHERIDAN and his Division and Department commanders have made and are making to keep the troops in the highest state of efficiency compatible with the calls upon them for active service in the field. But, in our opinion, it is upon the post commander that the responsibility in this matter chiefly rests. Take an active, practical and ever-vigilant post commander, who is not too inert to personally supervise the execution of his own orders, and there is sure to be the same qualities exhibited by the company commanders and the officers under them. So with the non commissioned officers, and to a great extent with the privates. The evil is one which should be stamped out with an iron hand by the superior military authorities, for the country has a right to expect from its commissioned officers, at all times and in all seasons, the execution of the solemn obligation "carefully and diligently to discharge the duty of their position by doing and performing all manner of things thereunto belonging."

IN the London *Daily Telegraph* of November 11, appears a long article on the subject of English guns and powder, in which the management of English ordnance affairs is sharply criticized, and the disadvantage England is under, as compared with her most active rival, Russia, is set forth in the spirit of gloomy prognostication. It is shown that there is urgent need for a thorough sifting of the present system of supervision and control which becomes day by day more manifestly imperative. Among officers of the highest rank in the British Army and Navy whenever Woolwich and Enfield are spoken of they are invariably dubbed "those close corporations." The administration of both places, it is said, is so deeply mired in official ruts that it is quite hopeless, by mere issue of orders, to effect the greatly needed reforms or to infuse modern life and vigor into the establishments. Russia has most unaccountably been allowed to outstrip England in the manufacture of guns and powder. After patient effort, untrammelled by tradition and custom, utilising every available branch of science with creditable judgment, the Russian Ordnance officials are, as the result of their labors, far in front nowadays in the manufacture of guns and gunpowder. As far back as 1866 the Russian officials discarded the antiquated haphazard forms of guns and methods of making gunpowder. Acting upon scientific data, fixed standards were devised for the size and calibres of cannon and projectiles, as well as for the constituent proportions of the materials used in powder making. In Russia there is no chance of such miscarriages as occurred in the Soudan campaign, when shells for a seven-pounder were ordered up the Nile and gotten to the front at an extraordinary expenditure of exertion, and then discovered to be useless because they were intended for another pattern of the same gun. "To complete the record of glaring contrast," says the *Telegraph*, "it is deserving of notice that whereas our guns cannot be fired in safety with full powder charges, no Abouchoff gun has yet burst, nor have any of their gunners been killed or injured." While Russian officials having adopted a uniform series of standard bores and measurements, have been able to bend all their energies towards improvements in the quality as well as modifications of the form of their ordnance, the English officials have remained in the quagmire of experiment and discussion as to the rival merits of slow and quick burning gunpowder, muzzle or breech loading cannon, the kinds of rifling, four-pounders, seven-pounders, or nine-pounders, iron or steel in shell, and common shell and star shell, etc. Every nation in Europe except England has adopted the magazine gun, and has either armed its troops with these deadly weapons, or is busily hastening to do so. Russia has already armed her naval force with a magazine gun or repeating rifle, and is intent upon the introduction of the weapon into the army. Great Britain alone stands officially to-day on this question where she stood in 1863, side by side with her cousin of the United States, whose officials may perhaps excuse themselves for their own neglect by joining in the refrain:

"It's English, quite English, you know."

THE London *Standard* says it is seriously proposed at Sofia to nominate an American as a candidate for the Bulgarian throne. We would respectfully nominate Sergeant Bates, who has carried the American flag almost everywhere except in Bulgaria, and who is now attached to Buffalo Bill's Wild West Show.

PERSONAL ITEMS.

MRS. GRANT is expected to spend a portion of the winter in Washington.

LIEUTENANT L. M. BRETT, 2d U. S. Cavalry, starts East in a few days to spend the winter.

LIEUTENANT B. D. SPILMAN, 7th Cavalry, of Fort Meade, will spend the holidays in the East.

MAJOR ANSON MILLS, 10th U. S. Cavalry, now in New York, will shortly join at Fort Grant, Ariz.

CAPTAIN L. H. ORLEMAN, U. S. A., retired, lately in the North, has arrived at his home at Palma, Fla.

ASSISTANT SURGEON L. S. TESSON, U. S. A., lately in from Arizona, is visiting friends at Lewisburgh, Pa.

LIEUTENANT A. L. O'BRIEN, 2d U. S. Cavalry, lately at Weston, Va., will spend the winter on leave.

GENERAL C. B. COMSTOCK, U. S. A., of Willet's Point, was expected in St. Louis this week on a short visit.

MAJOR FREDERICK MEARS, 25th Infantry, has rejoined at Fort Sisseton, Dakota, from a short leave of absence.

COLONEL M. M. BLUNT, 16th U. S. Infantry, who is North, on leave from Fort Concho, Texas, will remain over the Christmas holidays.

LIEUTENANT JAMES ALLEN, 3d U. S. Cavalry, who recently relinquished the regimental adjutancy, is coming North on a four months' leave.

GENERAL A. V. KAUTZ, U. S. A., and the headquarters of the 8th Infantry were expected at Fort Niobrara, Neb., this week from Arizona.

MRS. HAZEN, wife of General W. B. Hazen, U. S. A., was to sail from New York for Europe on Saturday of this week. She will spend some time abroad.

CAPTAIN G. G. GREENOUGH and Lieut. J. A. Lundeen, 4th U. S. Artillery, of Fort Warren, visited Fort Preble, Me., this week on Court-martial duty.

CAPTAIN H. H. HUMPHREYS, 15th U. S. Infantry, on leave from Fort Buford, Dakota, is visiting his mother at 1,224 Connecticut Avenue, Washington, D. C.

LIEUTENANT J. B. RODMAN, 20th Infantry, who relinquished the regimental adjutancy lately to go on recruiting service, has arrived at Columbus Barracks, O.

WILLIAM POPE, the negro convicted of assault and battery with intent to kill Gen. C. C. Augur, U. S. Army, in August last, has been sentenced to the Albany Penitentiary for three years.

COLONEL L. L. LANGDON, U. S. A., was expected in Brooklyn, N. Y., this week on a brief visit to friends before returning to Fort Barrancas, Fla., where he is due about the middle of December.

COLONELS CHAS. PAGE and J. P. Martin, U. S. A., have returned to Fort Leavenworth from a trip to Des Moines, where they assisted in the organization of the Iowa Commandery of the Loyal Legion.

MAJOR JOHN W. WILLIAMS, surgeon, U. S. A., who arrived in New York early in the week from the West, is visiting friends in Washington, and next week will go to New Orleans for duty at Jackson Barracks.

LIEUTENANT-COLONEL ALEX. PIPER, 1st U. S. Artillery, is the president of a General Court-martial sitting at the Presidio of San Francisco for the trial of Lieut. B. S. Wever, 1st U. S. Infantry, recently at Plattsburg, N. Y.

GENERAL W. T. SHERMAN, U. S. A., and other distinguished officers are expected to be present at the meeting Saturday evening, Dec. 4, at the Academy of Music, Philadelphia, of the McClellan Memorial Association Committee.

ASSISTANT SURGEON C. N. B. MACAULEY, U. S. A., recently called East from Camp Poplar River, Montana, by the death of his mother, visited friends in New York City and at Governor's Island early in the week. He will return to his post in a few days.

LIEUTENANT A. W. GREELY, U. S. A., came to New York on Saturday last and attended the Stanley dinner at the Lotos Club in the evening and on Tuesday evening attended the musicale and reception by Kane Lodge, No. 454, F. and A. M., in Masonic Hall.

COLONEL J. P. NICHOLSON read before the United Service Club of Philadelphia on Wednesday evening an interesting paper on "Gettysburg: the Pinch of the Fight." There was a large audience, and the author's thorough knowledge of his subject made the occasion a particularly interesting one.

GENERAL NELSON A. MILES, who rounded up Geronimo and all his band, has possession of the gun, cartridge sling and other military equipments of Geronimo and the favorite pony that the savage chief used in his marauding and murderous wanderings. Lieut. Dapray, Gen. Miles's aide-de-camp, has the gun and equipments of Natchez, the last war chief captured.—*Critic.*

CHAPLAIN JEREMIAH PORTER, U. S. A., and family, will spend the winter at Tampa, Fla.

COLONEL H. C. MERRIAM, 7th U. S. Inf., of Fort Laramie, projects a trip to Europe soon.

COLONEL H. C. WOOD, U. S. A., will occupy, next week, No. 1419 K street, Washington, D. C.

SURGEON D. G. CALDWELL, U. S. A., is in the East on a six months' leave from Fort D. A. Russell, Wyo.

MAJOR W. H. ECKELS, Paymaster, U. S. A., has returned to St. Paul from a trip to Helena, Montana.

COLONEL L. B. BRADLEY, 13th U. S. Infantry, who will be retired Wednesday next, Dec. 8, is in Chicago.

LIEUTENANT E. S. FARROW, 21st U. S. Infantry, has taken charge of recruiting matters at Fort Bridger, Wyoming.

MRS. HOWARD, wife of Lieut. Guy Howard, 12th U. S. Inf., of Fort Niagara, is visiting her parents at Omaha, Neb.

COLONEL M. M. BLUNT, 16th U. S. Inf., was in New York City this week, with quarters at the Park Avenue Hotel.

MAJOR C. C. RAWN, 24th U. S. Infantry, is still at Lancaster, Pa., in poor health and will remain East for some months yet.

LIEUTENANT C. L. STEELE, 18th U. S. Infantry, arrived in New York a few days ago from Europe, and goes to Fort Riley, Kas.

COLONEL E. F. TOWNSEND, 11th U. S. Inf., lately visiting in New York City, rejoined at Madison Barracks, Sackett's Harbor, on Tuesday.

LIEUTENANT M. C. WESSELLS, 24th U. S. Inf., on sick leave from Fort Elliott, Tex., will spend the greater portion of it at Litchfield, Conn.

LIEUTENANT D. L. BRAINARD, 2d U. S. Cav., will bid farewell to friends in the East at New Year's, and start to join his troop at Fort Walla Walla.

OMAHA papers refer to a suit for maintenance against Lieut. R. T. Earle, 2d U. S. Inf., who is on duty at Fort Omaha, Neb., preferred by Mrs. Earle.

CAPTAIN H. F. BREWERTON, 5th U. S. Artillery, returned this week with his battery to Fort Schuyler, N. Y. H., from a month's tour of duty at Bedlow's Island.

COLONEL W. B. LANE, U. S. A., reported as having been appointed post trader at Fort Bliss, Tex. is at San Diego, Cal., and has stated that he never thought of the position

LIEUTENANTS V. H. BRIDGMAN, W. Loveridge and G. W. S. Stevens, of the Artillery Arm, reported at Willet's Point on Wednesday for a tour of torpedo instruction, which will terminate June 30, 1887.

ON Thursday next, Dec. 9, a marble monument will be placed over the grave of the late General G. R. Paul, U. S. A., at Arlington Cemetery, by the G. A. R. Post of Westwood, N. J., bearing the deceased officer's name.

LIEUTENANT HARRY C. HALE, 12th U. S. Inf., was married on Thursday at St. Paul's Church, Buffalo, to Miss Elizabeth Smith, daughter of Mr. and Mrs. William Smith, of that city. After a wedding tour of a few weeks Lieutenant Hale and his bride will join at Fort Niagara, N. Y.

THE elegant reception recently tendered by General and Mrs. Dandy to General and Mrs. Crook is described as far surpassing anything that has occurred in Omaha this season. Mrs. Dandy was assisted in receiving by Mrs. General Crook, Mrs. Read, Mrs. General Wheaton, Mrs. General Manderson, Mrs. Herman Kountz and Mrs. L. M. Bennett.

COLONEL MAJENDIE, of the Engineer Corps of the British Army, who, as the leading expert in dynamite and other explosives, is semi-officially connected with Scotland Yard, the headquarters of the English detective system, is in Washington. His visit is surmised to have some connection with precautionary measures which the British Government deem advisable in view of the new coercion policy of the Tory Government toward Ireland.

A WASHINGTON correspondent says: "The suggestion that the office of the Chief of Police, District of Columbia, be given to an Army officer detailed for the purpose will not prove popular. The experience with some of the Army officers detailed for District offices has been that they are not approachable by private citizens or disposed to listen patiently and respectfully to their complaints and requests. A notable exception was the late Engineer Commissioner Twining.

GENERAL STEWART VAN VLIET, U. S. A., says a correspondent of the New York *Star*, is a familiar figure in Washington. General Van Vliet has borne his full share of field work in the distant past. He is a very popular man, living in comfortable, though not ostentatious, fashion on Fifteenth Street, and having a most hospitable summer establishment near Long Branch. He is an habitue of the Metropolitan Club, beside holding membership in the Union and other clubs in New York. Although he was a graduated at West Point nearly half a century ago, he is active, hearty and vigorous, and he does society duty with an energy as remarkable as it is welcome.

THE marriage of Lieutenant James S. Pettit, 1st U. S. Infantry, to Miss Bessie Sharp, daughter of Major Alexander Sharp, Pay Department, U. S. A., which was postponed last week on account of the serious injuries received by the Lieutenant at the hands of a robber, took place at the Sharp residence, Leavenworth, Nov. 24, the ceremony being performed by Rev. Dr. Page, of the First Presbyterian church. Lieutenant Pettit had so far recovered as to be able to stand while the service was read by the minister. The bridesmaids were Miss Sharp, sister of the bride, Gertrude Wilson, Miss Hand and the Misses Casey; the groomsmen were Lieutenants Smith, Richardson, Scott, Ferris and Atkinson of the Army. Presents, both rare and valuable, were received from Mrs. U. S. Grant, Col. Fred. Grant, George W. Childs, Gen. Dent and many others. The marriage was quietly conducted, only members of the household, relatives and the attendants being present.

LIEUTENANT O. M. SMITH, A. D. C., lately in the South, has rejoined at San Antonio.

ASSISTANT SURGEON E. N. WILCOX, U. S. A., left Washington on Tuesday on a short leave.

COLONEL D. R. CLENDENIN, 3d U. S. Cavalry, left Fort Davis, Texas, this week on a month's leave.

LIEUTENANT WILLIAM BAIRD, 6th U. S. Cavalry, is in Washington visiting at General Absalom Baird's.

GENERAL J. B. RICKETTS, U. S. A., is reported as seriously ill. Mrs. Ricketts is in close attendance upon him.

MAJOR E. B. KIRK, U. S. A., of Atlanta, was in Charleston, S. C., this week on an official visit to Fort Sumter.

COLONEL G. H. ELLIOT, Corps of Engineers, U. S. Army, visited New York this week, stopping at the Everett House.

COLONEL T. L. CASEY, Corps of Engineers, U. S. A., arrived in New York this week and took temporary quarters at the Hotel Normandie.

CAPTAIN S. M. SWIGERT, 2d U. S. Cavalry, lately at Spring Station, Ky., on leave, registered early in the week at the Burnet House, Cincinnati.

GENERAL TIDBALL and Cols. Chandler and Haines, U. S. A., determined, this week, upon the site for the large new wharf to be erected at Fort Monroe.

MISS CHARLOTTE A. GOBLE, a grandniece of Chaplain Jeremiah Porter, U. S. A., was married at Chicago, Nov. 23, to Mr. Lewis H. Bushnell. Chaplain Porter performed the ceremony.

THE marriage of Lieut. C. P. Elliott, 4th Cav., to Miss Beaumont, daughter of Col. E. B. Beaumont, of that regiment, was to take place at Fort Bowie, A. T., on Wednesday of this week, Dec. 1.

AMONG the friendly tributes sent to Col. William Thompson of Bismarck, Dak., on occasion of the recent celebration of his 74th birthday, were some verses from Major Theodore J. Eckerson, U. S. A.

KENTUCKY politicians, it is said, are endeavoring to depose Mrs. Helm, Postmistress at Elizabethtown, Ky. She is a sister of Mrs. Abraham Lincoln. Her husband was the Confederate General Ben. Hardin Helm, who was killed at Shiloh.

JEFFERSON DAVIS on being asked whether there was any truth in the story that he had sworn Abraham Lincoln into the United States Army replied: "Not one grain. And you may set it down as a general proposition that everything you see published in a Northern paper about me is totally false."

COLONEL RICHARD I. DODGE, 1st U. S. Infantry, says he is too sound and live a man to be retired just now, and his 40 years limit of active service will not expire until July, 1888, and he will not be retired for age until May 19, 1891. This is in answer to a newspaper report that he was about to retire. Col. Dodge is visiting friends at 110 West 125th street, New York City.

REFERRING to the recent meeting of the State Academy of Science at Emporia, the Kansas City *Journal* says: "Not the least gratifying thing in the proceedings was the election of Chaplain John D. Parker, U. S. A., of Fort Riley, as President. Chaplain Parker was at one time a member of the editorial staff, and one of the founders of the Kansas City Academy of Science, and being now advanced to the head of such an influential organization as the Kansas Academy, is an indorsement that gives us great pleasure to see."

GENERAL WINFIELD SCOTT'S eldest daughter, Virginia, the most beautiful of that band of beautiful sisters, took the veil at the convent in Georgetown, D. C., nearly forty years ago, and died there a cloistered nun. The second daughter of Gen. Scott, Marcella, or, as she was commonly called, Ella Scott, married Charles Carroll McTavish, and saw her eldest daughter, a very lovely girl, received into one of the Maryland convents a few years since, and within a few days another daughter has forsaken the world, and sailed for Europe to become one of the Order of Carmelite nuns at Brussels.

"MRS. HANCOCK," says a Washington despatch, "is in Georgetown on a visit to the widow of Gen. Mitchell, General Hancock's old Adjutant. Captain Griffin, who married her niece, is stationed here, and Mrs. Hancock has been with them the best part of the time since General Hancock's death. At the first suggestion of the Hancock fund it was proposed to buy her a house in Washington, and W. W. Corcoran was consulted about it, but he advised the contribution of a fund to do with as she pleased The climate here suits Mrs. Hancock, and many of her old friends as well as her husband's relatives live here; so there are more reasons to attach her to Washington than to any other place."

THE Vancouver *Independent* says: Colonel G. H. Mendell, C. E., arrived in Portland on Tuesday. Capt. James Kennington, 14th Inf., is very sick, at Vancouver Barracks, and doubts are expressed as to his recovery. Col. John Moore, a great favorite when stationed here as a medical director, appointed Surgeon General, is well qualified for the position. Gen. John Gibbon, who has delivered his illustrated lecture on the Yellowstone region, three times in Portland, again delivered it before Sedgwick Post of the G. A. R. at Salem. Capt. A. H. Russell came up from California on Monday.... Major Waters, Post Surgeon, arrived at Vancouver Barracks with his wife last week.... Lieut. Alfred Hasbrouck, 14th Inf., has gone to San Francisco in charge of military convicts.... Major McGregor and Capt. S. T. Hamilton, 2d Cav., and Capt. J. W. McMurray, 1st Art., and family, were passengers on Saturday's steamer to San Francisco.... The board for the examination of Lt. Willard Young, Engineer Corps, Col. Mendell, Major Jones and Captain Powell, has finished its duties. Colonel Mendell returned to San Francisco Saturday.... The wedding of Mr. Jerome Reed and Miss Margaret Green in Portland, Wednesday, was attended by Lieut. Edward Burr, Engineer Corps, and wife; Lieut.-Col. J. D. DeRussy, Captain Jas. McConihe, Lieuts. Cabell and Hasbrouck, 14th Inf.; Lieut. J. N. Allison, 2d Cav., and Captain J. C. Merrill, M. D. It was a grand affair.

THE portrait of Hobart Pasha which accompanies he Sketches from his Life resembles that of our own Pasha Loring, late of the Egyptian Service.

GENERAL N. A. MILES, U. S. A., is still in Washington, and the sensational press reports as to his having left hastily for Arizona are wholly untrue.

THE following officers are registered at the War Department this week: 1st Lieut. Wm. Baird, 6th Cav.; Capt. C. M. Callahan, 4th Cav.; Col. O. L. Shephard, retired; Asst. Surgeon J. L. Phillips; 1st Lieut. Wm. J. Wakeman, Med. Dept.

GENERAL W. B. HAZEN, U. S. A., arrived in New York on Thursday to see Mrs. Hazen off to Europe. He denies that he has any intention whatever of taking a long sick leave, and going to Europe to spend the winter, His health is not very good, but he will remain on duty. This disposes of the alleged controversy over who shall be detailed as acting chief signal officer.

A LOCAL paper of Quindaro, Kansas, says: "Capt. and Mrs. W. P. Hogarty, U. S. A. have the heartfelt sympathy of their friends and neighbors on account of the loss of two bright and promising children who died of diphtheria last week. Both were buried on Friday last." We learn that the little boy of Capt. Hogarty, Herbert S., died Thursday, Nov. 18, aged three years. His little girl, Katie E., died Nov. 20, aged seven years.

THE Secretary of War has directed that Captain A. W. Greely, who is now on special duty in the Signal Corps, be made assistant to the Chief Signal Officer, and in the absence of that officer take charge of the office. By this means the Secretary has avoided making a decision on the point raised by the 2d Lieutenant of the Corps against the assignment of Capt. Jones, Q. M. Dept., as Acting Chief Signal Officer in the absence of General Hazen.

THE Omaha *Excelsior* says: "Maj. Wm. J. Chambers, who has just returned from Fort Russell, reports a decided improvement in the health of his brother, Col. Alex. Chambers, the commandant.... Capt. Dan C. Kingman, Corps of Engineers, who goes from here to New Orleans, is a thorough officer, as his work will show. Associated, as he has been, with the Dept. of the Platte for such a length of time, his removal to other fields of usefulness will be regretted by his large number of friends."

WE are informed that Col. W. B. Royall, 4th U. S. Cavalry, has not asked, nor does he intend to ask, that he may be retired under the provision of law, authorizing retirements at the discretion of the President after an Army officer has served 45 years, or has reached the age of 62. It was the commanding General who recommended, in view of Col. Royall's application for an extended sick leave, that he be ordered before a retiring board, and it was the Secretary of War who disapproved this request.

A DESPATCH from Washington reports that Maj. G. A. Armes, U. S. A., retired, is plaintiff in a suit in the District of Columbia for a commission on the sale to President Cleveland of his country residence near Washington. He claims to be able to show that the property was transferred before it passed to Mr. Cleveland, and taken out of his hands, on the plea that the President would not deal with him. It is asserted too, in behalf of the plaintiff, that a legal inquiry will show that the commission which he ought to have received was divided between two Federal officeholders in the District of Columbia.

THE *Sun* reports that Adjt. Gen. Drum held a warm place in the heart of the late President Arthur for little acts of courtesy shown to him when he went to Washington to assume the reins of government after the death of Garfield. At the White House were gathered all the members of the Garfield Cabinet and many of Garfield's friends. As he approached the usher opened the door for him, but when he crossed the threshold no one came forward to greet him, and he stood for some time silently awaiting an invitation to enter. He said they all stared at him as if he was some wild beast, or the assassin himself. He was about to withdraw, when Gen. Drum, who was talking in one of the further corners of the room, and had not seen him, came forward, greeted him cordially, and, taking his hand, drew him into the room. That broke the ice, and the rest came forward to receive him. Mr. Arthur often said that the few seconds he stood on the threshold of that door were most painful.

IT is understood that the Naval Examining Board have found Lieut. Clinton H. Lyeth, U. S. N., professionally and morally unfit for promotion. As this is his second time he has failed in his examination it follows that he will be dropped with a year's pay.

No action has yet been taken in the court-martial case of Captain Higbee of the Marine Corps, who was tried for drunkenness, nor has the Secretary decided upon the place of punishment of Paymaster Watkins. A report comes from Norfolk that Capt. Higbee has been acquitted. It is to be hoped that it will prove true.

CHIEF ENGR. WM. H. SHOCK, U. S. N., retired, returned to New York on Sunday last from an extended tour of the Continent, much pleased with his trip, but thoroughly glad to get back to his native land. He leaves New York for Baltimore the latter part of this week, where he will remain until the pleasant season for travel opens again.

A COURT-MARTIAL, consisting of Commander H. B. Robeson, Lieutenant-Commanders John McGowan and John C. Rich, Lieutenants Wm. Little, A. B. Speyers and Geo. A. Calhoun, and Lieut. (Junior Grade) York Noel, with Lieutenant S. C. Lemly, Judge-Advocate, has been appointed to meet at the New York Navy-yard, December 31, 1886, for the trial of four enlisted men.

LIEUTENANT M. FISHER WRIGHT, Capt. F. V. McNair, Lieut. E. D. Taussig, Comdr. F. W. Dickins, Comdr. Nicoll Ludlow, Naval Constructor F. L. Fernald, Comdr. C. H. Davis, Asst. Surg. T. A. Berryhill, Comdr. Yates Stirling, Medical Director Coues, Lieut. Jno. W. Danenhower, Comdr. C. F. Goodrich, Lieut.-Comdr. R. B. Bradford, Lieut. Jno. W. Stewart, P. A. Surg. W. R. DuBose, and Surg. H. L. Law, registered at the Navy Department during the week,

LIEUTENANT T. DIX BOLLES, U. S. N., is visiting relatives in Washington.

LIEUTENANT R. C. LEADER, British Navy, arrived in New York on Wednesday.

SURGEON ELI T. EEDE, British Navy, arrived in New York this week from England.

COMMANDER C. S. COTTON, U. S. N., rejoined at Norfolk, Va., from leave early in the week.

CHIEF ENGINEER W. H. SHOCK, U. S. N., arrived in New York from Europe early in the week.

PAYMASTER HENRY C. MACHETTE, U. S. N., of Norfolk, Va., who has been quite ill, is improving.

CAPTAIN W. R. BROWN, U. S. Marine Corps, lately returned from Peru is at his home at Tomsdale, Pa.

LIEUTENANT S. M. ACKLEY, U. S. N., has joined his family at 1705 Rhode Island Avenue, Washington, D. C.

LIEUTENANT G. M. STONEY, U. S. N., and bride, are in Washington, with apartments at the Riggs House.

LIEUTENANT B. S. RICHARDS, U. S. N., is in Washington, D. C., with quarters at 1705 Rhode Island Avenue.

CAPTAIN GEORGE BROWN, U. S. N., returned to Norfolk, Va., early in the week from a visit to Washington.

ENSIGN H. E. PARMENTER, U. S. N., who goes to Florida on Coast Survey duty, visited his parents at Newport, R. I., this week.

LIEUTENANT F. E. GREENE, U. S. N., has gone to Vincennes, Ind., to spend the winter, and on his way visited friends in Cincinnati.

LIEUTENANT RICHARDSON CLOVER, U. S. N., and Mrs. Clover are in Washington at the residence of Mrs. Miller on Connecticut Avenue.

COMMANDER B. H. MCCALLA, U. S. N., has been in San Francisco recently making inspections in connection with the Bureau of Navigation.

MR. GEORGE MILLER, Paymaster's clerk of the Fish Commission steamer *Albatross*, was married Nov. 24, at St. John's Church, Havre-de Grace, Md., to Miss Kate Charshee, of that city.

THE recommendations of Comdr. Sampson, Superintendent of the Naval Academy, relative to a return to the former period of four years as the full academic, commend themselves to all well wishers of the Navy.

CAPTAIN A. R. YATES, U. S. N., Captain Edward Field, 4th U. S. Art., and Comdr. F. J. Higginson, U. S. N., have been appointed members of a committee to have charge of a series of socials at the Casino, Newport, R. I.

PAY DIRECTOR EDWARD MAY, U. S. N., who is now in Washington on special duty, will shortly return to Boston to arrange the preliminaries for assuming charge of the Naval Pay Office there, as a relief to Pay Director Charles W. Abbot.

LIEUTENANT CHARLES H. JUDD, U. S. N., who recently failed in his examination, has been granted a rehearing by the Secretary of the Navy and will appear before the Examining Board, represented by a lawyer, the latter part of this week.

THE U. S. S. *Dolphin* is no longer acephalous, Comdr. Geo. F. F. Wilde, U. S. N., having been assigned to her command. It is quite likely this vessel will soon perform some other duty than keeping a weather eye on the Norfolk Navy-yard.

MRS. PAUL, widow of General Paul, U. S. A., has taken apartments at the Clarendon, Washington, for the winter and has her two daughters with her, Mrs. Marmion, whose husband is at sea on a three months' cruise, and Miss Genevieve Paul.

THE will of ex-President Arthur was filed this week. The estate is valued at about $100,000, and there are no public bequests. A considerable fortune was left some years ago to the two children—Chester Alan and Ellen L. Arthur—by their grandmother, Mrs. Herndon.

LIEUTENANT-COMMANDER Jacob E. Noël, U. S. N., has been detached from the *Adams* and ordered home, although his orders to her were made but little more than a year ago. Lieut. Comdr. Noël has had more or less trouble on board the *Adams*, and it is more than probable that this sudden ending of his cruise has some connection with his difficulties.

CAPTAIN RICHARD LAW, the commandant of the League Island Navy-yard at Philadelphia, will become a resident of Washington after his retirement from active service, Dec. 12. Among the officers mentioned as likely to succeed him at the League Island yard are Commo. Weaver, Commo. Greer, Capt. Kirkland, of the New York yard, and Capt. Seely, of the League Island yard.

BREVET LIEUTENANT-COLONEL JAMES FORNEY, Major U. S. Marine Corps, was married at Lexington, Ky., on Wednesday evening of this week, to Miss Jane Stamp Richardson, daughter of Mrs. William H. Richardson. The ceremony was performed at the First Presbyterian Church. Colonel Forney and bride will occupy apartments at the St. George Hotel, Philadelphia, during the winter.

AT last, after an unusually extended cruise, Capt Wm. Brown, fleet marine officer of Admiral McCauley's squadron, has been ordered to the U. S. via the Isthmus of Panama, and will be in New York by the steamer next due from Aspinwall. Capt. Brown fairly captivated the English portion of Chilian society in Valparaiso by the exhaustless fund of anecdote and the readiness with which he is able to give just the right turn in repartee.

A GENERAL order will be issued in a few days promulgating the proceedings of the court-martial in the case of Lieut. Comdr. Jacob E. Noel, who was recently tried on the Pacific station and sent home to await the action of the reviewing authority. It is pretty generally understood that he was sentenced to dismissal, and that the findings were approved by the President. Lt.-Comdr. Noel is now at his home in Rosedale, Montgomery County, Pa.

LIEUTENANT L. C. WEBSTER, U. S. Marine Corps, was a recent guest at the Occidental Hotel, San Francisco.

MR. ALBERT T. COWIE and bride visited New York this week and go thence to Washington and afterwards to Norfolk, Va., where the *Saratoga*, to which Mr. Cowie is attached, is lying.

ENSIGN W. L. HOWARD, U. S. N., was married at New Haven, Conn., Nov. 23, to Miss L. G. Alden, daughter of the late Dexter Alden. The Rev. Newman Smyth, D. D., performed the ceremony.

PASSED ASSISTANT SURGEON F. B. STEPHENSON'S excellent "Summary of Holsti's Views on Arterio—Capillary Selerosis," read before the Naval Medical Society and given in full in the *New York Medical Journal* of Nov. 20, has been reprinted in pamphlet form.

BY the assumption of command of the storeship *Monongahela* at Coquimbo, Chili, by Comdr. Baker, Lieut.-Comdr. Livingston experiences an "Irish promotion," but will most likely remain on board for some time longer, inasmuch as his three years' tour of duty will not expire until June, 1887.

LIEUTENANT A. H. CLARKE, U. S. M. C., is to be congratulated on the encomiums bestowed upon the guard under his command on board the *Iroquois*. Military and other officials of the Peruvian Government have witnessed with pleasure the soldierly bearing and other evidences of good discipline displayed by Lieut. Clarke's little army of a little more than a dozen men.

CHIEF ENGR. GEO. F. KUTZ, U. S. N., in charge of the Department of Engineering at the Mare Island Navy yard, has made a wide circle of friends during his three years' tour of duty on the Pacific Slope, and his detachment and assignment to other fields of duty will be cause of deep regret. Particularly is this true of the officers of the yard. Mr. and Mrs. Kutz will be much missed.

FROM recent letters it is learned that the health of Passed Asst. Engr. J. C. Kafer is not yet sufficiently restored as to warrant a return to duty. Mr. Kafer has been passing a pleasant period of rest and recuperation at the North, the greater part of the time at Burlington, Vt. Mr. and Mrs. Kafer will probably return to Washington before the severe winter of Vermont comes to vex them.

LIEUTENANT L. L. REAMEY, U. S. N., and bride have returned to Washington, and are domiciled for the present at 1825 I street, where it is announced that Mrs. Reamey will soon be "At Home." Their recent wedding trip, while brief, was filled to the brim with that joy peculiar to those in their happy condition, and their many friends welcome them back with smiles and good wishes. Lieut. Reamey has resumed his labors at the Naval Observatory.

PASSED ASSISTANT PAYMASTER JOHN CLYDE SULLIVAN, U. S. N., is once more a resident of Washington, where he has a wide circle of friends. The Paymaster was recently detached from the training ship *Portsmouth*, and is now busily at work "settling accounts." As soon as his accounts are in the hands of the Fourth Auditor Mr. Sullivan will be placed on waiting orders. He is a brother of Asst. Paymaster H. R. Sullivan, now serving a tour of duty on the *Palos*.

MRS. BISSELL, widow of the late Commodore Simon B. Bissell, U. S. N., is living quietly on the heights of Georgetown with her only daughter, Georgiana. Mrs. Bissell is a member of the well known Loughborough family of Maryland, and a cousin, Lawyer Loughborough, is one of the most successful of the legal fraternity in San Francisco. Commodore Bissell, who was retired in 1870, lived abroad until his death, which occurred in Paris, France, Feb. 18, 1883.

A NORFOLK, VA., despatch of Nov. 28 says: "The Court-martial for the trial of Capt. John H. Higbee for drunkenness while on duty dissolved last evening and all the members left for home. It is alleged that the prosecution totally broke down and that Capt. Higbee has been honorably acquitted. Lieut. R. M. G. Brown was counsel for Capt. Higbee. Naval Constructor George R. Boush has asked to be detached from this Navy yard. Capt. William S. Muse has relieved Lieut. Coston in command of the Marine Barracks. Capt. George Brown, commandant, left for Washington to-night, to resume his duties as president of the Advisory Board

COMMANDER W. S. SCHLEY, U. S. N., in returning thanks to Governor Lloyd, of Maryland, for the gold chronometer presented him by that State for his service on the Greely relief expedition, says: "This testimonial, voted by the General Assembly of my native State to commemorate an act of duty which fell to my good fortune to perform, mainly through the devoted and loyal assistance of others, at a time when every heart throughout our land was touched by the helpless and almost hopeless situation of Lieutenant Greely and his comrades in the Polar regions, will always remind me that the people of my Maryland have decorated me to express their gratitude for what was done by the expedition under my command to save Lieut. Greely and his comrades from starving at Cape Sabine, in the Arctic regions."

THE Omaha *Herald* reports that the prettiest of the 4,000 women employed by the Government in Washington is a type writer in the office of Capt. Walker, the chief of the Naval Bureau of Detail. The *Herald* says: "She is a dark-eyed blonde, with a beautiful figure, and the officers of the Navy are all her devoted slaves. She was so much interrupted in her work by them that Commander McCalla, in whose room she is, was compelled to prohibit the officers from interviewing her in department hours, and got a large screen, behind which her attractions are now hidden. If the commander leaves his room for a moment there is certain to be some bold young tar about the building to run in for a chat with the beauty, and when McCalla returns the culprit is profuse in his excuses. The number of officers who have type writing to be done is astonishing, and they all want to superintend the work. When she leaves the Department at night there are generally two or more officers accidentally waiting in the corridor to escort her safely down the elevator and see her to the street car."

NAVAL SOCIETY.

In an article on Naval Society at Washington, the Philadelphia *Press* says:

The Admiral and Mrs. Porter represent the head of the Naval circle. Admiral Porter is the most interesting figure among the living officers of the Navy, not simply on account of his rank, but for his long period of distinguished service. He lives in an elegant residence, and entertains brilliantly, the Naval element predominating. His house is a sort of social rendezvous for the officers of the Navy and their ladies. The Admiral, who is now 73, is hale and hearty. He takes a fatherly interest and pride in the young officers, giving them good counsel and encouragement. Mrs. Porter takes a motherly sort of concern in the young wives as they marry into the Service.

Next in rank is Vice Admiral Stephen C. Rowan, an Irishman by birth, full of the wit, sunshine and courage of Erin's sons. He fought the first Naval engagement of the Rebellion in May, 1861.

The Senior Rear Admiral, John L. Worden, on his face bears the honorable scars of his desperate encounter in the *Monitor* with the rebel ironclad *Merrimac*. Mrs. Worden, one married daughter and Miss Grace compose the lady members of his agreeable family. Rear Admiral and Mrs. Jouett appear but little in society.

There are twenty Rear Admirals who make their residences in Washington during the season. One of the handsomest, most genial and refined in this group is Admiral C. R. P. Rogers. Mrs. Rogers is an authority in social affairs. Her married daughter is equally accomplished, and of her three courtly and fine looking sons two are lieutenants in the Navy and one in the Army.

The bluff old Admiral John J. Almy, with Mrs. Almy, and her pretty daughter, Annie, are very popular in society. A son in the Army and Navy represents the fighting instincts of the family. The hero Daniel Ammen is a widower of about a year. The Admiral is an authority on inter-oceanic canals.

Admiral Clark H. Wells and Mrs. Wells, formerly Miss Mary Welsh, of York, Pa., have always been faithful attendants upon social entertainments. The Admiral rests contentedly upon his laurels. Their daughter, Ellen, is the wife of Lieut. Reeder, executive officer of the *Galena*.

Admiral Thornton A. Jenkins, another hero of the Mexican War and Rebellion, is twice a widower. His two remaining unmarried daughters—Alice, an artist of merit, and Carrie, a society belle—do the social honors of his household.

Among the other Admirals and ladies who figure in the society of Washington are Thomas O. Selfridge and wife; their handsome daughter became the wife of a captain in the Russian Navy. William Radford, commander of the *Cumberland* when sunk by the *Merrimac*; Samuel Phillips Lee, who interceded Hood on the Cumberland River and saved Thomas's Army; Mrs. Lee, was sister of Montgomery Blair, Charles Steedman and Mrs. Steedman, Jno. C. Howell, wife and daughter, Maria; Thomas H. Patterson, wife and daughter; Thomas H. Stevens and wife, S. P. Carter and wife, S. P. Quackenbush and wife, Edmund Calhoun, wife and daughter; Earl English and Mrs. English, who has three married daughters; Francis A. Roe and wife, Andrew Bryson and wife, John C. Febiger and wife, William G. Temple and wife and John H. Upshur and wife.

The chiefs of the seven administrative bureaus of the Navy Department represent the more active society people on the naval list. The senior is Commodore Harmony, Chief of Yards and Docks. Mrs. Harmony is very popular among her lady friends. John G. Walker has the closest official relations with the Secretary, being the officer on detail. He has a quarter-deck readiness and precision in his method of doing business which has won the head of the Department. Captain Montgomery Sicard, at the head of the Ordnance Bureau, is a courtly member of society. Commander W. S. Schley, Chief of the Bureau of Equipment, will be remembered as the leader of the gallant expedition which rescued the remnant of the starved Greely polar expedition. Mrs. Schley is very interesting. Her daughter Virginia made her debut last season and is one of the capital belles. Surgeon-General Francis M. Gunnell, Chief of the Bureau of Medicine, is the Chesterfield of the Navy. Engineer-in-Chief Charles H. Loring is a widower. A bright and fascinating daughter presides over his attractive home. Colonel W. B. Remey, the Judge-Advocate General of the Navy, an officer of marines and a bachelor, has always been a prominent society man. His genial manners have made him a great favorite.

Among the commodores are Francis M. Ramsay, who married a sister of General Martin McMahon, of New York. Richard W. Meade, a nephew of the victor of Gettysburg, Mrs. Meade is a daughter of Commodore Hiram Paulding. Silas Casey, whose wife is one of the most attractive of the married ladies of naval society. Her beautiful daughter will make her debut this season. Commander Bowman H. McCalla, who had charge of the forces sent to Panama in 1885, lives in fine style. Mrs. McCalla, a Rhode Island beauty, entertains elegantly. She has many accomplishments. Commander Henry F. Picking, a bachelor, is one more left of the desirable catches among the middle-aged, non-marrying men of the Navy since Lieut. L. L. Reamey, master of ceremonies and leader of the german, married the charming descendant of Elder Brewster, of *Mayflower* fame. Lieut. S. C. Lemly, who is another leading spirit of the german, remains obdurate, although many dear hearts are waiting to receive a proposition. He is the best posted officer of the Navy on naval social affairs at the capital. He knows every officer, high or low, their wives, their daughters, their sisters, their cousins and their aunts in society, proposed debutantes included. The wife of Lieutenant Percival J. Wernick is Miss Hattie McCeney, one of the prettiest and most sensible of Washington's society girls. Commander John Schouler, one of nature's noblemen, and Lieutenant Richard Rush, of that historic Pennsylvania family, married sisters, the charming Misses Day, of New York. The young wife of Lieut J. C. Gilmore is the daughter of the former Collector of Alaska. Gilmore is one of the men of means of the Navy. Paymaster-General Watmough, wife and daughter, Mary, also honor the naval social list as a delightful family.

BUREAU OF PROVISIONS AND CLOTHING.

PAYMASTER E. N. WHITEHOUSE, U. S. N., Chief of the Naval Bureau of Provisions and Clothing, sets forth in his annual report the reforms which have been introduced into the management of his Department. Strict economy has been the aim, and it has been demonstrated that there has existed a large field for the introduction of more careful business methods in administration. No action of the Secretary favoring the covering into the Treasury of nearly one-third of a million dollars, surplus clothing and small-store funds, will practically remedy abuses made heretofore possible by the existence of excessive available funds. In the necessary purchases of supplies during the year the Bureau's contracts will exhibit gratifying results in the general reduction of prices, accompanied in many instances with manifest improvement of quality. The policy of supplying our vessels abroad by periodical shipments of supplies has been found in its operation to be quite satisfactory. "The economy of the present system of producing clothing for the Navy is so obvious that vessels of the Revenue Marine Service, as well as foreign war vessels in our waters, have sought to avail themselves of its advantages in procuring uniforms for their crews. The establishment of the carefully devised uniform regulations, under date of July 1 last, which provides that there shall be kept at the clothing factory a standard sample, to be adhered to in the manufacture of articles prescribed by such order, makes it possible, for the first time in the history of our Navy, to uniform the officers, the crew of a vessel in exact conformity with regulations."

An increase of ten in the Pay Corps is asked for, to enable the Department to assign the duties of receiver and assistant receivers at navy-yards and stations to trusted officers. It is suggested that there are many young men now graduated annually at the Naval Academy in excess of the vacancies for them in other corps, who, having inclination and adaptability for accountants' work, should be well fitted for appointment in the Pay Corps, and anxious to avail themselves of the opportunity to remain in a service for which they have been educated by the Government. It is recommended that corporate sureties be accepted on the bonds of pay officers. In the procurement of disbursing funds by pay officers abroad through the sale of drafts on the Department and its agent in London, during the past year, the gratifying fact is presented that the total sales netted a considerable premium, while heretofore the Government has, on the contrary, sustained average losses in such transactions.

THE SIGNAL SERVICE.

GENERAL W. B. HAZEN, Chief Signal Officer, has transmitted to the Secretary of War his annual report showing the operations of his bureau during the last fiscal year. The report begins with a statement of the value of the instruction afforded at Fort Myer, and the services of the Signal Corps attached to Gen. Miles's command during the Geronimo campaign are cited as evidence of the utility and necessity of trained signal officers. Regret is expressed at the action of Congress in failing to provide for a continuance of Fort Myer as a post of instruction.

Concerning the work of the meteorological division the report says: "Many very important laws have recently been deduced theoretically and confirmed by observations and experiments." It is stated that the plan of securing as observers young men qualified by education for the pursuit of scientific studies, and thus raising the standard of the enlisted force of the Signal Corps has now been in operation five years, and of the 378 enlistments made during that time, 97 were college graduates, and it has proved of benefit to the Service.

Touching the weather forecasts and special warnings issued during the year, it is said that the increasing demand for these forecasts may be taken as evidence of their value. An appropriation of $5,000 is recommended for the extension of the service, and the opinion is expressed that no appropriation would be more acceptable to the people. Of the 1,065 cold wave signals displayed during the year 911, or 85.5 per cent. were justified.

Being desirous of ascertaining the opinion of the public as to the value of the systems of warnings and indications by the display of flags, the Chief Signal Officer says he addressed a circular letter to those in charge of the display of these signals at various points, requesting that they report to what extent they give satisfaction. More than 250 replies were received, commending in the highest terms this new feature of the Signal Service. An appropriation of $10 000 is recommended to enable the bureau to furnish flags and transmit telegrams to these volunteer stations.

Of the utility of the flood warnings furnished by the Signal Service the report says a careful estimate shows that property valued at $128,000 was saved at a single station (Nashville, Tenn.,) by the warnings of the Signal Service on the Cumberland River during March and April of the current year.

Gen. Hazen suggests that some substantial reward should be given to the members of the international polar expedition, and hopes that Congress at its next session will recognize the successful work performed by Lieut. Greely and his party by providing promotion for the survivors and support for the families of those who lost their lives while serving with this expedition.

The appropriations for the service have been expended under the close scrutiny of the chief, and he believes that the accounts as now rendered will be satisfactory to the accounting officers of the Treasury. The report closes with recommendations looking to the establishment of additional cautionary stations on the lakes; the purchase at a cost of $10,000 of a new building for the accommodation of the bureau, and the enactment into law of the recommendations of the joint commission of Congress relative to the tenure of office and promotion of officers of long experience.

BUREAU YARDS AND DOCKS.

WE last week gave a portion of the annual report of the Chief of the Naval Bureau of Yards and Docks. The appropriations asked for by Commodore Harmony are as follows:

Portsmouth.—$20,000 for repairs and $9,500 for water supply.

Boston.—$50,000 to repair the wharves; $31,009.88 for a new iron caisson; $32,337.88 for new water pipes; $4,000 for a new cart shed, and $11,000 to repair officers' quarters.

League Island. $1,057,416 40 in all is required to make this yard available.

Norfolk, Va.—$600,000 for a timber drydock on the Simpson plan; $52,000 for new pumps and engines; $140,000 for the completion of the quay wall; $47,479.87 for the R. Rd.; $17,811 87 for water pipes; $12,000 for officers' quarters.

Mare Island.—$9,955.40 for the floors and foundations of the boiler and iron-plating shops; $16,664.09 for the removal of the gas-holder; $3 109.15 for new gas mains and pipes; $15,000 to repair roads; $5,000 for landings; $46,364 30 for storage cisterns: $110,000 to extend the quay wall.

Key West, Fla.—$8,000 for officers' quarters and an appropriation for an adjustable stern dock.

The entire amount asked for is $4,611,756.13, viz.: For support of Bureau, $11,980; general maintenance and contingent, $340,000; Naval Asylum, $87,511; repairs and preservation, $800,000; improvements at Navy-yards, $3,308 961.16; civil establishment, $63,203 97; total, $4,611,756.13.

In reference to docking facilities, he says:

The rapid and steady increase in the wealth, population, and importance of the Pacific coast of the United States, the great length of the shores of the territory, the most extensive held by any one country on the west coast of America, and finally the importance to us of the water communication along the coast, render the naval control of the west coast of North America a vital necessity to us for the intercommunication, for protection of our trade, and the defence of our domain. The recent acquisitions by European naval powers of various islands in the Pacific, which at once creates a rendezvous for their naval forces, doubtless to be followed by the establishment of naval stations, shows the transfer, to a great extent of naval activity at present and in the future to that ocean. In addition, it is humiliating to think that it is within the range of possibility that our wealth and defenceless condition on this coast may serve to tempt an attack from the adventurers or others who may have the governing power of any little insular or coast nationality with sufficient resources to obtain two or three modern armored vessels. The now dominating naval power, Great Britain, on the coast not only has begun to enter into rivalry with us here in trade and commerce, but also in creating military and naval resources for offence and defence. With their naval station and dockyard at Esquimault, in British Columbia, they already command one communication with our Alaskan territory, and render it imperatively necessary that our only naval station on the Pacific coast shall be fully supplied with resources necessary to sustain in magnitude and completeness the importance which, from its geographical position, this yard has among the naval stations of the world. At present there are no large dry docks in the United States nearer Pensacola than Norfolk, Va., and nearer Puget Sound than San Francisco. They can readily be obtained either by the construction and maintenance of these docks by this Department, charging moderate dues for docking merchant vessels, or by assisting private parties by advance of money or grants of land, with the condition that Government vessels be docked free of cost forever, and that the United States have control in time of war or of certain emergencies. A precedent for the latter plan has already been established in other countries and recently in the United States by the grant of Government land in Baltimore to a dry dock company upon the condition that all Government vessels be docked free of charge.

DEPARTMENT OF THE PLATTE.

THE annual report of Col. Henry, Inspector of Rifle Practice, is at hand, and is a most excellent one, embodying as it does much good advice. Bellevue rifle range is described, and credit for service rendered given to Lieuts. Noyes and Brooke.

Under progress in rifle firing it is stated that all have advanced during the year over last year's record, except one troop of cavalry, 7 companies of infantry, and two posts. The companies having gained over 30 units on individual figure of merit, and names of officers are given. The reason given for differences in figures of merit in skirmishing is also explained and it is thought 50 per cent. can be made by practice by any troop or company, and 100 as a possible by the more ambitious captain, and that this firing if conducted as required, and hits verified by those not firing cannot be questioned.

Under file and volley, credit is given to Captains Powell and Britton, 5th Inf., the only companies having this practice, and as showing the probable possibilities of hits in action. Mounted pistol firing will not, except in exceptional cases, amount to anything but a spirit of emulation, as evoked by publication in orders, as in other firings.

Under figure of merit it is believed by *systematic* and *continuous instruction* such high ones may be obtained as have been reported, and that the great advance in the knowledge of the powers of the rifle, as has been shown, do not justify the discrediting of any scores which may be certified to by an officer. The good results in the Department are attributed to Gen. Breck, who, by his hearty interest and prompt publication of monthly circulars, has done so much to awake interest and stimulate rivalry.

Under drill and target practice, it is held both can be carried on without conflict, but that the days of marching in line of battle are past when such a destructive musketry fire can be obtained at 2,000 yards and over, as has been shown by experiment with our rifle. Sighting may not be possible at this range, but a rifle held, the butt resting on ground, the muzzle up and at an angle of 32 degrees, will rain destructive shots, or a vertical fire, for the distance of over two miles. In fact, it would be illustrating "mortar firing" by musketry fire, and a less elevation could be applied for shorter distances.

The importance of competitions, and the information obtained and carried back to posts, is dwelt upon, and it is urged that each man should come carefully trained in both firings, so that the total made by the whole Department may be large. It is regretted that the $1.50 commutation was omitted this year for competitors, tending to bring discouragement to the enlisted man trying to excel in the most important attainment of a soldier—marksmanship.

The interest, zeal, and efficiency displayed by officers and enlisted men at the competition is spoken of, as well as the success of the team obtaining three places on the Division team out of the quota of one and one-half.

Of the five recommendations, the principal are the trial of a self-registering target not limiting the skirmish scores on any one day, but limiting the number of days in the season, and requiring every company or troop to shoot on call, at known distances and skirmish firing, the results being published in orders.

Gen. Breck, Adjutant General, Dept. of the Platte, has done a very excellent thing, in mailing to each enlisted sharpshooter a copy of yearly report, and circular on target practice. This is a sure way of giving information to a company, and also recognizing the ability of the recipient, "and will be appreciated by the soldier."

THE MESS.

Too Late.—A man, who had been hanging about the Departments in Washington for months vainly endeavoring to secure the place of watchman, while walking disconsolately on the banks of the canal one morning, meditating upon the best way to appease the demands of hunger and his landlord, discovered floating in the water the body of a man whom he recognized at a glance as having been employed as watchman in the Treasury Department only the day before. Without waiting to raise an alarm he bounded away, flew up the stairs of the Treasury Building and presented himself in breathless condition to the Chief Clerk.

"I want the place of So-and-So as watchman. I know there is a vacancy now. I saw his body floating in the canal only ten minutes ago."

"I am sorry," replied the Chief Clerk, "but the new man is already appointed."

"My God, when was the appointment made?" exclaimed the man in despair, "and to whom was it given?"

"Only this morning, and to the man who saw him fall in."

Testimony was taken in the Surrogate's Court, New York, this week, in the case of an ancient Irishwoman who died at the age of ninety-seven, after a life of hard drinking and hard smoking. The report of the testimony says: Ann Hyer, a niece of the legatee, said that Aunt Mary was lively and always ready to tell a joke.

Q.—Did she talk rationally? A.—Never in her life.

Q.—Do you mean to say that she was never rational? A.—I do—she never used vulgar language. [Laughter.]

CORPS OF ENGINEERS, U. S. ARMY.

THE annual report of the Chief of Engineers shows that 23 officers were on detached duty, 82 on regular duty connected with river and harbor work, and 3 on leave of absence. A strong appeal is made for appropriations for seacoast and lake frontier defences. During the year operations have been restricted to those necessary for the preservation and repair of existing work. It is believed that the failure of Congress to make appropriations for this important work has mainly arisen from the difficulty in determining the best method of procuring armor plate. The preparation of the sites, the construction of masonry foundation, the building of mortar batteries, work equally as necessary as that of procuring armor, will demand much time, and it is earnestly recommended that funds be at once appropriated for the emplacements of turrets and casemates, for earthen batteries, for 12-inch rifled mortars, and for submarine mines, all of which can be accomplished before armor plate is required. A total estimate of $1,043,000 for the preservation and repair of fortifications is submitted. Fuller and more detailed estimates, in accordance with recommendations last year of the board on seacoast defences, amounting to several million dollars, are submitted for the important work of constructing a complete system of defence for the more important coasts. A large appropriation is also asked for torpedoes. Owing to the failure of Congress to appropriate money either for fortifications or torpedoes it became necessary not only to suspend torpedo experiments but also to a great extent the practical instruction of the Engineer Corps in the details of this service; these experiments have been in progress for some years, and a system of fixed mines has been developed and gradually improved until it bids fair before long, if funds are available, to reach the highest point of excellence. The Board of Engineers stationed at New York has investigated and reported upon many important subjects during the year, among them the kind of metal best adapted for armor plates in fortifications; upon plans for improvements of many important harbors, and upon the best mode of torpedo defence. Experiments were confined principally to the Sims torpedo. This torpedo was in an experimental stage, and the year expired before the results obtained warranted the purchase of a large number of them for store. Five were purchased under the appropriation for the purpose. The board recommends an appropriation of $530,000 for the service of torpedoes.

The strength of the command at the Engineer School of Application at Willet's Point was on June 30, 21 officers and 351 enlisted men. It is urged that the command be kept at its full strength. $77,000 is asked for to maintain the post next year. The battalion of engineers at depot at Willet's Point consisted of 17 commissioned officers and 396 enlisted men. $19,000 is required for this service next year.

The work of improvements of rivers and barbors was carried on as far as possible under the balances on hand from the appropriation of 1884–5. No appropriation, it will be remembered, was made during the second session of the 48th Congress.

(Washington Correspondence of the Philadelphia Press.)

AN ORDNANCE SCANDAL.

THERE is a great deal of talk here in Navy circles in regard to the action of Lieut. Barber, who, with some younger naval officers belonging to the Ordnance Department, is likely to involve that branch of the Government in a serious scandal. Few people realize the enormous expenditures which will probably be made during the next four or five years in the Ordnance Department. Unlike most Governments, the construction of ships and the arming of them in the United States are carried on under the supervision of separate bureaus. There are three or four works in the United States which can undoubtedly manufacture the necessary gun forgings and armor plates for our Navy, viz., the Bethlehem, Pa., the Cellers Iron Company at Midvale, Pa., Park Bros., Pittsburg, and the Otis Cast-steel works, of Cleveland.

Unless these firms keep a very sharp watch they will find themselves knocked out in the tests of armor plates, etc., which were to be made in December, but which have now been postponed until March. It is believed and openly stated by persons who know what they are talking about that Lieut. Barber, the paid agent of Schneider's works at Creusot, France, and a coterie of young officers who are supposed to be also interested in the work being done abroad, will have charge of these tests. The hopes of the foreign firms are based upon the outcome of these tests. Should the reports be unfavorable to the American armor it is part of the scheme to ask Congress to enable the Department to purchase the gun forgings and armor plates abroad. The thing for the American steel manufacturers to do is to insist that the inspection should be conducted by the older officers of the Navy and those who have not injured their reputation by connecting themselves with foreign firms, as Lieut. Barber has, such men as Commo. Walker, Capt. Belknap, Admiral Jouett, Engr. Loring, and other men of high standing.

It is estimated that in the next five years we shall require about 10,000 tons of armor plate and 4,000 tons of gun forgings, the average cost of which will not be far from $550 a ton, making a total cost of $7,700,000. This will include armor and guns required for the four unfinished monitors, the two 6,000-ton cruisers, together with the vessels the contracts for which have not yet been issued. A commission of five or ten per cent, of this amount is a large sum of money.

The aggregate amount of the expenditure indicates that the work ought unquestionably to be done in this country. If we have not the necessary plant and machinery to do it, the only way to secure such plant would be to encourage American steel works to build the necessary machinery by awarding them the contracts. That there is conspiracy on foot to defeat the Americans in the tests it is openly charged. It is to be hoped Congressman McAdoo, who last winter opposed Mr. Hewitt and others affected with Anglo-mania on the Committee of Naval Affairs, will move for a Congressional investigation of this whole matter.

Another paper says: "It is difficult to see what the relative merits of steel and compound armor have to do with the propriety of the acceptance by an officer of the United States Navy of employment as an agent of a foreign manufacturer of armor plates, machinery, shafting, etc., especially at a time when legislation is urged by the Secretary of the Navy to authorize him to buy the same from foreign manufacturers."

THE SECOND AUDITOR'S OFFICE.

To the Editor of the Army and Navy Journal:

SIR: Your issue of Nov. 20 contains some strictures based upon a garbled quotation from the Second Auditor's report for 1886, which are so unjust and misleading, and so much at variance with your usual courtesy and correctness, as to induce the belief that they were written by some disgruntled claim agent who fears that his contingent fee of 33⅓ per cent. is vanishing in the distance. These strictures convey the false impression that the present Auditor is responsible for the nonsettlement of a certain class of claims, but, as a matter of fact, he has been, and still is, precluded from taking any action upon said claims for the simple and sufficient reason that the question involved was before the Court of Claims when he assumed the duties of his office, and is now pending before the Supreme Court.

The writer of your article asks, "Why should a line of successive Auditors for many years make and maintain an illegal construction of law, one which is ruled false the first time it comes into court?" In answer to this question let me say that the cadet longevity question, which is the one at issue, has been acted upon by one Auditor only (Judge Ferriss) who ruled in the cadets' favor. So did the Second Comptroller (Judge Upton), but the latter officer in deference to an opinion of Attorney-General MacVeigh reversed his ruling and decided against them. From this action resulted the decision of the Supreme Court in the well-known Morton case. Your "line of successive Auditors" is, therefore, a purely imaginary one.

The reflection sought to be cast upon the Auditors in the remark that, "if they have not the knowledge and skill they should resign, or, at least, seek counsel of those who have" is so uncalled for as to amount to nothing more than a gratuitous piece of impertinence.

In connection with the subject of cadet longevity pay I will say that the question as to whether or not the time of an officer's cadetship should be credited was first raised by Paymaster-General Towson in a letter addressed to Second Comptroller Parris, immediately after the passage of the act of July 7, 1838. The Comptroller decided that under said act officers were entitled to the benefit of all the time they had served as commissioned officers, but that service as cadets could not be counted. This decision was acquiesced in and remained unquestioned for forty-four years. In all probability it would never have been questioned but for the decision of the Supreme Court in the Morton case, which, as you know, arose under the act of Feb. 24, 1881.

It may suit prospective beneficiaries, including the noble army of claim agents, to endeavor to belittle the officers of the Treasury Department and to sneer at "their anxiety to appear careful of the interests of the Treasury which hires them, rather than to be just to others also hired as servants of the people." The taxpayers, however, expect their accounting officers to guard the public treasury from stale demands, no matter what class of hired servants presents them. If, in the matter under consideration, "suitors for justice" are driven "through every costly court till none remain to hear their appeals," they have no one but themselves to thank for it. THESAURUS.

WASHINGTON, D. C., Nov. 24, 1886.

The statement concerning the authorship of our editorial paragraph is a piece of impertinence which it would have been well to avoid in a communication asking for insertion here. No claim agent or his grievances had anything to do with what we said, and, aside from this, the authorship of our criticism is apart from the discussion. In the opinion of the Supreme Court in the Morton case it is distinctly said: "The view acted on by the accounting officers of the Government in dealing with the officer under sec. 24, Act of July 15, 1870, was to allow only for length of service as a commissioned officer in the regular Army. . . . But an examination of the legislation of Congress shows that the cadets at West Point were always a part of the Army, and that service as a cadet was always actual service in the Army." It is this failure to carry out the law in the settlement of officers' accounts for many years—"forty," our correspondent says—that is the occasion for complaint. And now it is proposed to go even beyond this neglect and shut officers out from any possibility of enforcing their just claims, unless they should be fortunate enough to find out at once what the law really is. Our officers are not lawyers, and the laws should not be interpreted to their disadvantage unless the case is clear against them. In this instance it was clearly the other way. We protest against this talk about "stale" claims. No man who can assume that a just and legal demand against the Government can ever become "stale" is fit to administer its affairs. The Court of Claims has decided that under the act of June 25, 1868 (R. S. 1063), the statute of limitations cannot be plead against a claim submitted to it after the auditor and comptroller have settled it and certified a balance due to the claimant, and in another case that the statute of limitations does not run so long as the United States delays to enforce its claim. So the proposition would seem to be that the Government should be at liberty to enforce its demands however "stale" they may be, and take advantage of its ability to make those against it "stale" by delaying a payment which can only be enforced by tedious and expensive litigation.

THE ARMY.

G. O. 14, DEPT. OF THE PLATTE, Nov. 24, 1886.

Captain Dan. C. Kingman, C. E., is relieved from duty in the Dept. of the Platte.

During Captain Kingman's five years' service in this Department the professional work he has undertaken has been done thoroughly and with marked ability, and the Department Commander regrets that his command must lose so valuable an officer.

2d Lieutenant Lyman W. V. Kennon, 6th Inf., A. D. C., is assigned to duty, temporarily, as Acting Engineer Officer of the Dept. of the Platte.

By command of Brig. Gen. Crook:
SAM'L BRECK, Asst. Adjt.-Gen.

G. O. 17, DIV. OF THE PACIFIC, Nov. 8, 1886.

The 8th Infantry is relieved from duty in the Dept. of Arizona, and will proceed:

The Colonel, Lieut. Col., Regimental Staff, Band, and Cos. A, B, E, F, G, and H. to Fort Niobrara, Neb.

The Major and Cos. C and I to Fort Robinson, Neb.

Cos. D and K to Fort Bridger, U. T.

The Commanding General Dept. of Arizona will notify by telegraph the Commanding General Dept. of the Platte when the movement of the 8th Infantry commences.

By command of Major General Howard:
CHAUNCEY MCKEEVER, Asst. Adjt.-Gen.

G. O. 22, DEPT. OF THE MISSOURI, Nov. 23, 1886.

The undersigned hereby assumes command of that portion of the State of Colorado, in which is located the post of Fort Lewis, and the troops serving therein.

O. B. WILLCOX, Brig. Gen., Comdg.

G. O. 18, DIV. OF THE PACIFIC, Nov. 12, 1886.

The Headquarters of the Division of the Pacific and Department of California have been established in the City of San Francisco, Cal.

By command of Major General Howard:
CHAUNCEY MCKEEVER, Asst. Adjt.-Gen.

13th Infantry, Colonel Luther P. Bradley.

Hdqrs., D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth, Kas.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.

1st Sergt. Timothy Murray, Co. B, recently placed on the retired list at his own request (at Fort Bayard), was highly complimented by his captain—H. G. Cavenaugh—in a company order. Captain Cavenaugh, after giving Sergt. Murray's military record, which included service during the war as a 1st lieutenant of the 80th New York Volunteers, says: "He participated in several engagements against hostile Indians in Oregon and California during the years 1856-7-8, and was wounded in an engagement at the Big Bend of Rogue River, Ore., May 27, 1856. He also participated at the siege of Yorktown, battles of Gaines's Mills, Malvern Hill, Second Bull Run, Antietam, Fredericksburg, Chancellorsville, Gettysburg, Petersburg, and the surrender of Lee's army. He was recommended very highly by the officers of the 4th Infantry for a commission in the Regular Army in the forepart of 1864, but failed to pass the physical examination, owing to the wound received in Oregon in 1856. After his long and faithful services I am, indeed, glad to know that he will in his old age be kindly taken care of, and he has my best wishes for his future prosperity, in saying which I express the feelings of the officers of the company as well as the officers of Fort Bayard, and also the members of Co. B, 13th Inf." Well done! good and faithful servant.

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, and I, Vancouver Bks., Wash. T.; A, Ft. Townsend, Wash. T., K, Ft. Klamath, Ore.

15th Infantry, Colonel Robert E. A. Crofton.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

Leave for one month, with permission to apply for an extension of one month, is granted 2d Lieut. Edward Lloyd, Fort Randall, D. T. (S. O. 122, Nov. 19, D. Dak.)

In Regimental Orders 53, dated Fort Buford, D. T., Nov. 21, Col. R. E. A. Crofton assumes command of the 15th Inf.

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., B, C, F, and H, Ft. Concho, Tex.; E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; A, G, and K, San Antonio, Tex.; D, Ft. Ringgold, Tex.

The leave for seven days granted 2d Lieut. B. B. Buck, Fort McIntosh, is extended six days (S. O. 162, Nov. 22, D. Tex.)

17th Infantry, Colonel Alexander Chambers.

Hdqrs., A, C, D, E, F, G, I, and K, Ft. D. A. Russell, Wyo.; B, Camp Medicine Butte, Wyo.; H, Ft. Bridger, Wyo.

1st Lieut. Alexander Ogle will inspect clothing at Columbus Barracks, O., for which Capt. Andrew H. Young, A. Q. M., is responsible (S. O., Nov. 24, H. Q. A.)

18th Infantry, Colonel John E. Yard.

Hdqrs., A, B, and D, Ft. Hays Kas.; E and F, Ft. Leavenworth, Kas.; C and I, Ft. Gibson, I. T.; G, H, and K, Ft. Riley, Ks.

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, E, F, H, and K, Ft. Clark, Tex.; D, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; G, Ft. Brown, Tex.

The C. O. Fort Ringgold will send Sergt. Edward A. Von Holtz, Co. I, to report for duty to the C. O. 19th Inf., at Fort Clark (S. O. 162, Nov. 22, D. Tex.)

Hdqrs., F, G, H, and I, Ft. Wayne, Mich.; A and B, Ft. Brady, Mich.; C and D, Ft. Porter, N. Y.; E and K, Ft. Mackinac, Mich.

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, November 27, 1886.

CASUALTY.

Captain Franck E. Taylor, 1st Artillery, died November 25, 1886, at Vancouver Barracks, Wash. T.

Courts-martial.

The following courts have been ordered:

At the Presidio of San Francisco, Cal., Nov. 10. Detail: Capt. James G. MacAdams, 2d Cav.; Capt. Richard G. Shaw, 1st Art.; Capt. Gustavus C. Doane, 2d Cav.; 1st Lieut. John Pope, Jr., 1st Art.; 1st Lieut. Frank U. Robinson, 2d Cav.: 1st Lieuts. Arthur Murray and Joseph S. Oyster, 1st Art.; 1st Lieut. Nathaniel P. Phister and 2d Lieut. Samson L. Faison, 1st Inf.; 2d Lieut. John A. Towers, 1st Art.; 2d Lieut. William H. Bean, 2d Cav., and 1st Lieut. Gilbert P. Cotton, 1st Art.. J.-A. (S. O. 109, Nov. 4. D. Cal.)

At Alcatraz Island, Cal., Nov. 10. Detail: Major John I. Rodgers, 1st Art.; Capt. Robert J. Gibson, Asst. Surg.; 1st Lieuts. Adam Slaker and John V. White and 2d Lieut. Charles T. Menoher, 1st Art., and 2d Lieut. Thomas B. Mott, 1st Art., J.-A. (S. O. 111, Nov. 6, D. Cal.)

At the Presidio of San Francisco, Cal., Nov. 29, for the trial of 2d Lieut. Benjamin S. Wever, 1st Int. Detail: Lieut.-Col. Alexander Piper, 1st Art.; Lieut.-Col. Isaac D. De Russy, 14th Inf.; Major Henry R. Tilton, Surg.: Major Frank T. Bennett, 2d Cav.; Capt. William L. Haskin, 1st Art.; Capt. George W. Davis, 14th Inf.; Capt. William N. Tisdall, 1st Inf.; Capt. John W. Dillenback, 1st Art.; Capt. Gustavus C. Doane, 2d Cav.; Capt. Matthew Markland, 1st Inf.; 1st Lieuts. Frederic C. Nichols, Gilbert P. Cotton, and Arthur Murray, 1st Art., and 1st Lieut. Frank S. Rice, 1st Art., J.-A. (S. O. 98, Nov. 17, Div. P.)

At Jackson Barracks, La., Dec. 1. Detail: Major Charles B. Throckmorton, 2d Art.; Capt. William H. Nash, Sub. Dept.; Capts. Joseph G. Ramsay and William P. Vose and 1st Lieut. Lotus Niles, 2d Art., and 1st Lieut. Alex. D. Schenck, 2d Art., J.-A. (S. O. 194, Nov. 27, Div. A.)

At Fort B rrancas, Fla., Dec. 6. Detail: Major William Sinclair, Capts. James E. Wilson, Rezin G. Howell, and Frank C. Grugan, 2d Lieuts. William P. Stone and Isaac N. Lewis, 2d Art., and 1st Lieut. M. Crawford, Jr., 2d Art., J.-A. (S. O. 196, Nov. 30, Div. A.)

Army Boards.

A Board of Survey will assemble at the Presidio of San Francisco, Cal., Nov. 10, to examine harness received from 1st Lieut. Lewis H. Strother, 1st Inf., A. A. Q. M. at Fort McDermit. Detail: Capts. William L. Haskin and John W. Dillenback and 1st Lieut. Clermont L. Best, Jr., R. Q. M., 1st Art. (S. O. 112, Nov. 8, D. Cal.)

A Board of Officers will assemble at the Presidio of San Francisco, Cal., Nov. 18, for the examination of John Jennings, late sergeant, Bat. D, 4th Art., as to his qualifications for appointment as superintendent of a National Cemetery. Detail: Major Frank T. Bennett, 2d Cav.; Capt. John J. Cochran, Asst. Surg., and 1st Lieut. Clermont L. Best, Jr., R. Q. M., 1st Art. (S. O. 115, Nov. 16, D. Cal.)

A Board of Officers of the Corps of Engineers, to consist of Major William A. Jones, Capt. Charles F. Powell, and 1st Lieut. Willard Young, will assemble at Salem, Ore., to report upon the plans for the construction of the bridge across the Willamette River (S. O. 183, Nov. 30, C. E.)

Retirements of Enlisted Men.

Commissary Sergeants George E. Arlington and Robert H. Jones, U. S. A., Dec. 1, 1886.

Artillery School.—In G. O. 37, of Nov. 30, General Tidball directs that the exercises for December, 1886, be: Artillery—Service of Machine Guns and the use of mechanical appliances for moving heavy artillery. Infantry—Thursday and Friday of each week, company infantry drill. Signalling—Officers not on the detail for artillery drill, Monday, Tuesday and Wednesday, will receive instruction in signalling during the drill hour. Fire Drill—Monday of each week one battery will receive instruction.

DEPARTMENT NEWS.

Dept. of the Missouri.—Brig. Gen. O. B. Willcox.

The El Paso *Times* takes heart of hope for Fort Bliss, in connection with General Sheridan's plan to discontinue small posts, and says: "It will not be long before Fort Bliss and its commanding military position will come prominently before the War Department. There is at present no place on the borders of the U. S.—neither Mare Island, nor Fort Snelling, nor Fort Jefferson—that ought to be so thoroughly kept in a complete state of readiness for instant action as Fort Bliss, on the banks of the Rio Grande, and guarding the highway between the two adjoining republics."

A despatch from Red Fort, I. T., says: Captain E. M. Hayes, 5th Cav., has come in from the Sac and Fox agency and the southwest, where he has been moving Oklahoma boomers off forbidden lands. He states that the Indian Department has concluded to locate the Comanches, Cheyennes, Arapahoes, Kewanees and the Wichitas east of the ninety-eighth degrees of longitude, which embraces Oklahoma. This well settle that part of the country as being open to white settlement.

Division of the Atlantic.—Maj.-Gen. Schofield.

Col. L. L. Langdon, U. S. A., commander of Fort Barrancas, recently in St. Louis, is reported as saying with regard to Geronimo and the other Indian prisoners at Fort Pickens: "They are lodged in the casements formerly occupied by the officers, the only habitable quarters at the fort. The guard is under the command of Lieut. Parker, who is living temporarily at Pickens. He writes me that Geronimo and his companions appear quite contented, and give him no trouble. Mangus, who, while en route, attempted to escape, is as contented as any of the others. Their quarters were not constructed as a prison, and are quite comfortable. They are perfectly secure under the guard, and the Indians can not conceive that an attempt at escape would be successful."

Dept. of Dakota.—Brig. Gen. T. H. Ruger.

A Bismarck despatch of Nov. 27 says: "A party of Army officers here from Fort Yates gives a description of the most thrilling ride in the history of this country. They were 70 hours in a blizzard in coming from Fort Lincoln, a distance of 60 miles, or over an hour to a mile. Their vehicle was an ambulance and was drawn by four mules. During Monday night, when the blizzard was at its height, they were compelled to shovel and plunge their way through snow drifts from six to ten feet deep, and the continual use of the whip and goading-sticks was necessary to keep the exhausted animals on the walk. The officers state that at the time the blizzard hid the mules from view and that but for the instinct of the animals they would have been lost and frozen to death. At one point they passed an Indian camp but the savages would not give them shelter, as their superstition taught them this would be fatal to them. They arrived at Fort Lincoln without a covering to their ambulance, this protection having been blown away by the first night's wind and within 30 minutes from their arrival one of the animals dropped dead. It was a fight for life for 72 hours, and they describe the trip as a most horrible experience, compared with which a march against an opposing army would be a pleasant pastime."

Dept. of Texas.—Brig. Gen. D. S. Stanley.

A San Antonio despatch says: It is stated here that Fort Davis, Fort Concho, and a half dozen other small military posts in Texas are to be abandoned in pursuance of the policy of General Sheridan.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., Dec. 1, 1886.

OUR Thanksgiving was decidedly gloomy and unpleasant. A cold, drizzling rain fell during the day. All duty, except what was necessary, was suspended. The cadets had a good dinner of turkey, etc. The detachments were well looked after. The evening before there were a number of cadet parties on the post. The presence of two score charming young ladies had much to do with making these affairs successful.

On Friday evening the officers had their first hop of the series to be given before Lent. The large hall was well filled by an exceedingly gay and jolly party, among them the young ladies who came before Thanksgiving Day. They were Miss Griffin, Miss Woodcock, Miss Bouvier, two Misses Beach, Miss Mercur, Miss Keeler, two Misses Cameron, Miss Thompson, Miss Bradley, Miss Royer, Miss Reynolds, two Misses McLean, Miss Mann, Miss Erwin, Miss Van Voorhis, Miss Gordon, and Miss Brown. Dancing commenced about half-past nine, supper was served two hours later, and the list of twenty dances was completed with an old-time Virginia reel of two sets. This was the feature of the evening, and those who left early missed many hearty laughs. It was after half-past one when the reel was through, and all went home after a pleasant evening, thanks to the efficient management of Lieut. Totten.

Major Sniffen paid the officers this afternoon. Last month the payment was made by Major Wham.

Congressman Lewis E. Payson, of the 9th Illinois District; Lieuts. Freeman, 10th Cavalry; Finlay, 9th Cavalry, and Benson, 4th Cavalry, were visitors to the post this week.

Mrs. Flagler spent Thanksgiving here. She came to see her son, who is a member of the 3d Class.

Yesterday afternoon about four o'clock this vicinity was startled by a single flash of lightning, followed by a peal of thunder that shook things up quite lively. Some who did not see the lightning thought that an earthquake had favored us with a visit.

Lieut. Darr is away on a month's leave, which is being spent in Cuba.

(Correspondence of the Army and Navy Journal.)

FORT LYON, COLO.

THE ladies and officers of this garrison inaugurated their first series of plays for the winter season at the Post Hall on the evening of Nov. 23 to a large audience.

The comedy, "Advice Gratis," a dramatic composition, laughable in all its parts, and so full of illustrations of the foible of individuals in social life, and the ludicrous results that often follow, was faithfully portrayed. The following ladies and gentlemen composed the cast: Odbody, who gives advice gratis, Lieut. Burbank, 10th Inf.; Eventide, fond of whist, Lieut. Root, 22d Inf.; Edmund, an innocent young man, Lieut. Swaine, 22d Inf.; Grimes, who don't want to be a slave, George Lacey; Mrs. Eventide, who invents conversation, Mrs. Burbank; Ellen, extremely innocent, Miss Kate Lacey.

Without intending an unjust discrimination, where all excelled their previous record in life-like impersonations, I may say that the acting of Lieuts. Burbank, Root, and Swaine was fine; that Mrs. Burbank appeared to great advantage; that Miss Lacey, as Ellen, being young and pleasing, faithfully portrayed innocence in every feature, and that George Lacey acted well his part.

The evening's entertainment closed with the farce, "A Gray Mare." Characters: Mr. Marshall, who's forty and will fight, Lieut. Shollenberger, 10th Inf.; R. Smith, a surveyor, Mr. Fabian; Florence, niece to Mr. Marshall, Mrs Littell; Alice, niece to Mr. Marshall, Miss Lacey. In the limited time allowed, and the ready rendition of her parts of the play, as niece to Mr. Marshall, Mrs. Littell evinced more than ordinary talent—her manner captivating, and always correct.

The climax of the evening's play was finally reached in the advances in love-making by Miss Lacey, in the dialogue between her and Mr. Fabian, and his final capture by her, was fine, and exemplified perfect and finished acting. "That woman's love can win or long inherit."—Milton. The soliloquy of Lieut. Shollenberger, in "Who's forty and will fight," betrayed a rare gift and mastery in elocution.

ELK.

FORT LEAVENWORTH.

THE Kansas City *Times* says:

Lieut. Wood, 18th Inf., accompanied by Mrs. Wood, left here yesterday for Fort Hays, Kas., to join the company to which he was recently promoted. Lieut. Wood has been quite unfortunate during his stay at the post. Last winter he lost a horse and buggy by fire, and a day or two since the gray mare purchased from Dr. J. V. D. Middleton lay down and died. The animal was formerly owned by Lieut. Slocum, 7th Cav.; Capt. Wint, 4th Cav., and Dr. Middleton.

The Misses Wilson will entertain a number of their friends after the hop to-morrow night in honor of the Misses Magruder, daughters of Surgeon D. L. Magruder.

Colonel and Mrs. Page gave an elegant "auction party" last week in honor of their guests, the Misses Miller of Milwaukee. The articles sold were very pretty, each one having been made by some young lady of the post. The bidding was spirited, the auctioneers very enterprising.

Dr. J. P. Wright and Mrs. Wright have arrived from San Antonio. His hosts of old friends were happy to meet them.

FORT OMAHA, NEB.

THE *Excelsior* of Nov. 27 says: "Mrs. Gen. Wheaton entertained a distinguished party at lunch on Monday in honor of Senator and Mrs. Manderson. The following were present: Gen. and Mrs. Manderson, Mrs. Brown, Mrs. Miller and Miss Kittie Miller of Detroit, mother and sister of Mrs. Wheaton, Gen. and Mrs. Hawkins, and Dr. Miller, an old-time friend of Gen. Wheaton. After lunch the guests were treated to some choice vocal music, at which Lieut. Kinzle assisted with his grand tenor voice.....Mrs. Major Brown gave a very pleasant progressive euchre party on Wednesday evening of this week, in honor of her guest, Miss Grace Hickmann, of Columbus, O. The following participated: Mrs. Abercrombie, Miss Earle, Mrs. Haskins, Mrs. Ulio, Miss Miller of Detroit, Mrs. Wheaton, Mrs. and Miss Dempsy, Mrs. Cook, Lieut. Abercrombie, Lieut. Earle, Lieut. Wright, Capt. Ulio, Capt. Mills, Gen. Wheaton, Capt. Dempsey, Lieut. Townsley, Lieut. Rowell and Capt. Cook. Mrs. Capt. Cook won the first ladies' prize and Mrs. Dr. Haskins the second. Capt. Dempsey took the first gentleman's prize and Lieut. Abercrombie the second."

COURT-MARTIAL CASES.

IN the case of a soldier recently tried at Fort Porter, N. Y., Major General Schofield disapproved the findings and sentence on the ground that the evidence was not such as to exclude a reasonable doubt as to the guilt of the accused which doubt, he says, is strengthened by the fact that Private Rawlins has nearly completed his second term of service, and has never before, so far as appears from the files of these headquarters, been brought to trial before a general Court-martial. The General says further: "The record fails to show, what every record should show, that the prisoner was informed by the judge advocate of his right to testify in his own defence. Of this right he may therefore have been ignorant, and for this reason may have omitted to avail himself of its advantage by giving to his written declaration of innocence the sanction of an oath. However this may be, this failure on the part of the prosecution to instruct him in one of his most essential rights, must be deemed a defect in the proceedings of sufficient importance to warrant in itself a disapproval of the conclusions of the court.

NEW PUBLICATIONS.

Two or three years ago a young Scotch professor, Henry Drummond, F. R. S. E.; F. G. S., published a work which has attracted unusual attention from religious thinkers. Its title is, "Natural Law in the Spiritual World," and its purpose is to show that spiritual conditions are controlled by laws analogous to those which prevail in the natural world, "each to the other like, more than on earth is thought." Prof. Drummond's work has recently been reviewed in a pamphlet published by Gen. James B. Fry, U. S. Army. As he states Drummond's position, it is "that the spiritual laws are not *analogous* to the natural laws, but that they are the same laws—the question being one of *identity*, not of *analogy*; the Laws dealing at one end with Matter and at the other end with Spirit," or, to quote Drummond himself, "the analogy is only among the phenomena; between Laws there is no analogy, there is *continuity*." Revelation, Mr. D. holds to be "not a dogma of theology, but a necessity of science," for it is a scientific axiom that what is beneath can only know of what is above by communication from above; so a man must be born from above if he would have spiritual life and knowledge. This doctrine, Gen. Fry thinks, is carried to the extent of destroying free will, and he criticizes Prof. Drummond in a way that revives recollection of the Arminian and Calvinistic controversies of old. But Gen. Fry does not, in our judgment, rightly apprehend the argument he seeks to answer. Mr. D. distinctly says that "the true problem of the spiritual life may be said to be to do the opposite of neglect. Whatever this is, do it, and you shall escape." Again, "not that there is no work for him who would grow to do. There is work and severe work—work so great that the worker deserves to have himself relieved of all that is superfluous during his task. If the amount of energy lost in trying to grow were spent in fulfilling rather the conditions of growth, we should have many more cubits to show for our stature." It is the *processes* of spiritual growth that Drummond holds to be beyond our control, as the processes of natural growth are beyond control. But just as we must eat and exercise, if we would grow physically, so must we, according to this authority, put into operation analogous methods of individualized action, if we would grow spiritually. True, he holds that a quickening of spiritual life, which is beyond volition, must precede growth, but we do not understand that he considers it impossible to promote the conditions which make this spiritual birth possible. On the contrary, he holds that "spiritual life is the sum total of the functions which resist death," and that it is our province to develop those functions. The process, according to Swedenborg, from whom Prof. Drummond obviously derives his theories, is very simple being "to shun evil as sins against God, and to be faithful in the duties of your calling." That is to say, to subject the spiritual nature to conditions analogous to those which produce healthy physical growth, which require of us to avoid everything that is injurious to the physical system and pursue some occupation that gives abundant healthy exercise to the physical powers. Gen. Fry's review is a very interesting one, and, on the whole, gives an excellent idea of the argument of the author he criticizes.

Gen. James B. Fry, U. S. A., has an article in the "Magazine of American History" for December on "Halleck and Grant," in which he denies that Halleck was ever guilty of any injustice to Gen. Grant, whom he recommended for a Major-Generalcy two days before he sent a similar recommendation on behalf of Charles F. Smith. He undertakes to show that similar criticisms upon Halleck's treatment of Grant are equally unfounded, that the two men long maintained the most cordial relations, and that Grant's unkind feeling towards Halleck was of recent origin "and was due probably to misunderstanding of the facts arising from Grant's inability to search the records for himself." An excellent likeness of Gen. Halleck accompanies the article as the frontispiece to the number. It has also an interesting article on the Swamp Angel, the gun used in firing on Charleston in 1863, by Wm. S. Stryker, with pictures of the gun and battery and portraits of Q. A. Gillmore, W. S. Serrell, Charles Sellmer, and Peter S. Michie. Alfred E. Lee concludes his series of articles, "From Cedar Mountain to Chantilly."

Gen. Henry J. Hunt, U. S. A., describes "The Second Day at Gettysburg" in the December "Century," the maps being furnished by Gen. Abner Doubleday, U. S. A. The Confederate General E. M. Law has a companion article on "Round Top and the Confederate Right at Gettysburg." The Memoranda of the Civil War in the "Century" contains "The Capitulation of Harper's Ferry," by Gen. Julius W. ite; "Ripley's Brigade at South Mountain," by Col. Wm. L. De Rosset, and "General Lee Trusting in Providence at Antietam," by Frank A. Bond.

"Harper's Magazine" for December opens with an article on "The Boyhood of Christ," by Gen. Lew Wallace, the author of "Ben Hur." With the exception of the editorial departments and two articles at the end, every

article in the number is illustrated, furnishing a gallery of pictures such as would be hard to find of equal quality, within the same compass, at the same price. The advance in pictorial art is admirably shown by a comparison of one of the earlier with one of the later numbers of "Harper's Magazine." The first number of "Harper's Monthly," issued in June, 1850, had eight woodcuts, including five fashion plates, which are only interesting as showing how preposterous lovely woman can look when the artist joins with her in the attempt to misrepresent the human form: the last number of "Harper" has sixty woodcuts, each one a work of art in itself.

ANSWERS TO CORRESPONDENTS.

G.—The list cannot be procured.

19th Infantry.—Nicholas Muller is the representative of the 5th New York Congressional District.

W. B.—Write to the adjutant, Military Academy, West Point, N. Y., for pamphlet giving full particulars.

G. W. M.—The 3d U. S. Infantry served in the 5th Army Corps from the beginning to the close of the war.

H. I.—The nearest recruiting rendezvous for the Marine Corps to you is at the Marine Barracks, Brooklyn, New York.

T. H. B.—The 18th New York Cavalry served mainly in the 22d Army Corps and Dept. of the Gulf. The badge would be that of the 22d Corps.

J. H. M.—We are not aware of any official report by Lieut. Stoney having been recently published. Consult the Blue Book as to salaries of Government officials.

H. S.—The author of the book, "Aristocracy in the Army," you inquire about was Duane Merritt Greene, formerly 2d Lieutenant, 6th U. S. Cavalry. It was published in 1880 by the Central Publishing Company, Chicago.

F. G. asks: 1. In what latitude going South a navigator drops the North star? ANS.—On the equator.

2. In what latitude is the Southern cross first seen? ANS.—32 degrees North latitude.

2d Battery asks: Can a man who is not a naturalized citizen of the U. S. hold a commission in the National Guard? ANS.—Sec. 24, M. C., provides that: "No person shall be commissioned in the militia or National Guard of this State, unless he is a citizen of the United States."

National Guard asks: Has a civil court the right to interfere with the reduction to the ranks of non-commissioned officers? ANS.—Sec. 50, M. C., provides: "Non-commissioned officers, if enlisted men, may be reduced to the ranks by the commander of the organization to which they belong. The right is inherent in the commanding officer, and the courts have no power to interfere."

P. asks: Is it legal to bring a general prisoner before a Court-martial with shackles on? ANS.—It is legal. Winthrop's Digest, pages 218-219, says on this subject: "In order that he may not be embarrassed in making his defence the accused party on trial before a Court-martial should be subjected to no restraint other than such as may be necessary to enforce his presence or prevent disorderly conduct on his part. Except, therefore, in an extreme case, as where the accused, being charged with an aggravated and heinous offence, there is reasonable ground to believe that he will attempt to escape or to commit acts of violence, the keeping or placing of irons upon him while before the court will not be justified. Even in such a case it will be preferable to place an adequate guard over him.

G. A. K.—All the Regular Army and Navy officers at the funeral of Ex-President Arthur were not there under orders. We do not see why an officer at the funeral voluntarily should not wear his uniform. It was an occasion of ceremony, paying respect to a dead President, and consequently a fitting occasion for an officer holding his country's commission to show every mark of outward respect. We know of no etiquette which would forbid it. The uniform of the infantry officer, the plain black leather belt with the cap and overcoat, is permissible. (Par. 2689, Artillery Regulations and G. O. 82, A. G. O., Nov. 6, 1883.) In G. O. 121, A. G. O., of Oct 11, 1882, the Secretary of War directed that "the manufacture of brown scabbards be discontinued," and that "hereafter the nickel-plated scabbard be worn on all occasions."

Civilian asks: In time of peace if an enlisted man of the Army shoots a citizen, being ordered to do so by his superior officer, is he (the enlisted man) amenable to a jury trial in the civil courts? ANS.—The enlisted man is amenable to trial by jury. A soldier does not cease to be a citizen on his enlistment in the Army, and if any act not purely military, which, if committed by a civilian, would be a misdemeanor or a crime, and which invades the rights of an individual or the community, he is amenable to trial before a common law court. His defence that he committed the act by order of his superior officer may be valid, or it may not, for a soldier is bound to obey only the lawful orders of his superior. But such defence is an excuse merely of the validity of which he must convince a judge and jury. It may be a defence against punishment, not so against trial. The tendency of courts of common law is increasingly towards lenity in dealing with cases like that suggested, and the defence of superior orders is readily accepted in cases in which a prompt decision is demanded by the soldier. The question of his amenability to a jury trial would very soon be determined, so far as he was concerned.

JUDGE ADVOCATE GENERAL'S REPORT.

FROM the annual report of Col. G. N. Lieber, Acting Judge Advocate General of the Army, it appears that during the past year there were 1,976 trials by general courts-martial (including 8 cadets and 22 commissioned officers) and two courts of inquiry. The number of trials by garrison and regimental courts-martial was 10,224, making the total number of cases tried 12,207. This was a decrease of 1,627 in the number of courts-martial as compared with last year (the first decrease in seven years). Of the 10,224 cases tried by inferior courts 281 resulted in acquittal. 6,418 different men were tried, some more than once.

Col. Lieber renews his recommendation that the articles of war be revised. He believes that the judge advocates should be excluded from secret sessions of courts, recommends that officers of the Army be empowered to take deposition evidence, and call attention to the lack of jurisdiction for purposes of trial over discharged military convicts. It is stated that the Army is of one opinion upon the advisability of intrusting to commissioned officers within certain narrow and well defined limits the power of summary punishment, such as is conferred by the English code. The lack of power in a court-martial to punish civilian witnesses who refuse to testify, is said to be likely to lead to an entire failure of justice in some cases. The English code and the articles of our Navy confer this power, and its extension to Army courts-martial is recommended. Attention is also called to the lack of uniformity in the punishments prescribed by courts-martial for similar offences. The dissimilarity is said to be very marked in the case of desertion, but is not confined to that offence. Cases are cited to illustrate the fact, and it is suggested that a scale of punishments should be adopted and the evil remedied by legislattion.

CAPT. H. JOHNSON, M. S. K., U. S. A., having relieved Col. B. J. D. Irwin of his charge of the Medical Purveying Depot in this city on Nov. 29th, assumes both duties as Acting Assist. Med. Purveyor and Med. Storekeeper.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. At Portsmouth, N. H., undergoing repairs.

TENNESSEE, 1st rate, 22 guns (f. s. n. a. s), Capt. Robert Boyd. At New York Navy-yard.

The recent inspection of the *Tennessee* will result in her being plaed out of commission, and there is no doubt that the cost of necessary repairs will require her to be condemned.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at Aspinwall Nov. 26.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Sailed from New York, Nov. 14, for the S. A. Station.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Arrived at Montevideo Nov. 13.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. Arrived at Montevideo Nov. 13.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. At Villefranche, France, Nov. 12. To proceed later to Alexandria, Egypt, touching at Palermo and Malta en route.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. At Genoa, Italy, Nov. 8. Repairs completed. Was to sail, Nov. 9, for the coast of Africa to cruise during the winter.

Pacific Station—Capt. J. H. Gillis
(in temporary command).

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Arrived at Panama Nov. 15.

HARTFORD, 2d rate, 16 guns Captain J. H. Gillis. Sailed from Callao, Peru, Nov. 12, for San Francisco, Cal. She will go out of commission and undergo repairs, at the Mare Island Navy-yard. Address mail to care of Navy Pay Office, San Francisco, Cal.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Montevideo Nov. 26.

IROQUOIS, 3d rate, 7 guns, (f. s. p. s.), Comdr. J. Crittenden Watson. Was at Callao, Peru, Nov. 13.

MONONGAHELA, 2d rate, 9 guns, Lieut. Comdr. George B. Livingston in command. Used as a storeship at Coquimbo, Chili. Comdr. S. H. Baker was ordered to command, per steamer Sept. 11 from New York.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. At Apia, Samoan Island, Oct. 15. To leave for Easter Island about Oct. 21, and from there to Valparaiso about Jan. 1.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. Henry E. Nichols. At Sitka, Alaska, October 19, having left Juneau Oct. 13. Will winter at Sitka. Address care of Navy Pay Agent, San Francisco, Cal. Lieut. Comdr. J. S. Newell has been ordered to command.

VANDALIA, 2d rate, 8 guns, Captain Henry L. Howison. Arrived at Montevideo Oct. 20.

Asiatic Station—Rear-Admiral J. L. Davis.

Rear Admiral Ralph Chandler has been ordered to command this station, and was to leave San Francisco per steamer of Oct. 30.

Vessel with (†), address, Mail, General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. At Muscat, Arabia, Oct. 23.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Arrived at Aden Nov. 11; at Colomba, Ceylon, Dec. 31.

MARION,† 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Nagasaki Oct. 25. About to sail for Yokohama, Japan.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. Was to have left for Macao Oct 5, to return to Hong Kong.

OMAHA,† 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. Reported by cable to the JOURNAL to have arrived at Nagasaki, Japan, Nov. 1, 1886.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. Has been ordered to return to New York by the middle of February, 1887. Arrived at Aden, Arabia, Dec. 2.

PALOS,† 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. At Canton, China, Oct. 30.

Apprentice Training Squadron.

Commander Chas. H. Davis will be senior officer after Dec. 10.

Address of *Portsmouth* and *Saratoga*, Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Sailed from Annapolis, Md., Dec. 2, for Hampton Roads, Va.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Chas. V. Gridley. Will be relieved by Commander Edwin White Dec. 10. Arrived at Norfolk Nov. 11.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Arrived at Norfolk, Va., Nov. 11.

On Special Service.

DESPATCH, 4th rate, Lieut. Wm. H. Emory, Jr. At New York Navy-yard

DOLPHIN, despatch boat, 7 guns. Lieut. Chas. O. Allibone. At Norfolk, Va. Comdr. George F. F. Wilde has been ordered to command this vessel.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read, At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. Sailed from San Francisco, Oct. 30, for the Central American coast to resume her survey work.

ST. MARY'S, sails, 8 guns, Comdr. Edwin M. Shepard. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 20 guns, Capt. Henry Wilson. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails. 6 guns. Commander Frederick Rodgers. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

FORTUNE, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

ST. LOUIS, 3d rate, sails. Commander H. B. Seely. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

VERMONT, 2d rate, 7 guns. Captain Augustus P. Cooke. Receiving ship. At New York.

DALE, 8 guns. Commander Silas Casey. Receiving Ship. At Washington, D. C.

PHLOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate Kuhl, commanding. At Norfolk.

The iron-clads *Ajax*, *Catskill*, *Lehigh*, *Mahopac*, *Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

VARIOUS NAVAL ITEMS.

FIVE hundred workmen have been discharged from the Brooklyn Navy-yard.

THE coast survey steamer *Arago* left Northport Nov. 27 for New York and arrived the same day at the Brooklyn Navy-yard.

Harper's for January and February will each contain a valuable illustrated article from the able pen of Sir E. Reed, on the "Navies of the Continent," in which will be the "latest thing afloat belonging to Russia, France, Prussia and Italy. These articles will be of especial value to American readers at this juncture, when the "Navy of the United States," is struggling to keep off of the bottom.

THE Governor of Alaska, in his annual report to the Secretary of the Interior, says that notwithstanding the order or request of the Secretary of the Navy, dated July 16, 1885, the senior naval officer has not accorded to the civil government the aid and co-operation it had a right to expect. The discourtesy of this officer was so marked as to render it impossible for the Governor to subsequently seek his co operation.

THE Board on the Consolidation of Naval Accounts and Purchases, consisting of Captain George Brown and Paymasters Carmody and Stancliff, is now actively engaged examining the system of book-keeping, blank forms, etc., which now prevails in the several bureaus. Its progress is necessarily slow, but it is expected that the Bureau of Provisions and Clothing will be enabled to assume control of the purchases and accounts by the first of January. The bureau will not be held to any strict accountability for its management of the new duties until July 1 next, when it is expected the new system will be in working shape. The board has in contemplation a new system of book-keeping and new forms of blanks to carry out the change ordered by the Secretary of the Navy.

TEN vessels are now being repaired at navy-yards on the Atlantic Coast, and will be ready for sea as follows: At the Portsmouth (N. H.) yard the *Galena* is now ready for commission, and will soon be sent back to the home squadron for duty; the *Swatara* is having her boilers taken out to receive new ones, and she will be ready about March 1. At New York the *Richmond* and *Thetis* will be ready for commission about Christmas or very soon after, and the latter will be sent to the Pacific on a surveying cruise; the *Enterprise* and *Nipsic* will both be ready in March or April next. At Norfolk the apprentice training ships *Portsmouth* and *Saratoga*, which are now in commission, will be ready to sail by Dec. 20 for the West Indies. The *Trenton* requires considerable work on her machinery, and will not be ready for commission before next May or June. The *Richmond* will relieve the old frigate *Tennessee* as flagship of the North Atlantic Squadron. The old frigate *Wabash*, which is receiving ship at the Boston yard, has just had new covering put over her.

MR. C. H. CRAMP is reported as saying of the triple expansion engine system: "It has entirely superseded the ordinary compound engine. No contract has been let to build an ordinary compound engine for the English Navy since January, 1885; none for the French Navy since May of that year, and none for any navy within the past year. The English have now about 30 triple expansion engines under contract for their navy, the French 10 or 12, and the Russians and other Powers quite a number—in fact, all the latest designed vessels in Europe. An officer of high rank in our Navy, who has just returned from Europe, told me the other day that Sir N. Barnaby said to him that a design involving an ordinary compound engine would not now be considered at the Admiralty, and he also learned that some of the leading constructing engineers, among them Mr. Kirke, declined to design any more ordinary compounds."

A FEW years since Congress passed a law whereby engineer officers to the number of 20 might be detailed by the Secretary of the Navy for duty at such colleges and institutions of learning as might apply for their services. In almost every case where such assignment has been made the faculties of the colleges have expressed themselves as so well pleased,

that when the tour of duty of the officer has come to an end application has at once been made for another one to carry on the work so well begun. At the present time there are but 11 engineers under assignment as professors, distributed as follows: P. A. Engr. D. Jones, Normal College, Fort Scott, Kan.; P. A. Engr. J. D. Ford, Manual Training School, Baltimore, Md.; P. A. Engr. F. H. Bailey, Cornell University; Asst. Engr. G. H. Bull, University of Pennsylvania; Asst. Engr. G. W. McElroy, South Carolina College, Columbia, S. C.; Asst. Engr. J. H. Baker, St. John's College, Annapolis, Md.; Asst. Engr. F. M. Bennett, Manual Training School, Chicago, Ill.; Asst. Engr. A. W. Stahl, Purdue University, Lafayette, Ind.; Asst. Engr. A. T. Woods, Illinois University, Champaign, Ill.; Asst. Engr. E. O'C. Acker, Vanderbilt University, Nashville, Tenn.; Asst. Engr. T. W. Kinkaid, New Hampshire College of Agriculture and Mechanic Arts, Hanover, N. H.

NAVY GAZETTE.

Ordered,

Nov. 26.—Commander Edwin White, to command the Portsmouth, December 10.

Commander George F. F. Wilde, to command the Dolphin.

Lieutenant M. F. Wright, to duty at the League Island Navy-yard.

DEC. 1.—Lieutenant E. M. Hughes, to duty under the Lighthouse Board.

Lieutenant Lucien Young, to duty as assistant to the Lighthouse Inspector December 15.

P. A. Engineer John L. Hannum, to the Navy-yard Norfolk.

Sailmaker John J. Byrne, to the Portsmouth.

DEC. 2.—Lieutenant Gottfried Blocklinger, to Hydrographic Office.

Detached.

Nov. 26.—Commander Chas. V. Gridley, from command of the Portsmouth, December 10, and placed on waiting orders,

Commander Chas. D. Sigsbee, from command of the Kearsarge and placed on waiting orders.

Lieutenant C. McR. Winslow, from the Kearsarge and ordered to the Galena.

Lieutenants E. W. Sturdy, S. H. May, N. J. K. Patch and J. D. Adams; Ensign Jno. A. Dougherty, Surgeon W. G. Farwell, P. A. Surgeon Jas. D. Gatewood, Chief Engineer B. F. Wood, P. A. Engineer R. Aston, Assistant Engineers F. W. Bartlett and W. S. Smith, from the Kearsarge and placed on waiting orders.

Ensign James G. Doyle, from the Kearsarge and ordered to the Jamestown.

Paymaster Charles W. Slamm, from the Kearsarge and ordered to settle accounts and wait orders.

Nov. 27.—Lieutenant John M. Hawley, from the Coast Survey steamer Bache and ordered to duty in the Coast Survey Office.

Nov. 29.—Lieutenant Charles W. Ruschenberger, from the Saratoga, December 10, and placed on waiting orders.

Naval Constructor G. R. Boush, from the Navy-yard Norfolk and placed on waiting orders.

DEC. 1.—Lieutenant John W. Stewart, from the Pinta November 20, and placed on waiting orders.

Ensign John J. Knapp, from duty as assistant to the Lighthouse Inspector 15th District, and ordered to hold himself in readiness for sea service.

Sailmaker Charles C. Freeman, from the Portsmouth and pirced on waiting orders.

DEC. 2—Lieutenant Joseph B. Murdock, from the Dolphin and ordered to the Torpedo Station.

Ordered to Examination for Promotion.

Commander Henry B. Seely, Lieutenant J. M. Robinson (junior grade), Lieutenant Geo. A. Morris, and Ensign O. G. Dodge have been ordered to appear before the Naval Examining Board next Tuesday, for examination for promotion.

Leave.

Granted to Carpenter M. T. Quigley for four months.

MARINE CORPS.

Nov. 29.—2d Lieutenant H. K. White, when the guard of the U. S. S. Kearsarge has been transferred to the Marine Barracks, Portsmouth, N. H., detached from that post, and ordered to proceed to Boston, Mass., and report for duty at the Marine Barracks there.

Nov. 30.—1st Lieutenant Thomas N. Wood, present leave of absence extended one month from Dec. 4.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending December 2, 1886:

John Lynch, beneficiary, died November 21, at Naval Hospital, Philadelphia, Pa.

Joseph Suters, beneficiary, died November 28, at Naval Hospital, Philadelphia, Pa.

FROM THE EUROPEAN STATION.

REAR-ADMIRAL FRANKLIN, commanding the European Squadron, reports to the Secretary of the Navy from Villefranche, France, on board the *Pensacola*, Nov. 12, as follows: "The cholera having made its appearance at Genoa, I sailed from there on Nov. 6 and arrived here the next morning. The ship was quarantined for 24 hours, but I succeeded in getting a clean bill of health from this port, which, I trust, will modify the quarantine in the East, if it does not prevent it altogether.

"I propose to sail from here for Alexandria as soon as the weather, which is now bad, clears up. I shall stop at Palermo and Malta en route, provided I can get pratique for the ship at those ports. The *Quinnebaug* reports from Genoa on Nov. 8 as follows: 'the repairs will be completed to-day, stores on board and bills paid, and if circumstances permit, I intend sailing to-morrow. For the last 20 hours it has been blowing a strong southeast gale which still continues, making it hazardous to haul out now, besides four or five vessels arriving to-day are anchored near our moorings.'

"I am happy to inform the Department that the health of the officers and crew is good."

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., Nov. 30, 1886.

THE first of the series of Officers' Hops was held in the gymnasium last Saturday evening. The guests were received by Mrs. Huntington, assisted by Chief Engineer Farmer.

The Princeton College second foot ball team came down last Saturday, bringing with them Cook and George of the regular team, whose begrimed jackets gave sufficient evidence of the tussle with Yale on Thanksgiving Day. After a short lunch at the Maryland Hotel, the team was driven to the Academy grounds, where they were met by the cadets, who had been awaiting their arrival with great anxiety.

When the men lined up, the difference in weight of the two teams was very striking, the Princeton men weighing on the average 178 pounds, while the cadets weighed but 153. Cook, of the visitors, had a very formidable aspect. He being six feet three inches tall, and weighing 226 pounds—nothing very pleasurable seemed in store for the man he tackled. McMahan's hair gave him a bad look, too. Spalding's legs reminded one of callipers, while his gait carried a very fair impression of the traditional seven league boots.

One of the 'Varsity rushers was Murat Halstead's son. There was nothing remarkable about him except that he wore his hair banged—(it was banged when he began playing: when he stopped so was his nose), and he couldn't play foot ball for a cent.

The game opened with a rapid pick-up by Stone, a throw to Anderson, a short run, a fall, and a tremendous yell from the spectators. The cadets, through Cloke, then got in some good kicks toward their opponents' goal, which resulted in the 'Varsity captain getting the ball and passing it to big Cook, who pushed himself well up the field. While Stone, who eventually recaptured the ball, was being sat upon by the Princeton eleven, he passed the ball to Fermier, who tore down the line and made a touchdown. He having run outside the boundary line a foul was claimed and allowed by the referee. No points were made by either team for the first forty minutes, but at this point Spalding took some of his gigantic strides and got in a touchdown, which Dohme turned into a goal.

The second half was not so exciting. The superior training and practice of the Princetonians came to the front, and they scored 24 points. This half was characterized by the excellent playing of Brownell, Dohme, and Spalding, of the college, and Hayward, Stone, Anderson, and Snow for the cadets. Excellent feeling prevailed throughout the game, which was generally acknowledged to be the best ever played on these grounds. The cadets had no hope of winning, and were pleased that the college boys did not win easier. The cadet's team is composed of Williams, quarter back; Stone, captain and half back; Cloke and Anderson, full backs; Hayward, Rowan, Snow, Patton, Brittain, Robison, and Fermier, rushers. The Princeton players were Dohme, quarter back; Hirst, half back; Spalding, (captain), and Brownell, full backs: Ballentine, George, Cook, McMahon, Halstead, Meers, and Anderson, rushers. After the game the visitors were entertained at supper by the cadets, and attended the hop later in the evening. They left on the Sunday afternoon train for Princeton. Next Saturday a game will be played with the deaf mutes of Washington.

The apprentice boys from the *Jamestown* had a holiday on Saturday, and large numbers of them were interested spectators of the foot ball match.

Ex-Cadets F. G. Moore and S. E. Darby, of the class of '87, spent Saturday with friends in Annapolis.

Mrs. Oliver entertained a large number of her lady friends last Tuesday, at her charming home in Annapolis.

Mrs. Worthington's *musicale* last Friday night, was a great success, all present attesting their great enjoyment of the evening's entertainment.

Mrs. Lieut. Hutchins also gave a *musicale* last Sunday night, in honor of Miss Kittie Gordon, of Washington, who is visiting her. The bachelor officers attended *en masse*, Miss Gordon being a great favorite in that direction. Miss Gordon herself is a very fine performer upon the piano, and has a remarkably clear soprano voice, so that her visits to Annapolis are always keenly enjoyed by music lovers.

The party to be given by Chief Engr. and Mrs. Farmer in honor of the ten brides who have come to Annapolis since this term began, has been indefinitely postponed, owing to the sudden illness of Mr. Farmer.

On Friday, Mrs. Huntington gives a large entertainment for charity, to which the town is invited. Everyone is to bring or send a parcel containing anything from a handkerchief to a camel's hair shawl. These articles are all to be wrapped up and sold to the highest bidder, no one being aware of the contents of any parcel. Lieuts. Mercer and Mitchell will act as auctioneers, and it is thought that this unique idea will prove a great success.

By order of the superintendent, the extra drills for the 3d Class were abolished on Saturday last.

Naval Cadet H. C. Sexton, 3d Class, has resigned.

Naval Cadet E. K. Cole, 1st Class, has been granted leave of absence until March 1, 1887.

REVENUE MARINE.

ASSIGNMENTS.

1st Lieut. W. S. Baldwin and 2d Lieuts. Edmund Burke and Geo. A. York detached from the revenue str. Johnson and placed waiting orders.

Chief Engineer John W. Collins assigned to steamer Woodbury at Eastport, Me.

1st Asst. Engineer F. B. Randall assigned to steamer Colfax, at Wilmington, N. C.

1st Lieut. P. M. Clark, 3d Lieut. J. C. Moore, and Chief Engineer Eugene Vallot detached from the steamer Fessenden and placed waiting orders.

2d Lieut. J. E. N. Graham assigned to steamer Hamilton at Philadelphia.

2d Assist. Engineer E. H. Jack to temporary duty on str. Hamilton.

1st Lieut. J. M. Simms, 2d Lieut. Geo. H. Dotv, Chief Engineer J. E. Jeffries, and 1st Assist. Engineer D. McC. French, detached from the steamer Perry and placed waiting orders.

3d Lieut. B. L. Reed assigned to steamer Colfax at Wilmington.

1st Lieut. Robt. Barstow, Chief Engr. W. C. Wheeler, and 2d Asst. Engr. C. F. Nash detached from steamer Bibb and placed on waiting orders.

2d Lieut. John L. Davis to resume duties on the steamer Dallas.

Capt. C. A. Abbey assigned to steamer Gallatin, at Boston, Mass.

Capt. Russell Glover to steamer Wolcott at Port Townsend, W. T.

Capt. J. B. Maure to steamer Colfax at Wilmington, N. C.

1st Lieut. W. J. Herring, to temporary duty, steamer Manhattan, Whitestone, N. Y.

Chief Engr. Geo. H. Robinson detached from steamer Woodbury and placed on waiting orders.

Winter cruising orders have been sent the following revenue vessels:

Steamer Woodbury, at Eastport, Me.; cruising grounds from Robbinston to Cape Elizabeth, Me.

Steamer Dallas, at Portland, Me.; cruising grounds from Mount Desert, Me., to Cape Ann, Mass.

Steamer Dexter, at Newport, R. I.; from Edgartown to New London, Conn.

Steamer Hamilton, at Philadelphia, Pa; from Great Egg Harbor to Body's Island, N. C.; changed to Norfolk for the winter.

Str. Ewing, at Baltimore, Md.; whole of Chesapeake Bay.

The following lake vessels have been ordered to be put out of commission:

Steamer Bibb, at Ogdensburg, N. Y.

Steamer Perry, at Erie, Pa.

Steamer Fessenden, at Detroit, Mich.

Steamer Johnson, at Milwaukee, Wis.

CONTRACTS FOR THE NEW CRUISERS.

THE Secretary of the Navy on Monday awarded the contract for building cruiser No. 3, to be known as the *Baltimore*, to the firm of Cramp and Sons, Philadelphia, for $1,325,000. This is the protected double-bottomed cruiser of about 4 400 tons displacement, with engines of not less than 8,000 horse power. The contract for cruiser No. 2, of about 3,700 tons displacement and not less than 6,000 horse power, was awarded to the Union Iron Works, of San Francisco, for $1,017,500 This vessel is to be known as the *Charleston*, and is a copy of the *Nanitwa*, now in the Japanese Navy. Contract for gunboat No. 2, of about 870 tons displacement, was awarded to the Columbia Iron Works, of Baltimore, for $247 000. The contract for gunboat No. 1, of about 1,700 tons displacement was not awarded. There was one special bid of Cramp and Sons for $455,000 and one regular bid of Charles Reeder and Sons, Baltimore, for $495 000. It will require some personal examination on the part of the Secretary before the contract for this vessel is awarded. The bids for cruiser No. 1, to be known as the *Newark*, were all above the limit, on account of a change in the design for the engines as compared with the original plan when the appropriation was made at the close of the Forty-eighth Congress. The bids were referred to a board consisting of Capt. Walker, Chief Constructor Wilson, and Engineer in Chief Loring.

The successful bidder will be required, within twenty days after the acceptance of his proposal, to enter into formal contract for the performance of his work, and to give a bond therefor, with sufficient sureties and with a penal sum equal to one fourth of the amount of the bid. The cruisers must be completed within eighteen months and the gunboat within twelve months from the execution of the respective contracts. Payments are to be made in ten equal instalment as the work progresses, from which 10 per cent. will be reserved to be paid on the full and final completion of the contract.

MARINE CORPS.

COLONEL MCCAWLEY, in his annual report, says: "On October 1 there were 1,885 enlisted men in the Corps, 989 of whom were on board ships in commission and 896 doing duty at the several shore stations During the past year there have been 698 enlistments, 96 re-enlistments, 11 enlistments from the Army, 399 discharges, 12 deaths, 392 desertions, and 8 enlisted men have been retired. There are now 80 officers upon the active list, to be further reduced to 75, in accordance with a recent law. An urgent necessity exists for the expenditure of $3,000 in repairs at the Mare Island Barracks, to prevent a much greater cost hereafter. An appropriation of $15,000 is needed to erect three sets of quarters in accordance with the original plans. I have directed these two items to be included in the estimates for the coming fiscal year; also $1,000 for the purchase of tents and camp equipage. The building for the enlisted men at the Navy-yard, Pensacola, Fla., authorized by Congress, is now in process of erection. I regret to say that no appropriation was made by Congress for barracks and quarters at the Norfolk Navy yard, and that the same urgent necessity exists for them as has been so often reported by me."

THE MARINE CORPS.

To the Editor of the Army and Navy Journal:

THERE seems to exist a ruling very unjust to deserving and competent men enlisted in the U. S. Marine Corps and attached to the Navy. Cut off as they are from any possible promotion, such as obtains in the Army (vacancies for commissioned officers being filled by the overflow from Annapolis), they are paid less for, and more important and trustworthy services demanded of them, than any holding corresponding positions in the Navy proper. Especially does this apply to the non commissioned officers.

The pay of the Marine Corps is the same as the Army, viz: Privates, $13; corporals, $15; sergeants, $17 per month in the first enlistment. To obtain either of the two latter amounts they must qualify in a general English education, tactics, conduct, etc.; and while on duty are responsible for the discipline of the crew, and the care of prisoners, etc., when on watch.

Now, being part of a warship's company, would it be any more than just and fair to give them an opportunity for some promotion? But should a vacancy occur among the petty officers (paying from $40 to $70 per month), and which a marine may be thoroughly competent to fill, he is not eligible for such position, because he is in the Marine Corps. The result of this is that men are taken from the ship's company, men (foreigners and aliens often), who have no interest or claim on the Service, men who have probably been picked up in some foreign country ("beach combers," as they are termed, and I believe the United States is the only Government that permits such enlistments), and placed in such positions, while men (citizens) in the Marine Corps, no matter what their length of service, which ought to be some claim (if competent), are prohibited. Why such a prohibition should exist in the same branch of the Service seems to call for reform as necessary as any in the Civil Service. By allowing such promotions from the Marine Corps, men are not lost to the Service, but rather retained, and invite a better standard. FOURS RIGHT.

FISH COMMISSION.

The Albatross, Lieut. Commander G. L. Tanner, comdg. At Washington, D. C.

The Fish Hawk, Mate James A. Smith, comdg. On her way to Washington, D. C.

The Altyon, Wm. Hamlin, comdg. At Havre de Gras, Md.

The Grampus, J. W. Collins, comdg. At Gloucester, Mass

SPAIN has finally succeeded in inducing Prince Bismarck to abandon his proposal to establish a naval station at the Caroline Islands.

A Nice Distinction.—Aunt: "No, Amelia, I deem it an impossibility that you could be capable of inviting a sergeant to the house."

Niece: "But, aunt, it is a sergeant of the City Troop."

CHOICE OLD WHISKIES,

MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865,	$21 00
Old Reserve Whiskey,	18.00
Unrivalled Upper-Ten Whiskey,	15.00
Brunswick Club Whiskey,	12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION: otherwise to be returned at our expense. Correspondence solicited.

U. S. ARMY AND NAVY JOURNAL.

PUBLISHED EVERY SATURDAY.

NEW YORK, SATURDAY, DECEMBER 4, 1886.

Office, No. 240 Broadway New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

The date when the subscription expires is on the Address-Label of each paper, the change of which to a subsequent date becomes a receipt for remittance. No other receipt is sent unless requested.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

W. C. and F. P. CHURCH, Publishers,

THE APPROACHING SESSION OF CONGRESS.

THE second session of the 49th Congress convenes at noon on Monday next. Being a short session considerable activity must be displayed to accomplish the work necessary to keep the machinery of the Government moving until another Congress is ushered in. Experience has shown that very little work, aside from that connected with the regular appropriation bills, is accomplished during a short session, and the coming one is not likely to be an exception to the rule. The fact, however, that the members of the House Appropriation Committee have started in advance of the opening of the session to get the appropriation bills in shape, would indicate that these measures will receive more careful and thorough attention than formerly, and the chances for more liberal appropriations may thereby be enlarged.

Sub-committees on all the bills, except the Army, Navy, and fortification, have been in session for about ten days, and have performed considerable of the preliminary work connected therewith.

The Army and Navy Appropriation bills, being in the hands of the Service committees, will not be taken up until after the session opens, as but few of the members of either committee have yet arrived in Washington. Estimates upon which these bills, and also the fortifications bill, are based have not yet been furnished by the printer, so that nothing could have been accomplished had all the members been in the city.

The subject of fortifications and seacoast defences is one that will likely receive much attention this session, but what the result will be is difficult to foreshadow. An effort will, no doubt, be made to secure the passage of the bill appropriating about seven and a half millions, now in conference. Mr. RANDALL prefers that this measure should remain undisturbed, and that a new bill entirely be reported from his committee. It is needless to say what he would recommend in the new bill, but it remains to be seen whether he can carry out his idea of false economy in the face of the urgent appeal for efficient coast defence, which will be made by the President in his forthcoming message, by the Secretaries of War and Navy in their annual reports, and which have been made by the Admiral of the Navy, Chief of Engineers, and Chief of Ordnance in their reports already published, and, for that matter, by the country at large.

Among the measures of interest to the Army and Navy that would seem, by reason of their advanced position, to have a possible chance of going on the Statute books, may be mentioned the following: S. 1119. To regulate the pay, etc., of hospital stewards; S. 2199 (LOGAN). To increase the efficiency of the Army; S. 1976. Authorizing a survey of historic grounds; S. 1490. Amending the Articles of War. These bills have passed the Senate and are now pending in the House Military Committee. If favorable reports are made upon them early in the session, and night sessions can be secured for the consideration of military matters, as will be proposed by General BRAGG, some of these measures will certainly go through, as may also the following Senate bills, which have already secured favorable reports from the House Military Committee: S. 1935. To enlarge, repair and complete the military quarters at Forts D. A. Russell and Robinson; S. 222. To increase the appropriation for the militia.

It is Chairman HERBERT'S purpose to ask for night sessions for the consideration of naval matters. If he is successful, some of the following important measures ought to become laws: S. 1526. Relating to pensions to certain disabled persons who have served in the Navy or Marine Corps; S. 250. To relieve the sufferers by the wreck of the *Ashuelot*; S. 1417. Creating a system of deposits for seamen; S. 1527. Providing a home for discharged seamen; S. —. Providing a retired list for seamen, and S. 702. For the relief of the sufferers by the wreck of the *Tallapoosa*. No important House bills are pending in the Senate. There are a number of important bills on the Senate calendar, notably the MANDERSON three-battalion bill; bills to establish the order of promotion in the Medical Department of the Army; to regulate the pay of Army and Navy officers who neglect to provide for their families; for the relief of cadet engineers, etc., but as there are already more Senate bills before the House than can possibly receive attention, the chances for the final passage of any of these bills are extremely dubious. A complete statement of the unfinished work of Congress will be found in the JOURNAL of August 21, last, page 76.

The first session lasted nearly eight months, from Dec. 7, 1885, to Aug. 5, 1886. The second session will last less than three months, from Dec. 6, 1886, to March 4, 1887. The holidays must come out of the session, and perhaps a great consumption of time will have to be allowed for speeches on the labor question as connected with general politics. 13,000 bills were introduced at the first session, most of which still require consideration.

MR. WINSTON, during his brief career as American Minister to Persia, obtained from the Shah a concession for a railroad from Meshed, in North-eastern Persia, to Teheran, the capital, and thence to Bushire, or Aboo-shehr, the principal Persian seaport on the Persian Gulf. This line, some seven hundred miles in length, is evidently intended for strategic purposes, with a view to its ultimate purchase by Russia. In a letter to the *Real Estate Record*, Mr. G. PELLEW PAUL suggests a further system of railroad lines, intended to connect Constantinople with India. He proposes to build a road

from Selencia, in the northeast corner of the Mediterranean via Antioch and Aleppo, to Bagdad, and thence to the Persia frontier and around the head of the Persian Gulf to Bushire. Next, he would extend this road along the Northern littoral of the Persia Gulf and the Indian Ocean, to Kurrachee, in India, near the mouth of the Indus. It is proposed to connect this line by a railroad from Bagdad, through Erzeroum to Trebizand, on the Black Sea, and with Quettah, in Beloochistan, by another line from Gwetter, or Choubar, via Seistan. Ultimately it is proposed to extend the main line from Aleppo to Constantinople and to build a road from Erzeroum to Teheran. This involves the building of nearly four thousand miles of railroad across the extreme length of Turkey in Asia, along the Persian littoral to and through Beloochistan to India, through Turkey in Asia to the Black Sea, and through Persia to the Caspian. It is a grand scheme and will no doubt, in time be realized in whole or in part. Mr. PAUL proposes a scheme for raising capital which will, he thinks, obviate the difficulty English capitalists experienced in undertaking the construction of a line of railway from the Mediterranean to Kurrachee. He says:

There is no doubt that as soon as the proposed railway is completed it will be purchased by the Indian Government, and that a price of, say, £150, three per cent. India stock could be obtained for every £100 properly laid out in constructing and stocking the railway, which would actually become the high road between Europe and India. Witness the Suez Canal, and the attempts of the English Government to obtain control of it. The scheme is bound to be a success in every way. Under any circumstances it cannot earn less than four per cent. per annum net dividend, while it is sure to be sold to England or to Russia. These lines are strategical and commercial, opening out immense districts to an interchange of traffic with the rest of the world. They will consume large quantities of silver bullion and afford a large amount of work to American manufacturers and their operatives, and therefore deserve encouragement at the hands of patriotic and capitalistic Americans.

It is a mistake to suppose that Russia can enter India via the Himalayas, with the exits of all the passes in English hands. She knows she cannot do it, and will not attempt it. It was all very well in the days of matchlocks, and native against native, but in these days of arms of precision, such an attempt would be futile unless specially sanctioned by the overruling Providence. No! Russia intends to construct a railway, telescopically, and by means of her military railway corps, from Sarakles to the Indian Ocean at Choubar, or neighborhood, where she will erect a second Sebastopol, build a navy and fleet of transports, collect an army, and then make a descent on India. History proves that the European conquerors of India came by sea—Portuguese, Dutch, English, French. Russia must do the same. She cannot come via the Red Sea, or Singapore, and therefore she must creep down the Persian frontier to the sea at Choubar, or neighborhood, as already described.

A Russian army of observation in the neighborhood of Sarakle, would necessitate the retention of 60,000 English (*i. e.*, European) troops in the Punjab and Sindh. A Russian navy and army at, say, Choubar, would require 60,000 more English (European) troops and a large fleet to guard the shores of India from invasion. In addition, 60,000 English (European) troops would be required to guard the native feudatories and the inland districts. Total, 180,000 English (European) troops! It cannot be done. England has not men, nor could India stand the strain of their hire. Result, loss of India to England. So that the construction of a line of railway from the Mediterranean via Turkey, Persia and Beloochistan to India, is the cheapest method of holding that country.

IS IT true, as is reported, that the French Government have been able to obtain the secret of the manufacture of cocoa powder by purchase in this country of the results of the labor of our ordnance officials in developing the process of manufacture? England paid a high price for information as to the manipulation of the straw charcoal, and it is kept a rigid departmental secret, as it was only on that condition it was confided to the authorities by the German inventor of the process. Even the Duke of Cambridge and Lord Wolseley have not been shown the method of its manufacture. About a mile and a half along the pretty River Lea from Enfield are situated the government powder and gun cotton manufactories of Waltham Abbey, where the English authorities are now manufacturing large quantities of brown or straw powder. The electric light has been set up in the mills, which are working night and day. Incandescent lamps are used. They are placed outside the windows of the different buildings and set in globes of water, so that if a lamp breaks it will be immediately extinguished. Water-tanks connected with each other are ranged above every grinding-mill and over the more dangerous operations, so that were an explosion to occur in any one shed the tank would be upset, and by automatic action every other mill and machine would be flooded with water.

COLONEL GRAS and, with the exception of a single member, the French Commission, which has been investigating the war material industries of the United States for some weeks, left for France on November 27. Their visit has been the occasion of much speculation, which has found expression in the American correspondence to foreign papers. It is pretty well understood that the Commission placed orders for gun machinery with the Pratt and Whitney Co., of Hartford, Jones and Lampson, of Windsor, Vt., Brown and Sharpe, of Providence, and other concerns in the same line. From the fact that his mission was not a roving one, but restricted its examination to armories and machine-shops, and that contracts for plant were not placed with a single producer but distributed among several firms, it is a legitimate assumption that his Government sent Gras here to secure gun machinery exclusively, and to assure promptness of delivery. We have private and reliable intelligence this week from Berlin—confirming suggestions already thrown out in French service-papers—that the German Government, having some weeks ago completed 600,000 converted Mausers, considers itself sufficiently in advance of other nations, and has suspended work on any but uncompleted stock with the purpose of determining upon a more effective magazine model. This has, doubtless, stimulated the French Government to an immediate increase of the capacity of its armories.

GENERAL W. B. HAZEN, Chief Signal Officer, has submitted to the Secretary for transmission to Congress a draft of a bill, with a petition in its support, proposing a reorganization of the Signal Corps. The bill contemplates the transfer of the sixteen second lieutenants now in the corps to the line of the Army, with the respective dates of their commissions, as vacancies occur, and that the President shall be authorized to detail twenty-two officers from the Army as Acting Signal Officers, who, when so detailed and instructed, shall not be relieved from Signal duty except for unfitness or other sufficient cause. It is proposed that the sergeants should be divided into three classes, with $1,600, $1,400, and $1,300 pay, respectively; corporals to have $1,200, and privates $1,100 and $1,000. Gen. Hazen says: "This matter is of vital importance, as at present the best officers for this service are not obtainable for it. West Point graduates cannot be assigned to the corps, and the anomaly exists of a nation maintaining a first class military and scientific school, while its pupils cannot be assigned to this branch of service, one more nearly purely scientific than any other."

WE continue to receive inquiries with reference to Mr. T. H. S. Hamersly and his magazine. The difficulties attending the proving of a negative proposition make it impossible for us to say that *Mr. Hamersly* does not keep his engagements. As to this our readers must form their own conclusions from the facts. In answer to an inquiry received from a subscriber at Seattle, W. T., we stated, Sept. 2, 1886, on the authority of Mr. Hamersly, that six copies of the magazines for which this gentleman had subscribed, "had been sent him and must have miscarried; that duplicate numbers would be sent by registered mail to ensure their delivery." On Nov. 22 this gentleman writes us from Seattle as follows: "No numbers whatever, either back or current, monthly or quarterly, have ever reached me. Have waited patiently since his advice."

THERE are a number of candidates among the chaplains of the Army to succeed Chaplain Crocker in charge of education in the Army, with station at St. Louis, upon the professor's retirement Dec. 25 next. Chaplain George Robinson is, thus far, the most strongly backed for the place, but as the detail will not be made until a successor to Chaplain Crocker is appointed, he may find some dangerous competitors among others on the list. It is also possible that the new appointee may be chosen with a view to assignment to educational duty.

A CORRESPONDENT at the Michigan Military Academy, Orchard Lake, writes: "Colonel Roger Jones, Inspector General, U. S. A., has just inspected here. This idea of having inspectors of the Regular Army inspect such institutions is a good one. It must certainly correct many abuses and encourage those officers who are conscientiously performing their duty by carrying out the 'spirit and letter' of the law."

IN an article in the November "Magazine of American History," Prof. W. Allan combats the claim of General Pope that in his Virginia campaign he was holding an advanced position with an insufficient force. He asserts that General Pope's statements about his numbers are of the loosest character and gives a tabulated statement of the numbers of the two armies throughout the campaign to show this.

SECRETARY WHITNEY issued a General Order on Friday afternoon directing that stores and supplies at navy-yards and stations be placed in charge of the Bureau of Provisions and Clothing January 1, in accordance with his announced policy. The order gives directions for the future purchase and care of supplies and stores by the Paymaster-General and prescribes a new system of keeping accounts.

A BOARD of naval officers on the dynamite vessel was organized at the Navy Department on Wednesday, Lieutenant Zalinski being present.

A CORRESPONDENT of the *Admiralty Gazette* writes: "I expected great things when Lord Wolseley was made Adjutant-General. Need I say that I have been wofully disappointed? He started by saying some very unpleasant truths about regimental officers, which he retracted or qualified the moment he found they were disposed to turn and rend him. Why did he not stick to his colors? The recantation of his opinions damaged his reputation among military men and increased his unpopularity with the regimental officers. I used to admire him very much, and I gloried in his success. He must, however, have exhausted either his ambition or his energy, or both, or else I have been mistaken in his character, and he is, after all, very human indeed." This is what was to be expected of a man who could contemptuously allude to a fellow-soldier at the head of a foreign military service as "Mr. Grant."

THE London *Daily Telegraph*, in an article on the new order recently created by the Queen, the "Distinguished Service Order," a species of "junior supplement to the Victoria Cross," says: "The average English civilian of intelligence and culture, while he does not by any means look upon Orders of chivalry or military decorations with feelings of contempt, regards them with philosophical indifference. They are not for him, and he has nothing to do with them. . . . If they look to a neighboring country they will find that the Order of the Legion of Honor, instituted by Napoleon the Great as the guerdon of valor, of patriotism, of genius, of learning, and of virtue, has sunk to be the reward of successful chocolate manufacturers and sewing-machine makers. So civilian England is quite content that sailors and soldiers should keep to themselves the decorations which her Majesty graciously confers on them—decorations which honor them and to which they do honor."

2D LIEUTENANT JOSEPH S. POWELL, of the Signal Service, has been detailed to duty at Omaha, to take charge of the organization of thirty meteorological stations of the Union Pacific railroad, in conjunction with the Weather Bureau of the Signal Service. The railroad did not officially request the detail of a signal officer to assist in the work, but intimated that such detail would be of benefit to all concerned. Information has been received that the Northern Pacific and Canada Pacific roads contemplate the establishing of similar meteorological stations, and they will be aided in every way possible, although the scarcity of officers prevents the detailing of an officer especially for the purpose. It is said that when these systems are in working order it will be impossible for a cold wave or any decided change of that kind to pass the Mississippi Valley without immediate and timely warning.

THE Second Comptroller allowed the following Mexican War claims during the week: Edmund Kirby, Paymaster, U. S. A., $25.71; Hannibal Crary, Private Co. B, 10th Infantry, $21; George B. Blankenburg, Private Co. D, 1st Mass. Vols., $21; Zachary Taylor, Major-General, U. S. A., $50.

"THE Carolina Mountain Region and the Recent Earthquakes" is the title of a paper to be read by Brigadier-General Martin D. Hardin, U. S. Army before the Military Service Institution at Governor's Island, N. Y. H., on Thursday, Dec. 9, at 8 P. M.

SECRETARY ENDICOTT'S annual report will be published by us next week. It is printed and is being distributed with the understanding that it will not be used until the time set by the Secretary. It is long and interesting and contains some valuable recommendations suggested by the recent Indian campaign.

THE late Hobart Pasha, in his autobiography, just published, relating a shark incident, said: "The prominent upper fin, cutting the water, may be seen at a great distance, and they can swim at the rate of a mile a minute. A shark somewhat reminds me of the torpedo of the present day, and, in my humble opinion, is much more dangerous."

LIEUTENANT A. R. GORDON, R. N., who was sent in the *Alert* by the Dominion Government to decide as to establishing a route to the northwest by Hudson's Bay, has withdrawn the report he made and presents one more favorable to the project.

RECENT despatches from the South Pacific Station announce the transfer of Lieut. J. Russell Selfridg from the *Hartford* to the *Iroquois;* so, as a result, the Lieutenant will not see the Golden Gate just yet awhile. Mr. Selfridge has had quite an experience in the way of transfers within the year just closed. In November, 1885, he was assigned to the *Adams*, then in a few months transferred to the *Hartford*, and now, as noted, to the *Iroquois*.

RECENT DEATHS.

IN the death of Major Franck E. Taylor, U. S. Army, there has passed away an officer of marked ability—one whose memory will count, both in and out of the Service, an unusually large number of loyal and loving friends. As a boy, foremost in his studies, his patriotic spirit compelled him to place himself among the defenders of his country. His training as a soldier began when at eighteen years of age, as Lieutenant in the 1st Regiment of Artillery; he took part in the defence of Fort Pickens, and it was then, while yet a youth, that in the rescue of Wilson's Zouave Camp from the rebels, he well earned his General's commendation for special gallantry and coolness on the field. These qualities soon gained him the command of his battery, and in this responsible position he passed through the arduous siege of Port Hudson, and the desperate battles of the Shreveport Campaign. Transferred later to General Sheridan's Army in the Shenandoah Valley, Captain Taylor, now a veteran of many battles, was assigned to the command of two batteries attached to the Cavalry, and in the many fights of that famous campaign, added further laurels to his brave record. Throughout his career a strict disciplinarian, he demanded of his subordinates the utmost of their duty, but when duty ceased, and social relations were resumed, his kindly and affectionate nature drew close to him all with whom he came in contact. Throughout the country, from Washington and New York to San Francisco and Portland, many loving friends will grieve—knowing that a generous and tender heart has ceased to beat—that a faithful and gallant soldier has gone to his rest. Of Maj. Taylor the Washington *Critic* says: "His death is the source of great sorrow, not only to his Army friends who admired and loved him, but to the hundreds of residents who had known him from his birth in this city in 1843. He was the son of Franck Taylor, Esq., who was the brother and partner of Hudson Taylor, as proprietors of the famous book store that in the days long before the war was the favorite resort of the statesmen of two generations ago. He was married just after the war to the daughter of Hon. Cornelius Wendell, who was Public Printer during the Buchanan Administration, whom he leaves, with five children, to survive him. His brothers in the Service are Comdr. Harry C. Taylor, U. S. N., and Capt. Daniel Morgan Taylor, Ordnance Corps, U. S. A. A sister is the wife of Mr. Fred B. McGuire here, and the venerable mother of the gallant soldier still resides in the old house at No. 324 Indiana avenue."

—

BREVET BRIGADIER GENERAL HENRY D. WALLEN, Colonel, U. S. Army, retired, died suddenly of heart disease Dec. 2, at his residence in New York City. He was in his 68th year, having been born at Savannah, Ga., April 19, 1819. While but a boy he left his home and took part in the Florida War, which secured him an appointment to the Military Academy which he entered Sept. 1, 1836, and was graduated July, 1840, with W. T. Sherman, Stewart Van Vliet, F. N. Clarke, G. H. Thomas, G. W. Getty, Wm. Hays, Pinckney Lugenbeel and other well-known officers. He served in the 4th Infantry, being engaged in the Florida and Mexican Wars, until Nov. 25, 1861, when he was promoted Major of the 7th Infantry, and assigned to detached service to the Isthmus of Panama, with 3,000 stand of arms for the Eastern Armies. In the early part of the War he served in New Mexico and received the brevets of Lieutenant-Colonel and Colonel for the meritorious services rendered by him there. From June, 1864, to May, 1835, he was in command of his regiment at Fort Schuyler, and March, 13, 1885, received the brevet of Brigadier-General for faithful and meritorious services during the War. He was promoted Lieutenant-Colonel 14th Infantry, July 30, 1865, and served on the Pacific Coast until 1866. He then came East and was in command of the recruiting depot at Fort Columbus from March, 1867, to May 5, 1869. In 1872 he was on the Yellowstone Expedition, and on Feb. 19, 1873, he was promoted colonel 2d U. S. Infantry, and was retired Feb. 18, 1874, for disability contracted in the line of duty. Since then he has resided mainly in New York City, where he and his family had many friends. That Gen. Wallen's service was not more conspicuous during the war was not his fault, for he repeatedly, we believe, sought active service with the armies under Grant, Sherman, and others, but the War Department did not see fit to grant his request, and if we recollect aright there was some strong correspondence on the subject between the deceased officer and Secretary Stanton. Gen. Wallen married a daughter of Surgeon S. G. I. De Camp, U. S. A., who survies him. His son, Henry D. Wallen, Jr., was graduated from West Point in 1867, assigned to the 3d U. S. Artillery, afterwards transferred to the 21st U. S. Infantry, and resigned in 1870 to engage in civil pursuits. Gen. Wallen was a lifelong friend of Gen. Grant and other prominent officers, and was a brave and gallant officer, an honorable gentleman, and a warm friend. His death will be sincerely lamented by the many of his comrades in arms who survive him. The remains were taken to West Point December 4 for interment.

—

P. A. PAYMASTER S. D. HURLBUT, U. S. N., died at Havre, France, November 26, of disease of the heart. He was a son of the late Rev. Joseph Hurlbut, of New London, Conn., to which city the remains have been taken for interment Dec. 8.

—

MR. HENRY M. VALLETTE, Chief Clerk in the Department of Steam Engineering at the League Island Navy-yard, writes the following "In Memoriam": "On the night of November 15 the soul of P. A. Engineer Francis M. Ashton, U. S. N., was surrendered to the Great Giver, and on Thursday, Nov. 18 his earthly remains were temporarily bestowed in the receiving vault at the Union Burial Ground, from whence they will be taken to the cemetery at Oxford, where repose the bones of his ancestors. He was so affable in all his actions, so generous to his fellow men, so kind and loving to his dear old mother, that, to one of his gentle disposition, a rural churchyard would seem to be a proper resting place—a secluded 'God's Acre' where the breath of spring mornings shall stir the green leaves into a sweet requiem o'er his hallowed grave. He has borne the last trial of humanity; the veil that separates our present lives from the impenetrable future, to him has been lifted, and perchance he is now revelling in all the beatitudes of a glorious life. Yet must we mourn the loss of a precious friend 'hid in death's dateless night.' The insatiate archer hath led him to his end, and now 'Goodness and he fill up one monument.' Brother, farewell."

MR. LOCKHART HUNTER, who died recently at Austin, Texas, aged eighty, was one of the three who left the Alamo in the hope of securing help for the garrison. Later he joined the forces under General Fannin and participated in the battle when less than five hundred Texans withstood Santa Anna until failure of ammunition necessitated their surrender. He was also one of the fourteen who escaped to tell of the massacre of Goliad, and is believed to have been the last living survivor.

THE death of Mrs. Cooke, the wife of Capt. A. P. Cooke, of the receiving ship *Vermont*, which took place at the Brooklyn Navy-yard late Wednesday night, has cast a gloom over the yard, and all social festivities have been suspended. Mrs. Cook had been sick for some days with what was considered to be a mild case of typhoid fever. On Wednesday morning unfavorable symptoms were developed. She leaves two sons, ages twenty-eight and fourteen. The funeral was held on board the *Vermont* at 3.30 on Friday.

COLONEL JAMES KENT, who died Nov. 29, at Fishkill Landing, N. Y., served with great credit during the War. He was the only son of the late Judge William Kent, and a grandson of Chancellor Kent.

COLONEL C. G. COLGATE, who died in New York November 25, served with distinction during the war, first in the 7th Regiment and afterwards as Colonel of the 15th New York Engineers.

COLONEL E. S. JONES, who commanded the 3d Pennsylvania Cavalry during the War, died Nov. 25, at Nashville, Tenn. He was a prominent member of the G. A. R.

MRS. ANDRUS, wife of Lieut. F. B. Andrus, and daughter of Major W. H. Powell, 4th U. S. Infantry, died at Boise Barracks, Idaho, Nov. 29.

SQUIRE WILLIAM SHOEMAKER, a veteran of the War of 1812, who died recently near Nashville, was believed to be about 102 years old.

GENERAL GUERZONI, formerly on the staff of Gen. Garibaldi and his subsequent biographer, died a few days ago at Padua, Italy.

THE widow of Nana Sahib, the leader of the Sepoy mutiny of 1857, died recently at Katmandu, the capital of Nepaul.

COMPOUND HARD AND SOFT STEEL.

To the Editor of the Army and Navy Journal:

I DO not profess to know anything about armor, nor do I know who Messrs. William H. Wallace and Co. are, but there is a statement in their letter in your issue of Nov. 27 that needs correction.

They say, "it is impossible to produce both hard and soft steel in the same plate."

To a steel maker that statement is simply funny. Compound hard and soft steel is a common article of commerce. At present it is used most in the jars of tools that are the hardest worked parts of the tools employed in drilling deep wells for oil and gas. A set of tools will weigh from half a ton to two tons, according to size, the jars—two interlocked long links—alternately lift, and pound down these tools into the rock. These jars endure many thousand or hundreds of thousands of blows from the weight of the tools, falling several feet at each blow. They were made first of Low Moor, or Benizet, or the finest Swedish irons, with a little piece of steel set in to take the blow. These were supplanted by solid steel jars, and these in turn were supplanted by the compound steel jars. The well drillers did not make these changes for fun; they had to pay for their tools and they paid for that which gave them the best return for their money.

If the Government wants an armor plate with a steel face of 100 carbon and a back softer than iron, of 10 carbon, so united that there are no imperfect welds, it can have it for the asking. If it wants a soft face and hard back, or two soft faces and a hard centre, or two hard faces and a soft centre, it has only to ask for them. Is it not about time, Mr. Editor, that some one in authority should take the trouble to find out just what can be done, and what cannot be done? Undoubtedly Europe wants to arm us; but, then, we can do it ourselves and feel a little more comfortable for having helped ourselves.

Yours respectfully,

WM. METCALF.

PITTSBURGH, PA., Dec. 1, 1886.

THE DUKE OF CAMBRIDGE.

READERS of Scripture will recall the fate that befell the sacrilegious Jew who laid his hand upon the sacred receptacle of Jewish law, the Ark of the Covenant. A like terrible fate seems impending over our English contemporary, the *Admiralty and Horse Guards Gazette*. It has actually laid its rude hands upon the sacred person of H. R. H. the Duke of Cambridge; the head of the British Army; the very embodied symbol of all that is uncriticizable and unapproachable. The bold *Gazette* thus discourses:

"We maintain that it was a needless use of the power vested in the Field Marshal Commanding-in-Chief for him to make a laughing stock, in the eyes of foreign military men, of those under his command, and his officers ridiculous by openly denouncing them to the world as incompetent soldiers. In reality, the greater number of the officers of the English Army are keener and better soldiers than the vast majority of the officers of any one of the great continental armies. In our opinion, it was decidedly wrong to thus find fault unnecessarily, as it can be easily proved that, but for the *laissez faire* policy of the Duke of Cambridge in the past, the army would be in a very great deal better state of all round efficiency at the present moment. An opportunity was given his Royal Highness, when the purchase system was abolished, to escape from the trammels and traditions of the past, and to inaugurate a new era for the British Army. The country had decided that the despotism of mere wealth and interest should no longer monopolize place and promotion. It was left to his Royal Highness to create and develop a scheme under which the advancement of merit and intellect should be assured. The regeneration of the army on a new and popular basis was an undertaking which might well have inspired his pride and his patriotism. Had he responded to the nation's initiative in that spirit which should always animate the Chief who controls the destinies of an army once pre-eminent in military glory, the abolition of purchase would have witnessed the birth of a spirit of professional enthusiasm and genius which, in its onward progress, would have defied all opposition, have overcome all obstacles."

So it would appear that the imposing figure-head of the British service is actually responsible for something, which will be news to everyone out of England. The *Gazette* goes on to say: "His Royal Highness was not equal to the occasion. He did not recognize, or he failed to appreciate the bright future that lay so invitingly at his feet. He preferred to play a listless and inactive second part to that disastrous and incompetent civilian element that now presides over the destinies of the War Office." It adds:

"He might have obtained better terms for the purchase officers had he chosen to exert himself in their behalf; but, with his usual apathy, he allowed the favorable moment to pass unheeded. The Duke sacrificed the purchase officers. And yet it would surely have been more honest of the Government to have refunded all purchase money than to have squandered vast sums in 'commission' on 'Boxer cartridges' and other worthless stores? Then, when Mr. Cardwell introduced 'short service,' to abolish pensions to the rank and file and form a Reserve, the Duke again acquiesced, and sacrificed the private soldier's pension. When Mr. Childers brought in his scheme of compulsory age retirement, again did the Duke acquiesce. He could, had he so chosen, have insisted on the breechloading system of artillery being at least fairly studied, instead of allowing Sir John Adye and the Ordnance Department to return to muzzle-loading guns at a time when all foreign armies were discarding them. In a sentence, he has left undone that which he ought to have done. We do not say he has done that which he ought not to have done; but he has most assuredly been content to retain his Command-in Chief without exerting himself to make that command an efficient force for the defence of the Empire. The Duke has, we fear, been continually waiting upon civilian politicians and events. He has initiated nothing. Why is the Army of England in such a deplorable condition? The cost of our army far exceeds that of the land forces of any other military Power, and yet, where England can send one man into the field, foreign Governments can command twenty or thirty to fight their battles; and these twenty or thirty men *cost* their country no more per annum than does England's *one man*. It is not a question of free enlistment *versus* conscription or compulsory service that we are discussing, but of military administration. That is just where the fault lies in England, where the administration of the army is carried on by civilians.

"Instead of opposing innovations which, if adopted in their crude form, his very instinct as a soldier must have told him would do harm, the Duke of Cambridge has allowed the civilian element at the War Office, headed by Mr. Knox, to whittle away at the army as much as it listed. The reluctance of the Duke of Cambridge to come into conflict with this civilian element has reacted upon officers themselves, and not one man in a hundred will now accept any 'individual responsibility' in matters of importance. Every man seems to fear that unseen but often felt power which has been the ruin of more than one seemingly bright career—a secret force whose strength may be approximately gauged by the fact that to oppose its direction is feared, and consequently shirked, even by his Royal Highness the Field Marshal Commanding-in-Chief. These things are freely said behind the back of the Duke of Cambridge! Surely it is high time some one had the honesty—for it needs no courage—to make the statement plainly to his Royal Highness's face!"

Possibly, now that the *Gazette* has begun, it may go on until it will actually be found questioning the system which produces Dukes of Cambridge.

Leonidas Dunlap Robinson, Wadesboro, N. C., and George H. Thompson, Grange, Miss., have been designated for examination for admission to the Military Academy.

REPORT OF THE SECRETARY OF THE NAVY.

In his annual report Secretary Whitney considers first the subject of reorganizing the Navy Department of which he says: "I can scarcely add to the force of the facts presented upon this subject in my last annual report. Congress has not as yet taken final action upon the matter. A bill embodying the substantial points passed the Naval Committee of the House with but two dissenting votes, and awaits action upon the House Calendar."

He gives the order organizing the Inventory Board, of which Capt. Meade is chairman, whose work is yet incomplete. Its work thus far shows that there is no real responsibility for the care and disposition of property, and there is a very large and unnecessary accumulation of stores, aggregating twenty millions of dollars in value, of which three or four millions is obsolete or useless, only entailing expense for its care, exceeding in a few years, in all probability, the value of the property. He says:

Among these accumulations some very absurd facts appear. At the eight navy-yards there have accumulated altogether of augers and bits 46,566, of which 25,274 have been lying for several years at closed yards where no work has been or is likely to be done. 29,542 screws are on hand, 10,896 gross lying at closed yards. There are 146,385 files in stock, 42,142 of them lying at closed yards. There are 11,813 paint brushes in stock, 2,246 of these in the stores at closed yards. All of these tools are serviceable, mostly new.

Of most of these articles some bureaus have recently made considerable purchases, and are even doing so at the present time, while to the credit of other bureaus there are very large amounts in store. There are found to be over 12,000 tons of cast and wrought iron lying in scrap about the yards, 759,000 pounds of composition and brass, 159,000 pounds of old copper, and 193,000 of old lead. This large accumulation of stores, gradually becoming useless, is in the nature of a side light thrown upon the system, the evil of which has been heretofore thoroughly exhibited and exposed. I confidently expect that, under the orders recently issued, by which the business is to be consolidated under the Paymaster General, a better system may be inaugurated and maintained, which will, in the end, prove more economical and satisfactory to the Service in every respect.

THE ADDITIONAL NEW CRUISERS.

Under this head the Secretary says:

The experience of the Department in its first attempt at the creation of modern vessels of war has been such as to excite the greatest concern and disappointment. An examination of the facts with reference to them demonstrated that an entirely new departure was necessary in undertaking further similar construction. Unarmored cruisers have become a distinct class, and the characteristic *absolutely indispensable to this class is very great speed.*

When the Dolphin, Boston, Atlanta, and Chicago were projected and the contracts for their construction entered into, it was well known what speed ought to be attained and what weight and character of machinery per ton of displacement was necessary to obtain it. Commercial vessels had at that time attained speeds ranging between 16 and 19 knots, and cruisers were being built in other countries, or had already been built, attaining the same speed.

The highest mean horse power developed upon trial was, in the case of the Dolphin, less than 2,200; of the Alacrity, 3,173; of the Surprise, 3,079; of the Milan, 4,132. The highest speed of the Dolphin, resulting from several trials, was 15.11 knots, running light; of the Alacrity, 17.95 knots; of the Surprise, 17.8 knots; of the Milan, 18.4 knots.

The trials had of the Atlanta indicate that her engines will develop less than 3,500 horse power, while the Esmeralda developed 6,000, the Giovanni Bausan 6,680, and the Mersey 6,626. The maximum speed of the Atlanta will be less than 15 knots, while that of the Esmeralda was 18.28 knots, the Giovanni Bausan 17.5 knots, the Mersey 17.5 knots.

These facts are stated without any intention of locating responsibility or blame upon any person. It is impossible to ascertain where it should be placed. But they indicate a simple abandonment on the part of the Department of any attempt to reach the conditions which should have been attained, and the failure on the part of the contractor to reach the limited results expected by the Department.

The Department has, since March, 1885, accumulated a large amount of information in the way of plans, showing the latest advances in the art, which, it is believed, have been availed of to a very important extent by the technical officers of the Department in the work upon the new ships now about to be undertaken. I believe it to be the true policy of the Department to gather such information from every quarter and at the same time to depend entirely upon our own resources for the construction of our vessels. The Department, during this time, has kept itself in consultation with the leading shipbuilders of the country, who feel themselves greatly concerned and interested in the success of the Department in these matters. The Department having in the course of its efforts purchased plans, including the detailed drawings of the motive power of the two most recent productions of Sir William Armstrong and Co., was strongly recommended by the several practical shipbuilders who were consulted to reproduce the machinery in two of the new ships, and to construct the other three upon the designs of its Bureaus. This course has been adopted. This intention has greatly stimulated the work of the Department, and it is hoped that the 4,000-ton ship, designed by the Bureaus, will mark not only a very great advance over the last ships designed by them, but even over those built on the plans which have been obtained from abroad. All the time necessary for the preparation of the plans has been patiently permitted and every encouragement given to the successful solution of the problems involved.

The bids for the new cruisers are given and we are told that:

An examination of the prices shows this most satisfactory circumstance, that responsible shipbuilders are willing to contract for the construction of cruisers having characteristics as high as those attained abroad at prices within 25 per cent. of the foreign prices. This is a subject of congratulation, in view of the fact that the character of the ship is quite novel in this country, the conditions to be attained most difficult. Considering the difference in the price of labor and material between the two countries, the bidding must be considered to represent a fair and not too high price for the work expected. It is believed by the Department that the contracts can all be faithfully performed with profit to the contractor and every requirement of the Government fulfilled.

Concerning cruiser No. 1, orders have been given to reduce her size, for the purpose of carrying out the intention of Congress, if possible, of bringing the expense of her construction within the limit of $1,100,000. It requires a readjustment of all the weights, and in fact the designing of a new vessel, which will necessarily take some months. Meanwhile it is hoped that the limit fixed by Congress may be removed, so as to render available the present plans, which have been the result of many months of careful labor on the part of the officers of the Department.

MONITORS AND ARMOR-CLADS.

A premium of $15,000 has been offered for accepted designs for the new armor-clads, "and in starting upon the creation of a new navy the Department has no embarrassment in desiring to avail of the best talent anywhere to be found in placing the new work upon a par with the best of other countries, from which point it is entirely safe to predict that the ingenuity and talent of our own countrymen will suffice to keep us in the front rank for future work. No time will thus be lost, even if no designs are submitted or accepted, for the process of preparing necessary plans is going on simultaneously in the Department." The Secretary says:

In view of the importance of utilizing the occasion as an inducement to steel manufacturers, it was decided to put the armor required for all of the vessels authorized by Congress into one contract, and offer the same to the competition of steel manufacturers in the United States, and allow a sufficient time for the successful bidder, if one or more should appear, to take the necessary steps in the way of the creation of plant and of initiating the manufacture. The armor and the armament of the vessels already authorized by Congress involve an estimated expenditure of $8,732,000. It is assumed by the Department that these large contracts, instead of being thrown into the hands of foreign manufacturers, should be utilized at home and made the means of securing the establishment of this branch of industry here, so important to the Government.

If this policy is correct, and is to be pursued, the matter requiring immediate attention is not so much the authorization of the construction of more ships, but the means of securing the production of armor and heavy forgings in the United States. Unless these essential elements of a fighting ship are to be purchased abroad, any ships, the construction of which should be authorszed at the coming session of Congress, would be finished from one to three years, probably three years, before the armor and the armament could be prepared.

This policy involves delay in the construction of the first vesels authorized, but at the end of five years the country would, by pursuing it, be independent and in a much stronger position in every respect than would result from any other course. In order that no time may be lost in preparing for the construction of further vessels, it is suggested that the Department have authority to employ existing and future appropriations made for new construction, in procuring, during the coming year, the preparation of plans of armored vessels to be hereafter authorized by Congress, under the direction of a commission to be composed of both civilian and naval experts fit to deal with the subject. The report of the Chief Constructor of the Navy sets forth the present condition of the vessels now in commission and their probable duration. If his estimate is correct, in six years the country will be possessed of but three serviceable cruising ships of those now upon the list; and unless a new Navy shall be created, there will be none in existence after that lapse of time.

The small amount of modern armor which has been used by the Department of late years has been purchased abroad—a policy certainly not in keeping with proper dignity and pride, nor at all consistent with wisdom. At the present time and for many years to come, in the event of a conflict with either a first or second class naval power, it would be quite impossible for the United States, as at present situated, to produce within its territory either the armor required for armored ships or the guns necessary for their armament. Nor would it be possible for the Navy of the United States to protect such articles in transit across the ocean, even if it were possible to obtain them elsewhere in time of war. As at present situated the country would be entirely defenceless in the absence of any ability to produce armor or the larger high-powered guns.

ESTIMATES, APPROPRIATIONS AND EXPENDITURES.

$13,500,000 has been expended during the year, or $500,000 less than the appropriations. This amount does not include the expenditures for steel cruisers and the completion of the double-turreted monitors. $17,258,014.25 is appropriated for 1886-7, and $25,225,718.02 is asked for 1887-8. This increase is explained as shown by a comparison of the appropriations for the present year and the estimates for the coming year under the following heads:

	1887.	1888.
Contingent Bureaus	$119,500	$156,750
Marine Corps, Q. M. Department	199,646	257,124
Naval Academy	183,532	208,761
Bureau Navigation	100,500	162,400
" Ordnance	182,800	268,500
" Steam Engineering	763,000	800,000
" Construction and Repair	900,000	1,700,000
" Yards and Docks	1,410,037	2,383,492
" Medicine	100,000	115,000
" Equipment and Recruiting	815,200	890,000
Increase of the Navy	3,500,000	5,500,000
Improvements at yards and stations (Yards and Docks)	317,595	3,308,961
Steel cruisers	438,971	.....
New Observatory (Navigation)	50,000	250,000
Observation transit of Venus (Navigation)	3,000	.....
Compass-testing House (Navigation)	2,000	.....
Special course of instruction for cadets	5,000	.....
Headstones for men lost on the Huron	500	.....
Civil experts, Naval Advisory Board	5,500	.....
Batteries of new type for six vessels (Ordnance)	.....	670,000
Secondary batteries and modern small arms (Ordnance)	.....	209,750
Purchase of land for proving ground (Ordnance)	.....	57,000
Grand total	$17,258,014	$25,225,718

The report says: "For the first time in many years the ordinary expenditures of the Department have been kept within the appropriations. The Bureau officers of the Department have in general given much zeal and intelligence to the work of the Department during the last year. Useless expenditures have, in large number of cases, been cut off, rings formed to get and control Department contracts have been broken up, and the work of the Department and its contracts have more and more fallen into the hands of well-known and established houses."

OCCURRENCES OF THE YEAR.

As a result of the manœuvres of the French and English squadrons of evolution, it has been demonstrated that the type of torpedo boat (100 to 110 feet in length) hitherto accepted as capable of efficient service upon the open sea is too small for such work, and that its rôle in war must be restricted to operations along the coast or harbors. An increase of size has consequently been demanded, and torpedo boats intended for a service extending beyond the limits of the coast line are built of lengths varying from 130 to 150 feet and in displacements from 90 to 150 tons. (A still larger boat has been built for the Japanese Government; length, 166 feet.) The Department in July last appointed a board to examine and report upon the adaptability of the Stiletto, a boat built by Herreshoff Brothers, of Bristol, R. I., for service as a torpedo boat. The board reported that the Stiletto embodied the qualities which a modern torpedo boat should possess, although they suggested certain improvements for future boats. The steam trials of the Stiletto were exceedingly satisfactory, and when the small type (but 90 feet length) of the boat is considered they compare most favorably with those of boats built abroad.

On July 2, with 13 men on board and about a ton of coal, displacement about 28 tons, this boat made four runs over the measured mile in a rough sea and fresh wind. The average speed was 22.12 knots. On July 30 six runs were made, with 12 men on board and the same amount of coal. The average speed was 22.89 knots. The same day the boat made a run of 59 knots, at an average speed of 19.62 knots. On the 7th a run to Block Island and back was made in a rough sea and an average speed of 16.2 knots for the run was obtained.

Congress at its last session appropriated for a pneumatic dynamite-gun-boat. The conditions were for a considerable time thought to be too severe for any contract to be made, with the guarantees required. It can now be stated, however, that there is reasonable ground to expect that a contract can be entered into under the stipulations of Congress. The result of the experiment is looked to with much interest by all familiar with the subject.

Attention is called to the recommendations of the Admiral of the Navy, to whose report we refer elsewhere; to the report of the Superintendent of the Naval Academy, the Commandant of the Marine Corps, and the reports of the several Bureau Chiefs, of which we have given synopses. The Secretary quotes Commander Sampson's recommendation that the course at the Naval Academy be reduced to four years, and the principal recommendations which are found in the other annual reports concerning the Navy are published here. Of Comdr. Sampson's recommendation concerning the reduction of the course at the Naval Academy to four years, the Secretary says: "It is estimated that these changes, so desirable for the Government, for the Navy, and for the discharged cadets, will result in a saving of $36,000 per annum." Of Comdr. Schley's recommendations as to legislation on behalf of the enlisted men it is said that—

Bills looking to legislation on these subjects passed the Senate at the last session of Congress, but have thus far failed of action in the House. There is no doubt that the passage of these measures will do much to improve the morale of the enlisted men of the Navy. Other subjects are mentioned upon which legislation appears to be needed, especially the provision of an outfit for apprentices upon enlistment, the authorization of the administration of oaths by commissioned officers of the Navy, the establishment of a uniform system of punishment for minor offences committed on shipboard, and a specific provision for naval seamen employed at the Naval Academy, in the Coast Survey, and in the Fish Commission, in order that the limited complement now allowed for the cruising ships of the Navy may not be exhausted by the supply of men for these subsidiary purposes.

Of the report of the Ordnance Bureau the Secretary says:

The report of Commodore Montgomery Sicard, Chief of the Bureau of Ordnance, shows a steady progress in the work of the Bureau. The satisfactory character of the results accomplished, in the multifarious details of this branch of naval supply, requiring care, accuracy, and mechanical ingenuity in the highest degree, appears to call for special commendation. The development of powder, projectiles, and of the fittings and mechanism of heavy guns and carriages, has been continued, and its labors in this field, have enabled the Bureau to satisfy itself and the Department in meeting the latest requirements of modern weapons as rapidly as provision is made for their construction. It is hoped that the Bureau will not be prevented, as heretofore, by lack of funds, from continuing its important work in the development of armor-piercing projectiles and shells intended for use with high explosives. The importance of a new site for the proving ground cannot be too strongly urged. The great increase in the work of the Bureau absolutely requires that additions should be made to its clerical force, for which provision has been asked in the estimates.

Of the Bureau of Navigation the report says:

Attention is called to to the steady reduction in recent years in the appropriations for the general purchase of navigation supplies, and to the consequent inability of the Bureau to meet in this respect the necessary wants of the Naval Establishment. It seems to be beyond question that adequate provision should be made for keeping our cruising ships supplied with whatever is essential to the requirements of modern navigation. The recommendation that provision be made for an additional clerical force to carry on the work of publication of the Naval War Records is renewed. The importance of this work has been fully pointed out in my previous report, and its needs are again commended to the attention of Congress.

The Surgeon-General's request for the restored amounts of estimates under heads of Medical Department, Repairs and Contingent of Bureau, is commended; also the requests for an additional clerk in the Pension Division, for a permanent structure at the Penobscot Quarantine Station, and for an improvement in the condition of the Medical Corps of the Navy. We are told that "the importance of the work to be done by the Naval College can hardly be overestimated. Additional courses of lectures are now in preparation for the coming year, upon other subjects bearing directly upon the art of war, and embodying those results of recent investigation which are inaccessible to the service in general. As opportunity offers, applications from officers for permission to attend the college course will be granted, and it is hoped that in time its scope may be gradually enlarged in the direction of practical training with modern ships and modern guns, as far as the resources of the service will permit."

ADMISSION OF APPRENTICES TO THE NAVAL ACADEMY.

Under this heading the Secretary says:

The training system now established in the Navy has resulted in raising the character and tone of the corps of enlisted men, and a high standard of intelligence, readiness, and efficiency prevails in the class of boys who are entered as naval apprentices. Under these circumstances, the question has arisen whether, in order to furnish an incentive to ambition and a proper reward for extraordinary capacity and effort, some provision should not be made for affording to the most deserving among our apprentice boys an opportunity of entering the grades of commissioned officers. The Department is now giving this subject the careful consideration which it deserves. It is certainly in accordance with the democratic spirit of our institutions that every career and every office of honor or trust in the service of the American Government should be open to every American boy, and that no barriers should be placed in the way of advancement other than those created by the unworthiness of the candidate.

It is the desire of the Department that the naval service should not be open to any charge of exclusiveness, a the sole exception to this sound and who esome principle of our national policy. To this end t would recommend that measures be taken by which, under proper safeguards, admission to the Naval Academy might be given to a limited number of apprentices, who should then be subjected to the same course of training and examination as the other cadets, and who, under the application of a uniform test, should stand or fall solely according to the strength or weakness of their own merits. Under such restrictions, it is believed that the opening of the quarterdeck to the apprentices will not afford an additional stimulus to effort, but by strengthening the bond between officer and enlisted man will react favorably upon both branches of our naval personnel.

The report concludes with the usual statement of the organization and work of the several squadrons.

A DAYTON, O., despatch says: "A Cincinnati brewery sent forty barrels of beer as a Thanksgiving treat to the Soldiers' Home, and the veterans crowded the entrance to beer hall until the large porch broke down. Four hundred filled the barroom, and, unwilling to fire and fall back, kept on drinking without consideration for their twenty-five hundred thirsty comrades in line outside waiting their turns. The officers of the institution saw trouble brewing, and ordered the hall vacated and the doors closed. The prospect for free beer kept all the old soldiers at home, and the trains, usually crowded on holidays, came into the city empty."

ADMIRAL PORTER ON OUR NAVY.

ADMIRAL PORTER has submitted to the Secretary of the Navy a report which is interesting, but so long that it would occupy some ten or twelve columns of the JOURNAL in this type. The Admiral urges that the eleven ironclads laid up at City Point be put in thorough order at an expense which he estimates as $196,000 for the Saugus, and somewhat less for the other ten taken together, or say, $375,000 in all. If these vessels were now armed with heavy rifled guns they would, he says, be as formidable as they were in 1863, '64, and '65. Repaired they could mount 2' heavy rifled guns and could force their way past any forts placed to defend our principal cities. He thinks that we shall be liable to an attack from some tenth rate power until we get the double turreted monitors ready, and that the others will be a valuable auxiliary. The subject of harbor defence he considers of vastly more interest at the present moment than the construction of the new cruisers, of which he has no good opinion. So far they have given no evidence of great speed and are not likely to. There is a great difference in tonnage, displacement, horse power, etc., and none of the classes seem to assimilate sufficiently to form such a system as is absolutely necessary in a naval force. We are making no advance in building steam engines, simply following the beaten track. We adhere to old-fashioned, coal wasting boilers and the so-called "improvements," notably so in the case of the building of the Chicago, Boston, and Atlanta. The Admiral thinks that the boiler for us is that of Herreshoff, who claims that he can overcome the difficulty of supplying several boilers from one engine. He says:

The Herreshoff and the Belleville are the only types of multitubulous boilers which have as yet been applied to seagoing vessels. So far as I am able to judge, the Herreshoff system is in advance of the other, although the Belleville boiler has been carefully fostered by the French Government, while the Herreshoff boiler has received no particular encouragement from the Government of the United States beyond the purchase of some steam launches, which have proved themselves the best in our Navy.

As the Milan with a length of 303 feet has attained a speed of 19 knots with 4,000 horse power, I see no difficulty in attaining a speed of 21 or 25 knots in a vessel 260 feet between perpendiculars with 5,000 horse power and very much finer lines. I submitted a plan of such a vessel last year to the Department. It was referred to the board of officers engaged in designing ships for the Navy, who exhibited indifference to the subject. Much allowance should be made for persons grappling with the difficult problem of how to get but a speed of 15 knots, which seems to have been considered the maximum of United States ships of war, and who with ideas restricted to the contemplation of such slow vessels did not realize the possibility of a speed of 22 knots in a gunboat of 1,600 tons displacement.

For every cruiser that we build we should construct a double-turreted monitor of the Monadnock, Miantonomoh, or Puritan type, only they should be built strong enough to resist modern ordnance, for these are the protectors upon which we must rely in time of war. Two of these monitors, fitted with rams and torpedoes, and properly handled, would be a match for the heaviest European ironclad that could reach our shores.

I have seen enough of torpedoes to know that two or three hundred pounds of gun cotton exploded under a ship, no matter what her size, is bound to sink her or place her hors de combat. What we want are swift vessels from which torpedoes can be fired. It is difficult just now to decide upon the merits of the different forms of torpedoes. The Fish torpedo is evidently the favorite, although no device of this kind has made more failures than the Whitehead.

The Admiral thinks that the Ericsson torpedo is the best in the world for short ranges and might, if properly fostered by the Government, be brought to perfection. He thinks that a steel vessel on the Ericsson plan, 150 feet long, with a quadruple expansion engine and having a speed of thirty miles an hour, would be the perfection of a torpedo boat. He recommends that twenty of these vessels be designed by the Messrs. Herreshoff. He thinks that the Alarm should be mounted with heavy guns and sent to Newport for the instruction of the Naval College. Now the only place where the new guns can be seen is on the lathe at Washington Navy-yard or at the testing ground at Annapolis, in which direction comparatively few officers have occasion to go. The Admiral says:

I recommend that a board of officers be appointed to select a good life-boat for the Naval Service, to be fitted with the best detaching apparatus now in use. I would also suggest that a board be convened to take into consideration the allowances of ships of war. There is at present an unnecessary amount of weighty material on board our ships which can be dispensed with. The number of anchors, chains, hawsers, blocks, spars, and other articles too numerous to mention, which were necessary in the days of purely sailing vessels, are so no longer.

He thinks that too little attention is given to sail power for our new cruisers, and that, though the rigs for our new gunboats are better than those for the ships, that of Gunboat No. 1 will be found of little use for cruising under sail. It was found unsuitable for the Huron, and her loss is ascribed to her rig. He says further:

I think the opinion is general throughout the Service that until the Department is reorganized we can have no system, maintain no proper discipline, and build no effective ships, but that a reorganization of the Department will bring order out of chaos and the Navy will run along as smoothly as it did previous to 1842, when the Board of Navy Commissioners were the advisers of the Secretary of the Navy and had administrative and executive authority.

TRIAL TRIP OF THE ATLANTA.

CAPT. MCCANN, Chief Engineer Henderson, and Commander Crowninshield, the Board having charge of the trial trip of the *Atlanta*, in their official report say:

No continuous six hours' trial was possible, in consequence of blowing out the water valve joint of the high-pressure cylinder and the subsequent heating of the crank pin. The former necessitated a stop, but was remedied by the engineer force on board, and the latter compelled the engines to be slowed down, but the heating was not to such an extent as to do any injury. Regarding the fire rooms, their airtightness was impaired by leaks which can probable be remedied. For the reasons stated the revolutions of the engines did not exceed 58. The maximum speed obtained on this trial was by bearings 12.8 knots per hour, making allowance for tide. We are of the opinion that a successful full-powered trial of this vessel can only be maintained by that organization which continuous service and experience in the management of the machinery will bring.

In his official report of the results of the trial Capt. F. M. Bunce, commanding the *Atlanta*, says:

We are unable to "maintain successfully the collective indicated horse power developed by the engines at 3,500 for six consecutive hours." The highest collective horse power obtained from indicator cards was 2,350 on Sept. 24, the engines making 62 revolutions per minute. On Sept. 25, the engines making 68 revolutions per minute, obtained an indicator card from one low-pressure cylinder; assuming the increase of power to be equal in all three cylinders with this increased number of revolutions, would give the collective horse power at 2,800, maintained for a few minutes.

He sums up the results of the trial trip as follows:

During the whole trip of six days we were able but one day to run for six hours at the maximum attainable speed on the 19th, and a leak in the furnace of No. 8 boiler prevented our making as high a speed or developing as great a horse power on that day as on the 20th, when, for a few minutes the engines developed a collective horse power of 3,034. The highest speed attained for any one hour was 14.7 knots on the 20th, with an average steam pressure of 78 pounds and average revolutions 63.2 per minute; fresh wind aft. The foaming of the boilers and the trouble caused by it with the water valves, or perhaps the inability of the water valves to take care of the water passing into the cylinder from a slight foaming of the boilers, gave us constant trouble when the attempt was made to attain a maximum speed.

The contract for the *Atlanta* provides that upon trial her machinery shall maintain for six hours a collective indicated horse power of 3,500, and there is nothing in the contract relating to speed. It will be two or three months before the vessel can be made ready for another trial.

NAVAL BUREAU OF STEAM ENGINEERING.

THE Chief of the Bureau of Steam Engineering, Engineer-in-Chief Chas. H. Loring, U. S. N., reports a total ordinary expenditure of $736,309.78, besides $1,009,107.90, expended from the appropriation of $7,051,731.59, for the new steel cruisers. The principal part, if not all, of this balance, $42,623.66, will be required for the completion of the machinery of the *Chicago*. Of the million dollars allowed for the double-turreted monitors, all but $11,098.19 has been expended or is due on contracts.

The following table will exhibit the character and cost, in labor and materials, of the work done under the cognizance of this Bureau for the fiscal year ending June 30, 1886, upon the machinery, boilers, etc., with outfits, stores, etc., of Naval vessels, the expenditures for maintenance, etc., at the several Navy-yards and stations, the character of the work done upon each vessel, and the present condition of the vessels. The asterisk (*) indicates those in good condition:

*Adams	$22,949.32	New boilers completed and repairs to engines.
Ajax	1,296.97	Care and preservation. Needs new boilers, $40,000.
Alarm	776.56	Care and preservation. Under repair.
Alert	705.84	Under repair.
*Alliance	69,115.42	New boilers completed and repairs to engines.
Amphitrite	52,178.07	Under contract for the machinery.
Atlanta	181.21	Subject to contract trial.
Bear	18.00	
Boston	1,146.00	Subject to contract trial.
*Brooklyn	9,716.43	Repairs to machinery.
Canadaigua	9.35	
Catalpa	1,839.03	Repairs incident to continuous service.
Chicago	329.55	
Cohasset	533 67	Needs $1,500 repairs.
Despatch	4,932.51	Needs $5,000 repairs.
*Dolphin	4,864.56	Repairs to and changes in engines and boilers.
Enterprise	1,519.33	Under repairs.
*Essex	56,811.63	Repairs to machinery and boilers and work on new boilers.
Fortune	4,134.01	Needs $1,500 repairs.
Franklin	1,083.65	Requires new boilers, $30,000.
Galena	10,108.02	Do. $95,000.
Hartford	8,467.89	Do. $75,000.
Intrepid	759 24	Care and preservation.
Iroquois	1,413.19	Requires $10,000 repairs.
Jamestown	304.48	Repairs to steam-heating apparatus.
*Jason	598.69	Care and preservation.
*Juniata	12,877,02	Repairs incident to continuous service; ice machine put in ship.
Kearsarge	11,113.28	Repairs to boilers while in service. Needs new boilers, $65,000.
Lancaster	11,724.84	Repairs to boilers while in service. Needs new boilers, $75,000.
Leyden	1,657.14	Needs $1,500 repairs.
Marion	1,020.70	Needs $2,000 repairs.
Mayflower	1,012.04	Repairs to boilers while in service. Requires $10,000 repairs.
Miantonomoh	3,392.96	Turret machinery.
Michigan	218.38	Needs $3,000 repairs.
Minnesota	2,846.48	New cutter boiler. Needs new boilers, $75,000.
*Mohican	1,697.34	
Monocacy	2,062.73	Needs $5,000 repairs.
Monongahela	22.87	
*Montauk	598.60	Care and preservation.
Monterey	854.01	Needs $1,500 repairs.
Nahant	597.80	Care and preservation.
*Nantucket	700.15	Do.
Nellie	137.56	Needs $500 repairs.
New Hampshire	124.92	
Nipsic	1,632.47	Under $20,000 repairs,
Nina	2,507.99	Needs $1,500 repairs.
Omaha	7,002.57	Needs $25,000 repairs.
Ossipee	1,161 67	
Palos	8,038.85	Repairs to boilers while in service. Needs new boilers, $28,000.
Pinta	988.40	Needs $5,000 repairs.
Pensacola	7,239.62	Repairs to boilers while in service. Needs $5,000 repairs.
Phlox	430.23	Repairs incident to continuous service.
Portsmouth	603.26	Repairs to steam-heating apparatus.
Pilgrim	11.75	
Powhatan	7,370.89	Repairs to boilers while in service.
Puritan	35,376.87	Final payments on the contract for engines.
Quinnebang	3,471.33	Needs new boilers, $75,000.
Ranger	7,181.19	Needs $5,000 repairs.
Rescue	114.97	Needs $500 repairs.
Richmond	62,611.07	New boilers put in, and extensive repairs to engines completed.
Rocket	178.68	Needs $500 repairs.
Shenandoah	1,783.24	Needs new boilers, etc., $75,000.
Snowdrop	4.50	
Speedwell	2,507.50	Needs $1,500 repairs.
Standish	9.90	Needs $500 repairs.
Swatara	23,729.92	New boilers completed. Repairs to engines and boilers while in continuous service. Needs $20,000 more.
*Tallapoosa	13,327.17	Thorough repairs to the machinery completed.
Tennessee	18,800.91	Repairs to engines and boilers while in continuous service. Needs $85,000 more.
*Thetis	340.51	
Ticonderoga	143.36	
Trenton	3,518.43	
*Vandalia	67,197.86	New boilers completed and put in, and repairs made to engines.
Vermont	711.69	
Wabash	1,195.35	Needs new boilers, etc., $50,000.
Wachusett	142.87	
*Wyandotte	256.69	Care and preservation.
Yantic	9,005.73	Repairs to engines and boilers while in continuous service. Needs $8,000.
Total	$597,049.00	

The expenditures at navy-yards and stations not included in the amount expended on naval vessels are as follows: Portsmouth, N. H., $24,411 78. Boston, Mass., $7,693.16; Brooklyn, N. Y., $79,780.85; League Island, Pa., $7,199.63; Washington, D. C., $52,932.11; Norfolk, Va., $45,747.32; Pensacola, Fla., $5,315.87; Mare Island, Cal., $56,127.69; New London, Conn., $1,507.95; Key West, Fla., $3,746.72; total, $284,463.08.

Of the designs for the engines of the additional vessels the report says:

These designs are now before the builders of the country, by whom they have been well received. I believe them to be fully abreast of the development the art of marine engineering has attained, and to contain possibilities of performances equal to that of any marine machinery that has yet been constructed. To obtain the anticipated results from the machinery to be built from them, however, there is another important factor required, which will have to be supplied, and that is a fire-room force, drilled and educated in new methods, differing largely from those which have heretofore sufficed in our Navy practice. The machinery with which we have been dealing hitherto, designed fourteen years or more ago, under the prevailing practice of the times, for the moderate combustion of slow-burning anthracite coal, satisfied the conditions when producing from four to six indicated horse-powers from each square foot of grate. That with which we have to deal in the future demands, for the record trials at least, a duty three or four times greater than this, and from fuel burned under the different conditions of forced draft. It is needless to say that for this the systems and methods now in vogue will not avail. A forced draft system has been applied to the boilers of the U. S. S. *Alliance*, which has fully met the expectations of the Bureau. The space occupied by the boilers has been reduced one-third. The attained horse-power is about 15 per cent. greater than under the original arrangement, and it is believed, with additional experience, this can be increased. The coal-bunker capacity is increased 18 per cent., and the ventilation of engine and fire-room is much improved. A new boiler-shop is needed at the New York yard.

NAVAL BUREAU OF NAVIGATION.

CAPTAIN J. G. WALKER, chief of the Bureau of Navigation, reports: An extensive series of experiments has been carried on by the superintendent of compasses for the purpose of testing the efficiency of the new compensating binnacle and in its completed state it is now accurate in principle and construction. The special work on board the *Atlanta* at Newport, and the *Boston* during her passage from Chester to New York, developed some interesting facts in relation to the action of their compasses, which are considered so important that the reports are forwarded with the report of the superintendent of compasses.

Single incandescent electric lighting plants have been installed in the *Atlanta* and *Boston*, the former by the United States Electric Lighting Company, the latter by the Brush Electric Company, and bids have been invited by advertisement for proposals for installing a double plant in the *Chicago*.

Photographic outfits are to be supplied to cruising ships as rapidly as possible. An appropriation is asked for to supply ships of war with deep sea sounding machines and reeling-in engines. They have already been supplied to the *Juniata* and *Essex*. The revision of the general signal book has been completed. The modifications proposed in the tactical signal book will be subjected to trial.

These trials can only be carried out successfully by a number of ships remaining together at sea in one squadron for a considerable time. Very important data relating to the manœuvring powers of ships, and the consequent tactics to be observed in battle may, however, be obtained by determining the relative speeds and tactical diameters of our larger tugs, and then exercising them together as a squadron, both in smooth water and under the varying conditions to be met with at sea. For this purpose I would recommend that four tugs of the same class be prepared for this work, and that during the coming spring and summer they be officered and manned, forming a "squadron of evolution," now considered necessary by all foreign Governments for the intelligent instruction of the *personnel*.

It is proposed that the *Ranger* should complete her surveys in the Pacific and that the *Thetis* should go to the Spanish Main to correct the errors on charts published from the old Spanish surveys, after which she should go to the Pacific to search for the many dangers to navigation reported to exist in that ocean, and to accurately determine the geographical positions of some of the numerous islands which are known to be incorrectly placed on the charts now in use by navigators. The progress made with the naval war records has been as rapid as the limited force would allow. A sufficient appropriation to push this important work to completion is asked for. The work of the Naval War College is sufficiently set forth in the article we published last week, and which was incorrectly headed "The Torpedo School." The work of the Hydrographic Office and the Naval Observatory is briefly referred to. Steps have been taken to commence the building of a new Naval Observatory. Captain Walker says:

I beg leave to bring to your attention the suggestions and recommendations which have been submitted in previous annual reports relating to the ill effects likely to result from delay in obtaining for publication in the Naval War Records the papers now in private hands, and necessary for the complete narrative of the operations of the Navy during the Civil War; to the advantages to be derived from placing the library of the Navy Department on the same footing regarding the binding of books as the libraries of the Department of State, the Patent Office, and the Surgeon-General's Office; to the remarks relating to the character of the building in which the engraving of plates and printing of charts is carried on for the Hydrographic Office; to the importance of establishing compass stations at the large seaports of the Atlantic and Pacific coasts; to the advisability of extending the system of time-balls for the benefit of the maritime community; to the suggestion favoring an international congress to consider the adoption of a universal system of marks and buoys for channels and harbors; and to the suggestions as to the desirability of increasing the pay of the instrument-maker of the Naval Observatory.

PASSED ASST. SURGEON GEO. C. LIPPINCOTT, U.S.N., has been ordered to appear before the Naval Retiring Board on Monday. Paymaster Wm. N. Watmough, U. S. N., and Surgeon Homer L. Law, U. S. N., were before the Board this week.

THE STATE TROOPS.

NATIONAL GUARD ABUSES.

A STUDY of the reports of Army officers on the National Guard and those of State officers shows that they agree in pointing out two conspicuous defects as the most detrimental to a proper development of discipline and military instruction. One is the frequent lack of capacity and tone in company officers, and the other the toleration of the presence at encampments of an unreasonable number of visitors, both day and night. Neither criticism is new, and both have been frequently presented in the JOURNAL. They have, however, in too many cases been ignored, or the evil has been accepted as incurable. That they are now recognized by the observed as well as by the observers seems to indicate a new departure. Strict and prompt obedience to orders, proper respect for superiors, and cheerful submission to military rules are indispensable. That these are frequently not observed is mainly due to the fact that so many officers do not respect themselves, especially company officers on whom the immediate instruction of the men depends. While in no way desiring to prescribe rules for National Guardsmen in their daily, ordinary relations, between superiors and inferiors holding intercourse in their military character there should be no familiarity, and especially not at a camp of instruction, where duty is continuous and where all civil relations have been laid aside. That encampments where officers drink, smoke, and skylark with the men do not produce proper results is but natural. What would become even of a business concern with heads of departments so lacking in dignity as to put themselves during business hours on a similar footing with the employees? Officers who lack tone and dignity are generally deficient in military knowledge and capacity for instructing their men as well, and thus they not only work to the detriment of their organizations by their bad example, but also by their ignorance. The evil, it is true, is difficult to eradicate, but much improvement could be made by proper measures, and as such we recommend institutions for the instruction of candidates for officers, more care in their selection and appointment than is now exercised, and making it obligatory on examining boards to inquire whether the bearing and tone of those before them will enable them to handle men and command their respect, and are equal at least to their ability in rattling off tactics.

The turning of an encampment for instruction of soldiers into a picnic ground for their sisters, cousins, and aunts, as is so frequently the case, is one of the most serious drawbacks to proper progress. Grounds for camps are selected so near to the homes of the organizations that they are overrun by visitors crowding upon the men, interrupting their exercises and more of less demoralizing them in many ways. People will congregate where there is music and military display, and crowds witness the parades at Army posts where bands are stationed, but they are kept at proper distance. To effect this is the difficulty at militia camps, and for this purpose stringent rules are necessary. Those established for the government of the last encampment in New York were well enforced and the evil reduced to the minimum.

There are numerous instances, however, in other encampments where outsiders have been allowed to remain in camp over night. Col. Pennington, of the Army, and Adjutant-General Dalton, of Massachusetts, lay emphasis upon this. The latter says: "I am satisfied that camp visitors should not be allowed to remain in the quarters of the men over night, but be obliged to leave the lines at 'taps.' Many instances have come to my knowledge where such visitors have deprived the soldier of his bed, and have been a source of expense to entertain. If such visitors like camp life, it is easily attainable by joining the militia."

The necessity of proper relations between officers and men and the preservation of correct military bearing and a dignified tone has recently been so painfully demonstrated in Brooklyn that the subject requires no further remark.

WAR VETERANS OF THE NINTH.

J. S. SWORDS has issued Bulletin No. 2 to his "Fellow survivors of the Ninth Regiment of New York State Militia, known also as the 83d Regiment New York Volunteers, which was sworn into the service of the United States 'for three years or during the war,' at Camp Cameron, June 8, 1861, and mustered out in New York City June 23, 1864." It gives the correspondence he has had with the organization known as "the Veterans of the 9th Regiment," in his endeavor to persuade them to let him make use of the list they have prepared of the names and addresses of its members or ex members of the Ninth Regiment. This they have refused to do, on the general ground of indisposition to aid in founding an organization in opposition or in rivalry of their own. In reply to the Adjutant Mr. Swords says: "You, Mr. Adjutant, were not a member of that regiment, although you served with credit in one of equal standing and renown. Your Association comprises in its membership, title and belongings, that portion of the National Guard of the State of New York, which, having served, within the boundaries of the State as militia, the term of service prescribed by law, is entitled to the designation enjoyed —by grace of such law and service—and in addition such Veterans of the War as are inclined to assist in perpetuating the deeds of "the Ninth of the War." The rank and file of that regiment are not members of your organization, and upon the same authority as before quoted, I am assured that Veteran Militiamen outnumber the Veterans of the War eight to one, if not more. The Society of Veterans propose to accept in membership only those serving in the 9th Regiment, N. Y. S. M., during the period of enlistment, between the dates of June 8, 1861, and June 23, 1864." It is proposed, it is further stated in this circular, to organize an association on the model of the War Veteran Association of the Brooklyn Fourteenth, where "no matter how poor the comrade may be, no matter as to his faults, no matter the errors committed in the Army, he can sit at the festive board on each recurring 18th of May, and as a 'comrade of the 14th' he can eat, drink and be merry, with the proud feeling that the Association is one for all, and all for one." "We want to meet each other," he says, "as we served together in the field—no titles, no epaulettes, no dresscoats, and no set speeches, simply a reunion, within the financial reach of each and every survivor."

ARMORIES FOR THE GUARD.

AT a meeting this week of the New York Armory Board, Messrs. Lespenisse and Friedman offered two blocks of ground for armory sites. One is between Fifty-eighth and Fifty-ninth Sts., Madison and Park Aves., and contains twenty lots. For this $500,000 is asked. The other is between Fifty-eighth and Fifty-ninth Sts., Sixth and Seventh Aves., and contains fourteen lots: $450,000 is the price. The Mayor said that the Park Ave. site was too near the 7th Regiment Armory, while the other site was too small. The other members of the Board agreed with him. President Coleman said he had been spoken to about Nilsson Hall and the Academy of Music for an armory site. He believed that this space would make a good one, but was not willing to pay more than the land was worth. The buildings would be useless for armory purposes. He said that he had offered $450,000 for the property at Ninth Ave. and Forty-fourth St., now occupied in part by the 1st Battery. The persons owning it would not sell for less than $600,000.

General Fitzgerald, from the sub-Committee on New Armories, reported that after consultation with many architects, the committee had unanimously resolved in favor of the plan submitted by John R. Thomas for an armory for the 8th Regiment and 2d Battery at a cost not to exceed $330,000. The site is between Madison and Fourth Aves., Ninety-fourth and Ninety-fifth Sts. The plan submitted by George B. Post for an armory for the 22d Regiment was also agreed on. The site is at Ninth Ave., Boulevard, Sixty-seventh and Sixty-eighth Sts. The armory, under Colonel Post's plan, is not to cost more than $300,000. The architects are not to be paid if the cost exceeds the estimates. The recommendations of the sub-committee were approved, and a resolution was passed that the Sinking Fund Commissioners be requested to authorize the issue of bonds covering the proposed expenditure.

ALL HONOR TO CO. E, 71ST NEW YORK.

LIEUT. P. S. TILDEN, Co. E, 71st Regiment, in a letter to the *Times*, referring to an item in regard to Co. E giving Co. H a "dry time," and of their having to "buy their own grog," says: "It is a well known fact that one of the chief objections of a parent to his sons joining the National Guard is his liability to be 'treated' and of having to 'treat' in barrooms, and of being drawn into liquor saloons; and that will be one object of our company, to keep its members away from them while they are under the influence of the company, and it shall be our aim to keep them out. We are glad to see any of the companies, and they do us great honor to visit our meetings, and we shall always give them a glad welcome, but they must never expect, nor will they ever be invited into a liquor saloon by any member of our company." We wish that every company in the National Guard would follow suit. It only requires a little exercise of that high quality which a truly brave man always possesses—moral courage. There is not so much objection to men drinking, if they do it in the proper time and place, but of all practices the American custom of swilling liquors at a bar is one of the very worst.

MILITIA ITEMS.

It is proposed to form a corporation for the purpose of arranging and giving concerts and other musical entertainments by Cappa's 7th Regiment N. G., S. N. Y., band in the cities of New York, Boston, Baltimore, Washington, Philadelphia and elsewhere. Proposals have been issued for subscriptions to the capital stock, $10,000.

Captain William C. Casey, for 13 years the successful captain of the famous Ninth company of the 7th Regiment, has again resigned. Captain Casey was regarded as one of the best officers of the regiment and his loss will be felt. He entered Co. H as a private October 4, 1861, was appointed 1st Sergeant March 9, 1863, elected 2d Lieutenant January 11, 1864, 1st Lieutenant Aug. 10, 1868, and Captain April 23, 1873.

The Board of Officers of the 7th Regiment had the usual "Dutch" after the close of their meeting on Saturday, Nov. 27. The gathering was exceptionally pleasant. Among the stories told, that of Colonel Clark, in which he stated that his only object in joining the National Guard in 1857 was to get rid of jury duty, created a great deal of surprise. His inherent military instincts, however, rapidly developed among his new surroundings, and his soldierly bearing, his strict attention to duty and his social qualities soon started him on that round of promotion which raised him in a period of little more than seven years to the head of the most renowned citizen-soldier organization of the country.

A regular meeting of the Board of Directors of the National Rifle Association will be held on Tuesday, Dec. 7, 1886, at No. 5 Beekman Street, at 3.30 o'clock, P. M. A full attendance is requested.

Brig. Gen. Louis Fitzgerald, commanding the 1st Brigade, N. G. S. N. Y., was one of the occupants of the reviewing stand at Philadelphia on Thanksgiving Day last, witnessing the parade of the 2d Pennsylvania Regiment, which, in spite of mud and rain, made an imposing appearance in overcoats with red blankets rolled on top of knapsacks.

An election was held at the Armory last Tuesday evening for 2d lieutenant for the 2d Battery, Capt. F. P. Earle. The choice of the majority was Henry J. Jordan, receiving 40, and his opponent, H. J. Hart, 22 votes. Brig. Gen. Fitzgerald presided, and at the close of the election made a few well-chosen remarks. The first platoon, Lieut. David Wilson commanding, held their usual drill, which embraced the mechanical manœuvres, firing blank cartridges and the entire school of the platoon. It was full of snap, instructor and men being on their mettle. Dr. R. J. Gatling, the inventor of the Gatling gun, was present with Col. Nickerson of Boston, and both were much interested. Gen. Fitzgerald, Capt. Earle and the numerous spectators complimented the detachment upon the efficiency manifested. The drills by platoons are continued nightly, and the organization aggregates 90 men. Capt. Earle has given his consent for a detachment of the battery to participate in the proposed contest in Washington next May. The officers are now laboring hard to have a six-gun battery organization, and Adjt. Gen. Porter favors the project.

Gen. Fitzgerald in appointing Capt. Clarence H. Eagle, Inspector of Rifle Practice on the 1st Brigade Staff has made a good selection. Capt. Eagle is a practical marksman of superior standing, knows all about his new position, and is a thorough gentleman.

We learn with pleasure that Capt. J. T. Stewart stands a good chance for the appointment of Inspector General on the staff of the coming Governor of Pennsylvania. Capt. Stewart has for years been a correspondent of the ARMY AND NAVY JOURNAL, is thoroughly familiar with military affairs. He is a competent critic, and a close observer, qualities which are especially essential in an inspecting officer, Pennsylvania could not secure a more competent officer for the position.

Co. D, 12th New York, Capt. B. S. Barnard, will hold a vocal and instrumental concert at the Lexington Avenue Opera House on Dec. 6. The occasion will derive military interest from a drill by the bayonet squad under 1st Sergt. C. Leiter.

A Philadelphia exchange publishes an order of which the following is an extract:

HEADQUARTERS STATE FENCIBLES BATTALION,
FIRST BRIGADE, N. G. P.,
PHILADELPHIA, November 22 1886.

General Orders No. 11.

I. By virtue of an election held under S. O. No. 55, Headquarters Brigade, N. G. P., on Nov. 18, 1886, I hereby assume command of the battalion. . . .

By order of W. WES. CHEW, Major.

The question is, who assumes command of the battalion?

The 23d Regiment propose to celebrate their 25th anniversary on Jan. 20, 1887, by a grand reception at the Academy of Music. The affair is to be known as the 23d Silver Reception, and will be on a very grand scale. The balcony of the Academy is to be divided into 40 boxes, each box holding six persons. These boxes will be for sale at Chandler's, on Montague street, Brooklyn, on and after 8 o'clock A. M., on Monday, Jan. 3, 1887. The prices of boxes are as follows: Stage boxes G and C, $50; stage boxes H and D, $20; dress circle boxes I and J, $35; first row of boxes in balcony, $30; second row of boxes in balcony, $20. The price for tickets is as follows: For members of the regiment, in uniform, including one lady, $3; for all others, including one lady, $5; extra lady's tickets, $1. Tickets can be obtained from the Adjutant, at 32 Burling Slip, New York; from the Quartermaster, at 84 Beekman street, New York, or from any of the officers of the regiment.

The long-existing vacancy of Assistant Adjutant-General of the 1st Brigade has at last been filled, and General Fitzgerald's choice gives evidence of good judgment. General Thomas H. Barber, the new appointee, is a graduate of West Point of the class of '67. He was then assigned to the 1st U. S. Artillery, and attained his promotion to 1st Lieutenant July 10, 1872. In 1882 he was appointed Aide-de-Camp to Major-General W. S. Hancock, U. S. Army, and this position he filled with high credit until he resigned from the Army, July 1, 1885. Since then he has been attending to private business incident to his large wealth. General Barber is a decided acquisition to the National Guard an account of his military abilities as well as of his wealth and standing.

General Fitzgerald has also made a satisfactory appointment by placing Major Edmund C. Stanton, late Signal Officer on the staff of Brig.-Gen. W. G. Ward, late 2d Brigade, in charge of the new Signal Corps of the 1st Brigade. This position requires an enthusiast, and such Major Stanton has certainly proven himself to be. He is not only familiar with the American methods of signalling, but has also made the systems of several European nations a study. His appointment was well chosen. He is a Director of the Metropolitan Opera House.

At an election of a 1st Lieutenant for Co. A, 71st Regiment, on Tuesday, Dec. 7, Private O'Brien, of that company, will doubtless prove the successful candidate.

With regard to a recent difference of opinion in Co. I, 7th Regiment, as to whether a majority of two-thirds of a company present at a meeting is competent to change the company by-laws, it has been decided very properly by the Judge-Advocate of the 1st Brigade that a vote of two-thirds of the whole company in favor of a change is required to amend the by-laws. The captain of the company held to the contrary opinion

Mr. Howard Howe has been elected 1st Lieutenant of Co. D, 8th Regiment. He is not a National Guardsman, but a graduate of a military school, and possesses all the abilities required by his new position. A dinner will be given him on Tuesday, Dec. 7.

The trial of Lieut. Smith, of the 13th Regiment, with only one or two sessions of the court a week, makes slow progress. On Friday, November 19, Colonel Fackner was on the stand and, after having been objected to as a witness by the defence, which objection was overruled by the Court, repeated in substance what had already been told by numerous witnesses with regard to his conversation with Lieut. Smith on the evening of the election and what occurred at the time of the Board meeting when he ordered the two officers in arrest to leave the Board room. Other testimony with regard to what occurred when Sergt. Heyward Smith delivered the Colonel's message to Lieut. Smith, and referring to the resolutions to compel Capt. Kretschmar to resign, lacked both importance and positiveness. The Court, no doubt, with the intention of giving the accused the fullest scope, seems to admit a great deal of evidence with no direct bearing on the matter under consideration. The object of the trial is to determine if Lieut. Smith is guilty or not guilty of certain specific charges, and testimony as to what Captain Kretschmar did or said years ago, whether he treated his company in a barroom and of similar nature, has nothing to do with the present case and only delays the trial. Friday, November 26, the principal witness was Captain DeMandeville, who, in spite of a severe cross-examination, substantiated what has before been testified to with regard to the conduct of Smith. This session of the Court was particularly interesting on account of an attempt of the counsel for the defence to convince the Court of the constitutional right of National Guardsmen to make petitions like the one under consideration in this case. The promptness and vigor with which Judge-Advocate Goodrich contested this point, and the action of the Court in sustaining him, deserve particular commendation.

The long-expected Court of Inquiry has not yet been detailed. Nobody can conjecture the reason for delay in this matter. So far as Major Ackerman is concerned, his connection with the matter will soon be definitely settled by the Court-martial which has just been detailed to try him, and which consists of Lieut.-Col. Heman Dowd, 12th Regiment, Majors C. A. H. Bartlett, 9th, G. A. Miller, 22d, W. H. Kipp, 7th Regt., and Capt. Thomas Miller, 17th Sep. Co., with Maj. Jenks, as Judge-Advocate.

An important step has at last been made in the armory question, at least so far as the 8th Regiment is concerned. The Committee on Armories has decided that the plans of J. R. Thomas, calling for an appropriation of $330,000 for a building for that regiment and the 2d Battery, and the Sinking Fund Board has been authorized to issue bonds for the purpose. There seems now to be no objection to Col. Scott taking the 12th Regiment Armory until his new building is finished. Such a step would certainly enable him to add a large number of desirable recruits to his organization, and enter the new quarters with greatly augmented ranks While small, the present 12th Regiment Armory is in a decent locality, and in a nice and neat condition.

(Correspondence of the Army and Navy Journal.)

THIRD OHIO NATIONAL GUARD.

THE companies of the 3d Regiment are getting down to work. In armories the drills are not well attended thus far, but the numbers are growing, as officers come to remember that the Military Code, as amended last April, prescribes two full company drills each month, from Oct. 1 to April 30. In this regiment we have an order for a full company drill each week. Our Council of Administration has performed the part provided by another section of our code, viz.: They have fixed the amounts to be paid as dues and fines. These appear in orders from regimental headquarters Nov. 1. This order will help to increase the attendance, if officers try to secure obedience to its provisions.

Our companies will engage in target practice under G. O. No. 16, current series, and I do not doubt, with the care provided in this order and the lessons they will learn from the text-book, something will be accomplished before the close of the target season.

Just now, all are awaiting the issue of overcoats and knapsacks, under a promise made by Gen. Axline, that he would be able to issue all articles necessary for a campaign in the field. With the companies equipped throughout it will not surprise us to see them engaged often in drills out doors.

We will try to "let well enough alone" in the matter of

seeking to improve our laws. We hardly know the provisions adopted last year and if we look over the list it seems to me we should honestly apply what we have and be content for one year. At least, it may be said that there is danger of doing too much and we should be satisfied with the restoration of the amendment providing for 100 companies of infantry, as passed last spring, and a provision for the election of brigade commanders if we must encamp by brigade or if thought our service in the field will require large commands.

We have secured in the bill passed last April a regimental court martial, or several of them, for each regiment, that will meet the wants of our regiments if colonels will only try this plan. Our companies are scattered, outside of Cincinnati. So are our field officers. In the future, when we have a lieutenant-colonel and two majors for our country regiments, we may have four courts in session at one time. None that have tried the court-martial will want to return to the court of discipline.

Next, we have a better provision for securing armories. It is true the order providing inspectors was a long time on the way (the bill was passed April 28, the order required under this section is dated October 13), but in spite of this our quarters will be improved by our boards of commissioners as they see the needs of our companies.

Our *reorganization* will be appreciated when, with the increase of companies named above, we shall have the extra battalion major and the battalion complete in every regiment. We secured better pay for our officers, both for active service and encampments, and a perfect system of business management in the regiment, that the civil affairs of every regiment and company shall be cared for by these officers or the officers present.

We have reached that position in which it can be said that all meetings of our comrades are military meetings. And if our companies are not trained in drill and in all their duties as soldiers the fault belongs to the officers. We have done with the old plan of company by-laws, and the style of debating clubs. Our Code of Regulations contains but a few paragraphs that we can use—instead, we are governed by the Regulations of the Army, the Military Code, and the orders issued by our commander-in-chief. General Axline has given us a series of orders so complete in all parts that we feel safe in saying we have the simplest and safest plan of government known in our service since the war.

O. V. M.

VERMONT NATIONAL GUARD.

THE Burlington *Free Press* says: "The fact has only recently been made public that Lieut.-Gov. Fuller, immediately after his election, tendered to Gov. Pingree and Adjt.-Gen. Peck, his resignation as captain of the Fuller Battery, but that both these officials refused to accept it on the ground that his place in the State militia service could not be made good."

We understand that the resignation of Capt. Fuller was returned to him by Gov. Pingree with this endorsement: "Realizing the distinguished honor conferred on Capt. Levi K. Fuller by the call of his fellow-citizens to the high trust of the Lieutenant-Governorship of the State, the Commander-in-Chief recognizes that he is rightfully warranted in the tender of his resignation as commanding officer of the Light Battery, but in consideration of his invaluable services with the National Guard of Vermont, it is earnestly hoped for the continued welfare of the service, that Captain Fuller will reconsider his action in the tender of his resignation, and that he may withdraw the same."

Lieut.-Gov. Fuller has been for years the captain of Fuller's Light Battery, which is probably one of the best in the National Guard of the United States, as we had reason to observe during a visit to Brattleboro' during one of the annual encampments. The Vermonters are a sober-minded people and do not lightly confer the honors of the elective franchise.

CALIFORNIA NATIONAL GUARD.

THE *Alta* says: An increased interest is steadily growing among officers and members of the National Guard to make our State organization take place in the front ranks, and to this end more attention is being paid to drills and discipline.

Another San Francisco paper thinks that Adjutant-General Drum's remarks concerning the militia in his recent annual report should be written in letters of fire on the walls of every armory in the United States. "Exclude from the annual camps all social or holiday features, and make them strictly camps for military instruction; save the time now wasted in armory drills and in attaining the precision of movement so much admired when performed upon canvassed floors, and instruct the troops thoroughly in battalion and skirmish drill; have the uniform simple, serviceable and issued by the State; the arms and accoutrements of the latest and best patterns; the militia less of a ball, party and picnic association and more of an Army."

MISSOURI NATIONAL GUARD.

COLONEL H. H. HUNT, commanding the 7th Regt., has issued a letter to it, in which he says: You should now be ready to resume in earnest your weekly drills, to train yourselves in those habits of prompt attendance to duty, and to submit yourselves to the moderate restraints of discipline which promote the efficiency of the soldier and strengthen the character of the citizen. The imperfect nature of the present military code has been lately proven. The hope of a better day for the Missouri State Guard may now be indulged. It is confidently anticipated that the Legislature will this winter pass a bill that shall contain sweeping provisions for the better maintenance and more rigid discipline of the State troops, until that bill is passed.

ILLINOIS NATIONAL GUARD.

AT a meeting of officers held recently at Chicago the following recommendations were adopted, to be brought to the attention of the Legislature: An appropriation of $100 000 per annum to pay the expenses of the Illinois National Guard, and the further sum of $80,000 for uniforms equipments, permanent camps and rifle ranges, including a permanent camp and rifle range in the northern part of the State of Illinois; an increase of the contingent fund in the hands of the Governor of the State, to meet the necessities arising from riots and other internal disturbances, etc. The Guard means business and likewise progress.

The case of Private Greathead, of Co. D, 1st Regiment, whose feet became cold while doing duty at the stockyards and who went home after woollen socks, having been passed upon by Court-martial, was appealed to the Governor, who has affirmed the sentence of the court, which was "to forfeit all pay due or to come due not exceeding one month's pay; that he be discharged from the Service and be debarred from holding any position in the military service of the State for three years from Nov. 12, 1886."

LOUISIANA NATIONAL GUARD.

THE inspections of the troops of the 1st Military District, New Orleans, was completed Nov. 30. A general efficiency was noted although many improvements were suggested.

Military Order of the Loyal Legion.

At a meeting of the Minnesota Commandery at St. Paul Dec. 1 the following were balloted for: Lieut. W. O. Cary, 15th U. S. Infantry; Westcott Wilkinson, brother of the late Col. Alex. Wilkinson, U. S. V.; Lieut. E. Dunn, U. S. V., and Capt. John Pitman, Ordnance Corps, U. S. A. After the business meeting a paper on "The Battle of Cedar Creek" was read by Gen. A. B. Nettleton. Lieut. R. F. Bates, U. S. Army, aide-de-camp to Gen. Ruger, has been elected Chancellor of the Commandery in succession to Major G. W. Baird, U. S. A., removed to Boston.

Capt. Arthur MacArthur, Jr., 13th U. S. Infantry, has been transferred from the Pennsylvania to the Wisconsin Commandery.

At a meeting of the District of Columbia Commandery to be held Dec. 8 the following will be balloted for: Capt. W. B. Snell, U. S. V.; Capt. J. B. Eaton, U. S. A.; Medical Inspector Adrian Hudson, U. S. N.; Major W. L. Vanderlip, U. S. V., and Col. W. H. Owen, U. S. V. Lieut.-Gen. Sheridan, Rear Admiral J. H. Russell, and P. A. Surgeon R. T. Edes have been received into the Commandery by transfer. The total membership at last report was 354.

A meeting of the Michigan Commandery was held Dec. 1, at which Companion F. W. Swift read a paper entitled "My Experiences while a Prisoner of War."

The Iowa Commandery was duly organized at Des Moines Nov. 23. The officers are: Commander, Col. D. B. Henderson; Senior Vice, Major H. L. Swords; Junior Vice, Capt. M. A. Higley; Recorder, Major Hoyt Sherman; Registrar, Major Wm. S. Robertson; Treasurer, Capt. W. D. Lucas; Chancellor, Brevet Major Eli Wilkin; Council, Col. W. P. Hepburn, Lieut. M. A. McCord, Lieut. H. H. Rood, Major G. B. Hogin, and Lieut. A. J. Holmes. Among those present were Paymaster J. B. Redfield, U. S. N.; Capt. Chas. King, U. S. A.; Dr. Chas. Page, U. S. A.; Col. J. P. Martin, U. S. A.; Capt. John Conline, U. S. A., and many other Companions of the Legion. Col. Martin, in responding for the "Army and Navy," made an eloquent plea for a better naval equipment. "We are all soldiers," said he, "in time of peril to fight on land, but we need better ships and trained seamen to carry our flag proudly into all waters of the ocean." This sentiment was cheered to the echo. The Commandery starts off under the most favorable auspices.

At a meeting of the California Commandery, held at San Francisco Dec. 29, the following will be balloted for: Gen. W. R. Shafter, colonel 1st U. S. Infantry; Col. H. B. Sprague, U. S. V.; Capt. G. W. Merrill, U. S. V.; Capt. A. S. Everett, U. S. V., and G. H. Pettis, Jr.

At a meeting of the New York Commandery held Dec. 1, Gen. E. L. Molineux presiding, the following were elected: Of the 1st Class—Capt. Wm. N. McCracken, U. S. V.; Asst. Paymr. Theodore E. Smith, late U. S. N.; Capt. Clement C. Moore, U. S. V.; Capt. Frederick S. Benson, U. S. V.; Capt. James A. McMicken, U. S. V.; Major George A. Beardsley, U. S. V.; Maj. Wm. Wagner, U. S. V.; Maj.-Gen. John Newton, U. S. A., retired; 1st Lt. Samuel H. Paulding, U. S. V.; Maj. Edw. L. Joy, U. S. V., and 2d Lt Geo. R. Herbert, U. S. V. Of the 2d Class—Mr. John Van B. Clarkson. Obituary resolutions were adopted in the cases of Rear Admiral Reed Werden, U. S. N.; Gen. A. M. Barney, U. S. V., and Chaplain John Forsyth, U. S. A., and Col. Lloyd Aspinwall. The death of Gen. T. Ellery Lord, U. S. V., was announced. The committee appointed to raise funds for the relief of the widow of the late Gen. W. S. Hancock, U. S. A., reported that $1,050 had been received and turned over to H. Pierpont Morgan, treasurer of the Hancock Fund. The question of giving a ladies reception was referred to a special committee. Col. G. L. Gillespie, U. S. A., was transferred to the Massachusetts Commandery. An invitation was received to attend the George Washington Post, G. A. R., memorial service in honor of Comrade Lloyd Aspinwall at Chickering Hall, Dec. 4. Asst. Surg. Titus M. Coan, U. S. N., read a paper on "Some Recollections of the Mobile Bay Fight."

THE CAVALRY CHARGE.

Dash on beneath the smoking dome;
Through level lightnings gallop nearer;
One look to Heaven! no thought of home—
The guidons that we bear are dearer.

CHARGE!

Clang! clang! forward all;
Heaven help those whose horses fall!
Cut left and right!

They yield before our fierce attack;
They flee! they fall in broken surges.
Now, comrades, bear the wounded back,
And leave the foeman to his dirges.

WHEEL!

The bugle sounds the swift recall;
Clang! clang! backward all!
Home! and good night!

—EDWARD CLARENCE STEDMAN.

THE WARS OF EUROPE.

THE wars of Europe since the sixteenth century present the following table:

Wars undertaken for the acquisition of territory.	44
For the levy of tributes	22
For reprisals	24
To decide questions of honor or prerogatives	8
From claims relative to the possession of territory.	6
From claims to crowns	44
From pretexts of assistance to an ally	30
From rivalry in influence	23
From commercial quarrels	5
Civil wars	55
Religious wars	28

TORPEDOES v. THE "RESISTANCE."

THE *United Service Gazette* says:
